

Now Here's the Proposition

WORKSHOP GUEST
Here where machine lines hum the whole day long
Their combined mechanic symphonies of song,
Lo, an unbidden witness at the door,
Standing wide-eyed upon enchantment's shore,
Frightened but eager, hesitant yet bold
Stands with bowed legs, stanch the three-year-old,
His manhood hard upon him as he leans
To catch the captivous chant of the machine
No ice cream cones nor candy bars not toys
Have like allurement for all little boys
His soul is in his hands, until that hour
He takes the throttle of that harassed power
Deaf to all calls, contemptuous of play
He lingers there enrapt till dragged away,
Impatient till the hour, imagined dawn,
He masters it as it will master him
And so the ancient truth now holds again—
Men are but boys, and little boys are men

A CHANCE TO QUEUE UP

Listen, all who enjoy standing in long lines and queues. Here's a chance to get in a real queue.
Clerk Harry Post at the city hall has disposed of all previous registrations in the city, in preparation for conforming to the state law which requires "permanent" re-registration.
This new registration started May 1, and it ends Oct 16. Four months have gone by and only 600 out-of-a-possible-2,500 eligible voters in the city have complied.
The stage seems set for a last minute rush, for there is only a month and a half left, with three-quarters of the electorate to register, and no appreciable quickening of the rate.
Chances seem to be there will be a lot of fun at the city hall when the last 2,500 register during the last week. Why don't you just wait and get in it?

JOYS OF WILKINSON

JOHNMAN in Wilkinton, Pa., has just enlisted in the Army and requested foreign service. He is 33 years old and has been driving a truck at \$40 a week. Being the father of nine children, as a private in the Army he will get \$293 a month, including base pay of \$75 and family allowance of \$218. If he gets foreign service, that will be \$15 a month more. With his experience at home, too, he ought to qualify in big time as a top sergeant. We can imagine, perhaps unjustly, that a man with nine children might find a minor war a change in the direction of peace and quiet. —Memphis Commercial Appeal

Farmers Galien Dist. May Apply For Soil Service

Conservation Service Open To Owners—Over 3 Acres—Of Land

Applications for soil conservation work in the Galien river soil conservation district are now available, says Russell File, chairman of the district board of directors. Land owners, and land occupiers of three or more acres of land in the Galien river district may now apply for soil conservation service by securing application blanks from one of the following places: St. Joseph River Soil Conservation office, 131 Michigan St., Benton Harbor; directors of the Galien river soil conservation district, including Russell File, R. 4, Niles; Leo Anderson, R. 3, Niles; Clarence Wirth, Three Oaks; Paul Smith, Galien; and Edward Jelmeck, New Buffalo. Application may also be secured from the County Agricultural Agent's office, 860 East Main St., Benton Harbor.

Applications should be completely filled out, answering all questions, and blanks should be returned to one of the parties listed above.

Galien River Soil Conservation District directors will appreciate receiving these applications as early as possible, as they are preparing their work program and will consider all applications which are presented at their next regular meeting, Sept. 9.

Mr. and Mrs. William Cronin are parents of an 8½-pound son, born Thursday morning in the Boyce Maternity home.

Mrs. Onofrio Morelli and daughters, Carol and Beverley, returned Tuesday from Fine Lake, near Battle Creek, where they spent several days with the former's sister, Mrs. Raymond Ahndt, and family.

Contract Price On Park Grading Set At \$14,300

Start Stock-Piling Top Dirt; To Respread After Grading

The Niles Excavating company began work Wednesday of last week on a contract to excavate for and later cover up the 1,100-foot sewer line and to grade the playing fields and do preliminary excavation for the installation of the football stadium.

The contract specifies \$14,300 on a unit basis of \$1 per yard for dirt moved. The park committee states that this is on the basis of engineers' estimates for the amount of dirt to be moved, which were purposely set high. It is believed that the actual contract cost will be under the \$14,300 figure.

