## THE PATRICIANS ARE ALRIGHT

### A Very Interesting Session Was Held in Lodge Room Last Tuesday Evening

The local lodge of Patricians held a very interesting session at their lodge rooms last Tuesday evening. F. W. Northrop, of Niles, a member of the Supreme Board of Directors, was present and explained to the entire satisfaction of the members, the amalgamation with the Fraternal Brotherhood of Los Angeles, Cal., a fraternal society, organized about ten years ago, now having over 20,000 members and assets of over \$235,000 and are increasing at the rate of about 1000 members per month, have arranged to take our entire membership at their present rate, allowing them to retain the certificates they now hold and affording the same benefits enjoyed by the Patricians.

The advantages to be gained are these: You are aware that there are certain fixed expenditures that can not be avoided, such as officers, salaries, office rent, clerk hire, printing, deputies' salaries, and other management and promotion expense amounting each month to \$1000 to \$1200 out of a total collection of about \$3200 per month. The above items entail an expenditure that our small membership would not warrant.

The arrangement with the Fraternal Brotherhood will relieve our membership of most of the above expenses and make it possible for our Society to accumulate and add to the Mortuary fund about \$1000 to \$1200 each month, or a total of at least \$12,000 per year in addition to what we have already been placing there.

The change at this time was not absolutely necessary, but in the opinion of your officers it was thought best while we were in a position to ask admission to some other society as a body rather than to wait until such time as the conditions of our society would prohibit any society from considering it.

As their rules and plan are very similar to that of the Patricians, the above arrangement is possible. None of the members will be disturbed, either in rate or otherwise, except in the lodge work, which in the near future will be changed by adopting the Ritual work of the Brotherhood.

## THE GRAND JURY LIST

### Names of The Men Who Are Called to Serye Next Month

A commission consisting of two justices of the peace, the county clerk and the sheriff has drawn the following 23 jurors, who will form the grand jury, which is to convene December 3.  
L. W. Stiles, Bainbridge twp.  
Frank McKindly, Benton twp.  
Henry Bchm, Benton Harbor.  
Albert F. Ricketts, Berrien twp.  
Jacob E. Vite, Bertrand twp.  
George Searls, Buchanan twp.  
W. A. Keith, Chikaming twp.  
Henry Patridge, Galien twp.  
Albert Jackson, Hagar twp.  
Wm. Williams, Lake twp.  
Alexander Holliday, Lincoln twp.  
Henry Kruger, New Buffalo twp.  
Frederick Y. ung, Niles twp.  
Carl J. Fox, Niles city.  
Martin S. Reddinger, Oronoko twp.  
John Sutherland, Pipestone twp.

Joseph Collier, Royalton twp.  
Fred Gleason, Sodus twp.  
B. M. Nowlen, St. Joseph twp.  
Edgar Aber, St. Joseph city.  
Wm H Valentine, Three Oaks twp.  
Frank McGowen, Watervliet twp.  
George Boyce Weesaw twp.

It is the duty of the prosecuting attorney to attend the sessions of the grand jury and to give that body such advice on legal matters as may be necessary; also to draw up such indictments as may be returned by the grand jury.

The grand jury was drawn according to the old law, there being a hitch in the new law, under which the jurors would have been drawn by a commission consisting of Judge Collidge, County Clerk Miners and Sheriff Tennant.

## 12TH GRADE CLASS

### Was Entertained Last Friday Evening at the Home of Mr. and Mrs. I. Moore

Last Friday evening, ten members of the Senior Class of the Buchanan High school, were pleasantly entertained at the home of Prof. and Mrs. I. Moore.

The young people assembled at an early hour, and passed one of the most enjoyable evenings they had ever passed. The time was taken up in playing games and general sociability, after which they were served with dainty refreshments, consisting of olives, sandwiches, coffee and cake.

At a late hour the merry party broke up, and all report Prof. and Mrs. Moore royal entertainers.

## THEY WILL MEET NOV. 24

### Berrien County Horticultural Society Have Prepared Fine Program

Benton Harbor, Nov. 17.—The first meeting of the Berrien County Horticultural society for the winter of 1906-1907 will be held at Library hall, Saturday, Nov. 24 beginning at 10 a. m.

An effort will be made to secure trustworthy reports on the condition of the fruit trees and the scale with reference to the freeze in October.

