

The Berrien County Record.

W. D. WAGNER, Editor. THURSDAY MORNING, NOV. 30, 1871.

WHAT SHALL BE DONE WITH THE INDIANS?

Serious troubles are again being had with the Indians in the Southwest. They seem utterly irreconcilable especially the Apaches. They will not remain on their reservations, and so harass the frontier with their ceaseless wars and hostilities that it discourages and prevents every variety of desirable investment.

The second session of the Forty-second Congress will meet on Monday next. A vast amount of work is already laid out. There are over eight hundred bills and resolutions that were referred to committees at the last session.

The reduction of taxation and duties, so far as the interest of the government will permit, is imperatively demanded. The Secretary of the Treasury will issue a notice, in a few days, calling in between two and three millions of the three per cent bonds held by the banks.

General Gorhoff will shortly act as Charge d'Affaires of Russia until a successor to Catecazy shall be appointed, the functions of the latter having ceased. D. R. Raley has been appointed agent for the Indians of the Upper Platte, Yellowstone Agency; H. K. Johnson, Internal Revenue Gauger in the Third Ohio District; William P. Whitson, Assistant Assessor in the Seventh Indiana District.

It is said by gentleman recently arrived from Utah that Minister Schenck's connection with the Emma Mining Company as one of the Directors is of recent occurrence. Senator Stewart is, or was recently, in London on business connected with the mine.

The Commissioner of Patents Friday extended the patent of Geo. W. Ranston, of Indiana, for the cotton and hay press. New York, Nov. 26.—The Times today says Mayor Hall will shortly be arrested on a similar complaint to that under which his fellow conspirators now await the course of justice.

The Mayor of Brooklyn has notified the authorities of Chicago that he has \$25,000 for the needy of that city. The official count elects only two Tammany Aldermen, Gowen and Plunkett, who are alleged to have been counted in. Complete returns, from Wis. all official but two votes—Shawano and St. Croix—on the vote for Governor, show 78,302 votes for Washburn to 68,920 for Doolittle, against 69,502 for Fairchild and 61,200 for Johnson two years ago.

The reports circulated concerning the obstruction by snow of the Kansas Pacific Railroad are entirely untrue. Both this road and the Union Pacific suffered obstruction from the great snow-storm and gale which raged in Colorado, Western Kansas and Nebraska, on Friday, 7th, but the Kansas Pacific was opened through within 40 hours and trains have run regularly. No trains were derailed in.

ever, have political as well as personal harmony, and success is within our reach.

If the entire Democratic vote can be consolidated, inspired with enthusiasm, and brought to the polls, Grant cannot be re-elected. It was his votes in our party that stayed at home on the day of the late election which wrought such widespread defeat. There is no increase in the Republican vote. I make the above suggestion, knowing that it is entirely practicable, and that it meets an urgent demand of the present crisis. I shall respectfully urge upon the attention of the National Executive Committee and ask for it the favorable consideration of conservative men everywhere.

Important and True. The uses to which India rubber is applied are various and marvelous; but perhaps no application of it is more valuable than the one employed in the construction of Knowlton's Universal Bath. Wooden and metallic baths are no clumsy or awkward contrivances, but have been slow to adopt their general use. But the invention of Knowlton bids fair to popularize this health-bringing and pleasure-producing institution. Horace Mann said that missionaries were as much needed to carry bibles as Bibles to the people. The convenience of Knowlton's bath recommends itself to all. It can be set up on chairs in your bed-room, or in any other room in your house, without danger of injuring the carpet or furniture. Its soft substance is grateful to the touch, and a little water can be made to cover the whole body, or to furnish a partial bath as desired. When not in use, it can be hung up in the clothes press as easily as an overcoat. It is recommended by the medical faculty of the University, and by the best teachers of hygiene generally, and will, no doubt, do much to promote the longevity of the public, just in proportion as they adopt its use. We should be glad to see one in every house, because we know bathing is practiced too little, even by the better class of our citizens on account of the inconveniences with which it is attended. The agent is now in Buchanan, and for a reasonable price, will furnish them to those who wish to enjoy as cheaply as possible the great luxury, and the unquestionable benefits of bathing. The bath is constructed of such durable materials that, with proper care, it will last for a great length of time. There is little probability of any further improvement being made on the very perfect article now offered to the public.

