A PROBLEM FOR THE BOYS.

Two boys once on a holiday, by odd and by even went to play. And that they might not be punished, One took for cakes, the other, three.

AN EXCITING RIDE.

"Please sit, can you tell me what time it is?" The writer, while taking a solitary bicycle trip through the valley of the Connecticut, one day last summer, had overtaken a wagon drawn by a slightly animated hat-rack of a horse.

Abstract of Titles.

An abstract of title is a brief statement of all the conveyances recorded affecting the title to a lot or tract of land. All of the titles recorded in the office of the Register of Deeds in Buchanan, Michigan, from 1860 to 1881, are here published.

The Abstract of the Records of Berrien County.

MR. DIX has been prominently and creditably before this community in connection with real estate matters for more than ten years. He is a man of high character and integrity, and his services are highly appreciated.

John G. Dick, JUSTICE.

REAL ESTATE AGENT. Attention Paid to Collection and Conveyancing. Office in Buchanan, Michigan.

WANT FOR THE WAGON.

Every Day Before Dinner. When you hear the bell ringing, And hear those plaintive cries, You may know that we are coming.

PENSIONS!

Thousands of pensioners are entitled to pensions, but many are not receiving them. We have a list of names and amounts, and will help you to get your pension.

Rejected and Abandoned.

PATENTS PROCURED.

spending through the principal street of the town, to the great consternation of the inhabitants who viewed the bicycle, the knickerbocker youth who went over the handle, his legs working like the piston rods of a locomotive, and the flushed and breathless girl who clung on behind, as some apparition of the evil one.

At the minister's house Charlie was waiting anxiously. With a sign that no time was to be lost, the bicyclist hurried into the house, and they were married, fast and light, before the husband had recovered from the first shock of surprise. In five minutes more they were on their way to New York. As the train slowly left the town, Farmer Martin drove furiously in. The bicyclist continued on his way.

Americans in Saxony.

The slow going Germans are amused at the quick ways of the Americans. They smile about the short time in which Americans "do" things—Europe particularly. A German lady, quite amused, and in the same time disgusted, told of an American newspaper man, well known in eastern circles, who spent three days in Germany, and wrote up the country in as many letters as he had spent hours within its borders.

Not to be Fooled by Cow Blackbirds.

MR. D. C. BEARD, writing in the Scientific American, says that our summer yellow birds, though confiding little creatures, are not readily duped or imposed upon by the cow blackbird which deposits its eggs indiscriminately among the nests of other birds, so that its young are hatched and reared without any care from their parents.

Forming a Stock Company.

A New Jersey miller who had become old and rheumatic, one day called on his neighbor and said: "Boys, I am growing stiff in the knees and faint at heart. My liver is out of order, and I can no longer distinguish between a peck and a half bushel."

What to Eat.

A Connecticut professor has deduced from the various analyses and investigations of chemists a table illustrating the comparative nutritive value of various articles of food.

Concerning the Ants.

The ant is probably the most thoroughly organized insect that exists. Its earthworm, whose virtues Mr. Darwin has lately celebrated, does a valuable work in turning and loosening the soil, but the ant does more.

Personal Interview with Oscar Wilde.

BY BILL NYE. We went down to the overland train Thursday evening to see the great aesthete. We picked him out without any trouble, and tackled him for a quiet talk all by ourselves.

Moody and Sankey are drawing multitudes.

There are 11,662 Protestant churches in the United States, one for every 143 Protestant population. Since the passage of the Edmunds bill Salt Lake real estate has risen in value about 15 per cent.

They have a new game in Indiana.

A man who has been investigated by the Board of Health, and proof was obtained of the use of fat from horses and dogs.

Official returns of persons apprehended.

During the year as confirmed drunkards were 27,878 males and 10,062 females. The Rochester Express sagely suggests that when one starts on a journey he should always carry two things—a pocket full of cash and no bundles.

A Lunatic who jumped from a swift railroad train.

In Michigan, was almost killed by the shock, but has been perfectly sane since his recovery.

Lagar beer contains only 4 per cent. of alcohol.

The wine sold in all the saloons contains 5 and 6 per cent. of alcohol, not more. Whisky, gin and brandy contain from 30 to 40 per cent. of alcohol.

for a wage of 1,600 francs, recently walked, without stopping, completely round Paris in three minutes less than three hours. The distance is 24,856 feet, or 7,578 miles.

