It may be argued that the work of compilation is worth something, but it is certainly not worth \$2 per volume. But leaving aside alto-gether the question of price, there is not the slightest warrant for buying Judge Howell's book. The legislature has just as much right to spend the people's money for the purchase of 9,-000 copies of the latest French novels." What are the facts? The "Howell compilation" will consist of about 2,the cost between this and the New one hundred pages. It is not a matter will compile 9,000 sets of the compiled laws, with annotations, references to supreme court decisions, and references 000. This question depends largely on the amount of books to be furnished, as to whether it is worth \$2 or \$2,000. The truth is, the Governor has corresponded with several officials in other States, and from all information that can be gathered, Michigan has secured as cheap an edition of the compiled laws as could possibly have been obtained. The present laws of New York are in three volumes, of 1,122, 1,169 and 1,360 pages respectively.

They will average nearly one folio less to the page than the Howell compilation, and like the Indiana laws, are of an inferior quality of material, as also of binding. Undoubtedly a French novel would be more pleasing to some NEMO.

The business of calling in bonds for redemption at the government treasury has met with a serious check by the lack of receipts, which is expected to be still smaller when the new tariff laws shall have all come into force. But little further reduction in the public debt can be looked for under the new arrangement.

The United States District Courts of Iowa and Minnesota, at Des Moines, May 9, gave an opinion on the celebrated drive well cases, holding that the patent was void. Thus the litigation doubles up. The variance of this decision, with former ones given in other States, will lead to further contests of this patent drive.

On Thursday last the Legislature voted on the Case liquor bills. The first one provided for the opening of saloons on legal holidays and on the evening of election days, and to permit the bonds, in the sum of \$2,000, to be signed by two sureties who may be residents of the county, instead of the village or city, as at present. DAYTON, MICH., April 14, 1§8.

I have used two Deering Twine Binders. The first one, for some reasn, did not work satisfactory, but the second one worked to perfection. The lastlay of harvest I cut 22 acres in about 9 hours. My fifteen-year old boy drove the most of the harvest and could handle the machine with ease, and I am satisfied that Mr. Deering and his agents will deal justly with their customers in all eses. JOHN C. MARBE.

I bought the Deering Binder which John Marble condemned and itworked all right. There never was anything the matter with the machinebut the failure was owing to the inexperience of drivers. The expert sent her fixed it in half a minute after he got here, and I like the machine. I cut fire after supper that day than I had done with my old one in all the forenoon It is a light draft Machine and did not fatigue the team as much as lightplowing would have done. WILLARD MALLE.

BAINBRIDGE, Feb. 14, 1883.

Messes. Wood & Samson: The Minneapolis Twine Binder bought of you last year met my expectations fully. Indeed I was delighted with it. It proved to be of much lighter draft than I thought any machine could be that did so much work, cutting nearly 7 feet, elevating and binding in the most perfect manner. Cut my level fields with two horses and my sandy and hilly fields with three horses with ease. The wo-men folks were also loud in its praise, not having any more folks to cook for through harvest than any other season of the year. In fact it is a Godsend to the overworked and over-worried farmer, who has enough to do without riding all over the country to look up harvest help. J. M. GUY,

BERTRAND, Feb. 9, 1883.

MESSRS. WOOD & SAMSON : GENTS: I cut from 17 to 19 acres per day with the Minneapolis Binder purchased of you last season. I think it is the best and most easily managed Machine of any sold in this section of country. I would not exchange my machine for a Deering for \$50. Farmers, if you want a Binder, listen to what I tell you MOSES SHOOK. and buy a Minneapolis.

ROYALTON, MICH, March 7, 1883.

Messrs. Wood & Samson: GENTS: The Minneapolis Cord Binder that I bought of you last season has given perfect satisfaction in every respect.

Yours truly, A. H. CARLTON.

ROYALTON, MICH., March 10, 1883.

Messrs, Wood & Samson: GENTS: I bought one of your Minneapolis Twine Binders of your agent last harvest, and it gave good satisfaction in every way. It is light on a team and easy to handle. I do not know of any other Machine equal to the Minneapolis. I have no hesitation in recommending it to parties who want a good machine, for it saves all the grain.

Respectfully yours, WM. STEVENS.

BUCHANAN, MICH., April 12, 1883.

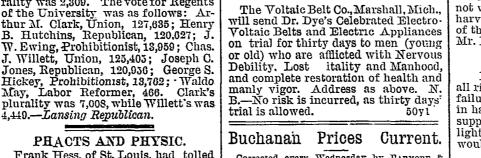

Messrs. Wood & Samson: GENTS : I do not hesitate to say the Minneapolis Harvester and Binder is the most perfect machine I ever saw. I have used the McCormick and watched the workings of several others, and consider that for simplicity, easiness of operating and lightness of draft, raising and lowering, the Minneapolis is far ahead of any of the others.

HERVY FRENCH.

BUCHANAN, MICH., March 12, 1883. I bought last year, of Wood & Samson, a Minneapolis Harvester and Binder. I have tried it thoroughly in heavy wheat and in light wheat. It is a light, easily handled machine, of light draft for three horses, and is to all appearance a durable machine. It will take up lodged wheat better than I had believed possible for any Harvester to do. In fact I am highly pleased with it in every way, and can hardly find words to express my high commendations of it as a wheat harvesting implement. ENOS HOLMES.