Considerable expense was saved when John P. Russell consented to permit the site excavation to end at the edge of his land, stating that the water could be turned loose there to run where it would. The excavation for installation of the 15-inch storm sewer man was completed last week and the tile has been installed.

The Niles Excavating company now has a bulldozer tractor and a scoop at work taking off the top dirt in sections staked by the engineers and placing it in stockpiles. When all this has been taken off, the contractor will level the playing fields to grade specifications and then will redistribute the top surface wherever grass is to be sown.

Junior College Is To Be Opened At Benton Harbor

All Interested Asked To Contact Supt. Stark Immediately

A junior college is being opened this fall at Benton Harbor, according to a notice received by Sept. H. C. Stark from S. C. Mitchell, superintendent of schools at that city.

Supt. Elliott asked for a list of individuals from this locality who might be interested in attending. He stated that college entrance requirements were to be maintained for those who intended to go on to higher institutions of learning. For others, he said, the initial requirements will be somewhat less rigid.

Anyone from the Buchanan district who is interested in taking their opening college years without paying distance of their homes should contact Mr. Stark at the high school immediately.

Fannie L. Devon Taken by Death At Age 88 Yrs.

Rites Held in Girlhood Home, Now the Swem Funeral Home

On Saturday, Aug. 17, there was held at the Swem Funeral Home a funeral rite, that came there for an unusual reason.

It was that of Fannie Devon, who died at her home at 1222 Woodward avenue, South Bend, on Aug. 14. By an oversight the story of her death was not printed in the Record of last week, and now as a partial amends will elaborate a little on the funeral which was held where it was, and on her early connection in Buchanan.

Fannie Devon had made a request that her last rites be held in the Swem Funeral Home because in it she had enjoyed many happy and exciting days in youth, while she lived with her widowed mother in the same building, then the home of her uncle, Capt. George N. Richards and a sextette of daughters, noted for their beauty and social charm during the late seventies.

For a period of about two years, Fannie Devon and her mother were inmates of the Richards household. Fannie had been born at Marietta, O., Feb. 22, 1858, the daughter of Nathan and Margaret Fawcett. Mrs. Fawcett was the sister of Mr. George N. Richards.

Capt. George N. Richards was one of several who founded the Zinc Coal Pad company in 1870. He soon was the dominating figure in this company, which remained in production over 55 years. At the period during which Fannie Fawcett Devon lived in the home Capt. Richards had become the dominating figure in the company, which had by that time gained a national market for its product, a horse collar pad. He had become an affluent man and his property was reflected in the generous hospitality of his home. Mrs. Devon lived in the village there came the beaux and the belles of the town, all young and gay. This was in the years before Fannie married David S. Devon at Marietta, O., on Feb. 12, 1880.

When the writer wrote the story of the house after it had become the Swem Funeral Home, in the spring and summer of 1941, he went to the home of Mrs. Devon in South Bend, as the only living person who had been a member of the young group. He found her a delightful aid, with a keen memory for detail and incident, and it was owing to her and that the story ran into ten chapters of reminiscence. The sum of her words was an unforgettable picture of social and domestic life of those days, from 1875 to 1880, which the writer put on paper to the best of his ability.

Here a review of those tales makes a correction necessary. There is one living person who was a regular member of the social group that lived in the home in the person of Rollo Black, 813 Barton avenue, Chattanooga, Tenn. Mr. Black is 87 years of age.

According to Mrs. W. R. Tuttle of 111 Moccasin avenue, Mrs. Devon and her husband and children lived for several years during her early married life in the home now occupied by Raymond Gregory at 312 West Front street. She lived in South Bend during the last 30 years of her life. Survivors are the daughter who lived with her, Esther L. Devon, another, Mrs. A. Earl Gardner of Mishawaka, and a son, Frank S. Devon of Chicago. She was a member of the First Presbyterian church of South Bend. Rev. Ralph L. Redman of that church preached the funeral sermon, and burial was made in Oak Ridge cemetery.

