STILL the good work goes on. St. Joseph has raised within a few dollars of the amount asked for—\$10,000, and has given satisfactory right of way for the St. Joseph Valley railroad through that township, and with every move, the prospect brightens for an early ride to the Lake over that road.

THE fellows who are prowling around Front street houses along in the midnight hours, trying back doors and windows, must be very cautious in their work. There is a young arsenal up in that part of town that is liable to go off at any time and scatter lead at a dangerous rate. The man at the trigger sleeps with one eye open.

THE committees appointed at Berrien Springs to solicit contributions of right of way, and cash for the extension of the narrow gauge road to St. Joseph, are making commendable progress. They have secured the greater part of the right of way in Oronoko, and with each day's work the prospect brightens.

OUR remark that oats had been found growing on a corn-cob has revived, with new and increased interest, the question, "Does wheat turn to cheat," and there are men who pass for men of more than ordinary intelligence who actually take the affirmative, and say, "If it does, how do you account for the first crop of fire-weed in a piece of new ground, and the crop of colts-fall that follows that?"

B. D. HARPER and John Morris report having met N. O. Frazier at Evansville, Ind. while on their trip south. N. A FEW weeks since, Spencer & Barnes, of this place, had stolen from their safe a pocket book containing some notes and valuable papers and a small amount of money. Last week they were somewhat surprised to receive notice that their lost property had been found deposited in a coal car in Chicago, and well pleased to have it returned to its being in that place.

THE South Bend Tribune closes the announcement of the extension of the St. Joseph Valley Railroad with the word "Doubtful." Well, perhaps, but you will doubt more positively within two years. Although all past promises have been rather deceiving, this is the first tangible one we have had, in which a stated contract has been entered into by responsible parties, and the conditions of the contract being carried out as they are in the present. Just keep your eye on the narrow gauge road, Mr. Tribune, and it is highly probable that you may soon see something of interest to you.

DURING the past week a number of bills have been posted in this place, advertising for sale houses and lots in Niles. Just move your property over here and we will buy it, and then see that it is occupied. It is of no use to us where it is.

THE postmaster at this place has found two letters he thinks hardly prepared for transit. One contains the direction, Niles, B. C. M., and the other Brich Mont, B. C. M. It might be easily guessed that B. C. M. is intended to mean Berrien County, Mich., and that Brich Mont might mean Bridgman, but as the U. S. Mail service is not in the guessing business, the writer will wonder why his friends do not receive their letters.

MANAGER S. R. Callaway of the Grand Trunk and the others of the St. Joseph Valley railroad, were here on Friday with a view of looking up a good place to tap the Grand Trunk with the other road west of the city. A third rail will be laid on Grand Trunk road so that the narrow gauge cars could in every respect and added materially to the premium list.

IN connection with the thirty-third annual Fair, to be held up on the beautiful spacious grounds at the city of Niles, Michigan, September 26, 27 and 28, will be given a Firemen's Tournament, at which will be offered \$2,100 in purses, and already are entering the leading companies of Indiana, Ohio, Illinois and Michigan. Indications are that the attendance will far exceed any similar exhibition ever had in this section of the country. Reduced rates are given upon all railroads.

FROM BERRIEN CENTRE. Sept. 12, 1889.

The millwright is preparing the casings to receive the machinery in the new elevator here. The fixings will be on hand in a few days and immediately put in place, so that the building will be ready for grain in the near future.

The heavy frosts of Sunday morning and Monday morning killed the garden vines and plants generally, and but few corn fields escaped the same fate. Many of them are white and dry.

Most of our farmers have concluded that wheat sowing had better be done at once, despite the continued drought. The County District Lodge of I. O. G. T. convened at Berrien Centre on Wednesday last. Thirty-four delegates were present from the various societies throughout the county. The forenoon session was short, owing to the lateness of the hour at which the chairman arrived. The afternoon was replete with enthusiasm and good feeling.

Besides the regular business of the meeting, many pointed remarks were made and a number of very entertaining addresses were offered by members in attendance. Mr. Frank Forbes, of St. Joseph, was elected and commissioned to visit the various lodges in this county during this quarter, and stir up a greater enthusiasm and infuse new life and energy, by admonishing to greater activity in their efforts to do good. Mrs. Johnson, of Benton Harbor, Miss Smith, of Buchanan, and A. C. Palmer, of Berrien Centre, were appointed to act as committee for the good of the order at the next regular quarterly session, to be held at Watervliet Dec. 2, 1889.

NEW TROY ITEMS. Sept. 11, 1889.

