

The Berrien County Record. JOHN G. HOLMES, Editor. THURSDAY MORNING, SEPT. 2, 1875.

WAR. Daily the telegraph wires bring us news of war and rumors of war in the world. First we notice that Tripoli, one of the most easterly of the Barbary States, in North Africa, had offered indignities to the American Consul, and to the Americans in general in that province.

The dispatches confirm the rumor that Mr. Wade, the British Minister at Peking, China, has asked his government to reinforce the British troops in China, as in his intercourse with the native officials at Peking, he has been treated with studied insolence.

From Central Asia comes the news that the insurgents have surrounded Khojend, a large city fifty miles from Khokan, in the Russian empire, and communication is cut off between Khokan and Tashkent. The Russian inhabitants in the latter city were being armed.

European dispatches state that the insurrection in Turkey is assuming vast proportions. Seven thousand women and children are now fugitives in Croatia in consequence of the Herzegovian insurrection. The insurgents have burned the steam engine at Khorlo. The Grand Vizier of Turkey is said to have resigned, and will probably be succeeded by Mohammed. Popular feeling is so strong in Servia in favor of the insurgents that it is feared the government will experience great difficulty in preventing a conflict with Turkey, while Austria, who has assembled a whole army corps in Dalmatia, will probably offer her services to the Sultan of Turkey.

The war in Spain is yet progressing. A dispatch from Perpignan, dated Aug. 28th, says Seo d'Urgel has capitulated, and the Alphonstist army occupied the forts. The garrison were made prisoners of war and taken to Puycedra. The Bishop of Seo d'Urgel was also taken as a prisoner of war.

A telegram received at the Navy Department in Washington, on Thursday last, announces that the State of Peru has declared war against the Government of Colombia. Our government immediately issued orders to Rear Admiral Mullany commanding the North Atlantic Station, to hold his available force in readiness to proceed to the Isthmus, if necessary, for the protection of American interests.

Telegrams from Montevideo state that the dissatisfaction with the President and his ministry is such that no doubt is entertained that another revolution is imminent in Uruguay. Dispatches to the New York Herald, from Havana, Cuba, say that the rebels, under the command of Modesto Diaz, have captured several coffee and sugar estates in the neighborhood of Guaninamo. The most of these places were guarded by small garrisons, who, in most instances, made common cause with the rebels, and helped them to accomplish their ends.

In our own country, the savages of the western plains are in arms. A dispatch to the Leavenworth Commercial, dated Aug. 20th, says reliable information is received of another Indian outbreak on the Cimmaron, about fifteen miles from Fort Dodge by the Cheyennes, Arapahoes and Kiawias. Troops have gone from Fort Dodge to the scene of the outbreak. Along the frontier there is great excitement among the many hunters and trappers who have just left for the Buffalo hunting grounds.

FAILURE OF THE BANK OF CALIFORNIA. The failure of the Bank of California, at San Francisco, on Thursday last, has produced a sensation probably exceeding that caused by any other failure in our country for many years. The Pacific coast is said to be seriously affected, and it was thought that other failures would follow, but according to latest advices, a better feeling prevailed. Only two other banks had closed their doors, and these only to enable them to convert their bullion and other property into coin. The failures will undoubtedly be confined to the single Bank of California, though a run was being made on all the other banks in the city.

EDITORIAL REMONSTRANCE. Wm. C. Ralston, the President of the Bank of California, committed suicide at San Francisco on Friday, by drowning. It is also the general impression that he took poison before going into the water. A sketch of his life says he was a native of Georgetown, Mass., and for some time served as a pilot on Mississippi River boats. He finally reached California, where after a series of speculations and successes, he became a man of wealth. He was a proud, reckless, and generous man when wealthy, but when shorn of his wealth and honors, he could not meet his fall manfully, and sought oblivion by taking his own life.

Probably the largest Grangers gathering yet held in this State was at Kalamazoo on Friday. The procession was over two miles long. Speeches were made by Hon. J. J. Woodman, Hon. J. W. Childs, Hon. Henry Chamberlain and others. It was a grand success in every respect.

The balance of cash in our State Treasury, August 18, was \$1,240,827.19. The receipts during the week ending August 25th were \$23,022.25; payments during the same time were \$4,799.23. Balance in State Treasury August 25th, \$1,268,150.21; being an increase for the week of \$18,293.02.

Very enthusiastic railroad meetings were held at Paw Paw, on Wednesday and Friday of last week. At the last meeting, Lawrence, Lawton, and Paw Paw were represented, and a committee was appointed to draft articles of association for the extension of the Paw Paw Railroad to Lawrence, and to receive subscriptions to the stock. All appearances indicate that work will commence in a very short time, and be pushed to an early completion.

The 27th Annual Fair of the Michigan Agricultural Society will be held at East Saginaw, September 13-17, 1875. A dispatch from Ottawa says, that the story published by the Cincinnati Enquirer about Donaldson, the balloonist, is not true. He is not in Canada, and is not credited in that place, and that no such lake is known in that vicinity.

The Indians at Leech Lake, Minn., who have shown signs of uneasiness for some time, have taken the war-path, and are killing and destroying property. No murders have been reported, but in view of the threatening aspect of affairs troops have been asked for from Fort Ripley.

