

The Berrien County Record.

W. D. KINERY, Editor.

THURSDAY MORNING, NOV. 5, 1874.

TUESDAY'S DIRECTIONS!

NOT A GOOD YEAR FOR REPUBLICANS.

Michigan Republican BY 5,000 MAJORITY.

Legislature Republican by 20 to 25 majority on joint ballot.

RETURNS NOT COMPLETE.

We give below the result of the election in this State on Tuesday last, so far as heard from, and of some of the other 23 States that held elections at the same time. Owing to several causes the returns have come in very slowly. There has never before, within the past fifteen years, been an election held in the State of Michigan when the result in every county could not be reported accurately, at least on the second day succeeding the election. Herein our own county (reliance being laid entirely on the telegraph for gathering news), the majorities on all the tickets are not known in seven townships, on Thursday afternoon at this place. Some of the telegraph wires have been useless and others have been chiefly used in transmitting train despatches. The results in this State and county from the best information received at this hour, are as follows:

Bagley's majority for Governor is about 3,000. The balance of the State ticket elected, from 3,000 to 5,000 majorities. Estimated majorities of Congressmen in the several Congressional Districts are as follows: First, A. S. Williams, (Ind. Rep.), 2,037. Second, Henry Waldron, (Rep.), 530. Third, George Willard, (Rep.), 1,000. Fourth, Allen Potter, (Ind. Reform), 1,200. Fifth, Wm. B. Williams, (Rep.), 690. Sixth, H. Durand, (Dem.), 1,000. Seventh, O. D. Conger, (Rep.), 1,200. Eighth, Geo. F. Lewis, (Dem.), small. Ninth, Jas. H. Hubbell, (Rep.), majority not given.

THE LEGISLATURE. The Senate according to corrected returns will stand Republicans 16, one doubtful, 15 Democrats, four doubtful and one Liberal. House of Representatives. Republicans 60, Democrats 40. This will give a Republican majority on joint ballot, of 20, which will secure a Republican United States Senator.

THE COUNTY. As will be seen elsewhere the vote on State Senator is very close. The indications are that Thomas Marrs (Rep.) is elected by 20 or 30 majority. The Democrats claim the election of Wm. H. Breese, Prosecuting Attorney, and John Tate, Treasurer, and Damon A. Winslow, Circuit Court Commissioner. The balance of Republican county ticket is elected by small majorities.

PENNSYLVANIA.—The Republicans claim the election of fifteen Representatives to the Democrats twelve, a loss of seven, but have carried the State by 12,000 to 15,000 majority. On joint ballot it is barely possible that the Republicans have a small majority, enabling them to elect a United States Senator.

MASSACHUSETTS.—The Republicans elect the State ticket all but Governor, and Legislature Republican. Missouri, Alabama, New York, Kentucky and New Jersey go Democratic by large majorities. Yet here have a Republican majority on joint ballot in the Legislatures.

THE LESSONS. There are certain facts which every person can readily recognize in the results of the recent elections. One of these is that a certain element of the Republican party has gone over to the Democracy. Another is, that the vote everywhere was very light and Republicans indifferent. And also that many of the candidates on the Democratic and Reform tickets were once leading Republicans, who do not and never did claim to be Democrats. And still another fact is admitted, that the Republicans, as a rule, were not careful enough in selecting the very best and strongest men for the party for official positions. We say that these are some of the facts that are apparent to all, but do not propose to give our views at present as to what induced or brought about these existing facts or circumstances. We believe there is a reason for them, and that the proper influences will now be used to counteract them in the future. If the officers of this Government will fairly represent their constituents, Republican principles, whether under the guise of Democracy or any other party name, will control this nation, justice and right will earn and faithful advocates and the recent apparent defeat will be a blessing to the Republic and the country. Our faith in the people and the Government has not faltered on account

of sudden reverses of this kind, and if the laws are properly respected, wisely improved and faithfully guarded, this Republic will continue to grow, to strengthen and to flourish, securing individual and national happiness and prosperity, and the enjoyment of the choicest blessings of civil and religious freedom.

BERRIEN COUNTY.

