

WOMAN AND HOME.

Arts Employed to Enhance the Charm of Modern Belles.

There is as much a "fashion" in complexion as there is in bonnets or boots. Some women are the mode, sometimes the leader. Just now the latter is in the ascendant, though, as a rule, only in that inferior phase which has not reached the "concealment of art"—the point where extremes meet and the perfection of art presents as an appearance of nature.

The prevalent and increasing short-sightedness of our times is, perhaps, partly the cause of the excessive use of rouge and powder. The middle of the forehead is the place to start with, and the powder is applied to the rest of the face.

On the other hand there are some women so clever at making up their faces that one almost feels inclined to condemn the practice to the same extent as the use of the small minority, and are likely to remain so for their secret is of a kind unlikely to be shared.

The closest inspection of these cleverly managed complexions reveals no trace of art. The complexion is so perfect that the most skilled artists, an occasional burst of confidence has revealed a few of their means of accomplishing the great end of looking pretty.

Well, I really do. I looked old enough to be your mother; but then, you are wonderful. You always look so young and fresh. I can't get that I have the water filter. When I go down for dinner I always wash my face with milk, adding just a touch of water to make it pleasant to use.

Can't Hold a Candle. St. Louis Post-Dispatch interview with John W. Norton. "Did you see Mrs. Langtry during your stay in New York?"

Walter Gries in Germany. It is astonishing how alike everything is the world over. In these best halls the waiter girls who have plump, shapely arms are very short sleeves, while those whose arms are very thin and not at all shapely wear long sleeves.

Grubbers Outwitted. A well-known organ manufacturer at Bratleboro, Vt., who employs women in his factory, found certain of his workmen complain that their women had stolen their skill for the duties assigned them.

Chaperon of House-Cleaning. The Housekeeper. We hope to give our readers some timely hints on this subject, which may be of benefit to them. Always keep one room where the family may be comfortable.

Bad Air and Bad Food. James R. Chadwick in N. A. Review. Among the lower and middle classes in the country the women often pass two or three months of winter in a single room, heated by an iron stove.

W. H. TALBOT, MACHINIST.

The Haskins Engine, Gardner Governor, Utica Steam Gauge.

Engines, Threshing Machines, Wood Sawing Machines, Horse Powers, Mowing, Reaping and Other Machines repaired.

Shop on Chicago street, near mill race.

No Whiskey! BROWN'S IRON BITTERS is one of the very few tonic medicines that are not composed mostly of alcohol or whiskey.
