It's Hard To Be A Complainant In Court

By DEN

Suppose you as a conscientious citizen, see a crime being committed and report it. Before you are through, you will wonder why you got involved.

The suspect is caught. You must file a complaint. The suspect is released on bond. Your life may now be in danger for turning him in in the first place. You are the fink. He's still at liberty to do what he's been doing.

You had to sign a complaint. A man from the prosecutor's office, to determine whether there's a good case, interviews you, and you begin to think you're the criminal. A search warrant has to be obtained, and there is the time consuming process of finding somebody to sign it.

Then one day two uniformed police enter your home or office and hand you a subpoena, again making it look as though you are the criminal. This paper states that, whether convenient or not, you are to appear at a court at a given time and specified date. There's a notice that your failure to appear will result in punishment.

The day arrives, and you've fought the inconveniences of traffic and parking to be on time. You're told to take a seat on an already crowded bench and find

yourself sitting next to the man whom you turned in.

The judge didn't arrive at the appointed hour. You begin to think of all the work you have to do back home. You are uncomfortable and hungry because you didn't have time to stop for lunch. You wonder if the judge is enjoying his lunch.

Finally he arrives, and he starts hearing cases which were scheduled for an hour earlier. The defendants stand close to the judge's bench, so you can't hear anything that's going on.

Finally you are approached by the prosecutor who tells you there's been some plea bargaining, and the defendant has waived preliminary examination to enter a plea on a lesser charge. Your testimony won't be necessary today, but you may be called at a later date when the case finally comes to trial.

The guy whom you accused precedes you out of the court. He is free again for an indefinite time. You wonder if all those people in the courtroom are his friends and have marked you for revenge.

There's been a situation in Buchanan where a lady has been constantly disturbed by her neighbors. They have constantly disturbed the peace. That lady is told that to have the police take

any action, she must file a complaint. Under the circumstances, would you get involved? With the way things are, would you stick your neck out?

Reckless Driver

Last Thursday evening the Buchanan police received a report that a car was being driven in a careless manner in the downtown area. It had left the scene of an accident after striking another car. Attempts to stop the car failed, and it left town on South Redbud, turning right on Chamberlain. After reaching speeds of 80 miles an hour, the car failed to negotiate the turn at Bakertown Road, struck a sign and went into a ditch. James Goodrich of Niles was arrested for driving under the influence of liquor, fleeing and eluding the police, leaving the scene of a property damage accident and having improper registration.

City Applies For More HUD Money

The city commission meeting began Monday with a public hearing on how to apply for more funds from HUD for community development. Members of the plan commission had placed as a high priority the redevelopment of the central business district utilizing McCoy's Creek. The consultant for the application warned that HUD wouldn't give any priority to this type of project. In spite of this, Joe Garbert moved to follow a plan which would include \$25,000 for the central district, a motion which failed for lack of support. Then commissioner Gault introduced a proposal which would have eliminated this portion. That motion was defeated. Garbert tried again. This time his motion was supported but defeated. At last Gault's plan was adopted by the narrow vote of Wesner, Anderson and Gault voting yes and Bachman and Garbert voting no.

This application calls for a total of \$300,000, which nobody really expects to get. Broken down, it would be \$50,000 for street paving and storm drainage, \$10,000 for bicycle paths, \$75 for a rehabilitation grant program, \$15,000 for demolition of buildings, \$85,000 for acquisition of lots and substandard buildings, and \$5,000 for administration. This application has to be made soon for a chance at funds next year. There was an indication that, if funds were received from HUD, other funds from federal revenue sharing might be freed for other purposes.

The commission adopted articles of incorporation for a new authority to provide ambulance service in cooperation with Niles, Niles township, Buchanan, Buchanan township, Bertrand township, and probably Howard township. Joe Garbert was appointed Buchanan's trustee with Gene Wesner as alternate.

Joe Bachman was sworn in by Herbert Russell for another term as commissioner. He was re-elected mayor, and Richard Gault was elected mayor pro-tem.

Toward the end of the meeting, the plan commission, which had been meeting elsewhere, reappeared and inquired about an earlier request for \$6,000 to begin updating a master plan for the city with emphasis on the central business district plan. Their consultant Ray Enfield was present, and he said that he had no idea how much such a plan would eventually cost. The commission voted to give that money for the start of the plan.

A traffic control ordinance was confirmed establishing a loading zone on the south side of East Chicago between Redbud and Days and no parking on the north side of that block.

