

The Berrien County Record.

JOHN G. HOLMES, Editor. THURSDAY MORNING, OCT. 14, 1875.

THE ELECTIONS.

In the elections of October 12th, the Republicans have carried Ohio by a majority of over 10,000, electing Hayes Governor. Reports from different parts of the State show Democratic gains in some of the rural districts, while the Republicans carry the cities and towns, five wards of Cincinnati voting Hayes a gain of 878 votes over the vote of 1873. Official returns from eighteen wards and precincts in Hamilton County give Hayes 4,884, and Allen 4,845, the whole county ticket probably being elected. In Toledo Hayes will probably have a majority of 500 or over.

Returns from Iowa show that that State has gone Republican by from 85,000 to 40,000 majority for Gov. Kirkwood. The Republicans will have a majority of forty or more in the general assembly.

Full reports from Nebraska have not been received, but sufficient returns have been made to show that the State has gone Republican, and the new Constitution, probably, adopted. Reports from Newark, N. J., state that the city elections resulted in immense Republican majorities. Henry J. Tates being elected by a majority of 3,390 over Andrew Smalley, Democrat. In 1873, the Democrats elected the Mayor by a majority of 110 votes, showing a Republican gain, since 1873, of 3,500.

Saturday was the fourth anniversary of the burning of Chicago.

It is estimated that over a million dollars worth of property, besides hundreds of lives, have been lost by the late heavy rain storms in southern France. England is suffering from the same cause, though less severely.

A Seneca (Kan.) man is taking a novel way of getting his stock wintered. He offers one dollar for the largest two ears of corn in the county.

The bones of "American Girl" are to be stored away in the museum of Cornell University for public exhibition. This is not "the girl of the period," but the late famous trotter.

The Nineteenth Michigan Infantry held their sixth annual reunion at Allegan, the 8th inst., with a large attendance. The next meeting was appointed at Kalamazoo on the first Wednesday of October, 1876.

The people of Connecticut have ratified the proposed constitution changing the time of their State elections to November instead of October, as heretofore.

Hon. Wm. W. Crapo, of New Bedford, Mass., son of the late ex-Governor, Henry H. Crapo, of this State, has been nominated by the Republicans of the first congressional district of Massachusetts, to fill the vacancy caused by the death of Hon. James Buffinton.

The Santa Rosa (Cal.) Democrat gives the following estimate of the vintage of 1875 in that State: "Scumma, 1,000,000; Los Angeles, 500,000; S. Lano, nearly 500,000; Napa, 700,000; El Dorado, 600,000; Yolo, 500,000; Auburn, 400,000; Yuba, Sacramento and Marysville, 1,200,000; Colusa, 300,000; Santa Clara, 500,000; Santa Barbara, Ventura, San Bernardino, San Luis Obispo, Monterey, Tehama, Lake, and other counties not enumerated, say 1,500,000, making the total of 8,000,000 gallons." It is further estimated that in the next few years a large number of vines will come into bearing, increasing the present production at least one-half.

The U. S. Supreme Court on Monday decided that women are not entitled to the right of suffrage under the 14th constitutional amendment. This ends the claim of Susan B. Anthony and a few others. Chief Justice Waite in his opinion says that suffrage was never considered a privilege or an immunity of citizenship, and that sex has never been made an element of citizenship. The court is unanimously of the opinion that the federal constitution confers no suffrage on anybody, and that the constitution and laws of the different States are not necessarily void when they come to that important trust to men alone. The case was that of Virginia L. Miner, of Missouri, appealed from the decision of the Supreme Court of that State, which adverse decision is now affirmed.

