A DIFFICULT QUESTION

Is How to Obtain and Retain Factories in Our Midst

PROSPERITY WILL COME

To our Village, if the Citizens Act as a Unit Along all Lines

An exceedingly difficult question presents itself for discussion, "How to obtain and retain factories in Buchanan?" A great deal has been said upon this subject within the last few years, but we have never been able to secure the desired results. I wish I could tell the people of Buchanan how to obtain and retain factories in our midst, but I can hardly hope to do this. In this tribute to the "good of the cause" I will be content, if I can offer some suggestion that will help in bringing greater prosperity to our beautiful village. I have great faith in the St. Joseph valley, and I believe this generation will see the St. Joseph river "harnessed up" and ready to produce the power that should make this section the greatest manufacturing center in this country. Nature done her share and its "up to us" to bring about the results we so much desire. It is my firm belief that greater prosperity will never come to the village of Buchanan until the people get together and act as a unit along all lines that tend to bring municipal success, for the time may come when one disgruntled citizen can make or unmake this village can give or take away that success which we hope to attain. We all need more public spirit, and it is absolutely essential that we be filled with confidence in the future success of our village, for more towns die for want of confidence on the part of a few citizens, and a lack of public spirit than from all other causes combined. We must lay aside fault finding, growling, kicking and personal dislikes, and show to those who desire to settle in our midst that we have unlimited confidence in the future of Buchanan. We may have our individual opinion as regards the giving of a bonus to factories, but they demand and will always receive them from some locality, so if we would compete with other towns in securing good factories we must "do as the Romans do" and pay the bonus. How shall we raise the bonus? This is the question that presents itself with a great deal of force, and with it answered we will certainly be on the road toward prosperity. The loyal business men of Buchanan, and what village ever had more loyal ones, have repeatedly given money they could not afford to take from his business for the purpose of bringing factories to Buchanan, and while these have, in a great many instances, been failures, yet these men have paid the bill and every citizen in the village has been directly or indirectly benefited whenever a factory employing help has located in our midst. But is this fair? I insist that it is most unfair. If we had large wealth here it might be different, but we must remember that we have very few men of means in the village of Buchanan, and even if we had more it would hardly be fair to ask them to pay their money alone for the sole purpose of obtaining factories that would advance the price of our real estate, and in increasing our prosperity directly help every inhabitant of our village.

Owing to the lack of large means we have at all times been unable to raise a sufficient sum with which to secure large factories, those that employ a large number of men, but so far as out means have permitted we have secured some factories that are a credit to our village. It is my opinion that the only way to obtain factories in the village of Buchanan is by paying a bonus therefor, and such bonus should be raised by a general tax on all the taxable property within the corporate limits of the village, if we are to be benefited as a people let each one bear a portion of the burden, but this can only be

done through our Common Council, and it is to that body that we must look for relief if this method is adopted. It is true that some objections may be made to the legality of such a proceeding, but we can come as near to it as other localities that have become prosperous in this way, but is it possible that any citizen of our village would keep us from attaining the success we so justly deserve? It was said in a recent issue of this paper that a petition signed by a large majority of the taxpayers of Buchanan was presented to our Common Council asking that a fund be raised for the purpose of securing factories for our village, but up to this time no action had been taken thereof. It may be possible there is a wrong impression in the minds of some regarding this petition. I believe that those who signed the petition thought that some action would be taken for the purpose of obtaining the right to issue bonds for the purposes set forth in said petition but that no bonds were to be issued, or money paid out by said Council until it was made plain that the factory was worth the price. It is my opinion, then, that the only way Buchanan will ever obtain factories is by paying a bonus therefor, and that the only fair way to raise the bonus is by taxation. It is no reasonable objection to say that this will increase our taxes, while this may be true in a measure, yet every desirable factory will increase our assessable property, and this with increased prosperity along all lines will make the burden lighter, it isn't all dollars in this life anyway, for who would not be willing to pay a few extra dollars in an endeavor to make this a happy, contented and prosperous people, even if taxes were a little higher. The fact is that most of the prosperous communities in this country are those that have secured factories by paying a bonus, and by reason thereof have for a short time felt the burden of taxation, but increased prosperity has overcome all that. Only a word need be said as to the method of retaining factories for the same fair and honest dealings that should characterize the relations between man and man should prevail in the relation herein contemplated. The village that does not live up to its contracts, factories will not, and ought not to obtain or retain them. I am satisfied this village has kept its promises to factories that have come here whenever such factories have done as they agreed, and as a matter of fact we have paid money to factories when they have ceased to be of value to us. We have made mistakes in securing factories that have proved valueless, but great commercial centers have made the same mistakes and they are prosperous today. Let us as a united people make another effort along the lines herein suggested to bring more factories and greater prosperity to the village of Buchanan.

