BLUES TOOK THIRD GAME

Third Game of the Three Oaks and Buchanan Series was

PLAYED LAST SATURDAY

A Double-Header will be Played Here Next Monday

Buchanan now has two out of three games played with Three Oaks, hanging to the belt of the Blues, with but two more games in the series to play and those both on the home grounds, it looks pretty good for the Blues.

Buchanan citizens have taken a lively interest in these games, and Saturday over eighty Buchananites went to the Dewey cannon town to see the game. In fact it looked very much like a Buchanan game only minus the shady grandstand, there being more Buchanan people in the crowd than there were from Three Oaks.

The game was called at three o'clock with Buchanan at bat, in the first two innings no runs were made, but in the third Buchanan crossed the rubber with one, and in the fourth, by bunching hits two more were down to the credit of the Blues. The sixth added another run for Buchanan, this was all they got, but it was plenty.

Three Oaks played hard but were unable to find the way home. It was hard luck to get men on bases only to have them caught at second or third. Not until the ninth inning did Three Oaks succeed in scoring, and then only one run, but it was just enough to spoil the beautiful shut-out that Happy had planned. In the ninth, after Three Oaks had scored their one run, with the bases all full and no one out, Happy pulled himself out of a bad hole by striking out the next three men up.

The feature of the game was a spectacular double play made by Buchanan. With Potts on 1st Reeves smashed out a single that fell short of Davis. Butler and Davis both started for the ball leaving Berry to cover 2d. Potts made 3d while Davis was returning the ball to Berry and started for home, Berry whipped the ball to Boyle catching Potts at the plate. Reeves in the meantime was playing merry-go-round on the base line, he was labelled for 3d, but Boyle shot the ball to Ashby who found that Reeves did not have the proper tag on, so he tagged him. This was one of the prettiest and fastest doubles ever seen on the Three Oaks diamond, and won much applause.

The official score is given below:

BUCHANAN	R	B	P	A	E
Butler 2b.	0	0	5	1	0

Earned runs, Buchanan 1; Three Oaks 1—First base on balls, by Reeves 1; by Happy 0—Left on bases, Buchanan 5; Three Oaks 2—Two base hits, Ashby, Boyle, Brodрик—Struck out by Happy 7; by Reeves 4—Double plays, Davis to Berry to Boyle to Ashby—Hit by pitcher, Shales—Um-

pire Becker—Scorer Hanlin—Time 2 hours.

It was a fast game and a very interesting one all the way through.

Buchanan people all feel that they got the worth of their money, and are glad they went.

Happy pitched a fine game and had excellent support all the time.

BURGLARS BURN STORE

Rolling Prairie is the Scene of Latest Act of Incendiary Robbers

FIRE LOSS IS \$10,000

Building was Odd Fellows' Block and was Entirely Destroyed in the Fire

Rolling Prairie, Ind., Aug. 24.—After looting the general store of Eugene Adams yesterday burglars set fire to the place and entirely destroyed the building which was known as the Odd Fellows block, the lodges owning and having rooms in the place. The total loss will reach \$10,000.

The building was erected at an expense of \$3,000 and the stock invoiced at \$7,000.

The robbery and fire was similar to that which recently took place at Berrien Center, Mich.

The authorities are on the track of South Bend men, who are also suspected of the Lakeville Wabash railway depot robbery a few days ago.

"There are several theories as to the origin of the fire, but the principal one gives credence to the thought that a robbery preboded the fire and that when the smoking ruins cool and the same can be examined there will be disclosed evidence that cannot be mistaken

In support of the robbery theory is the story of Dr. C. E. Moore, whose profession called upon him to be on the street at midnight. He saw a man sulking near the village blacksmith shop and watched the fellow, thinking his conduct was strange. The man walked around the square and returning to the blacksmith shop walked across the street when he saw that Dr. Moore was watching him disappeared near the Adams' store.

THREE OAKS OFFICIAL MAD

Head of Village Wants to Know Author of Bad Water Story

Three Oaks, Mich., Aug. 25.—President Charles K. Warren is running down the story to the effect that the epidemic of typhoid fever in that village is the result of contamination of the village water supply by dead sparrows getting into the standpipe.

