APPLES.—Mr. J. S. Helmick, of Oronoko, left upon our table some of the finest specimens of apples that we have seen this year. The name of the fruit he was unable to give, and he left it especially that fruit men might call at the Record office, see the specimens, and report the names thereof. Come and look at them.

W. B. PARON & Co. have purchased, during the panic in New York, an immense stock of Dry Goods, Ready-Made Clothing, Hats & Caps, Notions, &c., which will be sold at panic prices. Call and examine. You can be sure of good goods, and at 25 to 50 per cent. below usual prices.

FINE SPECIMENS.—Mr. J. F. Weidman, of Oronoko, has added several fine specimens of fruit to the Record office collection. He laid on our table fine specimens of the following varieties: Green Pippin, Pike's Pleasant, Red Peonick and the Doctor.

FLANNELS, Blankets, Yarns, Children's, Ladies' and Men's Underwear at ruinously low prices, at A. Egbert's, Niles.

SHIPPING TAGS, a new supply, cheap at the Record Office.

RADDISH.—Mr. J. S. Allen brought into our office a raddish which measured 21 inches in length and 17 inches in circumference. Some raddish, this.

YSIRING.—Mr. J. M. Bliss and wife, of Charlotte, formerly of Buchanan, are spending a week or two in visiting relatives and old friends in this place.

NOTICE.—Ed. Warner of this village has a nice horse, harness, buggy, a light wagon and a light pair of sleighs, or all of which he will sell at a bargain.

EVERYBODY who wants a late style Paisley or Ottoman Shawl can find them very cheap at A. Egbert's, Niles.

VALUATION AND TAXATION.—The valuation of the real and personal property of Berrien County as equalized by the State Board of Equalization in 1873 is \$16,480,000. The aggregate appropriation of State and County tax for the County for the year 1873 is \$25,615.95.

FRESH OYSTERS at A. C. Day's.

LADIES. Don't fail to see those elegant oil chromos at Fox's. "The Old Oaken Bucket," "Captive Child," "Home, Sweet Home," after the celebrated artist, Jerome Thompson; "After the Storm," by F. M. H. De Haas. The largest, best and most popular oil chromos in the world. Given as premiums to yearly subscribers to Demorest's Illustrated Monthly Magazine, \$3.00 per year. Wm. H. Fox is also agent for her reliable patterns.

TO CANADA.—Our young friend Wilber W. Smith, we understand departed for the Dominion on the Sunday evening train. Report has it that he has gone to make an importation—"Jewels" and dry goods, whether to add a stock of Jewels and dry goods to his present grocery establishment, or whether the importation is for the benefit of a household department, dependent saith not. We trust that the report that he would attempt to smuggle his "stock in trade" across the Canadian border is without foundation. We have always regarded Wilber as being too high minded and honorable to attempt anything of the kind.

CLOTHING.—Cotton & Fox have greatly enlarged their clothing department. They now have on hand a large assortment of clothing and gents' furnishing goods of different qualities and prices. Suits from \$5 and upwards. If you wish to purchase any article of clothing or boots and shoes give us a trial and we will guarantee satisfaction.

ASK your Grocer for 150 test oil and take no other as it is violating the law to sell anything less. Kinyon keeps the best and sells cheap.

DOG LICENSE. Town Clerks can get blank Dog License books at the Record Office.

FIRE.—On Monday night about 12 o'clock the Michigan Central Passenger Depot, at Niles, was discovered to be on fire. The flames spread rapidly till the entire structure was consumed. Several hundred cords of wood were also consumed. The rest of the railroad buildings were saved owing to the favorable direction of the wind.

THE very best of fresh oysters constantly on hand, at Kinyon's.

FINE BUGGY.—Several of our citizens the other day went to the Buchanan Wagon Manufactory to look at a new top buggy gotten up at that establishment. It, to our eyes, was as good a piece of workmanship in the buggy line as could be gotten up anywhere. The ironing, the woodwork, the trimming, and the painting were all that the most tasteful could desire. The fact, moreover, that the Messrs. Beardsley superintend the construction of the work at this factory is a sufficient guarantee that every vehicle turned out is made of the very best material in the market.