Test your onion seeds.

Test your onion seeds in a warmish room. If fresh, it will sprout (in about three days) sprout. Onion seed should not be more than one year old, and the difference in the crop from old seed is such that all onion cultivators should test their seeds before sowing.

with not a hod carrier to accompany them reached New York Saturday on the steamship City of Montreal. They were brought over by a society who make a specialty of importing queens of the house, and a dead baby, born to them directly in places already secured.

VERSCHIEDENHEIT.

Game is fast disappearing from Arizona. A paper watch has been exhibited in Dresden. This country eats \$1,000,000 worth of popcorn yearly.

A New Jersey paper boasts that it has been read in one family 85 years.

An obituary notice in a printing office is always looked upon as dead matter. Krupp, the cannon maker, employs 40,000 men, and this, too, in a time of universal peace.

The straightest the whisky the more crooked the walk.

This is a real fact. There are 11,662 Protestant churches in the United States, one for every 143 Protestant population. Since the passage of the Edmunds bill Salt Lake real estate has risen in value about 15 per cent.

There are 100 per cent. more divorcees in Philadelphia yearly than in any other city in the United States.

Moody and Sankey are drawing multitudes against a Glasgow, the city of their first great success in revivalism. The mate and captain of the watch of the Golden City, burned at Memphis, have been indicted for manslaughter.

The San Francisco Examiner says that a child was born to a couple in Sonoma on the 18th of March, after their golden wedding.

Paper made from strong fibers can now be compressed in a substance so hard that nothing but a diamond can scratch it. The manufacture of oleomargarine in St. Louis has been investigated by the Board of Health, and proof was obtained of the use of fat from horses and dogs.

In accordance with his own wishes, the late Palmer M. Baker, a prominent citizen of Ticonderoga, N. Y., was recently buried in a solid sarcophagus of cement.

They were brought over by a society who make a specialty of importing queens of the house, and a dead baby, born to them directly in places already secured. An epidemic of diphtheria, which has prevailed in Frederick City since last summer, is said by the Maryland Board of Health to have been caused by flagrant neglect of sanitary precautions. There is no sewer except an open creek, and the ground has become so thoroughly impregnated with poisonous matter that no remedy can be devised.

Berrien Co. Record.

JOHN G. HOLMES, Editor.

THURSDAY, APRIL 13, 1882.

They call him Mr. James, now.

It is rumored that President Arthur will soon take to himself a wife.

\$12,500 will be about the size of the Boston Fourth of July celebration.

The stream of gold is now running toward Europe from this country.

The remains of a mastodon have been discovered in the marsh near Mishawaka.

Already Arthur clubs are being formed with a view to future prospects for the Presidency.

The southern floods have nearly subdued and the sufferers need no more aid.

Complaint comes from Elkhart county that the wheat crop there is badly injured by the open winter.

Ohio has a new liquor law that tax-saloon keepers \$300 per year. The Texas law makes it \$800.

A bill is before Congress to allow the States to tax greenbacks. That bill ought to be defeated.

Barnum has landed his latest advertisement, Jumbo, the largest tame elephant, in New York.

The fund for Mason's "Betty and the Baby" now amounts to over \$7,000. Queer ways this country has of paying for crime.

A recent decision in the Maine courts makes it about as easy to get all of the whisky you want in that State as any other.

If the Ford brothers are guilty of murder, in killing Jesse James, is not Governor Crittenden an accessory to the crime, and as guilty as they?

A new story is being told of the recent capture of Old Sam Bender, the Kansas butcher, but signs of doubt accompany the yarn.

The appointment of Senator Teller as Secretary of the Interior has been confirmed, and he has entered upon his new duties in the cabinet.

Gov. Pitkin has appointed Hon. Geo. M. Chilcott to succeed Secretary Teller in the Colorado seat in the United States Senate.

Missourians about St. Joseph are getting anxious about the welfare of Frank James, and fear that he may be hovering about that vicinity with deadly intent, and scalp are not considered safe, thereabout.

Five bills relating to the subject of Chinese immigration are now before the two branches of Congress. Two place the limitation at sixteen years, two at ten, and one by Representative Willis of fifteen years.

