THE KING AND THE HAIR-DYE.

King Hubert's hair was growing gray.

With a few drops of this hair-dye, he was restored to his former color.

One bottle of this hair-dye, one day, and he was restored to his former color.

The dye arrived on Friday night, and he used it on his hair.

Next morning his hair was restored to its former color.

He had used it on his hair, and he was restored to his former color.

He had used it on his hair, and he was restored to his former color.

He had used it on his hair, and he was restored to his former color.

Men's Overcoats, Youths' Overcoats, Boys' Overcoats, Children's Overcoats, Good Overcoats, Cheap Overcoats, Red Underwear, All Wool Underwear, Fine Mixed Underwear, All Grades of Underwear, Good Underwear, Cheap Underwear. G. W. NOBLE.

LAST week closed with a young winter. BENTON HARBOR supports seven meat markets. Mrs. A. P. SHEPARDSON left Monday to join her husband in Kansas.

St. Joseph has a new light house about completed. Wm. Wetherby's family is provided for by \$8,100 life insurance he carried.

SHERIFF PECK was in Chicago and witnessed the execution of the three Italian murderers, last week. Mrs. ELLIS H. CLARKE, who has spent the summer here, left Tuesday to join her husband in Florida.

In a garnishee case of Obadiah Rogers vs. C. H. French, for the collection of a debt against Theodore Thomas, the jury disagreed. Work has been progressing on a new dam at the Rural mills of Rough & Fox, the past week.

DOWAGIAC has 60 stamp lamps. Buchanan could not afford as many and worries along with it. We hear more than the usual amount of complaint of soft corn this year.

Mr. GEORGE SLATER has received notice that his patent on a folding bed has been allowed. On account of circuit court demanding the attention of the counsel in the Rice-Hus adultery case it has been adjourned to Monday, Dec. 1.

REPORT reached us that the night operator at Gallen was robbed Monday night, but our reporter could not give particulars. Mr. HENRY JOHNSON has returned to his old vacation of operating a dray and will be pleased to serve any needful services in his line.

The frost has been rather severe on J. F. Hahn's new walk, sealing the surface quite badly. Jake appears to be in hard luck. The editor of the Watervliet Record has a stock of stationery and fancy goods in connection with his print shop.

MARRIED.—By Rev. J. F. Bartmess, Nov. 11, at the home of the bride's parents in Berrien Springs, Mr. Melvin Knight and Miss Dora Mahem. By invitation of the Berrien county Horticultural Society, the annual meeting of the Michigan Horticultural Society will be held at Benton Harbor Dec. 1, 2 and 3.

THANKS.—The family of the late Andrew C. Day wish to extend heartfelt thanks to the neighbors and friends who assisted them during his long sickness, and at his death. MARRIED, Nov. 17, 1885, at Hill's Corners in the Baptist church, by Elder W. P. Birdsal, Mr. J. H. Smith, of Rock Rapids, Iowa, and Miss Maggie E. Miller, of Weesaw township, Mich.

MISS NELLIE BALDWIN, after trying her school last week, is once more confined to her room in sickness. Miss Mary Guyer is teaching in her room until she is able to resume her duties. THE wheel for Bainton Bros' new grist mill was drawn to the mill, Tuesday morning. The other machinery is also arriving, and will be placed in position for business as rapidly as possible.

MARRIED.—Mr. F. H. Andrews and Miss Wilda Searles, both of this place, were married at Niles, Nov. 10, Rev. I. R. A. Wightman officiating. The new family starts in life with the well wishes of a large circle of friends. COL. SAMUEL WELLS is moving his family to Grand Rapids, where they will make their home for the future. Mr. Wells and his family have made many friends during their residence here, who will not be pleased to see them move away.