The morning session will be devoted to pears, grapes and small fruits the conditions of which, in the various localities, will be reported by Juan Hess, James Cunningham, C. E. Whitten, William Geisler, N. E. Wadsworth, A. B. Bishop, W. M. Pratt, G. B. Sheler and C. A. Johnson. There will be a general discussion of the subject in which everyone present will be invited to participate and all questions will be answered.

It is hoped that there will be a large attendance at this meeting, for it is known that much good will be received by every member of the association. What one does not tell perhaps you may be able to impart to your fellow growers and this will be the meeting open for all the fruit growers. Much valuable information was gleaned from the session of the society held last winter and it is hoped that there may be interesting sessions this winter, B. J. Faman is president and L. W. Ruth, secretary of the county society.

The state horticultural society meets in Benton Harbor in December and the gathering promises to be one of unusual interest. Make your plans to be present every day, Dec 6, 7 and 8.

## TYPHOID FEVER ON INCREASE

Deaths in October Numbered 156, Health Officials Say

Lansing, Mich., Nov. 17.—The number of deaths returned to the department of state for October was 3,374,

a decrease of 149 from the number of the preceding month, but an increase of 536 over the same month of 1905. Deaths from typhoid fever numbered 156, more than in any October since 1901. The editor of the bulletin says: Health officers are becoming lax.

Among important causes of death were: Tuberculosis of the lungs, 183; pneumonia, 140; diarrheal diseases under two years, 338; cancer, 167; violence, 188.

There were 3 854 births returned as having occurred in October, corresponding to a birth rate of 17.6 per 1,000 estimated population.

## RUN MOTORS ON M. C. R. R.

### Cars Will Be Able to Run a Mile a Minute and Fully 50 Per Cent in Fuel Will Be Saved.

Marshall, Nov. 17.—For some time the Michigan Central has been endeavoring to secure for service on branch divisions a type of locomotive, either operated by steam, electricity or gasoline, which, through economy in operation, would allow a more frequent train service. It appears from official advices that the end of the search is near.

A plan is understood to be on foot to equip the Allegan division of the road, from Homer to Allegan with this type of conveyance, for passenger service at least, and it is expected the cars will be in active service on the branch by next spring.

The Allegan division, it is said, has not been operated at a profit, and while there has been a disposition to give the patrons of the road better service than before the Michigan Central secured the road, still a different motive power was desired.

There are several lakes along this line which are very popular with summer residents, and with opportunity for their development through more train service, there is a much better chance for their increase in popularity.

According to the proposal, a single coach can be run hourly at small expense, something along the line of present electric interurban railway traffic. The motive power is furnished by a steam engine contained in a small compartment in the fore end of the coach.

The engine is absolutely reversible. The saving of gasoline, kerosene or alcohol, all of which can be used as fuel, is said to be fully 50 per cent over that of the ordinary gasoline motor.

Michigan Central officials claim that with a motor of this type, developing 144 horse-power, two cars of 165 tons each can be hauled at the rate of a mile a minute.

Steam can be generated in four minutes, and there is absolutely no smoke, gas or noise. It is claimed, also, that this solves the problem of a self-contained unit, so much desired by steam roads competing with electric interurbans.

## BERRIEN DEER HUNT

### Large Buck Seen in Oronoko Wednesday—Posse Gives Chase

St. Joseph, Nov. 16.—Jacob Stover, residing in Oronoko, in the vicinity of Arden, Royalton township, was in St. Joseph Thursday, and reports that a big buck deer dashed across his farm about 4 o'clock, Wednesday afternoon, surprising farmers in that vicinity.

Mr. Stover says the animal had large horns and was a fine specimen of his kind.

The sight of the deer was a signal for the farmers in the vicinity to get

## Prepare For a Hard Winter

That the coming winter is going to be the hardest one for the past twenty years, there is abundance of signs to show, and among them may be mentioned:

**First**—That the corn husks are an inch and a quarter thick and the stalks lean toward the west.

**Second**—Owls are leaving the country a month earlier than usual, and squirrels are laying in sweet potatoes, as well as nuts, for winter provision.

**Third**—That a better grade of clothing has been purchased by our customers than ever before. They are asking for higher priced garments and are choosing the best makes of warm, well made and stylish clothing.

**Fourth**—Farmers who have taken the trouble to investigate, tell us that toadstools have wrinkles on them. The last time this happened we had winter weather that froze the handles of plows.