Jury Out Three Hours and Brought in the Verdict of "Not Guilty"

At 3:05 Saturday afternoon at Cassopolis, Mich., the jury in the Frank Sawalk case filed into court and announced that they had agreed upon a verdict.

The clerk asked the foreman what the verdict was and he replied "Not guilty," all members of the jury acknowledging that to be their verdict in the customary manner.

The case was given to the jury at noon and they were out just three hours.

Sawalk was overjoyed at the verdict and he clasped his wife and children, who waited in deep anxiety the termination of the trial, in loving embrace.

The result is a signal victory for Atty. Ketcham who put up a defense for Sawalk that made it almost impossible for any jury to convict him of the atrocious attempt to wreck the Michigan Central train.

"Gyp The Heiress"

Was Presented to the Public in Rough's Opera House Friday and Saturday Evenings

"Gyp the Heiress" a comedy drama was presented to the public, by home talent, last Friday and Saturday evenings. On Friday evening it being for the benefit of the Royal Neighbors.

The Opera House was crowded and all speak very highly of Mr. Hoffman's ability as a trainer of theatrical entertainments. Hezekiah Hopeful, Cress Weldon and Aunt Rachael Miss Ethel Stryker, were exceptionally fine, and provoked laughter throughout the entire performance. Miss Agnes Stocum, taking the parts of Clara Royalton and sister Carmeta, won the admiration of the audience. Miss Trix Mansfield, as "Gyp the Heiress," was one of the leading ladies in the play. Takemquick Life Insurance Agent, Phillip Friday, was always "butting in" and finally gets discouraged and returns to his home in Maine. John Tarrant as Oscar Royalton was also fine. Mr. Hoffman as a villain was good and his acting clearly shows his ability as an actor. Mrs. Hoffman rendered two vocal selections and received the greatest applause. Miss Beulah Jenks presided at the piano.

During the intermission between the third and fourth act, the Royal Neighbors quilt was raffled off and No 95, being held by Mr Carmer was the lucky number.

The play of Friday night was repeated the following evening to a large sized crowd and received as much applause as the previous evening.

The Royal Neighbors netted the neat sum of \$18.

Lived for Seven Years With Bullet in Heart.

Charles B. Nelson, of Cadillac, Mich., died Saturday at the home of his parents from quick consumption, aged 31. When he left his home in Milwaukee a few weeks ago he was but slightly ill, and Monday when his dying condition was made known to his wife by telegraph in Milwaukee, she committed suicide, which fact was not made known to him.

Nelson was a topic of discussion in the medical profession, seven years ago, when he was shot in the back while sitting in a park in Chicago. The perpetrator of the deed was never brought to justice, as Nelson refused to make him known. The supposition has always been that he was shot by mistake or by some jealous lover. When Nelson was found unconscious and bleeding, the doctors gave him but a few hours to live, upon finding that the bullet was imbedded in the muscles covering the heart. He soon recovered and was examined by X-ray experts. How he could live was a mystery to all. For many months he was on exhibition in a Chicago museum and thousands saw, by means of the X-ray, the bullet in his heart. His health always seemed to be good, notwithstanding the bullet in his heart, until his recent illness.

The local surgeons have urged a post mortem, which would be of great benefit to science, but his parents will not permit it.

The Benton Harbor Elks voted to build a \$25,000 temple, Friday night, the work to be commenced at once. The lodge has 300 members, and each member will be apportioned three shares of the stock at \$10 per share.