An invoice for \$3,973.14 was approved from Calho Fence Company for fencing of the pistol range, and a partial payment of \$8,340.80 was made to Resco-Elk for work on the Charles Court bridge. An invoice from Leshe Cripps, the community development consultant, was approved for \$742.65.

Set Up New Authority To Provide Ambulance Service

At a joint meeting between the six governmental units and interested ambulance service companies held yesterday at Pawating Hospital, the future of ambulance service for this area was discussed. Representatives from the City of Niles, City of Buchanan, Niles Township, Buchanan Township, Bertrand Township, Howard Township, Pawating Hospital, Unity Hospital, Niles Chamber of Commerce, and Southwestern Michigan Comprehensive Health Planning Association were in attendance. Proposals and bids from five area ambulance services were discussed at this three hour meeting.

Also discussed was the status of the proposed Ambulance Authority. Articles of Incorporation. It was announced that Niles Township, the City of Niles, Bertrand Township, Buchanan Township, and the City of Buchanan have each adopted the proposed articles

setting up this authority. Howard Township was expected to act on the articles at their regular meeting scheduled for Tuesday.

A spokesman for the group stated, "We are presently considering all the bids and should have a report later in the week. We are anticipating the formation of the Ambulance Authority following ratification by Howard Township."

Basketball Tickets

In Defense Of The Doc

Dr. Vanderbush came to Buchanan the same time as we did. We've come to admire the man. Although disagreeing with him occasionally, we've developed a relationship with him built on mutual respect and an understanding of each other's problems.

Dr. Vanderbush didn't come here to run a popularity contest. He never attempts to be "one of the boys." He is completely professional in his approach and in his goals.

The teacher whom he tried to remove wrote a letter last week which is libelous and in bad taste. He completely misrepresents Vanderbush's earlier article. We published that letter mostly because it reveals some of the problems the administration had with him.

Up to now we've attempted to be fair in the Moulder case. But he is now engaged in a personal vendetta against one man. He admits that the Buchanan teachers haven't rallied to his support, so he should have gathered that they are not in sympathy with his cause. His letter is unfair to them.

Dr. Vanderbush has accomplished a great deal during his time as principal. He has forged a program which has resulted in a well-run high school. If there is a teacher who openly resists this program, he should be either willing to compromise, as other teachers did, or he should look elsewhere for employment where the climate for teaching is more to his style.

Moulder assumes that in Buchanan he still has a large number of persons sympathetic to his cause. He can't understand why more people don't seem to care. But both Dr. Vanderbush and this writer could tell him not to count on a great deal of active support. Since we both came here, it's been our mutual observation that Buchanan rarely gets excited about anything.

Clark Credit Corp. Notes Offered

Blyth Eastman Dillon Incorporated, Lehman Brothers Incorporated and Warburg Paribas Becker Inc., as joint managers of the underwriting group, announced the public offering of \$75-million Clark Equipment Credit Corporation 9 1/2 percent notes due 1982, at 100 percent, plus accrued interest from November 1, 1975.

Net proceeds from the sale of the notes will be applied to the reduction of short-term borrowings incurred in connection with the company's financing operations.

The notes are not redeemable prior to November 1, 1981. On and after that date, the notes will be redeemable at the option of the company at their principal amount, plus accrued interest. There is no sinking fund provided for the notes.

Clark Equipment Credit Corporation, headquartered in Buchanan, is a wholly-owned subsidiary of Clark Equipment Company, a highly integrated international manufacturer and distributor of capital goods. Clark Equipment Credit Corporation is engaged principally in the financing in the United States of retail time sales of new Clark products to ultimate consumers through Clark's independent dealers and retail branches, the financing at wholesale of these products for such dealers and branches, and the financing of new Clark products acquired or held by such dealers and branches for use in connection with the Clark Rental System.

Shoemaker Resigns As Coach

Dave Shoemaker has announced his resignation as football coach at Buchanan High School. His plans for the future are uncertain, but he does hope to remain in football.

"I am very sorry that Dave has not felt the success in football that he anticipated," commented Dr. Vanderbush, Principal of Buchanan High School. "I sincerely feel that he is an outstanding young man with a great deal of potential in the field of education and I wish him nothing but the best."

"Dave is a class type of person," mentioned Ray Berry, Athletic Director, "and I wish him every success in the future."

The announcement came shortly after the finish of a disappointing season for the Bucks during which they won only one game.

Bucks End A Disappointing Season

There were fireworks displays before and after the game, courtesy of the Allegan fans, but neither of those matched the fireworks displayed by the Allegan team, as they blanketed the Bucks 28-0.