Lozara Breckon Called By Death

Native Galien; Resident Of Buchanan During Her Youth

Mrs. Lozara Breckon, 65, a native of Galien and a former resident of Buchanan, died at her home in Mishawaka, Ind., on August 19.

She was born in Galien, Mich., Sept. 20, 1882, the daughter of Mr. and Mrs. William Batten. She lived for a number of years with her parents on Dewey avenue, Buchanan. She married Robert Francis Breckon on Jan. 5, 1901, and they left Buchanan that year.

She is survived by her husband, by a daughter, Mrs. Delbert Matison of Hannibal, Mo., by one granddaughter, by one great granddaughter, by a sister, Mrs. Thurman Reinholdt of Mishawaka; by a brother, Jobe Batten of Niles. She was a sister of the late Mrs. Charles Feisener.

Cousins living in Buchanan are Hazel Widing and Lester and Ray Batten, also a number of nieces and nephews, who attended the funeral services. The funeral was held at the Bubb Funeral Home at Mishawaka, Ind., with Rev. A. V. Hayes of the First Christian church of Mishawaka in charge. Burial was made in the St. Joseph Memorial cemetery, Mishawaka.

Fred Carbon Buys R. Hague Farm On Range Line Road

Fred Carbon, the pancake flour king of Buchanan, is also a local "peach king", by virtue of his recent purchase of a 40-acre farm almost entirely set on peaches, and located on the Range Line Road, 3¼ miles north of Buchanan, opposite the Calvin Bachman farm. The farm is known to older residents as the Montgomery place, but was bought by Carbon from Ralph Hague. The place borders the Tenney-Boydston home on the north, and has a river frontage on the west. The place contains farm buildings and the Carbon family now make their home there.

Buchanan Has 1.13 Inches Rain During 2 Months

Peach Harvest Two Weeks Ahead On Account Of Drouth

Following a July with only 0.6 inches of rainfall, the Buchanan district remains strictly in the aid area to date with only 1.07 inches during the whole of August, up to noon Wednesday.

The normal for August is 2.37 inches. The drier relief for this month has been the ameliorating of the excessive heat of July to under-normal coolness. However, this coolness has not prevented a rapid rush in ripening of peaches, to the extent that some growers report they are not able to pick their crop in time. In some orchards the harvest of the two latest varieties, Elberta and Hale Havens, is already under way, two weeks earlier than normal.

The Early Moore grapes on the Mathie-Bowes acreage on Terre Coupe are now ripe, about two weeks in advance of normal season.

Farmers who had intended to reseed hay fields in late August have delayed by reason of soil conditions. The seed should be in no later than in early September.

Exhibit Riding Feature Sept. 14 Rural Youth Fair

Bowling Alleys To Open Sept. 1

Many Improvements Made By Manager Proud

The Buchanan Bowling Alleys, owned by Pooman Brothers, will open Sunday, Sept. 1, for the 1946-47 season with regular league play scheduled to open Sept. 15.

The alleys will be managed during the coming year by Eldon (Bud) Proud, who has been working several weeks to get them into condition. They are being renovated and improved throughout. The Brunswick firm, manufacturers of bowling equipment, are now completing resurfacing of the alleys, which will be in excellent condition. Among other improvements, are automatic pin-setters. These do not preclude the use of pin boys who will still be in the pits to pick up the balls. They will place them in the automatic pinsetter, after which they pull a lever and the pin-setter accurately places the pins. There will also be a soda fountain and sandwich grill.

Manager Proud states that there will be two Buchanan leagues, one from the city and one from the Clark Equipment company, and possibly others.

Berrien County Sportsmen Plan To Resume Picnic

First Picnic Since '41 Planned At Park On Sept. 15

The Berrien County Sportsmen's Association will hold the first of the former annual picnics since 1941 at Sportsmen's park on the west bank of the St. Joseph, two miles north of Berrien Springs, on Sept. 15.

