This is the most encouraging report that has come from the society in years, and leads to the belief that the lecture delivered there in these columns a few months since has borne valuable fruit.

E. F. ARMSTRONG, of this city, has left to about \$100,000, through the Fox estate, on his mother's side, in England. It has been kept quiet until the matter was finally satisfactorily settled. Mr. L. P. Fox, of Buchanan, is also an heir, and a lady at White Pigeon. One of the English heirs has been here, and the whole is satisfactory. There is \$72,000 to be divided among seven heirs.—Niles Mirror.

Now please do not let Mr. Fox down so lightly. The fortune he is after is \$77,000,000.

FIFTEEN YEARS.—Mr. and Mrs. John Hanover celebrated the fifteenth anniversary of their wedding last Friday evening. A goodly number of their friends met them at their home on Berrien Street, and enjoyed a pleasant evening. Mrs. H. prepared a supper fit for a king, to which the guests did ample justice. A supply of glassware, sufficient to last the family until their silver wedding, was left by the friends.

DR. GREY did not go to jail without first giving the officers the trouble to follow him to Michigan City, after he gave the officers at Cherteston a quiet slip. The "afflicted" in this vicinity may find the doctor in the county jail at Valparaiso where he now has his headquarters.

THE General Passenger Department of the Michigan Central Railroad has prepared a valuable book of Facts and Figures about Michigan that forms a very convenient hand book for any citizen of the state. It may be had of the Company's agent for fifteen cents. Unlike the most of such productions, it is not all Michigan Central Railroad, but is a book of merit.

THE Benton Harbor Exhibitor has been sold by Tom Hurley to a Mr. Wilson. It has been pretty well demonstrated that Tom's method of running the Exhibitor, with a superabundance of snuff and bar-room slang, is most satisfactory to his patrons as he always succeeds in finding a large circle of them. It is to be hoped that Mr. Wilson will make a decent paper of the Exhibitor, and meet with the success that such a change deserves.

OWING to a small blunder in this office, "we sometimes make 'em," the notice for letting contracts for draining the marsh at the south west corner of this township was left out of the Record last week, and as a consequence the date of the meeting has been changed to September 11 instead of September 7, and new notices have been posted, as required by law.

THOS. GAINES, a former Niles liveryman, was in town Saturday exhibiting a new kind of hand grenade for extinguishing fires. About two years ago a man went through the same kind of performance with some "grenades" on Front street and sold to nearly every establishment in town. They were tried in Dowagiac when Bigelow's store was fired, but seemed to make the fire burn better. Perhaps Mr. Gaines' kind of grenades would not perform in that way.

THE many reports of how gamblers and swindlers of all kinds were allowed perfect freedom in openly operating their vocations at the reunion at Benton Harbor, is not a very high recommendation either for the town or for the county officers whose duty it is to arrest law breakers, and who are said to have been present throughout the reunion. We have had sheriff's who would have stopped some of the catch-penny games.

A FINE PRESENT.—Mr. John Morris was the recipient of a fine baby carriage for his new boy on Thursday. It was the gift of Messrs. Baughart Bros. of Chicago, wholesale dealers in cigars. John says this firm is composed of the "whitest boys" in the country, and handle the best cigars that are made, and cite as evidence of the superiority of their goods the fact that he has sold over 100,000 of their cigars in Buchanan in the past two years. This present has, of course, raised these gentlemen a notch in John's estimation.

A. F. PEACOCK.

CRACKSMAN.—Some clever fellow entered John Holloway's house last Thursday night and stole about \$750 from a drawer in a dressing-case that stood at head of his bed. He had drawn the money from the bank Thursday evening with the intention of starting early Friday morning for Sodus township to pay for some hogs he had bought there the day before. The fact that the money was taken from a panel drawer not easily detected, and that no other place was molested, leads to the thought that the work was done by some one acquainted with the premises or who had been watching Mr. Holloway's maneuvers. No clue was left by which the perpetrator might be detected.

THE practice of leaving teams on the street, unattended, is becoming ever so prevalent in this town. On Monday a horse and carriage, with a small child in the seat was left unattended without a master, on Day's Avenue, and the horse started off on his own account, but was stopped just before he discovered that he was free, and by a miracle the little one's life was saved. It is no uncommon occurrence to find from one to a dozen horses standing on Front Street, without an attendant or without being hitched, and the first thing the village of Buchanan becomes aware of some one who is badly injured or killed by some one's carelessness in this line. We used to have an ordinance imposing a fine of ten dollars for this practice, but unfortunately we are now without any legal protection in the matter, and we must depend upon the generosity and carefulness of the owners of horses to hitch them when they leave them on the street.

NEXT Monday evening is the time prescribed by law for holding the annual school meeting. That is an entertainment that does not appear to draw very well in this place, calling out an audience of from twenty-five to sixty, when there should be 300. This is probably because the school costs nothing, and is but little importance. Of course next Monday will be no exception to the rule.

