

C. J. WILSON IS ELECTED CITY MAYOR

Annual School Gym Show to be Presented Thurs., and Fri. Nights

Bradley Named Commissioner In Prec. 1 Contest

Less Than 25 Per Cent Of City's Possible Vote Is Cast

After a vacation of two years from city office, C. J. Wilson was returned for his second term as mayor Monday by a vote of 324 as opposed to 94 for R. G. Van Deusen.

The total of 418 votes cast for mayor, representing less than one fourth of the possible vote of the city, reflected in part heavy work schedules which made it impracticable for many factory employes to cast their ballots, and also no doubt a slighter interest in local politics because of overshadowing interest in larger affairs.

Table with 2 columns: Name and Vote Count. Includes Mayor Wilson (149), Commissioner Bradley (142), and various supervisors.

Mrs. W. L. Bowker Called By Death

Effie Leona Bowker, 48, died April 7 at 11:30 p. m. in her home four and a half miles northwest of Buchanan after an illness of a year.

She was born April 20, 1893, in Baroda township, the daughter of James and Bertha Raber. She married William L. Bowker on Nov. 20, 1920, at Berrien Springs, Mich. She is survived by her parents in Baroda, by her husband, by the following children, Mrs. Mildred Zebelle of R. R. 1, Buchanan, William H. Bowker of Buchanan, Mrs. Muriel Burns of R. R. 1, Buchanan and by Ruth, Frances, Wanda, Edna and James Bowker at home, by one sister, Mrs. Sophia Wallace, R. R. 1, Buchanan; by two brothers, Hanson Raber and Harvey Raber, R. R. 1, Buchanan.

She was affiliated with the Bethlehem Temple.

Farmers' Mutual Has Papers Dating From Its Early Days

In the files of the Farmers' Mutual Fire Insurance company are two old documents which date back almost to the beginning of the company in 1860, which the secretary, John Koble, plans to frame and hang on the office walls.

Both were brought in by Charles Gillette of Bertrand township, the grandson of one of the first members, when he collected for the loss of his barn over two years ago. One is a photostatic copy of the original policy covering his farm buildings, taken out by his grandfather, Charles Gillette, on May 5, 1860. The original policy was for \$1,200, of which \$800 was for the house, \$250 for the barn and \$150 for the grain stored in the barn. When the barn was burned he collected insurance of \$2,000 on the building and \$700 for farm implements, or a total of \$2,700. He said that this sum was approximately the equivalent of what the three generations of the family owning the farm in that time had paid to the company in premiums and assessments for 80 years.

The second document is a photostatic copy of an assessment notice served on Charles Gillette, Sr., on April 4, 1863, in payment for the loss of a building by S. B. Brodbery of Niles township, in return for \$1,200. The Gillette assessment was \$2.04.

The company was organized in 1860 and incorporated in 1863, when it had acquired enough members to qualify for incorporation under the state law.

Library Gets \$127.30 From State Grant

Represents One-Half of Grant Of \$254.60 To Local Institution

The Buchanan Public Library received a check for \$127.30 today from the State Board for Libraries, according to Miss Mary E. Reynolds, Treasurer of the Buchanan Library Board. This is a partial payment on the General Library Grant for which this library has qualified according to the requirements set up in the State Aid to Public Libraries Law.

An appropriation of \$250,000 for 1941-42 has been set apart by the legislature to add to the public library service given by local communities. The largest division of the fund is for public libraries which meet certain conditions, the most important of which is that the local governmental unit must have appropriated during its last fiscal year preceding July 1, 1941, an amount equal to or more than the average of the last three fiscal years.

The State Aid Law allows the grants to be used for salaries, books, longer hours of service, and for equipment or supplies in the terms of the law, "and any all benefits provided under the provisions of this act and paid to any public library, may be used for any expenditure, except the purchase of sites or buildings, the erection of buildings or additions to buildings, the remodeling of buildings and the payment of principal or interest charges on any indebtedness."

Harve S. Bristol Full of Ideas On How To Win War

Harve S. Bristol, octogenarian and man-about-town, is as filled full of ideas on how to win the war, as a dog is of fleas.

Mr. Bristol offered a secret plan for the elimination of the Jap to the war department in January and received a letter from the department stating that his comments had been carefully noted.

Hold Last Rites For Addie Proseus

Funeral rites were held for Mrs. Addie Proseus, 78, from the Arthur Proseus home at 104 South Portage street, at 2:30 p. m. Monday, and burial was made in the Storick cemetery. Rev. James N. Baker was in charge and the following acted as pallbearers: DeLoz Proseus, Al Kent, Melvin Boyle, Clayton Hartline, Lyle Nelson, Lee Nelson.

Mrs. Proseus was born Feb. 28, 1864, in the Mt. Tabor district, where she was reared and spent her early life. She lived her entire life in this section except for a short period at the home of her daughter, Mrs. Charles Albers, Cleveland, O. Her parents were Mr. and Mrs. Jerry Harner. She had been ill for the past five years. She died at 6:30 p. m. Friday at the home of Mrs. Albers. In addition to the daughter referred to above she is survived by a son, Arthur Proseus, 104 South Portage; by three grandchildren; by a brother, A. R. Nelson, of Baroda.

