Delinquent Stock.

Look what a large and attractive stock of dry goods Chamberlain & Churchill, of Three Oaks, are now receiving direct from New York.

MASONIC DEDICATION.—On Saturday evening of this week, Summit Lodge No. 192, F. & A. M., will dedicate their new Hall, in Day & Binns' brick. All Brother Masons, in good standing, with their wives, are invited to attend. Grand Master Henry Chamberlain will be in attendance. N. HAMILTON, W. M.

GUNS.—Pistols.—Messrs. Treat, Wirick & Co. have now on hand a fine stock of double and single barrel shot-guns, rifles, pistols, revolvers, pocket and table cutlery. Also, flasks, pouches, cartridges, wads and a general assortment of sporting supplies, which they propose to sell at reasonable prices. Go and see their stock and learn prices before you purchase elsewhere.

BOUND OVER.—Britten, the man charged with the attempted outrage on Mrs. Lyon, last week, had his examination on Thursday and Friday before E. Ballengee, Esq., and was bound over under \$1000 bonds for his appearance at the next term of Court. He failed to give bail and consequently was lodged in jail to await his trial.

TEETH extracted without pain by the use of Nitrous Oxide or Laughing Gas, at Dr. Graham's Dental Rooms, Berrien Springs, Mich. 29tf

LOCATED.—We are glad to announce that Hon. J. J. Van Riper, for a number of years past a resident of Dozwagie, has permanently located in Buchanan. Mr. Van Riper is an able and efficient attorney, a man of integrity, and just such a citizen as we are glad to welcome among us. Our citizens, and those in the surrounding country, will find Mr. V. reliable in his profession, and at all times to be depended upon. It is, therefore, with pleasure that we commend him to all who may need the services of an attorney.

NEW STOCK of boots and shoes at Noble's. The stock is very large, well selected, and all parties can get suited both in goods and prices.

LARGE PEACHES.—Mr. Ira Wicks, the other day, laid on our table some fine specimens of peaches from the orchard of Wm. Tryon, Esq., of Royalton. The largest one measured ten inches in circumference.

PEARS.—Mr. Gotlib Boile, of Weesaw, brought into our office the other day, several pears, of the Autumn Paradise variety, that were very fine. The largest measured 10 inches in circumference, the smallest 8 1/2 inches, and all apples present the finest specimen of the kind that we have ever seen.

APPLES.—Mr. Riley Wray brought an apple limb, into our office that measured 20 inches in length and 4 inches in diameter at the large end, on which there were 20 nice, large Rambos. The largest apple measured 10 inches in circumference, and the smallest 8 1/2 inches. This limb and apples present the finest specimen of the kind that we have ever seen.

FULL SETS of teeth put up on rubber base from \$10 to \$25, at Dr. Graham's Dental Rooms, Berrien Springs, Mich. 29tf

WAGON FACTORY.—The building for the Wagon Factory is nearing completion. The walls are up, the rafters on, and it will not be long before the roof is completed.

NEW ROOF.—Messrs. Collins & Weaver are putting a new roof on their brick block.

DEEDS, Mortgages, Leases, Land contracts, Wills, &c., made out with neatness and accuracy at the RECORD office.

The White Lily Baking Powder sold by Treat, Wirick & Co. is pronounced by all who have tried it to be the best in use. Go and get a box and you will use no other. 16tf

CONVENTION.—The Greelyites, Democratic-Liberals, hold their convention to nominate candidates for county officers at Berrien on Monday of next week, Sept. 16th.

NOBLE has just received an immense stock of boots and shoes, and can offer, for cash, better bargains in his line, than ever before. Goods warranted.

IN TOWN.—Geo. S. Clapp, Esq., of St. Joseph was in town on Monday.

CANARY BIRDS.—Geo. Churchill has a lot of Canary Birds for sale.

FULL SETS of teeth put up on rubber base from \$10 to \$25, at Dr. Graham's Dental Rooms, Berrien Springs, Mich. 29tf

FROM TENNESSEE.—Our old townsmen, Mr. John G. Mansfield is back again after having spent two or three years in Tennessee. He reports the Tennessee country and climate as excellent.

LOOK OUT FOR NEW GOODS.—Mr. Chamberlain, of the firm of Chamberlain & Churchill, of Three Oaks, is now in New York, buying our Fall and Winter stock of Dry Goods, Clothing, Hats, Caps, Boots & Shoes, Groceries, &c., which we shall soon be ready to offer to our friends and customers, at exceedingly low prices. Having enlarged our store by adding Groceries we can now furnish our customers with nearly all kinds of goods. Call and see our stock and be convinced that we are selling cheap. CHAMBERLAIN & CHURCHILL.