STILL the post-office plot deepens. As the time for a change approaches, new candidates enter the field with unexpected vigor. The indistinct public is enjoying the anxiety of the candidates with a relish that is remarkable. PAW PAW people, without regard to party, creed or sect, held an enthusiastic meeting Monday evening and endorsed the railroad project from Kalamazoo to Benton Harbor, by way of

The Visitors. Capt. HUGENSON, of Dowagiac was in town yesterday. Mr. J. RICHARDSON is visiting with friends in Minnesota. Misses Grace Burk and Kittie Gaines, of Mishawaka, visited friends in this place last week. Mrs. C. C. COTTEN and two sons, Master Ollie and Roger, of Kalamazoo, are visiting her mother and other relatives in this place. Mr. J. W. HAZLETINE and sister, of Madison, Wis., are visiting relatives, the guest of Mr. Geo. Baker in Benton town. Miss CARRIE HEATON has been called to Charlotte on account of the sickness of her sister, and for the present the place of preceptress in the high school is vacant. Mr. J. F. PECK, of Berrien Centre, has taken up his abode in Buchanan, Mirror, Nov. 7. J. F. Peck has been in business in Buchanan four or five years. J. N. RICHARDSON, who has served the past year as foreman in the independent office, is now sticking type at his own expense, having bought the Seneca County Record, at Bloomville, Ohio.

An attorney called upon Steve Wood for a divorce blank, and after looking his case over for two or three times he concluded that the nearest he could come to it would be a "Notice to Quit." Two St. Joseph men have been granted patents this week, F. Miner, on a furnace grate and R. Oxford, on a washing machine. As the field for patent washing machines is comparatively vacant there is no doubt of Oxford's fortune being assured.

J. C. Bloom's grist mill, at Benton Harbor, and a dwelling house near by were burned, Wednesday night, Nov. 11, by fire originating in the mill, supposed to be incendiary work. Loss about \$8,200. Insurance on the mill \$1,000. QUITE a number of the soldier boys in this vicinity who were sadly in need of assistance, are feeling the benefits of the state home provided for them. Some have been taken to the temporary home and others are receiving substantial aid at their own homes.

Get your turkey ready for Thanksgiving, next Thursday. If you have two give one to some poor family who have none, and let them enjoy the blessings of earth with you. It will make the one you eat taste better. LIST of letters remaining uncalled for in the post-office at Buchanan, Mich., for the week ending Nov. 19: Miss Emma Byr, Mrs. Hyson, Darins Nett, Mrs. Adah Wilson, J. B. White, Postal Cards—Robert Broadhurst, Ru Bussell. L. P. ALEXANDER, P. M.

The friends of Eld. Benj. Finney and wife gave them a surprise party, Saturday evening, it being the thirty-first anniversary of their marriage. A pleasant time was had. They left substantial tokens of their regards to the amount of about eighteen dollars. PROTECTIVE associations among merchants as a protection against the encroachments of dead beats, are becoming quite popular in this state. Berrien county is credited with one, while the Niles Democrat has one of its own, by publishing its beats to the public. In the case of Thomas Vanderhoof as Administrator of the estate of Wm. Hardy against the estate of David Rought, judgment was rendered in favor of plaintiff for \$1840.28. Thirty days has been allowed in which to move for a new trial, which will most likely be done.

SHERIFF PECK has appointed Wm. J. Jones, of Oronoko, Deputy Sheriff, vice Noah Claypool deceased. When Mr. Jones gets after a criminal he will most likely bring him to trial in short order. Mr. Peck is noted for an efficient corps of deputies, and this appointment adds another of the same kind. THE party of young ladies and gentlemen who were out on a frolic a few nights since, rolling movable articles about Front street, might find other employment for that time of night more congenial with their standing in society. Some of them would have considered it a queer joke had night policeman Bartlett run them into the cooler for the night. THE proprietor of the manufacturing Establishment referred to in the Buchanan Record of November 12th 1885. I wish to say in Reply there to, that I will do all the work referred to on the Signs in front of my manufacturer Establishment for 25 percent less on the Dollar than former prices, I have worked in this county for the past 35 years cum cum one and see the signs with out a copywright. proprietor

ONE of the improvements needed in this place is gas works, but as the town is not quite ready for such a public work, Mr. O. A. Kowitz concluded to not wait for the rest of the town, and has accordingly had a plumber fit his house with gas fixtures, and supplies the gas from a gasoline reservoir that he has planted in the top of an apple tree in his yard, and has as good a gas light for the premises as any one can wish. THE Evening News, Monday, contained the following regarding the good fortune of our townsman, W. A. Severson: A Severson, Buchanan druggist, disposed of his business and put the proceeds in the Aurora iron mining company of Ironwood, Ontonagon county. He has struck it rich, the stock having appreciated 110 per cent since May. Three towns of 1,000 inhabitants each having grown up on the range this summer. A 700-lb lump of pure iron taken from this mine is now at the New Orleans exposition, and the average assay is greater than that of any other American mine. The company expects to mine 200,000 tons next year. Mr. Severson sees greater profit in iron than in drugs even.

