SEVENTY-SEVENTH YEAR

BUCHANAN, MICHIGAN THURSDAY, JULY 11, 1946

NUMBER 28

Now Here's the Proposition

In the best social circles, women all speak first. Also last.

If you find it hard to like sum peepul, remember sum peepul probably find it hard to like you.

HOT WEATHER CONDUCT
I tell you, I like summer time. I think this weather is sublime. However sultry it may be. It's out to fit such guys as me. Days, when the mercury is down a man's supposed to sprint around.

And try to cover lots of ground. If you can't put on days like this. It is the sidewalk with no grass. (But if you can, you mustn't be. As dry around the gills as me.) And boils awhile, then steams away.

It's far too hot for work or play. The only way to make the grade is ease along from shade to shade. And try to keep a peaceful mind. And sit on everything you find around.

A boss that's any good will say, "Now, boys, don't work too hard today." Although there's plenty work to do.

I'd hate to lose good guys like you. We'll all just lazy round a bit. And then knock off and go 'n' get a glass of sody or near-beer. 'Frumpin' that ain't too near. And wrap ourselves around the same.

And listen to a baseball game. And if we do not get much done, we'll simply blame it on the sun. A boss that looks at things like that.

Is sure a gentleman—that's flat! He'll show some human traits, I mean. But when they're few and far between.

Tramp Printer Back
This department, devoted to the truth, such as it is, makes belated report of the travels of one of the members of the Record force, Miss Lois Fuller, who arrived home last week from an adventurous Odyssey as tramp printer through the west.

The tramp printer, one of the ancient and honorable branches of the trade, makes his way around the country, financing his passage by short stunts of labor in print shops en route. Sometimes he makes enough at one place to pay his way to the next, other times a collection is taken up in the shop, which is for one reason or another interested in seeing him pass on. He is usually slept on a roll of paper in the back-end, when not accommodated in the local hogsties.

While in Washington she visited that famous dean of the traveling typographical clan, "Weenie Willie-Winkle-of-Walla Walla, Wash., a penigrating painter and a good one too, 'gosh."

Miss Fuller is now more or less safely home in the Record shop again, puttin' 'em on and takin' 'em off the ancient platen press in the back end. She reports that the mountains were quite high out that way, but the tourist-camp rates were very much higher.

Ye Old Brass Spoutoon
At the end of the east counter in the Yakway Chocolate Shop at 110 East Front, showed for some season back in a cone, is an ancient brass spoutoon of the "high boy" type, the gift of one of the Chocolate Shop forces to the proprietor, Louis Jakway, on a recent birthday.

Once standard equipment at all public places, including county court houses and in the halls of state as well, the high-brass spoutoon is now a rarely seen relic of the chthon tobacco era.

Mr. Jakway is not an inveterate chewer, but he does take a chaw once in a while as an occasional hangover from the days when he was a crane chauffeur in the rough and tough Clark Foundry where men are always men, although they have a hard time keeping up with the women now. He explains that he was forced to take up the chewing practice there as a means of self-defense against Fern Hess, who was then a foundry superintendent. Hess used to try to hurry up the crane by standing underneath Jakway's airy perch and shouting encouragement.

Jakway found that a well-directed shot of Star Plug ended that, and he became so expert that Hess had to stay in the other end of the foundry. Jakway's accuracy gave rise to the legend that he actually invented radar before the army ever heard of it. Recently he took a chaw and stated (Continued on Page 4)

You Can't Vote Next Fall Unless You Re-Register

Must Be Done Before Oct. 16
Of Present Year

No Buchanan voter, however qualified for the ballot by age, citizenship or residence, will be able to vote in the general election on November 19, 1946, unless he or she qualifies by re-registering not later than Oct. 16.

It will of course be convenient to him or her if this is attended to well in advance of Oct. 16. In other words, it will be convenient to all concerned if you take care of the matter in the near future. Otherwise, if the majority wait until the last week, there may be a madhouse at the city hall and some may not get re-registered.

This necessity is the result of a recent law enacted by the Michigan legislature extending the former application to cities and towns of less than 5,000 population (1940) and to rural communities. Previously the application was only to towns of over 5,000 population.