THE FOREIGN DEMAND FOR WHEAT. It seems to be settling down to a certainty that the demand for Great Britain for our wheat, this year, will be larger than it was last year. The matter has been in doubt for some time, but it is apparently certain now, that the crop on the other side will not be as valuable as was at one time expected. For some time past, the number of acres devoted to wheat growing has been decreasing in Great Britain, probably to make room for stock raising, which is a much more profitable business. In 1860 the population was 5,000,000 less than it is now, and yet the number of acres under cultivation exceeded those on which crops are grown at present, by half a million acres. This year—the population still increasing, being greater than it was last year—the wheat crop is 14 per cent. less in Ireland, and nearly 8 per cent. less in the entire Kingdom. It has been estimated by Mr. James Caird, that 88,000,000 bushels of wheat will have to be imported in order to feed the nation during the coming winter and spring. We shall probably furnish the greater bulk of this, so our farmers may take heart over finding a market for their produce. Our continental rivals, Russia, and France, have met with such disastrous floods, now found to be fully as overwhelming as ever supposed, that they will not be in a condition to compete with us as actively as they have in some years, and

MICHIGAN ITEMS.

A grange store with a capital of \$50,000 will soon be started at Grand Rapids.

A barn, etc., belonging to Leonard Baldwin, Adrian, was burned Thursday night. Loss \$500.

Charlie Wolf's dry goods store, at Howard City, was burglarized \$250 worth on Thursday evening.

W. B. Hill was examined yesterday at Battle Creek for forgery, and in default of \$800 bail was committed for trial.

COLDWATER, Oct. 10.—The jewelry store of Daniel W. Sawyer, in Quincy, six miles east of this place, was robbed last night of about \$500 worth of goods.

Ephraim Bennett, proprietor of the Bennett ink manufacturing company, died at his residence in Kalamazoo, Friday. He had been in ill health many years.

The friends of Nye, the Battle Creek murderer, now in jail at Marshall, undertook to provide for his wants, a la Stokes and Tweed, by sending him a box with toilet articles, bedding, and dainties for his table, but Sheriff Stanley intercepted the contribution, declaring that there shouldn't be any aristocracy among his boarders.

Mrs. Brooks, of Muskegon, mother of Sarah Brooks, who was a few days since abducted by L. G. Burke, is hopelessly insane, and wanders the woods all day in search of her child.

There appears to be considerable mystery about the case. The Sheriff offers \$100 for Burke and the girl.

At Corunna, Friday, William Coffey, a boy aged 14, was smothered in Shick & Son's elevator. He was at play with another boy about the bin, and while the wheat was being drawn out jumped into the bin and was drawn into the vortex and suffocated.

At Inlay City, Saturday, George Weigers was out riding with a young lady and his horse ran away. The occupants of the carriage were both thrown out, and young Weigers was killed almost instantly, his neck being broken by the fall. The young lady escaped without injury.

The following is the summary of the transactions at the U. S. Land Office at Traverse City, for the month of September: The number of homestead entries was 127, covering 14,882 acres; final proofs, 27, covering 4,988 acres. The cash entries covered 125 acres, amounting to \$307.28.

The balance of cash in the State Treasury Sept. 30, 1875, was \$1,229,106.59; receipts during the week ending Oct. 6 were \$24,884.74; payments during the same time were \$48,488.55; balance in treasury Oct. 6, 1875, \$1,205,557.69; decrease for the week, \$23,548.51.

According to a writer in the Michigan Odd Fellow, there is a church in one of the towns in this State, where there is written over the pulpit the following: "No man shall preach who does not kneel when he prays; no man shall preach in this church who uses manuscript; no man shall preach in this church who belongs to any secret society."

HOLLAND, Oct. 9.—A man aged thirty, named Cornelius Jongers, highly busy in the woods yesterday at Fillmore, three miles south of here, cutting a tree off of the stump of a tree blown over, was struck by the stump, breaking his left leg in two places below the knee. He was not discovered till several hours afterwards, suffering intensely.

Dr. Jacob Chatterton, one of the oldest settlers of Battle Creek, died at his residence in Battle Creek Thursday night, at the age of seventy-seven years. He was born near Albany, New York, and removed from Albion, New York, to Battle Creek in the year 1851.

KALAMAZOO, Mich., Oct. 11.—Numerous burglaries have been committed in this vicinity the past three nights of the most daring kind. Money, watches, clothing and jewelry have been taken several times, the victims being made to give up their treasures under the muzzle of a revolver. The thieves are known to have been in town yesterday, and a part of the spoil was recovered, but the burglars made their escape. There is considerable excitement here about it.