IOWA CORRESPONDENCE. ALGONA, Aug. 24th, 1875. EDITOR RECORD:—Thinking that a few items from North-Western Iowa may prove interesting to you and your numerous readers, I venture to send you a few lines from Algona, which is the capital of Kosciusko Co. and is present the terminus of the Dakota Division of the Milwaukee and St. Paul R. R. It contains from 1,500 to 2,000 inhabitants, and has been entirely built in the past five or six years. It is pleasantly located on the east bank of the Des Moines river and is surrounded by as fine a farming country as can be desired. Its business houses are numerous. There are ten dry goods stores, which the fair daisies around here seem to patronize liberally, six grocery and three hardware stores, two harness shops and five hotels. To minister to the physical ailments of the people there are three drug stores, and to the spiritual ditto, three churches. There are also two graded schools and a splendid college, all of which are well attended. All this Algona has done without the assistance of a saloon. They look not on the wine when it is red in the cup and the early cocktail is unknown. There are a great many agricultural implements sold here, and Michigan is well represented. Amongst others, I notice the Michigan Vibrator and Sweetsakes Thrashers, also some of the Buchanan Wagons which meet with very successful success. The Excelsior Bakery, manufactured by the Wolverine Handle Factory, at Galien, is largely used in the neighborhood, especially just now as the farmers can't get hands to bind their grain, so they cut it down and pitch it off loose, and they say the Fork has become a necessity. The farmers are jubilant this year as crops are coming up very heavy. For the last few years the grasshoppers have made great havoc, but they anticipate no danger from them now. A very pleasant feature in the country is found in the groves which every farmer cultivates near his buildings, and which not only protects from the Iowa storms of the winter, but affords a pleasant retreat from the scorching rays of the sun in summer. There are quite extensive groves, so that the eastern traveler, passing through the country by Rail, would scarcely realize that within a very short period these prairies were absolutely treeless. With crops coming in heavily, and the fact that Mr. Grass Hopper has gone to "seek fields fresh and pastures new," I prognosticate a large emigration to this section of Iowa during the next year.

Preparation of the Republican Party. It is said by a cotemporary that this "is an off-year in politics, and one probably the very best time to overhaul the matter, weed out the drones, the bunglers and the negatives, and do the party's work for its future." The contest for the party's life comes on next year. Can we go into the contest depending on bunglers, drones, and negatives as our leaders, with one-half of our forces repelled from the ranks with disgust at such leaders? This is the question that we should first settle, prior to any contemplated re-organization of our forces; and, in fact, with this question being satisfactorily settled, it is useless to contemplate anything beyond it; for men who zealously strive for success in any cause are unwilling to go into a contest under the leadership of notorious failures. Wise men are not in the habit of being taken by surprise. In expectation of a conflict, they calmly view

the field and arrange their forces. If this is what is technically called in politics an "off-year," it is a year to be succeeded by one of the most important elections in the history of the country. The Republican party can boldly face the people with its record, though it may be marked by the imperfections of human nature. What that record is—what the Republican party has done—has been so cleverly formulated by the New York Herald that we give it with pleasure: "It has done noble deeds. It saved the Union; destroyed secession; emancipated the slaves; lifted the Republic from the position of a group of contending, angry States, into that of a proud, defiant Nation, ranking with the great powers of the world. We are a Nation, and this we owe to the Republican party."

That there are drones, bunglers, and negatives among Republicans is probably true. But they form so infinitesimal a minority that they cannot affect the great result. In some localities such persons may be known, and may depress more sensitive minds. Such may be even pointed at as among a prominent few, who became prominent by accident. But, as the leaders of the Republican party are for the most part, tried and true men, any other kind of people, though in high position, is sure to meet its level.

Never were Republicans more in earnest in their preparations than for the approaching campaign. Depend upon it, men who have failed, are they ought to have succeeded, are not the men who will be trusted, to any great extent. A re-organization of forces through the country has been going on, and will proceed, until every movement will be made with the precision of the army. Of course this implies that defective and inefficient leadership must give way to the leadership men of bold and stirring character. The time that tries men's souls will soon be upon us. Zeal and wisdom will be necessary to ensure success. No Republican who values the true principles of human progress can be indifferent to his party. The advance made by the Nation during the last decade, an advance greater than had been accomplished during the fifty years of Democratic rule—was work of Republicans. Indeed, the country needs the Republican party, both to develop and lead it onward. The Democratic party, if in power, would only drag it backward into the darkness of the past.

Republicans, however, have an abiding faith in the National common sense and the National conscience, and respecting both, the Republican party will use its best endeavors to rectify errors, to put aside public men who have rendered only a half-hearted service, and to erect a standard from which to appeal to the people who will hear their call and rally to their support.—Republican.

A Party Without a Policy. The Democratic party is a unit on one proposition, "Anything to beat the Republican party." This accomplished, it will split on every prominent question. It is made up of ex-Republicans, ex-Liberals, ex-Whigs, ex-Abolitionists, and is controlled by ex-Whigs. It is safe to say that, once invested with the control of the nation, a party made up of such discordant elements would have no settled policy on which its followers could unite. Some would favor repudiation, others good faith in maintaining the public credit. Some would favor the payment of Southern State debts, others would oppose it as unwise. Some would favor the compensation of loyal masters for the loss of their slaves, others would oppose this as opening a door for national bankruptcy. With the Southern wing of Democracy, the treason of the past would be glorified. The Northern wing would contain a few Democrats wild enough to protest against it. Some would favor hard money, others an unlimited supply of paper money. Some would favor the blotting out of the 13th, 14th and 15th Amendments, others would oppose it. Some would favor legislation that would abstract Northern enterprise—taking this course to retaliate for past punishment—others would oppose it. Thus Democracy would be split in numberless factions, and the result would be, unwise legislation, and a weak administration of public affairs.

