Settle Up. All persons indebted to the late firm of French Brothers, either by note or account, are hereby notified to settle the same immediately with W. D. Kingery, in whose hands the books and notes have been turned over for collection. J. C. FRENCH, W. D. KINGERY. Buchanan, April 13, 1870.

The subscriber is giving instructions in instrumental music, and desires a few more pupils in Buchanan. For particulars and terms apply to Miss LIZZIE WHITEHEAD, Buchanan.

All persons indebted to the undersigned are hereby notified to call at my office and pay up. Those having been "dunned" twice, whose accounts remain unpaid for 30 days from this date, will be placed in the hands of an officer for collection. C. S. & H. S. BLACK. May 1st, 1870.

RELIGIOUS.—Elder N. Castle will preach in the United Brethren church next Saturday evening, also on Sunday and Sunday evening. The meeting will take the place of the regular Quarterly Meeting. All are invited.

FOR SALE.—A pleasant house and lot for sale. Enquire at the Record office.

RENTION.—The Fifth Annual Reunion of the 12th Mich. Veteran Infantry is to be held at Lawton on Thursday, August 25th.

FIFTY-TWO THOUSAND acres of California land for sale; also good business houses for sale in Buchanan, and they must be sold. Enquire of J. M. Matthews, at the Commercial Center.

REMOVED.—Messrs. Clark & Alexander have removed their stock of goods from Roe's brick into their old stand. Their store room has been thoroughly refitted and re-painted, and altogether presents a finer appearance than ever before.

RACE.—A race course will be on the Park Association grounds on Saturday, between Pat Van Zandt and the horse Tom Brady, for a purse of \$800. The Prof. is to walk half a mile while the horse trots on for a quarter miles.

CHANGED.—DENTISTS.—Dr. G. A. Howe has disposed of his dental business, and also his building next door south of the Record office, to Dr. J. M. Wilson, of Niles. Mr. Wilson comes highly recommended as a first class dentist.

FOR SALE.—Four foot Beech and Maple wood, and Ash, extending from 4 1/2 to 6 feet long. SMITH, BOSTON & CO. 151.

CONTINUING.—Our Marshal is continuing the good work of improving the streets by new sidewalks and such like. The walk on the east side of Day's Avenue is being continued to Front street.

FACTORY.—Messrs. Richards & Fox are building a factory on Day's Avenue, next door to their lumber yard, for the manufacture of a patent Clothes Bar. This arrangement is undoubtedly one of the best things of the kind that has ever been brought before the public. We wish this firm great success in their new enterprise.

POPULATION.—Assistant U. S. Marshal, Hon. J. M. Glavin, has, as we go to press, completed the census of the village. He has on his list 1710 names. This is much below what has been the usual estimate, yet we fall no farther short than do all the towns and cities of the country.

TOWNSHIP CAUCUSES.—Our Township committee should make their calls as once for Township Caucuses. The people here have a fair opportunity of expressing themselves where the calls for caucuses are made at the last moment. It always looks like some "snap judgment" will be in the wind. Make your calls early and you can find fault.

FOR SALE.—A yoke of extra large size Oxen, suitable for heavy work or beef. Apply to William Spooner, Weasav, or, William Osborn, Buchanan. 22w3

FIRE.—On Saturday, about 1 P. M., the alarm of fire was sounded. The cause was soon discovered to be the blacksmith shop on Mr. A. Ingall's premises, corner of Front and Portage streets. It seems the fire caught in some straw in the basement, which was used as an ice house. The citizens were promptly on hand with pails, and the engine too was soon on the grounds, and the fire was speedily extinguished. The damage was slight, the greatest being to the ice of Messrs. Howard & DeMont, which had to be removed.

NEW FIRM.—Rogers & Himes is the name of a new business firm that will open in a day or two, in Roe's corner brick. The stock of furniture lately kept on Oak street, by Mr. Himes has been removed to this new place of business. This firm will also keep on hands a stock of dry goods, notions, clothing, etc. Their prices will be down decidedly low.

