The Berrien County Record.

D. A. WAGNER, Editor.

THURSDAY MORNING, APRIL 17, 1873.

MURDER OF GENERAL CANBY BY CHIEF JACOB, OF THE MODOC INDIANS. REV. DR. THOMAS, PEACE COMMISSIONER, ALSO KILLED.

The premeditated treachery of the Modoc Indians has been fully demonstrated in the murder of Brigadier General Canby and Rev. Dr. Thomas, one of the Peace Commissioners. On Friday General Canby, with three of the Peace Commissioners, went to have a friendly talk with Chief Jack about the removal of the Modocs from the northern border of California to a reservation. During the talk Chief Jack shot Gen. Canby dead. Rev. Dr. Thomas was also killed, and Mr. Meacham was seriously wounded. The other Commissioner, Mr. Dyer, escaped without injury.

The Modocs it will be remembered are a kind of a mongrel Indian race, composed of half-breeds, diggers and mongrel outlaws. For some time it has been feared by the observing that the Modocs meditated treachery. Now that the blow has come, we trust the Indian policy of the Government will be somewhat changed, especially towards this treacherous band. The day is gone by for leniency toward such treachery. The Government dare not pursue any other course than to visit the severest punishment possible upon this whole tribe. The Indians must now be taught that treachery will be punished with the severest retribution. If the Modocs are not dealt with in the severest manner, other tribes will follow the example of Chief Jack and no safety will exist whatever, even to those who are sent to treat with them.

Lausing Correspondence.

April 12th, 1873. Errors Record.—News at the Capitol is exceedingly scarce this week, it being one of the duller weeks of the session, nothing having been done in either House until Wednesday. Many of the members appearing rather sour and "crossed with" this week. Whether this is owing to their defeat at the polls last Monday, or it is to be attributed to the effects of the epidemic, your correspondent will not attempt to decide.

I shall attempt nothing further in this letter than to give you a list of the bills that have passed in which "Berrien County" has an interest. On Thursday, House Joint Resolution to authorize the State Librarian to invite citizens of this State to deposit in the library minerals and geological specimens, also books, pamphlets and Indian relics. House bill to enable persons holding mechanics liens to appeal to the Supreme Court, was defeated in the Senate 14 to 9, immediately reconsidered and passed 25 to 0.

THE LAND OFFICE FRAUDS.

The Governor, on Friday sent a special message to the House relative to the discovery of gross frauds in the State Land Office. These frauds were committed by Charles A. Edmunds during the last six months of his term as Commissioner. It seems that after his impeachment trial he determined on a bold recklessness in the commission of these frauds.

The Democrats are endeavoring to make capital out of the fact that Edmunds was a Republican, and therefore the Republicans as a party are responsible for his baseness. This is about as logical and reasonable as it would be to charge the responsibility upon the soldiers, simply because Edmunds was a soldier, and a disabled one too. It only proves that within the ranks of the Republican party there are base scoundrels, as in any other party, and that occasionally they get into places of honor and trust. It only proves that occasionally a brave soldier who fought well in the army and who may have sacrificed a limb for his country, is not proof against all temptation to commit wrong and to defraud the people. The soldiers are not to blame for Capt. Edmunds' crimes, neither is the Republican party responsible. He was supposed by all parties at the time of his election to be an honorable and upright gentleman and soldier. As soon however, as the party discovered that he was not right they refused to longer continue him in office. On this point the Detroit Tribune has the following:

"The Free Press seeks to make political capital out of the matter by claiming that the Republican party is responsible. It will fall in its effort. When Capt. Edmunds was first placed in nomination in 1870 for the Land Office, he was known as a disabled soldier of good standing and with a gallant war record. As such he was supported and elected. When grave charges were referred against him in 1872, the Republican House promptly impeached him, and a very large majority of a Republican Senate voted for his conviction. The Republican papers of the State denounced his course, and almost without exception expressed regret at his accidental acquittal. The next Republican State Convention retired him to private life, and his later misdeeds have been excused by Republican State officers and laid by a Republican Governor before a Republican Legislature for its action. Republicanism has given this State an exceptionally honest and cheap government, and when it has detected rogues in high places it has not been backward in arraigning the rogues.

If this is to be a matter for partisan quarrel we invite the Free Press to state whether it thinks the people of Michigan will gain much by abandoning a party which refused to renominate Mr. Edmunds although the impeachment against him had failed, to join a rival organization which gave,

Particulars of Gen. Canby's Murder by Capt. Jack.