DETROIT, Mich., Oct. 11.—Gov. Bagley to-day received a petition for aid from the Manitowish Indians in Lake Michigan, where the unruly element has obtained the upper hand, and where life and property are at the mercy of a gang of desperadoes. The schooner Mary Ann, in the harbor, was a few nights ago boarded and robbed; a restaurant keeper has been fatally stabbed, and other kindred outrages are being continually committed.

THE FOREIGN DEMAND FOR WHEAT. It seems to be settling down to a certainty that the demand for Great Britain for our wheat, this year, will be larger than it was last year. The matter has been in doubt for some time, but it is apparently certain now, that the crop on the other side will not be as valuable as was at one time expected. Chief Justice Waite in his opinion says that suffrage was never considered a privilege or an immunity of citizenship, and that sex has never been made an element of citizenship. The court is unanimously of the opinion that the federal constitution confers no suffrage on anybody, and that the constitution and laws of the different States are not necessarily void when they come to that important trust to men alone. The case was that of Virginia L. Miner, of Missouri, appealed from the decision of the Supreme Court of that State, which adverse decision is now affirmed.

THE FOREIGN DEMAND FOR WHEAT. It seems to be settling down to a certainty that the demand for Great Britain for our wheat, this year, will be larger than it was last year. The matter has been in doubt for some time, but it is apparently certain now, that the crop on the other side will not be as valuable as was at one time expected. For some time past, the number of acres devoted to wheat growing has been decreasing in Great Britain, probably to make room for stock raising, which is a much more profitable business. In 1860 the population was 5,000,000 less than it is now, and yet the number of acres under cultivation exceeded those on which crops are grown at present, by half a million acres. This year—the population still increasing, being greater than it was last year—the wheat crop is 14 per cent. less in Ireland, and nearly 8 per cent. less in the entire Kingdom. It has been estimated by Mr. James Caird, that 88,000,000 bushels of wheat will have to be imported in order to feed the nation during the coming winter and spring. We shall probably furnish the greater bulk of this, so our farmers may take heart over finding a market for their produce. Our continental rivals, Russia, and France, have met with such disastrous floods, now found to be fully as overwhelming as ever supposed, that they will not be in a condition to compete with us as actively as they have in some years, and

CASH OR ITS EQUIVALENT FOR GOODS HEREAFTER! CUSTOM MAKES LAW, AND LAW SHOULD BE RESPECTED. BINNS & ROSE

Proclaim to their many friends and patrons, that to secure an observance of the above motto, they will present the following propositions, and thus aid in securing a due observance thereof: 1st. We propose to mark our goods down so that they can be reached by the lightest purse. 2d. In so doing we make a bid for solid cash buyers that will be attractive to them. 3d. In order to succeed in this our effort to meet the demands of our friends, we must ask that the purse be produced with the purchase. 4th. Thus do we propose to establish the only sound basis for success in business, viz: by quick sales and small profits, which is CASH or its equivalent on receipt of goods. 5th. We propose to open under the above rule on the 10th day of September, and for THIRTY DAYS thereafter we will sell all Summer Goods AT COST.

BINNS & ROSE. PALACE ORGANS. THE BEST IN THE WORLD. LORING & BLAKE ORGAN CO. JAS. L. WILKIE, Agent, Oak St., Buchanan.

New Advertisements. SHUN DRUG POISONS. GROceries DOWN. FOR CASH. AND having during the last year proven that the ready-pay system is the best, and being the only concern in Berrien County that adheres strictly to the plan of CASH DOWN.

TEAS. \$77. HOWE'S AGUE CURE. \$500. \$510,000. \$5 to \$20 per day at home.

FOR GROCERIES. Produce, Bread, Oakes, Pies, Wooden and Willow Ware, Pork, Lard, Hams, Dried Beef, Salt, Flour, Stone ware, Tobacco, Cigars, Pipes, &c. &c. Be sure to come and see us and you will go away pleased and come again.

KINYON & VINCENT. 20,000 in Prizes. 12th Annual Gift of Premiums.

The Berrien County Record

THURSDAY MORNING, OCT. 14, 1876.

To Advertisers. The Record is the best Advertising Medium in South-western Michigan, having the largest circulation of any other paper in this part of the State.

