ST. JOSEPH and Benton Harbor are trying hard to solve the problem of whether they want a steam street car motor covering about their streets. Some think them dangerous to have about the streets, and the street car company is likely to meet with strong opposition to their request for franchise.

NILES is in a sweat over the problem whether she shall pay in rent two or three times the value of water works, or buy them outright and own them. An election was called for last Saturday to decide upon the acceptance or rejection of a proposition by the company.

BENTON HARBOR and St. Joseph are filled with transportation magnates who are then to make the great hotel scheme "boom or bust," and that in short order. The new building, if erected, is to be 420 feet long, and have accommodation for 700 guests. It will be a big thing for the two towns.

THE NEW YORK GRAPHIC has been recently purchased and completely reorganized as a vigorously Republican newspaper. It is said that Senator Quay, S. B. Elkins and other prominent Republicans are concerned in the reorganization of The Graphic. If so, the Graphic is surely going to become a power in the Republican party, and already shows wonderful improvement.

THE relief committee of the W. R. Corps would respectfully request any who have cast-off garments suitable for repairing, or contributions of any kind for the destitute and needy, to leave them at Mr. Wood's shoe store, or with Mrs. Miles, chairman of Relief committee, and they will be distributed where most needed.

BURGERS have been getting in their work in Niles. Wohlrahs' saloon and Kephart's confectionery store were robbed, last week, of about \$140 in money. THE Benton Harbor Building and Loan Association made its first loan of \$500 on a bid of ten per cent, and thought it was doing a big thing. NEARLY all of the state papers are advertising the sale of the narrow gauge road in this county for February 20, when the sale will take place on the 20th, no preventing providence. QUEER way of doing business some people have. There is the Niles city council, for instance. Niles has a fire limit ordinance prohibiting the erection of wooden buildings within a certain specified space. Henry Platt has built an ice-house within that territory, and the council has given him until sometime next summer to make the thing fireproof, and instructed the recorder that in the meantime he shall take no notice of any complaints that may be made respecting the ice-house.

JOHN WILBUR took the RECORD, read and enjoyed it until we wanted pay for it, when he sends us orders to "Go to Hell" for our pay. Well, now, we are not going, even to find John Wilbur there and collect our pay. It has cost us a few dollars to learn exactly what kind of bird he is but we take pleasure in giving our readers the benefit of the knowledge without cost or the trouble of taking the trip he proposes for us. He owns a house and 2 1/2 acres of land, worth perhaps \$1000, and the exemption laws of the state of Michigan allow him to hold it and send his creditors on such highly interesting trips as this.

Another Peculiar Notice. The other week there was printed in the RECORD a notice of a post-office in Pipestone which was more remarkable for its terse language than its good spelling. A correspondent in Vessaw sends a school notice which is a masterpiece of terseness and brevity. Here are the rules and regulations of that particular school:

District No. — township 7 Range 7 County of Benia state Michigan of Rules and Regulations to be observed By the teacher of said District to Ceep good order New swearing or fling from and toward the school to Ceep the scholars in strict subjection the girl respect in the house and at play.

February 4, 1889.—B. S. Journal.

Berrien Springs Journal. Monday evening, Edward Congdon, of St. Joe, was attacked by highwaymen, four miles out of that place. Several nights ago he was robbed, and every time he sees that hole in the top of his buggy he will think of his awful experience. The St. Joseph edition of the Palladium has been distributed. This was accomplished by dropping "St. Joseph" from the date line. — Cyrus B. Groat, secretary of the board of county examiners is ill at his home in Berrien township, and has been obliged temporarily to give up his school work. — A German family named Gurgenson, living a mile and a half south-east of Heath's Corners, lost their household goods by fire about 3 o'clock Tuesday forenoon.

FRED CARLISLE well-known in railroad circles, has written to an influential resident just over the line in Michigan, that work will begin early in the spring on the projected line from South Bend to St. Joseph. Galien is aroused and North Olive citizens offer free right of way.—North Olive Cor. in South Bend Tribune.

THE talk around town, and though the exchanges that was fouly played with the late and fire and death of James Tripp, which that it does look a little that way, no silver could be found, after the fire, and by the talk he had about 75c. in silver and between \$20 and \$30 in bill, the clasp of his pocket-book was found, and his keys to the house etc. was found in the middle of the house after it burnt down, and another thing that look fouly play was his key chain, which when first discovered, which all thing show that he was robbed and knocked down for his money, and the robber fired the house to hide the crime.—Covert News.

Would you not like to be transported to New York City some bright Sunday morning and make a round of the different places of worship, and see just how New Yorkers worship, from the Protestants to the Jews? To get an idea of them and the different religions and the Christian Scientists, would require many Sundays; but Demorest's Monthly Magazine for March (just received) has simplified matters by bringing "Religion in New York" to us, and illustrating the article so beautifully and profusely that a stranger can get more information from it than could be gained by twenty Sunday visits to New York. This is a beautiful family Magazine, and to surpass its predecessor; and now

TRY "THE HERO" FIVE CENT CIGAR. JOHN MORRIS, Proprietor.

Another early settler of Michigan has gone. Mrs. Evalinda Hooker died, near Iroquois, Dakota, Feb. 2, 1889. Evalinda Cooper was born in Livings county, N. Y., Feb. 14, 1812, and only lacked twelve days, at the time of her death, of being 77 years old. She was married to Warner Hooker, in Allegheny county, in 1830, and settled on a farm one and one-quarter miles south of Buchanan, where she lived about thirty years, her husband having died there in 1848. Most of the time for the past twenty years she has resided in this village. About two years since she went to Dakota to live with her two daughters, Mrs. W. F. Molsberry and Mrs. Juliette Baker. She had been troubled with a cough for a number of years, which terminated in consumption, but had been obliged to keep her bed only about four days when she was relieved of her suffering by death. Mrs. Hooker was one of the pioneers of Berrien county, and will be remembered by those who knew her in early days as a kind neighbor and friend, and always willing to help those who were sick or in need of assistance.
