UMPIRE RUSH A ROBBER

Game Full of Errors Was Witnessed by Good Sized Crowd

A good sized, but not good natured, crowd attended the ball game, between New Carlisle and Buchanan yesterday afternoon.

Lovers of the national game who go to a ball game because they enjoy it, always demand fair play, but this they did not see at yesterday's game. The band played a piece or two down town and on the way to the

BEN AND MARY PICNIC STARS

Holy Roller Band at Young People's Event

Ben and Mary and the long-haired Australian band and orchestra which caused Chicago to pause in its hustle last week and listen, will be main show attractions at the Young People's picnic to be held in Berrien Springs August 2.

The management of the association Wednesday morning completed negotiations with the Israelites for the appearance of their musical organizations in public for entertainment. The band will leave Benton Harbor early in the morning for Berrien Springs and will render music throughout the day's program. In the evening the orchestra will give a sacred concert. BEATEN BY OLD RIVAL

Eastland Defeats City of South Haven in Hot Race

RUNS 22 MILES AN HOUR

May Mean Revival of Lake Michigan Racing

The steamer Eastland of the Michigan Steamboat company has defeated her rival, the City of South Haven, in a terrific race across Lake Michigan and in doing so set a new speed record for the Chicago South Haven course, making the run at the rate of 22 miles an hour. The race took place Sunday and was a fair one in every respect. The defeat of the

land to cultivate garden truck, to keep a horse, a cow, some geese and chickens, a few pigs, etc., fills the bill. That is what may be called leading the ideal life." This has long since been Mr. Stoll's ambition and we would not be surprised to see him break away from newspaper work and go to the fields. It certainly has an allurements hard to overcome.—Elkhart Truth.

THE SERVICE OF UNCLE SAM

P. O. Examination Will be Held at Niles July 8.

The United States Civil Service commission announces that on July 8 at Niles an examination will be held for the positions of clerk and carrier.

The salary of letter carriers in all cities which contain a population of 75,000 or more is arranged in three classes: first class, \$1,000 per annum; second class, \$800; and third class, \$600. In cities containing less than 75,000 population there are two classes: second class, \$850 per annum, and third class, \$600. Appointments of letter carriers are made to the class having the minimum rate of pay and promotions from the lower grades are made to the higher grade at the expiration of one year's service, on certificate of the postmaster to the efficiency and faithfulness of the employe during the preceding year. A substitute letter carrier receives \$1 per annum and the pro rata compensation of the carrier whose route he may be required to serve. A vacancy in the regular force of carriers must be filled by the promotion of the senior substitute. A substitute clerk is paid a rate of compensation not exceeding that of the absent clerk or employe whose place he takes. The salaries of clerks at the post offices vary according to the class of work to be performed and the size of the office, but range from \$400 to \$1,000 in the smaller offices to as high as \$1,700 per annum in the larger offices. All original appointments of clerks are made at the minimum salaries.

Age limit, all positions, 18 to 45 years.

Male applicants must be at least 5 feet 4 inches in height in bare feet, and weigh not less than 125 pounds.

No person who is defective in any of the following named particulars will be appointed in the postal service: deaf-mutes, hunchbacks, persons having defective hearing, sight or speech, persons totally blind or blind in one eye, one-armed, one-handed, or one-legged persons, or those having crippled arms or legs; and those suffering from asthma, consumption, hernia, or any other physical defect or disease which would prevent a proper discharge of the duties of the position.

All persons who have been examined for the position of clerk or carrier within the past year and failed to pass may be reexamined upon filing new applications in due time.

This examination is open to all citizens of the United States.

grounds, also after reaching the grounds. The game opened with "Rit" in the box and Herbert Hanover behind the bat. By a succession of errors in the first inning the score stood 8 to 2 in favor of Buchanan. They then began to play ball and for the next five innings neither term succeeded in getting a man around the brilliant.

It was in the first half of the seventh inning that Umpire Jim Rush, of New Carlisle got in his dirty work. With two of the Tigers on 1st and 2nd, a liner was batted out past 3rd going clear on the outside of the bag by six inches, thus making it clearly a foul. The Buchanan team made no especial effort to field the ball quickly knowing that it was a foul. Rush did not look at the ball, but was watching the runner go to 1st base. The Tigers on 2nd and 1st taking advantage of the Blues' inactivity, scored. When Umpire Rush's attention was called to the foul and after the scores were in, he gave the decision that it was a fair ball.