THAT bread and cake that Kinyon's Baker makes certainly beats them all.

GREAT REDUCTION in the prices of Gent's Suitings, Overcoats, and all kinds of cloths and cassimeres. Now is the time to be well clothed, when you can buy so cheap at A. Egbert's, Niles, Mich.

SUITS made to order and fit guaranteed. 84w2

BUTTER.—The price of butter is advancing and is a scarce article in our market.

LICENSE.—The license to be paid by our saloon keepers under the new charter, will be quite an item towards helping to defray the village expenses.

SETTLE.—All persons indebted to Wm. Cotten are hereby notified to call and settle the same at the store of Cotten & Fox. Wm. COTTEN.

BOYS.—We notice a number of boys running the streets who would spend their time more profitably in school. Those boys who attend school regularly, and are preparing themselves for usefulness in life, will in time be convinced how much wiser is their course than that of their profligate companions, who will expend their time, fortune, and capability for the highest earthly enjoyments, on the altar of false pride and indolence.

THAT COAT FIT.—It was generally conceded, so far as heard from, on the streets, "on change," that a little item in last week's Record, hit the mark, judging from the buzzing throughout the entire nest. This view was confirmed by the appearance next morning of the fruits of desperation, in the shape of several Postal Cards bearing the unmistakable "ear marks" of some low, vile slanderer, and corresponding in vileness with certain heretofore "anonymous" communications received by certain of our citizens, who had by some means incurred the displeasure of "somebody." The writer of such anonymous letters, and the author or authors of said Postal Cards, are like the cowardly midnight assassin, who stealthily enters into your house, while you sleep, and plunges the dagger to your heart, too cowardly to vile to face an injured victim. The coward and miscreant writer or writers of anonymous letters and of willful, knowingly untruthful "Postal Cards" slanders are more to be feared in any community than is the midnight assassin. The one strikes at life, the other at that which is dearer than life. From the one you have some security, from the other none, too cowardly, too low, too mean, too black-hearted to operate as the object of their spite. You, reader, may be the next to feel the poison of their tongue.

If more fathers, whose children have been treated as the one to whom we referred last week, would take the matter into their own hands, and "cuss" a little, we "opine" there would be more "crying and sniffling" scenes take place. If children are let alone or treated respectfully in the future, then our little "item" in last week's paper will not have been in vain, and the vengeance wreaked by the slanderer in the posted notices will be patiently borne till the day of "retribution." Better buy some more Postal Cards. Don't you think so?

STORES CLOSING.—Why do not our merchants appoint an hour as early as nine o'clock at which time the stores will all be promptly closed? Such a rule if strictly lived up to, would not affect the trade of any store, and would be of great benefit to the merchants themselves, and especially to their clerks. You ask an employee in any of our stores to spend an evening with you, or attend some social party and he will tell you that he will be on hand about half past ten, as he cannot possibly leave the store and get ready earlier. This practice of keeping stores open so late actually monopolizes all the time of the merchant and clerks; except what should be given to sleep. No time is devoted to literary improvement or social culture.

Mrs. H. M. Wilson would inform the ladies of Buchanan and vicinity that she may be found at her residence on the west side of Day's Avenue, second door south of the M. B. Church, where she will attend to dress making as heretofore. Cutting and fitting a specialty. Mrs. Wilson teaches Mrs. Eyring's tailor's system of dress cutting.

Go to Rea's harness shop for robes, blankets, gloves and mittens, also cut-made boots.

RUNAWAY.—A team belonging to Proud & Pense's livery stable, got away from their driver on Saturday morning last, near Mr. Charles Blake's farm, east of this village, and were not stopped until they reached Hill's Corners, having run a distance of about eleven miles. The carriage to which they were attached was completely smashed.