Friday night's game ended a very disappointing season for Buck followers, as the Bucks finished with a 1-8 record. For the Allegan fans it was a much better ending, since the win gave the Tigers their first winning season in a number of years.

The game started off well for Buchanan. The Bucks stopped Allegan on their initial possession, forcing a punt. Willie Brown received the kick, and was brought down almost immediately by the Tigers on the 25 yard line. However, on the first play from scrimmage, Brown took off on a 25 yard run that gave the Bucks a first down on the midfield stripe. Here they

were stopped when Bryan Virgil, attempting to pass on third down, slipped on the wet turf, forcing a punt. Allegan then gave a forewarning of things to come, as they began a long drive. A key defensive play by junior defensive back Rick Layher halted the Tiger drive, forcing them to attempt a 37 yard field goal, which was missed, wide to the left. The Bucks took possession, and 2 runs by Brown gave the Bucks a first down on the 36 yard line. Here disaster struck. A Virgil pass was deflected, and then intercepted by an Allegan lineman. He returned the ball to the Buck 18 yard line. Two plays later the Tigers completed a touchdown pass to take a 7-0 lead.

The Bucks were unable to move the ball following the kickoff, and were forced to punt. A 35 yard punt return put the ball on the Bucks 15 yard line. Agan it took two plays for Allegan to score, the touchdown coming on a 12 yard run.

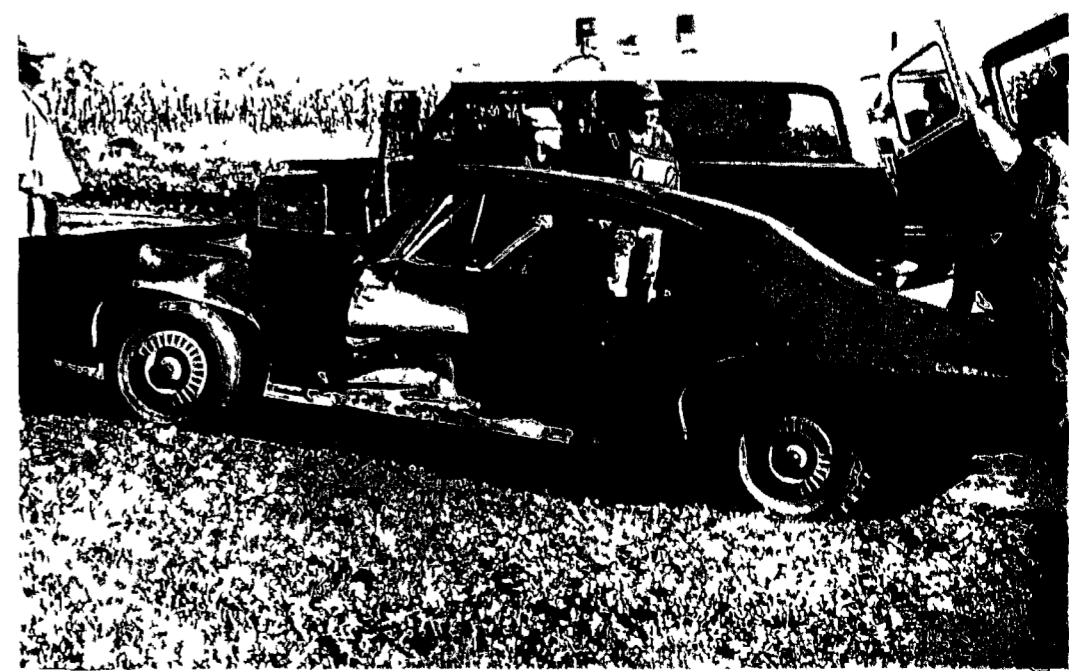

Buchanan's only real scoring opportunity came late in the first half. A 58 yard punt by Virgil was responsible for the Bucks' excellent field position. Runs by Brown, Virgil, and Donley took the ball from the 46 to the Allegan ten yard line. Here, though, the Tiger defense stiffened. The Bucks, unable to move the ball in four downs, were forced to go in at halftime down 14-0.

The second half was more of the same. Two more turnovers were responsible for the Allegan scores. Both Tiger touchdowns came in the fourth quarter. The first came as a result of a Buchanan fumble on their own 14 yard line. The second score was on a 65 yard return of an interception.

This is the car which Mrs. Vernon Shaner was driving when she was killed Thursday morning. She was coming north on Redbud Trail and was hit by a car going east on U.S. 12.