TESTIMONIALS. Having used Mr. Knowlton's Rubber Bath for over a year, I can confidently recommend it to all who are afflicted with rheumatism, neuralgia, or any other ailment of the system. It has done me more good than any other remedy I have ever used. Wm. M. Coplin, Buchanan, Mich.

NEW INVENTION. -We were shown a model by our townsmen, Mr. Wm. Hermance, an invention of his, for propelling canal boats. It can be attached to boats now in use, and it is very simple and substantial in its construction. We think its simplicity is the only reason why it has not been thought of before. It is thought by those who have seen it, and are competent of giving an opinion, that it will take less power to run a boat with it than any other method they know of. He has it arranged, that it can be used on side wheel steamers in the place of the paddle wheel, it will run the boat, it is believed, with more than one third less power, at the same speed it run with its side wheels. It will run the boat without any jar as is the case with paddle wheels.

FOR SALE OR TRADE. -Good village property for sale or exchange for good Kansas lands. Enquire at, or address, the Record Office, Buchanan, Mich.

NOTICE. -Cattle are not allowed to run at large within the corporate limits of the village, between the first day of December and the first day of April following. Those interested will please notice that the above will be strictly enforced, and all cattle found running at large will be taken forthwith to the pound. H. B. Russ, Marshal.

Noble just knocks the socks off of all them on Hats and Caps. He has plenty of every style that is worn.

BATHS. -We have one of Knowlton's Universal Baths. They are just the thing for the purposes designed. Every family should have one. The agent is now canvassing in Buchanan and vicinity.

CHICAGO TRIBUNE. -We call the attention of the readers of the Record to the prospectus of the Chicago Tribune found in another column. We can heartily commend this paper to our readers once more. Under the direction of Joseph Medill it will again battle earnestly for the great principles of the Republican party. It will stand out purified and renovated, fully worthy of the support of Republicans everywhere.

Buy your boots of Young & Son, Dayton. Only \$8.00 a pair.

Big HEAR. -On Saturday B. T. Morley of the Star Foundry took off a heat of 4,500 lbs., the largest ever taken off in Buchanan. The business of the Star Foundry has doubled in the past year. The reason is that Mr. Morley has advertised in the Record and has sold plow points and sleigh shoes, and all other work lower than could be had any where else.

RETURNED. -Mr. C. S. Black has returned from a brief business trip through the Southern States. He was far down as Mobile, and reports South as being much improved, and with quiet falling.

A CORD. -For the benefit of many of those who are in the habit of selling wood, or rather for the benefit of those who purchase said article, we will state that a standard cord contains, of stove wood, one tier, 8 feet long and 4 feet in height. We all ways thought that there was a general understanding among men on this subject, but judging from the quantity offered by several of our wood vendors and claimed to be a cord, we doubt as to there being any uniform standard for measuring wood. Each winter our villagers are cheated or swindled out of enough money in this way to hire a man to measure every cord of wood that comes to market.

Proceedings of the Board of Trustees. At a meeting of the Board of Trustees of the Village of Buchanan held Nov. 13th, 1871, there were present J. M. Roe, President, Messrs. Graham, Bins and Osborn. On motion, the account of M. Canfield, for hauling of \$2.63, which was laid on the table at the previous meeting, was allowed. The following accounts were presented, and on motion allowed, and the Clerk ordered to draw orders on the Village Treasurer for the amounts respectively: Wm. Patzgold, \$1.50 for services as night watch, not included in his former bill; Stephen Hobart, for hauling 3 loads of coal, \$5 cents; John Williams, work on street, \$1.00; George B. Smith, for hauling, \$1.00. On motion, appointed Messrs. Graham and Roe a committee to examine into a bill presented by George B. Smith for hauling, \$1.00. On motion, the Board adjourned.

THE LADY'S FRIEND for December is a grand Christmas number full of interest. Two fine steel engravings and a beautiful colored Fashion Plate, with other illustrations embellish this number. The stories and other literary matter are decidedly entertaining.

THE ATLANTIC MONTHLY is emphatically the best publication of its kind in America. For good solid instructive and entertaining reading on all subjects, science, art, politics and fine literature, the Atlantic excels.
