Clark's Reserves Hollywood Feb. 14-17 for War Films for Workers

Company Gives 10,000 Tickets To Employees

"Baptism of Fire," "Divide and Conquer" Released to Clark's by War Dept.

All workers of the Buchanan plant and members of their families will be afforded a most unusual educational opportunity in the presentation at the Hollywood theatre of restricted war films, owned by the U. S. War Department and released for showing here because of the advanced standing of the Clark Equipment company as a manufacturer of equipment which is very vitally essential to winning the war.

In all the two films, "Baptism of Fire" and "Divide and Conquer," will be presented 24 times, six presentations per day being shown on the afternoons and evenings of Monday, Tuesday, Wednesday and Thursday, Feb. 14-15-16-17. The show will be presented at 1, 2:30 and 4 p. m. each afternoon, each showing taking approximately 1 1/2 hours. There will be an hour's intermission and in the evenings the shows will be resumed on the following schedule 6:30, 8:00 and 9:30.

New Buffalo Cage Team Here Friday, Feb. 11

Maroons Lose to Dowagiac in Exciting Scrap 35-33

(By Doris Fuller) Buchanan will play New Buffalo for the first time this season in the local gymnasium Friday, Feb. 11, the reserve team beginning their game at 7 o'clock. A fast game is expected with New Buffalo as they have totaled up some high scores.

Buchanan's fighting Bucks lost to Dowagiac's team 35-33 here on Tuesday night before excited fans. Buchanan started out slow but gained pace when the Chiefs began their first scoring. Buchanan held a lead over Dowagiac 12-6 at the end of the first quarter.

In the second quarter Dowagiac made a constant gain tying Buchanan. Then reliable Jim Anderson broke the tie with a basket. At the end of the second quarter Buchanan led by 3 points, 18-15.

Sgt. Wm. McIntosh Tells a Little of Raid Experience

To talk with a veteran of the American Air Corps who has completed 25 bombing missions over Europe from Norway to Poland and over Germany and France, and who has won honors for conduct which secured national publicity is not an easy assignment, which is why it was hard to get a good interview out of Sgt. William (Babe) McIntosh, who recently left after a furlough at the home of his mother, Mrs. Mabel McIntosh.

McIntosh saw the hottest of the raids, including the two over Schweinfurt, where the Americans went once, failed to finish off the "target" and so went again, losing 60 bombers. That was hot but not the hottest, McIntosh said. The most thrilling was the bombing of the aluminum factory at Heriva, near Oslo, Norway. They went down low over the factory, literally leveling it in the midst of intense flak fire. It was for the fight over St. Nazaire, France, that he won the Distinguished Flying Cross.

Liberty Heights People Complain of Smoke, Smell

City Moves to Enforce Rules of City Ordinance of May 5, 1942

Because of continuous and large scale public violations of the ordinance adopted by the City of Buchanan containing regulations for proper removal and separation of garbage and refuse and for the operation and maintenance of the dumping grounds the people of Buchanan now face the necessity of more strict enforcement of building at some expense an incinerating plant for such disposal.

The matter came to a head at the regular meeting of the city commission Monday evening, at which time it was voted on a motion by Supervisor James Reed and Health Officer C. E. Sullivan of Buchanan township and City Health Officer G. W. Brown. The township officials stated that they came because of complaints by residents of the Liberty Heights section to the township that the city garbage dump, located on the former Fred Howe property across the M. C. R. R. tracks from the Dry-Zero plant had attained the status of a public nuisance. The people had complained that the dump is on fire and that when the wind is from the south large quantities of smoke and offensive odors are carried across Liberty Heights.

Inspection by city officials accompanied by the above mentioned township officials on Tuesday morning revealed that one of the dumps is undermined by fire and has collapsed several feet because of such undermining. The spread of the fire is doubtless due to the fact that paper and board boxes and other inflammable refuse has been mixed indiscriminately with the garbage in violation of the city ordinance. A large quantity of tin cans, pieces of scrap sheet iron utensils, etc., also been intermingled, protruding spaces underneath which clutter the spread of the flames.

SPEND, SUCKER, SPEND!