Strictly Personal

By D.E.N.

During the summertime days of November reports have been coming in of redbud in bloom, and there are violets blooming on the hill. Will we all be paying for this in months to come?

Although the recent layoffs in Buchanan are discouraging, some business leaders here say that this area just felt the recession later than most, and recovery could be expected soon. Let's hope so.

Mrs. Harry Beistle loaned us the book published about Jack Knight. People who know about his story say it is accurate. Does anybody know the true circumstances of his death? There is still some difference of opinion about it.

Mrs. Beistle also loaned a 1958 page from the Record telling about Harry Beistle and his popcorn wagon, the unveiling of the new clock at Main and Front, the Buchanan Blues and other interesting data about this city.

The John Wayne - Hepburn movie is entertaining. Those who make quite a pair. The scenery and photography is beautiful too.

South Bend after a football game gives no evidence of a recession. All the many restaurants had over an hour's wait by 7 p.m.

In spite of this week's letter, our statement still stands that tourists can go anywhere at any time of the night or day in Tokyo without fear. We did it.

Letter To The Editor

Sir,
First of all I won't go through the usual formality of complimenting the paper in regards to its merits or enjoyable reading material. I consider the Record a weak source of accurate information, biased and irregular, and bordering on using techniques of tabloid news-scandal papers available at many newsstands. Now, I'm not trying to pick apart the paper or you, D.E.N., but to bring some criticism to light so hopefully it can be the start of a better paper and a closer more friendly community, instead of one where students, parents, educators and police are always at odds with each other. I feel your paper, through selective value judgments, contributes to this alienation. I'll use last week's article "We'll Fight The Sale Of It" as prime example. Paragraph by paragraph, the feeling the article gave me was:

1. No longer wondering why the editor allowed his name to be printed in connection with the recent raid. Just like Super-Editor Perry White of Superman comic book fame, you have displayed superhuman courage in the face of "A dreadful assault on the whole social structure of our community."

2. Pertaining to the "harmful effects." Conversations with educators and the police, who are constantly exposed would indicate otherwise. Which educators and police are you talking about, Mr. Nichols? Educators involved with removing unrealistic penalties for small amounts? I'm sure that most police departments would agree on the potential harmful effects, but the difference lies in the priority each department gives its "primary evil." Large amounts not included, the attitudes of police change a great deal from big city departments to small town forces, in dealing with small amounts.

3. "In Japan, a tourist can go anywhere at any time of the day or night without fear." That statement is not only totally untrue, but funny, as well. When I read your statement to a retired U.S. Army M.P., who was stationed in Japan, both he and his Japanese wife agreed that your statement was very, very funny. Or did you have Superman walking with you, Perry, I mean, Mr. Nichols? The Japanese say? Which Japanese, Mr. Nichols? Did you speak with all the people of Japan? You can trace lower crime rates of Japan to a different value system in regards to living, rather than the severe penalties for drugs, you seem to favor. Why do you make so many general statements, Mr. Nichols? I find it most unethical for a newspaperman to speak in broad, general terms, to use certain words, phrases, or other ambiguous terms which conjure up the desired connotations in the minds of those people outside of the fishbowl.

4. It's just too bad it "Burns you up" about some of the laws in our country that keep the police from using tactics used in the late 30's by the SS in pre-war Germany. If there is a solid case it doesn't take that long to go through "red tape" to obtain a search warrant. Also in this paragraph you use the word "pusher", which now in the mid 70's is usually connected with hard drugs, and the word child, which usually means children. Wouldn't these words not so apt be misunderstood in reference to marijuana be "seller" and "youth"?

5. Now, in this paragraph you go against your own reasoning in paragraph 3. Are you saying that if pot were made legal you could ignore the harmful effects? What means more to you, the harmful effects of pot on people or the right to "change our minds" when the law changes? We can still buy cigarettes, and we can still get lung cancer.

And what do you as a so-called journalist care about someone's tremendous profits? Do you know how much profit there is in the sale of one gallon of gas at 60 cents a gallon? And what is the Record's definition of a "primary evil"? Really now, Mr. Nichols.

This letter is not pro nor anti marijuana. Its concerns are those of curbing general statements made by those in position to influence others. Facts are facts. They should not be colored or misrepresented in any form. Yours for a more "friendly place" to live,
Darrell A. Kline

Guidance Notes From B.H.S.

