Vol. 110 No. 5 | Buchanan, Michigan 49107 | One section 10 pages | Thursday, February 3, 1977

Historic committee publishes new book

A book about the history and architecture of Buchanan, with the title "Buchanan – Past and Future", was published by the Buchanan Historic District Study Committee on Thursday, January 27 Copies of the book may be purchased at the Stationery Center, the Chamber of Commerce, the City Hall, and the Berrien County Record Office Price is $3.00

The book contains numerous line drawings and photographs of representative Buchanan homes and other buildings from the nineteenth century and the early twentieth century, plus several maps and charts. It makes specific recommendations regarding the preservation and enhancement of these irreplaceable architectural assets, as the Buchanan community progresses and thrives in the future

The structures covered by this book, and the neighborhood environments in which they now exist, might be described as the gold in the attic of Buchanan The theme of the book is that steps should be taken now to prevent the downgrading or destruction of these irreplaceable assets through unthinking acts by individuals or the community The book recommends steps which the Buchanan community should take to avoid destruction of the community by the adoption of fads labelled as progress, as has happened or is happening in many of our neighboring communities

Also in the book are guides to the individual homeowner as to how to improve, preserve or restore an older home, without making negative changes which will severely decrease its market value and general desirability; a section describing how to determine what year your house was built; a description, accompanied by illustrative line drawings and photographs, of the various periods of nineteenth century and early twentieth century architecture existing in Buchanan, a brief history of Buchanan, with some historical photographs, a report of the historical architecture survey of Buchanan, covering over 750 buildings, recommendations for the downtown area of Buchanan, general recommendations for the preservation and enhancement of Buchanan's valuable older buildings, a proposed historic preservation ordinance, and a reading list of books on preservation and home improvement

The study on which the book is based, and the book itself, were done by Jack C. Hobbs, a Boston architect, pursuant to a grant from the City of Buchanan At the time of the study, Mr Hobbs was finishing his degree in architecture at Notre Dame University.

Clark Equipment promotes two

Richard W. Hayden, Jr.

Richard W Hayden Jr. has been named Manager of Product Evaluation for Clark Equipment Company's Axle Division Engineering Department, according to James A Caywood, Vice President – Engineering

Hayden will be responsible for monitoring the quantity and quality of testing on all Axle Division products to insure adequate product safety and reliability He will also be responsible for seeing that all test and build appraisals are conducted and that products meet acceptance criteria.

He earned a Bachelor of Science degree in mechanical engineering from the University of Pittsburgh. After graduation, he joined Bendix Corporation in South Bend as a test engineer

Hayden joined Clark's Engineering Test Laboratory in Buchanan as a test engineer in 1961 In 1965 he was promoted to senior test engineer before being named engineering specialist six years later In 1974 he assumed the post of Corporate Fastener Engineer for Clark's materials Research Department, the position he held before joining the Axle Division

A registered professional numerous Society of Automotive Engineers committees. He is Chairman of the Board of Trustees for the Oronoko United Methodist Church, Outdoor Chairman of Boy Scout Troop 548 in Buchanan, a certified instructor for Michigan's Hunter Safety Program, and past president of the Indian Hills Community Club He is also a little league baseball manager and a life member of the National Rifle Association

Bruce Woodmansee

Bruce J Woodmansee has joined the Axle Division of Clark Equipment Company as Manager of Employee Relations, according to Leo J McKernan, Division Vice President and General Manager,

"We feel that the addition of Mr. Woodmansee to our staff will enable us to better understand and meet the needs of our employees," McKernan said "In this position, he will administer all personnel and labor relations programs, including salaried employee relations, contract administration, safety, communications, training, benefits, plant security, and hourly employee relations"

Prior to joining Clark, Woodmansee served as Employee Relations Manager for the Magnesium Division of NL Industries, Inc in Salt Lake City, Utah He has also held various personnel-industrial relations positions at plant, division, and corporate levels with Ford Motor Company, White Motor Corporation, and Hayes-Albion Corporation

Woodmansee is a graduate of Indiana University in Bloomington where he earned a Bachelor of Science degree in business administration He is also a member of the American Society of Personnel Administrators

He and his wife, the former Katherine Bruce of Royal Oak, will reside in the South Bend area

Honored for 40 years service

George and Bill Sullivan, owners and operators of the Gamble store in Buchanan, have been presented with a Waterford Crystal wine decanter and glassware set and an engraved plaque in recognition of 40 years of service to the community as Gamble dealers Announcing the award was Wayne E Waldera, president of the Gamble Stores Division of Gambles, the Minneapolis-based merchandising company.

"We know that friends join us in extending hearty congratulations on this noteworthy occasion," Waldera said "The fact that these dealers have provided service to the community for a period of 40 years is evidence of the consumer confidence and loyalty that has been achieved"

Teen Center Dance

There will be a dance at the Buchanan Teen Center, 112 North Oak Street, Saturday, February 5, from 10 p m to 1 a m

Music will be provided by the Pullman West band

Admission to the dance is $1 25 for members and $1.50 for non-members

Twp. Firemen on call

Members of the Buchanan Township Fire Department, in order to be available in the event of a fire, slept on makeshift beds at the fire station during the worst of last week's weather

Snow keeps coming down street crews clean up

The snow keeps coming down, the wind keeps piling it up, the temperature continues to take periodic plunges below zero, schools have closed, some businesses have closed and a lot of people are staying inside where it is dry and warm

Outside in the cold and snow the Buchanan Department of Public Works crews have been working night and day, averaging 80-90 hours a week to keep the city streets clean and driveable

The crews begin clearing downtown streets and parking lots at 3 a m each day.

When the temperature drops below 20 degrees, as it has most of the time the past few weeks, salt is useless on the streets and tends to make them even more slippery The public works crews then mix calcium chloride with sand and scatter it on the streets to melt the ice and give traction on hills and intersections

Joe Bachman reports the department has been swamped with complaints of frozen pipes The crews have answered 90-100 calls to thaw out frozen pipes.