REMAINDER of the stock of Buchanan, on Thursday, September 12, 1872, at 2 o'clock. Dr. J. J. Van Riper, J. J. Van Riper, Jr., J. J. Van Riper, III., J. J. Van Riper, IV., J. J. Van Riper, V., J. J. Van Riper, VI., J. J. Van Riper, VII., J. J. Van Riper, VIII., J. J. Van Riper, IX., J. J. Van Riper, X., J. J. Van Riper, XI., J. J. Van Riper, XII., J. J. Van Riper, XIII., J. J. IF YOU want to buy peaches, warranted to be as good in the bottom of the basket as on the top, go to H. H. Kinyon's.

DELINQUENT STOCK.—The Board of Directors of the Buchanan Manufacturing Company, at their last meeting, directed the Secretary to advertise and sell all delinquent stock. There are several subscribers to the capital stock, who have not paid more than one or two assessments, and have been waited on a long time. The Board have therefore determined to sell such stock if it is not paid up immediately.

LOOK what a large and attractive stock of dry goods Chamberlain & Churchill, of Three Oaks, are now receiving direct from New York.

SCHOOL MEETING.—On Monday evening the adjourned school meeting was held at the New School House. The financial report of the Board was submitted, and gave general satisfaction. It showed that the School Board had carefully and judiciously expended the District's money for building and school purposes. The Assessor and Treasurer, Mr. Chas. Clark, in his Report went back to 1867, and showed all moneys received and paid out by him. This was to satisfy one or two, who have been the habit of fault finding for several years past. To our certain knowledge a report was made two years ago of the muel taken of \$5,000, which was raised when the present site for the New School House was purchased. That report showed that the said \$5,000 had been expended and what for, and that it had been over drawn some \$500, or \$800 in repairing the Old School House. Now then, we trust, that for the future the \$5,000 raised will be allowed to rest. It may however, be forgotten "how it was," and be resurrected after a few years by some one who "wants to know how it is himself." We trust the School Board will keep on hands a copy of the \$5,000 Report, ready for daily inspection. We do not wish to be understood as intimating that the people have no right to know where and how their money has been expended, but as deprecating the whining and fault-finding spirit that is constantly censuring public officers, intimating that they are dishonest, and are constantly raking up old matters that have been settled, and satisfactorily disposed of. We regret that every voter and tax-payer in the District was not present on Monday evening, as we believe they would have been satisfied with the showing of our School Board, and would have accorded them their approval for the faithful performance of the trust reposed in their hands.

If any public officers have a thankless task to perform, it is a School Board. There is much work, especially when building a new school house, no pay, an abundance of curses and plenty of fault-finding from the very men the officers are trying to serve to the very best of their ability. We have no sympathy nor excuse to offer for dishonesty in office in any position whatever, and believe such cases should be dealt with in the severest manner. But while this is true, it is very unjust to circulate reports to the discredit of any officer's integrity without the best grounds therefor. As Davy Crockett said, first "Be sure you are right, and then go ahead."

The following is an epitome of the Financial Report of the School Board:

Table with columns for Money received, Money expended, and Money on hand, with sub-sections for INCIDENTAL FUND, TREASURER'S FUND, and BUILDING FUND.

Mr. F. F. Clark joined the Club. The question to be discussed at the next meeting, to be held on Saturday, Sept. 14, is "How to make Farm life more pleasant." It is to be hoped all the members of the Club will endeavor to be present, and as many others as would be pleased to meet with us. If any person has any grain or fruit they wish to exhibit they can bring it, with them. BENJ. CHAMBERLAIN, Sec. pro tem.