It Was Some Rain In Any Man's Country

Real April weather has been on tap in the Buchanan district in the past week, with plenty of rain and some cold interspersed with warm, sunny periods which brought spring flowers and tree buds on space. The boys at the Indiana & Michigan power plant report a rainfall of 1.75 inches Monday night, which is some rain in any man's country.

Seeking Boys Responsible For Light Breaking

Eight Large Lights at Street Intersections and in Park Smashed

Wanted the license number of the car or other evidence that might aid in the identification of the persons who have been breaking electric light fixtures at city street intersections and in Athletic park during the past six weeks.

The breakage includes practically all of the lights at West Fourth street intersections and at several of the floodlights in Athletic park. Replacement of these lights costs from \$5 to the neighborhood of \$18 each.

On several occasions residents near the scene of the breakage saw the acts, and stated that boys were engaged. It has been the practice of the boys to drive to the scene of the act, stop their car, jump out hurriedly and gather up loose stones and pelt the light until a hit is scored. Then they jump in the car and leave hurriedly. To date no one has identified the boys or secured the license number of their car. It is believed that those engaged are of minor age. If even the license number of the car can be secured, the perpetrators of the acts will soon be apprehended.

City Considers Letting Bids For Garbage Disposal

The city commission is contemplating calling for bids for the removal and disposal of garbage and rubbish. They were not decided whether the expense would be borne by individuals availing themselves of the service, or placed on the general city tax. This consideration is due to recent difficulty which the city is encountering in locating a place available for disposal.

Good Audience at S. D. A. Program

A large audience attended the music and lecture program given by the students and teachers of the Emmanuel Missionary College last Friday evening in the S. D. A. church. Dr. J. L. Thompson, professor of physics of the college, gave a much appreciated trumpet solo. There were also vocal selections given by students from the college. Mr. D. C. Newbold gave a lecture on the subject of "Spiritualism—Can the Living Talk to the Dead?"

Coach Paints Gloomy Picture For BHS Track

Only 21 Report, With Last Year's Stars Gone By Graduation Route

(By Eugene Anderson) The outlook for this year's track and field team is very dark indeed, according to Coach Stahl. The season was officially opened Monday and Stahl points to the fact that he has only 21 boys out this year and most of them are freshmen and sophomores. This number of candidates certainly does sound very discouraging as compared with 80 prospects out for Niles high school. Severe losses were inflicted by graduation last year. Habicht, leading point getter of last year's squad, was the heaviest loss says Stahl. Habicht was a consistent performer in the high hurdles, low hurdles and tied the state high jumping record while winning the same at Lansing. Moyer, high and low hurdler, and Clements, star miler, were other losses suffered by graduation. Coach Stahl says, "I had depended heavily on Cecil Coleman in the field events and since he has chosen Niles as his place of residence that throws a monkey wrench in my plans. He had been an erstwhile performer in the low hurdles, pole vault, high jump and broad jump." Coach Stahl has six returning lettermen around which he hopes to form this year's team.

They are Dickow, who was the regional winner in the 100 and 200 last year, will run as anchor man this year's relay squad besides the 400 and 220, Troutfetter, 100 of 220, and relay, Luke, 440 and 880, Meyers, half mile, Trapp, half mile, Welch, shot put. Other prospects this year are: Gooch, high and low hurdles, M. Swain, 100 and 220, Couchman, mile, Maxon, mile, Fagras, half mile, R. Swain, mile, Watson, shot put, Zupke, mile.

Stahl says he doesn't figure on winning many meets, if any, but does expect to have his boys rounded into condition and all set by the time the state meet rolls around.

Coach Stahl has practically nothing in the pole vault, high jump and hurdles which puts a heavy cramp in the possibility of a winning squad. 1942 B. H. S. Track Schedule April 17, Dowagiac, here. April 21, Niles-Dowagiac at Niles. April 24, Three Rivers, there. April 28, St. Joe-South Haven at St. Joe. May 2, Western State relays at Kalamazoo. May 8, Big Seven at St. Joe. May 16, Regional at Kalamazoo. May 23, State meet at Lansing.

Col. Rosecrans estimated that 570,000 persons in Michigan will be subject to registration on April 27. Approximately 225,000 of these will be registered in Wayne County. More than one million Michigan residents are now registered with Local Boards in this state.

Local Boards have been instructed to establish places of registration in public schools and other public buildings similar to those used for the third registration in February. Approximately 25,000 volunteer registrars will be called upon to assist Local Boards in the conduct of the registration. School officials and other local governmental agencies have been called upon to assist Local Boards in every way possible to insure accurate and complete registration.