THIS, for the benefit of those who do not attend church: Thanksgiving service at the Congregational church, on the day appointed by Gov. Alger. The Baptist church was re-opened on last Sabbath, Rev. M. M. Martin delivering a solid, eloquent and appropriate sermon to a large congregation. Respecting the interior of the building, a man, tho' a fool, need not enquire concerning the improvement thereof. R. M. Breece and son are prying up and digging up the old land marks from S. H. Martin's emporium, so that at present all is without form and void, but out of chaos an attractive hollow number is to be moulded. Paul M. Chamberlain has returned from Sturgis. Miss Kate Sherrill, of Niles, is with relatives and friends at her old home, for a time. C. H. Bradley and family will spend the winter with Capt. T. C. Bradley. Prof. Sowers has not, as yet, collected enough material for a writing school in Three Oaks. Mr. David, of Buchanan, was in town on Monday. N. L. Stratton and family will occupy the house lately vacated by Macy DeBoer. Died, on Saturday last, an infant son of Mr. and Mrs. Burwell Hinchman. Monsieur Dr. Gray, the wronged but immaculate medicine man, has been telling his pitiful yarn and pulling teeth in some parts of Chikaming. He examined Mr. Dunkleberger and assured the family that he could be saved, although Ann Arbor had given up the case. Fortunately his brilliant operation was not permitted to enlighten the world, and Mr. D. still lives. J. U. PERRY is having an office built just south of his new residence, in which type-writing and wooden hem translations will predominate. Chikaming wheel of fortune has made half a revolution, carrying with it to the top, the despised of last spring. Members of the Township Board who then favored the acceptance of fifteen years and \$9,000 of were hooked at, and accused of "selling out." Pieces of rope long enough to throw over a limb; beautiful little coffins in which to store

away big-headed men; touching epistles; epistles not so touching, and other affectionate emblems distributed from the invisible depths of generous hearts warned those in power to tread with cautious step and slow, or look out for trip tickets to the storeless subsequently. In the council of war of Nov. 11, around the modern camp-fire—the ballot-box—it was found that the number of braves had wilted and pucker, either from summer's heat or deliberate reason. And with the voice of three to one admitted that perhaps it was better to accept the offer made in the childhood of 1885. And the new board was instructed to voice the sentiment. Oh, consistency, verily thou art a dandy!! KENO.

FROM BERRIEN CENTRE. Nov. 18, 1885. Isaac Light returned on Tuesday evening from his Eastern visit. He reports a very enjoyable trip. A. H. Lineaweaver goes to Georgetown, Pa., on Thursday of this week, to spend the winter. A little son, aged 3 years, of Mr. and Mrs. Peter H. Mark, of near Fairland, this township, fell into a tub of boiling water on Friday, the 13th inst., and died from the terrible effects the same day. Mrs. Rebecca Cassel has been very sick with nurlagia, for a week past. She is improving slowly. Mr. Herman Rapp and wife, of New Buffalo, Da., returned on Saturday evening last, to spend the winter here, among relatives and friends. John Aldebrand of Niles had a very narrow escape with his life, by jumping from the noon express going north at Pokagon crossing on the C. W. & M. J. Hill and B. F. Layman are putting up a feed mill near the Washab depot. Mrs. Uriah Shaffer was visiting friends at Gallen over Sunday. Mr. H. L. Rutter, Sr., is visiting friends and relatives at Marcellus and Volinia. C.