LARGE stock of Overcoats at S. L. Estes, cheap for cash.

FIRE.—A large number of dwelling houses and private property, has been destroyed by fire during the past week by reports given from different parts of the State. Again we say, use the utmost care in putting up stoves to have everything safe.

BOOTS and SHOES CHEAP.—Boots and Shoes to suit men, women and children, to be found at Noble's way down for cash. If you want goods' talk to George.

IT is estimated that the number of acres of wheat sown in this part of the county this fall will exceed that of last year.

FULL line of Suits, Men's and Boy's, cheap for cash, at S. L. Estes.

STATE TREASURY.—The finances of the State are in a satisfactory condition according to the official report of the Treasurer, Sept. 30th 1873. At that date there was in the treasury \$834,718.44.

FARMERS' CONVENTION.—The farmers of the Northwest will meet in convention at Chicago, Oct. 22d, to discuss such matters as are of general interest to them. Farmers' clubs, Granges, farmers' associations, boards of agriculture, agricultural societies, and all similar organizations of the producing classes are expected to be represented.

JUST RECEIVED.—The second installment of new goods at Redden & Graham's, cheaper than ever.

FRAUD.—Numerous reports are given of sharpers traveling through the country representing themselves to be agents for certain newspapers and periodicals. They get the farmers to subscribe and pay in advance, but the papers are never sent, and the money is only a swindle to get some money. Farmers and others will look out for such rascals.

SUPERVISORS.—The Board of Supervisors convened at Berrien on Monday in their Annual Session. But little business was done on Monday. A resolution or two passed the Board, one relative to the claim of Mr. Ballard, referring the whole subject to a committee, consisting of Supervisors A. L. Drew, Johnson S. Beers and H. N. Sheldon. The claim of Mr. Ballard seems to have grown out of a wrong assessment made by him when Supervisor, he being sued for the amount of tax wrongfully collected which was recovered. The claim now of Mr. Ballard is to be reimbursed for the amount so collected of him. The various Committees were busy at work getting ready to report. On Tuesday the day was mostly spent in the Committee. The Committee on Assessment were hard at work, and hoped to be able to make their report on Thursday. This question of assessment is a perplexing one—one that ought to be so arranged that there would be something of a uniform assessment in the various townships throughout the county.

For the past 16 years Dr. V. Clarence Price has made regular visits to Niles, and the fact that each succeeding year has added to the number of his patients, would indicate that he is not one of the swarm of traveling humbugs that infest the country, if his uniform success in cases under his treatment, did not prove him to be a physician of scientific attainments and extensive experience. Candid at all times with his patients, taking pay from none unless he believes he can assist them, telling them frankly, when he believes their case is beyond the reach of medical skill, undertaking no cases that can as well be cared for by local physicians, and devoting himself to the treatment of a class of chronic diseases which long experience and study enables him to master, more certainly than a physician in general practice could be able to do. His regular visits afford an opportunity to the afflicted, which they should not be slow in improving. Dr. Price can be consulted at Niles, Reading House, on Saturday and Sunday the 1st and 2d of November.

POULTRY FAIR.—The Michigan Poultry Association have just concluded on the time for holding their next annual fair. It will commence on Tuesday, Dec. 9th, and continue four days, in the city of Detroit.

ELECTIONS.—Pennsylvania, Ohio, Minnesota, Iowa and Wisconsin had their general elections on Tuesday next, Oct. 14th.

The County Press.—The Citizens' National Bank has just declared a semi-annual dividend of 5 per cent, and added something to their reserve fund.—We are glad to know that Mr. D. B. Cook, who has been for several weeks so sick that his life was despaired of, is fast recovering, and that he is now able to ride out.—A new, novel, and dangerous way of dead-heading it, or rather under, was reported to us to-day. A foolhardy man last night rode all the way from Michigan City to Niles on the brakes of one of the cars of the way Freight east, and was discovered as his boots sticking out, and was lodged from his perilous position. He confessed to having dead-headed or dead-beated as above related.