Tales of An Old Town

An Attempt to Reproduce a Cross Section of The American Scene, As Witnessed Here Through the Past Century

(By Fred Richter) The Stories of the Lodges of Dayton, Past and Present. Of the fraternal orders that are or were active in Dayton, the Independent Order of Odd Fellows is probably of longest standing. According to its records it was organized Sept. 17, 1873, and consequently will be 69 years old this coming September. The charter members, none of whom now live, were John Young (merchant), Adam Kern (cobbler), Ephraim Sanders (clerk), John Wyant (carpenter), Jonah Threaddell (mill-er), A. H. Roshermel (carpenter). The last named died in Kalamazoo about two years ago, at the age of ninety. The ranking senior member of the Dayton Odd Fellow Lodge now is David Allen of Galien, who joined July 28, 1888. Although the records do not indicate that his father, Elisha Allen, was a charter member, he must have been one of the first to unite with the lodge after the charter was granted. He died in December of 1910, having been struck by a Michigan Central Railway train in Dayton. Another of the older members is Pete Gray, now living in South Bend, who joined in Nov. 2, 1895. Ed Richter joined on Jan. 23, 1897, and is now a member, but had dropped for several years and was reinstated.

It was about thirty years ago when the I. O. O. F. decided to hold a picnic in the school house grove. The first one held was a great success, both financially and in attendance, and it was decided to continue having one each year. It was evident from the first that the event was more than just a picnic—it served in the nature of a homecoming. It was kept going until 1939, when the 27th and probably the last picnic was held in the school house grove. One was scheduled for 1940, but it was cancelled on account of the infantile paralysis scare. Subsequent to that the ground on which the picnic had always been held was sold, which marked the end of the event. It was usual to hold them on Labor Day.

45-65 Age Group To Be Registered Monday, April 27

Michigan Local Boards today were authorized by Col. E. M. Rosecrans, State Selective Service Director, to organize their plans for the conduct of the fourth registration, which will be conducted throughout the nation in accordance with the president's proclamation on Monday, April 27, between the hours of 7:00 a. m. and 9:00 p. m.

Persons required to be registered in the fourth registration will include all males residing in the continental United States or in the territories of Alaska, Hawaii, or in Puerto Rico, who were born on or after April 28, 1877, and on or before February 16, 1897. With the registration of this group, there will remain to be registered only those males between the ages of 18 and 20. Registrants of the fourth registration will not be subject to military service under the Selective Service Act of 1940, as amended.

Col. Rosecrans estimated that 570,000 persons in Michigan will be subject to registration on April 27. Approximately 225,000 of these will be registered in Wayne County. More than one million Michigan residents are now registered with Local Boards in this state.

Theme: Physical Ed. on the March

Program Will Reflect Method Of Education for the Present Crisis

Buchanan high school's annual gym show will be presented this (Thursday) evening and tomorrow evening in the gymnasium. The theme of the production for this spring is "Physical Education on the March." It will portray the importance of physical education in the present world crisis. The well-equipped body of today demands various forms of recreation as well as calisthenics.

The program includes dances of the lands of the United Nations, methods of body building, and ways of combating the enemy. Among the unique features of the show will be the following: The G. A. A.—On The Land, On The Air, On The Sea; A Sports Parade, Military Marching Bicycle Drills, The Part Buchanan Can Play in the Defense of Democracy. Under the direction of Jeanne Boyce and James Stahl the gym show of 1942 promises to be an evening of fun and entertainment.

She was a member of the local Review of the Women's Benefit Association.

Civilian Defense Calling For More Volunteer Firemen

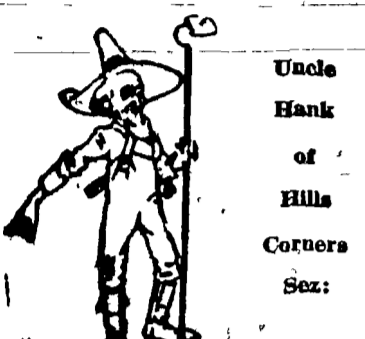

One of the first acts of a saboteur is to destroy property by fire which may be your home or the property of our industries.

The Office of Civilian Defense has a program to combat this sort of destruction, by the organization of auxiliary firemen, which is composed of local volunteers. It is imperative that each volunteer take the prescribed course in fire fighting and first aid, both of which are of great benefit to any spirited citizen even in peace time. Our city officials have shown their earnest concern for our homes and industries by purchasing additional fire fighting equipment, which they deem sufficient to cope with any emergency that may arise.

In an emergency, to make this new equipment efficient and save our property and lives, it is necessary that we have additional members in our auxiliary firemen group and we are now asking for at least 10 volunteers. To be a member of the auxiliary firemen it is imperative that each candidate register with our city clerk, Mr. Harry Post, at the city hall at once.

CARL LONGWORTH, Chairman, Civilian Defense. Miss Mae Mills went to Jackson Thursday, returning Friday with the Misses Alice, Agnes and Lucy Beach, and Miss Nellie Mills, who spent the Easter week-end here.