**Fifth**—That warmer underwear, better made shoes and complete winter outfits for the little fellows have been purchased more freely than ever before from our immense stock of **men's and boys' furnishings**.

**Sixth**—We have the largest, most modern and best equipped clothing store in northern Indiana and are doing the biggest business in the establishment's history. That's the best sign of all.

NOVEMBER 20, 1906.

In Massachusetts the republican congressional nominees ran more than 80,000 votes ahead of the state ticket. The disposition to stand pat nationally is a feature of the returns in every state.

Canada has protested against the immigration of Hindoos, 800 of whom are on the way to the dominion. Uncle Sam is not the only one called on to deal with troublesome race problems.

On his trip to Panama President Roosevelt is accompanied by a physician, a steam shovel and a triphammer. During the whole time of his visit the zone will resound with the hum of strenuous labor.

A California girl, describing the earthquake, says she knows now how it feels to be an ant with the hill kicked over. This description has claims to be the briefest and most graphic.

Oklahoma is not only the sooner state, but the latest state, and sooner or later it will see the folly of voting against the republican party—the party that made homesteading possible in this country.

## WOLVES IN BERTRAND

County Clerk Has the Hide and if Supters Are Satisfied the Man Will be Allowed \$25

Wolver Sheely of Bertrand township says the Benton Harbor News, appeared before County Clerk Miners

last Saturday with a large pelt of a timber wolf slung carelessly over his shoulder.

“There you are” said Sheely, as he tossed the skin to the floor. “It’s a wolf pelt, killed Thursday, Nov. 11, on the Anthony Stoke farm in Bertrand township.”

Sam put on his spectacles and critically examined the specimen, “Sure it ain’t a dog hide,” doubtfully asked the recorder of the county’s records. “Will swear that it is a wolf hide,” responded Sheely, “for I killed the blame critter myself.”

County Clerk Miners made out a long affidavit and Sheely affixed his name to the paper. At the next session of the supervisors, providing none of the county dads declare the skin to be a dog hide, Sheely will get \$25.

The hunters in Bertrand township claim there is a big gang of wolves at large.

## SMALL POX SPREADING

New Cases in Cass County Necessitate Close of Schools

Dowagiac, Nov. 16.—The discovery of two more cases of smallpox has been made in the Osborn neighborhood in Hamilton township and the quarantine was extended Tuesday until it now covers five farm houses and three district schools. General alarm is felt in the neighborhood.

On Tuesday the young son of Warren Langley was taken to Dr. Rose and he diagnosed the case as smallpox, although a light case and the child was immediately sent home.

Mrs. Myrtle Johnson, residing north of the Hayden school, came down Tuesday with a genuine old fashioned case of smallpox of a very bad form.

In consequence the schools in the Hayden, the fields and the Sowers districts have been closed, and the T. W. Langley, the Warren Langley and the Erastus Osborn homes are now under strict quarantine.

## Nobody's Claim

The comedy element of “Nobody's Claim” while consistent, is as funny

as any of the modern farce comedies, and the specialties that are introduced are in every way equal to those seen on the best vaudeville stages. The serious scenes are so clearly blended with the comedy action of the play that it does away with that stiff, stagey and most unnatural effect so noticeable in so many melo-dramas. “Nobody's Claim” will be at Rough's Opera House on Wednesday Nov. 21.

## A MIRACULOUS ESCAPE

Mrs. Samuel Hurdle Falls Into a Cistern With Seven Feet of Water

Mr. and Mrs. Samuel Hurdle drove out to the Charles Boyle's farm last Saturday morning, with a view of purchasing several pigs. While Mr. Hurdle was out in the field with another man trying to capture the pigs, they left Mrs. Hurdle in a little house on the farm to await their return.

Not wishing to remain inside, she stepped on the outside and fell into a deserted cistern which contained about seven feet of water. She called for help, and Mr. Hurdle, in company with the other man, ran to her rescue, and after a few minutes, had her safely on the ground.

With the exception of being badly frightened Mrs. Hurdle suffered no ill results.

Dr. J. F. Burns assisted by Dr A. O. Uilery, performed an operation upon Dan Clark at the Niles Private Hospital Sunday afternoon. Mr. Clark who lives near Buchanan was suffering from infection which resulted in the formation of pus in the pleural sack surrounding the lungs and his condition was serious. The operation was entirely successful and it is hoped by the physician that Mr. Clark's complete recovery will be only a matter of time.—Niles Sun.