BUCHANAN, MICH., March 14, 1883.

MESSRS. WOOD & SAMSON: I am perfectly satisfied with the Minneapolis Harvester and Twine Binder I purchased of you last season. After I got it learned I had no trouble in mana-

"and" being particularly obnoxious, to the liquor dealers. The first bill was defeated by 49 nays to 20 yeas; 13 Democrats, 6 Republicans and 1 Greenbacker being in favor of the bill, while 40 Republicans, 7 Greenbackers, and 2 Democrats believed that our present stringent law was the most preferable. This vote shows that 87 per cent. of the Republicans are in favor of temperance, while S6 per cent. of the Democrats favor the liquor side of the question.

On the second bill the committee, after a struggle, struck out all after the enacting clause, in which the House concurred by 42 yeas to 36 nays. Of the yeas, 37 were Republicans, 4 Greenbackers and 1 Democrat. Of the nays, 15 were Republicans, 15 Democrats, 5 Greenbackers and 1 Independent. We are glad to note that in every case a vote has been taken on the temperance question both of the Representatives from this county have been found on the temperance side.

Too Close For Comfort. The following account of a cyclone in Sturgis appeared in the Inter-Ocean, Tuesday. The heaviest rain, hail and wind storm that has appeared in this section this year occurred at about the same time, although no damage is reported other than the breaking of a few glass by the hail:

STURGIS, Mich., May 14.-- A terrible destructive cyclone visited this vicinity this afternoon. The cyclone was in the form of an inverted funnel and made a noise like the sound of an approaching train, only louder. A violent hall and rain storm accompanied it, the water coming down in sheets, fairly flooding the earth. It must have had its origin in Northern Indiana, and come into this state in a north-easterly direction, but afterward passed in nearly an easterly course. No damage was done other than the destruction of timber, fences and orchards until it struck Henry Rawson's farm, three miles south-west of this place, where his outbuildings were badly damaged, and the roof of his house was carried away. Part of the roof of Peter Gardner's house, about half a mile east of Rawson's suffered the loss of its roof, and the other buildings on the place, together with his orchards and fences, were badly wrecked.

The greatest damage was done at Chauncy Gilham's place, about half a mile further east of here. Property to the value of fully \$6,000 was destroyed, including one of the finest barns in the county, recently erected at a cost of \$2,500. Mr. Gilham and his three sons were near the barn fixing a fence when the storm overtook them. They sought protection in a lean to of the barn, which was blown down on them, burying them beneath the debris, when they were afterward found all more or less hurt. and Arthur, aged 9, will probably die. Mr. Gilhan had several ribs broken. A cow and some hogs were killed, and Andrew Campbell, a farmhand in another part of the barnyard, was hurt about the head and shoulders by falling timbers.

George C. Runyan's place, a little further on, was totally destroyed; nothing but the walls of his large stone house left standing. He was blown about the yard like a puff-ball, and grasped a small peach tree, which was afterward broken off, and he was afterward hurled into a little hollow, where he remained until after the storm was over. He raised early vegetables for the market, and all his hot beds were destroyed. His loss is heavy, and he is a poor man. The citizens are now

Rev. Father Wilds' EXPERIENCE.

The Rev. Z. P. Wilds, well-known city

missionary in New York, and brother of the late eminent Judge Wilds, of the Massachusetts Supreme Court, writes as follows :

Massachusetts Supreme Court, writes as follows: "73 E. 54th St., New York, May 16, 1882. Missips. J. C. AYER & Co., Gentlemen: Last winter I was troubled with a most uncomfortable itching humor affecting more especially my limbs, which itched so intolerably at night, and burned so intense-ly, that I could scarcely bear any clothing over them. I was also a sufferer from a severe catarrh and catarrhal cough; my appetite was poor, and my system a good deal run down. Knowing the value of AYER'S SARSAPARILLA, by observation of many other cases, and from personal use in former years, I began taking it for the above-named disorders. My appetite im-proved almost from the first dose. After a short time the fever and itching were allayed, and all signs of irritation of the skin disappeared. My catarrh and cough were also cured by the same means, and my general health greatly improved, until it is now excellent. I feel a hundred per cent stronger, and I attribute these results to the use of the SARSAPARILLA, which I recommend with all confidence as the best blood medicine erer devised. I took it in small doses three times a day, and used, in all, less thau two bottles. I place these facts at your service, hoping their publication may do good. Yours respectfully, Z. P. WILDS." ging it, although it is the first one I ever run. I think it is a light draft machine, as my team had no trouble in handling it, and I cut with it where I thought it impossible for a Binder to run on account of hills, and I think it is a durable machine. JOEL HARTLINE BERRIEN SPRINGS, MICH., March 10, 1883. Messrs. Wood & Samson:

The Minneapolis Twine Binder I bought of you works like a daisy. I harvested 130 acres of wheat and 30 acres of oats without trouble or delay. I believe it to be the "bull of the woods." THOMAS B. WYNN.