Now Here's the Proposition

Uncle Hank of Hills Corners sez:

"Mebbe this idee of sharpenin' razor blades by pullin' 'em through a cork will work but I know sum fellers that made a fizzle out o' sharpenin' their wits by pullin' corks."

Take One Guess. Some guys, whenever we connect, Hand me a line to this effect "My God, old man, you're failin' fast—I fear you haven't long—to last you must have lost a lot of weight, It seems you scarcely stand as straight; Your age begins to plainly show, Oh well, we all have got to go." Then others tell me this "My lad, You are a sight to make one glad; You're looking younger every day—It's marvelous how you keep that way! It seems you never will get old—How do you keep your age controlled?" Now riddle me this one, my dear—Which crowd do I prefer to hear?

Vanishing Automobile. It is almost a misdemeanor to own an automobile today. In the beginning we were taxed when we bought one, probably because we could afford to buy it.

Then they told us that if we wanted good roads to run on we would have to pay a tax to drive the thing so they could use it to build said good roads. They built some, but the money piled up so fast that practically every state department started dipping into it for other purposes. Then the personal property tax assessor began to take a look and he reached for his bit.

The cities noticed these carryings-on and decided upon a me-too policy and took a piece of whatever money was left in our pocket. Then somebody else discovered that the things wouldn't run without gasoline and oil, so the federal government carved a piece out of these two ingredients and the state chopped on.

About that time it was found that an automobile wouldn't run without a person driving it, so it was decided that before we could drive it we had to pay for a license to do it. Then came the Ickes hobgoblin warning to slow down or else. Now it's tires—10 and 10 years in jail if they are bought the wrong way.

There are, at the last count, 106 direct and indirect taxes and penalties which we must pay before we drive an automobile around the block.

It got so that we couldn't leave an automobile on the street or hardly anywhere else, and about the only thing we could do when we stopped running it for a few minutes was hold it in our laps.

By a process of evolution, however, the thing is being resolved and all the petty troubles are practically over—

They are making it impossible to buy one—Kansas City Journal. Board of Health Announcement. Attends Funeral At Hymera, Ind.

E. H. Beatty went to Hymera, Ind., Saturday afternoon to attend the funeral of his cousin, Harvey E. Mikelson. The latter was known to many here, having visited frequently with Mr. Beatty at the W. E. Haslett home. The following poem, written by Mr. Beatty, was read at the service: My Dad and Buddy has journeyed away, To the Land of Love and Endless Day. To meet those dear beloved ones, Our Daughters, Our Sons.

The Hand of God upon his brow, The Love of God within his heart His call came then so strong and clear "Come thou My Son, to Me, apart"

Gone the pain, cooled the fevered brow The Savior Dear ministers to him now In the holiness of that place He rests in the vastness of God's Grace

Seniors Defeat Underclass 5 In Intramural Series

(By Eugene Anderson) The seniors clearly demonstrated their superiority and greater all-around play and experience on the hardwood to rout the underclassmen 48 to 23 in a contest sponsored by the "B" club March 25. The game also showed that the loss of seven of the first ten men on this year's squad was going to be awfully hard to replace. Next year's team will have to be built with Dretzler, Snodgrass and Watson as the nucleus and only returning lettermen of this year.

The upper classmen thundered through the weaker's defense so often that the score stood at 23-5 at the initial quarter post. Each of the starting five scored at least two buckets in the first period assault.

The second period was very slow and free from heavy bombardment. The intermission found the seniors leading 29 to 9. The third canto was very closely contested with the seniors scoring nine and the underclassmen eight.

The last quarter was also a defensive battle. The seniors rushed their final total to 43 with 10 points while the opponents made 6 for a final total of 23.

Vergon led the scoring by dropping in 10 points for the seniors. He was closely followed by Franks with 9 and Anderson with 8, all of whom are seniors. The seniors used just nine men and switched after each quarter so as to make the score somewhat respectable. The underclassmen might have given a better account of themselves except for the absence of two very reliable varsity performers in Watson and Snodgrass. "Doc" Miller guided the seniors while Jim-Stahl coached the underclassmen.

Church of the Brethren Ira E. Long, Minister Bible school at 10:00 Morning worship at 11. Sermon, "The Gospel of the Set Face." The evening service is recalled to give all who desire to do so an opportunity to attend the men's mass meeting of the conference to be held at Middlebury, Ind. The speaker at this meeting will be Elder Charles D. Bousack of Elgin, Ill. Rev Bousack has been for many years, secretary of the General Mission Board and has traveled widely in Africa, Sweden, China and India in the interest of the mission activity of the church. The Golden Text (James 5 15) is: "The prayer of faith shall save the sick, and the Lord shall raise him up; and if he have committed sins, they shall be forgiven him."

Among the Bible citations of this passage (Psalm 121-4). "Behold, he that keepeth Israel shall neither slumber nor sleep"

Correlative passages to be read from a Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p 261): "Hold thought steadfastly to the enduring, the good, and the true, and you will bring these into your experience proportionally to their occupancy of your thoughts."

