BUCHANAN RECORD.

JOHN C. HOLMES, Editor. THURSDAY, OCTOBER 13, 1887.

Constitutional prohibition was defeated in Tennessee by about 30,000. Five tickets in the New York election field this fall.

The lease of life of the Chicago anarchists is growing short. Twenty-nine days more.

Any one who refers to the American encyclopaedia during Cleveland's western trip will be found guilty of offensive partisanship.

Kicking an electric telephone suits out of court is a sight easier than to kick the disgrace of the thing off from the administration that fathers it.

A lot of English nabobs who have come into possession of some Iowa railroad lands have just been kicking out a lot of the settlers who have settled on the lands long forfeited, under the direction of the Interior department. The most outrageous brutalities are reported as having been practiced. Congress has a good sized question to handle in this connection. It cannot too soon be made impossible for any foreign nabob to control American soil.

A second Chatsworth railway disaster was enacted at a small station called Kouts, on the Nickel Plate road, about thirty miles south of Michigan City, Tuesday afternoon. An express train stopped at a water tank in the marsh, without sending a signal back. The train had been standing there but a short time before a heavy freight train ran in to the rear end, shoving the sleeping car through the other coaches. The sleeping car stove was upset and fired the wreck, and all who were imprisoned in the wreck were literally roasted to death. It is thought that at least thirty lives were lost, as the result of purely careless neglect on the part of the train men.

Mr. Editor:—In reading an article in last RECORD entitled "What do you mean?" I was greatly impressed with one statement contained therein. The writer says his past actions were governed by a principle which should govern all men singly or collectively, viz: justice to all.

Finally the proofs began to come back to be corrected, and in a number of instances there were so many corrections necessary that the entire speech had to be reset. It was then placed in the hands of the printer, and the proofs returned to the printer.

What a revolution it would bring about among men. How much sunshine it would bring to our world. How many sad hearts it would gladden with smiles and joy.

Give Them a Chance! That is to say, your lungs. Also your breathing machinery. Very wonderful machinery it is. Not only the large air passages, but the thousands of little tubes and cavities leading from them.

The October Cosmopolitan. The October number of the Cosmopolitan is the handsomest and most interesting yet issued. The Latest Tornado. The surprising manner in which the country is being swept by the discovery of Dr. Mills for curing many diseases that originate in the nerves is astonishing all who know the facts.

Don't Fail to Try It. J. C. Burrows, Kalamazoo, testifies: "For more than five years, a member of my family has been afflicted with hay fever, culminating late in the fall in a hacking cough. Every remedy proved futile. No child a bottle of Eucalypti (extract of Eucalypti) Catarrh Cure had been used before the cough entirely disappeared, and general relief followed. It is simply wonderful!"

MARRIED—October 12, 1887, at the home of the bride's parents, by Elder W. P. Birdsall, Mr. Amos N. Boyer and Miss Naomi F. Bunker, all of this place.

WHEN you see a young man renting a house and sitting up the rooms in first-class shape, the common inference is that he has an engagement on his hands that demands attention.

DIED, at their home in Luther, Michigan, Lucy, wife of Rev. J. C. Beach, pastor of the M. E. Church at Luther, aged 29 years. Deceased had many acquaintances in this vicinity.

WE had a liberal offer, Saturday, of potatoes at ninety cents per bushel, accompanied with a written warranty that every one of them would go through an inch auger hole.

CANNOT Republican editors be decent?—Wiles Affair.

Dunno. They have had the example of the cussedness of Democratic editors constantly before them for so long that it would be a miracle if they did not learn a few of their tricks.

OUR readers will please excuse us for a few weeks for occupying so much of the space with advertisements, but as we live in a country where it is fashionable to wear clothing and eat we are obliged to stop once in a while to earn some money.

THE chaunauqua literary circle, formed in Berrien Springs one year ago, is still in a flourishing condition and holding weekly meetings. Is there not material enough in this place for a good literary circle?

THERE will be a wedding at the M. E. church in this place next Saturday morning, at 9 o'clock. The contracting parties are Miss Miley, of this place, and Mr. McReynolds, of Grand Rapids.

STRAYED.—I have in my possession a number of estrayed lambs. The owner may recover by proving property and paying charges. Call at my farm, seven miles south of Buchanan. Supervisor, Warren Township, Ind.

MR. W. W. GRAVES has been in town the past week looking after the interests of his new atlas of this county. The proof copy shows a great improvement over anything of the kind ever offered here before.

THE Buchanan Manufacturing Company runs an excursion from this place to Chicago to-day, making the fare for the round trip \$1.50, the Company guaranteeing 200 passengers to secure that rate. The object is to give their employees a cheap rate, and to advertise their new folding bed.

THE fruit evaporator, in this place, is using fifty bushels of apples per day, when they can be had. Mr. Mead informs the RECORD that, although he is paying good prices, he has trouble about procuring a supply. This is probably due to his being a new installation and not thoroughly known by apple growers.