City thawing equipment broke down but the crews were able to continue working with portable equipment loaned to the city by Clark Equipment Company.

City residents have been requested to leave tap water running (not dripping) when the temperature hovers around zero The city will send minimum water bills to its customers

We at the Record congratulate Joe Bachman and the Department of Public Works on the fine job they are doing

Merchants Appreciation Days begin February 7

Buchanan Merchants Appreciation Days will be celebrated again this year. Each customer will be given a numbered ticket for a minimum purchase of $1 After the first ticket, one ticket will be given for each additional $5 purchase.

On Monday, February 28, winning numbers will be drawn and posted in each participating store until March 5 and the holders of the numbers will have to visit the stores to see if they are winners

Each store will determine the amount of its prize and post winning numbers.

Participating stores are Dan's Pharmacy, Jo Dee's, Desenberg's Men's Wear, Buchanan Co-ops, Gambles, Rees Jewelry, Wisner-Beck Drugs, Castle's Jewelry, Batchelor TV and Record Center, Roti Roti Shoes, Wilt's Supermarket, Louie's Restaurant, Welsh's Carpet Mart, Sexton's Furniture, Buchanan Area Chamber of Commerce, The Sport Corner, Moore's Department Store and Sew & Save Fabrics

The retail committee of the Chamber of Commerce plans this special promotion to stimulate February business and to give shoppers another reason to shop in Buchanan stores

Community Outlooks

The Buchanan-Coloma varsity basketball game has been re-scheduled to Wednesday, February 2 at Buchanan High School The JV game will begin at 6 30 p.m

The freshman basketball game with Lakeshore has been re-scheduled to Thursday, February 3, at Buchanan High School. The game will begin at 7 p m

The Buchanan-Bronson varsity basketball game, scheduled for Saturday, February 5, has been changed to Tuesday, February 15. The game will be played at Buchanan High School with the JV game beginning at 6 p.m

Superintendent Hogan announced steps the Buchanan Community Schools are taking to deal with the energy situation

The thermostats at all schools will be set at 68 degrees Monday-Friday During the weekend the thermostats will be set at 55 degrees

Parents are advised to dress their children warmly for the remainder of the winter season.

Buchanan Co-ops hosts open house

Paul Nonn, of the Buchanan Co-ops has announced February 18 as the date of the 19 consecutive Co-op open house

The open house will be held at the machinery division on Bakertown Road west of town from 8 30 a m to 4 30 p m

The open house will feature several manufactures displaying their products Among the manufacturers involved are Agstar, Allis-Chalmer, Farm Bureau Feed, Stauffer Chemical Co., and Great Lake Hybrids

The day long event will also feature the presentation of door prizes throughout the day

Sausage and pancakes will be served throughout the day.

Nonn said the open house is always well received and that many Co-op products will be at special prices for the day

Over 60 children from the Berrien County Day Program for Hearing Impaired Children, 140 children from Gard School in St. Joseph, and 35 children from Stump School in Benton Harbor attended the Shrine Circus at Grand Rapids, Michigan on January 24th.

The Berrien County Shriners provided transportation, tickets, and meals for the trip They have been doing this for the past 14 years.

During that time the yearly event has become so well received by the Berrien County Day Program for Hearing Impaired Children that it is now part of that school's curriculum for its younger children. Parents and teachers taught the vocabulary of circus words to the children as well as polite phrases like "Thank you" and "Please". In addition, the children wrote stories and drew pictures of the days activities.

Pictured above from right to left are Raymond Dennison, Vicky Sivak, Tom McCoy and Dawne Nelson, teacher at the Berrien County Day Program for Hearing Impaired Children, Berrien Springs Public Schools.

Dave Stockman supports changes

Congressman Dave Stockman (4th-MI) has sponsored three separate pieces of legislation aimed at "areas of blatant abuse, alleged abuse and financial self-service"

Stockman condemned the proposed pay raise for Members of Congress which would increase Congressional salaries from $44,600 to $57,500 "The inflationary weeds that are choking the consumers' buying power often have Congressional roots," Stockman said "Yet Members of Congress, with this proposed pay raise, are protecting themselves from the inflation they help create That kind of financial self-service the taxpayers find arrogant and unpalatable and rightly so"

The Michigan Republican said that he is also sponsoring a resolution which would authorize a special, independent investigation into allegations that the government of South Korea sought to influence legislation through large cash gifts and favors to various Members "I think the extend of the alleged abuses warrants a thorough, independent investigation rather than an inquiry within the 'do-nothing' House Ethics Committee," Stockman remarked

The third component of the "good government" trio would prohibit lame-duck junkets by outgoing members of Congress "We see it happen every election year," Stockman noted According to Stockman last fall one retiring Congressman took a party to the Orient for 19 days at a cost to the taxpayer of more than $100,000 Another traveled to Eastern Europe to investigate the narcotics problem with the Select Committee on Narcotics although he would not be returning to Congress to make use of what he had "learned" and was not even a member of that Committee Stockman acknowledged that Congressional fact-finding trips are sometimes useful legislative tools but added "Common sense should dictate which trips are of benefit to the taxpayer and which are rip-offs Taxpayers should not be forced 'to foot the bill' for 'going away' parties for departing Members of Congress."

"The polls show that public confidence in Congress has been declining steadily and dangerously for many years," Stockman concluded. "If we are to rebuild confidence and restore public trust, Congress must drastically improve its standards of conduct and refuse to tolerate abuses and questionable practices in its own house Even if that means cutting out some perquisites and stepping on some Congressional toes"

Busby breaks Garrett's record

Bucks break scoring record

By Don Stowell

The Bucks are off and running on another spree of record-breakers The Varsity Basketball team trampled their way through a high scoring, non-conference game last Tuesday, January 25, against the New Buffalo Bisons. The final score was 107-55

Gerald Busby, the high scorer in the game, made a triumphant 52 points to break the former record of 47 points made by Ken Garrett last season. Busby made 18 out of 29 shots from the floor and made all 16 free throws. He also grabbed 20 rebounds

The second record broken was the overall team score. This 107 mark replaces the 106 points made against Dowagiac last year.