This article was written by Ralph de Castro for the Savings Banks of New York State to help the Government promote War Savings

The last war... remember? Silk shirts! Pink ones, green ones, blue ones with white stripes—millions of them. And silk stockings for the women—on legs that had never felt anything but cotton before. Wrist watches... rings... bracelets... hand-tailored suits... ten-dollar felt hats... better, larger, swifter apartments. Then it happened. 1918 and the Armistice. The war boom petered out. In factory after factory the wheels turned slower—then stopped. The cuffs on the silk shirts were stayed, and the colors faded... and the silk stockings were gone, and the rings and the watches were in pawn shops... and people moved back where they'd come from. But... "Don't let it get you down, Biff! You can't hold this country back. God's country! Don't sell America short—why, with our natural resources—and the way we work..." So we started on the second lap, on the same circular track. 1923-1929. Prosperity. Nothing ever like it before in the world. Stocks—up 50 points in a week—thousands, millions—billions of dollars of profits—on paper. Bootleggers... parties... automobiles... more silk shirts... new suits... radios, refrigerators, real estate, furniture, diamond rings, boats, shoes, hats... Then—1929 and crash again! "Sorry, Mr. Jones... more margin, or we'll have to sell you out... Dear Mr. Jones... unless you send us a check to cover two unpaid installments on your furniture... Dear Sir... in the hands of our attorneys unless... mortgages unpaid... worry... worry... sorry, Jones, better look around for a new job... no help wanted..." Remember? Bread lines... the Bonus Army... ex-soldiers selling apples on street corners... "brother, can you spare a dime?"... stocks going down—down—business failures... suicides... relief... N. R. A... W. P. A... C. C. C... and no jobs yet, and shoes run down at the heels. And the kids—undernourished—crying a lot—and "the lost generation..." How come? How did we get that way—again? Why did it happen here, when it couldn't happen here? Well, let's look back—let's see how it did happen. Bonds weren't good enough for us. Savings banks weren't exciting as brokers' offices. We were trying to compress our lives—to squeeze the juice of three score years and ten into a decade. We wanted for next to nothing the things our fathers had worked and sweated and saved for. My wife's clothes had to be better, snazzier—more expensive than your wife's—and her jewelry, too. You spend a thousand dollars for your car? So what? I'm spending thirteen hundred for mine. (On time) And say—looka my new radio! Twenty-two tubes, three loud speakers, record changer, home recorder and three short-wave bands! The old one? Oh, I traded it in when I bought the new one—and the new refrigerator, and the dining-room furniture—stuck, eh?—"moders," they call it. How much? What's the difference?—Twenty-four payments of eighty dollars instead of sixty-five! I'll never miss it...

Hold on a minute, brother... Did we "miss it" in the early "thirties?" Did we "miss it" when some fifteen million men walked the street—camped out—lived in huts and shacks and lean-tos? Did we "miss it" while brave women scrubbed and scoured and patched and mended until their finger tips were raw, their hands rough—and their hearts dull with the pain of abandoned hopes? Hold on once more... This time chances are we won't bounce back again! Many people now realize what a close shave it was the last time... how desperately near we were to chaos and national ruin. MUST we come with another crash? MUST we ignore, not one, nor two, nor three—but the dozens of lessons taught us by history? MUST we head straight along the road-to-ruin we took last time? It's what's beginning to happen, right here—now—in our country. People are making more money than they ever did before and spending it. Spending it faster than they ever did before. The old "short-life-but-a-merry-one" story is back with us. But how merry IS it? Where's the money coming from—"prosperity"? No... war. From the Business of Death we've been forced into. From things made to kill people. From things made to kill other people so they won't kill us. Win, lose, or draw, the war will end some day. No war has lasted forever. Then what? Those same war-factory wheels will again slow down and stop. Men will walk out of factories and hear the gates grind closed behind them—many of them to stay closed. And maybe the green grass will grow between the stones of factory courtyards before the men will come back to work again... slowly... a few at a time. The same as the last time? And the time before that? Well, it shouldn't be, but it will be even worse—unless we use our common sense now! There's no special Providence watching over this country, in spite of all our songs and slogans. We're people—just like any other people. Luckier, yes. Our land is fairer—endowed with more riches than any other lands. And we've worked hard—or used to, anyway. Nobody knows how much is left of American spirit and guts—yet. We think it's greater than before. The Japs and the Germans will find that out. But listen, Mister... Don't fool yourself! The time's going to come when you'll need those dollars you're throwing around now. If hard times catch up with you, it isn't that night-club proprietor who's going to return the money you spent in his place—no, not any part of it! And all the unnecessary gimmicks and gadgets you think you need now won't be worth a dime on the dollar then. And when your pockets are empty it won't be because you'll be taking money out of them—but because no money will be going into them. How about those bright kids of yours? Will they have to work instead of going to high or college? And those beautiful rings you bought your wife? Supposing you lose your job... how long can you last before pawning those baubles, for a fraction of what they cost you?