SOLD.—Friday, J. Imhoff sold his two-story brick block, at the corner of Oak and Front streets, to Curtis Lamb, of Dayton, for \$8,500, taking in exchange some timber land near Peck & Imhoff's mill. It is a good property, being new, well built, and in a good location. Mr. Lamb has some notion of making this place his home, as soon as he can dispose of his Dayton possessions.

THE art loan exhibition that the ladies of the M. E. church have been working for, the past few months, has been postponed to the last week in October, when it will be held in Rough's opera house. Right, A. H. Rice, J. H. Ritzler, Esq., Mr. Albert Luthson. Postal Cards—Calvin Dodds, H. M. Hendleman, Wm. Smith, Esq. J. L. Richards, P. M.

THE Olivers have demonstrated that gas is not to be found under South Bend, by boring 1,000 feet, 34 feet of which was through Trenton rock when salt was struck, and as gas and salt are not found in the same locality they are not related. What is true of South Bend is most likely to be true of this region. The well that Standarders put down 2,100 feet was satisfactory, although it demonstrated about the same thing that the other wells have.

THAT bit of road at the southwest corner of the township is giving trouble once more, and is next to impassable. There appears to be just such another sink hole as was encountered by the narrow gauge railroad this side of Berrien Springs. It evidently needs different treatment than it has ever had in the twenty-five years people have been trying to make a road there. It is said to have settled about four feet since last spring.

A Buchanan youth recently sent \$1.50 to a New York firm to discover "How to appear well in society." He received the following reply by return mail: "Always keep your nose clean, and don't never suck more than one finger at a time."—St. Joseph Republic.

Bro. Morse, when you have been doing business in this county a few years you will learn to take less stock in the sayings of certain Niles papers, than the copying of the above, as original, indicates.

THE adjourned meeting of the Business Men's Association was held at the council room last Monday evening. G. W. Noble, chairman. Remarks were made by prominent business men of the place, all of whom expressed a determination to push the movement on to success. The committee previously appointed to draft a constitution and a set of by-laws for the government of the association not being ready to report, the meeting adjourned to Monday evening, Oct. 17, at which time a full attendance of all persons interested in the prosperity of Buchanan is desired.

A. C. ROE, Sec. pro tem.

MR. FIELD, of this place, has the patent on what is probably the best engine in the market for running electric light plants. The engine is so perfectly balanced that there is practically no limit within the wants of such work, to the speed at which it may be run and do its work correctly. Mr. Field is a good and ingenious workman, but without proper capital to properly place his invention on the market. Here is an opportunity for a profitable investment of capital in the manufacture of a machine that has its special field already prepared for it and a large one, and also an opportunity for building up a manufacturing establishment in Buchanan worth looking after.

THE supper given Saturday afternoon and evening by the mission band of Cheerful givers, in Sander's building, was well patronized and in every way a success. The proceeds netted about \$20. As the funds distributed by this mission band is all spent in Buchanan, instead of being sent to clothe the Fijians, it is an institution that well deserves liberal patronage. When the poor at home are comfortably cared for, any extra change might be used with our near neighbors.

REPORT comes from California of the exceptionally good fortune of Mr. Guy Drew, who went there from Three Oaks about one year since. He bought a section of land, and before paying for it sold all but 112 acres for enough to cover the cost of the whole, and now has an offer of \$1,000 per acre for what he has left. He telegraphed to his father, A. L., for advice about what to do, and the return dispatch, although laconic, was to the point. It was "Let her slide." \$115,000 is not a bad start for a boy. Those Three Oaks girls who used to be giving him the mitten, will now wonder just why they did.

FARMERS living in the bend of the river are loudly complaining because the river bridge is left down for so long a time, and talk of prosecution for neglect can be plainly heard when a number of them meet. While the river was low they could ford at Bachelor's island, but the rain of last week has so swollen the current that fording is out of the question, and those who reach Buchanan now, with their teams, are obliged to go around by Niles. Now is the proper time for those interested to make a move toward change of territory, and building a permanent bridge that shall give no more trouble. The Board of Supervisors hold their meeting in January and all preliminaries should be attended to now.

ISAIAH RYNEARSON, of Three Oaks, has a case of horse stealing on his hands. A couple of fellows came from Indiana, with an attorney, got out an attachment, on which Rynearson took a team and harness. The defendant claimed the team belonged to another party, but Rynearson took them to Three Oaks and hitched them while he hunted up the ownership of the team. Meantime the attorney entertained him while the other fellow ran the team off for Hoosierdom. Rynearson soon discovered that he was responsible to the owner for the team, and is at a loss to know whether it is he or the other fellow who stole the horses, although he has them under arrest and will give them a chance to prove their innocence next Monday.

SMITH has some furnished rooms to rent.