THE following special from Jackson appeared in the Detroit Free Press Saturday: Warren D. Graves was arrested today on a farm near Charlotte, charged with burglarizing the stores of Lawrence Farrell, David Demay and M. Neilson in the early part of July. He was suspected, and soon after the burglaries left the city, and has kept shady until recently. He served an eleven-year sentence for complicity in the murder of an old woman in Pennsylvania, and a seven-year sentence for burglary in Berrien County. The evidence against him is said to be very strong, some of the stolen articles being found among his effects.

THERE was a lively runaway in town Friday evening. Mr. Isaac Marble took the bridle from his horse, at the front of Bekis' harness shop, for the purpose of having it repaired, and no sooner was the bridle off than the horse started for a frolic of his own. He ran up Main, Second and West streets, and at the corner of West and Front streets threw himself and could proceed no farther. The carriage to which he was hitched was a complete wreck, and scattered all along the route. Mr. Marble attempted to hold the horse by a halter, and was so badly lacerated that he was confined to his bed two or three days. The horse received two or three cuts, but was not seriously injured, the worst being to learn a bad trick, that being his first attempt at that kind of horse sport.

Two ladies named Mrs. Busselle, one the wife of Rn. Busselle, and the other the wife of his brother, both deserted, came from Shelbyville, Ind., to this place, the fore part of this week, and at the instance of the latter, Constable Evans went to St. Joseph yesterday and arrested Mr. Busselle, the husband of the former, on the charge of bigamy, and before he was taken to the jail of this place, last April. Busselle was brought before Esq. Dick and pronounced a divorce obtained in an Illinois court just previous to his marriage in this place, and has returned to St. Joseph, where he is engaged in writing up the town for one of the papers of that place. His first wife is a lady of culture and fine address, and in every way appearing a perfect lady, but it appears to have been her lot to have had her life linked with that of a pretty tough case, whose greatest ambition seems to be a frequent change of wives. She has three children, one a bright little boy accompanying her. He has two or three others, whose mother is a Marshall lady who cannot claim a marriage. One of these he is having boarded in this place, while he and his latest acquisition as a life partner are away engaged in his business as itinerant journalist. The ladies wish to thank the citizens for the kindness shown them while here.

Gossip is an article of value. So-and-so said this or that regarding you or your actions. Remember that the reporter is merely showing the change he received back for like merchandise, bartered in Mother Grundy's store room.

The watermelon feed is abroad, and shot-guns and bear-traps are in good demand.

Nothing would pay Weesaw township better than for her to do away with the plank culverts, that at present so disgrace the road beds, and substitute therefor tile.

Mrs. Levi Roden lies very ill at her home, in the village. Although two physicians attend her, there is small hope of her recovery.

Owing to misinformation, it was stated last week that Mr. Henry Hess had been appointed Highway Commissioner. The name of David H. Uhley should have been given instead, as Mr. Uhley was the person appointed.

[Benton Harbor Expositor.]

Capt. Phil. Jeannette, of St. Joseph, is quite notorious as a "marine monster." Among his latest achievements, a few days ago, he rescued from drowning a young man named Norman Perkins, of Chicago, who had fallen into the river off the wing dam and was going down for the last time when Phil appeared on the scene, and saved him from a grave at the bottom of the St. Joseph river.

The novelty pottery works, is a new industry in Benton Harbor. The shipment of apples from this section will be large, if the price will warrant it. All the saloons at Benton Harbor did a tremendous business last week. One institution reports sales of over \$1,700 during the four days of the entertainment. The second annual reunion of Company No. 10th Michigan Infantry, will be held in St. Joseph on Saturday, Sept. 5, 1885.

[Niles Republican.]

A Jersey bull belonging to John H. Young attacked him last Friday, doing no damage except tearing his clothes. The animal was tied, and Mr. Young's injuries would have been more serious. On Saturday night, during the heavy storm, lightning entered the furniture store-room of C. H. Bigelow, of Dowagiac, where the telephone office is kept, and set fire to the building. But little damage was done. On the farm of A. Green, while J. W. Webster and H. Johnson were cutting marsh hay they upset a nest of rattlesnakes which had fourteen occupants. They dispatched twelve of them and secured two alive.

[Niles Mirror.]

A Hotel Dead Beat, with a woman whom he calls his wife, has been tearing with our wayward U. S. Dodge, at Hotel Pike, for ten days and over. Mr. and Mrs. Bristow were their names here. They are very pious people, pretending to be Episcopalians, and not infrequently make a show out of the credulous, pretending they are anxious for funds to erect a church in some place. After running up a bill of about \$30 at Hotel Pike, an article appears in the "Living Church," published in Chicago, from Joseph S. Jenkins, Jr., of Indianapolis, exposing the swindlers. They changed here from Hotel Pike to the Bond House. Mr. McKay soon found out their character, and before breakfast on Sunday morning he entered their room and demanded payment for board. He said his wife was going to Chicago on Monday morning, and the money would be forthcoming. This dodge did not answer. He ordered them to leave the house at once, and they did leave, starting off in a westerly direction on foot, and it is the last we hear of them.