WATERVLIET, MICH., March 15, 1883.

MESSRS. WOOD & SAMSON: GENTLEMEN: The Minneapolis Twine Binder I purchased of you last year is worthy of recommendation. I am well pleased with it. It is by far the lightest draft of any Binder I saw work. It binds tight and does its work well. To farmers intending to buy a Binder I would recommend the Minneapolis as the best Twine Binder in use. JOSEPH CLAUSER.

BUCHANAN, MICH., Feb. 12, 1883.

MESSRS. WOOD & SAMSON : GENTS: I hesitated a long time before buying the Minneapolis Harvester and Twine Binder of you last season, because I always aim to buy the best of farm machinery, and I was fearful it would not meet my expectations, but I am happy to inform you that I am well pleased with its workings in every particular. As to lightness of draft durability, capacity and ease in handling, the Minneapolis is second to none in the market. If I were to buy a Harvester this season I should certainly buy the Minneapolis, and I advise farmers in need of a Harvester to purchase the Minneapolis Harvester and Twine Binder.

CHARLES F. HOWE.

BUCHANAN, MICH., Feb. 7, 1883. Messrs. Wood & Samson: GENTS: The Minneapolis Harvester and Binder purchased of you last season works to my entire satisfaction. I cut 153 acres of grain, averaging about 20 acres a day. I am familiar with the working of a number of different Binders, and I have no hesitation in giving the Minneapolis a decided preference over all the others. M. WYNN.

BUCHANAN, MICH., Feb. 12, 1883.

Messrs. Wood & Samson: GENTS: Being in want of a Harvester, and after careful examination of the

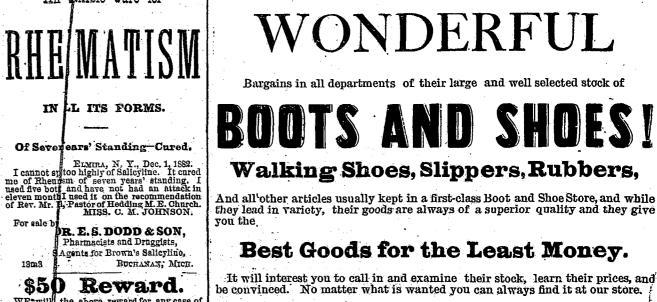

various Twine Binders used in this section of the country, concluded to try a Minneapolis, and after due trial find my selection was well made, as the Machine fills the bill in every respect. It runs light, binds well, making uniform bundles that do not untie in stacking. It is the only machine that has the packer trip which prevents the Binder from clogging whatever the condition of the grain. I cut my harvest of 80 acres in five days, with the ease never before accomplished. I cannot say too much for the Machine, and would recommend all farmers in ERASTUS H. KELSEY. need of a Binder to get a Minneapolis.

GENTLEMEN: I did all my harvesting with the help of a boy. Cut 48 acres and did not have a bundle come untied. Have cut all day and did not miss a bundle. I would not take \$500 for my Binder if I could not get another like it. Would say to farmers in need of a Binder, get a Minneapolis and save labor, time A. L. WOUD. and money.

BUCHANAN, MICH., Feb. 2, 1888.

MESSES. WOOD & SAMSON: The Minneapolis Binder purchased of you does better than I expected. I am fully convinced there is no better Binder made, so far as I have seen. W. B. FRENCH.

The Greatest of All Shows is Com-A CARD ing to Niles on Monday, May 28. The Sells Brothers, who have had the good fortune to be the first on the Lake Front this season, are to be congratulated in presenting a show that corresponds with the announcements. They don't beguile the people with pretentious advertisements of wonders that have never materialized, and they ness. really produce what they claim. This is almost too much to say of a circus, and it will hardly be credited, but a candid examination of this menagerie and ring brings the truth-loving reporter to the confession that sobriety of statement is mighty, and is prevailing over all of Barnum's adjectives.— Chicago Evening Journal, May 17. 1881. For many excellent reasons, conspicuously furnished by itself, we are

pleased to announce the speedy coming of Sells Brothers' Enormous Railroad Shows, now united. Every possible assurance is given that it is, what its title suggests, the grandest and wealthiest amusement organization on earth, canopying all wonderland with its half million yards of electric lighted canvas. But even more conclusive evidence than the weighty indorsement of the press and the potent voice of public approval is the straightforward and unprecedented action of the Messrs. Sells themselves in vigorously demanding the strict enforcement of the law against all exhibitions guilty of obtaining money under false pretenses, and of grossly swindling their patrons by loudly advertising attractions they do not possess; in strenuously insisting that a passable performance in some respects does not excuse wholesale misrepresentation in other things; and finally, in frankly and boldly urging the press to speak of their show just as it is.

Clearly, no impostor, no fraudulent advertiser, no ordinary exhibition would dare to thus plainly and publicly arouse such powerful agencies to crush it. Genuine superiority, true greatness and invincible integrity can alone court such an ordeal, and as the Messrs. Sells are the only ones to do it, the conclusion is irresistible that theirs is indeed the very First and Finest of