The first two minutes of the game caught the Bucks with 4 team fouls, three of which were Greg Frazier's This put Buchanan behind by 5 points making the score 2-7 At the end of first quarter, the Bisons kept the Bucks pinned behind one point with the score 18-19. By the half, the Bisons had surrendered the lead as the score jumped to 47-31 The third quarter kept the Bisons from scoring more than six points, but gave the Bucks a valuable 44 point lead.

The fourth quarter put the Bucks over 100 points to the broken record of 107. Busby made the 100th and 101st points as technical foul shots against New Buffalo

Other high scorers for the Bucks were Greg Frazier with 17, Mo and Joe Kyles with 15 and 12 respectively.

The Bucks' overall record is now 9-4.

Gerald Busby makes record breaking look easy with this bucket. Busby scored 52 points, breaking Ken Garrett's record of 47 points. The Bucks swamped the New Buffalo Bisons 107-55

Our Opinion

Berrien County Record

No one really knows who wrote this updated version of the well-known fable. But it has been widely reprinted.

Once upon a time, there was a little red hen who scratched about the barnyard until she uncovered some grains of wheat. She called her neighbors and said, "If we plant this wheat, we shall have bread to eat. Who will help me plant it?"

"Not I," said the cow

"Not I," said the duck

"Not I," said the pig.

"Not I," said the goose.

"Then I will," said the little red hen, and she did. The wheat grew tall and ripened into golden grain.

"Who will help me reap my wheat?" asked the little red hen.

"Not I," said the duck

"Out of my classification," said the pig

"I'd lose my seniority," said the cow

"I'd lose my unemployment compensation,," said the goose

"Then I will," said the little red hen, and she did

At last, it came time to bake the bread. "Who will help me bake the bread?" asked the little red hen

"That would be overtime for me," said the cow

"I'd lose my welfare benefits," said the duck

"I'm a dropout and never learned how," said the pig

"If I'm to be the only helper, that's discrimination," said the goose

"Then I will," said the little red hen. She baked five loaves and held them up for her neighbors to see.

They all wanted some -- in fact, demanded a share. But the little red hen said, "No, I can eat the five loaves myself."

"Excess profits!" yelled the cow

"Capitalist leech'" cried the duck

"I demand equal rights'" shouted the goose

The pig just grunted. Then they hurriedly painted "unfair" picket signs and marched around, shouting obscenities.

The government agent came and said to the little red hen, "You must not be greedy."

"But I earned the bread," said the little red hen.

"Exactly," said the agent. "That is the wonderful free-enterprise system. Anyone in the barnyard can earn as much as he wants. But, under government regulations, the productive workers must divide their product with the idle."

And they lived happily ever after. But the little red hen's neighbors wondered why she never again baked bread.

Letters TO THE EDITOR

Dear Editor,

Last week's editorial about our Police Service was a honey! It's great when someone notices!

On behalf of all of the Officers of our Department, I want to express gratitude for your fine comments, and to assure our citizens that they are proud to continue to do their best to make Buchanan "A Fine Place to Live"

As City Manager, I would like to join you in an expression of appreciation for the fine job our Officers are doing. I am convinced that the Buchanan Police Department under Chief Moore, and supported by the Volunteers of the Police Reserve, is second to none in the area. I would also like to pass on to you that I have heard this same evaluation of our Department from county and district judges, prosecuting attorneys, and lawyers in private practice.

The men of the Department appreciate the support of the community as they perform their duties in law enforcement, and are particularly grateful for the support and backing of the Berrien County Record.

Sincerely,
Robert L. Faulhaber
City Manager

Dear Teachers

This is in reply to your circular requesting more wages.

As a taxpayer I am requesting more for my money from you. When you became a union member you lost professional status. You are now a union member like millions of other people. You are demanding more money just because you have worked for a certain number of years, or have attended school and received a degree. Not because you could stand ALONE and say I am a GOOD TEACHER BECAUSE.

You say you put many hours in and must attend many meetings to upgrade yourself. So does many people, who is the advisors for the JA groups, who are the people in the chamber of commerce, the commissioners, firemen, etc. These people are not paid by their employers to do this, because of an interest in civic affairs. People in all walks of life are constantly upgrading themselves by attending classes of one sort or another without pay. Our colleges attest to this with the wide range in ages of people attending their classes.

How many times have I heard "I hurried to see him or her right after class but they were in the lounge and don't like to be taken out, or they had already left the building." Perhaps it would be better if you were required to be in the building for an 8 hour day like other members of unions are. You would be accessible to the children and could correct your tests or do your preparation work there instead of elsewhere with two 15 minute breaks a day. If you were required to be in the building could you then do some of this tutoring now being done by extra people. You might be surprised how people could have their child picked up if they thought YOU instead of someone who sees them for just a short period was helping them. You know them better than anyone else in the system could.

You say our children are doing very well, then why are the colleges now having classes to prepare the children to do college level work. They should be ready for this when they graduate from high school.

Since you are unionized could your union be used to police your members and correct the people who have proven themselves inadequate as teachers instead of backing them. You know who is not doing their job in one way or another. Why must it be the administration who does this. This could be a big saving taxwise which would be more money for you.

Why can't the schools run on a twelve month year, families now take vacations all times of the year, children are not needed home on the farm to help in the summers. It is an archaic program that schools need the summers off, also that long vacations are needed at Christmas and spring time. Your organization could be used to change this and this could also give you an increase in salary for then you could be working on a 12 month year instead of the 9 month one you now are.

I realize I have probably wandered on in too many different directions but we must all work together to give our future (our children) what they need and are not now getting. I also realize many things I have discussed are just not pertaining to our local system alone, but after all the money to run the school comes from many places. Let's use our tax dollars wisely, let's not say it doesn't matter this is federally funded, or state or whatever, it is all our tax dollars.