The attempt to pass the anti Chinese bill over the President's veto was a failure. Senator Miller has introduced a new bill restricting the immigration of the celestials for ten years instead of twenty, as in the former bill.

Estimates are being made for a conduit to carry water from Lake George to furnish New York City with fresh water, the distance of 225 miles. About ten miles of the distance the water is to be conducted through siphons. The estimated cost is about \$50,000,000.

Mrs. Scoville has petitioned to be appointed guardian of her only beloved brother, Charles J. Guiteau, to have control of his person and effects, which she represents to consist of several thousand dollars worth of manuscript and rights, and a regular income of \$15 per day from the sales of photographs and autographs.

The action on the Chinese question brings forth considerable discussion of the subject of immigration in all of its phases. There are thousands after thousands of Europeans of all grades and qualities being shipped into this country in a steady stream, and many of them the lowest and pauper class who are considered obnoxious in their own country. This for the eastern shore of the country, while a very small fraction of the number find homes on the western coast. There are a number of differences between the immigrants from China and those who come to our shore from Europe: The Europeans come with the intention of becoming citizens and swearing allegiance to the government. The Chinese do not. The Europeans learn our language, understand our constitution and laws, share our taxation and other general burdens, bring their wives and children, with a view to staying, and invest their surplus earnings here, and the Chinese do none of these.

E. H. Foot, secretary of the Grand Rapids chair company, solemnly swears that a hollow log drawn out of the river into the saw-mill of the company, one day last week, on being sawed through the center revealed fourteen black bass and one bullhead, which were taken from their hiding place and were taken by the workmen.

The fish were quite large, so large as to lead to the belief that they found their way into the log through a small hole and afterward grew so much that they could not get out. Anybody who doubts can be shown a chair made from that log, and the Grand Rapids Eagle has seen a scale from one of the fish.—Post and Tribune.

A terrible tornado passed through Oakland county, April 6, blowing a number of buildings into kindling-wood, and doing other serious damage. Three persons were killed and one little girl had her arm so crushed that amputation was necessary.

ADDITIONAL LOCALS.

THE building boom is started up this spring at a lively rate, in this place, and we predict that more houses will be built in Buchanan this year than in any previous year.

THERE was a circus at the north end of Lake street last Saturday. Some people might have called it a foot race. The actress went behind with a barrel stave and drove the clown from the ring at a two-forty gait. The neighbors who saw the performance called it well worth the price of admittance. There was a girl in the performance.

BETTY AND THE BABY.—A Philadelphia correspondent visited Sergeant Mason's wife, "Betty," and her baby, and found them in need of money. When this fact was known hundreds of contributions were showered upon the family, and the people seemed to be interested in their welfare. S. Brainard's Sons, Cleveland, have just issued a pretty song, entitled "Betty and the Baby." It is having a large sale. The melody and words are good. Price 85 cents.

THERE are a number of boys in this place who ought never to be allowed to attend any public entertainment without being accompanied by their parents. It would be useless for us to attempt to tell who they are for they may be counted by the dozen. There is nothing vicious about them, but they actually don't know enough to behave themselves when out from the gaze of their parents, and it is the duty of the parents to either keep them shut up in a box, or accompany them to keep them straight.

IT is wonderful how quick new comers will fall into the evil ways of the town in which they settle. The new proprietors of the Benton Harbor Times and Palladium have already commenced finding fault with the narrow gauge railroad, when it is none of their affairs whatever. There must be something about the narrow gauge railroad that hurts the feelings of Benton Harbor terribly, or the people there would not keep up such an everlasting howling about it.

BUCHANAN township is not the only part of the world where there are bad roads. There is a strip extending about one mile this way from the bridge across the railroad in West Niles that is nearly bottomless. There are a few people here who drive to Niles once in a great while, but they can not make very great headway on that drive so long as this piece of road is no better. We would suggest that Niles township expend a portion of their highway fund in graveling that road, a job that has been needed ever since Niles was first made a city.

We learn that we were in error regarding the cause of the \$5,000 suit against the village, by Crocker; but as our informant was a member of the Common Council, and upon whom a summons was served, we supposed there could be no question of doubt. It turns out, however, that Crocker, at one time, two or three years ago, ran off the sidewalk and fell, and now wants pay for that. If the village has to pay damage to every fool who is too crazy to follow a five foot sidewalk, it will be cheaper to keep an escort for such fellows. We have a place for locking up fellows who cannot follow an ordinary street.

