

JOHN G. HOLMES, Editor.

THURSDAY, JUNE 8, 1889.

The President of the United States didn't go fishing on Decoration day this year.

There is quite a talk that Lower California may soon belong to the United States.

The murder of Dr. Cronin, in Chicago, is stirring up about as much of a commotion as did the anarchist trouble three years before.

The Green Bag, a new magazine published in Boston for the special edification of the legal fraternity, has a good article on the law school of Michigan University, with good portraits of some of those prominently connected with the department.

On Wednesday of last week the senate passed the Damon high tax liquor bill, without making the change recommended by the senate committee.

South Dakota's state constitution, adopted almost unanimously at the late election, is pronounced by Senator Edmunds, a pretty good authority in such matters, one of the best ever adopted by any state.

The Damon liquor tax bill, with a uniform tax of \$500 for both beer and whisky sellers, is a very desirable and effective measure.

THE FLOOD.

The worst disaster recorded in the history of this country occurred in Pennsylvania Friday evening, on the Conemaugh river, in Cambria county.

The South Bond Times of Saturday contained the following:

Owing to the rain the work done on the new railroad at St. Joseph, Mich., from this city, has not counted for much this week.

The company backing Mr. Dallin are negotiating for a line of steamboats from St. Joseph to Milwaukee to run in connection with the railroad.

Accidental Shooting.

The Nashville American is fretting its gizzard over the vacancy on the supreme bench.

The St. Joseph County Pioneer society will hold their annual meeting at Centerville on Wednesday, June 12.

FROM GALLIES.

On Wednesday evening a daughter was born to Mr. and Mrs. Wm. Niles, but regret to say that the little one has since expired.

Mr. Blakeslee discontinued his milling business on Tuesday, for the present, having saved since the 18th of March, over 600,000 feet of logs.

The criminal case of assault upon a young lady by an old man, pending in the court here before Justice Robe, has been filed for the circuit court.

THREE OAKS ACRES.

Rev. LeRoy Warren, of Lansing, a man well known throughout the state in connection with the Home Missionary work, has occupied the pulpit in the Congregational church for the past two Sundays.

MICHIGAN towns are paying strict attention to the graveling and improvement of public roads leading into them. There are some roads leading into Buchanan from the north that might stand a good amount of this sort of treatment.

DOWAGIAC is asking the Michigan Central to erect gates at the street crossings in that place. If any place on the line of the road has a crossing more dangerous than the Portage street crossing in this place they should certainly have gates.

THE Detroit Journal will issue a special eight-page edition on Tuesday, June 11, and with each copy, will fold in a special map supplement, showing the city of Detroit as it was before the 1865 fire.

Over three inches of rain fell in this vicinity last week. Almost an unprecedented rainfall. There was such a lack of moisture in the ground that nearly all of it has soaked in, and barely any change has been made in the streams.

THE arrest of Tom Cox, mentioned last week, proves to have been a scheme to bleed him for some cash. The case was settled for \$100 and cost, as cheaper means than a law suit 150 miles from home. There are times when there is more satisfaction in paying \$2 for fight than \$1 for blood money.

MR. MOWREY is much troubled by cutworms. They not only eat his garden plants, but eat a hole as large as an ordinary teacup into a stone. If you have any question about it, just call at Mr. Mowrey's shop and he will show you the stone bearing the tooth-marks of the cutworms.

A TRAIN named August Vinnard was riding on the bumpers of a freight train, last Thursday, and when near Galien he tumbled off. The wheel cut off both legs and an arm. He died a short time after the accident. The company's surgeon, Dr. Bonine of Niles, was telegraphed for, but before he could get started the man was dead.

It might not be unprofitable for the South Bend Times to send the editor in chief up into the wilds of Berrien county to post himself in railroad matters. Also some other South Bend people who think they have a list of our business men who are opposed to the railroad being built through Buchanan, and verify the list instead of taking some one else "guess so" about it.

OUR doughty neighbor of the Enterprise, does not appear pleased with Rev. W. L. Cogshall's Memorial Day address. This was to have been expected, however. There was one glaring fault with the address. It reversed the order of the address we had two years ago, and instead of spending his entire time in laudation of Confederate generals and their wonderful soldiery, dealt more with the valiant deeds of the boys in blue.

MR. WM. HASLETT was taken suddenly and seriously ill of kidney trouble upon his return home from this place last Friday evening, and has since been in a critical condition. This morning he was resting easily, and while there was no marked improvement in his condition, he was not worse. His speedy recovery is hoped for by an army of friends.

THE young ladies of the M. E. church will give a Trade Carnival at Opera House, Friday evening, June 7. Supper will be served from 5 to 8. At 8 o'clock the first grand march will take place, in which the various trades and professions of Buchanan will be represented in a novel and unique way. This will be followed by music, recitations, tableaux and a second grand march. Admission to Hall only 5c. Supper, 15c. The opera house ought to be crowded.

THE deepest drive well in Kent county, if not in the state, has been recently put down by Proctor & Allen, of Whitteville, for James W. Eardly of Cascada. It is 225 feet deep, but the water comes 160 feet deep, so that the pump does not have to lift the water more than 70 feet.—Grand Rapids Democrat.

That gets ahead of the one put down in this township last week by twelve feet, so we do not enter into the contest.

A veteran woodsman informs us that a destructive enemy has attacked the maple in this section, and that many acres of the timber land now be cut or rot. It is a little worm which devours the leaves and kills the tree. Our informant has run across the voracious little fellow in this county, and in Missaukee and Osceola.—Cadillac Democrat.

This is being the same "critter" that has been dropping the leaves from the shade trees in this place during the past two or three weeks. The insects are not very numerous here yet, but these are a great plenty. They cut the stem about midway between the leaf and sprig.

The committee appointed to look after the interests of Buchanan in the Dallas railroad went to South Bend, Tuesday, to meet with the stockholders and learn what was to be known regarding what may be expected for Buchanan. They did not attend the meeting, or learn anything definite. The only thing significant about the visit is the fact the members of the committee returned considerably down-cast in spirit by having gained the impression that there is but little if any chance for Buchanan to secure the road, or that we would likely be given a chance to make an effort to secure it.

MR. WM. DALLIN has written to J. E. Barnes, member of the railroad committee of this place, asking whether Buchanan will give the ten miles of right of way for the new road if it be built through Buchanan, and a meeting has been called for this evening, to determine whether it be the wish of the village to do anything of the kind or not. It is now quite well understood that the road Mr. Dallin is building, is to be an extension of the Vandalia or Wabash system from South Bend to the lake, and if there be any possibility of Buchanan securing a connection with that system we want it. Every man who owns property in Buchanan, or within five miles, should be at that meeting, and the vote should be unanimous in favor of securing that road.

The preliminary steps have been taken by S. A. Wood, Alex. Emery and John G. Holmes for the formation of a local mutual relief association for Buchanan, the object being for the relief of the families of deceased members of the association, and for the care of members in sickness. The membership will be worth as many dollars as the association has members. While there is no limit to the operation of the association it is expected that it shall be confined to Buchanan township, and we see no reason why there may not be 300 to 500 members secured. While the association may be a small affair as life assurance goes, its work will be among neighbors, and serve as an effective charity, where charity should begin, at home.