Relow we give the returns, so far as received this (Thursday) evening, from the several townships in this County. They are somewhat "mixed," but the indications are that the Opposition have elected their candidates for Representatives in the State Legislature in the Second and Third Districts, while the Republicans have elected Thomas J. West in the First District. Thomas Marrs (Rep.) is probably elected Senator over Dr. F. H. Berriek by a small majority. Of the balance of the County ticket the Opposition have probably elected the Treasurer, Wm. H. Breese, while the Republicans have elected the balance of the ticket, but by greatly reduced majorities. The following is the vote, so far as heard from:

Alarmed at the Consequences of their Own Acts. The members of the Southern White League are already becoming alarmed at the results of the late election, and the public mind by their acts of ostracism, murder, and other atrocities committed against the harmless and defenseless colored population in some of the Southern States. They did not intend to have the secret movements of the "League" made public, nor to allow their proscription of the colored voter from the ballot-box to be made known in the North until after the elections were over. In ante-bellum times there were no Republicans in the South, and no Republican newspapers south of Mason and Dixon's line. Deeds of darkness could be committed then ad infinitum upon the helpless colored race in almost any part of the South, and never be published with the approval of the North. In the States, or known in Northern States unless some smart negro escaped to the underground railway and carried the news to Canada. But the emancipation of the Southern bondmen and the suppression of the rebellion opened the way for establishing a free press in the South, in many cases conducted with a considerable degree of ability by emancipated slaves themselves. And now these atrocities are made public as soon as they are committed, and the facts are republished throughout the Union. Concealment of deeds of darkness is no longer possible to any considerable extent. Their enormity is seen by the public eye in all its heinousness from Maine to Oregon, and the crime is felt and accepted as committed not only upon the helpless victims who are made more immediately to smart, but against the people and the Government by whom

the colored race was lifted from the condition of slaves to that of freemen, and ultimately, to freemen and citizens, one of whom, at least, has already occupied the Speaker's chair in Congress, and conducted the business of the House, for the time, while others of their race have represented the Government abroad in official capacity.

The time has come when the rights of the colored citizens must be respected, and those who attempt to trample upon them, be they "White Leagues" or Satan's own black legions, must be made to know that they can no longer do so with impunity. There is apparently an impression abroad among the turbulent spirits of the South that they are so guarded by State rights that Federal interference can not reach them. This is a delusion inherited from the past generation.

The President and his Cabinet and the Congress and the people of the United States have been disposed to be lenient, and for nine years, since that memorable scene under the Appomattox apple tree, the Administration and the people's Representatives in Congress have labored faithfully and in earnest to unite the North and South, and tempt capital, enterprise, and with them carry prosperity into the disaffected Southern sections of the Union, so that the people there might participate in the harmony and material progress of all other parts of the domain.

But against all these earnest and continued efforts a persistent opposition has been manifested by an inconsistent, unrecanted, and unreasonable portion of the white people in the South. This spirit is now developing itself more prominently in acts of tyranny, deliberate murder, and usurpation.

Forbearance and patience have their limits, and in the relations of the Government to this remnant of the old secession spirit they have reached that limit. These crimes and acts of violence of every kind must be brought to a close, and the criminal punished at whatever cost. The President has spoken, and Congress and the people may find it necessary to speak and act. We must have peace and security to life and property throughout the length and breadth of the land. Troops are to be placed in the localities where the rights of citizens are proscribed, whether white or black. If, after that, attempts are made to re-enact the scenes of the past few weeks the next measure of the Government may possibly be martial law, the offer of large rewards for the arrest of the perpetrators, and a levy tax upon the communities where property is destroyed or murder committed for an amount equal to the value of the missing individuals, and for the life support of the families of those so murdered. These measures, should they be found necessary, will be supported by a military force equal to the emergency.

Congress will, if necessary, act immediately on reassembling, and any man who obtains a claim to a seat in Congress by fraud or intimidation on his part or by others, in depriving citizens of the privilege of voting who are legally entitled to do so, or otherwise preventing a free election, may, on the facts being proved, be refused a seat. In contested elections the party proven to be in the wrong may not be allowed mileage, pay, or the cost of the contest. Other measures may be found necessary to protect the people in the full exercise of all their rights of citizenship, and to provide against the authors or abettors of fraud in the use of the ballot-box from occupying seats in Congress.

The Southern question will now be met promptly, and if leniency cannot secure peace, harmony, and justice, the strong arm of the law will be called into requisition, and the authors of violence and fraud will be made to understand that peace and honesty are not only the best but the safest and cheapest policy.

The street sprinkler has retired for this season. It has been one of the indispensables this past summer.

By the new postal law all post office box rents go to the post master to the amount of \$2.00.

