Buchanan Women To Observe World Community Day

OPA Explains Reason For Issue Ration Book Four

New Book To Serve Public At Least 96 Weeks

Why A New Book? Many people are asking the question, "Why a ration book four when all of the stamps in books 1, 2, and 3 are still in use?" The answer furnished by the OPA is that, while some stamps in book 1, for instance, have not yet been used, they may be very short, and the same holds true for books 2 and 3. OPA feels that the general public should not object, however, if it has to carry an extra ration book around, since the overlapping of such books and their stamp values prevent (or help to prevent) the individual from running out of sufficient points for rationed articles. The matter of time, it was explained, was the reason that the schools were called upon to distribute this ration book, Zweedyk explained. "Because there was not enough time between completion of making Book Three and the date when Book Four will be used to organize the necessary facilities to handle applications by mail. The schools' ability to do the job quickly and efficiently, and their willingness to undertake the tremendous responsibility involved in distribution of ration books has been proved in the past. The following is a description of the book and an explanation of how it will be used."

Mrs. Judson Markham Gives Kraut Recipe

With the public becoming increasingly kraut-conscious with the rationing of that staple of the old-fashioned menu, the Record has been asked to run again the recipe of Mrs. Judson Markham, 308 1/2 Main street, for making it easily in glass fruit jars. Here it is. Cut cabbage fine, pack solidly in glass jars, add to each quart 1 teaspoonful salt, 1/2 of sugar, 3/4 cup lukewarm water, seal tightly. The kraut will be ready for use in about three weeks.

The total of 6670 pounds of scrap iron was collected in the drive held Friday of last week in Buchanan. The small total was due to the fact that practically all available scrap on private and public premises was collected in the drive held last fall in which almost 150,000 pounds was collected.

To Hold Service In Evan. Church On November 11

Will Take Part In National Referendum On Problems New World Order

The women's division of the Buchanan Community Church Council will hold the World Community day observance, during a meeting Friday afternoon with Mrs. Earl Rizer. The observance will be a union service for women of the local churches and will be held in the Evangelical church at 2:00 Wednesday afternoon, Nov 11. The program theme is "The Price of Enduring Peace." As a part of the program, the group will hear the international World Community day radio broadcast. The following was contributed by Mrs. Allen Pierce, member of the committee in charge of planning. At the first Assembly of the United Council of Church Women held in Cleveland, in December, 1942—a motion—unanimously carried—that a day be set aside in the fall of 1943 by the church women for a study of peace. These women realized that in unity lay strength and so they decided that they would unite on this day's study, the date, Nov 11, the day to be called "World Community Day," the theme, "The Price of Enduring Peace." This became one of the greatest adventures in Christian unity ever attempted by church women. Think what it will mean to have ten million women meeting together on Nov 11, to study as church women "what can be done to build a new earth wherein dwelleth righteousness." One of the most significant parts of the day's program is the last ten minutes when the women are being asked to vote on two questions relating to this whole problem of the new world order. This is to be a secret ballot, tabulated, and sent to the office of the United Council of Church Women. This will give one of the greatest cross sections of public opinion of church women that has ever been secured. Plans are being made for a world broadcast when women from other nations will speak to the church women of America. A committee from the Woman's Division of the Buchanan Church Community Council met with the chairman, Mrs. Earl Rizer Friday afternoon to perfect plans for Buchanan women to share in this world-wide study. These comprising the committee beside Mrs. Rizer were Mrs. Malcolm McNeal, Mrs. R. H. Kretzschmer, Mrs. Grant Jordan, Mrs. Ira Long, Mrs. David Lehr, Mrs. V. L. Coonfare, Mrs. Fred Hagley, Mrs. John Flack, Mrs. Elmer Schram, Mrs. Myrtle Poorman, and Mrs. Allen Pierce. The Evangelical church was selected as the place for this day's meeting, and the time was fixed for 2:00 to 3:30 p. m. by the committee. Any cooperation the local merchants and other business men throughout Buchanan can give in releasing women employees to participate in this study, or in any way, will be deeply appreciated. In many places, the stores are closing during this hour. Remember the date, Nov 11; the time 2:00, the place, the Evangelical church.