George Riley Graduated Mr. and Mrs. H. W. Riley and C. A. Langer went to Chicago Friday to attend the graduation of the former's son, George Riley, from Great Lakes Naval Training Station. Young Riley is now living in the "outgoing unit" barracks at the training station, awaiting transfer to a trade school. He has been awarded a four-month training course in a Yeoman Trade School. He received a 32-hour leave of absence Saturday and Sunday to visit his home in Buchanan.

Naval Station Offers Hints For Eye Improvement A compilation of reports from the Benton Harbor Navy recruiting substation, giving causes of rejections of applicants, shows that defective vision by far outranks other causes. The minimum vision requirements for navy or naval reserve enlistment are 15/20, or 3/4 of normal vision. Glasses are permissible, but this vision test must be passed by each eye, individually and unaided. One reason for strict adherence to these requirements is the difficulty of obtaining replacement of broken glasses aboard ship.

The following suggestions for exercises are offered, and copies may be obtained without obligation by mail request or by calling at the Benton Harbor navy recruiting station. This station will also be glad to check prospective applicants or to recheck those previously rejected. The suggestions follow:

The trouble with persons having poor vision is that 80% of them have not properly exercised their eyes, therefore some of the muscles and nerves of the eyes have lain dormant, thereby weakening the vision. Following is a simple and effective method that has proven itself:

Place a disc of colored paper on a wall, about the size of a silver dollar, using it as a focal point. Without moving the head, turn the eyes sidewise, up and down, and

With The Boys In Service Robert Russell Writes April 4, 1942 8 40 P M Mountain War Time

Dear Mr Hawes, Just a short note to you and an open letter to the "old home town"

I have been shipped from Jefferson Barracks, Mo., (near St. Louis) to Lowry Field, Denver, Colorado. I was at Jefferson Barracks twelve weeks and am now going to start in photography school Monday at 7 30 a. m.—4:30 p m.

I am well and am having a fine time. Army life really isn't too bad. Mother sends me the Record so I keep posted on local happenings. Especially the column "With The Boys In Service"—which, by the way, this is the first time I have been mentioned since I left Dec 27th.

I certainly wish everyone could have the opportunity to see the Rocky Mts as I saw them this morning. The experience was thrilling beyond words.

My sincere wish that everyone had a fine Easter and is in good health. Respectfully yours, Pvt. Robert S. Russell, Jr 21st School Squadron Bld 527—Lowry Field Denver Colorado P S—Notice the Scotch in me has already taken advantage of the free postal-service offered the armed forces.

diagonally from the disc as far as possible. Do this for 15 minutes in the morning and the same at night. After this, use a large size sewing thimble and close first one eye, then the other, and work the thimble around in the eye for five minutes. Do this to each eye. Before going to bed each night, use a solution of boric acid and lukewarm water to bathe the eyes. Use an eye-cup if possible. During the period of these exercises do not attend movies and do not wear glasses or look at bright lights. Drink carrot juice at least once a day. While outside look around as much as possible without turning the head that is, roll the eyes around in all directions. Do these exercises for two weeks, then report back. Follow all directions without turning the head—follow with eyes only as far as possible.

Air Raid Warden Schools To Be Held Throughout State Schools for air raid wardens will start April 13 and continue through April 17 in the seven districts of the Michigan Citizens' Defense Corps, it was announced by Lt Col Harold A Furlong, administrator, Michigan Council of Defense.

Teachers of the schools will be graduates of the Air Raid Warden Instructors School at Michigan State College under the direction of the American Legion and the Council of Defense Equipment will be provided jointly by the Legion and the MCD.

Graduates of the district schools will, in turn, conduct schools in localities in which there are Citizens' Defense Corps units, starting April 20. Local schools will meet three evenings each week for three hours each night, with the curriculum covering the prescribed 28-hour training course for air-raid wardens.

More than 1,000 instructors will be in the field by May 1, each training groups of an-raid wardens.

Called Preventative Of Lead Poisoning Results of recent research in the prevention of lead poisoning indicate the importance of consuming adequate quantities of milk, according to the editorial in a recent issue of the Journal of the American Medical Association. "The deposition of lead in the bones appears to take place in inverse ratio to that of calcium," states the article.

"This," declares Milton Hult, president of the National Dairy Council, "makes clear the reason why some industrialists have found it is important to protect their workers by encouraging them to drink milk." Adequate quantities of milk and its products are the most reliable sources of calcium in the diet. Many industrialists, recognizing this fact, urge the regular use of milk at meal time and during their morning and afternoon rest periods.

Lead poisoning is considered one of the chief hazards to the health of industrial workers. In plants where lead is used, even the dust is found to contain quantities of this metal. In mines and smelting plants, in the manufacture of paint pigments, storage batteries, tetraethyl lead for motor fuels, and spray materials to be used on fruits and vegetables, small amounts of lead are swallowed from time to time by the workers and accumulate in the body until lead poisoning may occur.

