"The Carpenter Organ has won for themselves a high reputation for durability and the musical qualities. An Organ may be cheap in appearance, but unless it is built properly, in every part it will prove unsatisfactory. Mr. Carpenter makes most especially an honest Organ, and this is the thing that has secured for it the popularity of the famous Organ, July 4, 1882."

It is a Standard American Dish. A New York reporter made an extensive tour through the hotels and restaurants (both high-toned and low-down) of New York in quest of information as to the popularity of hash among the different classes of the community, and his research disclosed that the composition of the article was not, as many suppose, a "mystery," but that it was made of "corned beef and potatoes chopped up together, well cooked and well seasoned," and that it was among the oft-esteemed food for the Windsor, the Brunswick, the Fifth Avenue and Delmonico's, as well as in the cheapest restaurants. He found one place where a ton of hash was made, sold and eaten each week, and an Italian restaurant on Pearl street where the price-list is as follows:

Small-Pox, Typhoid, Cholera, and all other contagious diseases. Persons using the Fluid will receive prompt and personal attention.

It must be a pleasant situation to be chief servant of a great commonwealth like Michigan, elected on a distinct pledge to combat to the bitter end the practice of offering to public officers of free passes, and then travel all over the country on free 1,000 mile tickets, and then have all of the papers reminding one of it. All of this responsibility for a paltry \$1,000 per year.

Is there another state in the Union, whose laws give one man a better chance to get his neighbor blind by getting him drunk and then never paying than Michigan? It requires a cool sized fortune to be subject to execution for the collection of a debt and the consequences are not the most productive of good to business. It is to be hoped that the next legislature will make some change for the better in this line.

Gov. Begole has issued the following proclamation that ought to receive a hearty response from those directly interested. If you have any thing worthy of a place in that car, send it in:

Crystal Wedding. On Saturday evening, September 15th, about one hundred and twenty of the friends of Mr. and Mrs. Will Shultz met at their pleasant farm house, in Oronoko, to celebrate with them the fifteenth anniversary of their wedding life. At about eight o'clock a voice was heard, the bridegroom came, and by their attendants of fifteen years ago Mr. and Mrs. Shultz were ushered into the parlor, and after renewing their vows, congratulations followed. Supper was announced and all repaired to the spacious dining room, where the tables were seemingly groaning under their load of everything tempting to the appetite. After supper, amid music, both vocal and instrumental, sociability and a general good time, the hours passed swiftly by. At ten o'clock ice cream was served, and all partook of the delicacy. At eleven o'clock, B. Helmick made the presentation of the gifts, which was responded to by Mr. Shultz. The guests then dispersed, leaving the following gifts as mementoes of regard: Lantern, E. D. Wilson; honey dish, Mrs. E. D. Wilson; ten dollar gold piece, Mr. J. Shultz; ten dollar gold piece, Mrs. J. Shultz; gold ring, Will Shultz; dinner cask, Mr. C. Wheeler, Mrs. Brown and Mrs. E. MEN OF THE HOUR.

HON. LUCIUS Q. C. LAMAR.

U. S. SENATOR FROM MISSISSIPPI.

Lucius Q. C. Lamar was born in Putnam Co. Georgia, Sept. 17th, 1825. He was educated at Oxford, until he entered Emory College, from which he was graduated in 1845, when he commenced his legal studies in the office of Hon. A. H. Chappell.

In 1847, he was admitted to the bar, and two years later, removed to Oxford, where he was Professor of Mathematics in the Oxford University, and assistant editor of the Southern Review until 1850, when he removed to Covington, Ga.

In 1853, he was sent to the Georgia Legislature, and in the following year, returned to his plantation, in La Fayette county, Miss., from which place he was elected to the Thirty-fifth and to the Thirty-sixth Congress, resigning from the latter to take a seat in the Session Convention of his state.

In the following year, he was made Lieutenant Colonel of the Nineteenth Regiment, and was soon promoted to the rank of Colonel.

In 1859, Jefferson Davis sent him to Russia, as the representative of the Confederate cause, but no important results were ever apparent from the mission.

In 1860, he became Professor of Political and Social Science, in the University of Miss., but in the succeeding year he was transferred to the law.

In 1870, he was chosen United States Senator for the full term, having previously been elected to the Forty-fourth and Forty-fifth Congress. Senator Lamar's speech in the Hall of Congress, after the death of Charles Sumner, made a deep impression and created a profound sensation, coming as it did, from Southern lips, yet praising severely and fervently with eloquent words, the life of one who had criticized with severity the South and its politics.

His speeches have not the easy flow and spontaneous eloquence of Coaling, Sherman or Lapham, but his prepared efforts are noted for their beauty of conception and dignity of expression.

Nolan gave bail, but Smith having failed went to jail. Trial to come off October 4th.

Miss Lottie Patterson started for Iowa Saturday morning.

The I. O. G. T. had a fried cake and coffee social, which was a very good thing for the Good Templars, increasing the treasury \$4.20.

Messrs. Rickey and Barnes have commenced operations at their newly discovered lead mine near Twin Springs. Mr. Rickey has shown to the public several specimens of mineral taken from the mine, which he said contained 75 per cent of lead and 15 per cent of silver. A party of men are now at work in opening the mine for the purpose of testing the supply of mineral. Many years ago a half-breed Indian by the name of Bentley lived at St. Joseph, and was often heard to say that there was a lead mine that place and Berrien Springs, and it is supposed this is the place he referred to. It is to be hoped that the owners of the mine will succeed in striking it rich, as their success will add largely to the wealth and resources of this section of the State.—Berrien County Journal.