This park comprises a former farm of 85 acres, bought by the Berrien County Sportsmen's Association in 1941. Their development plans were held up by the war, and since by the difficulties of building, so that it has not been developed to any extent. However a 22 acre range has been completed, according to the specifications of the National Rifle Association with which the club is affiliated. The set-up includes a 200-yard, 100-yard and 50-yard range, with 100 targets. Rifle shooting contests will be a feature of the meet.

The area has 54 springs on the bank of the river. The plans include ultimate construction of a clubhouse, two large fish ponds, a skeet range, trap-shooting range and ball diamonds.

Final contestants in the softball play-off of the city league were determined Tuesday evening when Donley's defeated Co-ops 14-1 to win second place. Charles Dickow, Jr. pitched a no-hit game for Donley's. The High Grade team had already clinched first place.

The play-off will be held on Tuesday, Wednesday and Friday of next week, starting at 7:30 p. m.

Mrs. T. D. Childs was a guest over the week-end at the home of her son, Atty Theron D. Childs, Jr., of Three Oaks.

Miss Cleo Robinson returned to her home in Columbia, Mo., after visiting relatives in Buchanan and Galien for two weeks.

F. F. A. Dist. Camp Period Is Held At Camp Madron

Official Farming Student From Arabia Is Center Of Interest

Three members of the Buchanan high school chapter of the Future Farmers of America, Ralph Swartz, Richard Hushower, and Howard Stekman, and the Buchanan high school agricultural instructor, Ellis May, spent several interesting days last week at Camp Madron, where F. F. A. members from several outstanding Michigan high schools held a camping period.

The center of interest was Hanna A. Khowi, who came from Trans-Jordan, Arabia, to study agriculture in the United States. He was sent by his government to study at Cornell University, Ithaca, N. Y. Before entering Cornell he has been in Michigan for a study of activities of Future Farmers of America. He came to Camp Madron Sunday before, along with Luke Kelly, state executive secretary of the Future Farmers of America Association of Michigan.

Secretary Kelly appeared on the program several times, speaking on various phases of F. F. A. work, also relating interesting experiences in the North woods.

Rev. Pohly of the Buchanan First Methodist church conducted religious services at the camp Sunday evening. On Monday evening C. J. Tinker from the educational division of the Michigan Department of Conservation conducted a quiz program on state conservation activities. On the program Tuesday evening was R. Morris, vice president of the Southwestern Michigan F. F. A., who told how he achieved the honor of State Farmer.

Other members of the staff were L. R. Stanley of Benton Harbor, camp advisor; Glenn Cowles of South Haven, water front director; Hugh Camp of Benton Harbor, R. D. Simmons of Benton Harbor, Ed Rupp of New Troy, R. O. Beatty of Cassopolis, and Ellis May of Buchanan, camp counselors; Kenneth Blake, camp ranger; Miss Sarah Arant and daughter, Mildred, and son, Arthur, in charge of the camp menu.

The following camp officers were elected: Louis Nimith of Cassopolis, president; Bob Bonnie of Cassopolis, secretary; Roger Overuser of South Haven, treasurer; Jack Gidley of Benton Harbor, reporter; Millard Fox of Benton Harbor, vice president. Schools represented were Benton Harbor, L. R. Stanley, instructor; Cassopolis, R. O. Beatty, instructor; Mattawan, R. D. Simmons, instructor; New Troy, Ed Rupp, instructor; Buchanan, Ellis May, instructor; South Haven, Glenn Cowles, instructor.

There was a varied group of entertainment activities, including swimming, sailing, life saving, training committee, charmen, practice in parliamentary procedure, moving pictures, softball, and conservation field trips to points of interest. The tips took them to the museum of pioneer antiquities at Three Oaks, to the Warren Woods, and to the Swift farm at Lakeside. They inspected the purebred Jersey herd, the bird sanctuary and the rabbitry there. The camp period ended with a water carnival and life-saving demonstration.