The crowd set up a great howl at such rotten tactics, and kept it up during the entire seventh inning. In the eighth inning Rush was removed from the game.

In the eighth by a series of errors New Carlisle made three more scores, while the locals failed to reach home again during the game.

The score at the finish standing New Carlisle 7, Buchanan 3.

There was not an earned run made during the entire game. Aside from the two that were made on Rush's decision, the rest were all made on errors. The New Carlisle ball team played a good clean game, with out any dirty work and left an impression behind them as being perfect gentlemen, not so with Mr. Rush. It was said however, after the game, that inasmuch as he was a victim of the Perdue wreck at Indianapolis, a year ago last fall, that he has not been just right since. If this be true, the New Carlisle team certainly displayed poor judgement in bringing an umpire with them that, as they afterwards admitted, was off in the upper story.

The attendance was about three hundred.

placed on the program to deliver an address. He accepted the invitation of the committee on condition that he be not expected to make a lengthy address.

Mary and a retinue of her sisters will also participate in the festivities of the day.

Arrangements for the picnic are rapidly being completed. The plan of forming a picnic association of all the counties in southern Michigan and northern Indiana is meeting with enthusiastic support. Last week C. A. Wilkinson made a trip through northern Indiana and finds prominent young business people of that section eager to join with southwestern Michigan in a plan for a monster picnic demonstration each year.

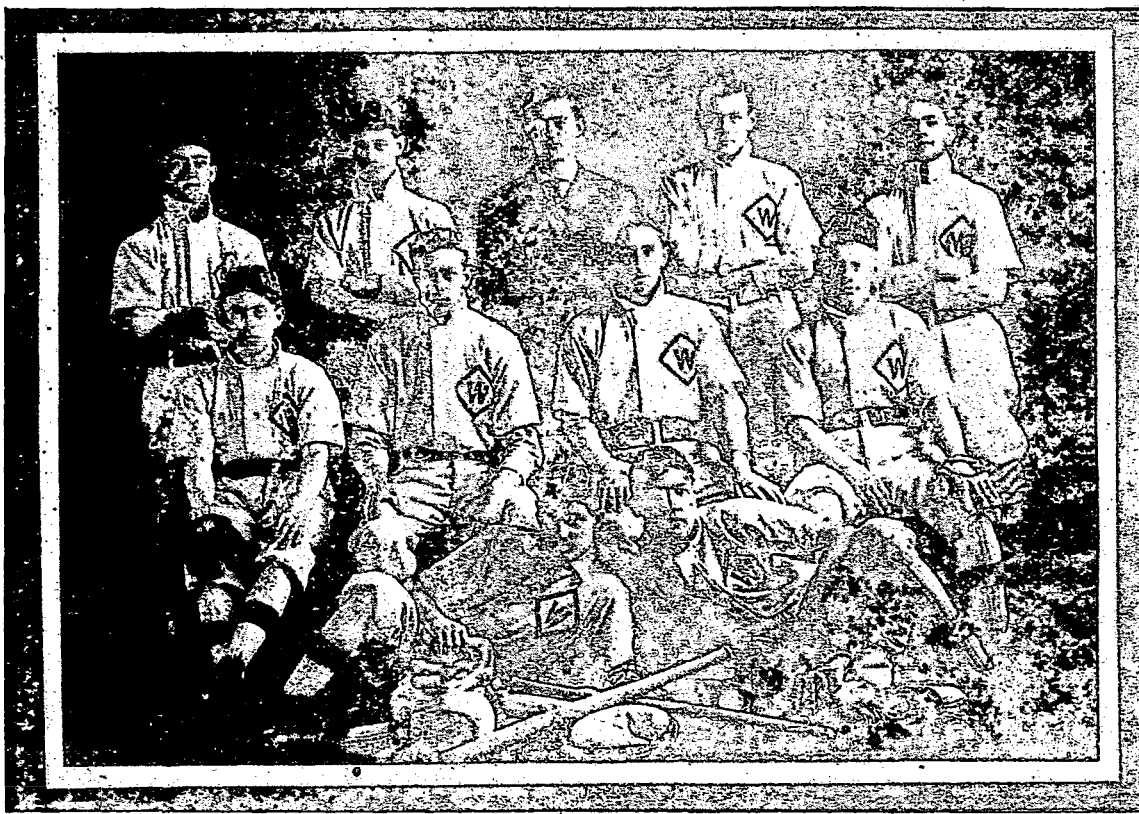

Plans for such a league will in all probability be perfected and an organization formed at the meeting in Berrien Springs August 2.