"Anything to beat the Republican party," may do as a rallying cry, but no party can advance the nation's welfare on a platform so narrow and selfish as this. Parties to win public support must have well defined principles to present to the people. They must show that they are influenced by a desire higher than that of revenge. The fortunes of a party amount to nothing with the people. The fortunes of a nation are what they consider, and the party that meets their views and obtains their endorsement must first prove that it is influenced by the purest patriotism and has within it the power to build up the national welfare. The Republican party can do this; the Democratic party cannot.—Republican.

Political Notes From Our Exchanges. Massachusetts politics are bubbling and boiling over just now. Both the State Conventions have been called, and the "mentioning" of candidates is proceeding at a lively rate. The interest of the average Massachusetts man in political affairs, and the intelligent voting that he generally does, form a remarkable contrast to the lethargy that prevails in other States in respect to all minor elections.

The Western Reserve in Ohio embraces twelve counties in the Northern part of the State, which were mostly settled from New England. It has always been a Republican stronghold, and good things are expected from it this year, since the canvass has been of a nature to bring out a full vote. The Reserve, it has been estimated, can poll, on a pinch, 100,000 votes. Last year a good many Republicans stayed at home.

Bill Allen will be a repudiated bill for the 12th of October, if the newspaper oracles know what they are talking about. He will be classed as an accommodation "Bill, then, of course.

CHARLIE ROSS. Special Telegram to the Times-Ocean, Aug. 31. Philadelphia, Aug. 30, 1875. The trial of Westervelt for being accessory to the abduction of Charlie Ross, was commenced here to-day. Westervelt was a brother-in-law of Mosher, and is charged together with his wife, with having acted as a spy for the kidnapers. He held frequent conferences with Superintendent Walling, of New York, with the ostensible purpose of aiding in restoring the child, while at the same time it is alleged he kept his brother-in-law informed of the actions of the detectives. He was arrested last April, and has been lying in Moyamensing ever since. He was once a member of the New York police force, but was discharged for protecting lottery men. Counsel for the commonwealth stated that Westervelt and Mosher were seen on the 25th of June inspecting the vehicle in which Charlie was carried off, and on subsequent days of gaining the "friendship" of the children by talk-

ing and playing with them in the neighborhood of the Ross mansion. On July 1, the kidnapping occurred. They also allege that Westervelt accompanied Mosher and Douglas in their burglaries on Long Island just before Mosher and Douglas were killed. The three in consultation determined they should go to Europe, and write Mr. Ross from there. Their death, however, put an end to all such plans. The present case has attracted much attention, and some startling developments are anticipated. Mr. Ross was called to the stand to-day, and commenced a recital of the harrowing story. His testimony will cover all the particulars of the case, as he knows them, and it is believed he will seriously implicate Westervelt, as he is still greatly depressed, and as active as ever in searching for his child. He still visits all the doctors, and he consults with Superintendent Walling of New York, and there still seem shadows of gloom to be worked out. As to Westervelt, some believe that he is innocent, and is being accused and tried to shield the dereliction of the police. It is difficult to say. There is certainly a great mystery surrounding the whole affair, the detectives and police included.

A correspondent of the St. Paul Pioneer-Press undertakes to enlighten the public as to the fate of William Morgan, who suddenly and mysteriously disappeared fifty years ago, and who, it has long been supposed by many, was murdered for revealing the secrets of Masonry. The correspondent says that his father, when a young man, knew Morgan well. After the alleged murder, the correspondent pere met in the woods of Maine a lonely hermit, who he recognized as Morgan. He communicated the discovery to persons living near the hermit, and the news probably traveled back to Morgan himself, for when the hermit's hut was next visited it was found empty. The writer who tells this wondrous tale modestly suggests that he has thrown more light on the fate of Morgan than had previously come from any source. This claim may be allowed and yet it cannot be said that the mystery is much nearer a solution than it was fifty years ago.

THE OCEAN PRESS. [Notes Republican.] The Niles Light Guards have received their uniforms, and their guns and accoutrements. They are armed with Springfield muskets which are good for an enemy at nine hundred yards. The Guards are having their Army — Kellogg's Hall — painted and kalsomined, and otherwise improved. Patrick Welsh, a hard working farmer and worthy citizen, living four miles northeast of the city, had four stacks of wheat—perhaps five or six hundred bushel—burned on Wednesday night of last week. It was doubtless the work of an incendiary, as the foot tracks of a man were found about the stacks and a bottle lately filled with benzine was found where he had crossed the fence near there. This is fiendish work, and the perpetrator deserves the severest punishment possible under the law.