LAVA BED, April 11, via YAKIMA, April 12.—Yesterday afternoon five Indians and four squaws came into our camp, and were made presents of clothing and provisions by the Peace Commission, and a message was sent out by the Commission asking for a talk this morning, at a point about a mile from our picket line. Later in the evening Bogus Charley came in, and told the picket that he could take his gun; that he (Charley) did not intend to go back any more. The picket brought him in and took him to the tent of General Canby, where Charley left his gun and remained at the tent of Frank Riddle during the night. This morning Bogus Charley came in and told the Commission that Captain Jack and five other Indians would meet the Commission outside our lines. Boston and Bogus then mounted a horse and started for the lava bed. About an hour after their departure General Canby, Dr. Thomas, Mr. A. B. Meacham, and Mr. Dyer, with Frank Riddle and his squaw for interpreters, started for the place appointed.

THE ANNOUNCEMENT FROM THE SIGNAL STATION.

The party arrived at the appointed place, and were closely watched by the signal officer, Lieutenant Adams, from the signal station on the hill overlooking our camp. About half an hour after the party had arrived a cry from the signal station was heard, saying that the Indians had attacked the Peace Commission, and that an engagement had commenced between the Indians and Colonel Meacham.

THE TALE OF THE MASSACRE.

Very shortly after Mr. Dyer returned and told us that the Indians had attacked them, and that, he thought that he was the only one who had escaped; but in a few moments after Riddle and his squaw were seen within the picket line. From him we gather the following account of how the massacre commenced. Commissioner Meacham made a short speech to the Indians, followed by General Canby and then Dr. Thomas. Then Captain Jack made a speech, asking for Capt. Creek and Cottonwood, the places now occupied by Fairchild and Dorr, for a reservation. Mr. Meacham told Jack that it was not possible to give him what he asked. Schonchin then spoke, and said that he (Meacham) had said enough upon that subject, and while Schonchin was speaking Captain Jack got up and walked behind the others, and turned back and exclaimed "All ready," fired his pistol, and snuffed out the General Canby, who fell dead, shot under the right eye. Schonchin then shot Meacham in the shoulder and head, but he is still alive. Boston Charley and another Indian shot and killed Dr. Thomas. Hooky-Jim chased Mr. Dyer for some distance, but Mr. Dyer turned upon him with pistol in hand and Jim ran back. An Indian knocked Riddle's squaw down and took her horse, but Captain Jack made him return it, and then another Indian chased Riddle and shot at him. This last may be taken with a grain of caution.

THE TROOPS IN THE LAVA BEDS.

The troops are now about a mile in the lava beds, lying on their arms, and will probably advance to-night under cover of darkness. There are here about 600 troops which can be brought into active service, and it is believed they will end the Modoc war.

MR. MEACHAM'S CONDITION.

Mr. Meacham is not expected to survive.

UNION OF STATE AND CHURCH.

Views of a prominent speaker.

Editor Morning Express.

Respected Friend, I send you a copy of my St. George's Hall lecture and a pamphlet. I hope you will be aspared until you can look through them. It may be that you will be better prepared for the interesting change after digesting their contents. It good come "out of Nazareth," why may not light come out of Shakerdom?

State Items.

In this city there were 1285 votes cast for the Court here, and 1107 against it, last Monday. The Republicans elected three out of five Aldermen and two out of three Supervisors in this city. A child three years old was bitten by a mad dog yesterday, in the third ward. Am Arbor Courier.

The City of San Salvador Destroyed by an Earthquake.

ASPINWALL, April 6.—Via Havana, April 10.—The city of San Salvador, Central America, has been destroyed by an earthquake. 800 persons perished, and \$12,000,000 in property was destroyed. The earthquake was followed by a conflagration and many buildings were burned.

THE COUNTY PRESS.

The County Press.

THE BENTON HARBOR Palladium.

The canal has been a long time in opening up this year. It has been more than three weeks since the ice in the river commenced going out, and the last particle of ice in the canal disappeared last Friday. The "Daisy Lee" is the first vessel to come up the canal. She is to take a cargo of lumber. The "Daisy Lee" was launched last Monday. She has been completely built up from the water's edge, and will appear in our canal, before long, as bright as a "new dollar." The house of Michael Smith, of Eger, was entered by burglars on the evening of the 2d, while the family were at meeting at the school-house about 40 rods from their residence; the burglars got \$175.00 in money. The suspicion rests upon two men who were laying out a barn frame for Mr. Smith at the time.

THE NILES Republican says.

The Spring term of the Public Schools opened on Monday last with an unusually large attendance. The Furniture Factory and Paper-Mill have suspended work on account of high water, and the Pulb-Mill has shut down because the muddy water colored the pulp. Frederick Zimmerman, one of the employees at the Paper-Mill, yesterday evening fell into a vat of boiling straw, and was severely scalded. In talking of the water on his legs, he said of how his legs were scalded. Griffin, one of our oldest and best known citizens, and a man highly esteemed by those who knew him, died at St. Joseph, Missouri, on Sunday last, after a short illness. David White, living near Barron Lake, met with a heavy loss by the storm of Saturday night. Lightning struck his barn, and three horses, one calf, three cows, three yearlings, and a quantity of hay, grain, &c., was burned. Mr. White is a young man just commenced farming, and the loss will bear heavily upon him. Loss \$1,200; insurance \$400 in the Farmer's Mutual.