Each year several Buchanan High School graduates elect to attend a private vocational school. There are at present over 10,000 such schools and choosing the proper school can be a mind-boggling problem. However, the following check list can reduce the alternatives considerably. Looking into each point carefully will help make your choice a sound one.

- A. If the school claims to be accredited by an agency approved by the U.S. Office of Education, double check with the agency itself. This will help to assure that the teaching ability and business practices of the school have passed examination.
- B. What type of facilities and equipment does the school offer and will the course offered help qualify you for your chosen career?
- C. Does the school provide a "hands on" training that will duplicate a real work environment?
- D. Does the school offer a placement service and what is the rate of placement for previous years?
- E. What will the cost to you be for the entire program?
- F. Carefully review the school's enrollment agreement which spells out the school's and your rights and responsibilities.

In conclusion, a prospective student should actually visit the school -- even though this may involve time, trouble and some expense. Talk to students at the school and the teachers and finally be wary of a school that discourages pre-enrollment visits or is in a hurry to get a deposit and your signature on an enrollment agreement.

Indian Hills

By Mrs. Adolph Rychly

The Sr. High Youth of the Oronoko United Methodist Church are sponsoring a Spaghetti Dinner at the church on Saturday, November 15 from 5 p.m. to 7 p.m. Proceeds are to go toward furnishing a meeting room and/or a work trip to Appalachia. Call Matterns or any member for tickets.

Former neighbors and friends were saddened by news of the death Sunday of Karl Simons of St. Joseph, formerly of Redbud Trail.

Mrs. Richard Mattern was hostess when the Oronoko Methodist United Women met at the church last Wednesday. Mrs. John Russell presented the lesson, "Encircling the Globe" and Mrs. Robert Gunn discussed the "Noblest of Human Grace - Magnanimity." The group expressed thanks for the successful Quilt and Craft Show with a decision to have one again in '76. Mrs. William Conn was instructed to purchase a used wheelchair, and she asks that anyone having one for sale contact her. The group was asked to save Stokley fruit, vegetable and tomato labels, as 100 will obtain a child's coaster wagon for the nursery. The December meeting will be on the 3rd, with Mrs. Lloyd Phiscator as hostess.

The Thanksgiving meeting of the Pioneer Farm Bureau will be held November 18 at 7:00 in the evening in the Fellowship Room of the Oronoko Methodist Church. A short business meeting will be held by Adolph Rychly. Mrs. Gerald Tichenor will bake the ham entree.

New Food with a History
What crop was in near obscurity in 1950 and is now this nation's third most widely cultivated crop? You guessed it - the lowly soybean. And, predictions are that soybeans will be our number one crop by 1985.

The soybean is our most economical and versatile source of protein in the world. The United States now produces the majority of the world's soybeans, but they are not native to the U.S.

Soybeans have been a food in China for at least 4000 years. A German botanist brought them from Asia to Europe, and their introduction in the U.S. followed in 1904. The amount of soybeans grown commercially in the U.S. was so small that, until 1924, no records on harvests were kept.

Soybeans are unique among plants because they yield a quality of protein similar in food value to animal protein (found in meat, milk, fish and eggs), and the cost per pound to produce is far less with soy protein.

Another benefit of soy is its great flexibility in adjusting protein content of soy-containing foods while tightly controlling vitamins, minerals, calories, and fats. This soy can be flavored and shaped into morsels resembling everything from ham to pecans.

Textured vegetable protein, or TVP as it's commonly known, is made from soybeans. With the rising beef prices experienced two years ago, meat processors have become increasingly interested in marketing ground beef products with textured vegetable protein added.

Little research had been conducted to determine the optimum level of consumer acceptability of TVP. Most of the tests had been conducted with high levels (30 percent) or low levels (5 percent) of TVP added to beef patties.

In recent consumer preference panels sponsored by Michigan State's Consumer Marketing Program, panelists tasted three different samples of beef patties - one all-beef, one with 12 percent TVP added and one containing 24 percent TVP.

Panelists judged the two beef patties with TVP as most juicy. The beef patty with the 12 percent textured vegetable protein received the highest rating in flavor, and the all-beef patty received the lowest score.

The hydrated TVP tends to absorb more moisture and fat from the beef patty and does provide a more juicy product. Caloric content of beef patties of equal weight made with and without soy are about the same.

Big Brothers Also A Big Sisters Agency

Big Brothers of Niles-Buchanan began investigating the possibilities of expanding its program to include service to young girls 18 months ago and these efforts culminated recently when the agency received a certificate from Big Sisters International declaring the Niles-Buchanan agency officially a Big Sister Agency.