THE Odd Fellows celebration to be held at New Buffalo on the 20th inst., promises to be well attended, and the members of the Order at New Buffalo are exerting themselves to properly accommodate and welcome all who will attend. The following is the program to be observed on that day:

1. Procession will form at Odd Fellows' Hall at 11 o'clock A. M., under the direction of the Marshal.

2. Procession will be formed of Encampments and Subordinate Lodges, and will move through the principal streets to the grove, preceded by the band.

3. Business meeting in the grove at 11:30 A. M.

4. Dinner at 12 M.

5. Called to order by the President of the day.

6. Song by the assembly. Opening Ode.

7. Prayer.

8. Address.

9. Music by the Band.

10. General speaking.

11. Song by the assembly. Closing Ode.

GALLIE ITEMS.

Our fine weather has taken hold. On Monday night the ground froze hard.

Mrs. James Fox has returned home to Jackson.

The village "dads" have appointed Wm. McMaster for Marshal.

John Beach has left school and is now studying medicine under Dr. Bulhand. Just look! John M. Beach, M. D. What next?

The Sacred Opera of Queen Esther will be given Wednesday and Thursday evenings of this week, at the brick hall.

Porter Churchill has discovered a way in which the ringing and howling of the wire telephones is completely done away with, and you can converse on the wire much better with the attachment on than off. The wind or weather has no effect on the wire whatever.

Timothy Smith is going to Elkhart on Thursday next on a visit to his people.

Miss Mamie One-his gone to Oxford, Ohio, on a visit.

Mr. Moss, the night operator, has a student.

Mrs. James Wheaton has gone to Kansas to visit her sister.

Mrs. David Smith has sold everything, and will, on Thursday, start for Nebraska to join her husband.

NIMROD.

[Niles Democrat.]

Thomas Moran, residing a few miles northeast of this city, met with a very serious accident on Thursday last. He was at Niles in the morning with his team, and when he got home and while in the act of unharnessing his team one of the horses became furious and pawed him down, breaking his jaw, seriously injuring one eye and inflicting other serious cuts and bruises.

THE ATTORNEY GENERAL'S REPORT FOR 1881.

Accompanying this is the report of the Prosecuting Attorneys of the several counties. The report for this county shows that 319 prosecutions were made. Of these, 3 were sent to State prison for two years, 2 for three years, 4 for five years, 3 for ten years, and 1 for fifteen years. The greatest number of prosecutions for any single county was in Saginaw county, 87, and the fewest Isle Royal, where none, Baraga county one. In Jackson county there were 682.

A Queer Letter.

To the Democrats of Bertrand Tp. At a Caucus of the Democrats of Bertrand township, I was nominated for the office of Supervisor by a vote nearly unanimous. The same parties that assisted in my nomination turned against me at the polls and defeated me by a majority nearly three times larger than out of any other candidate on the ticket.

As this nomination was given me without any solicitation from a single person in that township, I think I am entitled to call attention to this kind of party that put me in nomination. Instead of that, for reasons at this time unknown to me, they chose to unite their efforts for my defeat instead of that of the opposer party.

I never will knowingly be a hindrance to the success of any party to which I may belong, therefore I acknowledge myself not only badly defeated but politically dead.

It is very important that the party may look for new victims for slaughter, or attend to the legitimate work of a party, whichever they may think is for their best interests.

In conclusion, I wish to acknowledge myself under great obligations to the few who used every effort, in vain, to sustain the reputation of the party, and if opportunity ever offers I will repay them so far as lies within my power. Yours very respectfully,

CHARLES F. HOWE.

STATE ITEMS.

Battle Creek has two cases of small pox.

Flint and Saginaw are to be connected by telephone.

Washed out of the dam at Dowagiac was washed out, one night last week.

The steamer Sky Lark is to be run between Michigan City and Muskegon.

If you go to Adrian don't be so thoughtless as to wear "kids." They are not fashionable.

John Simpson, while plowing on his farm north of Grass Lake this week, unearthed six human skeletons, probably the remains of Indians.