Fred Johnson shot Harry DeLong aged 10, a playmate, through the heart Thursday night at Benton Harbor. He pointed the gun at him and said, "Think it will go off?" and pulled the trigger. DeLong dropped, shot through the heart with the cry of "Mamma, oh, mamma." Johnston may be arrested, for he seems unaffected by the affair. He is 8 years old. The citizens of Benton Harbor are exceedingly indignant over the deed. It is the same old story, they did not know the gun was loaded,

Again the Blues are victorious, having won the game with the Berrien Springs boys on their home ground last Sunday with the score 3 to 1. It would seem that they would lay quiet after this, their fourth defeat at the hands of the Blues, who not only outplayed them, but also outplayed as raw an umpire as ever tried to steal a game. A party of four Port Huron citizens returning from Detroit Thursday evening on a Grand Trunk train, had a narrow escape from serious injury. A stone crashed through the car window when the train was a short distance south of Gratiot avenue. The stone was hurled with such force that it broke the double window of plate glass and showered splinters all over one section of the car. Fortunately a package standing in front of the window acted as a shield, and only a few cuts were sustained by two of the party. The sound of the crash was so loud that it was first believed an explosion had occurred.

Odd-fellows, of Ionia, Mich., have decided to purchase a lot 55x98 feet and erect a two-story fraternity hall. Stores will occupy the first floor with a fine lodge room above. The lodge has occupied the same quarters for 34 years, but now with 200 members has outgrown its accommodations.

The board of trade, of Saginaw, Mich., has extended an invitation to Gov. Warner and staff to visit Saginaw during October, the date yet to be chosen. While the visitors will be guests of the board, they will be entertained by the local engineer detachment and the Naval Reserves. A review, parade and reception are planned as features of the day.

Peter Vanderkooi, of Grand Rapids, Mich., a Hollander who had lived in this country but three weeks, was struck by lightning at 4:45 o'clock Saturday afternoon and instantly killed. Vanderkooi had sought refuge from the rain in a doorway, when there was a crash and he fell over.

W. Lincoln, of Sturgis, Mich., was working on a pile of ties, Friday when he met with a surprise. When the second tie was split open he uncovered a big nest of rattlesnakes, lively fellows, from ten to fifteen inches in length. All showed fight. But after considerable running and jumping Mr. Miller succeeded in collecting what he thinks was the whole crop, nineteen in all. He is confident that none escaped.

The poor man wears a shirt of holes, And blushes if you stare; The rich girl's shirt is built the same, But she doesn't seem to care.

Ted Rouse had the misfortune to sustain a sprained ankle last Friday, while attending the ball game. He was standing on the plank beneath the score board and losing his balance started to fall, when he decided to jump, and in so doing he fell on a bat that was laying on the ground, which rolled with him causing the accident.

Mrs. John Henderson, of Front street, was pleasantly reminded of her birthday, Saturday afternoon, when a number of her friends and neighbors called and took possession of the house. She received many beautiful presents. A dainty lunch was served and a jolly afternoon was spent. The guests departed wishing her many more happy birthdays.

Ross Reynolds, living north of this place, brought a mushroom into the RECORD office last week which was placed on exhibition in the window, and caused many curious comments. A western farmer came to the pastor
of his congregation and asked that his
name be taken off the church list.
"What is the trouble, Brother Jones?"
asked the surprised pastor. "I sup-
posed you were a faithful follower of
the Lamb." "Well, I sorter believed
that myself, but there is no use talk-
ing a man can't serve the Lord when
he has to milk four cows in fly time.
After the first heavy frost I'll try this
church business again, but just now I
either have to sell the cows, give up
the church, or be a durned hypocrite."

In an Insane Asylum Near
New York City, N. Y.

George A. Kimmel, former Niles bank cashier, who disappeared on July 30, 1898, from Arkansas City Ark., has been located in an insane asylum near New York city, according to the belief of the New York Life Insurance Co.

At the time of his disappearance, Kimmel was cashier of the Farmer's State bank at Arkansas City, securing the position through the influence of his uncle, Charles A. Johnson, who is now serving a ten year sentence in the Detroit house of correction for wrecking the First National bank of Niles.