Quite a number of nice black haws have been sold in our village during the past few days.

Go to Mrs. De Vinney's for your Fall and Winter hats.

150° test oil at Smith Bros. & Co., for 25 cts. per gallon.

Dr. Catherine J. Welles' celebrated Ague Pills for sale at the drug stores in Three Oaks and New Buffalo.

OVERCOATS are becoming fashionable. If you haven't got one you can get one at L. P. & G. W. Fox's for almost nothing. If you don't believe this go and ask them about it.

New subscribers can have the RECORD four months for 50 cents. Try it for four months.

Plans for building ice houses are now in order. It is a fact that every family can, at a very trifling expense, build an ice house large enough to hold a supply for the year round.

A FULL line of Men and Boy's Gloves and Mittens, at Smith Bros. & Co., cheap.

We can hardly call this Indian summer that we are now having. Most too cold and changeable.

By the terms of the specifications the new Pad Factory building is to be finished by the first of January next.

BRIGHAM YOUNG is said to be sick and in a critical condition. If he should die there would be a sudden advance in the price of black crape.

We are under obligations to our young friend, Harry C. Plimpton, for Indianapolis dailies of recent date. We are glad to hear that Harry has a desirable situation as collection agent for a wholesale establishment in that city.

READ THIS.—J. Brown has a portable buzz-saw with which to saw wood, for the town and country. Those having wood to saw will find it to their advantage to give him their sawing to do. Buchanan, Nov. 5, 1874. 38w4

POLITICS are now of less interest, and we shall hereafter devote more attention to matters usually found in the columns of the RECORD.

Did you lose your bet on the election?

We are fond of turkey. We do not intend that any one will take a hint by our saying this, but fat us on the coming Thanksgiving.

NOTICE.—The only place in the county to get your Solid Jewelry made to order, at Lapierre & Brown's, Niles, Mich. 144f

WANTED.—To purchase a small improved farm in the vicinity of Buchanan. Those wishing to sell will address, (giving description, location, terms, etc.) Post Office Box 129, Buchanan, Mich. w2

ENGAGE your cutter for the first sleigh ride—also your girl.

WELLS and cisterns are giving out in different parts of the country. Read the advertisement elsewhere of a patent well borer. It is said to work with perfect success, and is guaranteed to supply a quantity of soft water good for all purposes.

OUR exchanges contain an unusual number of marriage notices this week. The matrimonial market is growing lively—another evidence of approaching cold weather.

Now is the time to buy your winter supply of Dry Goods, Clothing, etc. We are just in receipt of piles of new goods, cheaper than ever.

REDDEN & GRAHAM.

The sudden changes we are having in the weather, to productive of colds. Guard against taking cold now, for if a severe cold is contracted at this season you are likely to suffer from it all through the winter.

PUBLISHERS of newspapers are so unfortunate sometimes as to need money. We are now in this condition, and those owing us on legal advertisements and job printing, are earnestly requested to settle at the earliest day possible.

Mrs. DE VINNEY beats them all trimming and selling Fall and Winter hats.

SENSIBLE people demand that some fashion be introduced so that marriages in high life will be more secluded hereafter. The superfluous nonsense in our public dailies of late is really disgusting to intelligent readers.

Go to Redden & Graham's and see their new stock of fall and winter goods. They have everything you want, and will sell at the lowest prices.

A full and complete stock of boots, shoes, hats and caps, cheap for cash. Call before you buy, at Noble's. Talk cash and down they go. w2

LITERARY.—On account of the inclement weather two weeks ago, the members of the Literary Society have decided to give another entertainment to-morrow (Friday) evening. Question for discussion, Resolved, "That the annexation of Cuba to the United States would be mutually beneficial." The public are cordially invited to attend. The members of the Society desire to thank the public for their attendance during the fall, and hope to see them out on Friday evening.

Public Sales.—We have printed sale bills for three sales to take place near this village this week. It will soon be too late for public sales, yet we learn that property sells at a reasonable price at all of the sales thus far this year.

Butter is a scarce article in our market. It retails at 30 cents, but will doubtless go higher before it is any cheaper.

ELECTION returns come in very slowly. We give the results elsewhere, which will not be changed materially when the official returns are published in full.

LADIES do not fail to read the advertisement elsewhere, of the new Millinery and Ladies' Furs—Shirts, of Misses Hall & Merrill. These ladies have a large assortment of goods in their line and invite the people to call, feeling confident that they can be suited both as to goods and prices. Remember the place on Front Street, four doors west of Tremont House.