[Notes Democrat.] A little son of Edward S. Williams, who lives a few miles east of the city, while playing, last Monday, fell in such a manner as to break his collar bone. A horse kicked little George Asmus in the face Monday evening, inflicting a severe wound. The boy was trying to catch the animal, which was loose in the field. James McCarty, aged 10 years, jumped into a pile of broken bottles, Tuesday last, and cut an artery in his foot. He had about two minutes of life in him when he was carried to Dr. Fairchild's office, where the wound was dressed and the bleeding stopped. He is still in a critical condition.

[Boston Harbor Palladium.] Joseph Hazellhurst, the youth who is supposed to have lacerated the tongue of a horse, belonging to Mr. T. Gibney, of Hager, last week, was examined before Wells Browne, on Wednesday, and held for trial, at the next term of Circuit Court. Bail was fixed at \$500, but not being able to procure it, he was committed to the county jail. The Free Press reports the following large crops in Berrien county: E. P. Smith, of Niles, dug 400 bushels of potatoes from an acre. Jacob Beale, of Berrien, thrashed 860 bushels of wheat from 25 acres, an average of 34 bushels per acre. Joseph Becker, also of Berrien, reports 540 bushels from 15 acres, or 36 bushels per acre. Nine acres of ground on the P. Shaker farm, near Buchanan, produced 40 bushels per acre.

NEIGH BORHOOD NEWS. [From the South Bend Tribune.] The assessment roll of this city for 1875 totals \$5,326,000, and is divided into real estate, \$1,551,045; improvements, \$1,301,380, and on personal property, \$1,973,075. The number of polls are 2,592, male dogs, 454, and female 80. John Taylor, time-keeper at the new Oliver Works, was severely poisoned some days since by eating a small piece of supposed mushroom. He ate it raw and immediately felt a smarting of the throat succeeded by a burning sensation in the stomach and vomiting, which lasted for six hours. The antidote taken was strong coffee. It is believed by some that the real mushroom is poisonous, out of season.

A burglary was attempted at the residence of Hudson Buzzy, at about 2 o'clock Saturday morning. Operations were begun at a window in the sleeping room of Dr. Applegate. For some purpose or other, two sticks, dead limbs from a peach tree near by, were thrust into the room, one of which fell upon the bed, which awoke the Doctor. The party at the window removed a slit from the blinds, which were nailed closed, the window being open to admit air through the mosquito bar. The party outside was at the window perhaps half an hour, occasionally communicating with a confederate in the street by whistling. The Doctor finally fired a shot from his revolver through the blind and unfortunately missed. He miscalculated the position of the fellow, seeing no part of him but the hand. The slit which was removed was found next morning in the street in front of the house.

CHARLIE ROSS. Philadelphia, Aug. 30, 1875. The trial of Westervelt for being accessory to the abduction of Charlie Ross, was commenced here to-day. Westervelt was a brother-in-law of Mosher, and is charged together with his wife, with having acted as a spy for the kidnapers. W. & W. MATHEWS have removed their meat market to the room formerly occupied by O. E. Woods & Co. on Front Street.

MRS. BLAKE, wife of Mr. John Blake, of this village, was buried on Thursday last. Mrs. Blake was one of the oldest inhabitants of this section.

OUR story in last week's issue was somewhat mixed, having through mistake a part of another piece in it. Better next time.

PROF. S. A. SESSIONS has removed to this place, preparatory to assuming the duties of principal in our graded school.

MR. ARTHUR HIMES, Mason City, Ill., son of Eld J. V. Himes of this village, has been visiting under the parental roof for a few days past.

MRS. M. G. DANN returned to Buchanan, from Atlanta, Ga., on Saturday last. We believe it is her intention to make this village her future home.

It is believed that the Republicans of Ohio will gain five votes on the school question where they will lose one on the financial. The Cleveland Herald is authority for the statement.

MRS. CLARA MOORE, of Chicago, daughter of Mrs. Mansfield of this village, has been visiting relatives and friends in Buchanan and vicinity for a few days past.

W. OSBORN, Superintendent of the Buchanan Manufacturing Co., returned home on the Kalamazoo Accommodation Saturday night from his Western trip, apparently much improved in health.

We are glad to see a new tin roof on the Collins and Weaver block, and we hope to see the hall put in a condition to occupy, and thus relieve the wants of the traveling public.

We are informed that the third or "rub" game is to be played at Cassopolis, which will decide the contest. All were well pleased with the reception and hospitality extended them while at Dowagiac.

A SAD case of misery, depravity and desertion was landed at our depot on Thursday night, in the shape of a human being who stated that he was shipped from Detroit by the authorities, for Chicago, but his ticket only called for Niles and the conductor put him off here. His feet were both blistered so that he could not walk, his face had not been shaved for two months, his clothes ragged, barely covering his body, and what he had on were daubed with his filth so that no one could approach him without a cologne bottle at the nose. But he was sent on West.

EXTRA copies of the RECORD can be had at the news depot of J. H. Roe, in Union Block.

ODD FELLOWS' PIC-NIC.—The Odd Fellows of Southern Michigan will have a picnic at Three Rivers, the 11th day of September. Hon. Schuyler Colfax will deliver the address. We learn that Buchanan will be represented.

THERE are four thousand dollars already raised, for the purpose of building a new bridge across the St. Joseph river at Berrien Springs. This is an improvement that has long been needed, the bridge in that place being quite old and unsafe.