The aim of Big Brothers is to provide the friendship and influence of a mature responsible male for boys without fathers in order to assist boys to reach the highest possible physical, mental, emotional and spiritual development. The concept of the Big Sister program is very similar with the exception that girls do not need to come from a motherless home.

The public relations committee, stemming from the board of directors, will mail out letters this month to encourage area clubs, organizations, church groups and PTA's to make arrangements for a program presentation. To arrange for a program giving an overall view of the services of the agency, interested groups may contact the Big Brothers and Big Sisters office, 684-1100.

More volunteers are also needed and anyone with an interest in learning more about the program and volunteering some time is asked to call the director Mark Nawrocki or caseworker Laura Crouch at the office. N-B Big Brothers and Big Sisters is a United Way Agency.

Chamber of Commerce president Earl Reuter welcomes Bob Welsh as the newest member of the board. Welsh is to fill the unexpired term of Norm Kreager.

Wesley Choir To Sing Here Sunday

The Wesley Foundation Choir from the Campus Ministry serving higher education at Western Michigan University will sing at the 9:30 a.m. service of worship at Morris Chapel United Methodist Church and at the 11 o'clock morning worship at Faith United Methodist Church, this Sunday, November 16. The public is invited to attend these services.
Rev. Kenneth H. Kline, director of Campus Ministries, who will accompany the choir, will lead both worship services.
Approximately twenty choir members will take part in this fall goodwill tour of the churches of the Kalamazoo District of the U.M. Church.
After the service in Buchanan, the choir is to return to the Morris Chapel Church, Pucker Street and Chapel Road in Niles, where they will be dinner guests of the congregation at the monthly all-church cooperative dinner.

Carmen Arias On Sunday Concert Program

The Twin Cities Symphony season continues with the second concert to be held this Sunday, November 16, at 4:30 p.m. in the St. Joseph High School. Tickets will be on sale at the door for the program to include Dvorak's Symphony No. 8 in G, Op. 88, a work based on many light, exciting Bohemian dance tunes. It is unusual in that there are three fast movements and only one slow one.
Also to be performed are highlights from Bizet's Carmen and the aria O Mio Fernando from Donizetti's opera La Favorita. Mezzo-soprano Roberta Bowers, a graduate of the Music Conservatory of Roosevelt University in Chicago, is the soloist. She has appeared at several midwestern colleges, including Andrews University and Notre Dame and on Artists' Showcase on WGN Television.
A former member of the Alex Sharpe Ensemble of Los Angeles, Ms. Bowers is now mezzo-soprano soloist in the Choral of the Chicago Temple and has also appeared as soloist on the Sunday Evening Club on WTTW, Channel 11.

This Week At Fernwood

With the Fernwood program season drawn to a close, much of the groundwork begins now to prepare for the 1976 activities offered at Fernwood. Although the program activities for this season have stopped and the Fernwood Gift Shop is closed, the grounds remain open from dawn to dusk for Fernwood members who wish to visit the woods, gardens and trails. The greenhouse and light garden are also open during office hours, Monday through Friday from 8 a.m. to 4:30 p.m.

On Tuesday evening, November 18, the Fernwood Chapter of the Indoor Light Gardening Society will meet at 7:30 p.m. at the office building. The chapter is making progress since its beginning last year and offers a full schedule of programs through the winter. On Tuesday night a plant sale is being planned in which each person brings a spare or unusual plant. Each plant can be purchased for \$1.00 plus the cost of answering correctly any challenger's houseplant question. Door prizes will also be awarded. For beginners a special demonstration on assembling a basic light garden unit will be shown, so that anyone can learn how to put one together at home.

The Fernwood Chapter meets the third Tuesday of every month at 7:30 p.m. in the office building at Fernwood, from September through April and excluding December. Join us, everyone is welcome.

The Spinal Column

Dear Friends and Patients

Every patient who goes to a doctor asks, "Can I get well?" Most sick people look for some quick and magic formula to overcome their illness.

They have great faith in outside or external things, without giving thought to any power inside their body. We get sick because of something inside going wrong. We get well because of something inside going right.

Chiropractors realize that this inherent recuperative power is what cures and heals us.

Chiropractic works with natural means. It puts nothing new or foreign into the body, and does not remove any natural gland or organ.

Chiropractic releases **the forces within the body**, sets free rivulets of energy over nerves and allows nature to do its work in a normal manner.