THE apportionment of primary school interest fund for this year, just made, amounts to 72 cents for each pupil reported by the last census. This gives the districts in this township the following amounts: District No. 1, \$435.00; " 2, 30.96; " 3, 40.68; " 4, 32.48; " 5, 48.96; " 6, 25.92; " 7, 22.32. The amount apportioned to the county is \$8,700.24, there having been reported 12,107 children between the ages of five and twenty years. The several townships receive the following sums: Bainbridge, \$248.48; Berrien, 980.64; Berrien, 311.76; Bertrand, 308.88; Buchanan, 637.20; Chikaming, 308.10; Gallen, 295.20; Hagur, 102.00; Lake, 200.64; Lincoln, 385.02; New Buffalo, 280.56; Niles, 353.52; Niles City, 075.00; Oronoko, 391.68; Pipestone, 305.04; Royalton, 241.20; St. Joseph, 809.40; Sodus, 245.52; Three Oaks, 337.84; Watervliet, 427.68; Weesaw, 274.32.

SOUTH BEND claims to be the first city in the United States to successfully operate an electric street railway. The Tribune of last Saturday thus explains the arrangement: "The first thing is a large engine room, containing three dynamos for generating the current. In this case they are run at a high rate of speed by water power. From these a current is sent through a large copper wire suspended over the track. The current completes its circuit by means of a wire extending from the large copper wire to the car, where it works an electric motor, which furnishes the motive power to the car wheels. It goes from the wheels on one of the tracks, whence it finds its way back to the engine house. To make this track a perfect conductor strips of brass are laid under the joints of the rails. The motor is in the bottom of the car, and as the car goes along the track the strips connect with it by means of an ingenious little device called a 'traveler,' which slides along the big copper wire. The motor conveys the power to the axles of the car by means of chain and gears. The speed is regulated by a device placed at each end of the car. It consists of a small cylinder, on the top of which are two cranks working horizontally after the manner of the ordinary street car brake, only they are not quite so large. One of these handles regulates the speed and the other the current. If the driver desires a speed of four miles an hour he places the speed handle at a certain notch. Then in order to start the car the driver turns the other handle, letting on the current or turning it off at pleasure. The highest speed allowed by the regulator is eight miles an hour. Exceeding six miles was made easily in the operations at South Bend Saturday."

THREE OAKS ITEMS. This, for the benefit of those who do not attend church: Thanksgiving service at the Congregational church, on the day appointed by Gov. Alger. The Baptist church was re-opened on last Sabbath, Rev. M. M. Martin delivering a solid, eloquent and appropriate sermon to a large congregation. Respecting the interior of the building, a man, tho' a fool, need not enquire concerning the improvement thereof. R. M. Breece and son are prying up and digging up the old land marks from S. H. Martin's emporium, so that at present all is without form and void, but out of chaos an attractive hollow number is to be moulded. Paul M. Chamberlain has returned from Sturgis. Miss Kate Sherrill, of Niles, is with relatives and friends at her old home, for a time. C. H. Bradley and family will spend the winter with Capt. T. C. Bradley. Prof. Sowers has not, as yet, collected enough material for a writing school in Three Oaks. Mr. David, of Buchanan, was in town on Monday. N. L. Stratton and family will occupy the house lately vacated by Macy DeBoer. Died, on Saturday last, an infant son of Mr. and Mrs. Burwell Hinchman. Monsieur Dr. Gray, the wronged but immaculate medicine man, has been telling his pitiful yarn and pulling teeth in some parts of Chikaming. He examined Mr. Dunkleberger and assured the family that he could be saved, although Ann Arbor had given up the case. Fortunately his brilliant operation was not permitted to enlighten the world, and Mr. D. still lives. J. U. PERRY is having an office built just south of his new residence, in which type-writing and wooden hem translations will predominate. Chikaming wheel of fortune has made half a revolution, carrying with it to the top, the despised of last spring. Members of the Township Board who then favored the acceptance of fifteen years and \$9,000 of were hooked at, and accused of "selling out." Pieces of rope long enough to throw over a limb; beautiful little coffins in which to store

away big-headed men; touching epistles; epistles not so touching, and other affectionate emblems distributed from the invisible depths of generous hearts warned those in power to tread with cautious step and slow, or look out for trip tickets to the storeless subsequently. In the council of war of Nov. 11, around the modern camp-fire—the ballot-box—it was found that the number of braves had wilted and pucker, either from summer's heat or deliberate reason. And with the voice of three to one admitted that perhaps it was better to accept the offer made in the childhood of 1885. And the new board was instructed to voice the sentiment. Oh, consistency, verily thou art a dandy!! KENO.