40 Attend Reunion Of Stelter Family

Their development plans were held up by the war, and since by the difficulties of building, so that it has not been developed to any extent. However a 22 acre range has been completed, according to the specifications of the National Rifle Association with which the club is affiliated. The set-up includes a 200-yard, 100-yard and 50-yard range, with 100 targets. Rifle shooting contests will be a feature of the meet.

The area has 54 springs on the bank of the river. The plans include ultimate construction of a clubhouse, two large fish ponds, a skeet range, trap-shooting range and ball diamonds.

Final contestants in the softball play-off of the city league were determined Tuesday evening when Donley's defeated Co-ops 14-1 to win second place. Charles Dickow, Jr. pitched a no-hit game for Donley's. The High Grade team had already clinched first place.

The play-off will be held on Tuesday, Wednesday and Friday of next week, starting at 7:30 p. m.

State Game Rules To Conform With US Regulations

State Unwillingly Closes Season on Canada Wild Geese

Michigan's conservation commission, meeting at Higgins Lake, brought the state's waterfowl hunting regulations into conformity with federal rules, but not without strong protests to both President Truman and Secretary of Interior I. Tamm. Krug, vice-commissioner's disagreement with closing the season on Canada geese.

(Canada geese are the mainstay of Michigan goose hunting. Federal action protects them this season in the Mississippi flyway of which Michigan is a part.)

Commissioners expressed extreme disapproval of the fact that Michigan was not consulted in the formulation of waterfowl regulations. Commissioner Donald B. McLouth said the official protest is in the nature of a warning that next year, if Michigan is not consulted, there is a probability that the Michigan commission will not concur in U. S. Fish and Wildlife service recommendations.

P. H. "Dahlika, president of Michigan United Conservation Clubs, declared the MUCC is in full accord with the commission protest, and hopes a request will be made of the Fish and Wildlife Service for more detailed information on how it arrived at its "no shooting" decision.

The waterfowl shooting season has been cut from 80 to 45 days and will run this fall from October 5 to November 15. The bag limit is set from 10 to 7 a day, including one wood duck, and the possession limit is 14, including one wood duck. The shooting day is a half hour shorter from a half hour before sunrise to a half hour before sunset.

Woodcock season will be the same as it was a year ago; October 1-15 in the upper peninsula, October 15-29 in the lower peninsula, with a daily bag limit of four and a possession limit of eight.

Pheasant shooting will not start until 10 a. m. on the first two days of the season, but otherwise pheasant hunting regulations are unchanged. The season will be October 15-November 5, with bag limits of two a day, four in possession, and eight in a season. After the first two days, hunters may begin shooting at 7 a. m. eastern standard time.

Ruffed grouse (partridge) season also is unchanged at October 1-20 in the upper peninsula and October 15-November 5 in the lower peninsula, but the bag limit, which last year was five a day, 10 in possession and 25 in season has been cut to three a day, six in possession and 15 for the season.

The entire lower peninsula and the western end of the upper peninsula have been closed to hunting for prairie chickens and sharp-tailed grouse, leaving open only Chippewa, Luce, Mackinac, Schoolcraft, Alger, Delta, and Marquette counties and the parts of Dickinson and Menominee counties north of highway M-69. The season is October 1-20, the bag limit, for the two species combined, is three a day, six in possession, 15 for the season.

the opening of the September term will be announced later, and members of the jury panel notified by Court Official Charles Ficht when to report.

Among jurors drawn were: Buchanan - Donald Cox, Ben Metzger and Mrs. Velma E. Proud Buchanan township - Ruth Hess

Postwar Paints

In a survey of new products and services, the New York Journal of Commerce comments that bright colors, long wear and easy application are features of postwar paints, and that quick-drying has been developed without sacrifice of durability. Ease of application is stressed in anticipation of a prolonged shortage of skilled painters.