Geo. P. Rowell & Co., 41 Park Row, N. Y., S. M. Pettigall, 37 Park Row, N. Y., and Rowell & Chesman, St. Louis, Missouri, are authorized agents for contracts for advertising at our lowest rates, for the columns of the BERRIEN COUNTY RECORD.

TWO tramps within one week. SQUAW winter comes this week. OVERCOATS come handy now.

WE had our first black frost yesterday morning. THE boys were snow balling on the street, Monday afternoon.

THE furnaces for heating the school building are being repaired. MONDAY was a cold, wet, disagreeable day.

THE LaPorte County Agricultural Fair is in session this week. PETER GOSSLINE has presented us with a turp, weighing 15 pounds, which he raised in this place.

THERE are seventeen divorce cases to be decided at the next term of Circuit Court at South Bend. THANKS.—We return thanks to Wm. Legar for a jug of sweet cider from the Bakertown cider mills. We have not joined the league.

BETTER not lean against the front of Redden & Graham's store until the paint gets dry. It may rub off, and it would not look quite so well on the back of your coat as where it is now.

ALVAH WOOD, of this place, raised upon his lot, thirteen solid cabbage heads from one plant. Some of them were rather small, however.

MR. S. STRAW has left with us some raspberry stalks of this year's growth, that are covered with ripe berries.

N. J. Slater is making an addition to his building on Front street, with the intention of using the new part for a shop and the old as a dwelling.

THERE is a coal vein under Iol land City, in this State, that is over four and a half feet thick and yields a rich quality of coal.

A VALUABLE earring was lost on the road running south from Sol. Rough's, within a few rods of his residence, on Saturday night last. Any one finding the same will confer a great favor by leaving it at this office.

THOMAS OWEN WARD, former editor of the True Northwestern, of Paw Paw, was found dead in his bed at the Kalamazoo House last Saturday morning. It was supposed that he died of congestion.

A MR. CLARK, who lives in this place, has dug a well on his lot, over forty feet deep, without using any curbing, his sister drawing all of the dirt from the well with a pail and rope.

THE Board of Supervisors met at Berrien Springs this week, and have appointed a committee for the new division of the county into representative districts, with Hon. L. P. Alexander as chairman. A full report of the proceedings will be given next week.

ACCIDENT.—Enos Marble met with a sad accident, on Tuesday morning, while helping to take a piece of barn on the O. Marble estate, in Warren township, St. Joseph Co., Ind., previous to moving. He had climbed upon a bent to attach a rope for the purpose of letting the bent down, when a chain which was used to hold it in its place, gave way and the bent fell with Mr. Marble under it, tearing the hip bone from the spinal column.

ABOUT the "cheekiest" offer that we have received for space in the RECORD, is from a firm manufacturing saleratus in Fairport, N. Y. They send copy for fifty-two notices, and request the insertion of one each week as editorial matter, promising to pay us \$5 when one-half of the notices have been published. How many of our brother publishers will accept this "liberal" offer?

A SHOOTING affray took place in South Bend on Wednesday evening last. A dispute arose between Tom Cottrell and Carl Sherman, about \$2.40, which Sherman claimed that Tom owed him for bar tending. Cottrell offered him \$1.40 and produced a receipt in full for this amount, for him to sign, which he refused to do, when Cottrell drew a revolver and shot Sherman, the ball entering his breast a little to the left of the line of the heart. Cottrell was arrested and taken before Justice Frame for examination, and was bound over for trial at the next term of Circuit Court. His bail was set at \$2,000, but not being able to furnish it, we sent to jail. Both parties were drunk at the time of the shooting.

THE Pomona Grange of Berrien County met at this place on Tuesday and Wednesday of this week. There were large attendances. The ladies of Buchanan Grange did great credit to themselves in the sumptuous feast they prepared for their many guests.

The next meeting will be held at ten springs the second Tuesday evening, 1876, with the following officers: President—Wm. Smythe Farmer. Secretary—William Haslett. Treasurer—Thomas Mason. Steward—Burns Helmick. Steward—Freeman Franklin. By-Stand—A. Steward—Mrs. Lucy Helmick. Assessor—Charles F. Howe. Recorder—J. S. Beers. Librarian—J. B. Metzger. Organist—Lola H. King. Reporter—Mrs. O'Brien.