RAILROAD ACCIDENT.—On last Sunday morning, about 7 o'clock, the freight car loaded with the Kalamazoo passenger west, about one half mile east of Buchanan depot, near the Howard crossing. It appears that the conductor of the freight had orders at Galier to run to Niles, but the driver at Buchanan and see that all was right. The train was slowed up, and the conductor got off for his orders and got on the train again. It seems that he did not examine the order received at Buchanan, or if he did so failed to understand it; once, the train still moving on: When on the train he discovered that his order would not take him to Niles, but required his train to stop at Buchanan, fill the Kalamazoo passenger came. As soon as he reached the engine, over a long train, the freight was stopped, engine reversed and the train just ready to start back to the depot, when the Kalamazoo train came in sight 40 rods distant, around a curve, and running at a high rate of speed on a heavy down grade. The result was the collision. The men on the freight were out of the way, the engine and fireman on the passenger train, and the engine after having whistled down, brakes reversed, and ran and within a few rods of the freight train. The engine had his shoulder broken and otherwise badly hurt, the fireman had his head cut pretty badly, and the baggage man was considerably hurt, supposed to be killed at first, being insensible when taken out of the baggage car, which was smashed and telescoped by the tender. None of the passengers were seriously injured, and no car was thrown from the track. The engines are however a complete wreck, and lay some 30 feet down the embankment.

SCHOOL.—On Monday, the Fall term of the Union School opened, under the direction of Prof. Kent as Principal, and a full corps of teachers.

TEETH extracted without pain by the use of Nitrous Oxide or Laughing Gas, at Dr. Graham's Dental Rooms, Berrien Springs, Mich. 29tf

SEEDING APPLES.—Our absence last week has prevented our report of seeding apples planted on our desk. They are now in the hands of some fruit, the flavor is very tart. For a fall apple they would undoubtedly command a good price. They were raised, if we are correctly informed, by Mr. Jeremiah Slater, some three or four miles west of Buchanan.

WANTED.—To rent a farm of 100 or 160 acres, located not far from this village. Any one having such a farm for rent will do well to enquire of E. L. Williams in How's store. w2

We noticed Elijah Mansfield on the streets on Monday.

Proceedings of Union Farmers' Club. The Club met at their room agreeable to appointment on Saturday, Aug. 31. The President in the chair. The subject for discussion was the cultivation of Grapes, and the manufacture of Wine. We believe the grape as a fruit, is not valued as highly, nor cultivated as extensively as its worth demands. Every person who owns a piece of ground, however small a piece it may be, should set out vines and raise their own grapes. It is one of the most easy fruits to grow we have, and that we have a climate favorable for the raising of grapes, a person can see by a short walk through our forests, for there is to be seen beautiful vines often covering a number of trees and each twig laden with fine clusters of grapes, the sight of which is enough to make one think of Canaan of old. Grapes are also the most wholesome, healthy and delicious fruit there is. They are not only a luxury for the healthy to partake of, but a benefit to the sick and debilitated, if eaten in small quantities, and at proper times. There are different ways of cultivating grapes. The most common way is upon trellises and stakes. When you wish to set out grape vines, get layers. A layer is a portion of a vine that has been buried and taken root. Plant them the same as a tree. If they are to be grown upon a trellis set them about one rod apart. If upon stakes, eight feet apart each way. Keep the ground in good condition by putting on well rotted manure, cultivate same as corn. Leave but two stems to each root. Cut off the laterals any time during the summer, but the main pruning should be done in November when the vines are to be laid upon the ground to prevent them from freezing during the winter. When the vine becomes old it is well to cut it all down and let it start up new. The best kinds of grapes to grow are the Concord, Delaware, and Diana. Grapes are better to ripen in the shade, but not too dense, if it is they will rot and mildew. Sulphur sprinkled upon the vine is a good remedy for mildew. They do the best in a dry season, and will yield from four to six tons per acre. Grapes should never be eaten before they are thoroughly ripe, nor pressed upon the market in a green state. They look ripe long before they are ripe. The best manner to save them during the winter is to pack them in small boxes with dry hay or shavings, and keep them in a cool, dry place. To make wine, pick the best grapes from the stems, press out the juice, mix in three pounds of sugar to the gallon. Put in a good wine cask, leave out the head or bung. Care should be taken to keep the cask full while working. After it is done working, the wine should be taken out and the cask thoroughly cleaned, then it can be put back again. Among the specimens brought into our meeting by the members of the Club were some very nice bunches of grapes. They report a good yield of grapes the present season. Two very fine varieties of the Wicks wheat were exhibited by Mr. John Gayer. One variety he thinks he has improved, which is christened the Improved Wicks wheat. The grape wine which was manufactured by Mr. Wm. Rought, and brought in, was pronounced by the "Old Heads" to be of excellent quality and fine flavor.

Mr. F. F. Clark joined the Club. The question to be discussed at the next meeting, to be held on Saturday, Sept. 14, is "How to make Farm life more pleasant." It is to be hoped all the members of the Club will endeavor to be present, and as many others as would be pleased to meet with us. If any person has any grain or fruit they wish to exhibit they can bring it, with them. BENJ. CHAMBERLAIN, Sec. pro tem.