A few days before the disappearance Kimmel took out a \$25,000 life insurance policy with the New York Life. His sister, Mrs. Edna K. Bonslett, of Chicago, was named as beneficiary. After the disappearance Johnson spent about \$5,000 of the money belonging to the Niles bank in a search for Kimmel, Mrs. Bonslett turning over the policy to him.

When the Niles bank failed in 1901 Johnson turned over this policy to the receiver, who later commenced suit against the insurance company for the recovery of the bank's share of the money the allegation being that Kimmel was dead in the eyes of the law through lapse of time. As Kimmel was seen in Philadelphia in 1902, the insurance people refused to settle.

Attorney Bacon, of St. Louis, Mo., was retained by Mrs. Bonslett to look after her interest in the policy. The life insurance company has notified Mr. Bacon that Kimmel is in an asylum near New York. A relative has been sent there by Mr. Bacon.

Sent the Wrong Package.

At New Carlisle, one young man's dream of bliss has been rudely shattered. His sweetheart passes him now with a stony glare. His sweetheart's father is searching for him with a horsewhip, while her brothers swear they'll shoot him on sight, and this is what brought it all about:

The young man went with his sister to a dry goods store. He bought a pair of gloves for his sweetheart. The sister bought a pair of hose for herself. Of course the clerk got them mixed.

The explosion came when the sweetheart opened the package and found therein a pair of long black stockings. She blushed. Then she opened the note and this was part of the note:

"I am sending you a little present. Oh, how I wish that no other hands than mine would ever be permitted to touch them after you put them on. But alas, a score of fellows may touch them when I am not by your side, and other eyes than mine may see them when you are on the street or at parties.

"I bought the longest pair I could get, and if they are too long you may let them wrinkle down. A great many girls I know wear them slipped down a little.

"Always wear them at parties. I want to see how they fit when I call Tuesday night.

"You can clean them easily, dear, with benzine, if you leave them on till they dry. I hope they are not too small. Blow in them before you put them on. With love. John."

More Patients in Kalamazoo Asylum Than a Year ago

The annual report of Acting Superintendent Stone, of the Michigan asylum, at Kalamazoo, to the asylum board was completed Friday night.

The report shows 1661 patients now in the asylum, as against 1,571 a year ago. There has been 416 admitted during the year, which is an increase of eight over last year. The number dismissed is 316. There were 119 deaths during the year.

The asylum is in the best of condition so far as health is concerned. The only contagious disease in the institution was smallpox early in the spring, which was wiped out after twenty patients had the disease.

The report says that there is an increase in the number of inmates each year.

A Publisher's Little Joke

In twenty years ago it is related that when one of Dowling's Christmas tales had sold very well Tinsley, the publisher, thought he might be pardoned for "taking a rise" out of the author. He introduced Dowling to a stranger at the Gayety and then whispered to the: "Dick, my boy, do your best to make yourself agreeable to our friend. He is the largest buyer of those Christmas stories of yours. I must be off."

Dowling spoke for awhile on general topics to the stranger, and at last he ventured on the subject of books. "I suppose you know," he said, "that I am the unfortunate man who wrote Tinsley's last annual?" "Yes, I recognize your name, Mr. Dowling," said the stranger. "Mr. Tinsley tells me you are a large buyer of books," said Dowling. "Yes, I buy a lot of stuff of one kind or another. I am a waste paper merchant."

M. C. Gang Surveying.

That the Michigan Central proposed to build the air line cut-off between Dowagiac and New Buffalo seems assured. A gang of surveyors have been running the lines the past few days and the people in a position to know believe that the line is an assured fact.

The air line will be a short cut-off between Dowagiac and New Buffalo and will shorten the distance from Chicago and Detroit by 47 miles. The line would cut off Niles and Buchanan and run through Berrien Center and midway between Glendora and Baroda.

The line would be used for freight for the most part, but the fastest passenger trains would go over the air line.

Beware!

In the shade of the old apple tree,
When you hear the blamed buzz of the bee,

With a big carving knife
That I swiped from my wife
I am waiting and watching by gee!
Of daggers I have two or three,
And an ax and a cutlass you see;
And I'll stick all these things,
In the next guy who sings,
"In the Shade of the Old Apple Tree!"