Chiropractors know that all trunk nerves are branches from the spinal cord. The segments of the spine must be in normal alignment, or nerve interference will exist. This is the forerunner of illness.

By locating and correcting this cause of illness, chiropractors set free nature's forces.

See your chiropractor to insure good health

Yours for better health, naturally.

Ask Senator GRIFFIN

By cutting through red tape, members of Congress can often lend a hand to those with problems involving the federal government. Through the columns of this newspaper, Senator Griffin answers questions of general interest. He will respond personally to all communications addressed to: Senator Robert P. Griffin, Senate Office Building, Washington, D.C. 20510.

After seeing all the disaster movies, I must admit that any tiny hint now of a disaster sends me under my covers! I have a large family, and I would like for my children to know what to do if they should be confronted by an earthquake, tornado, or an enemy attack. Is there a government publication to educate them—and me?

—S. M., Sault Ste. Marie

Yes, there is. The Department of Defense's Office of Civil Defense puts out an excellent 96-page, illustrated booklet entitled "In Time of Emergency." It outlines suggested step-by-step procedures for the citizen who suddenly faces a major natural disaster or even an enemy attack. From this booklet you'll find that there are better places to be during a disaster than underneath the covers!

You may request your copy of this handy publication by number (H-14) from your regional Defense Civil Preparedness Agency, Federal Center, Battle Creek, Michigan 49106.

As a girl athlete scheduled to graduate from high school next year, I am very interested in the Title IX regulations. Will these regulations help me to get an athletic scholarship? If so, where can I obtain information?

—B. K., Royal Oak

Without a doubt, the Title IX regulations, which went into effect July 21, will open the doors to more women athletes who need financial aid to go to college.

You may obtain some useful information from the Financial Aid Officer at the college you would like to attend. In addition, for more general information or answers to your questions on Title IX's effect on women's athletics, I suggest that you write to Ms. Margaret Dunkle, Association of American Colleges, Project on the Status of Women, 1818 R Street, N.W., Washington, D.C. 20009.

More Students Taking More Hours At LMC

Enrollment of full-time Lake Michigan College students rose this fall to 1,103, an increase of 14 percent over first semester last year, and the total number of college credit hours taken this year jumped to 27,154, an increase of 9 percent over the hours taken by LMC students last fall, according to a college announcement.

"This is the highest number of total college credit hours taken by LMC students during one semester ever recorded in the school's history," said Dr. Thomas P. McCourt, LMC registrar. "It is a sharp increase of 2,253 more hours than LMC students took last fall and is significant because it is on the basis of hours generated and the resulting fiscal year equated student total that the college receives state aid."

"While we are still drawing a large part-time student enrollment, there is a clear trend toward more full-time students and heavier academic loads per student," McCourt said.

All the difference in the world. To begin with, our spray tools are so different they're patented. Our sealant is unique. It's attracted to metal, and actually creeps into welded seams. There are other important differences, too. And you should check them all out. Call us.

Brighter Students?
Looks great on paper Michigan students scoring better than the national average on Scholastic Aptitude Tests. But what does it all mean?

That's the question state education officials are pondering in light of those reports that scores Michigan's collegebound students who took the SAT haven't zipped downward as far as others did on the national level. "We frankly don't know why it happened that way," says one spokesman. "But we are going to look deeply into the subject." The Department of Education has asked for all the SAT data in hopes of coming up with some sort of answer.

The numbers -- which some caution against emphasizing too strongly -- show that the average math score of Michigan high school graduates who took the SAT this year were only one point lower than the scores of Michigan students who took the tests five years ago. Nationally, the average math scores plummeted 16 points.

Average verbal score of Michigan students this year was down 12 points from the 1970 average. On the national level, average verbal scores zoomed 21 points downward during the same period.

"We should avoid jumping to broad, sweeping conclusions," says Dr. John Porter, state superintendent of public instruction.

He says there are many factors which could have influenced the scores, including a significant decline in the number of students taking the college boards in Michigan, a growth in the community college system, where college boards are not required, and an attempt by many colleges to recruit students from disadvantaged social-economic backgrounds. Those young people may not do as well as others on the college boards, it's noted.

Flu May Be Mild
No solid predictions yet, but there are indications that the flu bug won't be biting awfully hard this winter in Michigan.

Public Health Director Maurice Reizen says that in the southern hemisphere, where winter already is over, there's been a generally mild influenza, with no signs of any new virus strains.

Most cases, he says, were of a type for which there is plenty of vaccine. "This is encouraging," Reizen reports, "because about 30-40 percent of the general population have already developed immunity to this disease" (Type A, Port Chalmers influenza).