PILES and piles of new goods, just arrived, at Kinyon & Vincent's. Sugar at the same low price, and everything else in proportion. Seeing is believing. Go and see them.

We call the attention of our readers to the advertisement elsewhere in this issue, of A. S. Hayes & Son. These gentlemen have permanently located in Buchanan, and will keep constantly on hand a large stock of pure drugs and other goods in their line. We trust they may receive a fair share of the patronage of the public, and succeed in building up a large and profitable trade. Read their advertisement and then go and see them.

The place to buy Groceries is at J. P. Binn's & Co. where you will be served gently and will not be found fault with if you don't buy. Goods are sold at fair profit. Call and see for yourself.

J. P. BINNS, A. C. DAY.

EFFORT is being made to organize a dancing club in this village the coming winter. We are not very much opposed to social dances occasionally, but we advise our young people to not forget or neglect intellectual culture, or the storing of the mind with useful knowledge for practical life, for the sake of enjoying the society of the gay and spending too much of their time for fun and pleasure.

KEEP up your cows now or the Marshal will be after them. By the village laws cattle are not allowed to run at large within the village, between the first day of November and the first day of April following.

THE National Association of Lumbermen recommend in a circular to Lumber men, that the amount of lumber to be manufactured in 1875 be limited by the amount actually necessary to supply the wants of the people.

WE want twenty cords of wood on subscription during the next two weeks.

PERSONAL.—Mr. George A. Harris has removed with his family to New Buffalo. Mr. Isaiah Rynearson has also removed with his family to New Buffalo to remain through the winter.

MR. JOHN BARBER left in our office, yesterday, two yams that weighed each 5 1/2 pounds; also two red beets, the largest of which weighed 8 1/2 pounds. Can any one beat this beet?

ORTON MARSH, of Vandalia, Cass Co., is spending a few days visiting friends in this village.

A GRAND RAPIDS man has been in business thirty-five years coming next December, and has never advertised. He has amassed a fortune of sixty dollars.—Exchange.

BUILDING.—B. T. Morley has commenced to rebuild his foundry on the south side of Front Street, corner of Front and Portage Streets. We trust it will not be long before Buchanan will again have a foundry in running order as it is what the place needs.

ABOUT BITTERS.—At certain periods of life a tonic is necessary; but there is danger in attempting to cure the organs of digestion while giving temporary relief. To obviate this, and present to the public a tonic free from Alcohol, POISON, Dr. Greene prepared the OXYGENATED BITTERS, a pure cure for DYSPEPSIA and all kindred complaints. Sold everywhere. JOHN F. HENRY, CUMBERLAND, O. P. O. Box 8, and P. College Place, New York.

WE forgot last week to tell those who did not witness the recent total eclipse of the moon, that they can have another opportunity to see it in about one thousand years.

READING ROOM.—Could three hundred in our village club together to provide a good reading room through the winter months. A room lighted for three months would cost about \$40. Six dailies could be procured for about \$15.00, thirty weeklies for \$15.00, and twenty magazines and periodicals for \$20.00. A person to keep room in order for \$50.00, and you have the whole expense amounting to only \$140 for the three months, which would be less than 50 cents each. If an organization was once established, people would donate books, papers and magazines, and there would soon be a library and reading room that would be a credit to the place. Who will undertake an enterprise of this kind?

Woon.—Those subscribers who have a contract to pay for their paper in wood are requested to bring it along now. We will accept all the wood that is brought on subscription until further notice. We want our wood-house filled up before the roads are in such a condition that it will be impossible to get it.

SINCE the snow storm the farmers who have not finished gathering their corn are at work full force. They have had a warning that will be well for them to heed.

THE Largest and cheapest assortment of clothing, furnish goods, at Bates' store.

THE first paper in Michigan that publishes "Beautiful snow," this year, will receive complimentary notices from all the other papers, gratuitously.

WE have this week printed some bills and programmes for Prof. J. J. Roe and daughter's Musical Concert. They propose to start out on a travelling tour through the State, and give a musical concert, vocal and instrumental, in various places. The superior musical talent of the Roe family is well known in this part of the State. They are all first class singers, and their entertainments have never failed to give the very best of satisfaction. Every one who has an opportunity should attend one of these concerts, and we guarantee that all will be well repaid for time and money expended.