Under the new system it is expected that to an extent permanent registration will become automatic. It requires that if you should leave Buchanan to move, to let us say, St. Joseph, you must notify the city clerk of your future place of residence before leaving. The city clerk of Buchanan will notify the city clerk of St. Joseph and he will send a card to you at your new residence, requesting you to register there at once. Then the remainder of the carry-through will be up to you.

**Mrs. Martha Boone
Honored At Party On
Her 95th Birthday**

Buchanan's oldest resident, Mrs. Martha Boone, was 95 years old Monday and was complimented at a reception in the parlors of the Church of Christ at 4 o'clock Sunday afternoon under the auspices of the women of the church of which Mrs. Boone has been an active member for nearly 70 years.

Mrs. Boone is in good health and is active and helps with the work in her home at 265 Berrien street where she has lived 37 years. Her sons-widow, Mrs. Nellie Boone, lives with her. For many years Mrs. Boone's hobby has been gardening and she still has a flower garden which she cares for herself.

She was born Martha Myler July 8, 1851, daughter of Mr. and Mrs. Calvin Myler, pioneer farmers who settled in St. Joseph county, Ind., in 1836. She was one of a family of ten children, of which she and a brother, Charles Myler, St. Louis, Mo., are the only ones living.

She remembered, as a small child, shaking hands with Abraham Lincoln when he spoke at the old fairgrounds on Portage Prairie road and recalls attending singing school in the Portage chapel, which still stands.

When Mrs. Boone was 18 years old she was married to James A. Boone and they resided on a farm near the Myler homestead until 1881 when they came to Buchanan. Mr. Boone died in 1933, just a year after he and Mrs. Boone celebrated their 63rd wedding anniversary.

Mrs. Boone's two children are dead. She has three grandchildren, three great-grandchildren and two great-great-grandchildren.

**22 Members Attend
Monthly Meeting Of
Methodist W. S. C. S.**

The monthly meeting of the Methodist Women's Society of Christian Service Wednesday afternoon in the church parlors was attended by 22 members. Miss Lena Leiter spoke on "Women, The Trustees of the Future."

Plans were made to attend the W. S. C. S. district meeting Aug. 8 at Crystal Spring camp ground near Summitville. The group voted to omit the August meeting and to hold a garden party at the parsonage on Sept. 4. In charge of the affair will be Mrs. Jay Woolley, Mrs. B. M. Montgomery, Mrs. Arthur Ross and Mrs. George Fanning. An attendance contest will be held starting in September.

Refreshments were served by the hostess committee and Mrs. Mann was chairman.

**Marian Blake Is
Graduated From
Mercy Hospital**

By an oversight, the name of Marian Blake, daughter of Mr. and Mrs. Kenneth Blake was omitted from the list of graduates at the commencement exercises for the Mercy Hospital (Benton Harbor) school of nursing at the Benton Harbor Congregational Church.

Miss Blake was one of the local girls who entered under the Cadet Nurse set-up organized by the government to secure nurses for military service. That was abolished by the government several months ago, but Miss Blake continued training for civilian nurse work. She continues her studies and practice until September.

**2 Midget Softball
Teams Organized**

**Moose, Donleys, Church of
Christ Victors In League
Play**

Tuesday
Co-ops, 8 Church of Christ, 2 - V. E. W., 1 Last Friday night the Moose team defeated Hi Grade in a forfeited game. It was the first forfeit this season. At game time the Hi Grade had only seven men ready to play. It was the first win of the season for the Moose. However, they are a much improved team over previous weeks, having added a couple of players and they will be in there working on the second round of play.

The second game of the evening was a victory for the local V. E. W. team over Bungaloon Inn from Galien. The score was 8-5. Walters pitched for Galien and Easton for Buchanan. Hitting stars for Buchanan were D. Opa, St. Graham and Proorka with two base blows each. Lee Topash smashed a long triple in the third inning scoring two men ahead of him.

On Tuesday evening of last week the Donleys defeated the Co-ops 11-8 and the Church of Christ defeated the V. E. W. team 2-1.

Midget Softball
The small boys are really taking an interest in softball and at the present are organizing their teams. The two teams already set up are the Tigers and the Cubs. Last Wednesday night the Cubs defeated the Tigers 29 to 13. The hitting power of the Cubs big guys Joe Letcher and Henry Stoneburner, was too much for the Tigers. However, they will be playing again tonight (Wednesday) and the tables may be turned. The third team has been organized and more boys are coming out, so we may have four.

