COAT OIL.—It is to be found in this part of Michigan. The Herald is informed that on the lands of Fabian Miles and Nathan Johnson along the Paw Paw are signs of oil as favorable as those which led to the Petroleum discoveries in Pennsylvania. Enough of the oil has been gathered to test its flammability, and no doubt exists of the true character of the oil. An organization is said to be forming to develop the signs. The local editor has long been of the opinion that petroleum could be found in this vicinity. Many a time, on the lake he has observed the surface for acres covered with oil, indicating the existence of flowing springs under the surface of Lake Michigan. —St. Jo. Herald.

ASHMA is speedily relieved by Barr's Pectoral Elixir.—Sold by Osborn.

FOR SALE.—A pleasant house and lot for sale. Enquire at the RECORD office.

GATHERING IN.—Nineteen persons united with the Benton Harbor Congregational Church, last Sunday. On the same day a similar number joined the Baptist Church. Nineteen have entered the M. E. Church, according to their rules, and the number of conversions in this revival is estimated to be 150 to 155. The protracted meetings are discontinued.—St. Jo. Herald.

ACCIDENTALLY KILLED.—T. Page was hunting by moonlight for rabbits in the vicinity of Brecksville. A rabbit ran into a log, Page laid down his gun, got on the log and drew his gun after him. The lock caught, and the gun was discharged, the shot entering his head. He died in an hour.—St. Jo. Herald.

Barr's Pectoral Elixir stops a cough at once and cures a cold in a few days.—Sold by Osborn.

WE are informed that the meetings at the Congregational Church are to be resumed, and that the pastor intends to secure the assistance of Rev. Mr. Walton, of Benton Harbor. —St. Jo. Traveler.

WE are pleased to learn that Miss Lizzy M. Haskell, daughter of Dr. L. P. Haskell of the Lake Shore Road, secured the prize offered by the American Agriculturist, for the best piece of stocking darned. This is quite a compliment to Miss Haskell as the offer extended to all ladies in the United States, and the competition actually embraced twenty-nine states and territories.—St. Jo. Traveler.

NILES AND SOUTH BEND RAILROAD.—Track laying upon the Niles and South Bend road commenced at this point on Thursday last.—Niles Democrat.

THE best treatment for Group is Barr's Pectoral Elixir.—Sold by Osborn.

HON. DANIEL BLACKMAN, Judge of this Judicial Circuit, who has been a resident of Cassopolis for many years, has rented the Goodman property on Third street, and will in a few days remove to this City to make it his permanent home. This is an announcement we are glad to make. The Judge's locating here is an acquisition to the place of which all our citizens should be and doubtless are proud.—Niles Republican.

WAGONS! WAGONS!—We make this offer for 30 days: Parties wanting wagons can have one year's time by giving good notes with approved security, drawing 10 per cent interest, or 5 per cent off for cash. D. E. BRADSHAW & Co.

Those who are afflicted with throat, lung, liver or heart diseases will remember that Dr. W. C. Chas. Price has regularly visited our city for the last ten years, has by energy and skill, built up a practice that is almost marvellous. His treatment of chronic diseases has been made a specialty, and in this he has gained a reputation second to no physician in the West. Many who had given up as beyond the aid of medical skill, have been permanently cured by Dr. Price. Although the Doctor does not pretend to cure all diseases, yet he is generally able to help, if not entirely restore such to permanent health. Let the afflicted give him a trial and test his ability to treat diseases. This Doctor will be at Niles, Reading House, Sunday and Monday 5th and 6th of March.

Barr's Pectoral Elixir never fails in Coughs, Colds, Hoarseness, &c.—Sold by Osborn.

More Philosophical Questions. 1st. How much power will it require pushing horizontally to roll a ball weighing 100 lbs. up an inclined plane of 45 degrees; and how much when pushing in the direction of the incline? 2d. If a hole were made through the earth and a ball fell into it where would the ball go to? 3d. Which way would there be the most strain on a rope, when one end is tied to a stump, and a yoke of oxen pulls at the other—or when a yoke of oxen pulls at each end? W. G. B.

It is supposed by many that if a beam be balanced by weights suspended from its ends it will always attain a horizontal position. This is true of the common balance, because the center bearing of the beam is above the line of the center of gravities. But if the weights be suspended in a straight line and the weight be balanced in a horizontal position of the beam, the beam would stand in any position you might leave it, whether horizontal, oblique or perpendicular; just as a wheel will do that is balanced.

I here give a rule by which such questions as the foregoing can be determined. Mechanics and others would do well to make a note of this rule as a proper knowledge of it would save a useless expenditure of thousands of dollars every year: RULE. For finding the effective length of a lever: Draw a straight line through the point at which the force is applied, and in the same direction that the force is exerted, and the perpendicular distance from such line to the point on which the lever turns, is the required length. W. G. B.