It is especially important just now for every employee in industry to produce at maximum efficiency. Adequate quantities of milk and its products will help prevent time loss due to illness of workers and to increase the speed and efficiency of industrial output.

HOLLYWOOD

Badlands of The Dakotas

The burning of Deadwood, S. D., the robbery of the famous Deadwood Stage, most held-up vehicle in the world, the charge of General Custer's famous Seventh Cavalry, the killing of Wild Bill Hickok by "Buffalo" McCall and the discovery of gold in the Black Hills country of Dakota are a few of the highlights of Universal's "Badlands of Dakota" coming to the Hollywood theatre Friday and Saturday, April 10-11.

The picture presents Robert Stack and Ann Rutherford as stars with Richard Dix, Frances Farmer, Brod Crawford, Hugh Herbert, Andy Devine, Lon Chaney, Jr., and Fuzzy Knight, in supporting roles. It presents a story of Deadwood when it was America's wildest frontier town, just after its founding, in 1876.

Frances Farmer is seen as Calamity Jane Richard Dix is Wild Bill Hickok.

Tattoo Trouble

One of the most amusing scenes depicted in "Three Cookeyed Sailors," which United Artists is releasing to be shown on the Hollywood screen Friday and Saturday, April 10-11, takes place when hero Tommy Trinder is ordered to strip aboard a German pocket-battleship and realizes that he has the figure of Nelson tattooed on his chest. While the doctor's attention is diverted one of his pals with very deft strokes is able to turn it into a portrait of Hitler. Unfortunately, the Union Jack is flying proudly on his back!

Sergeant in "The Bugle Sounds"

Wallace Beery is definitely in his own territory as a tough top sergeant with a heart of gold, in Metro-Goldwyn-Mayer's "The Bugle Sounds," story of the new mechanized army, which will be shown at the Hollywood theatre Sunday, Monday and Tuesday, April 12-13-14.

The action is strictly authentic, approved by the war department, which permitted two camera crews to accompany regular army troops on maneuvers at Fort Knox, Ky., and Fort Lewis, Wash., respectively. Beery journeyed to Fort Ord for actual scenes with the tank corps. Accordingly, when an avalanche of roaring tanks career across the screen, it is the real thing.

The story presents Beery as a first sergeant of cavalry with a record of 29 years in the service. He's a slave-driver and a martinet, but his men worship him and he is a comfort to his superior officers. Beery swaggers through the role with such realistic effect that several enlisted men in the audience ducked involuntarily when he belted Okefenokee Swamp.

Location of 'Swamp Water'

Awesome Okefenokee Swamp of Georgia, dread and mysterious, is now the locale of a fine motion picture "Swamp Water," the film slated to appear at the Hollywood Wednesday and Thursday, April 15-16, is the strange and unusual story about the amazing people who live near the wilderness that is Okefenokee.

Many are the legends about the swamp. Few who entered it ever lived to return to civilization to tell of their experiences. Most of the missing were "gator-ets," for Okefenokee has some of the most vicious alligators on this continent. But its forbidding appearance, the awe in which it is held by the natives made it ideal as a hiding place for criminals. Hunted killers made this their home. There they hid from the law until they could make good their mistake—or until the alligators or deadly cotton-mouth snakes got them.

WPA Trucks Will Visit Michigan Farms To Collect Iron

Every farm in Michigan will be visited by WPA trucks to collect scrap metal and rubber for war plants, Kenneth M. Burns, chairman of the Salvage for Victory Committee of the Michigan Council of Defense, announced.

The campaign to comb farms of all available salvage material will be conducted jointly by Abner E. Larned, state WPA director; Maurice A. Doan, state chairman of Department of Agriculture War Boards, and the State Salvage Committee.

Farmers may either sell the scrap or donate it to the nation's war effort. If it is to be sold, the scrap will be weighed when it is collected and a check sent to the farmer later. WPA collection trucks will work under the direction of the farm war boards and local salvage committee.

The drive is expected to yield an average of 500 pounds of metal scrap from each farm.

Proclamation For 4-H Mobilization Week

The young people of rural Michigan, through the National 4-H Club Victory Program, have been called upon to help directly in winning the war. Already Michigan has 55,000 boys and girls in 4-H work, under the direction of 7,500 volunteer local leaders covering every county in the state.

The record and program of our state 4-H clubs is a proud one. We have the sound supervision of our Michigan State college extension service, and the full cooperation of our county governments, working through the county agricultural agents, and all functioning under the United States Department of Agriculture.

The 4-H Victory Program has as its goals the re-enrolling of all former 4-H members into productive farm enterprises; the enlisting of more volunteer adult local leaders; the enrolling of more young people; the help of these young people in meeting the labor shortage on Michigan farms, the victory garden program. Cooperation with the Red Cross, the fire prevention patrol, the sale of Defense Bonds and Stamps, the Farm Machinery Repair Program, the salvage of wastepaper, scrap iron and other critical materials, and all other war projects as may become necessary during the national emergency, likewise are part of the job you are helping to put across.