FIFTY NEW TEACHERS

New Law Permits Them to Teach Any Place in State

St. Joseph, June 28.—The Berrien county board of school examiners have just finished going through the papers of the 125 persons who took the recent teachers' examinations for second and third grade certificates and have granted certificates to 50 of the number. This was an unusually large number of applicants for licenses to teach and the percentage of those who passed was much above the average. The result will be 50 new teachers for Berrien county. Last year the number of teachers was hardly sufficient to supply all the schools in the county. There will be another examination in August, when those who failed to pass may try again. These certificates, under the new law, will be good for any county in the state and the teachers are not compelled to take another examination outside of the county should they secure a school away from home.

Do not fail to see Forrest Tempest the horse that actually reads, writes, and spells, adds, subtracts, multiplies and divides any number you give, with s'nay show Saturday July 1st

The above is a picture of the Chicago Independents, of the Merchant's League, that will play two games of base ball in Buchanan next Tuesday, July 4th.

China's proposed boycott against American goods will not frighten anybody. See what the American steam laundry did to the celestial sudsthrower.

Gov. La Follette, Sam Jones, Col. Bryan and the rest of the Chatauqua circuit attractions will do well to get back from Kansas without being kidnaped for use in the harvest fields.

Linievitch reports that "The Russians in the direction of Ufangu retired, after unmasking a considerable force of Japanese." Probably they were taken for Chinese until the mask was off.

It is to be hoped the council will take some action at its next meeting, to properly cope with the increasing amount of drunkenness on our streets. Within the past month it has become so marked, that ladies and children are not safe to go on the streets unattended. Buchanan is blessed with a set of burns whose only object in life seems to be in "putting down" the liquor traffic. It is within the power of the common council to make an ordinance that will remedy the evil and then see that it is enforced. The citizens of Buchanan are looking to them to do so, and have a right to expect it of them.

FIRST OF THE SEASON

St. Joseph Justice Sentences Frank McDowell to the Stone Pile

St. Joseph, June 28.—Frank McDowell who, only a week ago, was released from the county jail on a thirty day sentence from Niles, earned some money during that period and on Saturday got drunk on the streets of St. Joseph. He was gathered in by Officer Bussell and taken before Justice Weber where he pleaded guilty and was sentenced to pay a fine of \$10 and costs or five days on the stone pile. Having spent all his money he was compelled to take the five days on the stone pile and Chief Sauerbier has set his man at work. When a reporter dropped around McDowell was busily engaged and declares that work on the stone pile is far better than in the county jail doing nothing. McDowell appears to be of a different type than most of his class.

Scald head is an eczema of the scalp—very severe sometimes, but it can be cured. Doan's Ointment, quick and permanent in its results. At any drug store, 50 cents.

Weekly Climate and Crop Bulletin

Grand Rapids, Mich., June 27, 1905.—The mean daily temperature for the week ended June 26 was 66.9 degrees, or 1.0 degree below the normal, the average precipitation was 0.86 of an inch, or 0.39 of an inch below the normal, the sunshine averaged 69 per cent of the possible amount.

Bright, moderately warm and comparatively dry weather during most of the week has greatly advanced outstanding crops and the progress of field work, especially cultivation. Flooded low lands are drying out rapidly and the bright weather has made cultivation of corn, beans and potatoes possible so that these crops are in much better condition than last week.

Wheat, rye, oats and grass have made very good progress and are generally in very promising condition. Wheat seems to be well filled, and is maturing quite rapidly and promises good yields, the same can be said of rye. Meadows continue to make good growth, clover haying has now been in progress about a week and good yields are being secured; haying will probably be general throughout the Lower Peninsula during the next ten days and generally good yields are indicated in all sections. Late potatoes and bean planting have made good progress in all sections. Buckwheat seeding is under way and will be mostly completed during the present week. All late seeding and planting is germinating well. Corn has improved decidedly in all counties. Sugar beets are in good condition and now beginning to show good growth. The condition of fruit continues about the same, except that apples are not quite as promising.