Pic Edward Stanage of Selfridge Field, Mt. Clemens, Mich., was a week-end guest of his parents, Mr. and Mrs. Rex Allen.

Mr. and Mrs. Harry Penwell and son, Danny, and daughter, Janet, were dinner guests Sunday of Mr. and Mrs. Gilbert Adams of New Carlisle, Ind.

Mr. and Mrs. Harry Penwell will be hosts to members of the Homebuilders Sunday school class of the Church of Christ at a picnic supper and party Friday evening.

No Need Postponing Purchase Silverware Because Of Prices

There will be no need of postponing that contemplated purchase of silverware because of price inflation.

The International Silver Company advises that they contemplate no price increases on their famous nationally-advertised brands in 1946.

They believe that fine silverware should be kept within reach of everyone, and in spite of mounting costs they have determined to keep prices down. Just for the record—that's our policy, too.

"How to save money on your electric bill"

Second in a Series by Phineas Q. Twitch, Eminent Economist

- 1 Throw away your electric clock and buy a sun-dial. Of course, it won't wake you up for work, but think of the fun you'll have trying to figure out what time it is—on sunny days, anyway. And you'll be saving about 5c every month! At that rate, you'll have the sun-dial almost paid for in only 41 years!
- 2 Donate your electric washer to an orphanage and start doing your wash by hand. In one month, you'll actually have saved 8c! At the end of a year, you'll have almost enough money to pay for a good strong washboard, which you'll be needing by then. The exercise will do you worlds of good, and keep you out of mischief for hours and hours at a time.
- 3 Turn off your radio during "The Electric Hour" on Sunday afternoon. Of course, you'll miss a wonderful program, but you'll save a sixth of a penny every time you do it. In a year, that's nearly 9c. And there's no music so pleasant as those coppers clinking in your pocket!

Watch for more of these practical money-saving suggestions by Dr. Twitch. He really knows his subject. We hope he'll help you realize how many jobs electricity does for you and how little it costs for each.

His Farm Fields Are Factories

U. S. FARMERS have made our fields into factories. We have but one set of problems for everybody.

We live better than people in other countries because our farmers get more out of the soil. If strikes, for instance, restrict the supply of farm implements and supplies through work stoppages, or make their cost prohibitive, America is out of gear.

The steel industry takes pride in the way it has helped bring about this improvement in farm practice. Tools of steel—from the plowshare to the giant combine—have multiplied in number and increased vastly in quality. Anything which tends in this direction is bad for the farmer—and finally for everybody. Farmers know it. Everybody else should know it.

Fifty years ago the typical farm in America used about 3 tons of steel. Today the figure is nearer 17 1/2 tons. Steel mills need all the scrap iron and steel they can get. The shortage is serious. Farmers can get extra dollars and help increase steel output by sending worn-out machinery, etc., on its way to the furnaces. AMERICAN IRON AND STEEL INSTITUTE, 350 Fifth Avenue, New York 1, N. Y.

The Institute has printed a booklet STEEL SERVES THE FARMER. Write for a copy and it will be sent gladly.

65 Juvenile Cases Reviewed By Court During Month August

The monthly report of Judge Malcolm Hatfield reveals that during August he heard the cases of 60 delinquent, 19 neglected and 6 dependent children. He and his court officers entered orders for 12 crippled and 3 afflicted youngsters and made it possible for 36 others to enter state hospitals.

Throughout the month nine consents of adoption were signed by parents before Judge Hatfield. The court then made seven adoptive home investigations and also confirmed five other adoptions where the children had been in the homes a year. Out of 15 prospective boarding homes investigated, five were rejected as unsuitable to receive a license to board children. Of the 40 delinquent children complained against, 8 were girls and 32 were boys.