KILLED.—Friday, as freight train No. 36 went through this place, about 5:30 o'clock, the head brakeman discovered the body of a man lying on the north side of the south track, just east of the Lister place, with the upper portion of the body badly mangled, which was that of Wm. Coates, of this place, who had come from Chicago on the Kalamazoo Accommodation on the evening before. He was seen by a number of passengers just before the train stopped at this place, but no one remembers seeing him get off from the train, and it is supposed that he either stopped to talk with some one and did not notice that the train had stopped, or returned to the car for something and then jumped off, and as the train goes about twenty miles an hour at that point, was thrown and struck by the boxes, which almost completely cut him in two. Justice Dick was immediately notified, and empaneled a jury which took the testimony of witnesses living here and adjourned to Tuesday afternoon, when the Michigan Central Company was represented by their attorney, from Detroit, and the crews of the two trains. The jury rendered the verdict that he came to his death by being struck or run over by a Michigan Central train. The remains were buried in Oak Ridge cemetery Saturday.

THREE OAKS ITEMS. Oct. 10, 1887. Owing to the press of business we were unable to write the current events of the "center of industry" last week.

Our fair was held upon the 4th and 5th inst. on the grounds, and in and about the town hall. The exhibits were not flattering in quantity or quality. The free part of the program, however, served to bring in a large number of people from the surrounding country, and it was extremely difficult to identify a Woolvereen from a Hoosier.

The state line has no terror for our young people since the marriage license law took effect and it will soon be the order of things to class the coming generations along the state line as "alf and alf" or Woollyhoosiers. The big event of this week will be the Featherbone excursion to Chicago on Wednesday. Already the number enrolled is about 250. Old maid passengers have been requested to eat fried onions for breakfast that morning to sweeten their breath.

The Three Oaks band will accompany the excursion, horn in hand. No music expected after we pass New Buffalo as the Indiana laws are rough on church bands. Quite a number of strangers in and about our town these rainy days, among the most noted of them is Capt. H. L. Drew and family of San Bernardino, Cal. He is visiting his brother A. L. and family. The Captain is said to have "struck it rich."

The Three Oaks "school marm's" look like since the young Methodist Divine was ordered to resign. Cheer up girls, the general conference have been apprised of your condition and you have not been left without hope. Improve the opportunity, as the local life of a Methodist minister is short.

The Sawyer postmaster and druggist will have his trial for violation of the liquor law, on Saturday of this week. We have understood that the bond on file in the county treasurer's office, in his case, will show some crooked work of the Chikaming town board. We hope not, for their sakes, as they have had trouble enough of late.

What We Want. Fire Insurance at Cost. The Mutual City and Village Fire Insurance Company have just made their annual assessment, which covers the losses sustained by that company for the past year. The assessment exhibit made must be alike gratifying to its management and the policy holders. The assessable risks of the company on July 26, 1887, were \$638,447, being an increase of 25 per cent. over the previous year. The following comparison between the cost of insurance in the City and Village and stock companies for the past year is one of which it is difficult to find a friend. These figures represent the cost per each \$1,000 of insurance, that for the City and Village covering a period of fifteen months, while the stock rates are for but one year:

CITY AND VILLAGE VILLAGE CO'S. Class 1, Detroit buildings, \$1.50 to \$2.25. 2, Frame churches, 2.00 to 2.50. 3, Houses, etc., 2.00 to 3.00. 4, Brick business buildings, 2.50 to 3.00. 5, Hotels and detached business buildings, wood, 7.50 to 10.00. 6, Wooden rows, grist mills, saw mills, etc., 10.00 to 15.00. 7, Establishments run by women, 10.00 to 15.00. 8, Manufacturing establishments, 15.00 to 20.00. 9, Some risks at above rates, 15.00 to 20.00. 10, Greater hazard, 15.00 to 20.00.

Classes 1, 2 and 3 have, ever since the organization of the company (and the stock company's rates, and the remaining classes from one third to one-fifth their rates.

A perusal of the above table will show at a glance the great advantages offered by our home company in the matter of low rates. In many cases, stock company rates exceed the figures given in their column, our aim being to give their lowest rates in the classes represented. This is certainly a splendid showing for this year's management, one that is greatly due to a careful selection of risks and a determination to deal justly by its patrons on the part of the officers of the company during the past fifteen months, but paid all the expenses of running the company also. To the people of Berrien, Cass and Van Buren counties, to which its business is limited, we cheerfully commend this sterling company, whose management has secured reliable insurance at the lowest rates, and whose adjustment of losses has given such perfect satisfaction in the past.

Another important part not mentioned above, is the fact, that while stock companies discriminate against the man of moderate means by charging a higher rate on the little cottage worth less than \$500, than on the mansion costing many thousands, the City and Village makes a uniform rate to rich and poor alike. Those desiring to insure in this company, can obtain rates by applying to the Secretary, Henry H. Potter, Dowagiac, Mich.