The boys practice every Monday, Wednesday and Friday afternoons at 1:30.

Heat Wave Spurs Rapid Growth Of Buchanan Corn

Combines Will Enter Ripe
Grain Fields This
Week-End

Corn, a shade behind that classic standard of "knee-high by the 4th of July," has been making up for lost time in the past ten days of hot dry weather following the abundant rains of June, accepting the management of Robert Koengshot of Buchanan Co-ops, Inc., who arrived home from a short vacation in Chicago Sunday, still able to sit up and get a look-see at crop conditions on his return.

The crop is likely just a little behind normal in progress but with a continuation of warm weather and some rain in another week it will catch up. The weather has also been favorable to wheat ripening. Harvesting by hand is completed in the Buchanan district except for some fields of late oats, but by far the greater part of the grain here is waiting for the combines which have just about shouldered the binder from the field. The combines will take up the bulk of the harvest the latter part of this week.

The raspery harvest, now just past the peak, is one crop that probably had more hot weather than it needed, and it is likely that the gross returns will be diminished somewhat by the weather.

While no prices on grain have been increased at the Buchanan Co-ops since the demise of the OPA, scattering reports from elsewhere indicate a wild upward break, with as much as \$2.25 per bushel being offered.

He married Nellie B. Stearns at Hills Corners June 15, 1898. She died Sept. 11, 1933. He served as county supervisor from Weesaw township for ten years. He was affiliated with the Galien I. O. O. F. Lodge No. 347 and served as financial secretary of the Galien Silver Link Rebekahs 30 years. He was also a member of the Buchanan I. O. O. F. Encampment lodge.

He entered the employ of A. P. Sprague as filing station attendant in 1942, and remained there until his illness six weeks ago, with the exception of about two months spent in Florida each winter.

**Boys Make Dam
For Swimming At
Athletic Park**

Swimming Supervised There
Only On Saturday
Afternoons

The Park Board held their meeting in the city hall Monday evening. It was decided by the board that umpires and balls will be furnished only for league games. Outside teams scheduled by the local team play here on Friday nights. The date can be arranged by scheduling it with Recreation Director Lester Miller.

The creek in back of Athletic Park is used quite extensively every afternoon for swimming. This is not part of the recreation program carried on at the Park, and no adult is there who is responsible for the activity. However, it is too far removed from the rest of the activities for continuous supervision.

But beginning this Saturday and every following Saturday afternoon from 1:30 to 4 o'clock Mr. Miller will be in charge. Remember, parents, if you want your children to swim there when someone is in charge, then send them only on Saturday afternoon. Any other day in the week there is no person in charge of the swimming.

Harvesting Wheat Too Early Will Bring Price Loss

Market Centers Announce
Scale Reduction For
Excess Moisture

Heavy dockages announced for undue moisture content in wheat should influence Buchanan growers to pick their harvest time carefully, states Robert Koengshot, manager of Buchanan Co-ops.

Wheat must grade no more than 14% moisture to rank as No. 2. After that the deductions start as follows: 15 1/2%, 4 cents a bushel, 16%, 5 1/2 cents a bushel, 16 1/2%, 7 cents a bushel, 17%, 8 cents a bushel.

These higher percentages of moisture can be avoided by waiting until the wheat is sufficiently ripe, and by avoiding combining it too soon after rain. When present these percentages mean loss, for the wheat cannot be stored without spoilage, and if marketed it will be docked in price. Price deductions are due to the cost of running the grain through a dryer before storage, which the purchaser must do.

It is expected that combining will begin this week-end, and some growers have announced that they expect to market immediately. A little caution may save them money, states Koengshot.

The price offered Tuesday at Buchanan was \$1.93 per bushel on five-day delivery basis. The ceiling when the OPA expired was \$1.88.

city on the campus any more. On the contrary, during the past semester there were a majority of men students—for the first time in the history of the school. The ratio was 53% men to 47% women. "When I was there before going into the army," says Richards, "the ratio was more like 30% men to 70% women." There were 1,100 men in the school, in the past semester. Next year, 1,800 men are expected in a total enrollment of about 3,500.

A large number of these veteran students are attending Western Michigan to get pre-medical, pie-law, pre-engineering and other preliminary courses before taking up professional training in the universities. Most of them seem to be headed toward the professions. Popular selections are law, medicine, dentistry, mechanical engineering and business administration.

Returned service men who are picking up the thread of education again are not only doing better than they did before military service, but, by and large, they are the honor students in the schools they attend, according to George Richards, who completed his training at Western Michigan College of Education at Kalamazoo this last year and takes up a high school physical education job in the fall.

Other veterans attending W. M. C. this past semester were Richard Donley, Bud Matthews, James Hausman and Lowell McMullan.

Very few of the veterans experience any of the much-talked-about difficulties of readjustment. They go back to school with a will and a purpose and with very definite goals in mind. Their minds have been broadened and sharpened by what they have seen and gone through all over the world. They tend to be more critical of the teaching and more inclined to challenge the instructors than are the younger students. But they promote hot discussion and they make the classes more interesting, although they tend to "get in the hair" of some of the teachers.

Girls? Well, many of the boys out of service are married and they are wearing the blinkers not only dutifully but willingly. The wife who consents or encourages the further education of her husband a \$90 a month government stipend usually has her heart in the business too and she helps her husband. And for the rest, those three or four years in military service have built up an age gap between the veterans and the girl students. And that gap seems more like eight or ten years than the three to four years that it actually is. They've seen more than the callow youth, their horizons and experiences have been widened. It's typical, says Richards, for the girl students to side with the instructors against the vets in arguments. And the vets get the idea that the gals haven't got their feet on the ground. They are just younglings and anyway they haven't any time to fool around.

As the result, it is common for the vets to stick to their lasts in study, and to resist being "sued" into the outside "students' activities."

"These girls seem so young," said one student, "We can't tell the difference between them and the Kalamazoo high school students." However, there's no man scar-

brother of the bride, Delbert Lawson, and John Roman of DeKalb. Following the ceremony a reception for 200 guests was held in the alcove of the church after which the couple left on a wedding trip through Wisconsin.

Reports WBA Convention Highlights of the state convention of the Women's Benefit Association in Grand Rapids the last week in June was given by Mrs. Harley B. Squier during the meeting of the Buchanan review Tuesday evening in the W. B. A. hall. Mrs. John Luke, president, conducted the meeting and appointed Mrs. Anna Boles as sergeant at arms. The program was a general store, a couple of bars, and a filling station. The land is quite level and all that grows is sage-brush, bunch-grass and snakes. The cattle live off this bunch grass, which is about their only food in dry season. Chuck wagons, and cowboys, complete with ten gallon hats and chaps just like my childhood ideas of such things, could be seen riding herd over hundreds of acres of cattle in the fields of Wyoming and South Dakota. We saw many pheasants in Wyoming we saw the first real mountains, the Big Horn Mountains. Of all the mountains, I believe, these were the most scenic. The canyons were really deep and rocks on the sides were beautifully colored. Here most of the roads were one-way traffic, gravel, and the sharp curves had no guard rails. We saw our first snow hills and the elevation was 9,666 feet compared to our elevation of 600 to 700 feet. At one place where we stopped to eat there were buffalo, antelope and deer tracks. We stopped at Ten Sleep, a small village at the base of the mountain, and were informed it was 30 miles to the summit. In the mountains you travel ten miles to make one mile.

Next week we travel through Yellowstone National Park and west to Seattle, Wash. (To Be Continued)

Member Locates Land Of Plenty

Out West Where They Get The Breaks — Also The Steaks

Having returned from the West, where the steaks are piled high in the counters, butter can't be bought in less than 1-pound lots, where bread lines are nearly unheard-of and flour can be bought in 50-pound sacks, I yearn to return to the "land of plenty."

Traveling through Illinois and Iowa, where corn is the principal crop, the land is gently rolling. There are fewer and houses are farther apart. One particular field of corn was one mile long and reached as far back as the eye could see. Practically all the corn is hybrid. The countryside showed signs of being very prosperous with its large well-kept farm houses, and buildings.