The primary need, in expanding the 4-H program, is for more local adult volunteer leaders. Our young people need such leadership to help them organize local 4-H clubs and carry on the vital work of the program. Every rural community of Michigan should see to it that such local adult leadership is provided. The county agricultural agent, or the district 4-H club agent, will assist in setting up the local organization.

Since the 4-H movement was established by congress in 1914, millions of America's rural youths have learned under this program the fundamentals of useful citizenship and sound farming. Today, as agriculture faces the greatest war production challenge in American history, the need for immediate expansion of the 4-H program makes this mobilization the most important assignment ever offered our farm boys and girls.

I hereby proclaim the week of April 5 to April 11, 1942, as Michigan 4-H Club Mobilization Week, and I call on every rural community of our state to organize or expand the 4-H program of its locality, as a highly patriotic and urgently necessary war undertaking.

Given under my hand and the Great Seal of the State of Michigan, this twenty-fourth day of March, in the year of our Lord, One Thousand Nine Hundred Forty-Two and of the Commonwealth, the One Hundred Sixth.

MURRAY D. VAN WAGONER Governor

Victory Gardens

(By George Tomlinson, Director, Michigan Victory Garden Program)

If you wish to get a jump on the weather and have vegetables two or three weeks ahead of your neighbors, now is the time for advance indoor planting of tomatoes, cabbages, cauliflower, peppers and eggplant, for later transplanting outdoors.

Any wooden box which is shallow and wide can be used as a flat bed to start seeds. Put an inch of gravel or cinders in the bottom for drainage and fill to the top with good soil. Plant seeds eight to 10 to an inch and in rows two inches apart. Set the box where the light will hit it and keep the soil damp. Inside a few days your plants will be well sprouted.

When the plants are an inch high, thin out by transplanting them to other seed boxes, spacing the plants two inches apart, to insure having good, strong roots.

Before the final transplanting to the garden outdoors, set the box, itself in mild weather so that the plants can be toughened up. Each plant should then be watered, and transplanted with a ball of dirt sticking to the roots. Don't shake the dirt away from the roots. Make a hole larger than is needed to hold the roots and a little deeper than the roots grow. Then pack the soil firmly around the plant.

You'll find transplanted plants cannot stand strong sun at first, and so it is far best to do your transplanting on cloudy days or late in the afternoon.

Don't plow up your lawn for a Victory Garden if a fertile plot is not available adjacent to your home. There is an abundance of fertile soil in favorable locations in practically every community which can be used for community gardens. If you do not have any garden space on your own property, why not use the community facilities and not try to use sandy plots, or the front lawns?

Many folks try to grow gardens in a spot where grass never would grow. A vacant spot on the lawn is a grand space for a Victory Garden. But they're going to be mighty surprised when they find no turnip seeds or radishes or whatever they plant there won't come up. Plants need food, just like anything else. If grass won't grow on some spot in your soil it usually means the soil is very acid, or something is the matter with it. Use a little care in selecting the site for your Victory Garden and you'll get far better results.

Two Are Awarded National Honors For Scouting Work

Over six hundred persons witnessed Tuesday night the presentation of the highest national award in Scouting to Alden Bierman of Benton Harbor and Fred Strong of Cassopolis. The annual banquet sponsored by the Boy Scout Council, which was held in the Congregational church in Benton Harbor Tuesday night, was one of the most outstanding social events in this part of the state and was a fitting setting for the presentation of these awards.

Mr. Bierman has been associated with Scouting for twelve years. Much of this time has been given to the operation of a most successful Scout troop and to a successful career as a district commissioner. Mr. Bierman is an Eagle Scout and has also been awarded the Scoutmaster's key. He has continued one of the most successful Scout troops in the history of the council.

Fred Strong, superintendent of schools in Cassopolis, has been connected with Scouting since 1928. He too was a very successful Scoutmaster and has majored a great deal in Cubbing, the younger Boy Scouts' program. He has been the council's chairman of leadership training for many years and through his effort the council has enjoyed a very high rating in this type of work. Mr. Strong is also interested in other young people's organizations as well.

George Horst, personnel director of the Kawneer Company, was chosen by the council to make the presentation of these awards in

benefit of the national council.

Dr. William Mathew Lewis, president of Lafayette college, Easton, Pennsylvania, who was the speaker, is an orator of national importance and in great demand throughout the country. His extensive travels through Europe and the many books which he has written make him a familiar figure throughout the United States. He is also the director of the selective service of Pennsylvania at the present time and is connected with many educational societies throughout the country. He is a personal friend of Louis C. Upton, president of the local council.

The very striking tableaux which were presented by troops 1, 3 and 10 of Benton Harbor added color to the event and the foundations of Scouting as represented by the Oath, Law, Cub Promise and Sea Scout Promise were presented in a special setting by boys in the council.

The very outstanding music presented by Tony Donadio, Notre Dame tenor soloist, and his instructor, Daniel H. Peddie, head of the music department of Notre Dame, made the program complete.