Editor Record:—Having just finished taking the Census of your beautiful and well-ordered village, allow me through your columns, to express my sincere thanks to its citizens, and more especially to the ladies of Buchanan, for the intelligence, promptitude, and kindness, with which they invariably imparted the desired information, thereby materially lightening the labor of taking the Census. Sincerely hoping that Buchanan and its citizens may enjoy an uninterrupted career of prosperity. I am, very respectfully, yours, JOHN M. GLAVIN, Assistant U. S. Marshal, Buchanan, Aug. 20, 1870.

To THE PUBLIC.—Having decided to go West, I have many articles of household furniture and goods, that I must of necessity dispose of, as I cannot move them. Such as Bedsteads, Wash Stands, Lamp Stands, Dressing Bureau, Couch, Chest Table, Extension Table, Chairs, a Dining room and a Parlor Stove, with pipe, Stand, Jars, Washtubs, &c., &c., &c. Many of these articles are nearly new, and will be sold cheap. Persons wishing such articles will do well to call and examine them. Personal friends seeing this notice, will confer a great favor upon me by circulating it. J. M. BERRY, Buchanan, July 20, 1870. 23w2

These celebrated Lulliputians, assisted by a troupe of talented artists, among whom is one of their own sisters, Miss Lottie Nestel, pianist; Mrs. Russell, the charming soprano vocalist; also Mr. Gilford, the great violinist, will give one of their grand entertainments at Collins & Weaver's Hall, in this village, on Saturday afternoon and evening of August 6th. The Kalamazoo Telegraph says of their appearance in that place: "Commodore Foote and Troupe appeared at Union Hall yesterday afternoon and evening, and every body who saw the little folks were delighted. The Commodore and his sister are small in stature, but in business they are not to be surpassed in the biggest city in the country. Their entertainment was perfect throughout, and we take pleasure in recommending their entertainments to the public wherever they may go. They are just what they are represented to be, and never fail to give satisfaction to all. We hope that we may again see them in Kalamazoo."

NEW SYSTEM.—The Presbyterian Church has adopted a new system for the payment of all expenses, by means of weekly contributions, through envelopes, which are furnished to those who are expected to be contributors. The plan has the advantage of being scriptural, voluntary and easy, while it does away with those annoying objects, the subscription paper, and the contribution box.

POISONED.—A few days since a little child of a Mrs. Wilkinson, of this village, came near being fatally poisoned by drinking fly poison, cobalt. It seems that the poison had been placed carelessly where the child could get at it, and had it not been for the prompt and timely assistance rendered by the physician, Dr. Berriek, another victim would have been added to countless others. Persons cannot exercise too much care in the use of medicine, or anything of a poisonous nature when little children are about. Thousands of these little innocents are annually sacrificed at the altar of inattention.

TRANSFERRED.—Rev. J. R. Berry, Pastor of the M. E. Church has been transferred, by Bishop Scott, to the Des Moines (Iowa) Conference. The transfer took effect August 1st. Mr. Berry has traveled seven years in the Michigan Conference, and has been highly respected for his works wherever he has labored. No minister connected with the M. E. Church in this place, has ever been more universally beloved or labored harder for the success of the cause he advocated, than has Mr. Berry during the two years he has been stationed among us. Affable and pleasant in his intercourse with the people, happy in his public addresses, he has made to himself a host of friends, outside of the M. E. Church, who heartily unite with the Church in their deep regrets at his transfer to other fields of labor.

HOME INSTITUTIONS.—The way for home institutions to succeed is to put dry goods, groceries, provisions and mechanical work up as low as the lowest, and then to make the general public. Let the merchant remember that the poor man's money must pay just as many crackers or as much Parry Green as the rich man's money. In so doing the trade of the whole surrounding country may be obtained, and the money kept at home. Scriptural measure well shook down, filled up and running over, will draw immense custom.—Communicated.