So look... When you want to spend money or buy something new, just imagine you were spending your next-to-the-last dollar. Don't ask how happy you'd be with what you get for your money—but whether you'd be miserable without it. That's the only test. Otherwise you're just kidding yourself. Lighting matches to ten dollar bills you're going to need—sure some day. What? Oh, you're making more money? Then save more—don't spend more! Because the money we all save now will play a tremendous part in the after-war economy of our country. The money we save now will be a cushion of buying power—those sorely-needed dollars to "start things up again" in our civilian economy—to keep us from national bankruptcy until the wheels start moving again. The dollars you waste now may be the dollars you'll need then—yes, perhaps even for such matter-of-fact things as bread and milk and meat. Why do you suppose your Government urges you to save? It's perfectly simple—to ward off disaster. To make sure that the crash that "couldn't happen here" doesn't happen again. So that possible (if not probable) after-war depression doesn't find you at the tail end of a bread-line fifteen-million-people-long. So that a war we win by fighting won't be lost by waste. Remember, we're at war! Dollars are needed just as much as men—to back up those men—to give your boy, your brother, or your pal the stuff he needs to beat the Axis, and come back alive. Money wasted on foolish luxuries won't do this. Once spent, it's gone, and neither you nor the boys fighting for you are better off for the spending. But the dollars you save in War Bonds or your saving account will help Uncle Sam buy the guns, the tanks, the ships and the planes we must have to survive and win. And those savings will guarantee your future—the financial future of you, your family, and the boys who are fighting for you all. Nobody can tell you what's going to happen after the war, of its searing effect on the Nation. But somebody can tell you what will happen to you. You can. Make a plan and stick to it. Guarantee your own future. So many dollars every payday into War Bonds and into your savings account. Then, come hell or high water, follow your plan. Protect your family. Build up reserves. Create a stock of money, and make it grow. Your money. Your Bonds. Your protection. And the bigger the stock of savings you create, the better off you'll be—to buy the good things you will want when the war is over—that new car, that refrigerator and radio you can't get now—things that make American life the best in the world. Meanwhile, helping yourself, your savings money will go to work helping your country, to provide fighting equipment for your boys to kick the Axis—homes for war workers—roads, railroad equipment and ships to transport war materials from the factory to the front. Your dollars working for Victory and Peace! So, when you save wisely, you're helping your country and yourself at the same time. Honest, now... Could you ask for anything better?

Mr. and Mrs Frank Benak, Sr., recently received the following letter from their son, Flight Officer Frank Benak, Jr., while he was en route overseas by air, written from a city in Brazil: Dearest Folks and All: I am feeling fine and having one swell time I hope that things at home are clicking along O. K. At the present time we are in Brazil, South America, south of the equator—and it is ever hot! We have been flying over a lot of jungle and it is really thick We also flew across the Amazon river which is very large It sure is odd to see green people that speak a language you can't understand, where you have to wait—on yourself or write things down and take them to someone who can translate it to them So far on the trip everything has been going smoothly and okay Today I bought me a pet monkey from one of the natives for five bucks and he thought he was rich and some money that I picked up along the way at a couple of stops Speaking of money, when you give them a dollar here, guess what they give you in exchange? A dollar and thirty cents of their money! So you can see our money is worth more than theirs. And guess who I met down here? Capt. Howard McClellan, one of the twms that was in the Scouts He has now in the Army command and was here ferrying a plane I met him at a meeting we held Isn't it strange?

Well, I can't say any more, so, until later, Keep 'em Rolling! Lots of love to all, Frank

Howard Donley Finishes at Aviation School
 Howard F. Donley, husband of Wilma L. Donley, 108 Lake St., Buchanan, has completed his course of studies as an aviator mechanic in the Army Air Forces Technical Training School, Amarillo Army Air Field, Amarillo, Texas

Mynaard Post Writes From England
 Mr. and Mrs Harry A Post received the following letter from their son Sgt Mynaard Post, who is serving overseas: Somewhere in Italy Jan. 16, 1944

Dear Folks:
 At last we are somewhat settled in our new home—a different one than we had in the States Of course I can't tell you everything, but here's a little of the dope. We are out in the country some few miles from a medium-sized town. The country is quite picturesque, little winding roads with stone walls around the fields, and many horses and carts. Few cars or trucks, except G. I. They have street cars in the larger cities that look like Toonerville Trolleys and teams of the same nature. We rode "40 and 8" cars up here—some ride. People seem to eat O. K. but can't get much clothing, especially shoes Lots of oranges, good ones that are sold by every one between the ages of four and 90, or traded for cigarettes Kids of four smoke here.