Probably the oldest woman in America, if not in the world, died at Brooklyn, N. Y., on Sunday last. She was a colored woman, named Mrs. Mary E. Rankin, and was 116 years of age.

MR. SAM'L FRENCH has erected sheds in the rear of the Presbyterian Church, for the accommodation of five span of horses. This is a good example and we hope that others may follow in this humane act.

MR. CHARLES ALLIGER, son of Mr. E. O. Alliger, of this place, and a most estimable young man, was killed while engaged in coupling cars at Battle Creek, Monday afternoon, August 30. The particulars of this sad accident are not received, but we shall be able to give them in our next issue.

WILL THREADELL, the popular news dealer of Niles, will soon offer to bet something on the time he can make from Niles to Buchanan. At least we should judge he was trying his powers of endurance, from the number of times he "hoofs" it over here.

WE saw Isaac Lucas, the constable of Niles, in town on Saturday. He was trying to persuade a farmer, whom he was "scurrying" to come to town Monday and "fix up" that little matter you know." The farmer promised, and it went home happy.

It is rumored that Hon. A. H. Morrison, of St. Joseph, is to again assume the general management and Superintendency of the Chicago & Michigan Lake Shore Railroad. We hope the rumor may prove true, as Mr. Morrison is a thorough railroad man.

How handy it seems to be for those persons having their place of business on wheels, and be able to just hitch up and drive outside of the Corporation and stay while the assessment is being taken. The Corporation tax is made very light for some in this way.

BREKELARY.—The house of Mrs. Howard, a little East of town, was entered in the day time, on Monday last week, while the family were absent, and a quantity of clothing, bed clothes, &c., taken away. It is supposed to be the work of attaches of the circus that was here on that day.

The School Board have furnished the chimebays of our School building with galvanized iron tops for the purpose of increasing the draught, which has been so weak heretofore as to render it impossible to keep the several rooms of the building in comfortable condition. Our school has been stopped several times an account of this difficulty, much to the annoyance of its patrons.

Two weeks ago we published the marriage of Mr. Luther Fowler to Mrs. Rosa Gibbons. A few days after the marriage Mr. Fowler was taken ill, and Rosa, not loving her spouse as well as a good wife ought to love, left the old man to his fate, utterly refusing to care for him, and now she "mourns" his loss, as he was buried in Oak Ridge Cemetery on Sunday last.

COL. J. H. WOOD, in company with Messrs. R. S. Mann and Wm. Van Fleet, two gentlemen of well known reputation in the profession, have opened a Museum and Lecture room at Nos. 78 and 75 East Monroe Street, between State and Dearborn Streets, Chicago, and will give entertainments twice daily, at 2 p. m. and 8 p. m. The Museum is replete with the curious works of-nature, and the entertainments in the Lecture room will be of the highest order of historic art.

We would ask our Drug Store printers, in all kindness, to put their imprint on the work sent out of their office. We do not wish to be understood as having any objections to their doing job work, but many people do not know but the botch work sent out by them, (for instance the bills printed for Redden & Graham) emanated from this office, and that's what we don't like about it. It makes us feel nervous to have such an impression go out. Please father your blacksmithing, and accept our thanks.

CROQUET.—The return game of Croquet between Dowagiac and Buchanan champions came off at Dowagiac on Thursday last. We had expected to be furnished with a full report of the games, but failed to receive it. We learn, however, that the Buchanan players "scooped" their opponents, winning five of the seven games played. This was rather unexpected to us, owing to the fact that our men were so badly-beaten by the Dowagiac players when they were here one week before.

We are informed that the third or "rub" game is to be played at Cassopolis, which will decide the contest. All were well pleased with the reception and hospitality extended them while at Dowagiac.

A SAD case of misery, depravity and desertion was landed at our depot on Thursday night, in the shape of a human being who stated that he was shipped from Detroit by the authorities, for Chicago, but his ticket only called for Niles and the conductor put him off here. His feet were both blistered so that he could not walk, his face had not been shaved for two months, his clothes ragged, barely covering his body, and what he had on were daubed with his filth so that no one could approach him without a cologne bottle at the nose. But he was sent on West.

REUNION.—Last week we went to press while the ninth annual reunion of the Twelfth Regiment was being held in this place, and were unable to give the full proceedings on that account. We gave, we believe, a full list of the members and others present. At the business meeting of the old officers of the organization were re-elected, and an Executive Committee, consisting of Capt. Dims, Graham and DeMont, were appointed, with whom the matter of appointing the next annual reunion was left. The following members of the Regiment were reported as having died during the year: Col. Wm. H. Graves, Capt. Will M. T. Bartholomew, Sergt. D. K. Hubbard, private Jeremiah Courtney and private Edgar Beckwith. The Committee on Resolutions, consisting of Capt. DeMont, Corp'l Fuller and private Helms, reported the following Preamble and Resolutions, which were adopted:

Resolved, That the surviving members of the Regiment take this occasion to express the great esteem entertained by them for the company, and in our village for a few days, and will take pleasure in showing up the workings of a life insurance company, taking risks on the most favorable terms to the assured, and from what we have seen and read of the company, certainly recommend it to the careful consideration of our people.

Resolved, That upon the decease of any one of our members, we will report them to the Secretary of this organization, who shall cause a suitable obituary to be published in one or more of our local papers; and shall cause the same to be spread upon the records of this organization.