The Bay City Tribune reports 45 deaths from accident of workmen in the lumbering districts during the past winter.

Kalamazoo has been designated as the location for holding the next Republican State convention, to be held some time next August.

Five dollars and twenty-five cents a week for prisoner's board beat the Republicans of Cass county. It will probably teach them a lesson that will do them good.

Mad dog in Kalamazoo Friday. It was killed before doing much harm, though it bit three children, fortunately so protected by their clothing that blood was not drawn in either case.

The Jackson Citizen says: There is no doubt but that the two oldest voters in Michigan voted at the first ward polls in this city on Monday, viz: James Goodall, aged 105, and Richard Shorter 111 years.

The run of whitefish in Saginaw bay is enormous this spring, proving that the labor of the fish commission in restocking the lakes with this valuable food fish in years past are showing abundant returns.

The Portland Observer says: Out of 18 common words, given out to classes of about 100 at the teachers' examination at Ionia last Saturday, only five were correctly pronounced; but then a school teacher is not supposed to be a pronouncing dictionary.

The Grand Traverse Herald has made the following calculation: "April 9 is Easter day. Easter day fell on April 9 of 1871. It will not, however, fall on that day after the present year, its latest possible date. This will be the first time it has occurred since the introduction of the new style in 1752. It will therefore occur again on April 9, until after an interval of 67 years, or in 1943; and then not again for 163 years."

OFFICE OF WILLIAM DEERING.

CHICAGO, April 10, 1882.

To my Customers.—The owners of certain patents, known as the "M. L. GORDON" brand, have not only violated, but are still violating, the rights of my clients, alleging infringement in my DEERING TWINE BINDER.

I wish to state that the Gordon patents have for a long time been offered to me at a moderate royalty, and were carefully investigated by me, and I have decided that I in no way infringe on them. If the owners think otherwise, it is quite legitimate and right they should submit the same to the proper authorities, and I will cheerfully issue and abide the result. A decision in the Circuit Court can scarcely be expected in less than three or five years, and a final one in the Supreme Court will take a year or more.

I should not consider this suit of sufficient importance to mention to you, only that it has been made the occasion of a well-known concern for a long time past, and it is now being conducted by the same party.

This concern is understood to have become the owner of a one-third part of these patents by exchange of other patents of little value, and is now being sold to the public at a very low price, and the manufacturer and vendor, or any seller or user; but having properly elected to proceed against me, I am debared from action against any of the others concerned.

much versed in patents, or to consult an attorney every time they have occasion to purchase a piece of farm machinery, and any concern who should propose to create an innocent purchaser with the knowledge of the law, and is deserving to be considered unworthy of the confidence or patronage of the farming community, and is, should be odious, especially when referred to by the responsible party who makes and puts the same upon the market. Such advertising can and should only result in injury to the party authorizing it, and no reputable and high-minded party will resort to such methods of intimidation and threats. The "Drive Well" or "Barb Wire" method does not take well with farmers, or generally commend itself to manufacturers of harvesting machinery.

Finally, I wish to say, I was first to put a successful Twine Binder in the harvest-field. I have made and am making the best and most successful Twine Binder. I have sold more and am now making (as I believe) more Twine Binders than any other concern in the United States. I shall continue to make and sell the best Binder. I can able and disposed, and will warrant, defend and give satisfaction to all claimants and comers, all past, present and future purchasers of the Deering Twine Binder.

If the courts in this case, or any other, should give judgment against me, I will abide their decision and respond to their mandates.

WILLIAM DEERING.

Money for a Rainy Day.

"For six years my daughter was sick from kidney and other disorders. We had used up our savings on doctors, when our dominie advised us to try Parker's Kidney Pills. Four bottles effected a cure, and as a dollar's worth has kept our family over a year, we have been able to lay up money again for a rainy day."—A Poor Man's Wife.

Shoot the bustle.

COURT convened at Berrien Springs Monday.

The house cleaner is making his fortune now.

All come to Buchanan April 29, to the circus.

There was another freeze up Sunday night.

SENATOR MARS made Buchanan a visit yesterday.

GARDEN making now engathen the attention of the frugal.

BENTON HARBOR boats are now making daily trips to Chicago.

The Niles Methodists are to build a parsonage this summer.

BONFIRES of garbage in back yards now light up the evenings.