Section Director.

The young people of the Methodist church enjoyed a lawn party at the home of Chas. East, last Tuesday evening. Games were played and refreshments served. A good time was had by all.

Miss McCollough, of Sturgis, Mich. died at the home of her grandparents, Mr. and Mrs. Henry Seibert, at Dowagiac Sunday. Mr. Seibert at one time lived in Buchanan, and is now employed at the Lee & Porter Axle Works.

With the restoration of the Lake Shore's Twentieth Century 18-hour train comes an order for the guarding of every facing point for 20 minutes before the passing of the train. For the first few days operators and agents will assist in this work, then the section men will be organized to carry it out.

Berrien Springs is all excitement over the robbery of D. H. Patterson's residence, which took place Tuesday night. Jewelry was the object of the marauder, but the funny part of it is they it was all found next morning in a jewel case under the sidewalk in front of the house. Sheriff Tennant and Deputy Allen are puzzled. Perhaps some member of the Patterson family is a somnambulist.

The cab on a Pere Marquette yard engine at Grand Rapids took fire so suddenly Tuesday that it drove the engineer and fireman out before the engineer had time to shut off the steam. The engine was headed toward the Union station. An alarm was turned in and the rare sight was witnessed of a chemical engine racing to catch a burning locomotive. The engineer and fireman remained on the tender and were throwing water into the cab with buckets. With the assistance of the chemical engine the fire was put under control and the throttle reached just as the engine reached the depot.

No need to fear sudden attacks of cholera infantum dysentery diarrhoea or summer complaint, if you have Dr. Fowler's Extract of Wild Strawberry in the medicine chest.

Mrs. Susan H. Smith died at her home on Berrien street at 6:30 o'clock this morning from pneumonia. Mrs. Smith was nearly 78 years of age and has been a resident of Buchanan for nearly 25 years. She had been sick just one week, having been taken down last Tuesday. The funeral will be held from the residence at 3 o'clock Sunday afternoon. The remains will be taken to Chicago Monday morning.

At Hymen's Altar.
At the home of Mr. and Mrs. Albert Hunter, north of town, last night, occurred the marriage of their daughter Miss Myrtle to M. Claude Bates, son of Mr. and Mrs. Charles Bates.

The ceremony was performed at 8:30 o'clock by Rev. W. J. Douglass, in the presence of about thirty-five guests. The bride, dressed in white organdie, and the groom in the usual black, unattended marched to the appointed place to the sweet strains of the wedding march as played by Mrs. W. J. Hunter. The house was handsomely decorated with green and white. The young couple are the recipients of many valuable presents. After the ceremony was over, refreshments were served. Mr. and Mrs. Bates will make their home for the present at the home of Mr. Albert Hunter.

The RECORD joins their many friends in extending hearty congratulations.

It was a huge task, to undertake the cure of such a bad case of kidney disease, as that of C. F. Collier, of Cherokee, Ia., but Electric Bitters did it. He writes: "My kidneys were so far gone, I could not sit on a chair without a cushion; and suffered from dreadful backache, headache, and depression. In Electric Bitters, however, I found a cure, and by them was restored to perfect health. I recommend this great tonic medicine to all with weak kidneys, liver, stomach, guaranteed by all druggists; price 50c."

The 12th opening dance at Coney Beach Hotel, Clear Lake was held last Tuesday evening, and was attended by a good sized crowd. The music was furnished by T. Mack Walker's orchestra. Another dance will be given at this popular resort next Monday evening, with music by Walker's orchestra.

News has been received of the death of William B. Thomson, formerly minister of the Christian church of this place, which occurred at his home in Ann Arbor last Tuesday morning. Funeral services were held at the residence Wednesday afternoon, after which the body was taken to Bethany, Va., for burial.

The Colonial Dames went to Coney Beach Wednesday for a picnic, and it goes without saying that they had a delightful time. That popular resort was never more attractive than now, and "Pete" out did himself to give the Club a good time, even treated them to a trip around the lake in that dandy little steamer Modjeska.