For a number of years past this village has felt the need of an efficient teacher of moral law and gospel truths. True, the pulpit has been filled from time to time by ministers who, without a doubt, possessed great moral force, but at the same time lacked the active and potential energy required for the successful promulgation of religious thoughts. It has been charged that this lack arises solely from the fact that this community is unable to support an able minister with the required salary; and if the time has arrived when teachers of the gospel labor for mammon and not for God, then this charge will be admitted. Yet here in our midst are young men and ladies who are led to bid, blossom and wither, unaffected by the pure and invigorating breath of Christian labor, merely because education, associated with poverty, must step aside at the command of all powerful God. Duty crowned the Savior's brow with thorns, and who of his disciples to-day will not forgo some of this life's luxuries, if by so doing he may save from the restless sea of sin some poor wail of humanity. I do not mean to cast one iota of discredit upon those who have served on this circuit in the past. But youth is skeptical and its chemical visions can only be destroyed by the strong light of education.

Mr. Frank Carpenter retires from the firm of Smith & Carpenter, and is succeeded by Mr. Sidney Smith, a practical workman of large and varied experience.

The party at Mr. S. R. Smith's, last Saturday evening, was a pleasant affair, presenting an agreeable surprise to Mrs. Smith, whose fifty-eighth birth-

day it was in commemoration of, and besides, impressed upon her mind, by some appropriate presents, the friendship of her many neighbors and acquaintances.

It is a pity that "Zimrod" uncocked his vials of wrath upon innocent heads, as the M. E. church of this place has never asked aid of the dancing club, but the club did say that they would donate the proceeds of one dance toward repairing the church building. Further than this nothing was ever said or done, and, in fact, the church never showed, by word or action, that they would accept the proffered aid.

From LaFayette, Indiana. September 6, 1889.

EDITOR RECORD.—Mrs. Burtness and I are visiting friends and relatives in this city. LaFayette is rather a fine city, beautifully illuminated at night by the Brush electric light, which shines forth like the sun from the lofty dome of the Ford school building, which occupies a high point east of the city. LaFayette is situated on the Wabash river, ninety-two miles south of Michigan City, with a population of twenty thousand. The place is noted for its wealth. It has a large number of wholesale and retail houses in the various branches of trade and to quite an extent a manufacturing city. There are three daily and seven weekly papers published here. There are four different railroads leading into the city, the Wabash, St. Louis and Pacific; the Lake Erie and Western; the Cincinnati, Indianapolis, St. Louis and Chicago; the Louisville, New Albany and Chicago. The entire country surrounding is rich and productive. The Wabash Valley is second to none other for corn, and the uplands have few equals for wheat. Hence LaFayette has long been noted as a great grain market.

The United Brethren Conference held here, commencing on the 29th of August and closing on the 26th, was hospitably entertained by the people of the city. The session was well attended by both ministers and people; also a great many from other denominations and conferences were daily in attendance. The session was presided over by the venerable Bishop Weaver, of Lisbon, Iowa, whose mastery mind and ripe Christian experience made deep impressions upon all. The Sabbath services were held in Trinity M. E. church. The vast expectant audience which tested the capacity of both auditorium and gallery, were not disappointed, while they listened with wrapt attention to words of the Bishop, as he led them "out as far as Bethany," passing the garden, the cross and the tomb, and demonstrated to them that "His name shall be called wonderful." Most of the pulpits were supplied by ministers of the conference. We had the pleasure, on last Sabbath, of preaching in the church we occupied twelve years ago, which is now in charge of Rev. R. P. Burton, formerly of Berrien county, Mich. Mr. Burton has done a noble work here, and is held in high esteem by the people.

I had the pleasure of visiting the home of my childhood. I tell you, Mr. Editor, it was good to be there; to be permitted once more to view the old paths, to visit the sulphur spring and "many loved spots which my infancy knew." But the dearest and most sacred of all were the graves of my sainted parents and four loved sisters. Mrs. B. and I were invited to attend a family picnic held near the old homestead. Fifty-five persons were present and enjoyed a sumptuous repast beneath the shade of those old trees where I ran and played when a child. Here we talked of other years and loved ones gone. I may forget that which transpired an hour ago, but the record of that bright day is written in lines that will only grow deeper as time flows over them.

We clip the following from Foster's Musical Journal, published at Geneva, Ohio: "We have in course of publication an excellent opera, by J. Asher Parks, of Buchanan, Mich. The title of the work is 'The Double Proposal.' Any one thinking of getting up an entertainment, should procure this, as it is the most pleasing little work that has been issued for many a day." Time to Stop It.

It's too bad, sir or madam, but don't get frightened. Your hair is falling off—that's certain. A glance in the mirror, or an investigating combing of fingers all the dismal story. We won't discuss the possible cause. It is enough that Parker's Hair Balm used now will prevent further destruction. Is your hair somewhat gray, too, and thinning? Well, Parker's Hair Balm will give back the original color, softness and gloss. Not a dye, no oil, elegantly perfumed, a perfect dressing.