The St. Joseph Herald says.

Mr. Oldburn has his cellar drain frozen for ten feet above depth of three inches. John Davenport, while attempting to couple cars at New Buffalo, missed the coupling and was badly jammed between the cars.

The St. Joseph Traveler says.

It is a pity that we have a better stage of water in the harbor than at any other time. The high water of the past few weeks has probably outwaded the water of the past few weeks. The water was so high that the residence of Samuel Rishy was struck by lightning during the thunder storm on Saturday evening of last week. The chimney was completely demolished, and the kitchen walls somewhat damaged.

What our friends could have done.

If any of our friends could have done the extreme pleasure of riding down the Jackson Lansing & Saginaw Railroad during the early part of this week, they would have seen some novel sights. Between Wenona and Saginaw the water has overflowed and the country around has the appearance of a great lake. In some places the railroad track is completely covered with floating drift wood, making travel by rail somewhat hazardous. Many of the houses can only be reached by boats, and we will wager a new hat that there is not a dry cellar in the whole Saginaw Valley. Centerville Republican.

Grapes and their Culture.

It is surprising that so many families in the country are willing to live year after year without cultivating a single grapevine about their dwelling. They are compelled to purchase this delicious fruit for the table or not taste it during the season. There is a common impression that to cultivate grapes perfectly a vast amount of knowledge and skill is required. To many the simple trimming of a vine is a mystery. This is an erroneous view, and ought not to prevail. Any person of common intelligence can learn in an hour how to trim and nourish vines; and, if instruction can not be obtained from some experienced cultivator, there are books filled with cuts and illustrations which make every thing plain. Three vines of as many different varieties planted in some sunny nook, or by the side of some building, so as to obtain shelter, will, if properly cared for, furnish many a bushel of delicious grapes every year. A Concord, a Delaware, and an Adirondack, make the ground mellow and rich by the use of spade; and by employing old manure, finely ground bones, and ashes; and set out the plants. In three years the rich clusters will appear, and in four years the product will be abundant. It is well to have vine plants, that the waste liquids from the dwellings can be used in fertilization. If there is any food the vines especially loves it is the soapy liquids which accumulate on washing days in families. Vines denuded every week with these liquids will flourish astonishingly, and extend themselves so as to cover large buildings, every branch bearing fruit. We say to our readers, plant vines.

Good Night.

"Good night! In that expression of kindness how sweet and soothing a sentiment is conveyed. The toils of the day are over; the maddening pursuit after gain is suspended; and mankind seek in the arms of sleep a temporary asylum from care of mind and observation of body. Even from guilt beneficent nature withholds not the solace of repose, and passing through the 'ivory gate of dreams,' the days of youth, of happiness, of innocence in shadowy glory lift before the soul. Insuperable, indeed, would be the heavy tribulations, which, in our pilgrimage through life, we must endure, were it not for those intermittent seasons of rest, which it is alike the privilege of the household wanderer and the palmed lord to enjoy. And night, gentle night, is the tender nurse that wags the toil exhausted frame to sleep its cares in slum forgetfulness. The wise provisions of nature indicate the season for repose; and her beneficent laws are revered and obeyed, by all, the being for whose comfort and forward happiness they were chiefly promulgated. When the sun withdraws from the heavens and the earth is shrouded in darkness the labors of insect industry cease, the flowers, closing their petals, defended from the chilling dews of evening, and that sweet watchman of the night, the nightingale, trills forth in wild and varied cadences the parting song 'Good Night!'

Good Night.

This characteristic of the umbrella is its power of changing shapes. You may leave a bran new silk umbrella with an ivory and rosewood handle at any public gathering, and within three hours it will transform itself into a light blue or faded brown cotton, somewhat less in size than a circus tent, with a handle like a telegraph pole, and five fractured ribs.

Sundav Reading

"THERE'S A SILVER LINING TO EVERY CLOUD."

The poet or priest who told us this... "There's a silver lining to every cloud."

May we not walk in the dingle ground... "There's a silver lining to every cloud."

Let us look closely before we condemn... "There's a silver lining to every cloud."

Let us not cast out Mercy and Truth... "There's a silver lining to every cloud."

And when stern Death, with skeleton hand... "There's a silver lining to every cloud."

Oh the hope of the unknown future springs... "There's a silver lining to every cloud."

Enlightened Public Sentiment.

Enlightened public sentiment is as essential to the perpetuity of a Republic... Judge C. R. Brown.

Perfections of God.

We cannot contemplate God in any point of view... Collyer's Lectures.

Patiently Wait.

Every man must patiently abide his time... Longfellow.

The End of the Pilgrimage.

Fear not, thou that longest to be at home... Judge C. R. Brown.