In short if you want more wages, you must once again stand for what TEACHER means not what it means now.

A Taxpayer

Dear Editor,

On Saturday, Jan. 22, I received a document distributed by the Buchanan Education Association. This document stated that of fourteen school districts in this area, Buchanan ranks fourteenth in teacher's salaries.

I am writing this letter in the hope that people will not give this statement merely a passing glance, but stop and really think about the consequences of continued inadequate salaries for our teachers. Superior teachers, even the most dedicated, cannot, and should not have to continue to be underpaid.

At their birth, our children's futures are placed in our hands. We have the responsibility of assuring that they have the best education possible.

Parents, concerned citizen's, please consider our negligence to our children, if we continue the current trend of cutting teacher's salaries. The eventuality will be inferior teachers and inferior educations for our children. Looking to the future, we definitely cannot afford this.

Sincerely
Naomi Gross
336 Chippewa
Buchanan, Mich.

Dear Editor,

In Buchanan's win over New Buffalo Tuesday, January 25, Coach Bohanan's actions destroyed any sportsmanship left at B H S. When a team is ahead by more than 40 points throughout much of the second half, all 5 starters are not necessary during the rest of the game in order to win.

The breaking of school records is fine, but only if you use sportsmanship to do it. By allowing the substitutes to play only one minute and 56 seconds, our coach "rubbed in" the score, embarrassing the team, the school, and the community.

Our fans didn't help matters any when they "booed" the New Buffalo player who attempted the technical foul shot for his team. We had a substantial lead and their boos insulted all Buchanan fans.

Hopefully, in the future, our coach and our fans will be considerate of the other team and bring sportsmanship back to B H S.

from the publisher's pen

Liz Hellwig is now our full time reporter-writer. Liz has been employed at the Record since last summer. During the past few months Liz has been laying out over half of the newspaper along with reporting and writing.

Don Stowell is the Record's newest writer. Don works part time and is on the cooperative training program through the high school. Don's a senior and has worked four years on the Buckhorn. Some of you might remember Don's mother worked at the Record for Caryl Herman as bookkeeper in the early 60's. His brother John works for the Kokomo Tribune in Tipton, Indiana.

Joe Lawrence is also a new face you will be seeing. Joe is presently attending Indiana University and will be covering many of our sports events.

Sam Littler is now our ad manager. Prior to his employment to the Record last spring he worked for Sir Williams Printing Co. for the last 2 years.

A special thanks to Mr. and Mrs. Don Nichols, for all their help -- past and present.

Obituaries

Sol Bofani

Funeral services were conducted at the Olive Branch United Methodist Church, 11 a.m., Monday, January 24, for Sol Bofani of Route 1, Galien. He died Friday, January 21, in St. Anthony's Hospital, Michigan City, Indiana.

Mr. Bofani was born November 17, 1916, in Chicago, Illinois. He was married to Clara Gillis in Chicago July 25, 1959.

He moved to Galien from Chicago in 1961 and was employed in construction work. He was a member of the Olive Branch United Methodist Church.

Survivors are one son, Don, of West Dundee, Illinois, three sisters, Mrs. Rachel Lamb, Mrs. Mary Rosenberg both of Chicago and Mrs. Rose Beatz of Harwood Heights, Illinois.

Rev. Richard Williams conducted the services. Burial was at the Galien Cemetery. Funeral arrangements handled by Connelly-Noble Funeral Home, Galien.

Mrs. Velda C. VanDuine

Mrs. Velda C. VanDuine, 69, of 311½ Moccasin Avenue, died January 31 at the Shoreham Terrace Nursing Home after a long illness.

Mrs. VanDuine was born October 22, 1907 in Elkhart, Indiana. She moved to Buchanan in 1964 from Chicago. Earlier, she had married Dr. Wesley VanDuine. Surviving Mrs. VanDuine are two cousins, Tom and Ruby Irvine of Buchanan.

She was a member of the Thirty Club of Buchanan.

Funeral Services were conducted February 2, at 2:30 at the First Presbyterian Church with Keith Morrow presiding. Her body will be sent to the University of Michigan.

Announce dividend

The Board of Directors of National-Standard Company increased its regular quarterly dividend to 26 cents per share, payable April 1, 1977, to stockholders of record March 15, 1977. The previous quarterly dividend was 24 cents per share.

Strictly Personal

By D.E.N.

We're back at the old stand (temporarily) after having gone to England and finishing a book. The latter has gone to an agent, and we're waiting for the mail with crossed fingers.

The winter of 77 will shut us all up about the winter of 67.

Last week was the first time all winter when we were absolutely unable to get out of the driveway. Mike Canfield shoveled us out.

We wished we could have stayed in England longer. We rented a car and drove up to Edinburgh, which we loved. Driving on the left side wasn't bad, but having the gearshift on the left had its disadvantages.

One of the effects of the blizzard last week was that at one time there wasn't a loaf of white bread to be had in Buchanan.

The boys of the street department deserve great praise from all of us. Not only have they had to battle the snow, but there have been many problems with the freezing of water systems. Buchanan has remained in much better shape this winter than most communities.

The general reaction here to the television offering of "Roots" was that it was pretty rough stuff. The book was a far better presentation of the whole history of the black family.

The children presented us with a bee hive for Christmas. The bees are to arrive May 2. The book which came along with all the equipment is rather frightening, and we never knew there was that much to raising bees.

Agriculture In Action

Chickens without feathers --an editorial

Have you ever heard about genetic engineering? This is the science of manipulating the genes of plants and animals so as to cause Mother Nature to go into directions that might suit our purposes better than the ones she might go if left to her own devices.

A year or so ago, the public learned about the researchers at the University of Maryland who have been manipulating the genes of chickens to produce birds without feathers. They have been able to do so, and naked birds have certain obvious advantages, but they also have some disadvantages, such as requiring central heating in the chicken houses. We can also understand that a naked bird tends to be a little more nervous. Wouldn't you be?