PETERSON'S JOURNAL for December. All articles complete in each number. We have received the first number of the magazine, dated for December, and we truly say that this new enterprise opens in the most promising manner. This number contains twelve first class stories, all published complete, and many of them written by authors of high ability and reputation. To all those desiring a first class magazine, a large majority of whose pages are devoted to the publication of the best fiction of the day, we can recommend this. The publishers formerly connected for many years with the Saturday Evening Post and the Lady's Friend, will, in the management of this new periodical, have the benefit of a long and varied experience. Terms: \$3.00 per year, in advance. An extra copy will be supplied free for one year to any person sending a club of five subscribers, at \$2.00 each. The postage will be prepaid by the Publishers, without extra charge, in accordance with the new law. Specimen copies, 25 cents. H. Peterson & Co., 920 Walnut Street, Philadelphia.

DR. V. CLARENCE PRIOR.—This eminent physician has made his visits regularly for years. This fact alone, is a sufficient guarantee of his ability as a physician, but the fact, that at each visit he is thronged with applicants, and some times so many that the last ones cannot gain admission into the room before the hour when he is obliged to depart, is still better evidence. There are those who may and possibly do despise the doctor as a traveling quack, but such a preconceived prejudice can only work injury to the despisers themselves, who, if they are afflicted with any chronic disease, may suffer on, and fit a premature grave in consequence of their bigotry.

Let those who desire to consult a physician of honesty and skill see Dr. Prior on his next visit at Niles, Reading House, during Saturday and Sunday, the 21st and 22d of November.

TALMAGE'S PAPER.—The Christian at Work (New York) ranks with the best of the religious weeklies. Dr. Talmage is its active editor, and his sermons published exclusively in its columns. The terms \$3.25 per annum, cover everything: a high class postage and delivery of the premium, a "Portfolio of Twelve Gems" or a copy of Landseer's "Twins." Without the premium it is only \$2 per annum, postage prepaid as above. Agents will find this success. 38w2

THE balance of cash in the State treasury, September 30th, was \$1,070,297.33. The total during October was \$1,177,731.07. The vouchers paid, including 1st warrants, \$233,212.65, leaving a balance in the treasury, Oct. 31st, of \$974,792.73, showing a decrease during the month of \$95,481.59.

THE REPUBLICAN MAGAZINE, published at Washington, D. C. For nearly two years this valuable publication has furnished the most reliable and valuable information on public affairs anywhere to be obtained, and in convenient form for preservation and reference. The November number contains articles on the Undeveloped Resources of the South; The Central Territories of the United States; The Political Outlook—probable results; The Decay of New Orleans; New York and other State Conventions; Departmental Intelligence; Carpet-bag and Democratic Taxation; Senator Morton's Speech; Schedule of Southern Outrages; and other minor articles.

Subscription, \$2 per year. Every citizen who desires a thorough knowledge of public affairs should subscribe.

A MAN in RUINS.—One of the saddest of men is one who has been shattered and broken down by the use of ardent spirits. But the damage may be repaired, the ruin restored to perfect soundness, by course of that most powerful of all invigorants, Dr. WALKER'S VINEGAR BITTERS. Beware of those "tonics" of which ruin is an element. They aggravate disease and promote decay.

The season for coughs and colds is rapidly approaching, and every one should be prepared to attack the first symptoms, as a cough contracted between now and Christmas, rarely lasts all winter. There is no better remedy than John's Anodyne Liniment. For all diseases of the throat and lungs it is a sovereign remedy. It is a powerful expectorant, and will loosen the phlegm, and induce a healthy action of the lungs. It is a powerful tonic, and will strengthen the system, and induce a healthy action of the bowels. It is a powerful sedative, and will soothe the inflamed membrane, and induce a healthy action of the throat. It is a powerful antiseptic, and will destroy the germs of disease, and induce a healthy action of the system. It is a powerful restorative, and will restore the system to its normal state, and induce a healthy action of the organs. It is a powerful purgative, and will cleanse the system, and induce a healthy action of the bowels. It is a powerful diuretic, and will increase the flow of urine, and induce a healthy action of the kidneys. It is a powerful emetic, and will induce vomiting, and induce a healthy action of the stomach. It is a powerful cathartic, and will induce evacuation, and induce a healthy action of the bowels. It is a powerful antispasmodic, and will relieve the spasms, and induce a healthy action of the system. It is a powerful anodyne, and will relieve the pain, and induce a healthy action of the system.