Those in so-called "high risk groups," however, had best start thinking now about getting the vaccine. Such groups include children and the elderly with respiratory or cardio-vascular problems such as asthma, emphysema and heart disease.

Reizen says that despite adequate supplies of vaccine, only about 15 percent of those in the high risk group received vaccine last year.

"If we can increase the percentage, and with the fairly high general population immunity, there seems a good chance that this winter will be unusually good as far as influenza is concerned," Reizen said.

License Gun Owners?
Assassination attempts
Family shootings Increased crime

All have brought the issue of private ownership of handguns into the forefront in recent weeks.

And Rep. Stephen Monsma, D-Grand Rapids, thinks he's found a way to at least reduce accidental gun deaths and killings done in a "fit of temper" between relatives of friends (Monsma admits that people who want to commit a crime would "probably still be able to get guns," even if his proposal became law).

He wants to require handgun-owners to pass a State Police exam and investigation, and allow no more than one gun in a home. Other guns could be stored elsewhere.

A complete ban on private

ownership of handguns also has been proposed in Lansing, along with a measure calling for extra jail sentences for criminals who use handguns.

All three measures are waiting action in the legislature.

Primary Pay
Picking a presidential candidate at primary time costs money -- dollars that Sen. Patrick McCollough, D-Deerborn, and 25 colleagues think should be paid by the state.

McCullough recently introduced legislation calling for the state to pick up the estimated \$2.5 million tab for the 1976 presidential primary.

"Local units of government have felt the effects of an inflationary economy even more than the state," McCullough says. "They simply can't afford (to pay for the primary) and they should not be expected to pay for what is really a state obligation."

Michigan reimbursed local units of government nearly \$2 million for the cost of the state's first presidential primary in 1972.

One-seventh of the world's farmland is planted to wheat. It grows from the Arctic Zone to the equator, from sea level to 11,000 foot altitude, and has 15,000 known strains. Every day of the year, farmers, someplace on earth, are planting or harvesting wheat.

California Raisins Back For The Holidays

Mother Nature wasn't kind to the raisin crop last year, but the summer shortage is over. The 1973 crop was bountiful and plump, sweet California raisins are back on the grocery shelves in good time for the holidays.

Plum puddings, fruitcakes, even the stuffing for the turkey just wouldn't be the same without the tangy goodness of naturally sweet California raisins.

Cookies, too, are center stage during the holidays and Nut Cracker Raisin Cakes are the kind of cookie everyone will enjoy. Chewy and full of goodness of raisins, pineapple and nuts, these cookies are sure to become a holiday tradition.

NUTCRACKER RAISIN CAKES

- 2 cups sifted all purpose flour
- 1/2 teaspoon baking powder
- 1/2 teaspoon baking soda
- 1/2 teaspoon salt
- 1 can (13 1/2 ounces) crushed pineapple
- 1/2 cup butter
- 1 cup firmly packed brown sugar
- 1 egg
- 1 teaspoon vanilla
- 1/2 cup California raisins
- 1 cup chopped walnuts
- 1 cup confectioners' sugar

Preheat oven to 325 degrees. Resift flour with baking powder, baking soda and salt. Drain pineapple, reserving syrup. In large bowl, cream together butter and brown sugar. Beat in egg. Add vanilla, 3/4 cup of the pineapple, 1 cup raisins and the walnuts. Stir in flour mixture. Drop batter by tablespoons onto greased cookie sheets about 3 inches apart. Bake 25 minutes or until golden. Remove from cookie sheets to cool. Meanwhile, combine 2 tablespoons reserved pineapple syrup with confectioners' sugar. Stir until smooth. Add remaining 1/4 cup pineapple and 1/2 cup raisins. Spoon frosting over cooled cookies. Makes 2 dozen cookies.

One track mind.

In the 1860's, Americans wanted to put their young country on the right track.

After several years, much hard work, and lots of money from government securities bought by Americans, the golden spike was driven at Promontory Point, Utah. On May 10, 1869, the east coast linked with the west.

Today, over 9 1/2 million Americans are helping to keep this country together by buying United States Savings Bonds through the Payroll Savings Plan where they work.

Get on the right track. Look into our specially designed Bicentennial Series E Bonds. And buy them where you work or bank.

Series E Bonds pay 6% interest when held to maturity of 5 years (4 1/2% the first year). Interest is not subject to state or local income taxes and federal tax may be deferred until redemption.