Now we know that poultry scientists over the last hundred years or so have been able to take birds that laid one or two dozen eggs a year and developed them into living egg factories that produce up to 300 eggs a year. But they weren't satisfied with that neat feat. People have bought the notion that cholesterol is bad for their internal pipes. So the chicken breeders are now working to develop birds that will produce eggs with little or no cholesterol. And they will probably succeed.

Genetic manipulation is not new. The Austrian monk, Gregor Mendel, developed the basics of the science more than a hundred years ago. One result has been development of plant and animal hybrids, which has been one of the best means of producing tremendous increases in yields and productivity and an abundance of food for all of us.

As the world shortage of food becomes more severe, the work of these agricultural scientists will become more and more crucial. They are destined to become the most important people on the face of the earth.

Out of the Past

10 Years Ago
February 2, 1967

Area residents were still digging out of the worst blizzard in more than two decades and the weatherman was issuing warnings of another major storm on its way. The storm dumped approximately 21 inches of snow on the area in a period of about 40 hours and was accompanied by strong winds that drifted streets and roads shut almost as quickly as they could be opened.

Sale of the Stationery Center, 105 East Front Street was announced jointly by Mr and Mrs. Sam Rouse and Mr. and Mrs. Keith Welsh. Ownership became effective February 1, 1967.

Police report

Monday, January 24, the Buchanan City Police were called to assist the Berrien County Sheriff's Department investigate a forced entry complaint at the home of Pamela S Mitchell, Box 154-A, Coveney Road

Unknown persons threw eggs against the driver's side of a vehicle owned by Frank Unger, Jr , 3132 Knight Drive The car was parked in front of his home

Donald Ray Dubois, Route One, Olive Branch Road, Galien, was arrested after being accused of attempting to leave Wilt's supermarket with a $2 99 package of pork chops under his jacket

Thomas F Quinn was stopped by city police for not having tail lights on his car Police noticed an open container of beer on the floor of the car Quinn and his passenger, Terry Lee Sheets, were both arrested

Police investigated a report, January 25, stating unknown persons had thrown a circular, bearing housing through an 8x8 plate glass window at Castle's Jewelry Store, 122 E Front Street, causing an estimated $500 damage

On January 30, police answered a call to Huebner Gun & Book Shop, 121 South Oak Street A 4x4 window had been broken by a large chunk of snow.

State Trooper retires

State Police Tpr. Norman L Shuler, 49, of the Niles post, is retiring Friday, February 4, after completing 25 years of service, Col George L. Halverson, department director, has reported.

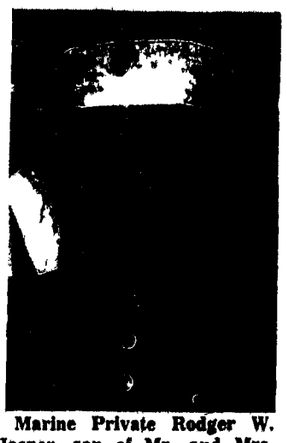
Shuler enlisted in the State Police in January, 1952, serving first at the Brighton post after graduation from recruit school.

In 1959 Shuler was assigned to the post at Niles where he had been serving since.

Shuler was born at Berrien Springs and graduated from high school at New Troy, later attending Ferris State College at Big Rapids for two years

Beginning in 1944 in the World War II period, Shuler was in the U S. Navy for 24 months, including five months on overseas duty

He and his wife, Janet, have a son and two daughters



Marine Private Rodger W. Jasper, son of Mr. and Mrs. Robert F. Jasper of Route 1, Box 477, Buchanan, has completed recruit training at the Marine Corps Recruit Depot, San Diego.

During the 11-week training cycle, he learned the basics of battlefield survival. He was introduced to the typical daily routine that he will experience during his enlistment and studied the personal and professional standards traditionally exhibited by Marines.

He participated in an active physical conditioning program and gained proficiency in a variety of military skills, including first aid, rifle marksmanship and close order drill Teamwork and self-discipline were emphasized throughout the training cycle

A 1976 graduate of Buchanan High School, he joined the Marine Corps in August 1976.

Mrs Przybylinski announces that the Polka Nuts will be furnishing the music and tickets are $1 50 in advance and $2 at the door

Mrs. Borst elected President of County 4-H foundation

Mrs. Barry Borst, a Niles 4-H Leader, associated with the Al-bar 4-H group, was elected President of the Berrien County 4-H Foundation, Inc. Mrs. Borst was elected at the Eighth Annual Meeting of the Foundation, held at the Win Schuler's Restaurant, Stevensville, Michigan, January 26, 1977.

Newly elected officers of the Corporation for 1977 include Borst; Robert Reinking, President of the First National Bank of Watervliet, as Vice President; James Behlin, Vice President of the Inter City Bank, as Treasurer; Robert Paxson, President of Paxson Advertising, Inc , as Secretary; and Laurence Cushman, 4-H Agent, Recording Secretary

The following persons were elected to the Board of Directors for three year terms Mrs Raymond Marske, St. Joseph, Mrs Richard Martin, Three Oaks, Larry Krieger, Bridgman, Mrs Barry Borst, Niles, and John Steinke, St Joseph Edwin Racine of Berrien Springs was elected for a two year term, and Robert Newsted, Niles, for a one year term Robert Norris was elected an Ex Officio Board Member representing the Michigan 4-H Foundation.

The 4-H Foundation is an investment trust fund Its sole purpose is to provide sustained financial support of the Berrien 4-H Program This support is derived from earnings of the investments which the Corporation makes each year. The money for investments comes from the tax deductible donations made to the Foundation. The Administrative overhead costs of the Corporation are less than one per cent of the current year's budget. All directors of the corporation serve as volunteer 4-H leaders and do not receive any remuneration for their services.

During 1976, the Berrien 4-H Foundation provided more than $5,555.00 in 4-H program support. These funds were budgeted for awards, scholarships, training events and expansion of the local 4-H program.