Resolved, That we will ever remember with gratefulness our ninth annual reunion in the pleasant village of Buchanan.

Resolved, That as we perpetuate these reunions, we wish in all possible means to ascertain the whereabouts of those "boys in blue" that were our regimental comrades, during those dark hours of our Civil War.

Resolved, That upon the decease of any one of our members, we will report them to the Secretary of this organization, who shall cause a suitable obituary to be published in one or more of our local papers; and shall cause the same to be spread upon the records of this organization.

Taking all together it was one of the most happy reunions that has yet been held by the Regiment, and each member, as he left for his home, felt happier for having been present.

We presume it unnecessary for us to say that Mary Authur is a great favorite with all the RECORD office hands, when we mention the fact that she often finds her way in the composing room with ice cream for all hands. It's always good, too. The last time she climbed our stairs with "lice cream for six" was Saturday last.

A FRIEND has handed us No. 1, Vol. 1 of the Three Oaks Echo published by Lewis S. Boyton. It is an eight page paper, two pages of which are printed at home, the other six in Chicago. We trust the people of Three Oaks will give this new enterprise a liberal support.

THE examination of Rev. A. J. Russell, of this place, and Rev. A. Gillett, of Dowagiac, for ejecting a man named Edwards from the Crystal Springs Camp Meeting grounds, took place at Pokagon on Monday and Tuesday. Considerable evidence was heard on both sides, and the jury returned a verdict of guilty and the parties fined \$2.50 each and costs.

The case has been appealed to the Circuit Court. F. Muzzy, of Niles, appeared for the prosecution and Hon. J. J. VanRiper, of this place for the defense.

CLASS 26, in Catalogue of 25th annual Fair of Berrien County Agricultural Society, announces an exhibition of babies not over 18 month old, which will be the center of attraction, during the session of the fair. The first premium offered is \$15 to the first and handsomest; the second is \$10, and the 3d, \$5. The judges are to be, Judge H. H. Coolidge, Hon. S. Colfax and Hon. Henry Chamberlain. The excitement will be when the premiums are awarded.

CONSIDERABLE complaint is made by our mill men near the river, and the cause is the course pursued by some lawless or careless persons trespassing upon and injuring their property. Monday morning Mr. C. S. Black found, upon repairing to his mill, that some one had been tampering with his dam, and had let the water out, so that the mill could not be started before nine o'clock. We are willing to wager something that somebody would get a duking if caught in mischief there by Mr. Black.

MESSRS. DAY & ROUGH, proprietors of the Buchanan Wagon Factory, shipped to S. M. Black, their agent at Romington, Ind., one of their wagons for exhibition at the Union Fair to be held at that place Sept. 7th, by Denton, Jasper and Newton counties. This is their best effort, and in our judgment cannot be excelled by any manufactured in the country. The material used is the very best, and the finish cannot well be surpassed, the team being all painted to a bright gloss, the wood work finished in oil and varnish, while the box is painted in the highest style of the art. Messrs. Day & Rough may well feel proud of the "boss" wagon, and if it does not take the first premium we will be very much mistaken. We learn the cost of its construction and finish, at the factory, was about \$500.

Keep in mind that Redden & Graham sell for cash hereafter. You can buy goods cheaper of them now. Call and see and be convinced.

Sept. 1st, 1875.

Remember that they can buy goods as cheap of us as they can buy them from the factory, from \$5 to 10 per cent. cheaper than any man will sell to you and trust you for them.

LIFE INSURANCE. The subject of life insurance has received the attention of the greatest of our statesmen for years past, and from their opinion we gather some suggestions worthy the consideration of others. Life insurance confers on the world a mixed benefit. It stimulates and encourages habits of prudence and self denial; presents the ready means for providing for the widow and orphan, for sickness and old age; and gives meanwhile a feeling of confidence, security and independence. Among the many companies, none seem to meet our views more fully than the Union Mutual Life Insurance Company. (Director's office 158 Tremont street, Boston.) This company offers every advantage to be secured in life insurance, among others, all its policies are non-forfeitable; the lives of women insured at same rate as men; the company's twenty-six years experience; its stability beyond question; its large assets of \$9,000,000, with a surplus of \$1,350,000, and the company's interest receipts more than pay its losses or working expenses. It offers advantages second to none. Mr. C. O. Cooper, special agent for the company, will be in our village for a few days, and will take pleasure in showing up the workings of a life insurance company, taking risks on the most favorable terms to the assured, and from what we have seen and read of the company, certainly recommend it to the careful consideration of our people.

THE REPUBLICAN MAGAZINE for September has been received. No Republican should be without this startling monthly. It is doing good service in the country; it's bold and un-spooken, and should receive a liberal support from all friends of the cause. "Can the Nation trust the Democratic Party," is the title of an article that contains material which should be in the hands of every public speaker. It is a review of the Democratic record for the past fifteen years, with extracts from public papers; votes in Congress; also views of the party from Confederate standpoint. Other interesting articles published in the September number make it one of great power in the pending campaign. Send \$2.00 to Republican Publishing Company, Washington, D. C., and obtain the Magazine for the year.