Mr. B. T. MORLEY has left upon our table a white rabbit of one season's growth, which weighs nine and three quarters pounds. Some rabbidish.

FROM NEW BUFFALO, October 5, 1876. EDITOR RECORD:—I hope you will pardon me for once and only once more soliciting space in your very valuable paper, for these few lines. "Nick Nettles," the Banta Rooster of Buffalo—the Hunkster of the suburban stall—the John Wesley of the little brown John, was again, for the second time, begged, bought, and appropriated for "sweet revenge" on one "little insignificant Neko," who is worthy only of the contempt of "Nick" himself. I beg him to reverberate the sweet and consoling words contained in his quotation, "As while the lamp hangs out in the dark recesses of Neko's nature, and although 'his hard' to learn an old dog new tricks," I hope he may become a great and good man, worthy the respect of his humble servant. For his veracity he appeals again to his "patent insides" newspaper, the Independent, to help him out, but those walls only echo back, "how we applaud swim." He wishes me to modify my accusations, and instead of me using the word "liar," (which he says he didn't use, either direct or by insinuation), and substitute "falsehood," which, according to Webster, means one and the same thing. The good land he speaks of either way from New Buffalo, is nought but white sand and water on one side of the town, as every reader of the Independent knows as well as I do. He gives me the name of being the biggest liar in the county. Now my brother must, if he reviews his first letters to the aforesaid paper, admit that all I have uttered through the columns of the RECORD, is true. I have been no Pseudo or Pseudo, like himself, to sacrifice a reputation by attempting to make something out of nothing. As for me being the self-same "Boy of the Times," or "Country Writing Master of New Buffalo," he hit as far from the mark as when he chose his present profession.

But as I have no desire for news paper fame, I will close this letter by subscribing myself, Yours as ever, Echo.

FROM NEW TROY, October 5, 1876. EDITOR RECORD:—Your issue of Sept. 30, contains a communication from Hill's Corners, which, in consequence of the sentiments it embodies, and the expressions it contains, demands a brief notice from a resident of this place.

We must admire the candor of "S." in informing the public through the RECORD, that (some of the feeble, worthless men (pusillanimous trash) of New Troy, were enabled to defeat the ends of a whole community of able men. I cannot understand his motive in thus publishing this fact unless it is to awaken the sympathy of the readers of your paper. If that be his object, he may feel assured that he has my sympathies; not, however, because of the unsuccessful effort to obtain a Postoffice at Hill's Corners, but because of the weakness he has acknowledged. "The Troy are willing to come to Hill's Corners to buy goods," says "S.," and very truthfully, too. What sensible people are not? Do the facts show that our people do go to A. E. G.'s to trade? Compare the business transacted in the two places, then you may judge which is the most popular. There are men attend to the business, here three are employed, and upon some occasions I have seen five actively engaged, waiting upon customers. It is well for "S." when he has nothing else to do to fire away at Troy, and it is also well for him to have on his full armor, for some of his shot will be sure to rebound and strike him at the weakest point.

FROM HEDGECOCK, Oct. 11th, 1876. EDITOR RECORD:—I send you a few more items to-day.

Dr. S. Mandlin, who has resided here for several years, has sold his property here and taken up his abode in the northern part of the State. By his removal, this town loses a good citizen.

D. B. Pettit, of St. Joseph, has taken up his abode with us. He comes well recommended; he is a Homeopathist. And with Dr. Berlinger to represent Allopathy, the physical ailments of our people can be attended to forthwith.

Mr. E. Palmer, of St. Joseph, has consolidated his two branch stores, at this place, into one, which should have been done at the outset, thus saving considerable useless expense.

Corn has turned out much better than it promised a month ago. But there was not near the acres planted of former years on account of the backward spring. But, Oh! the little patches of slajacks scattered throughout the county. Won't the people feel like "scratching around" next spring?

Potatoes are a big crop, quite a number of farmers having raised a large quantity to sell at one dollar per bushel.