The weather is O. K. during the day, but awfully cold at night I have most everything necessary but you might include air-mail stamps in your letter Hope we get mail tomorrow—had none since the first of December Will write when we have more time Love, Mynaard

Mr and Mrs Post also received a letter at the same time as this one, which was written by Sgt. Post on Christmas day while on board the troop ship in which he described the Christmas service and dinner, after which Santa visited the ship with gifts for all the servicemen from the Red Cross Sgt. Post's present address is: Sgt. Mynaard Post, 154-40-154, 455 Bomb Sq (H) 440 Bomb Sq, (H) A. P. O. Care Postmaster, New York, N. Y.

Jack Green Writes
 Somewhere in the Pacific January 19, 1944

I just received another interesting copy of the Record and decided to write and tell you how much I enjoyed it—also to give you my new address. I've had six different addresses since sending you the 1st Brigade one I still haven't got the one I've been waiting for (Lt. W. Alexander St.). They keep shoving me around as

If I am a bad penny (could be!) I think I'll be in this outfit for quite some time

I read Norm Ferris' letter and know just how he felt when he was seasick I really can't see why you'd get the Purple Heart for seasickness I'm sure you can't come any closer to dying and still live! A lot of the fellows wanted others to shoot them! Not J. O. Green, I was so sick I only had strength to utter one little word—oh-h-h-h-h! I was on guard duty for four days and nights on the ship and was sick most of the time I tried to tell the C. P. O. I wasn't in any condition to be on guard duty as I would be running to the rail or head every five minutes He just said, "Oh, hell, matey, that's okay and gave me a bucket to carry around! I know one thing for sure, the only islands I'll visit after this war is over are the ones connected to the main land by bridges! Had to get out my machete tonight but not for use on the Japs Got a box of candy from the Navy Mothers Club and my bunk mates went for it like to own a very faithful phrase) the Mates are going after the Japs! After waiting around in the air a couple times I cleared the deck enough to get my hand in and save a couple pieces

Signing off for now, Sincerely yours, Jack O Green S 2/C Co. C, 26th U. S. M. C. B. Co. F. P. O., San Francisco, Calif

City Garbage Dump Called A Nuisance
 (Continued from Page 1)
 is limited to the payment of the annual taxes, from \$20 to \$25 a year The city was compelled to acquire this site as the result of action by the state health department condemning the former dump on the James Harold property north of the city The city had used a bulldozer to shove the garbage into a ravine where a spoilage similar to that now taking place at the present dump set in Nearby residents complained of the stench and the state intervened on the ground that the drainage down the ravine during rains carried garbage and refuse across the Red Bud trail and into the St. Joseph river

Previous to the use of the Harold tract the garbage had been hauled away by farmers for feeding to hogs This was discontinued when citizens placed broken glass in the garbage making it unfit for feeding hogs

There was much agitation following the action of farmers in refusing to take garbage and for some weeks the garbage remained on the home premises, to the great inconvenience of the city When the Yarrington land was leased and the city regulations were adopted, the Berrien County Record wrote (April 30, 1942) "It now appears that a closed chapter problem is a closed chapter. For a while, anyway"

"For a while" is right!

Grade News—H. S.

Each afternoon some of the children in Miss Carnagan's first grade read stories to the group that they have read from other books than the basic text.

Sharon Forthman is sharing her Christmas record with the group. There are several singing games which the children enjoy very much.

Miss Reilly's second grade had perfect attendance Tuesday afternoon. They are glad everyone has recovered from colds and the measles.

The second grades can have their gym class Wednesday afternoon. They enjoy this class.

Miss Robinson's second grade has started their new book, "More Friends and Neighbors." We are enjoying it very much.

We are glad to see most of the children back in school. Mrs. Huston's third grade has been working with chalk in their art periods. Many of the children have made very attractive pictures.

Two of the reading groups have finished their books and are ready to start new ones. One group is

reading, "The Seasons Pass," the other group, "Good Stories."

Mrs. Fuller's fourth grade is planning and practicing for their February assembly program. Everyone has a part and colds causing absences often makes practicing difficult.

The boys and girls of Miss Bell's fourth grade are striving for higher marks in spelling this semester. Boys and girls receiving 100 in spelling last week were: Connie Converse, Catherine Crawford, Lois Henderson, Carolyn Grimes, Joanne Proud, Jane Rizer, Jack Schultz and Dick Swem.

The children in Miss Frankland's fifth grade are writing letters to Yvonne Lehr, a former member of the group, who moved to Grand Rapids in November of last year. We think she will be pleased to hear from us.

Gene Beck is now the captain in Miss Lundquist's sixth grade, Barbara Burd and Dale Rifenberg are lieutenants.

