THE wool market has closed here this season, and the purchases light, but about 40,000 pounds having been bought. This is accounted for by the fact that the buyers here bought only such lots as were brought into town, while the buyers from other towns scoured the country for all they could find.

MR. CHAS. S. BLACK has two car loads of two and three year old colts from Montana, that he is offering for sale. He keeps them on Frank Gano's place in the bend of the river. They are not bronchos nor ponies, but good sized colts for driving or farm work.

THE Cassopolis Democrat hints that there is some mistake in the stories being told about the eccentric action of Tom O'Hara, in the Wilson murder case, but fails to mention what the mistake consists of. Whether the Judge did not sentence the man he thought innocent to ten years in the penitentiary, or didn't say there was not evidence enough to hang a yellow dog, or whether he didn't order the record of the case to be printed at the expense of the county, in order that Wilson might take his case to the Supreme Court, or if he did not declare that he thought the man not guilty, and then refuse to grant him a new trial, in this connection we have received from Dakota a clipping from the Minneapolis Evening Star of an account of this action by the Judge, and a letter asking if he is crazy. We will take the responsibility to answer that he is not, although no critical examination has been made to determine that, is not more so than during the past three or four years.

LOOK HERE! LOOK HERE! THE FAIR! HAS CUT PRICES IN TWO!

SOME of Buchanan toughs, who are in the habit of following young ladies who appear upon the street unattended, might profit by remembering that we have a state prison for such fellows, and also that in aggravated cases of that kind there is an occasional lynching, even in Michigan. Three of them who have been making themselves free in this manner are known, and may well profit by a hint.

THE Fair grounds have been sold by Mr. Sam. C. Thompson to Altemus Charles O. Miller for \$2,000. The grounds were deeded to Mr. Thompson by the Association, he being the only surviving bondman for the society's debts.—Niles Democrat.

AND thus endeth a long chapter or signal failures, the like of which should never again be known in Berrien county.

MONDAY was pay-day on the St. Joseph Valley railroad, and the pay-car, a red leather handbag carried by Mr. Gray, arrived promptly at six o'clock and made happy those who have worked during the past month, and also the keepers of boarding houses. The work of spreading the track goes steadily on from both ends of the route, work being done both ways from Oakland Mill, where a large lot of ties have been delivered, and at the present rate it can be but a short time before the train can run into the Capital city. There is a standing advertisement for more men to work on the road.

POISONED.—Three members of a family named Sebring, living in the south-western part of Genoa township, consisting of father, mother, son and daughter, were poisoned Friday evening. The son, Horace, aged thirty, has been placed under arrest, charged with putting arsenic into the family tea. He refused to drink any of the tea and was not taken sick. He is said to have been jilted by a girl he was courting, on account of his poverty, and as his father's will was to him he would come into possession of the property in case of the death of the rest of the family. This is given as the probable cause of his action. He bought arsenic in New Carlisle, telling the druggist he wanted it to kill rats. His bail was placed at \$1,000, in default of which he is now in Berrien jail. His examination is set for next Tuesday, July 23.

A SOMEWHAT serious accident occurred on the St. Joseph Valley railroad, Saturday evening. The hind car of the train was so much higher than the one just ahead of it that instead of putting the link into the draw-bar head, it was put on top, and in coming down the grade south from the Drago house, in coming home from work, the train parted. When at the bottom of the grade some one "swung the engineer" and he stopped, and the loose car came against them with a bang. The workmen on the hind car of the forward section received a pretty general shaking up. Thomas Dolan was thrown against the edge of a timber and one of his ears nearly shorn from his head. Two others were slightly injured. One of the cars was thrown from the track, but was quickly replaced and the train proceeded up town.

A MEETING of the business men of Benton Harbor was held yesterday morning, in the interest of the St. Joseph Valley railroad, at which the following proposition from Mr. Burns was read: "Mr. J. P. Thresher read the written proposition made by Mr. Burns, who offers for the sum of \$12,000, to be raised by the citizens or township authorities of Benton, of Benton and Royaltown townships, and free right of way from the Yellow Creek crossing of the St. Joseph river and through Benton Harbor and depot grounds in the town, to extend to Benton Harbor the broad gauge railway now practically completed between Buchanan and Berrien Springs, the work to be done this year. It is proposed by the railway company to build a combined railway and wagon bridge over the St. Joseph river at or near Yellow Creek, and in consideration of the \$12,000 above noted will maintain the bridge in good repair for team travel as well as the use of the railway, for ninety-nine years—practically forever." The meeting voted to accept the proposition and appointed committees to secure the desired bonds. In its account of the meeting the Palladium says: "Berrien Springs has voted \$30,000 to aid this road and Buchanan has voted the right of way from that town to South Bend."

ALL our citizens know Alva Haywood, the impersonator, and will wish him well in the new troupe he has organized. He was married, Saturday last, at Butler, Ind., his bride being Miss Maria Genevieve Story.—South Bend Sentinel.

Five miles of grading has been done up to date from Hickory Creek. It is the understanding that the depot for the new road will be located on the Watkins tract near the old brick yard.—Palladium, St. Jo. Dept.

Now I think Consomme Soup is good, but I am told it is made of the sweepings off of the cellar bottom, or sort of a house-cleaning dish. Now, we offer the sweepings off of the cellar bottoms of some of the best known factories. This is the winding up of the season's business—out West they would call it a Round-up. Now, we bought these goods for this sale; they are not the sweepings from our cellar bottom. ART AND NATURE IN PARIS

THE GREAT EXPOSITION NOW A WONDERFUL SUCCESS.

The Crown Increasing Every Day—The Great Hall of Art, the Electric Drive and the Manufacture of Colored Porcelain—All Represented.

Paris is now only a lodging suburb—the real metropolis is the exposition grounds. Readers will remember that at the beginning Parisians, and especially government officials, were quite specially about the success of the great exhibit.

All the correspondents agree that before the last of June the exposition was by far the greatest ever known. For five weeks each successive report was more encouraging.

The great hall of decorative art is now complete in its fittings, and is, by common consent, the finest ever seen in Paris.

In the Pavilion of Rivers and Forests the exhibit is rather the exception than the rule. It is a curiosity, or an exhibition of the French idea, than a matter of great value.

French pictures in this line appear conventional. The non-artistic writer cannot tell what is lacking, but if one may so express it, the forest looks like a picture taken by a camera.

In the meantime Parisians are visitors in the matter of the street, and they have benefited the passenger to night and gently turned the vehicle on its side.

A FAMOUS EDUCATOR.

The Late Theodore Dwight Woolsey.

Three weeks before his death the late Theodore Dwight Woolsey slowly and painfully, and leaving legacy on the arm of his daughter, made a tour of Yale campus.

He entered the Theological seminary at Princeton, N. J. in 1833, however, when he was licensed to preach. In 1837 he received a Ph.D. from the same institution.

After he became president of the institution he brought about many changes and reforms, and the effects of the vigor and new life which he infused into Yale will be apparent as long as the college exists.

His resignation, in 1871, Dr. Woolsey lived in New Haven, occasionally giving lectures in the Yale law school, but devoting most of his time to reading and study.

He reached that figure by annexing five suburbs with 220,000. Size and Population of the Annexed Districts—Marvelous Growth of Chicago—Site of a Fort in 1633—A Town in 1837—A City in 1840.

Table with 3 columns: Area Sq. Miles, Population, and City Name. Rows include Chicago, Lake View, North Dearborn, and Total annexed.

Chicago now claims to be the second city in the United States in population and the largest in area, and various rivals say that if it had been a little larger in the annexed territory, it would still be behind Philadelphia.