[Berrien Springs Journal.] St. Joseph, we understand, has raised this amount required of by the St. Joseph Valley Railroad company. Orozko and Royall are yet to be heard from. A railroad company was organized at South Bend on Thursday to build a narrow gauge road to connect with the St. Joseph Valley road at the state line.

Grand Army Parade and Sham Battle at the Dowagiac Union Fair, October 11, 1888.

The several Grand Army Posts of Cass and adjoining counties have been invited to unite with the Dowagiac Post in giving a grand parade and sham battle on the day above mentioned, on the grounds of the Union Fair Association. The boys will be in uniform, and the sight will be a stirring one. Come and see hundreds of veterans, and witness the sham battle, which will be as nearly like a genuine affair as possible, with all the paraphernalia of actual battle.

Northern Route to the Lake. The principal officers of the St. Joseph Valley Railroad Company were in the city completing arrangements to organize a company in this State with a view of consolidation. Messrs. Wm. Pears and E. T. Chase, of the party, went to Chicago by the Grand Trunk, Thursday. Messrs. A. F. Ross and W. V. Graves drove over a new route to Bu chanan, with a view to running a new line.

Arrangements have already been perfected for the junction of this road with the Gr and Trunk near the target, and a joint use of all depots, side-tracks, etc., within the city limits.—South Bend Register.

You may please leave that horse blanket you found on Second street at Kingry's grist mill. It belongs to Abe Kingry.

A NEW and enlarged edition of that valuable book, "Michigan and Its Resources," has been issued. If you have a friend living in any other part of the country who is dissatisfied with his location, and would be likely to settle in Michigan, send for a copy for him. Address the Commissioner of Immigration, at Detroit, and the copy will be sent to your friend free of expense. The state is doing this advertising.

JUST as we expected. The new proprietors of the Niles Democrat are not satisfied with the old way of making that paper, and have changed it to a quarto, six column, attached "the patent invariants," and quite generally improved its appearance, besides casting out a lot of dead aids. When they get their new press, they will be able to make almost as good a paper as there is in the county.

AMONG the finest monthly publications that comes to this office, is the Manhattan, a finely illustrated magazine that bids fair to be a prominent competitor for Harper's, and sells for \$3 per year. The September number opens with a well written article on "The Phenomenon in Western Scenery," by Wm. H. Rideing, with six fine wood engravings. There are nineteen other articles of a variety of subjects, partly fictional, in this number. Send your subscription to Manhattan Magazine Co., New York.

ALAS, for our own and only Level Civil service reform shuns him out of his expected place in the State prison the vacancy being filled by the promotion of Spencer C. Drake, who has been in that institution for years, and has worked his way up from guard. Never mind, Levi, there may be a place in the lunatic asylum, or some other harbor of refuge, for you yet.

CHARLEY STANARD, of Bridgman, employed as teamster for Wagner & Glover's saw mill at Avery, was seriously injured one day last week. He was loading some logs on his trucks, had three logs on, and was preparing to bind the load, when the top log rolled off, striking him on the back. The lower portion of his body has been paralyzed since the accident, and the chances for his recovery are rather against him. He was removed to his home Saturday. He is under the care of Dr. Bonine.

MR. EROS HOLMES bought five fine bred Marino ewes and Wm. Burris two, at an expense of \$80 each, while at the State Fair. They are from the flock that is headed by the famous ram Diamond, the champion shearer of the world, whose fleece weighed 41 pounds, and whose owner refuses \$10,000 for him. Messrs. Holmes and Burris do not expect to raise very many \$10,000 sheep, but they will improve their flock more than the amount of this last expenditure, by the purchase they have just made. The ewes will not be here until the last of November, when they may be seen by those who are interested.

The Buchanan Cornet Band has re-organized, with fourteen members, and elected the following officers: Major Samuel Wells, President; B. D. Harper, Secretary; A. F. Ross, Treasurer; Warren McDaniel, Leader; Salma Barnore, Drum Major. The balance of the boys will do the wind work, and we may expect a new installment of music gotten up in classical shape. The boys have ordered a lot of fine uniforms, that will be here in a few days, and Buchanan may calculate on having as fine an appearing band, that will make as good music as any in the State. Keep your ears open.

The new band will give a mask social in Rough's Opera House next Wednesday evening, when a prize will be given for the best character mask.

The Great Northern Indiana Fair will be held on the beautifully shaded and watered grounds, on the St. Joseph river, midway between South Bend and Mishawaka, on October 1, 2, 3, 4 and 5, 1888.

It is known and so recorded in the Agricultural reports of the State, page 880, that this fair last year was only excelled by a single fair in the State. For by their great success at that time, the managers intend to far excel their former effort. All the past winter and summer the officers have, by correspondence and personal visits, made arrangements for some of the best horses and famous herds of blooded stock to be present. The attractions in the way of races will be unusually exciting, forty-three entries already made in the speed department. Every man, woman and child in the county should attend this great fair which takes place near the line of the two great agricultural and manufacturing States of Indiana and Michigan, and due credit of this fair will be shared by both of these prosperous States. Both will here unite and vie with the entire west with the products of their farms and factories.

ALL RAILROADS RUN AT HALF FARE DURING THE WEEK.

Emily Hayes in the Household. It was a pleasant room into which the summer winds brought the fragrance of new mown hay...

she talked to Letty about it, and the result was that much of the other work was given up too. "You can afford it," she said, "and there are those who depend upon such work for a living, and it is not right to withhold it from them..."

It was a pleasant room into which the summer winds brought the fragrance of new mown hay. The windows were white with the blossoms of violet, pink and white, shut out the morning sun which, although it was so early in the day, was uncomfortably warm.