We noticed Elijah Mansfield on the streets on Monday.

The County Press. The Niles Republican says: Fifty colored citizens will cast their first ballot for President in this city next November, and you can tally forty for U. S. Grant and Henry Wilson. If John Brown's body is in the ground, his soul is marching on. Extensive preparations are being made by our colored citizens for their celebration on Thursday next. Large delegations are expected from a number of the neighboring towns and villages, good speakers will be present, music has been engaged, and everything promises well for a good parade.

The annual reunion of the 19th Michigan Infantry will take place at the large parlors of the Reading House on Wednesday afternoon, and evening. On Tuesday last some men from the track of the Michigan Central Railroad stepped aside to let a gravel train pass, but the heavy cloud of dust raised by the train prevented from being seen a plank that projected over the side of one of the flat cars. This plank struck three of the men—Fred Ream, Jos. Yarten, and H. Byer, and severely injured all of them. Ream was struck on the side of the head, and the other two, happening to have their hands raised at the time, received the blow on their arms, and were not so severely hurt. Ream is in a critical condition. Dr. Bonine dressed their wounds. Messrs Millard & French, proprietors of the West Side Hydraulic Power, are pushing their work with commendable energy. Although they have been hindered not a little by encountering quicksand, the excavating for the race is nearly completed, and the head and tail gates will soon go in. The frame for the Wood Pulp Mill is nearly completed, and will be put up in a hurry when once commenced. They hope to have the mill in operation by December next.

THE ST. JOSEPH Traveler says: A man who had been employed as a tucker at the St. Charles, was arrested on Sunday evening, on suspicion of having stolen about twenty-five dollars from Mr. Kreiger. Deputy sheriff Terry had him in custody, when the prisoner suddenly remembered that he wanted to see a man, and abruptly and without the usual leave-taking departed. He has not been seen since.

THE BENTON HARBOR Palladium says: Some of our fruit growers find that scoring the bark, or even stripping a part of all of it off from diseased peach trees, has a beneficial effect. The reason of this does not appear to be very clearly understood.—At the school meeting of Watervliet it was voted to raise the district to be graded school. The following were elected trustees for one year: Albion Smith, Edward Henesey, For two years, Oscar Ferry, Dr. S. D. Wicks. For three years, George Parsons, W. W. Allen. Nine months for school the coming year, was voted. A party of several hundred excursionists from the Division Street M. B. Church, Grand Rapids, visited Benton Harbor and St. Joseph on Wednesday. They went to Johnson's Grove and held a picnic and then returned to the depot.

THE NILES Democrat says: Sickness still prevails to a considerable extent in and around the city.—The apple drying establishment can dry three hundred bushels of apples a day.—The Peak Family start on their tour Monday. Joy and success attend the happy and attractive family.

THE ST. JOSEPH Herald says: Willie Wecker, while boat duck hunting, drew his gun toward him, the lock caught, snapped and he got slightly shot in his hand.—20,000 baskets of peaches is the usual number per day.—A barkentine was unloading iron this week. From one to three vessels have been discharging ore every day this week.—Much sickness has prevailed during the week. Undoubtedly much suffering is experienced among the poor. We learn of a Swede, aged 70 years, who died of cholera, who died of a short illness, and was kindly buried from the Lutheran Church by strangers.—Compulsory Education is making a stir in Pipestone. We are informed that a majority of the parents in one District are summoned before a justice to answer for the violation of the Statute on compulsory education, passed in 1871, and numbered 165.—On Friday night, Aug. 30th, unknown parties, while the Captain was in Chicago, and the mate at home asleep, stole the hooker Hettie Moore from Wallace & Barnes' dock. She was seen off South Haven bound north.—The Hettie Moore had sold of shingles, save a few thousand for a man in the country, and had on board nearly a load of apples. The thieves put off the shingles. She was worth about \$800.—On Sunday, June 1st, when the bartender went to supper, the saloon under the St. Charles Hotel was entered by a window and the contents, some \$20 in currency. Subsequently, a glazier, who has been at work on the premises was arrested on suspicion, he, however, succeeded in getting away and has not since been found.

How to Go West. This is an enquiry which every one should have truthfully answered before he starts on his journey, and a little care taken in examination of Routes will in many cases save much trouble, time and money.