There are two healthy factions in Three Oaks and what is known as the anti-Warren faction is trying to make it interesting for the Featherbone contingent, and President Warren is under the impression that the sparrow story was started by some of the opposition for the purpose of bringing his administration into disrepute. He says that life water is pure and he knows of no reason for the starting of such a report.

Parties in Three Oaks have also appealed to the state food and dairy commissioner for an inspection of the milk sold in the village, making the claim that the families having typhoid fever bought their milk of the same dealer.

It was reported to the state commissioner that Three Oaks had 17 cases of typhoid, but President Warren puts the number at "four or five isolated cases."

EXCITEMENT AT GALIEN

Michigan Central Operator Murdered Early Monday Morning

Galien, Aug. 27.—(Special)—Great excitement prevails today in this village of 800 inhabitants.

Lloyd Dynes, Michigan Central night operator, was shot and killed this morning, between the hours of 1:45 and 2:40, while sitting at the dispatching board. At 1:45 o'clock the operator at Michigan City was talking to Dynes and at 2:40 he was found by conductor on an extra Michigan Central freight train, lying on the floor in a pool of blood, dead. One bullet entered under the left eye and another above the collar bone, lodging in the right shoulder. There were bruises on the face, caused from falling on the floor.

The door leading from the office to the waiting-room was propped open, probably kept so by the operator to enable him to hear the trains, and it is thought that the murderer fired through the opening, as there was no evidence of a struggle.

A gold watch and \$78.18 were found on the young man's person, hence it is thought that robbery was not the motive.

In the waiting-room were found a hammer and three chisels, taken from Zimmer & James' blacksmith shop, and a grain sack taken from C. A. Vinton's buggy, who resides one and a half miles south of here.

The body was taken charge of by Undertaker Wright of Three Oaks, who has an undertaking establishment here.

Justice A. T. Hall impanelled a jury, which met at 2 o'clock this afternoon, viewed the remains and adjourned, subject to the call of the justice.

There are many theories rife concerning the shooting, former Deputy Sheriff Minister stated that it was his opinion that there was a woman in the case. Others are of the opinion that an attempt was to be made to rob the Blakeslee bank, but President Blakeslee expresses the opinion that the shooting was done for revenge and that the tools and sack were left as a blind.

C. D. Whipple of Michigan City, M. C. train dispatcher, and Barney Dolan, a Michigan Central detective, are here working on the case.

Len Smith, a grocer, whose business place is opposite the Michigan Central station house, and who sleeps at his grocery, states that about a month ago, some one fired a revolver through the window at Operator Dynes about midnight and that Dynes was very frightened and ran over to Smith's grocery and borrowed a revolver.

In the Galien Advocate of Aug. 17, appeared a communication signed by Dynes and addressed to the citizens of Galien, setting forth that gossip concerning him had come to his ears which he would not tolerate and which was false; that certain reports about him were not so and that he wished to deny them to justify his friends. He stated that the stories prevalent that he had worked in Benton Harbor and that he was married were not true.

From conversation had with different residents here it would seem that the young man had a young woman friend here and stories were being circulated detrimental to young Dynes, which would tend to break up the friendship. A letter was received here today from the young man's mother, who resides at Windsor, Canada, dated Aug. 23. The mother has been notified of her son's death and is expected at once.

Dynes had been located here for the past two months, is 26 years of age, fine looking, jolly young fellow and had made many friends

BUCHANAN PUBLIC SCHOOL

The Time Is Here When, We Once More Turn Our Thoughts To School Interests.

The time of year has come when parents and children must once more turn their attention to school matters. Buchanan schools in the past have stood high in the estimation of the public as a center of education; this fact is proven by the large non-resident attendance.

The aim for the present year will be to maintain the present high standard along all lines and to improve the work whenever possible by making it more clear, definite, and to the point. With this aim in view a few changes have been made in the course of study for the high school which for the present year is as follows:

The attention of pupils desiring to enter the high school without having the necessary diploma from the 8th grade is called to the entrance examinations which will be held for such pupils on Monday, September 3rd at 9 a. m. in the high school room. Non-resident pupils are also reminded that tuition is payable to the secretary of the board, Mr. Richards, by the term and strictly in advance.

The scientific course will include two years of Latin and two years of German. Pupils expecting to enter the University of Michigan should elect at least two years of either Latin or German. Teachers' review courses, including a thorough review course in arithmetic, will be offered during the second semester.

South Bend's Progressive Clothing Store.