The furore caused by "It Happened in Nordland's" advent at the Grand Opera House, Chicago, a month ago has abated very little, full houses witnessing each performance of Lew Field's great play, finding in it rich material for entertainment of playgoers of all ages, rank and station. "Nordland" is a remarkably beautiful spectacle. Every scene is of surpassing splendor, and staged with exquisite taste. Fields as the gawky Hollander is irresistibly droll. In no previous production has he won so great favor from amusement seekers. Steger as Dr. Blotz is amusing. Harry Fisher has a unique comedy part that induces roars of laughter. Jeannette Lowrey, Grace Fields, Billie Norton and the whole gay galaxy of beauties in the chorus possess charm that is appreciated by all. So excellent is the attendance thus far, there are hopes that the attraction may remain the entire summer.

POULTRY AND BEES

USE OF GASOLINE BURNER.

Successful Poultry Raiser Tells Why It Is Better Than the Usual Lamp.

The letters piling up here state that there is "room for oceans of improvement in brooders." There seems to be hardly anyone satisfied with his brooding arrangements, and as it is impossible for me to answer any more personal letters, I will give a description of our houses, writes Floyd Q. White in the Rural New Yorker.

You can try the gasoline burners on your old brooders if you wish, as they merely take the place of a lamp, doing the work much better and cheaper, too. Any person wishing to raise only a few chickens can get along with a kerosene lamp, but when you have 1,000 or 2,000 little ones to look after in all kinds of weather, then is when you will appreciate our system

GASOLINE BURNER FOR BROODER.

of brooding. The gasoline burners can be secured from a gasoline stove manufacturer. We have some made in Cleveland, O. In our illustration a gallon oil can, A, is soldered to a pipe, B, for a tank and 4 1/2 feet of pipe gives good pressure for the burner, which sets under the heater drum, F, where the lamp ordinarily sets. The box where the burner is, E, must be fire-proof, as the heat is very great from a stove burner. As a matter of fact we never use the stove burner, as the small igniter gives all the heat we need. It is well to use plenty of asbestos between all wood and the box where the burner is. There is no smoking, and we rarely have a burner go out; only one went out last year, and one must be sure no gasoline has leaked out before relighting the burner, or there will be trouble, as it is explosive. Ten gallons of gasoline have warmed six houses one week, filling the tanks twice in that time, and no trimming or bother rainy nights, as it used to be with lamps. We have two different sized houses, six by eight and eight by eight. For the earlier hatches, those coming in March or early in April, we like the smaller house best, as being smaller it is more easily kept warm. We keep from 150 to 200 chicks in each house, and sometimes take the burners from houses which do not need heat any longer, and use the same on other houses with newly hatched chicks. After the first of June we take all burners out and store them ready for next year. The illustration shows house, cut at center showing lamp-box heater, E, drum, F, with burner underneath it; C, hover; D, curtain.

THE POULTRY YARD.

Forcing egg production is dangerous. The male bird does not influence the egg yield.

If you expect good chickens, you must breed from good parents.

A correspondent thinks that there must be money in hens since so much of it has been sunk in the business.

Women become the most successful poultry keepers, from the fact that they are careful and have a love for the work.

Peter Tumbledown is convinced that his hens are not of the egg type. He always keeps a lot of corn before them and yet they do not supply him with eggs.

Good time to have pot-pie now. Draw on the supply of roosters and keep drawing till they are all weeded out. The chickens coming on now should furnish your stock for the coming season.

When the chicks weigh a couple of pounds, send them to the market. You will get more for them then, in proportion to the cost of growing, than at any other time. The next pound will draw more heavily on your pocketbook, and the price will be more likely to tumble.—Farm Journal.

Old Hens.

Some old hens are worthless for laying purposes and some are of value for many years. This is a thing the poultry raiser needs to look up and become expert in. Some men keep good layers until they are ten years of age, but it does not pay to keep old hens on the general presumption that they are good layers.

Judging Wheat Bran.

The best way to judge wheat bran is to chew a little of it, and if it chews up into a nice cud, it indicates gluten and the bran that makes eggs. One can get the best idea by operating with several samples.

NEW YORK TO PARIS

Two Cities May Be Connected by Rail Within Four Years.

New York, June 28 — "It is possible that it will be within four years, but it will certainly not be much longer than that when you will be able to step aboard your Pullman here in New York and go straight through to Paris without getting off the train."