PRETTY fine weather this is for building narrow gauge railroads.

The youngsters now spend their leisure hours gathering wild flowers.

A few flakes of snow were seen Monday. Getting pretty late for much of that.

EPH. SANDERS is now a resident of Buchanan, and Dayton has lost a good citizen.

DON'T forget the date of A. P. Burbank's Lecture in Rough's Opera House, April 18.

THE St. Joseph firm of Platt Brothers, hardware dealers, have dissolved partnership.

ST. JOSEPH voted to raise \$1,951 highway fund, but \$921 was to pay indebtedness.

OVER 300 names were sent from St. Joseph, asking for the pardon of Sergeant Mason.

BENTON HARBOR is talking of purchasing a team for hauling their fire department about.

SPRING parasols and winter hats and cloaks have been fashionable the past two weeks.

As usual, the RECORD had the most perfect election report of any paper in the county.

THE assessor has commenced his annual work of finding out how much property you own.

TRAMPS are coming out in abundance with the spring weather. The prospect for the crop is good.

ELD. J. H. PATON will preach at the Old Advent church next Sunday forenoon and afternoon at the usual hours.

COME out Tuesday night and hear A. P. Burbank in his inimitable representation of Rip Van Winkle.

MR. BURRANK has a delightful repertoire, including some of the finest gems in the English language.

THE carpenters are all busy, and you'll have to put off that repairing until some of these new houses are finished.

AN easter picnic party went out on the narrow gauge railroad Saturday afternoon, for a frolic. The chief diet was boiled eggs.

ROYALTON township is having a wrestle with the measles. Some of the schools have been closed on account of the disease.

THE steamer Cors of Benton Harbor is ashore off South Chicago. No business trying to sail in the winter on Lake Michigan.

A FINE new building is being erected on Day's corner. It is 200 feet in length, one story high, and highly decorated on the outside.

OUR thanks are due Regent Van Riper for a copy of the last calendar of the University of Michigan. It contains the names of 1,584 students.

THE sale at Mr. Pears' farm, in this place, was not very largely attended, for the inducements offered in fine stock and good farming tools.

MR. GEORGE BOYLE has moved to his farm, recently bought of Mr. V. Harrington, on the Dayton road, and will make that his home for the future.

BOB COVELL's team had a little run for their health, up Oak street, with a pair of heavy trucks and no driver, Tuesday afternoon. No one hurt or badly frightened.

Now for a little extra work on those back alleys. A good cleaning may make a material difference in the health of the neighborhood during the summer.

The country roads are in almost as bad a condition as possible. They are full of great holes, almost bottomless, and the only way to make them worse is to make them all hole.

BARBED wire fences are being built along the Michigan Central railroad, in this section, where those buying the adjoining land do not object to that kind of fence.

The northern zephyrs of the past few days create a feeling in those early gardeners, that it would be as well if their garden seeds were securely packed in a warm place. This is a case of early birds catching the worm.

MRS. ADDIE, wife of Dr. L. I. McLin, of St. Joseph, died quite suddenly of congestion of the bowels Monday morning, aged 89 years. She was a daughter of Capt. N. W. Napier, who was lost on the Alpena.

JOHN G. HOLMES, editor of the Buchanan RECORD, received one vote (printed slip) for school inspector in this township.—Berrien Springs Journal.

He was not there to vote for himself.

In another column may be found a letter from William Deering to his customers, regarding the patent suit for royalty on twine binders. He explains the subject satisfactorily.

A. P. BURBANK, the humorous and dialect impersonator, at Rough's Opera House, Tuesday evening, April 18. General admission 25c, reserved seats 50c. Tickets on sale at Folk's jewelry and book store.

MR. CHARLES F. HOWE has evidently not yet learned that the voters of a party do not always attend the party caucus, and those who stay away sometimes go to the polls with views differing somewhat with those who attend the caucus.

A NUMBER of years have passed since there has been a better prospect for a heavy wheat crop in this vicinity than this year. The ground is well covered and the growth rank. We have thus far heard no complaint of the Hessian fly.

THE Hurt family of juvenile singers gave an entertainment in Rough's Opera House Saturday evening, and gave such satisfaction to the audience that others were given Monday and Tuesday evenings, with full houses. A second McGibbiner family, excepting in number.