We'd like to say a word about the progress this store has made within the past year.

We have gone right ahead and have sold more clothing than in any previous year.

But we don't count that as anything wonderful. It will always be so, because we do not sell anything that is not calculated to bring the customer back.

The right kind of clothing and the justness of the price, are two of the best things about this store.

An enthusiastic salesman's guarantee may or may not stand for quality. If the value is not in the stuff itself, the guarantee doesn't put it there. Sharp eyes and good business judgment in selecting the stock, is what puts the right kind of clothing on our customers, we see that the value is there before we ask you to put good money into it.

To be sure, even experts are sometimes deceived. In all such cases, however, this store would rather pay a premium to have the goods returned, than have the customer keep them.

Let the quality of the goods we sell and the good service we are able to give you, be the reason for your trading here.

A good health department's value is hard to estimate. It is stated that the cost of typhoid fever in Pennsylvania is \$14,000,000 a year.

Experience with the primary election system has not been satisfactory. No system can be perfect that encourages men to be candidates for office.

The St. Louis democratic organ that has lately been converted to Bryan says he is "always amiable and undisturbed." But it wouldn't be safe to break in upon his placid meditations suddenly with the word "Sullivan."

The democrats in congressman Burton's district in Ohio are so well pleased with his work as chairman of the rivers and harbors committee that they will make no nomination against him. Is the waterways movement as popular as this?

DIES AFTER BREAKDOWN

The District Superintendent of Schools Expires at Residence—Grief among Co-workers

Albert G. Lane, district superintendent of the Chicago public schools died at 4:20 Wednesday morning at his residence 430 West Adams street. Death was hastened by the intense heat, which during the early part of the night greatly increased the educator's prostration. Mr. Lane's collapse and subsequent death were attributed by his physicians to overwork in the service of the public schools. Tuesday morning Supt. Lane was reported slightly better, but during the afternoon there was a decided turn for the worse.

Funeral services were held Friday afternoon at 2 o'clock. Short service was held at the residence, followed by public services at the Centenary Methodist Episcopal church, West Monroe street, near Morgan, of which Mr. Lane was president of the board of trustees. Presiding Elder White and the Rev. H. G. Jackson conducted the services. The honorary pallbearers were Superintendent of Schools Edwin G. Cooley, District Superintendent E. C. Delano, County Superintendent A. F. Nightingale, A. Sabin, ex-Mayor George B. Swift, M. C. Dean, James Frake, Dr. Daniel R. Brower, Dr. James B. Herrick, John B. Farwell, Alfred Kirk and Irwin Sheppard, secretary of the National Educational association.

President Ritter of the board of

education called a special meeting of the board and made arrangements for the attendance of the board members and school teachers at the funeral. A large floral piece was provided.

Mr. Lane was the father-in-law of George Noble, jr., who was a former Buchanan boy.

SURPRISE MANY FRIENDS

Miss Mettie Smith is Wed to Mr. Amos Schram

Great was the surprise yesterday morning, when the news became current that Miss Mettie Smith had stolen a march on her friends, and was united in marriage last Saturday to Mr. Amos Schram.

The wedding was solemnized in South Bend and the happy couple departed on their wedding journey. They have gone on an extended trip on Lake Michigan, and will return via Chicago, after which they will be at home to their many friends at the home of the groom's parents.

The contracting parties are well and favorably known in our midst, and the host of friends with the RECORD extend hearty congratulations.

IN MEMORIAM

CARRIE ASHBROOK

Carrie Ashbrook was born in LaPorte, Ind., and moved with her parents to Buchanan, Mich. In the fall of 1889 the family moved to Chicago Ill.

She was married to Wm. C. Keeler, of Buchanan, Mich., Sept. 10, 1890, and went to South Bend, Ind., where Mr. Keeler was engaged in the drug business. In 1892, owing to Mr. Keeler's poor health, they went to Denver, Colo., and afterwards to Santa Cruz, Cal., at which place Mr. Keeler died in 1894.

Mrs. Keeler soon afterwards returned to Chicago, and Sept. 8, 1903, was married to Kirk R. Howard of that city.

On Aug. 14th, she and her husband went to Paw Paw Lake, Mich., for an outing. She was taken sick Aug. 16th and died Aug. 20, 1906 of heart disease, causing partial paralysis.