It is certainly essential to the best development of all children that they mingle freely with others of their own age. Little minds—the minds of young children—need contact with minds of about their own mental calibre, just as truly as do we older people, who realize its necessity in order to give us an interest in life, and to enable us to be broad and liberal in our ideas.

Tommy Ryan has arranged for a ten round boxing contest between Johnny Morrison, of St. Joseph and Emil Sanchez, of this city, to take place at the Bell Thanksgiving night.

Frank Eastman's little five year old son was operated on Wednesday, by Dr. Hill and the tonsils and adenoids removed from his nose and throat.

Another of our saloon keepers, Adam Weber, arrested for violation of liquor laws decided to plead guilty and pay a fine and costs, which in his case amounted to \$45.

The common council has finally granted the desired franchise (with one amendment) to the Twin City Telephone Company, giving permission to place their wires underground in the business section. They promise to expend about \$45,000 in improvements and to give better service.

Patrons of the Union Lecture course were disappointed Wednesday night, when, on account of illness, Gov. Hanly, of Indiana, failed to appear at the Bell and open the course with his lecture on "The Patriotism of Peace." He expects to fill the engagement a little later.

The high school juniors have secured the services of the Cecilian Concert Company, for an entertainment at the Bell, the evening before Thanksgiving. The members (who have appeared in Buchanan in a concert) are, Mrs. F. B. Christopher, pianist; Mrs. Florence George Sesser, violinist; Mrs. Parsal, soloist; and Miss Anne Watson, reader.

At Saginaw last Saturday, an interscholastic game of football was played by their high school team and our own and only Orange Sox, which resulted in a victory for us of 30 to 5. Our boys had "foremen worthy of their steel," for besides the joy of victory, they feel that they left no rankling unpleasantness behind them, for they never received more courteous or gentlemanly treatment than from the vanquished team of Saginaw. The Muskegon game, played awhile ago, in which they won, was not interscholastic and our boys must meet them again, which they are ready and anxious to do, but in spite of the orders of the interscholastic board Muskegon absolutely refuses to come here for a game, saying they prefer to forfeit it. Coach Lester of our team will not have it so. He says the championship of the lower peninsula must be settled this time so definitely that there will be no controversy over it, as in the years past. He has decided to take the Orange Sox to the Sawdust city and the Pere Marquette has agreed to run a special train, which will leave Saturday morning at 8 o'clock, providing two hundred tickets can be sold, and have made a rate of \$1.90 for the round trip. Many more than that will go as Muskegon's action has stirred up considerable interest here. It is not known yet whether the champions of the upper peninsula will meet the winners in the lower, to decide for the whole state or not.

The Featherbone mills were closed all day Saturday, while some repairing was being done.

**International Live Stock Exposition, Dec. 1 To 8, Chicago.**

Prof. F. B. Linfield, Director of the Montana Experiment Station at Bozeman, has probably a wider unexplored field than any other College Director of his line in his care and is therefore competent to give some good wholesome advice on the value of the International and this is what he says:

"The Breeding Art is not an exact Science, but a dealing in probabilities. By following certain rules he knows that the probabilities are favorable to the majority of the increase of his stock being equal to the parent stock and there is a chance of more or less improvement.

"The man who is working to improve his live-stock must, however, have correct ideals. How frequently so much is lost in time and results, besides the discouragements, because the breeder did not have a correct ideal. He was breeding Shorthorns perhaps, but forget that a pure bred animal may not—frequently is not, the ideal Shorthorn.

"To those who are interested in getting acquainted with the best types of meat producing animals in their best form, the International Live Stock Exposition, to be held in Chicago on December 1st to 8th, affords an opportunity that ought not be neglected without most important reasons. Here will be assembled the best types of the breeder's art, gathered from all parts of the United States and Canada; the culmination of the shows of the year.

"To the feeder also the exhibit will have its lesson; the type and finish which the market demands, and is willing to pay top prices for, can be seen and studied.

Last year's Exposition was postponed because of the delay in finishing the new live stock building. This year finds everything in first class condition, fully equipped to take the best care of the people who come to see and study, and of the live stock, which is the object of their journey and inquiry. The educational possibilities of such an exhibit are beyond measure; the good accomplished will be bounded only by the decision of the people to come to see and to learn.

The perfection of the painter's art, the acme of stage realism, the perfection of mechanical effects never before attempted, and a company from the best dramatic talent on the American stage is the production of Holden Bros. great play "Nobody's