DR. V. CLARENCE PRICE'S many years practice of medicine, and the hundreds of cases successfully treated by him, enables him to locate the disease at once and unless chronic in the extreme, the sufferer will in every instance be benefited. On Saturday and Sunday, the 4th and 5th of September, Dr. Price will make his next visit to Niles, stopping at the Reading House.

Business Locals. The Multiplication of Diseases. Diseases multiply. One begets another. A trifling indisposition may, therefore, originate a complication of dangerous maladies. Indigestion begets far more formidable diseases; a multiple ailment is treacherous to constitution; fever and ague unwholesome the entire nervous system, and is therefore the source of the protean ailments which affect that portion of the human organism. Hooper's Stomach Bitters, however, whether resorted to at the inception of those disorders of the stomach, bowels and liver, which give birth to the majority of diseases and disabilities, or taken when they have ripened into formidable majority, are alike powerful to cure. The progress of recovery is, of course, longer when the malady had gained headway, but it is none the less certain. Dyspepsia, constipation, biliousness, kidney complaints and intermittent fever, in as well as the prostration of the system, and get a bottle of Green's August Flower, and your immediate cure is as certain as you live. Sample bottles of this medicine can be obtained for 10 cents, to try its superior virtue. Regular size, 75 cents. Try it, two doses will relieve any case. Also for sale by A. Bennett, New Buffalo.

WANTED.—A situation at anything respectable by a young lady who has had experience as book-keeper, saleswoman and housekeeper. Best of references given. Wages not so much an object as a home. Enquire at this office.

READ what Binns & Rose has to say in their new advertisement in this issue.

J. M. WILSON, dentist, will attend promptly to all kinds of work in his line at lowest rates and guaranteed satisfaction. Call and see him.

This place to buy all kinds of furniture at the lowest rates is at Spencer & Willard's, on Day's avenue.

DR. CALVERT inserts gold and silver fillings at reduced prices. Don't fail to call on him.

The cash store is at Redden & Graham's. You will know that from the low price of goods.

If you want a good milk safe call on Spenser & Willard.

The Hoosier force feed grain drill, the best in the market, is for sale by R. A. DeMont. Call and see him before purchasing elsewhere.

A CHANGE of PROGRAMME. On and after September 1st, 1875, we will sell goods for cash only. We have several good reasons for this change.

It has become almost universal throughout this country.

To compete with those who have already adopted this course, we cannot charge goods or keep any books.

8d. We can sell you goods much cheaper when we have the ready pay than when we have to wait until after harvest of each year.

We can sell you goods at a very small profit hereafter, but must have the money at time of purchase.

We thank our old customers for past favors, and hope you will continue with us under the new programme. We will try and use you well, and satisfy you that the change is for the better.

Those who have accounts with us will please call and settle immediately.

Remember that they can buy goods as cheap of us as they can buy them from the factory, from \$5 to 10 per cent. cheaper than any man will sell to you and trust you for them.

NOTICE.—The undersigned would respectfully announce to the public that, owing to the sharp competition in the grocery market, and the majority doing business on the cash system, also many failing to meet their bills promptly with us, compelled us also, to successfully compete with the market, to hereafter sell for cash only, except to those in our employ, or those we are indebted to. We shall endeavor to keep constantly on hand a good supply of the best quality of groceries at our store and bakery.

J. P. BINNS & Co. Sept. 1st, 1875.

REMOVAL.—Will occupy room first door west of Lapiere & Brown after September 1st, 1875.

A FULL line of goods at Dodd's drug store.

We will sell our entire stock at cost to make room for fall stock. Come at once to secure bargains.

Tax Smith Bros & Co's 75 cent Japan Tea.

EXTRA COPIES of the RECORD can be had at the news depot of J. H. Roe.

NOTICE is hereby given that any person or persons found hunting or trespassing on the lands of the undersigned will be prosecuted to the full extent of the law. We mean business.

NOTICE.—We have some fifty large lithograph pictures of Buchanan, in colors, showing every building and the surroundings. These are what were left of a lot that retailed for \$8 each. We sell these for the low price of 50 cents each. They are nice to frame, and are in the shape of that they can be sent by mail to friends who would value them very highly. Call early, before they are all sold.

Plenty of those \$4 calf boots, at L. P. & G. W. Fox's.

FOR SALE.—One yoke of oxen and one span of horses. Time given if required. Inquire of B. F. Needham, Dayton, Mich.

MISS NOVGOROD FAIR.—The great market in the eastern world has been at this junction of the Volga and Olga Rivers, in Russia every summer for hundreds of years. Here the nations of Europe and Asia meet with their products for trade. Cossack, Chinese, Turk and Persian, meet the German and the Greek with every variety of merchandise that mankind can desire, from carpets to grindstones; tea, opium, iron, food, tools and fabrics, and last but not least medicines. J. C. Ayer & Co's celebrated remedies from America were displayed in an elegant bazaar where the Doctor himself might sometimes be seen. They are known and taken on steppes of Asia as well as the prairies of the West, and are an effectual antidote for the diseases that prevail in the youths of the North, as well as the huts and cabins of the western continent.—Green's August Flower.