The funeral was held at the home of Mr. M. W. Howard, 6433 Normal Avenue, Chicago, Ill., at 7 p. m. Sept. 22, and the remains were brought to Buchanan, Mich., where a short service was held at the home of her brother, E. W. Ashbrook. Interment was made at sundown in Oak Ridge cemetery.

At an early day, Mrs. Howard became a member of the Christian Church. Her sterling character and cheerful and unselfish disposition made her an especial favorite with her many friends.

She went to her final rest with a smile on her face, her last words to her husband, being: "Do not cry, I am not at all afraid," after which she peacefully went to sleep.

Treating Seed Wheat For Smut.

There is no smut in the wheat harvested on the College plots this year. As a rule the wheat throughout the state is fairly free from smut. Because of this fact farmers are tempted to neglect to treat their seed this fall. This will be a mistake. A pound of formalin costs little. Buy it and mix with thirty-five to forty gallons of water. Spread part of the seed on a clean barn floor, sprinkle the formalin mixture over it and shovel until each kernel is wet on every side with the formalin solution. After twenty-four hours dry and sow when needed. If more convenient, treat just before sowing and omit the drying. This method is past the experimental stage, it is a recognized success.

BEET SUGAR IN ENGLAND.

Experiments in Essex Last Year Showed That Beets of Best Quality Could Be Grown.

In nearly every county in England, Wales and southern Ireland it has been demonstrated that beets of high sugar content can be grown. It has, however, yet to be satisfactorily shown that sugar can be commercially and profitably manufactured from these beets. The failure of an attempt at sugar production in England some 30 years ago would seem to answer this in the negative. But it appears that beets used at that failure contained only ten per cent. of sugar, and that farmers found it more profitable to feed them to their stock than to sell at the price the factory could afford to pay. In the present Essex experiments, however, the average percentage of sugar in the beets is placed at 16 1/2, and even this has been exceeded in several recorded cases in other counties. This striking improvement in quality has been produced by careful selection and by close attention to other details of culture.

The experiments in Essex last year showed that beets could be grown equal to and in some cases better in quality than those raised in sugar producing countries. While this is the first thing to be investigated, the committee says "it does not follow that even when this is established beyond any possibility of doubt the undertaking is one that would necessarily be a commercial success. The business side of the question—the cost of production, the cost of working a factory and a host of similar points—needs careful and experienced consideration."

Figures are given showing that the cost per acre in these experiments was about 16 per cent. more than in similar experiments in the United States.

FEW OF 10,000 ANALYSES.

Among Them Artificial Water Submitted to New York Health Board.

There is an analytical department connected with the division of laboratories of the board of health, and any person who does not think that it is a busy department is mistaken, says the New York Sun. As many as 10,000 demands for analyses are made upon it each year, and the diligence of those in charge is shown by the fact that at the end of the year there are never more than 25 or 30 cases awaiting a report.

Some of the demands are peculiar. One applicant demanded and obtained an analysis of a piece of soap; another, of a "pan said to contain pudding." There were two analyses of ginger, one of honey, one of hair restorer, one of orange marmalade, two of olive oil, one of pie, seven of opium, and one—only one—of whisky.

Only three specimens of candy were sent in for analysis during the period covered by the last report, only two of butter and only two of bread, but there was one analysis of an artificial watermelon, two of ground mustard, two of theater entracte cloves, one of "tea in pitcher," and one of a piece of clay.

There does not appear to have been any analysis of wood alcohol, but there were four of ice cream. There was one official analysis of "beef and."

CRUEL TRICK ON TWAIN.

Freckled Impostor Played It on the Humorist in a Game of Billiards.

Mark Twain told the spectators at the billiard tourney in New York lately what he knew about the game.

"The game of billiards has destroyed my naturally sweet disposition," he said. "Once when I was an underpaid reporter in Virginia City, whenever I wished to play billiards, I went out to look for easy marks. One day a stranger came in town and opened a billiard parlor. I looked him over casually. When he proposed a game I answered all right.

"Just knock the balls around a little so that I can get your gait," he said, and when I had done so he remarked: 'I will be perfectly fair with you. I'll play you left-handed.' I felt hurt, for he was cross-eyed, freckled and had red hair, and I determined to teach him a lesson. He won first shot, ran out, took my hair dollar, and all I got was the opportunity to chalk my cue.