MR. H. A. CHAPIN, of Niles, receives from \$70,000 to \$125,000 rent on 120 acres of land he owns in the Northern Peninsula, and that cost him less than \$200. If any one complains to you about Michigan not being a good place for profitable investment in real estate, please refer them to Mr. Chapin.

THE Democrat office in Niles must be a fine place for young men to learn a good trade and get started in the world. An advertisement for a boy to learn the trade appears about each three months or oftener. It is not every printing office that can graduate good printers so often.

A TELEGRAM from St. Joseph to the Evening News, dated the 11th, says: "The bitter cold last night injured the peach and cherry buds to a great extent, but other fruits seem all right. There is a snow storm prevailing this morning."

THE following letters remain uncalled for in the post office at Buchanan, for the week ending April 12, 1882: Mrs. Margarette Camp, Mr. Charlie Dewit, Thomas Vandhoff. Postal cards: Miss Angeline Gray, Mr. B. Ries, Mr. G. W. Rounds.

THE latest swindler that calls upon the honest granger is the vender of carpets at a much cheaper rate than will be done by responsible dealers. The swindler obtains an order, and the next time the granger bears of his carpet transaction he is called upon to settle a 90 day note at the bank.

PROF. JAMES JORDAN, lately of Buchanan, has formed a partnership with friend Blackman, of the Paw Paw Free Press and Courier. Success to them and one of the best papers in that county.—Dowagiac Times.

DID you just find that out? Mr. Jordan has owned an interest in that paper, the same that he now does, two years or more.

THOSE who live at the southwest corner of the township are already beginning to wonder if the new highway commissioner will not visit them soon and take a squint at the first half mile of road this side of the corner. If he wishes to have sweet dreams and live in peace with that part of the township, it would be policy for him to go at once.

THE Roe family monument put up on their lot by the Beistle Brothers, last week, attracts the attention of all who visit Oak Ridge Cemetery. The monument is twenty feet in height, instead of eighteen, as was mentioned last week, and the great amount of work upon the many inscriptions is well executed. It will be worth your while to see it.

IT is coming in fashion for traveling salesmen to sell goods to be paid for in monthly installments. A canvasser has been at work on Buchanan during the past week with an easy chair, which he sells for more than he would be asked by either of our local furniture dealers. The goods probably give a little better satisfaction when bought of a stranger at a high price.

MRS. WM. PAXTON, who has been a sufferer of terrible misery during the year or more with a broken wrist that would not heal, had her hand amputated on Sunday last. Drs. Bonine, Belknap, Pierce and Berriek performed the operation. She injured her wrist in a fall upon the ice over a year ago. The bone was found to be badly diseased.

Additional locals on second page.

In another column may be found Mr. Charles F. Howe's lecture to the Democrats of Berrien township. It is a peculiar bit of literature in that it is the first instance on record in which a Democrat has acknowledged beaten, and given up the race for office.

A NUMBER of the young people of this place went yesterday to Decatur to attend the wedding of Mr. George I. Blowers, of South Bend, and Miss Belle Starrett, of Decatur, which took place at the home of the bride's parents last evening.

THE RECORD is in receipt of a letter from Mr. Geo. H. Rough who is now visiting with his brother-in-law, in Crete, Nebraska. He appears well pleased with his first acquaintance with that portion of the great Republic.

MATRIMONIAL.

One of the most brilliant weddings ever held in Buchanan was that of Mr. Albert A. Worthington and Miss Lou Van Riper, eldest daughter of Attorney General J. J. Van Riper, which occurred at the M. E. Church last evening, April 12, 1882. The ceremony by Rev. W. I. Cogshall was said in his happiest mode, and attracted special mention by its appropriateness of scriptural application. The bride was dressed in a rich cream colored gown of silk, trimmed with broad satin of same color and white spanish lace, and a rich bridal veil. At 8:30 about 120 of the invited guests met at the home of the bride's parents, where they were entertained until a late hour with conversation and refreshments, and a fine lot of valuable and useful presents left for the newly wedded couple. The bridal tour will include a two weeks' visit among relatives and friends in the west and north, when the new family will make their home at the corner of Chicago and Clark streets, the property recently purchased by Mr. Worthington.

Following is a list of the presents and donors:
