COUNTY CONVENTION.

There is no danger of overrating or overestimating the interest which all should feel, in these matters, and the obligation which duty places upon all to see to it that proper steps are taken to put in nomination men who are worthy of official position, and distinguished for their wisdom and intelligence.

THE ADDRESS.

We publish elsewhere a synopsis of the address of the National Republican Convention. We are sorry that we cannot make room for the address in full, but trust that none will fail to read the portions we do publish.

That is claimed for the Republican party is, not that all of its members are honest and reliable men, or that the party is not responsible for some mistakes, but that as a party, during its administration of government affairs, it has proven itself worthy of the highest praise, and it merits the approbation of all true citizens of the nation for the work it has accomplished.

DEAF, DUMB AND BLIND.

At the request of the Commissioner of the Michigan Institution for the education of the deaf, dumb and blind, we publish the following copy of an Act to provide for the education of certain poor persons in the Michigan Institution for educating the Deaf and the Dumb and the Blind.

"SECTION 1. The People of the State of Michigan enact, That the Superintendents of the Poor in each of the counties of this State in which there are, or shall be hereafter, any person or persons between the age of ten years and twenty years, who shall possess a good natural intellect and good moral character, and shall have been afflicted with deafness, or be deaf and dumb, or blind, or partially deaf and dumb, or blind, and who shall be or shall become chargeable to said county, or to any township therein, shall cause any or all such persons to be taken to the Michigan Institution for the education of the Deaf and the Blind, at the city of Flint, to be there educated as pupils in said Institution in accordance with the rules and regulations thereof.

"SEC. 2. Such Superintendents of the Poor shall, in every case, before taking or sending any person to said Institution, as provided in section one of this act, see that such person is in a state of perfect bodily cleanliness, and comfortably and decently clothed and provided with suitable changes of raiment; and they shall thereafter, during the years that such person shall continue a pupil in said Institution, furnish him or her with such clothing and other articles of necessity and convenience as are, or may be by the rules and regulations of said Institution, required to be furnished for pupils therein; and shall provide for the payment of the necessary traveling and other expenses of such person in going to and from said Institution, and while remaining there; and if they shall allow such persons to remain in said Institution during the yearly vacation, they shall pay for his board during such vacation.

"SEC. 3. The expenses incurred by the Superintendents of the Poor of any county in carrying out the provisions of this act, shall be paid as other necessary expenses incurred by them in the discharge of the official duties are by law required to be paid.

"SEC. 4. The Secretary of State shall, as soon as practicable after the passage of this act, transmit four copies thereof to each of the County Clerks of this State, each of whom shall file and preserve one of said copies in his office, and shall, immediately after the receipt thereof, deliver one of said copies to each of the Superintendents of the Poor of his county.

"SEC. 5. If any of the officers herein named shall refuse or neglect to perform any of the duties required of him by this act, he shall, for every such neglect or refusal, be deemed guilty of a misdemeanor, and on conviction thereof shall be fined a sum not exceeding one hundred dollars.

"SEC. 6. This act shall take immediate effect.

Approved April 17, 1873.

The St. Joseph Traveler and Herald Sensation.

Editor RECORD.—The little item in last week's RECORD, copied from the St. Joseph Traveler & Herald, entitled "A High-Toned Sensation," produced, hereabouts, where the parties are well known, a feeling of decided indignation.

Almost any wife, possessing the natural feelings of her sex, would have been a "little jealous" under the circumstances. Where is the wife, if through the machinations of some green chameleon, her husband had been led away, perchance into forbidden paths, who would not have been justly jealous?

ed for the place in company with a nephew, and lo! she found the recreant soul. Indeed, under this remarkable provocation, she was as quiet and as peaceful as any woman ought to be, and much more so than the majority of American wives would have been.

This wife is a respectable lady. Her family is respected and highly esteemed by all who know them. The community hereabouts feel that an outrage has been committed, by the publishers of the Traveler & Herald, in representing the case as they did in the article in question.

The address continues: "The Currency is in an abnormal condition, and must be reformed. It is undoubtedly true that the Republican party is not agreed how to effect that reform; neither is the Democratic party. Neither party, as such, yet sees clearly the right way.

"But there are two reasons for believing that the Republican party rather than its rival can best treat this great question of the finances—First, as the former has hitherto found the true way through graver difficulties than this, so we believe it is more apt to find the true way through this. Second, you have abundant assurance that when Republicans discover the true way they will pursue it. That assurance has not as yet been given by the other party, while the Republican party has given undoubted evidence in the past that it will protect the National credit and honor."

"THE QUESTION OF GREAT TRANSPORTATION is the third and last subject which the committee think will be the vital question in the coming campaign. After enumerating the projects of the different agricultural States and what, a great saving even a slight reduction on the cost of transporting a bushel of grain would make, the address concludes as follows:

"Our internal commerce demands additional and less expensive facilities. The volume of that commerce has grown in these lusty times to enormous proportions. Great as has been the increase of transportation facilities since the advent of the Republican party they have not kept pace with the demand for them. Not only do immense bulks seek movement, but they require to be moved over vast distances. The surplus products of these almost unworked mines, that between the Alleghany and Rocky Mountains and that between the latter range and the Sierra Nevada—require to be dipped out into the ocean on either side. Production is not only vast in amount but it is so unequaly distributed. Of the spring wheat grown in the United States, Wisconsin and Iowa raise nearly one-half. Of the winter wheat Indiana and Ohio produce nearly one-third. Of the corn raised Illinois alone grows one-sixth. Of the tobacco, Kentucky raises nearly one-half. Nine States raise nearly all the cotton consumed in this country and much of that consumed in Europe.

"Having disposed of Democratic diplomatic achievements, the story of the home rule prior to the advent of the Republican party into power is dwelt upon at great length and pronounced sadder than that of the foreign policy, pointing out that deficient revenues were made good from time to time by loans. The prolonged sessions of Congress prior to 1861 are denounced as worse than a waste of time and money.

"The address then recites the scanty appropriations made to improve harbors and rivers. Under this head the history of the origin and completion of the Louisville and Portland Canal is given at length, in the manner in which Democratic administrations refused to take charge of it and relieves the steamboat interest of a gigantic monopoly, while the corporation was virtually swindling the Government and the people through influences in Washington.

THE REBELLION RECORD.

The record of the Democratic Administration while the Rebellion was yet in its incipency is next approached. Of the army it says it was offered far too largely by those who had been educated in every soldierly grace save that of allegiance. The navy was scattered in remote seas, while the doctrine of State rights was preached on every Democratic house-top.

THE GREAT NATIONAL REFORMS AND TRIUMPHS.

Having pointed out the evidences of unfitness, in the opinion of the Congressional committee, why Democracy should never be resurrected, the address takes up the great and glorious course of the Republican party since March 4, 1861. The Union has been preserved, slavery abolished, human rights have gained the sanction of three new chapters added to the National Constitution; murder, organized in several States, bearing the name of Ku-Klux, has been exposed, convicted and punished. The new era in diplomacy growing out of the Treaty of Washington, the relinquishment of the San Juan claim and the payment of the Geneva award, are pointed to as Republican triumphs. The establishment of postal treaties with every nation on the earth and cheapening the postal rate is alluded to with pride.

THE SPANISH DIFFICULTY.

"When, in October last, a Spanish Vice Consul so far forgot the respect due to the United States as to seize upon a vessel sailing under the protection of her flag, Spain, promptly, without the firing of a gun or the spilling of a drop of blood, made that honorable reparation which every just government is glad to make for a wrong done."

THE UNPARALLELED PROSPERITY OF THE COUNTRY.

"Increase of inland commerce, extension of railroads in every direction and an increase of our population are all traced to the beneficent administration of the Government by the Republican party. The policy of discontinuing subsidies to railroads indorsed.

new Congress. We earnestly entreat you to send the purest and ablest Republicans you have; but we entreat you to send Republicans, and not Democrats. You will send one or the other. No matter what the individual may call himself, or what disguise he may wear, he will be a Republican or a Democrat. There is at present no room for any other style in our politics. If you do not mean to retrace the past you will select Republicans, and not Democrats. If you mean to go forward in the future you will select Republicans, and not Democrats."

THE CURRENCY.

"The Currency is in an abnormal condition, and must be reformed. It is undoubtedly true that the Republican party is not agreed how to effect that reform; neither is the Democratic party. Neither party, as such, yet sees clearly the right way. But there are two reasons for believing that the Republican party rather than its rival can best treat this great question of the finances—First, as the former has hitherto found the true way through graver difficulties than this, so we believe it is more apt to find the true way through this. Second, you have abundant assurance that when Republicans discover the true way they will pursue it. That assurance has not as yet been given by the other party, while the Republican party has given undoubted evidence in the past that it will protect the National credit and honor."

THE PROBLEM TO BE SOLVED BY REPUBLICANS ALONE.

"But whatever may or may not be expedient to be done, this much seems certain—if the National Government is to do anything whatever to cheapen transportation only the Republican party can be relied upon to do it. The Democratic party has forsaken all such labors. Long ago they determined the Constitution would not permit the Government to remove an obstruction from a harbor or a river. It is vain to suppose they will find now authority to build canals or construct railroads. But we are not left in doubt as to their present condition. Two votes given during the past session—one in the Senate on Mr. Winston's amendment to the River and Harbor bill and one in the House on Mr. McCrary's Railway Bill—will prove beyond all doubt that the Democrats, like Bourbon, have learned nothing good, even if they have forgotten anything bad."

THE MORAL OF THE PAST.

"Upon all these considerations, for all these reasons, we think you should send Republicans and not Democrats to the next Congress. If you cherish the deeds of the recent past and would not see them undone, if you respect the present and would not disgrace it, or if you have hope of the future and would realize that hope, we urge you to send Republicans and not Democrats to the next Congress."

The County Press.

"We notice several venturesome little stalks of corn growing in Main street. The foreman of the cow lot, of the Shering Club of this city, offers a reward of \$25 for the detection of parties killing prairie chickens before the 15th of August. Harvey Palmer's residence was entered by a buglar, on Wednesday night, and a quantity of silver ware was stolen. Better load your shot guns. S. M. Finley has traded with David Gitchell for his half interest in the Niles Furniture factory. The establishment is now owned jointly by Paine & Finley. Diminutive young ladies are patronizing the broad brim hats quite extensively. Proportionately speaking, some of them resemble snow birds under a microscope. John Hand, taking pity on a bovine being driven to the city pound, the other afternoon, delivered her from the custody of the boy who was then her guardian, and in doing so committed an assault for which he was brought before Justice Alward and fined \$1 and costs. \$6.75—imposed. He was immediately re-arrested under the city ordinance for rescuing the cow, and the case will be heard next Monday."

An Index to Marriage.

"It don't require an astrologer, a medium or a gypsy with a direct pack of cards. It is very simple—lies in a nutshell, and can be expressed in few words. They are these: The last person you would naturally think of."

The St. Joseph Traveler and Herald SAYS.

"J. H. Lee, sold last week to Mrs. M. A. Phelps, of Evanston, Ill., one-half or about 14 acres of his place, on the Lake Shore, for the sum of \$10,000. After making careful inquiry of our former leading fruit growers the present week, we can lay before our readers the following statement in regard to different varieties of fruit in this fruit belt at the present time: Raspberries are about gone, and although their promise is first of a good crop, that promise has not been realized. The crop is very light. There is a full crop of blackberries. Peaches are looking well but they need rain badly—and as we go, to press they are getting all they need. Young trees will yield a full crop, but on old ones it will be light. Early and late varieties promise alike, and although there will not be over one-fourth of a crop of this delicious fruit, it will be a full crop of all kinds of grapes. We publish the following from the Three Rivers Reporter of July 25th. The victim of this sad accident was formerly a resident of this village and was well known throughout this country.

"About two weeks since George V. Malloy, residing in the second ward of this city, while engaged in the railroad machine shops at Jackson, had the misfortune to have the fingers on his left hand taken clean off by a circular saw. He came home and had been here since until Monday of this week, when he took occasion to run to Jackson for the purpose of having a surgical operation performed on his disabled hand. When at the depot, by some unforeseen mishap he was run over by a 'switch engine,' cutting off one of his legs entirely and severely injuring him otherwise. We will probably hear of his death before going to press."

Later, Mr. Malloy died in Jackson at 1 p. m., Thursday, and his remains were brought here on the Detroit Express the same evening. His funeral took place Friday.

THE pastors of the M. E. Church and the Advent Christian Church in this village, exchanged pulpits on Sunday morning last.

If you have property to sell, advertise in the RECORD. This is the time of the year that real estate is changing hands. We do not say that an advertisement will secure a purchaser in every case, but we know of many instances where a few dollars spent in this way has brought about a sale.

WE note with pleasure and satisfaction a general disposition among our subscribers to pay for their paper in advance. If proper arrangements are made, all can pay for their paper in this way as well as at the end of the year. Such a rule will enable us to do business on a safe basis, and will work to the mutual benefit of all concerned.

NEW CORN has been for sale at our grocery stores for several days past.

FROM reports within "the belt," the peach crop this fall will not be as large as was anticipated. There will be plenty, however, of good quality for the market, and will bring a better price, perhaps, than if the crop were more abundant.

THERE is some talk of Ex-Vice President Wilson resigning his office on account of his health. His health has been constantly failing for some time.

THE attempt of Judge Giddings to commit suicide is cited to illustrate the evil effects of the inadequate salary paid Circuit Judges for their services. It furnishes a more striking illustration of another evil which has become alarmingly common among people who occupy official positions.

SEWING MACHINES for \$15.—We call the attention of our readers to an advertisement in this issue of the Bureau Sewing-Machine. People everywhere know that they have a right to own a sewing machine as they have a right to own a house. It is a household necessity, and one that three hundred per cent. was not found that would manufacture machines and sell them at reasonable prices. People have said that they would patronize such an enterprise if, once started; the Bureau Machine is pronounced a first-class machine, fullable treadle, black walnut top, finished—all for fifteen dollars. Agents wanted everywhere. Read the advertisement for particulars.

THE lengthly bill board on Day's Avenue could not withstand the strong wind on Saturday night last, and some fifty feet of the same were found on the ground the following morning.

RAIN.—A heavy shower of rain visited this vicinity on Friday last, doing an incalculable amount of good to the farming community. Another such shower would be welcomed at present.

SOME of the farmers have already commenced plowing for wheat.

WE will publish notices of township caucuses, free of charge. Send us notices as soon as meetings are called.