STATE TEACHERS' ASSOCIATION.—The semi-annual meeting of the Michigan State Teachers' association will be held at Grand Rapids, August 10th, 11th, 12th. On Wednesday evening, 10th, there will be a public address by Prof. J. M. B. Hill. On Thursday, addresses will be delivered by Prof. B. A. Strong, Sup't of the Grand Rapids Schools, Miss Kate Brewster, of Lansing, Hon. Z. R. Brockway, of Detroit, and Prof. A. A. Griffith, of the State Normal School. On Friday, there will be addresses by Prof. H. S. Tarbell, of Detroit, and Prof. E. A. Fraser, Sup't Kalamazoo Schools. The meeting promises to be an attractive and instructive one, and Teachers generally are invited to attend. Entertainment will doubtless be provided for those in attendance, who desire it, and efforts are making to secure free return tickets over the Railroads for all members of the Association.

LIST OF LETTERS. Remaining in the Post Office at Buchanan, on Thursday, August 4th, 1870. Anderson, Mrs. E. B. Marsh, Edgemoor. Brown, Miss Sarah. Mason, Mrs. Jennie A. Boylston. Bishop, Willie. Smith, John J. Davis, Lizzie. Shop, Franklin. Harrington, F. M. Thompson, James S.

THE M. E. CHURCH SOCIAL.—The attendance was good, notwithstanding the very unpromising morning. The heavy rain the night before broke up the plan of the committee of setting the people on the beautiful grass plot selected for them, but tables were soon erected and all things went "merrily as a marriage bell." None enjoyed the day more than the Pastor and his personal friends, who, without the least knowledge upon the part of Mr. Dory, had arranged for two very pleasant surprises. The first was that of a fine photograph of the "Pastor's class," which is composed of ten little girls from nine to twelve years of age. When the company was about to disperse the Praying Elder, Rev. H. Hall, called the friends around the stand, and when all things were ready, the class, who were all dressed in white, went on to the stand, where their Pastor was sitting, and Minnie Watson, the youngest member, made the presentation speech as follows: "Brother Berry, I present you this in behalf of your class of little cross-bearers, as a token of our love and regard for you. We love you dearly for the interest you have taken in our welfare. Oh! how much we thank you for it—we trust that the blessing of God is upon you, and that you will be able to lead us to the heavenly home, and how sad it makes us feel when we think you are to leave us. But we shall never forget you, nor cease to pray for you. And as oft as you look upon these silent faces, when far away, oh! breathe a silent prayer to heaven that our feet may be kept in the right and narrow way that leads to glory, where we hope to meet our dear pastor, and all these friends here to-day to part no more."

To this Mr. Berry responded, alluding to the happiness he felt in giving them to the children in holy baptism, and in counsel directing them in the way of life. When this was over Rev. J. W. Robinson, of Albion, came on the stand, and spoke in substance as follows: "He knew the people of Buchanan years ago when he was their pastor. They not only practiced beneficence but taught their children to do the same. He was glad they had not forgotten their work of love. He then spoke of the sadness he felt in common with the people, that his brother, Mr. Berry had felt in leaving them to the hands of a holy baptism, and in counsel directing them in the way of life. He hoped that he would come back to Michigan Conference, but as he was going his friends thought that he needed something to go with. Mr. Robinson then, in his happy style, presented Mr. Berry, in behalf of his friends, a purse of \$90. The response of Mr. Berry was as appropriate as the surprise and his emotions would permit. Mr. Robinson then, pronounced the benediction, and the social closed, all feeling that it had been good to be there. WILSON'S Anti-Peptic. A CERTAIN, SAFE AND SPEEDY CURE FOR CHILLS AND FEVER, AGUE, DUMB CHILLS, AND ALL THE BILIOUS AFFECTIONS. It is safe because it contains no Arsenic nor Poison, either vegetable or mineral. It is certain, because THOUSANDS have tested its virtues and pronounced it a success. It is SURE, because it destroys the periodical tendency of Chills to return on the seventh, fourteenth and twenty-first days. Try Wilson's Tonic if you wish to cure your Chills, have a clear head and go about your business in a few days. It cures not only the fever, but the ague, and makes the head and blood healthy, and you like colored, nor blot your face and swell your eyes like arsenic, nor split your head and raise a Niagara Falls in your ears, like quinine. It is SAFE. Sold by Wm. Osborn, Buchanan. 21w4

County Correspondence. From Three Oaks, Aug. 1st, 1870. Mr. Editor.—Dear Sir.—Times have been somewhat dull here through harvest, yet business men are confident in having a good Fall trade, and are scrubbing, whitewashing, painting, putting up new signs, and all the rest of the good old, new boot and shoe signs, also new signs, a new hardware sign, and two new harness signs, besides some other signs, and one of the best is the signs of the times, which shines with resplendent brilliancy, not on account of war abroad, but on account of the new signs that are being responded to, from this place, which writes from Kansas says, that good religious societies are being formed there. I am glad to hear it. Such societies have been in existence here, for many years. Some of our writings do not seem to suit the Elder, and he calls them poor trash. Now, I think the Elder has infringed on the social law somewhat, and somewhat impaired my happiness. And I propose to give him a mild punishment in proportion to the evil done. For I claim there is nothing extra but what has a law to control it, and law and punishment are inseparable. Now, Elder, I decline speaking to you, until I meet you again, by eye or ever so good. Perhaps, this is too mild; if so, I will say: perhaps, our letters will compare favorably with some of the worn out manuscript that have been re-bashed and read to the people, and the people are in a good deal of a hurry to get them. And although Christianity has been established here many years, it seems, in some instances, to have been left to exert its own influence over men. Yet, Elder, I think the scholastic letters written in this section, may have had a tendency to do so, and I think it is a pity that there is not more of intellectual happiness, of which, no doubt, some have reached ere this. Based on some have infringed on the social law, and by the social law will receive punishment. I will leave his case for the present, for I don't wish to cut him off in his bloom. That Steensville snake, that bit my friend, Mr. Long, infringed on the physical law. The consequence of his act was, he died by the physical law and the man lived. The Three Oaks Base Ball Club will be very apt to receive punishment by the moral law, for using so much profane language. But to Gen. Stoughton, I cannot say what law he will be punished by, for I don't yet know what law he has infringed on. It seems that he is to receive some kind of punishment; no doubt, it will be by the Republican law, for he is a Democrat. News again: Mr. Ryther, an old gentleman and farmer, came to town with a load of apples and potatoes to sell, and when making change, he thoughtlessly laid his pocket book on the edge of the wagon box, and drove about ten rods on the street, when he missed the pocket book. He went back but could not find it. It contained about eighty dollars in money. Some one got it; and the old gentleman and some others say they are pretty well satisfied who got it. Punishment is sure to follow this act; and if the parson does not receive punishment by the judicial or natural laws, he will be fore life leaves his carcass, then I shall be inclined to think the judicial and natural laws are not in force, as to him. Truly, yours, JO. BAKER.

Reply to "Vindex."—In your issue of July 28th, under the caption of "Home Communication," is an article from the pen of "Vindex," which contains three things quite noticeable. 1st. The remarkable interest that "Vindex" manifests in the welfare of this community, especially in the manner in which he all respects be sought to correct, if not by precept, by his intimate example. 2nd. The fact that this community, favored as it is with such a prodigy of learning and purity, should be guilty of harboring feelings of "hatred, spite and jealousy," is certainly worthy of what ought to belong to a Christian people. 3rd. The fact that "some" (some one) "who, on account of the superior success of brothers in the same profession, are willing to crush the helpless and innocent, and forever blot the reputation of the afflicted and to charge her with crime without having the evidence." Now, sir, I think none need misapprehend the person alluded to in this communication, or the signature of "Vindex," as one of those who are in a "double capacity"—one who "bedecks himself in clerical robes." As no clergyman or physician in this community, except myself, act in the capacity of both, I have good reason to believe that reference was had to myself, and that this charge was unjustly and wantonly imputed to my business. It was made without just cause. I have not breathed a word, nor intimated, by look or gesture, anything against the lady referred to. When asked about the circumstances with which her name is associated, I have simply returned to the stated impression and conversations of some persons in this community, but have never denied any knowledge of my own touching the affair. I know nothing of the lady or her family. The writer of that article knew not the statement concerning her was false, he did not know it to be true, and in either case, it was false and slanderous. I pity the man who is so lost to all sense of justice or decency, as either to write such an article or comment it after it is written. It is not a question of "patty" or theology, but whether a man possessing any sense of decency, or instincts of humanity, could degrade himself to pen such an article. It is an insult to the good sense and finer feelings of a large part of this community, upon whom "Vindex" is dependent for popularity.

It intimates that there is a feeling of prejudice or jealousy entertained against him on account of his "superior success." This, sir, is false. If there is such a state of feeling as he speaks of, it has its origin in his unprofessional conduct and misrepresentation of both his brass and his gas are unimpeachable. Many honestly differ in opinion as to medicine, and yet act gentlemanly toward each other; but here is a man whose hand, like the Ishmaelites of old, is against every man, and every man's hand is against him. This circumstance is not in substance the act of a man of common perception. But he closing his eyes to the real facts in the case, claims to be a martyr in the cause and interest of humanity. But this is not all. The ulterior design of "Vindex" was, like the man in the fable, to kick up a dust to hide his own defects from the public eye, and to draw from his own blundering. But in this, he has signally failed. This community are not deceived, as he may suppose. Not that they are disposed to "crush an innocent girl." No, sir. The sympathy of this community is entirely with the lady and her family. For, if report be true, she had a narrow escape from death, not from the bite of a snake, but from the prescription of "Vindex" for the supposed ailment. Had this prescription been filled and the medicine administered, according to directions, almost instant death would have inevitably resulted. "Vindex" must be aware that the community are ventilating this affair, especially his diagnosis and treatment, and are disposed to hand it down to posterity as one of the most noticeable events of 1870. F. H. BERRICK.

From Lake Shore—Chikaming. Mr. Editor.—As you have no local correspondent in this part of Chikaming, I can not regret that the case of near Wilkinson's station, will not be well recorded in the Record, unless one, not given to that kind of correspondence, sends you the items. July 20th was the day; a beautiful forenoon, "near the Lake, where drooped" the "yellow, the red and the blue" flags, the three Sabbath Schools the participants. Teachers—Mrs. Green, of New Buffalo, for District No. One; Mrs. Pimpton, same place, fractional One, and Miss Mills, of Three Oaks, No. Three. Sabbath Schools—Methodist and Baptist in Chikaming, and Baptist from Three Oaks, were the only ones that hardly be a pleasanter spot for a picnic—previous gatherings demonstrate—that the one selected. The Grove, free from underbrush, and carpeted with grass, skirts the Lake for a considerable distance; and from the ground, looking towards the east, be seen the water, that, on that day, was calm as an infant's slumber, sublime as a great truth, and blue as the sky above. Eastward, the highway creeps north and south, while back, snug farm houses nestle among fruit trees, and the orchards are glistening in the sunlight. No one could resist the like rule, like making of the Lake view in this immediate vicinity. About ten o'clock, teams began to arrive, and in an hour the woods presented a scene worthy a painter's powers. Such a happy throng! The greatest trouble careful mothers and methodical teachers found, was to keep their charges from scattering like ducks to the water, to the detriment of gala dresses, that made them seem so much like animated flowers beneath the green trees. For, although a school picnic, age and infancy were alike represented. The matrons, of nearly 50 years, spoke their words to the laughing, laughing and laughing, and the young folks, who were luxuriating in a speech from the Rev. H. T. Ball, from Crown Point, Ind., and a very pretty recitation by Miss Bennett, from Three Oaks, the speaker was excellent, and well adapted the mixed multitude present. Keep that Ball moving for just such occasions. Elder Mills, of Three Oaks, added a few words, gracefully introducing the matter of dinner. And such a dinner! The abundance and variety of the food, the neatness of the tables, the pyramidal cakes, studded with sugary snow and garnished with flowers. Lemonade, and the barbed, rattling with ice, was the drink. One little incident, perhaps, is worth recording: Our Ball rolled away to find some water not mixed with lemon and sugar, and the water was not treated as the honored guest his services demanded. Singing followed the meal, and then those residing farthest away, turned their faces homeward. In the evening, an exhibition at the brick school house, by Mrs. Green's school, followed. It was a most interesting affair, and the pyramidal cakes, studded with sugary snow and garnished with flowers. Lemonade, and the barbed, rattling with ice, was the drink. One little incident, perhaps, is worth recording: Our Ball rolled away to find some water not mixed with lemon and sugar, and the water was not treated as the honored guest his services demanded. Singing followed the meal, and then those residing farthest away, turned their faces homeward. In the evening, an exhibition at the brick school house, by Mrs. Green's school, followed. Blake & Long. 3-17

THE MOST ALARMING SIN. If I were called to point out the most alarming sins to-day—those which are most deceitful in their influence, and most soul-destroying in their ultimate effects...

Scandal. "There is a last in man no power can tame Of loudly publishing his neighbor's shame; An eagle's wings the drunkard's wings, Whist virtues are put born and die."

Upward and Onward. "The more thorough a man's education is, the more he yearns for and is pushed forward to new achievement."

Sweet Quinine Versus Bitter. For the following REASONS Sweet Quinine should replace the old form or Bitter Quinine.

Enjoy Your Work. No man is ever successful, in its completest sense, who does not enjoy what he is doing.

Swearing. Swearing is not only exceedingly sinful, but certainly the most senseless breach of the whole decalogue.

Honesty, Frankness, etc. Honesty, frankness, generosity, virtue, —blessed traits! Be those yours, my boys, and we will not fear.

"Phungrams." Which was Right? We heard a party of grammarians yesterday arguing for half an hour over the question, "Is it right to say six and seven is eleven, or six and seven are eleven?"

"Do you mean to say, sir," said one distinguished grammarian to another distinguished grammarian, "that six and seven are eleven?"

"It are," replied the other, equally excited. Much confusion ensued, and it was feared that a collision would ensue between the two distinguished grammarians.

"Hans, which is right, and seven is eleven, or are eleven?" "Yes," replied the other, "it is 'Yes, you that is—' 'Vy, you tam foot, pesse direct!'"

"A story is told of a young man who had the faith in Watts' hymn book, and was fond of saying that he open to any page would appropriate hymn."

"There was another sensation in the choir, said it again, 'Brethren, it is here in the regular order in Watts' hymn book, and we will sing it now.'"

WHAT PADDY WOULD do of young men were telling what they would do were they shipwrecked far out upon the sea, and left buffeting with the waves without a plank to sustain sleeping Paddy Murphy, who, after being asked for his reply, 'Bad cess to you, for a cowardly set of spalpeens; ye'd all be after savin' yourselves, and not tryin' to save another. Why, it's Paddy Murphy that would swim to the shore an' save himself, an' thin come back and try to save another.'"

An old gentleman named Gould having married a very young wife, wrote a practical epistle to a friend to inform him of it, and concluded thus: "So you see, my dear sir, though I'm eighty years old, a girl of eighteen is in love with old Gould."

WOMAN'S RIGHTS.—The right to vote; the right to dress to be in the fashion; the right to spend all their husband's money; the right to get married to a man with more money than brains; the right to get a divorce to marry somebody they like better; the right to scold their husband when he won't give them any more pin-money; the right to run around with other men; the right to be free lovers and draw other men in and let them get shot for their pains; the right to be pious, and after church is out to go with queer company; the right to do as they please and be let alone.

A French priest, lauding the superior virtue of a religious over a civil ceremony of marriage, recently declared that every union he had blessed had prospered, and produced the following letter in proof: "Respected Sir—Since we received your blessing we have been so completely happy that, after ten years of married life we have just welcomed our twelfth baby. Under these circumstances, my husband joins me in the prayer that you would kindly withdraw your benediction."

Not bad for a little girl of ten, whose knowledge of geography is somewhat imperfect, on hearing her father speak of going to the polls to vote, she very innocently inquired "if the people of the tropics voted as the equator?"

A politician boasted that he could tell any kind of wine or liquor, blindfold, merely by the taste. He was tried with one kind after another, and readily named them. At last a glass of water was handed him. He tasted it, hesitated, tasted it again, and then he said, "That is a brand of liquor I never got hold of before."

"Mother," said a little girl who was engaged in making her doll an apron, "I believe I shall be a Duchess when I grow up." "How do you ever expect to become a Duchess," asked her mother, "and then her father gave it up." "That is a brand of liquor I never got hold of before."