Tales of An Old Town An Attempt to Reproduce a Cross Section of The American Scene, As Witnessed Here Through the Past Century

Consisting Of More Or Less Light On History Of Newspapers Here

A short time ago the Record office received on loan a copy of the Berrien County Record of Jan. 9, 1865, which casts a somewhat more definite light on the beginnings of this paper, under its present name at least. Editor and publisher of the paper at that time was D. A. Wagner, a brother of the late Ira Wagner, and an uncle of Mrs. Wagner. In this issue Editor Wagner notes the completion of this first year of his ownership as follows: "It has now been one year since we commenced our labors among you as editor. On the 15th of December, 1865, we took possession of the Weekly Union Office making our first issue of the Union on the 20th of that month and the issue of that paper on the 21st day of February, 1867. On Feb 28, 1867, we issued the first number of the Berrien County Record. We feel grateful to an appreciative public and to a kind providence for our success. Our subscription list, we are confident, now nearly doubles that of any other political paper in Berrien County. The publication of the Record, however, is attended by heavy expenses, as is the case necessarily with every valuable paper in any country. We have neither spared time, money or labor to make the Record such a paper as would be a welcome visitor in every household, as well as a firm and unflinching advocate of the great principles of Republican government. The Record office is now the most complete office in western Michigan and is fully up to many of our larger cities. One thing we greatly need, however, and that is every dollar that is owing to us on subscription, to pay for a steam engine with which to run our presses. Many of our readers have now had our paper a whole year and have forgotten to send in the pay for the same. We earnestly ask, is this right? The sum is small for each one, but if all these small sums were now in our hands, we would have sufficient to pay for two engines. "According to our advertised terms, all now in arrears for one year are indebted to us \$2.50 but we have determined that many of our subscribers for last year's subscription and for one year's subscription in advance, shall have the books squared for two years. We therefore appeal to every citizen as well as to every Republican in the county, to subscribe for it and to induce his neighbor to do the same. Our hat can be doubled before the first of February, if you will only do your duty. Now is the time to begin the great campaign of 1868. Do not delay if you have any regard for the success of the great principles of Justice and Republican government." The flavor of the above editorial extract indicates how the newspapers of that day threw themselves headlong into the political fray. It was not only the George Black and Alton Bennett, the partner of Mr. Bennett's board and bed, was that that species now entirely extinct, the nagging woman, and when she became aware of said smuggling, she ran the juvenile Mr. Black out of the office and down stairs. Then another old timer of unimpeachable word and memory, the late John Dick, told us that he worked for Mr. Bennett, when he was publishing a paper called "The Buchanan Vindicator," that they put the paper out here until this became too hot a spot during the early part of the Civil War, so they moved to a more Democratic atmosphere in Illinois. There Mr. Bennett continued a bold and unflinching policy of attack on the Republican party, until one day a column of Union soldiers marching through the town suddenly broke rank in front of the printing office, charged in and demolished the equipment. Then Mr. Dick went to the army as a safer place than a Democrat newspaper office in these parts, and Mr. Bennett quit the newspaper office for good. Both Bennett and Dick returned to Buchanan and as the fires of division died down, both became honored and well-loved citizens in spite of being Democrats, strange as that may seem, and were entrusted by their fellow-citizens with public office and business. Dick is gone and Black is gone and we know none who could untangle the story now. (To Be Continued)

Daytonites Boost For Passenger Stop

The New York Central Railroad has agreed to make Dayton a flag stop for the West Bound train No 41. This service will continue until Dec 12 on an experimental basis to give the railroad an idea of the potential passenger traffic. Several Daytonites are heading for the stop, and wish their neighbors to note it and act accordingly. No truck canvas has been arranged for iron scrap salvage in Buchanan township, according to Mrs. Mary Bantion, in charge there, but every farmer is asked to collect and bring in a minimum of 100 pounds or as much more as he can. It is to be weighed at the Buchanan Coop Inc scales and then sold to Phil Frank. The owner may, of course, retain the money received, unless he wishes to donate it to some fund.

Jr. Farm Bu. Has Week End Party At Camp Warren

An unusual week end was enjoyed on Oct 23, 24 at Camp Warren six miles north of Benton Harbor by 50 members of the Berrien County Junior Farm Bureau. The week end starting Saturday afternoon and continuing through Sunday was in the form of a miniature camp, the purpose of which was to develop leadership in cooperation and recreation. After registering they were divided into competitive tribes. The Fruit Growers, Co-ops, Food Processors and Dairy Products Plans were made by the committee for prizes to be awarded so that the tribes competed for honors. The trophy going to the Food Processors with Barbara Preston as their chief. Relay, folk dances, and singing were enjoyed throughout. Read the exciting experience of Gray-haired people in Calcium Pantothate tests sponsored by Good Housekeeping magazine.