THE C. B. & Q. R. P., running from Chicago through Galesburg to Burlington, has achieved a splendid reputation in the last two years as the leading Passenger Route to the west. At Burlington it connects with the great Burlington Route, which runs direct through Southern Iowa to Nebraska, and California, and the Burlington & Kansas, with close connections by California and the Burlington, and passengers starting from Berrien County, on their way westward, cannot do better than to take the C. B. & Q. and Burlington Route.

This Line has published a pamphlet called "How to Go West," which contains much valuable information; a large, correct map of the West, which can be obtained free of charge, by addressing the General Passenger Agent, B. & M. R. R., Burlington, Iowa.

WE are selling off all summer goods at very low prices. Address: RAYDEN & GRAHAM.

FROM HARBORABLE. Sept. the 9th, 1872. Mr. Mc-Doughty.—I kinder reckon on as how I ought to rub sumthin for your nose paper after All of them chaps and Folks what abound down North has had thur s. I mean that "misty demizen" that Lives in pond vally and that Bur oak, or red oak chap, which over it is, what these notes in His pigs takes to. He lives down in the grain, or he lives down by gator, River or goose creek, but it is the same in hog latan which he sais his crucked tald porkers might lurn if they only had A teacher. now ther is I C I, he thinks she has got sich big jernin cuse she said, or sum von said how as she could work a sum in the Back part of addition for her schoolteacher. I shoold think he wood git her to learn them latin, bern as she had sich good luck lurnin hern too trot so fasted, and as too tecubin them to eat shelled corn out of a Jug, why, I nose of a fellar what lives at that evil as has got a rule for dines at every tim. now auther thing, Mr. Mc-Doughts, that red oak chap says he felt sorry for the teacher in betran what got so ruffley handled by the Boys dad. I gess he didnt read that pecee which you Printed ont sich von of the Schule men rote too you and told you all about it, or else he wood have felt sorry too pity the other man. in my estimation it wood have bin better if the Boys dad hadent had sich long hare and long whiskers, or else howsmever he (the teacher) dont ned any sympathy in the case for you bet he wont lose by coze with out he has a big try to keep it furs, and now, Mr. Mc-doughts, a nuther thing, misses L. C. i speaks about foks being nervous and havin of the nite mar. By gorry, is it A wonder after readin sich thrillin accounts of sich wonderfull things as she wrights about? if I read much more of her sole sturring productions I'll be clear lunny, and she rites sich hansom poetry, to—here is a couple or vers.

"And when he caught the music wild The old man raised his head and smiled."

Ha, ha! I dont Blame the Old man for laffin, it makes me laff and i aint very well eather.

Yours respectfully, PETER PIPER.

(From the Editor Western Republican.)

Hundreds of invalids who have been cured from premature graves by the skill of Dr. V. Clarence Price, can attest to his long series of years made visits to a number of cities in this State, always promptly on the day advertised. His success has been such as to demonstrate his skill in treating chronic diseases, and while numbers of pretenders to medical science have made a few visits, making great pretensions and as great failures, Dr. Price has continued regularly his visits, and grown steadily in public favor. The reason is plain. He is an honest, honorable, and educated practitioner, as his success in the treatment of chronic complaints abundantly proves. Dr. Price will be at Laporte, Merrill House, Sunday and Monday, 15th, 16th September. Niles Reading House, Sunday and Monday, 29th and 30th of September.

Businessmen as they take their flight, the chief of business is good health, without which nothing will do. Dr. V. Clarence Price, can attest to his long series of years made visits to a number of cities in this State, always promptly on the day advertised. His success has been such as to demonstrate his skill in treating chronic diseases, and while numbers of pretenders to medical science have made a few visits, making great pretensions and as great failures, Dr. Price has continued regularly his visits, and grown steadily in public favor. The reason is plain. He is an honest, honorable, and educated practitioner, as his success in the treatment of chronic complaints abundantly proves. Dr. Price will be at Laporte, Merrill House, Sunday and Monday, 15th, 16th September. Niles Reading House, Sunday and Monday, 29th and 30th of September.

Every Family Should Keep Page's Astringent in the House.

Page's Mandrake Pills are sold by all Druggists.

Deaths.

Died, Aug. 30, 1872, at Pipe Grove, PINEBAS N., son of George and Mary Kirkland, aged 2 years and 2 months.

Died, August 29, 1872, JOHN M. PAXTON, son of William and Harriet Paxton, aged 13 years, 4 months, and 10 days.

Interment by the death of the children of Mr. William and Mrs. Harriet Paxton, after the last child of Mrs. P. had been borne away by the Angel of Death.