DRAKE'S MINSTERIES.—This new Mineral Group, just organized at this place, will give one of their entertainments at Collins & Weaver's Hall, on Monday evening of next week, Feb. 20th. We are assured that the entertainment will amply repay all who may attend. The "Boys" have spent considerable time in preparing themselves, and we trust the love-loving public will give them a rousing house on Monday evening.

LOSERS.—The sleighing of the last few days has enabled many of our saw mills to become thoroughly stocked with logs. We have noticed large numbers drawn to the mills in and near town.

PRIVATE NOTES.—We trust our correspondents, or any one else, when writing matter for publication, and other matter only intended for the Editors' eyes, will write the private matter on a separate sheet of paper. Don't forget it.

BRIDGE TIMBER.—We were down to the river bridge the other day, and noticed "heaps" and "piles" of timbers for the new bridge. From the amount of timber on the ground we should judge that it was the design of the Commissioners to have a substantial structure erected—one that will be good in all its parts.

PRIZE DECLARATION.—There will be a prize declamation at the Union School, on the afternoon of Friday, Feb. 17th. The prizes will be contended for by seven of the young gentlemen of the school. 1st prize, "Dr. Kane's Arctic Explorations," 2 vols. 2d prize, "Richardson's Beyond the Mississippi." Prizes to be awarded by three judges chosen, by the speakers, for the purpose. S. P. BARRETT, Principal.

BUSINESS CHANGE.—Messrs. Blake & Long have sold out their stock of groceries and provisions to Mr. H. H. Kinyon, who will make an addition of a new stock thereto, and open the same for sale next week, after a thorough re-stocking of the store room. Mr. K. understands the grocery trade, and doubtless will do a good business.

HINDERED.—Mr. J. C. Welch has a fine stock of jewelry and watches on hand, but has been hindered in getting out his price list on account of some delay in correspondence with the American Agriculturist, for the best piece of stocking darned. This is quite a compliment to Miss Haskell as the offer extended to all ladies in the United States, and the competition actually embraced twenty-nine states and territories.—St. Jo. Traveler.

AN EMBROGLO occurred in this village on Monday night of this week, between the runners of the Bagle Hotel and the Tremont House. The cause of the collision we have not learned, and the only evidence that remains of the pugilistic exercises, is a scar on the head of one of the participants.

GET your cards, tags, bill heads and envelopes printed at the RECORD office. We never fail to give satisfaction.

CIRCUIT COURT is now in session at Berrien. Most of the cases on the calendar are "for trial," and considerable business is expected to be transacted.

SLEIGHING is splendid in this vicinity at present. Now is a good time for those who have promised us wood on subscription to bring it along. We want twenty cords of four foot wood. Our friends responded well to our call for wood a few weeks ago, and we trust that, before many days, our wood house will again be filled.—Since the above was in type our sleighing has taken a thaw, and bids fair to take its departure.

NEW SCHOOL HOUSE.—The drawings of the new school house may be seen at Osborn's Drug Store. The building is to be 58x78 feet, and 68 feet high to the top of dome, three stories, besides basement, with a seating capacity for 540 scholars. When completed it will not only supply a need long felt, but will be a credit to our village, of which our citizens will feel proud. From the way the School Board are at work, we see no reasons why the building will not be completed in time for next winter's school. There are now on the ground 255,000 of the 350,000 brick which will take for the building, and the balance will be delivered promptly this week; 45 cords of stone for the foundation are mostly on the ground. The contract for the erection of the building is to be let on March 1st, as will be seen by notice in another column.

In regard to the inquiry of "W. G. B." about the doubletree question, I will say that it is my opinion that the horse which is behind has to pull the most of the load. Whether correct or not, I base my opinion on the ground that the horse behind pulls against the hammer, and not so much against the other horse.

The debates at the lyceum at district No. 4 are very well attended and are growing in interest. The question discussed last Thursday evening was: Resolved, That more knowledge is gained from reading than from observation. More anon! OBSERVER.

FROM BERTRAND. Feb. 12, 1841. EDITORS RECORD.—I will attempt to give you a report of the Bertrand Sabbath School, organized Feb. 5, 1871. The following were the officers chosen: J. T. Searles, Superintendent; Isaac Bennett, Assistant Superintendent; D. O. Highy, Librarian; J. A. Ryland, (teacher of day school) Secretary, and O. Whipple, Treasurer. Rev. Dr. Wilkinson, Capt. La-piere, and Bros. Reed and Roberts from Niles were in attendance. We were glad to notice so many of the young girls and boys present who graced the school with their lady-like and manly behavior. There were 93 little girls present.—The fathers of the children were present, but their mothers did not attend. Parents should encourage their children in these exercises by accompanying them to the Sabbath school. —Sincerely yours, C. W.