As Clarence Judson Foster, assistant county agent, resigns on Sept. 1 to take a position in the Buchanan public schools, Judge Hatfield appointed August G. Pfehl of St. Joseph as successor. Mr. Pfehl donated four weeks of his time in order to be with Mr. Foster and county agent Durringer before assuming the responsibilities of his new position on Sept. 1. Throughout August the Probate Court closed 39 deceased and 18 guardianship estates and admitted 56 such new estates to probate. It also removed two executors, authorized the sterilization of a feeble-minded woman, committed 14 insane, 9 feeble-minded and 2 epileptic cases to state institutions, required three sons to care for their indigent mother, heard 37 contested trials, acted on 451 petitions, restored an insane adult to soundness of mind, placed three unrecorded births on record, performed two secret marriages and permitted an adult to change his name.

Tractor Pulling Contest Feature Cass County Fair

Jalopy, Doodle Bug, and Scooter Races in Sport Events

In keeping with the times, the Cass County Fair, which shows September 3 to 7, will feature many new events, among these the tractor pulling contests, never before held in Michigan. Three classes, light, medium, and heavy, will pull under rules of the tractor committee, headed by Lester Spencer. R. E. Bittner will assist in Snowmanship and skill plus enormous power in modern tractors will give fair goers something really interesting to witness.

money will be paid this year. \$6,000 For Entertainment Thrill shows, stage shows, revues and races will cost the fair association over \$6,000 this year. Secretary Harry Ibbotson reports the same shows which play at the larger fairs will present their best of shows at Cassopolis. Barnes and Carruthers of Chicago, will again present the Victory Revue. Over 50 people with 150 feet of stage scenery will appear before the stand. Last year's show was acclaimed by thousands as the finest ever shown.

The thrill show gave all the promised acts, such as running into a brick wall, jumping over a Greyhound bus lengthwise, and head-on collisions. For the finer types of entertainment the opening day presents "The Balakika Revue" which consists of high class singing and dancing and specialty acts.

Secretary Ibbotson reports the fair's financial condition is the best since its start in 1938 and hopes this year will make it debt-free.

Good-weather and heavy attendance will put us over the top. Mr. Ibbotson makes a special plea to everyone to attend, so that bigger and better things can be added in the future.

Extension Dept. to Give Meal-Planning Instruction Course

This fall the Extension Department is offering a course in the planning and serving of community meals. The course is planned to help various organizations throughout the county.

This service is available free of charge to two representatives from each of the various organizations of the county, including individual churches, Granges, Farm Bureau organizations, Parent-Teacher Associations, etc.

Instructions will be given by Mrs. Vivian MacFawn, nutritional specialist of Michigan State College. The first meeting will be held on Wednesday, September 18, at the Berrien Springs Methodist church, with registration at 10 a. m. and class periods starting at 10:15 and lasting until approximately 3 p. m.

This first meeting will be devoted to planning, marketing, and organization work. Those attending the meeting of September 18 should plan to bring a sack lunch, or be prepared to eat out, as no meal will be served at the church.

Our cupboards might be bare, too!

EVERY family knows there are dozens of things it needs and would like to get right away, but under present conditions they are just not to be had.

Well, we're facing exactly the same situation in the telephone business.

To keep our telephone household going, and to expand our plant and facilities to meet the great demand for telephone service, we need large supplies of lead, copper, textiles, steel, rubber, lumber, brass and many other basic materials.

In some cases we can get only a limited quantity. In fact, a great many of the materials vital to the production of telephone equipment are in short supply for one reason or another.

Even so, we're hopeful that most of the orders for telephone service received before January 1, 1946, can be filled by the end of the year. In some areas, of course, we expect to complete many orders received this year. But it may be late 1947 before we can return to a "ready-to-serve" basis everywhere.

You can depend on this—we're moving just as fast as existing conditions permit and, as supplies improve, we'll speed up the job.