Those who have had perfect attendance records since the day of enrollment are Barbara Borst, Bob Marsh, Jim Merrifield, Barbara Murden and Mary Jane Fisk.

Miss Reams' room has the War Stamp Banner this week. This is the second time this year that this room has had the banner.

Mrs. Heim's first grade brought the largest number of dimes for the March of Dimes, also this

week for buying the largest number of defense stamps.

Many children have returned to Mrs. Moley's room since having measles. Eugene Sheperd has not been absent nor tardy this year.

The children in Mrs. Radewald's third grade have been working on a clothing unit. We are now studying about silk and linen.

The children are reading stories from their Christmas books to the group.

The Science club in the fourth grade at Dewey school elected the following officers: President, Reba Beard, vice president, Sonny Mills; secretary, Beverly Shaner.

Seventh Grade Honor Roll
A "2" after a pupil's name indicates that he is on the perfect attendance honor roll for the second time this school year, a "3" means that he is on for the third time which is a perfect record for the entire first semester.

Charles Ailsworth, Loren Anderson (2), Dale Backus, Donald Coleman (2), John Coleman (2), Coletta Davidson (3), Sharon Davis (3), Fred Dunlap (2), Bill Fairman (3), Mary Jo Ham (2), John Hamilton (2), Maxine Heiermann (2), Roxanna Locky (3), Anna Belle Lundquist, Jim Martin (3), Dolores Myers (2), Leon Nissen, Devon Ochentyder (3), Juanita Ott (2), Janice Rizer (2), Joann Samson (2), Margaret

Smith (3), O'Dean Toll (3), Harry Tushin (2), Jerry Morris (3), and Lynn Watson (2).

Dewey Avenue News

The children in Miss Schloeman's kindergarten are having a doll show this week.

We have finished our Mother Goose Theatre and will welcome anyone who would care to see it in Mrs. Poud's kindergarten.

We are now making plans to entertain our Mothers at a Valentine party soon.

Quite a few of our boys and girls are out of school with the measles.

Miss Lundquist's children have made new albums of records including Hansel and Gretel and songs and singing games. This collection was bought with part of their Christmas money given to the children by the Mothers Club.

The children have been making notable progress in manuscript writing this month.

The first class children have started reading their primers. These are children who have been in "quite regular" attendance.

wish her lots of luck-and we hope she gets what she wants.

Dora Dean Leiter, the vice president of the sophomores. Dean has a real sense of humor and is a go-getter for her class. In the line of sports, her favorites are basketball, dancing and skating, all three of which she does very well. Her favorites seem to run in threes, because she likes hamburgers, chili and chocolate cake. She's a swell girl, and since she plans to go to college to train for a career in newspaper work, we

TUESDAY WEDNESDAY THURSDAY

The South Shore Line serves one of the most active industrial areas in the world. We are busy transporting war workers seven days a week.

Over the weekend, our load is invariably increased by the travel of servicemen... You can help us to keep this vital traffic flowing smoothly by making your trips on Tuesday, Wednesday and Thursday—by carrying a minimum of baggage—and by riding between the hours of ten in the morning and four in the afternoon. Trains are generally less crowded then.

WHAT ABOUT YOUR FUTURE AS A FARMER?

Do you believe our most important job is helping to win the war and get set for a sound peace afterwards?

Do you believe farmers have responsibilities in this other than growing food?

Do you believe that our democratic principles must be maintained?

Do you believe that for the farmer to get his fair share of the national income he must build a strong, independent organization that will speak for him when Congress and government leaders are considering matters affecting prices, wages, taxes, and related matters?

WHAT CAN YOU DO?

You can add your membership to the Berrien County Farm Bureau, the Michigan State Farm Bureau, and the American Farm Bureau Federation in Roll Call Campaign to be conducted by your neighbors, starting February 22nd.

Keeping High Lines HOT when the Weather is NOT!

HERE'S how they patrol electric power lines out in the Northwest, when the snow piles up and the mercury plunges down. This novel ski-mobile is driven by a motorcycle engine and spiked caterpillar treads. It will do 35-40 miles an hour on the level—if there's any level!

The ingenuity, skill and courage with which these linemen keep current flowing are typical of the way electric company men everywhere meet such emergencies—including the greatest emergency—WAR.

Under America's system of freedom of enterprise, the business-managed electric companies provide over 80% of the nation's vast power supply.

Without subsidies or tax concessions, these companies have met every war demand for power and satisfied every essential civilian need for electricity.

In recent years, while the cost of living has increased, the average price of household electricity has decreased. Compared with fifteen years ago, the average American family now gets about twice as much electricity for its money—and enjoys better lighting and more electric servants.