THE NILES Democrat says: "The ladies of the Presbyterian church realized about \$200 by their dinners at the fair grounds.—Bifteen couples made application for divorces at South Bend last week. This is the saddest evidence of regretfulness that we have noticed for some time.—A negro was arrested one day last week for stealing a hog from Mr. Lowman. He was tried before Esquire Barron and sent to jail at Berrien Springs for sixty days.—Von Kulenbrook, an employe of the Furniture Factory, had two fingers of his left hand cut off by a circular saw on Wednesday. The injured hand was dressed at Richard's drug store.—Sajourner Truth, a colored lady, over whose head the balmy breezes of 102 summers have wafted their onward course, was one of the attractions in the city this week.—She lectured to the colored people, and attended a social of the Baptist Society.—The beautiful spring on the Methodist camp ground, six miles west of this city, has been leased by the Michigan Board of Fish Commissioners, and a hatching-house is soon to be erected on the premises. G. H. Jerome has been appointed Superintendent of the institution.

THE St. JOSEPH Herald says: "Luca Bro's of Coloma have sent a pumpkin to this office which weighs 47 pounds. It was raised by Wm. Ryder of that place.—The first heat of winter came suddenly upon us last Monday morning in the shape of a sharp snow storm, murrainy going with snows zero like a shot. Overcoats, mufflers and winter fixings were in good demand.—Last Friday and Saturday were the most dreary days of the season. The plug of the Univerge was pulled and the rain fell in torrents; old Boreas did his level best, and the poor cried 'more fuel, more fuel!' but to no purpose, as there was none to be had just at that time.

All people would undoubtedly prefer a fine head of hair grown upon their own heads, to being bare or wearing false hair, and it has been the study of many of our learned men to find a remedy to restore the hair when it has fallen out and renew its color after it has become gray. Such a remedy has been found and is now offered to the world under the name of Hall's Vegetable Sulfur Hair Renewer, and to verify this statement, read the following: "This is to certify that I was very bald in fact, my head was perfectly smooth, and it is common in my family to grow bald early in life. I have now used four bottles of Hall's Vegetable Hair Renewer, and the hair has grown out all over my head and is now a natural brown color."

FROM WEE SAW CORRECTION. Oct. 10, 1873. ERRORS RECORD:—Typos and types make some odd mistakes. Not long since it was reported that a certain Legislature passed (passed) a bill over the Governor's head. Your tylo makes as "curious" a mistake in setting up my article of this week. I wrote that we came near having a serious (not curious) accident by young Smith, being caught under a horse's tail. The most of us at some time have felt ourselves to be "under the harrow," but very few, I think, know what it is to have a runaway team attached to it. Should we be in that position, I think we would feel more prayerful than curious. You say too, that fisherman Doty was hurrying off for the "sand" banks. I wrote Grand Banks. I don't know that it is strange that a westerner should think that some of the fish we get are taken when opening a poor can of oysters. City folks too, have a very vague idea of country life, for some of them who never were in a barn-yard or hen-house, think when they get hold of a poor egg, that "the hen must have been sick." As a species of poultry may possibly be awkward and sometimes upset my ink-stand if I don't correct your mistakes, allow me to say that, in speaking of the weather, he said, "It smelt most cussedly (not cussed) of cheese." Perhaps it will not displease the old fellow if I give another anecdote of him. In the prime of life he was considered the best fisherman who sailed from that port, and he continued in that business till late in life, making his last voyage when upwards of 70 years of age. On this last trip he was ambitious as ever, and could not bear that his younger mates should beat him, and so often over-worked himself. One night, after a heavy day's work, he was so exhausted that he could not get asleep; so after burning and twisting, and getting more and more wakeful, he jumped out of his bunk and ran to the pepper sauce bottle, and filling his hand-full of the fiery liquid, he dashed it into his eyes, saying, "There, d—n you glare!"

I don't consider these corrections of special importance, but then they will serve as a variety for your paper.