It is natural for people suffering with Dyspepsia and Liver Complaint or any derangement of the digestive organs, such as Sour Stomach, Sick Headache, Habitual Costiveness, Palpitation of the Heart, Heart-brush, Weak-brush, going and burning pains at the stomach, Yellow Skin, Coated Tongue, and disagreeable taste in the mouth, coming up of food after eating, low spirits, &c., to put off from day to day buying an article that they know has cured their neighbor friend or relative, yet they have no faith in it until it is too late. But if you will to your the price of 50 cents, call and get a bottle of Green's August Flower, and your immediate cure is as certain as you live. Sample bottles of this medicine can be obtained for 10 cents, to try its superior virtue. Regular size, 75 cents. Try it, two doses will relieve any case. Also for sale by A. Bennett, New Buffalo.

HOME CORRESPONDENCE. That boy who was skulking along the river bank last Monday till he came to a flock of tame ducks, and lurking about the water, ought to be ashamed of himself for shooting a pet duck, no so tame he could pick it up. He had better get into some other employment, for he may find some one that will do something more than see or hear him. If we expect our boys to be anybody in the community, we ought to have them employed otherwise than prowling along the river banks and on other people's premises, taking melons and other things that do not belong to them. This duck shooter and melon thief belongs to the same gang that shot their guns off at some small children that were passing along the road, minding their own business. I say parents ought to know what professions their children are following. X. Y. Z.

FROM DAYTON, Aug. 30, 1875. An exciting Base Ball match took place on Saturday, Aug. 28th, at one o'clock P. M., between the Wolverines of Terre Coupes Prairie, and Dayton nine, of this village, on the grounds of the latter, near Dayton. It was the most skillfully played and hotly contested game we ever witnessed, the same being played with but a single error. Following is the score:

Table with columns: WOLVERINES, R, O, DAYTONS, R. Rows include players like C. D. Sheldon, F. M. Barton, etc.

ALEX. DEARMOND, Soccer. WATERMAN, Umpire. Time of game, 1 hour and 45 minutes. SPECTATOR.

BARGAINS! FOR SALE BY D. A. WAGNER, BUCHANAN MICH. A new and double building in Buchanan, 200 feet long and 20 feet wide, with a large lot and a good house.

HILL'S CORNERS, Aug. 26, 1875. MR. EDITOR.—The news from this section of the country is not of a very interesting character, further than the absence of the misanthropic influences which generally prevail in this section and vicinity. The doctors of this and adjoining places are seeking a livelihood in different ways, probably such as best suits their physical constitution. Dr. Bestwick is ditching, Dr. Dunning is endeavoring to instruct a small class to follow the would-be teachings of him who doeth all things well. Dr. Sober is haying, while Dr. Royce is jockeying in old horses. Dr. Steeter is farming, while Dr. Spooner is "seeking whom he may devour." The cheese factory at Hill's Corners is in a flourishing condition, the cheese making being conducted by one Mr. Howlett, from Ohio, who is second to none, both as regards cheese making and a moral, obliging citizen. Respectfully, S.

PROCEEDINGS of the Common Council of the Village of Buchanan, Michigan, REGULAR MEETING. Common Council Room, Buchanan, July 29, 1875.

A regular meeting of the Common Council of the Village of Buchanan was held at the Council Room, in Engine House No. 1, on Thursday evening, July 29, 1875.

Present.—C. S. Black, President; B. D. Harter, Recorder; Messrs. Binns, Mowrey, Griffin, Howe, DeMont and Glover, Trustees.

Minutes of the adjourned regular meeting, held June 25th, were read, and on motion Mr. Howe, supported by Mr. Binns, they were approved and read.

A renouncement against constructing a sidewalk on the West side of West Street, signed by Elias Eaton and 28 others, was read, and on motion of Mr. Binns, supported by Mr. Howe, the same was referred to the Committee on Streets, Sidewalks and Bridges.

The Committee on Streets, Sidewalks and Bridges, to whom was referred the petition of Thos. Wright, Jay Glover and others, for a Sidewalk on the West side of West Street, would respectfully recommend that the prayer of the petitioners be not granted.

E. M. Griffin, J. Com. Moved by Mr. Howe, supported by Mr. Mowrey, that the motion be accepted and adopted. Motion carried.

Moved by Mr. DeMont, supported by Mr. Mowrey, that a Sidewalk be ordered constructed on Main Street, from the North line of Mr. Daniel Totter's land on the East side of Main Street to Fourth Street, subject to the orders of the Committee on Streets, Sidewalks and Bridges. Motion carried.

The Committee on Streets, Sidewalks and Bridges, to whom was referred the petition of O. W. Rose and others, asking for the opening of Alexander Street, would respectfully recommend that the prayer of the petitioners be not granted.

Monday Reading THE LIFE TO COME BY WYWOOD Time and happiness are flying, Hours and days glide swiftly by, And each year, its rounds completing, Brings us nearer to the sky.

Peace in the Family The following excellent rules for providing peace in the family have been given: 1. Remember that your will is likely to be crossed every day, so prepare for it.

Would You? Would you keep your rosy complexion, wear thick-soled shoes, do away with airs and pretenses, would you have others respect your opinions, hold and never discuss them yourself?

In the lives of the saddest of us there are bright days when we feel as if we could take the great world into our arms. Then come gloomy days when the fire will neither burn on our hearts nor in our hearts, and all without and within is dismal, cold and dark.

The world is governed by three things—wisdom, authority, and appearance. Wisdom is for thoughtful people, authority for rough people, and appearance for the great mass of superficial people who can look only at the outside.