According to this report: And—did not seem to affect results. The earliest response occurred in a 50 year old, the latest in a 74 year old.

Color—beginning to appear near the roots of the hair, the color may not appear all over the head at the same time. Symmetrical areas, perhaps on the temples or the back of the head, may show traces of color first, after which the color will spread to other parts of the head.

Time—ranged from 1 month to 6 months. Result—83% of those tested had positive evidence of return of some hair color.

Now thousands use GRAYVITA, which contains 10 mgm. of Calcium Pantothate (the same amount used in tests above) PLUS 450 U. S. P. units of B₁₂, the vitamin necessary to healthy nerves. Try GRAYVITA. See what a difference it may make in the way you look. 50 day supply \$1.50, 100 day supply \$3.00. Phone, write.

ANNOUNCING
Opening of
"No Point" Meat Market

For the benefit of residents of Buchanan and surrounding territory who have been driving to South Bend for their "no point" meat

I AM OPENING A "NO POINT" MARKET
IN THE SANDS BUILDING, 111 SOUTH OAK, ON MONDAY, NOVEMBER 1.

The building has undergone many changes and has been newly decorated throughout.

Louis G. Jakway

THE OLD JUDGE SAYS...

"Just dropped by to tell you, Frank, I had a fine letter from your son, Joe, this morning. Mighty nice of him to take the time to write me... I know how busy they keep the boys. That's a fine camp he's been transferred to up in New England!"

"Yes, Catherine and I had a letter this morning, too. Said he was writing you... he's very fond of you, Judge. Catherine is certainly proud of Joe and proud of the great Army he's a part of."

"She has good reason to be, Frank. Joe is one fine fellow and the Army he's in is the best disciplined, best behaved in our history. Just last night I was reading an article that quoted a report signed by five chaplains in the very camp where Joe is now training. I remember their exact words which were "there is no liquor problem at this Post." And I understand that's true in camp after camp all over the country. And if Catherine would like to see that report, I'll drop it off at the house tomorrow."

"Nobody can make me hurry"
—Father Time—

It takes time—and plenty of it to blend the zippy, zesty tang of fine hops with the rich, mellow goodness of choice barley malt. But it's TIME well spent in slow, patient aging when the result is Fox de Luxe—with its famous balanced flavor that's never bitter—never sweet—always just downright delicious!

Hair-Do's

If you were to have an airplane view of a girl's session at Buchanan high school, you would probably see a forest of feathered bobs, page boys, and different types of shoulder length hairdos. Long hair curly at the ends and brushed back off the face is almost as popular as short hair or feather bobs. Into every head of hair no matter what style you will most likely find tucked a hairbow. These bows are a variety of colors and sizes and add a certain touch to any hairdo.

"THANK GOODNESS!"

Here's one thing that hasn't gone up!

NO NEED to look so surprised, Lady!
Far from going up, electric prices have been coming down—steadily! Within the past three years, while the cost of living has climbed about 22%, the average price of household electricity has dropped about 9%!

And this downward trend in the price of electricity has been going on for years. For example, if yours is an average family, you're getting just about twice as much electricity for your money today as you did 15 years ago.

That's good news to your budget, isn't it? And meanwhile, you're enjoying the use of lots more electric appliances.

Why is electricity so cheap? Because experienced business management has made it so. Your electric company has been on this job for years—and those years of experience count! They all add up to friendly, dependable service—at low cost!

Q. Why should oil be changed every two months or at 1,000 miles—whichever comes first?

A. Your car produces nearly 1 gallon of water per gallon of gas burned. Short-run driving fails to expel all this water. Some gets into the crankcase and contaminates any oil—especially in cool and cold weather.

***Here's your easiest-on-the-battery motor oil!**

The cue for motor oil selection this fall is—save that battery, protect that engine, stretch those gas coupons. Change to Standard's famous Iso-Vis 10 W, the fastest starting, easiest-on-the battery 10 W motor oil you can buy.

At today's reduced speeds, oil consumption is greatly reduced, but batteries are older. Under rationed driving, they recharge less, run down faster. Too-heavy oil increases battery drag, endangers the motor when starting cold, wastes gasoline.

Iso-Vis 10 W gives instant lubrication, yet stays tough under heat—gives full engine protection. Get it today. And make an early appointment with your Standard Oil Dealer for complete winter-conditioning . . . weekdays, if you can, please