These were the last words said by M. Loir de Lobel as he leaned over the rail of the French liner La Savoie just before the vessel pulled out of this harbor bound for Harve.

With him M. de Lobel took the signatures of a notable group of American engineers attesting their faith in his gigantic enterprise and marking what he considers a final step toward the realization of his dream of seven long years—an all-rail route from New York to Paris by way of Alaska and Siberia.

At the point where his rails would reach the water in Alaska at Cape Prince of Wales, and Siberia at East Cape, the Bering strait is only 86 miles wide. The chance of successful ferriage across the water was long under discussion, while even a giant bridge was suggested to join the two continents. These plans, however, did not seem to meet the favor of many of the engineers he had consulted, and then M. de Lobel conceived the idea of a tunnel under the straits, and this has been deemed, after investigation, entirely practicable.

PECULIAR ACCIDENT

Mad Dog was Choked to Death by a Man Afloat to Let Go

Ashur Triggs, of Wheatley, a small town east of Lesueur, had a close call for his life yesterday, and only escaped by means of an unusual combination of circumstances.

He is a clerk in a drug store, and had a large, powerful bulldog, of which he was fond. The dog had been acting queerly the last few days and about 1 o'clock yesterday afternoon it went suddenly mad. Triggs saw it lying out in the street in front of the store and went out to it.

The dog was frothing at the mouth and when it saw Triggs coming jumped to its feet, rantoward its master, growling. Triggs ran into the store as fast as he could, bursting open the swing screen doors, which are hinged at the sides and meet in the center, swinging both outward and inward. He pushed them open ahead of him as he ran, and when he released them they opened outward wide enough to allow the rushing dog to put his head between them. His shoulders did not pass through, and his rush carried the doors with him, they coming closer together as they swung till they shut up like a pair of clamps on the neck of the dog and held him as if in a vise.

The dog might have backed away and thus released himself, but Triggs had slipped and fallen just inside the door, and had dropped a towel with which he had been polishing the show cases. The towel was close enough to the door so that the dog seized it in his mouth before the doors pinched him, and being a bulldog, he would not let go of it. Triggs turned hastily about. Grasping the situation instantly, he took hold of the other end of the towel, and pulling hard as he could, he held the dangerous and stubborn brute in the doors and choked him to death. The dog was true to his nature, and died for want of breath, his jaws set on the towel.

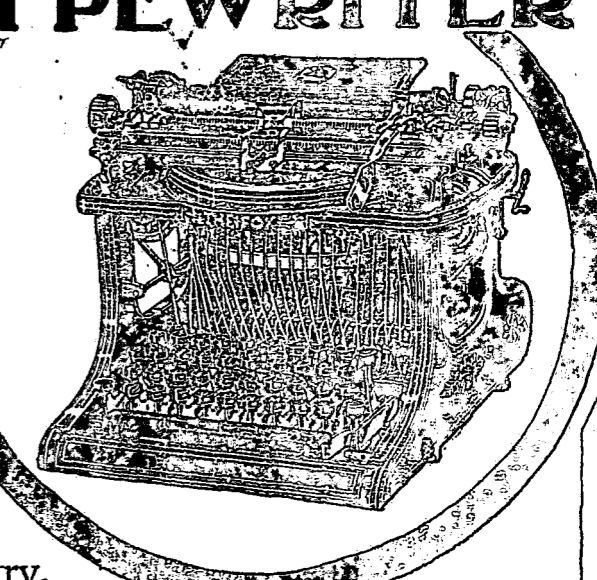

As a bulldog shuts his eyes when he bites into anything, Triggs had no way of telling when it was safe to let go, and 15 minutes later, when some one came across the street to see what the dog was doing, the frightened man still sat there on the floor, pulling for dear life to hold the dead dog in the doors.—Lesueur, Min., Correspondent Chicago Chronicle.

Dying of Famine

is, in its torments, like dying of consumption. The progress of consumption, from the beginning to the very end, is a long torture, both to victim and friends. "When I had consumption in its first stage," writes Wm. Myers of Cearfoss, Md., "after trying different medicines and a good doctor, in vain I at last took Dr. King's New Discovery, which quickly and perfectly cured me." Prompt relief and sure cure for coughs, colds, sore throat, bronchitis, etc. Positively prevents pneumonia. Guaranteed at any drug store, price 50c and \$1.00. Trial bottle free.