The Foundation now has an operating investment fund of more than $91,000.00. They hope to raise that amount up to $120,000 00 by 1980. This amount will be needed so as to provide the same level of support per enrolled 4-H member as it currently is providing The Berrien 4-H member enrollment has been growing at a rate of more than ten percent (10 per cent) per year and surpassed 8,000 members this past year.

Larry Krieger, Funding Committee Chairman, stated that the Foundation is currently conducting a funding drive, and plans to continue to accept donations for quite some time Krieger further pointed out that all donations do have a Federal Tax Deductible status and that persons or firms can either make cash donations or make pledges for up to three to five years. The outstanding point about these donations, Krieger further elaborated, is that those dollars are never expended and will continue to generate earnings from their investment well into the future, thus providing sustained long-term support of our 4-H Program. Donations received in 1976 amounted to $9,621.45. Krieger further stated that the 4-H Bicentennial Auction generated over $5,176.00 of that amount.

Directors of the Foundation include: Mrs Patricia Martin, Three Oaks; Donald Gast, Baroda; Gayle Borst, Niles; Larry Krieger, Bridgman; John Steinke, St. Joseph; Robert Newsted, Niles; Edwin Racine, Berrien Springs, Robert Koenigshof, Buchanan; Robert Paxson, Benton Harbor, Dr. Michael Chaddock, Stevensville, Harry Kolberg, Berrien Springs; Donald Miller, Baroda; Mrs. Irene Norris, Berrien Center; James Behlin, Berrien Springs, Mrs Doris Marske, St Joseph; Robert Reinking, Watervliet; Lad Stacey, Berrien Springs; Clare Musgrove, St Joseph; plus Board Consultants including Judge Donald Dick, Berrien Springs; Robert Gerbel, C.P A., Benton Harbor, Donald Eppleheimer, St Joseph

The principal speaker at the Annual Meeting was Miss Karen Davis, a member of the 4 Helpers 4-H Club of Benton Harbor Miss Davis presented slides on the National 4-H Foundation Citizenship Short Course and spoke about what 4-H has meant to her Miss Davis is now a 4-H leader and hopes to be employed by the National 4-H Center this summer as an instructor in the National 4-H Citizenship Short Course Program

Debra L. Ward, 17, a junior, is the daughter of Mrs Fanella Bedenfield, 423 Arctic Street. Debra enjoys sewing and basketball and wants to be a licensed practical nurse.

What Little Girls Are Made Of

Despite the 14 degree temperatures these boys and girls were having a great time Sunday afternoon, on the new ice-skating rink provided by the City of Buchanan. The rink is in memorial Field just below the tennis courts.

The ice has almost covered McCoy's Creek as it flows thru this peaceful setting. The beauty of the snow belies the near zero temperatures.

Automobile Club advises motorists to stay off state highways

Michigan's clean pavement era has stopped, and Automobile Club of Michigan is advising motorists to stay off state highways and county roads during periods of heavy snow to avoid accidents or sliding off the pavement

"Our decision could have an adverse effect on Michigan's winter tourism industry such as ski and snowmobile resorts, lodging facilities and on truckers and firms depending on a highly mobile sales force," said James Moffat, Auto Club general manager

"Tourism is Michigan's second largest industry and winter travel brings $800 million, or 20 per cent of total yearly tourism revenue, to Michigan," Moffat said

"The State Highway Commission's decision to use less salt on snow-covered roads means that driving has become more difficult and hazardous than in previous years," said Moffat

Auto Club adds that most county road commissions in Michigan have reduced or, in some cases, nearly eliminated overtime plowing and salting. They point to budget problems due to rising costs not being met by state revenues from gas and weight tax funds.

In areas where overtime has been reduced severely, county roads might not be plowed or salted on weekends or outside regular work hours on weekdays.

"It is with great reluctance that we advise motorists not to travel when it snows heavily," Moffat explained

"However, we have an obligation to warn motorists that with reduced salting on highways, extra time will be needed to reach destinations during heavy snow periods and that road conditions could necessitate postponing or even canceling trips," he said.

"This is one more indication that insufficient money is available in the Michigan highway fund to build and maintain highways and at the same time provide more funds for public transportation," Moffat said. "Some source other than motorists must be found to fund public transit programs now being discussed."

Moffat pointed out that the Highway Commission's previous policy of getting down to bare pavement as quickly as possible by heavy salting has been modified "Most salting operations now are done following and not during a snowfall as in the past

"This means that while major roads may remain passable even during severe storms due to plowing operations, many intersections, bridges and freeway ramps will be slippery and hazardous because of modified salting operations," Moffat stated

Motorists en route and finding themselves in a snowstorm could be forced off the road because of hazardous driving conditions that might not have existed with a more liberal salting policy, Auto Club noted.

"Driving times for thousands of Southeast Michigan motorists were doubled during the morning rush hour on January 11 since most intersections and many bridges and freeway ramps were not salted following the January 10 storm that dumped seven inches of snow," Moffat said.

"Some major intersections in the Detroit area had lines more than one-half mile long following that snowstorm and much of the next day as only two or three cars were able to creep through intersections before traffic signals changed," he added.

Auto Club said that state and county road officials emphasize that near-zero weather and high winds made salting operations nearly impossible during and after the January 10 storm.

Wayne County road crews, which maintain nearly 900 miles of state highways, have cut in half the amount of salt used, from 2,000 pounds per mile in 1975 to 1,000 pounds the past two winters. The county crews often are making only one pass with salt trucks instead of two or three as in previous years

Road crews in Highway District 8 -- comprised of Washtenaw, Monroe, Jackson, Ingham, Lenawee and part of Eaton County -- are using 35 per cent less salt on highways this winter than a year ago

A survey of State Police posts and Auto Club branches in Michigan showed that the modified salting policy is believed to have caused added problems for motorists in some areas

State police spokesmen at Grand Haven and Cadillac linked an increase in wintertime accidents and cars sliding off the highway to the state's salting procedures

"Roads are not in as good shape as they used to be and accidents have occurred here that probably shouldn't have because of the roads," said a Cadillac-area police officer.