"If you can play like that with your left hand," I said, "I'd like to see you play with your right."

"I can't," he said; "I'm left-handed."

Don't Kill the Hawk.

Man has sinned more than any other animal in trifling with nature's balance. Clover crops and the killing of hawks are apparently unrelated yet the hawks eat the field-mice, the field-mice prey on the immature bees, and the bees fertilize the clover-blossoms. The death of a hawk means an over-increase of field-mice and a consequent destruction of the bees.—Country Life in America.

We wish to correct an error that appeared in our Friday's edition. We stated that Mr. Richards had reported that there were 30 cases of typhoid fever in Three Oaks, but the statement did not come to us from him personally. The statement was also misquoted, and although he spoke of several cases being in Three Oaks, the number did not range to quite that height.

Mrs. Virgil Reynolds of Oak Hill Farm entertained a merry company of relatives last week. They came to Berrien Springs by trolley from South Bend, and from there to the farm on a hayrack. The party was composed of the following: Mr. and Mrs. Joseph Reynolds of Charles City, Iowa, Mrs. Belle Weston and Mrs. Viola Beck of Greene, Iowa, Mr. and Mrs. W. H. Reynolds, Mrs. E. M. Edwards and Miss Florence Edwards of South Bend, Miss Rachael Anderson, Marcellus, Mich.

Michigan Central Officer John Bachman and a bunch of railroad men had exciting times with hoboes in the local yards Friday. It is estimated that 100 bums passed through the town going east, and every train that pulled into the yards Friday night had a coterie of the traveling gentlemen upon it. On one passenger train there were nine hoboes on the pilot, but they were driven off as the train entered the yards, only to run around to the east end, where they expected to jump on again. Bachman, however, was looking for such a move, and rode the blind baggage of the next train to the "cut" using his club liberally as the bums tried to board. All the rest of the train was vigilantly guarded by the crew and the efforts of the hoboes to get on were fruitless. Bachman pulled his gun the train was leaving the yard limits and firing it off into the air, frightened the tramps away from the yards for a time at least. Passengers on the train thought that a train robbery was in progress until reassured by the conductor.—Niles Sun.

Mail Order Bride

Causes Excitement.

Janesville, Wis., Aug. 24.—Robert Miller, aged 82 years, an employe of trust at Howe Bros' cotton mill here, inserted the following advertisement a week ago in a Janesville newspaper:

"WANTED—A wife, one who will appreciate a good husband; by a man who is capable of supporting her."

Yesterday the answer arrived in the person of Miss Eliza Kent, of Ft. Atkinson, who wrote Miller three days ago that the proposition looked good to her and that he could expect her on the noon train. Miss Kent sent her picture and to make identification more positive, said that she would wear two large red roses in the front of her hat. Miller was so elated over the good news that he failed to keep the affair a secret, and just before going to the train he informed a score of his friends, who accompanied him to the depot. On the way others joined in and by the time the depot was reached the platform was filled with a noisy crowd. When the train pulled in Miss Kent was the second passenger to alight, and just as soon as the crowd caught a glimpse of the two red roses all made a dash for her.

Miss Kent was so frightened that she ran down the main business street, with the yelling crowd and several camera fends in close pursuit. Miller, by this time, had gained a strong lead, and was the first to reach the frightened woman, who halted after running two blocks. He tried to explain the situation and produced her letters, but she refused to listen to his pleadings. She gave Miller to understand that she cared for no man of his kind, and was not seeking notoriety. Last night she started back to Ft. Atkinson.

Miller now has his troubles, for Howe Bros. have discharged him on the grounds that they do not care for a man who would bring the firm into such notoriety.

State Items

F. G. Bennett, landlord of the Bennett house, of Galesburg, was relieved of his pocketbook and \$70 Friday evening, while enjoying the cool breezes and the society of the guests of the hotel on the porch. No clue.

The partly decomposed body of Joseph Spero was found in the thick woods southeast of Jackson, Friday, adjoining the Lake Shore railroad tracks. He had been missing since Tuesday. A half empty bottle of carbolio acid and condition of his mouth told the story of suicide. He was about fifty years of age and was despondent over losing his position through drink. A few weeks ago he made an attempt at self-destruction with carbolio acid. He lived with his brother and had no family.