FROM BERRIEN CENTRE. Nov. 18, 1885. Isaac Light returned on Tuesday evening from his Eastern visit. He reports a very enjoyable trip. A. H. Lineaweaver goes to Georgetown, Pa., on Thursday of this week, to spend the winter. A little son, aged 3 years, of Mr. and Mrs. Peter H. Mark, of near Fairland, this township, fell into a tub of boiling water on Friday, the 13th inst., and died from the terrible effects the same day. Mrs. Rebecca Cassel has been very sick with nurlagia, for a week past. She is improving slowly. Mr. Herman Rapp and wife, of New Buffalo, Da., returned on Saturday evening last, to spend the winter here, among relatives and friends. John Aldebrand of Niles had a very narrow escape with his life, by jumping from the noon express going north at Pokagon crossing on the C. W. & M. J. Hill and B. F. Layman are putting up a feed mill near the Washab depot. Mrs. Uriah Shaffer was visiting friends at Gallen over Sunday. Mr. H. L. Rutter, Sr., is visiting friends and relatives at Marcellus and Volinia. C.

Guarantees its patrons that sense of personal security afforded by a solid, thoroughly ballasted road-bed...

THE FAMOUS ALBERT LEA ROUTE.

In the direct and favorite line between Chicago and Minneapolis and St. Paul, where connections are made in Union Depots...

IMMUNITY FROM ANNOYANCE.

PEARL TOP LAMP CHIMNEY. The shamrock, which is the emblem of Ireland, is not known by its flower, but by its leaves...

Seismic Trouble Abroad.

M. Delamoy, of Paris, predicts that earthquakes on a grand scale will occur next year either when the earth's under the influence of a planet of the first rank, like Jupiter, or under that of a group of asteroids...

The Great Violinist.

Paganini is described by Caroline Bauer in her memoirs as a haughty man, who seemed only to consist of olive-colored skin and rattling bones.

Changes of a River.

The Sacramento river has undergone a complete change, owing to the operations of the hydraulic miners in the mountains, where it takes its rise.

Need Toning Down.

The mental training which the study of Latin and Greek is supposed to give cannot be dispensed with, for in this day the trouble is not so much to be stimulated as it is to discover some means of toning them down.

The English Derby.

It is a surprising thing, but it is quite a safe thing to say, that possibly the greatest voluntary gathering of mankind is annually seen at a horse-race.

Oughtn't to Talk That Way.

Two men were quarreling. One of them owned the rumed G. and the other the treated man, in revival of an old piece of sarcasm, asked: "Where do you bury all your dead?"

Medical Journal.

A medical journal says: "How deep is sleep?" That depends upon circumstances. If a man is very old he will sleep half an hour before breakfast to a half deep. If a fire-bell sounds an alarm his depth is not more than seven-eighths of an inch.

TEST YOUR BAKING POWDER TO-DAY!

Brands advertised as absolutely pure CONTAIN AMMONIA. Place a can top down over a hot water bath...

MARK TWAIN AND HIS WIFE.

An Ideal Life-Partner—The Three Children—An Infant Ancestor. And now about the people I was asked to meet. I can hardly wait to tell you what a lovely wife Mark Twain has.

THE SNAKES OF QUEENSLAND.

In Queensland there are five deadly kinds of snakes. One eight or nine feet long, but by far the most fatal is the death adder.

THE WORD "LIMITED."

The word "limited," used in connection with a corporation, is a word that is so much used that it has become a word that is almost meaningless.

YET HUGO'S FACIOSITY.

Victor Hugo's face is one that puzzles me. It has two physiognomies. When it is serious, it is gloomy; when it is laughing, it is one that can never do so—and his eyes look at people with an expression of inquiry.

LUMINOUS PAINT.

There seems to be no limit to the uses to which this valuable invention may be put. Its most recent application has been made by the inventor of luminous paint.

ACRES OF RHODODENDRONS.

I have stood on the top of Loon Mountain, says Professor Sargent, the naturalist and author of "American Forests," and have seen 10,000 acres of rhododendrons in bloom.

THE SECRET OF THE NATURAL TALENT FOR MUSIC.