Physical requirements for enlistment in the U. S. Navy have been relaxed for men with construction experience, now greatly needed for building new naval bases.

This was announced today by Lieut. Elyon E. Flechtner, Navy recruiting officer, in pointing out that the Navy will give petty officer ratings to qualified men immediately upon their enlistment in construction regiments.

Petty officers receive high pay and other benefits—and, if rated Second Class or higher, get additional pay allowances for dependents. Lieut. Flechtner explained that physical requirements in

construction regiments are considerably less strict than for other branches of the Navy or Naval Reserve.

Among the trades and occupations needed in the Navy construction corps are:

Baker, cook, steward, carpenter, concrete worker, diver, driller, deckhand, electrician, excavator, crane and engine men, launchman, mechanic, quarry man, metal smith, oiler, shovel operator, painter, pipefitter, powderman, rigger, steel worker, telephone man, tractor operator, welder, wharf builder, pile-driver, draftsman, stadiaman and transit and level man.

Lieutenant Flechtner advised men interested in the construction corps to check at their nearest Navy recruiting station. A visit to a recruiting station does not obligate a man to enlist, he said. The Navy recruiting station in this area is located at Benton Harbor.

Iron Production Is on Increase in Upper Peninsula

With the first Michigan iron ore of the season delivered in Cleveland 12 days earlier than lake shipments ever were begun before, Michigan's 40 active iron mines have excellent prospects of exceeding their 1941 shipments of 15,201,321 tons, according to G. E.

Eddy, mining appraiser of the conservation department's geology division.

The Michigan mines—10 on the Gogebic range, 14 on the Marquette range, and 16 on the Menominee range—worked at near capacity for defense industry in 1941 to produce 14,591,643 tons of ore, some 600,000 less tons than were shipped, Eddy reports. Even so, stockpiles in upper Michigan held more than 2,000,000 tons on the first day of 1942.

Under pressure of war demands, Michigan iron ore production is expected to increase this season, but the all-time record of 18,812,1

072 tons shipped, set in 1916 when 55 mines were operating, may not be approached until later, when new shafts now being sunk begin producing.

From the entire Lake Superior iron mining district which last year sent more than 80,000,000 tons to lower lake ports, shipments this season are confidently expected to furnish the nation's wartime steel program with more than 90,000,000 tons of ore.

# WHY SOME TELEPHONE INSTALLATIONS MUST BE LIMITED

If you find that certain telephone requests can no longer be met, the blame lies with the enemies of our country. To win this war, we must conserve every possible pound of vital materials. Critical shortages have caused the War Production Board to issue an order strictly limiting the use of those scarce materials by the telephone companies in expanding telephone service. The War Production Board estimates that this conservation program will save annually about 35,500 tons of lead, 29,000 tons of iron and steel, 29,500 tons of copper, and large amounts of zinc, crude rubber, magnesium and other strategic materials.

## HOW THE ORDER MAY AFFECT YOU

1. PARTY LINES, only, can be installed in many cases.
2. EXTENSION TELEPHONES cannot be installed in residences except where needed by those responsible for public health, welfare or security.
3. TELEPHONES of wall or desk (upright) types cannot be changed to hand sets.
4. MANUAL TELEPHONE SWITCHBOARDS may not be changed to dial except where the work is well advanced.

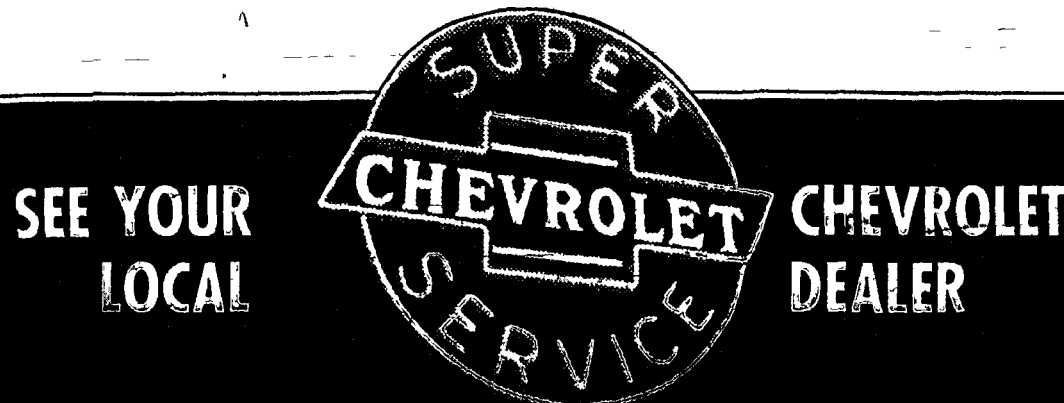

The steps taken do not mean that the basic quality of your telephone service will be curtailed. They simply remove some of the de luxe trimmings. We shall continue to provide the best service possible, and we look forward to the day when we can meet all requests as in the past. Now, and for the duration, war needs come first.