A high-ranking state highway official said that road salting generally won't be done if the temperature drops below 20 degrees and that many road crews are plowing but not dropping salt until after a snowfall

A check of Auto Club offices across Michigan found that a number of AAA office managers felt that an increase in December traffic accident reports could be linked directly to roads not being salted during or after a snowfall as in the past

Freedom of information is Point of Law

You want to know how much the city dog-catcher makes for repeatedly picking up your wandering mutt, but the city tells you it's none of your business

You CAN fight city hall for that under a new law signed by Gov William Milliken

"Freedom of information" is the point of the law, and its goal is to make it as easy as possible for Michigan citizens to see most official government records -- including public employee salaries.

Agencies or governments must answer your request for information within five days Lawsuits to compel disclosure of various records can get speedy treatment under the law, and an agency found to have deliberately withheld information can be forced to pay civil damages to whomever asked for the records in the first place

Miss Galien contestants announced

"My Valentine" is the theme for the 1977 Miss Galien Queen contest which will be held Sunday afternoon, February 6, at 2 p.m., in the Galien High School cafetorium.

Mrs Cora Jane Przybylinski and Mrs Jack Canfield are serving as co-chairmen with organizations of the community assisting them

The contestants are Sandy Strefling, 17 year old daughter of Mr. and Mrs. Robert Strefling, is 5' 8" tall and has brown hair and brown eyes. She has been a varsity basketball player, is on the softball team and is in FHA

Marge Fate is the 17 year old daughter of Mr. and Mrs C R Fate She is 5' 6" tall and has brown hair and brown eyes She loves outdoor sports

Lisa Doyle is 17 years old and the daughter of Mrs Mary Doyle and the late Lee Doyle. She has been on the Student Council, a member of Tri-Hi-Y and the FHA

Kelly Clark is the daughter of Mrs. Marion Williamson and Judson Clark. She is 17 years old, 5' 4" tall with brown hair and green eyes. She has been in FHA, Tri-Hi-Y, junior varsity basketball and band.

Sandra Pitts, daughter of Mr. and Mrs. William Pitts is 18 years old and has brown hair and blue eyes She played volleyball for one year, is a pompon girl and plays baseball

Carolyn Williams is the 17 year old daughter of Mr and Mrs Jack Cauffman She has been a junior varsity cheerleader, a pompon girl, member of FHA, Pep Club, Tri-Hi-Y and the Bagpipe staff

Nancy Giza, daughter of Mr and Mrs. Bernard Giza, is 17 years old, 5' 7" tall with brunette hair and blue eyes She is vice president of the senior class, secretary of the Student Council, editor of the year book and a staff member of the school paper.

Galien River Soil Conservation District meeting scheduled

The annual meeting of the Galien River Soil Conservation District will take place Saturday, February 12, at River Valley High School north of Three Oaks.

A short business meeting will be held and an election for one expiring term of office

An award will be presented to Leonard and Dave Kaminski for the various conservation measures they have installed and are using on land located in New Buffalo and Three Oaks Townships

Mr Nelson will present a slide program entitled "The Nature of Sarett", which covers the natural history of this area and reveals the secrets of some of the more interesting critters which frequent the area, and also explains the nature center idea and promotes a friendly relationship with the natural world.

A buffet dinner will be served at 12 noon and tickets are $3.25 each. The tickets are available from the District Directors or the District Office at 4035 M-139, St Joseph, Michigan, telephone 429-4231

Bible on display

Praising Him, Jesus Christ announces the bicentennial project of writing the Bible by hand has been completed

The finished manuscript is in six volumes and was written by 125 people.

This will be the last week the volumes will be on display at the Buchanan Public Library The Niles Community Library will then display the volumes from February 7-12 The volumes will then be transferred to the "Good News Shop" in Niles where it will be on display from February 21-March 7.

Lottery continues to lay golden eggs

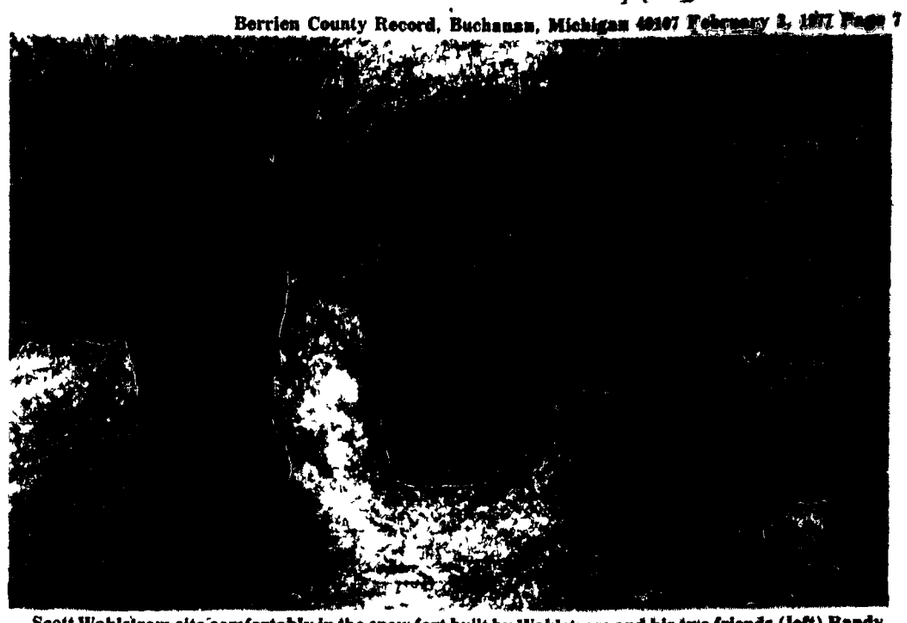
The Michigan Lottery continues to lay golden eggs for the state

It ended the 1975-76 fiscal year in top place among the 13 state lotteries in the United States, raising more money and selling more tickets than any of them Sales of more than 8 7 million 50 cent "units," brought in a total $105 9 million for the state treasury

Those totals are greater than any year yet since the lottery began in 1972 Since then, more than $320 million in prizes have been paid to millions of Michiganders

A look at who wins the prizes shows that, per capita, people in Crawford County win bigger than residents of any other county. There, if all the winnings were split equally among county residents, each would have won $142 78 since the games began.