John Dushane of South Bend, twenty-two years old, who had been spending the summer in a cottage at Macatawa Park was drowned Friday night while bathing with a party of friends. He could not swim, but with the others of the party was jumping the waves about a mile south of the pier when a big wave knocked them all down. Dushane failed to come up. An effort to recover his body was unsuccessful and it was probably washed out by the undertow.

The four-year-old son of Postmaster B. F. Beadle of Melvin was killed at Yale, Saturday. He was out driving with his grandfather, Charles Dewey. They were two miles west of town when a thrashing outfit, in trying to pass, frightened the horse, which ran away and threw them both out. The carriage passed over the child and inflicted injuries from which he died an hour later. Mr. Dewey sustained painful bruises.

Clarence Lovely, a porter on the passenger steamer Chippewa, was pitched overboard from the promenade deck when the boat was abreast of Spectacle reef light in Lake Huron, Saturday. Efforts to save him were futile in the heavy storm and he soon disappeared. Lovely was nineteen years of age and resided at Cheboygan, Mich. He is said to have been wrestling with a shipmate.

Eddie Hanlon, of Port Huron, aged 10 years, had a miraculous escape from death Thursday afternoon, when partially stunned by an electric shock, he fell from an electric light pole, 80 feet, to the ground. He

had grasped two wires, carrying 110 volts of electricity. His hands were frightfully burned, the flesh peeling off to the bone in places. One finger of his left hand had to be amputated at the hospital. He is in a serious condition, but will probably recover.

UNCLE SAM WANTS 'EM

United States Marshall To Take Postoffice Robbers.

Frank Raymond and Chas Parker, who were arrested last Saturday at Baroda, and who were positively identified by six Berrien Centre people as the men who hung around the village the day of the post office robbery and burning of the John A. Rutter store building, are to be taken in charge of Uncle Sam and a United States marshal arrived at St. Joseph Saturday afternoon.

The men were taken before United States Commissioner Harvey for a hearing, after which they were taken to Grand Rapids and there incarcerated in a federal prison, pending trial in the United States district court.

Attorney Julius Linbach of Chicago, who represents the men, came to Niles this afternoon for the purpose of applying to Judge Coolidge for a writ of habeas corpus. When the men were arrested, one was charged with concealed weapons and the other with disorderly conduct, but today those charges were dismissed and the more serious charge of robbing and burning the post office at Berrien Centre was preferred against the prisoners.

In case the writ of habeas corpus is granted, the prisoners would have to be brought before Judge Coolidge, who would hear the charge, which would be argued on one side by the prosecuting attorney and on the other by their counsel, and if the charge was found to be fortified with sufficient evidence, the court would order the men held, but otherwise they would be ordered dismissed from custody.

The meaning of the words "habeas corpus" is "to have the body."

ISSUES A PROCLAMATION

Gov. Warner Urges Observance of Labor Day

Lansing, Mich., Aug. 21.—Governor Warner's labor day proclamation issued yesterday, designates Monday, September 8th as labor day and says:

"Our state has been made rich and prosperous by labor. Within the past hundred years it has brought forth the hidden treasures of our fields and mines, reared our villages and cities and bound them together with belts of steel. Excellence cannot be obtained without great labor, and labor conquers all things. Brawn and muscle have long been recognized as important factors in our progress, and it is eminently proper that the triumphs of labor should be celebrated upon this day.

"It is recommended that Michigan establishments be closed and that all join with each other in the worthy observance of labor's holiday. The departments at the state capitol will be closed and the state institutions will conform to the spirit of this declaration wherever it is possible to do so without detriment to the service."

West Michigan State Fair.

Sept. 10 to 14, both days inclusive, are the dates of the West Michigan State Fair at Grand Rapids. All railroads in Michigan will issue half fare tickets to that city during the week, and the city is preparing to handle comfortably and expeditiously the largest crowd in its history.

The buildings and grounds are in much better condition than ever before and the largest, choicest exhibits in all departments are assured. The best mile track in Michigan is in perfect condition and big fields of noted horses are entered in each class. The grand stand seats 5,000 people. The West Michigan Fair is certain—with its \$18,000 to be disbursed in premiums and purses—to maintain the fair's earned reputation as "Michigan's Best Fair," and our people need fear no error of judgement if they make it a point to put in a day or two at Grand Rapids during the exhibition.
