"Thorton, did you ever see a ghost?" "No, never," replied Thorton. "But I have seen some very queer things."

"Certainly I did, and I laughed like the rest of the world. I had actually been in the room for two or three seconds I knew I was conquered."

"For the first time in my life I felt myself not a free agent. Despite my intense wish to remain in the room, I felt compelled to retreat my steps towards the door."

"I was looking at each other in silence, and then struck forcibly by the absurdity of the situation, I burst into a fit of laughter."

"Never mind. But, Lawrence, do me a kindness and tell me, please, why did you not go in?"

"Thorton, did you ever see a ghost?" "No, never," replied Thorton. "But I have seen some very queer things."

Agricultural Lore. Frozen roots, or, indeed, frozen food of any kind, is very pernicious to stock and all other stock, and it is apt to scour them badly, and in any event their food should be warm.

The best cider preservative is salicylic acid. It has been extensively used, and samples of cider that have been kept from six months to a year still have the peculiar flavor of new cider.

The Value of Rye. Few farmers regret the sowing of rye. It is generally a sure crop, and the grain is valuable in so many ways.

Twice Married in One Night. A social party at Freeport, L. I. had a singular and romantic ending. After the usual games and dances incident to such gatherings had been indulged in, the many couples present were discussed and the probability of their making a new and unusual solemnity was recognized.

DOGS have been getting in their work among the sheep south of this place. BUCHANAN, March 4, 1888.
EDITOR RECORD—As I have seen nothing in your paper the past winter from school district No. 5, I will say that our school closed yesterday, and a very pleasant time was had at the school house in the evening. The scholars had prepared, on short notice, quite a number of good declamations and dialogues which they handled well, considering the short time they had for preparation. After the scholars were through, a splendid debate was entered into on the Woman Suffrage question. The audience, after listening to the speakers about an hour, must have concluded that a great injustice is being done the women of this country in not allowing them the privilege of voting. Our school has been taught the past two winters by E. S. McGlinsey, of your town, and he has given universal satisfaction both terms, and as an energetic worker and efficient teacher, I would recommend him to any school board.
J. E. WEST, Director.

Two noted criminals have passed in their checks. Two dogs belonging in this place have been making a regular practice for some time of going on a sheep raid into the country every few days. Their last attempt at their favorite sport was in Wm. Willard French's flock Monday forenoon. Frank McKeen happened along at about that time and caught them at it, and their scalps are now on the way to the tan-yard.

MR. J. H. MATTHEWS, of Berrien Springs, General Superintendent of the St. Joseph Valley Railroad, was in Chicago last week, on business for the road, and informs the RECORD that the prospect is flattering for an extension of the road to St. Joseph during the coming summer; although upon being asked, refused to give the public the particulars at this time. The road can be made a paying investment by such an extension, and can hardly be with out it, and for the best interest of both the owners of the road and of the public, it cannot be built to St. Joseph too soon.

THE annual village election will be held next Tuesday. There will be two full tickets in the field, and the beneficial effect of decided opposition without the intervention of "bad blood," which is morally sure to follow the action of any Union caucus, the implied meaning of which is the combination of all parties, and consequently but one ticket in the field, either followed by a feeling of dissatisfaction among those who took part in the nominations or an indifferent election and a poor selection. In these days, when it is fashionable to assassinate King Caucus, it is something of a matter of doubt whether the people will be best pleased with numerous caucuses or no caucuses. The former will be experimented with this year.

A Joint Resolution.—Whereas a number of the members of this Legislature have been engaged for several weeks in an insane attempt to find a proper man in the Republican ranks to represent this state in the United States Senate; and

Whereas, a grave question has arisen whether the persons engaged in that attempt are not mentally unbalanced. Resolved, That a committee of investigation be appointed of not less than nine members from the same portion of this House, to-wit: the Union party, to investigate and report upon the sanity of said members, especially of that portion of them popularly known as "kickers," with power to send for persons and papers, etc.

On Thursday afternoon it was apparent from the uneasiness of the members, that a break in the Senatorial fight was not far off, and upon the assembly of the joint convention at noon, every member of the third house was in his place anxiously expecting a lively time. But the result of the vote told the same old story: Stockbridge, twenty-nine; Palmer, twenty-nine; Willis, six; Crosby, two; Hannah, one; Ferry, one. Another vote was taken, in which a boom for Withey was attempted, resulting in giving him eight votes. A recess was then taken until 7:30 P. M.

After the second ballot, in the evening, it becoming evident that Mr. Stockbridge was running behind, he was withdrawn from the race, and the eighty-first joint ballot was ordered. A coincidence, when it is noted that there are just eighty-one Republicans in both Houses. On this ballot, Palmer received forty; Crosby, twenty, and the balance were scattering. But one vote was now needed to give Mr. Palmer forty-one votes, that being a majority of the Republicans. It was supposed that Crosby would receive the entire support of the Stockbridge men. But he did not. A change was made to Palmer from Ferry, who then had six votes. This was the signal for a general rush, and quickly one after another changed their votes to Palmer, until he had seventy-five votes (including one Democrat), and all knew that the struggle was ended.

On Friday morning the Senate adjourned until Monday evening, and the Legislature will undoubtedly grind out the work from that time on.

That everlasting third house has also adjourned, and it may be predicted that from this time on we shall have peace until some of the more important issues are brought forward, at which time their reassembling may be looked for.

On Monday evening the Senate reassembled with a quorum present. Senator Duncan in his chair as usual. There was no quorum in the House.

From Lansing.

The fifty days for the introduction of bills has passed and gone. According to the tradition of the Michigan Legislature, it is a high-old-time-honored custom to hold an evening session on the fifth day, and upon that occasion the usual decorum of the House gives way to the introduction of fictitious bills, which are often the occasion of much merriment. To take in all these bills, one must of necessity be familiar with the general appearance and action of the members. A member who subscribes himself "Bro. Gardner" introduced a bill which is read by its title by the clerk of the House, as follows:

A bill, to provide a punishment for the killing or maiming of fleas by females. The originator of this bill is noted for his interference in connection with the society for prevention of cruelty to animals.

A bill, to provide for the manufacture and application of a gag of sufficient power (if within the possibility of human ingenuity) to hold and control the jaw tackle of aspiring attorneys, and thus prevent their committing the crime of cruelty to animals, in the constant anxiety to speak their little piece.

A bill, to facilitate the payment of hotel bills by Senatorial candidates and their helpers.

A bill, to facilitate and expedite the further and more complete drainage of the state treasury.

A bill, to encourage the hatching and propagation of brass bands.

A bill, to change the name of Governor to Principal Servant or First Hired Man.

A bill, Requiring the lobby in attendance at the joint convention to wear badges with the name of their candidate for U. S. Senator stamped thereon.