Luck is lowest in nearby Missaukee County, though, where only $3 93 per resident was won



Scott Wahlstrom sits comfortably in the snow fort built by Wahlstrom and his two friends (left) Randy Parm and (right) Geary Madison The fort is furnished with carpet on the "floor", three lanterns and camp stools to sit on "Tiny" the dog loves the fort too.

Lunches guaranteed at all schools

Children in nearly all Michigan public schools will be able to get lunch at school starting in September, 1978

A new law requires all but a few rural schools to provide some sort of lunch program where students can buy food or get it for a reduced price or for free if they qualify

Breakfasts would have to be available, too, in schools where a fifth of the students come from poor families and qualify for free or reduced-price lunches

Fuller stomachs will mean brighter minds, educators predict.

Starting next September, public schools are required to provide at least a place for students to eat bag lunches

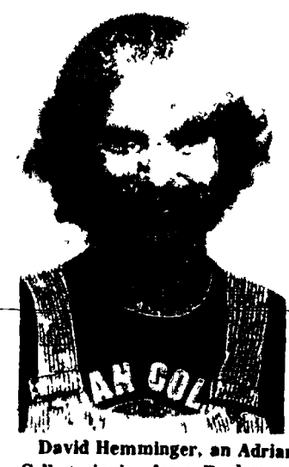
Mr, and Mrs Charles Layman, 1405 Fairfield Drive, Niles, announce the engagement of their daughter, Nancy, to James Beckwith of 705 Red Bud Trail North, son of Mr Carroll Beckwith, Route 1, Sherman Lane, Cassopolis, Michigan.

The bride-elect is a 1975 graduate of Brandywine High School and is employed as an administrative assistant for McDonald's restaurant in Niles, and instructor of the Brandywine Baton program

The prospective bridegroom is a 1969 graduate of Brandywine High School and a 1972 graduate of Southwestern Michigan College He is employed as a draftsman for Buchanan Steel Products.

The couple is planning a July 23 wedding at Emmanuel Baptist Bible Church



David Hemminger, an Adrian College junior from Buchanan, has been named to the school's Dean's List for the 1976-77 fall semester To achieve this recognition, a student must maintain a 3 5 or better grade point average on the basis of at least 12 credit hours

Hemminger, a business administration major and three-year academic scholarship recipient, has been active in Adrian sports. Last fall, he was a scout for the college varsity football team and, in the spring, plans to participate in track and field As a freshman, he lettered in track and was active in junior varsity football and intercollegiate debate.

In 1974, the Adrian junior graduated from Galien High School There he belonged to the band, debate, football and track teams.

David's parents are Mr and Mrs. James Hemminger, Bakertown Rd., Buchanan He is a member of St Anthony's Catholic Church in Buchanan

LaSalle Federal announces growth

At year end 1976, the assets of LaSalle Federal Savings and Loan Association reached $56,288,689 with excellent growth in both savings and mortgages, Eugene B Rokely, President, announced after the annual meeting held recently in Buchanan

For the third consecutive year, LaSalle Federal was one of the leading lenders in this area in providing funds for home mortgages. Rokely reported the Association made available over $14 million for new construction or funds for purchasing existing homes He stated the Officers, Directors and Employees are very proud to have played this vital roll in the community in helping to stimulate the economy and assist so many people to own their own homes

In other business, Robert F Koenigshof and Robert F Habicht were re-elected as directors for 3 year terms With the opening of the new office at Decatur, it was noted that several personnel changes and promotions will take place which will be announced at a later date

At this point, it looks as if 1977 will prove to be another excellent year regarding availabihty of funds for building or purchasing homes Rokely stated we must continue to press for policies that will not result in a return of the 1974-5 inflation-recession cycle

It takes about one pound of coal and a few hundred people just to bake a meatloaf.

Baking a meatloaf is simple But making the electricity that bakes it isn't.

It only takes about a pound of coal to generate enough electricity to operate one oven for one hour. But, when you figure in the hundreds of other ways electricity works for you each day, and multiply that by the thousands of other homes and businesses where electricity is working around the clock, the job of supplying power takes on a different perspective.

Behind all the plugs, switches, lights, appliances, tools and machines in our area is a gigantic and complex power system.

Where thousands of tons of coal are burned every day to make the steam that turns the turbines that generate your electricity

But that's only the beginning. Getting that electricity where you need it, when you need it also requires thousands of miles of power lines, transmission towers, substations, poles and transformers

And people.

The hundreds of specially-trained people who manage and maintain this vast network that serves you 24 hours a day.

We're not offended if you take electricity for granted, though Because that means we're doing our job, keeping the power coming.

But there's a job you can do, too

Make sure the electricity we provide isn't wasted.

How? Turn off lights and appliances when you're not using them Wash only full loads of clothes and dishes.

Or, better yet, make sure your home is properly insulated. And look into appliances that have the new energy-saving features

Working together this way we can make something even better than meatloaf.

Progress.

Indiana & Michigan Electric Co.

Working together is the only way

It may be an exaggeration to say that your new car will sing the praises of Ziebart but it is a fact that nearly 2 million happy customers have protected the appearance and value of their cars with Ziebart Rustproofing It's true too that no other treatment can match the Ziebart process for coverage and protection The exclusive Ziebart sealant actually penetrates welded seams to get in where rust can start And your Ziebart Dealer uses patented spray tools that assure complete coverage of hidden and boxed in areas

He's factory trained as a rustproofing specialist who can do the job right After all no car wants the partial protection of some budget treatment when it can stay in the spotlight with Ziebart Rustproofing So bring it in to your Ziebart Dealer for real rustproofing no car dealer can deliver Then listen to your car sing'