Leaving Route 30 at Carroll, Ia., and traveling north to Route 20 at Sioux City (Sue's home town) we saw a number of Swift meat packing houses. Here we were able to buy our first steak. Traveling north into South Dakota to Sioux Falls and across into the Badlands the land is level and the temperature was 105. Your lips became dry and parched from the hot dry wind that seemed to blow continually. The houses were farther and farther apart and more cattle, sheep and hay crops were seen. Here the corn was disc-planted in furrows of 6 inches to get deep roots because of the dry weather. Wherever a group of trees could be seen a house could be seen also. Sometimes those houses were miles apart.

Entering the Badlands at Cedar Pass, jutting, massive rock forma-

tions between 150 and 300 feet high bordered the road. Variations of red, yellow and green ran horizontally along these rocks. The entire area is without any vegetation except for a few spots of grass and sage brush.

In Civvies Again

Robert Habicht has received his discharge from Naval service and is now enjoying a vacation and rest at the summer home of his parents, Mr. and Mrs. Frank Habicht, at Diamond Lake.

While in service he spent most of the time in command of an LCI boat in the southern and western Pacific. Since his return to the United States in February, 1945, he had been an instructor in navigation in the Naval R. O. T. C. school at the University of South Carolina, Columbia, S. C.

The Sailor and His Ship
Sailors are funny that way—

whether they like the Navy or like the life, they all plug for their ship.

We remember how Harvey Jackson, killed in the war in the Pacific, talked about his ship, the carrier Wasp, on his return home after the famous carrier had been sunk in the South Pacific. The Wasp had been a charmed ship, there was some sort of protecting fate over her until that last torpedo. She had gone into the Island of Malta in the Mediterranean when that British fortress was getting the most terrific aerial bombardment of all time from German planes at nearby Italian bases.

But, strange, not a single German plane came in sight while the Wasp was at Malta. Ships

were torpedoed before her and behind her as she entered and left the Mediterranean. The legend had grown of the charmed life of the Wasp.

Which is a long preface to telling about the return from Naval service of LeRoy Mikesell, who is at the home of his parents, Mr. and Mrs. Lloyd Mikesell, after having been discharged from a year and three months of service, most of it spent on the big oil tanker Chikaski, in the southern and western Pacific.

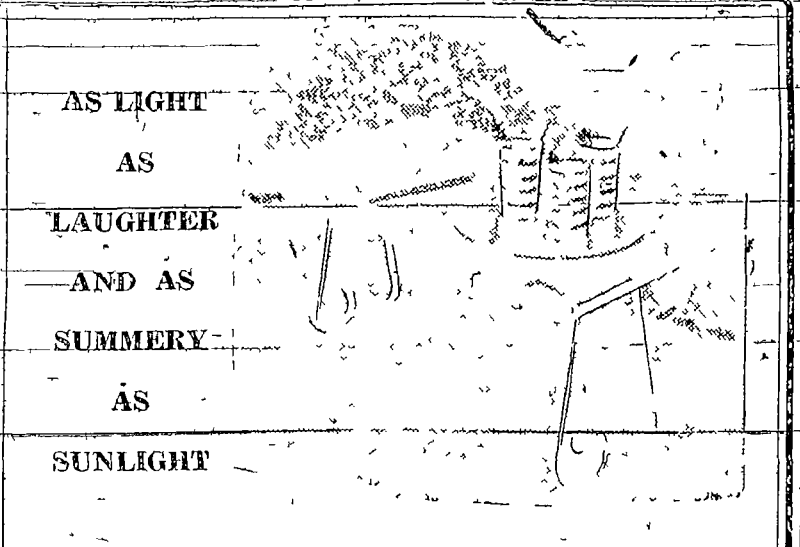

"I'm sure glad I was on that ship," said Mikesell, "she was the best ship in the whole Navy."

He didn't care much for the service and he didn't like the heat of the Pacific—but he sure liked his ship. She was the biggest tanker in the service.

As far as the Navy was concerned, well, it wasn't so bad. He was glad he'd been in and he was glad to get out. These guys that want to sign up for four years more can have it.

Staff Sergeant Lawrence R. Rutan is home again with his family on the Red Bud Trail following discharge from army service at Fort Sheridan, Ill., after service with a medical unit in Luzon and Japan. Before returning to his work in Niles he will accompany his family and his wife's father on a delayed trout fishing trip in the Canon City district west of Colorado Springs, Colo.

John Lockey entered the hospital at Ann Arbor June 26. He is receiving treatments for poisoning from arsenic of lead. His condition is fair.