Our school commenced to-day with Miss Sarah Bridgman as teacher. There has been quite an "opalescentness" in regard to school matters, or more especially, teachers. It seems that the Director engaged a lady at Keeler to teach, which action not meeting the approval of the balance of the board, they then hired Miss B. Some for a little while, but not desiring to her being teacher, endeavored to have the matter brought before a special school meeting but failed. There is some prospect it is said, of a select school for those wishing to study the dead languages, &c.

The first snow of the season, October, 10th. X. Z.

THERE was an attempt to burn Albion College made on the night of the 20th ult., by some one building a fire in one of the vacant rooms. The fire was discovered before any serious damage was done. The perpetrator of the act has not been brought to light.

During all the years that Dr. V. Clarence Price has visited us, we have never heard a complaint affecting his character as a man, or his skill as a physician. He does not propose to work supernatural wonders, or cure everbody and every disease, but adding to the knowledge he acquired by careful study, the experience of many years practice, and by making a specialty of prescribing for chronic complaints he has attained much skill in these cases, and is therefore able to help some that a more general and equally able and honest practitioner might not benefit. Like other Physicians of great skill and celebrity, who travel when they are sent for, his skill is available for the class of sufferers who need him most, the only difference being his visits come at stated times; and the time he will come, can always be depended upon.

The sick can consult Dr. Price free of charge on his next visit at Niles, Reading House, during Saturday and Sunday, the 30th and 31st of October.

Business Locals. An Important Fact. The voluntary testimony of thousands establishes, beyond all doubt, a fact of vital importance to the sick and debilitated, viz.: That Hostetter's Stomach Bitters is an absolute specific for remittent and intermittent fever, dyspepsia, constipation, biliousness, mental depression, sleeplessness, chronic diarrhea, and all diseases of the stomach, liver and bowels. The unmodified stimulants usually prescribed in these cases only aggravate the symptoms, instead of removing them. The Bitters, on the contrary, acts as a corrective and invigorant, without producing the unpleasant and dangerous consequences of the old school practice. The action is mild and soothing to the irritated stomach and bowels, promoting digestion and preventing flatulence, nausea, headache and all intestinal irregularities. A winging feather means greatly assists digestion. The convalescent may use them with great benefit, as a means of restoring strength and cheerfulness.

Binns & Ross have just received a new and large stock of goods, which they will sell cheap, for cash.

If you will get one dozen photographs of H. E. Bradley, he will make you a present of an 8 by 10 photo already framed. Call and see him.

Try "Bridal Bouquet," the new perfume, at Dobb's.

Smith & Son will sell queensware at cost during the next thirty days.

Goods on the drop at Redden & Graham's. Now is the time to buy.

Why will you go barefooted, when L. P. & G. W. Fox sell Boots and Shoes so cheap?

WHAT A. DEMONT WANTS. He wants every man that owes him to call at once and settle his account, either by note or cash. He has the books of French & DeMont, Whitman & DeMont, and Howard & DeMont, upon which there is a large amount due, and must be settled. He has a quantity of stove wood (dry) to sell. Those wanting wood please call.

He wants to trade some notes for horses. He has two horses that he will exchange for cattle, sheep or hogs.

He wants to sell one parlor and one box stove, second hand.

He wants to buy 200 cords each of four foot and two foot dry wood.

Why don't you go with the rush to L. P. & G. W. Fox's and get some of those cheap Suits and Overcoats?

You can buy dry goods and groceries cheap, at Binns & Ross's.

Buy a pair of those low cut sewed calf shoes, for old ladies, at Noble's. Cash.

The cash store is at Redden & Graham's. You will know that from the low price of goods.

The largest and best assorted stock, at hard pan prices. Talk cash to Noble, and down they go.

The greatest rush in town is to Binns & Ross's, for those new goods.

If you want a good cigar call on O. E. Woods & Co.

NOTICE.—We have some fifty large lithograph pictures of Buchanan, in colors, showing every building and the surroundings. These are what were left of a lot that retailed for \$3 each. We sell these for the low price of 50 cents each. They are nice to frame, and are in a shape so that they can be sent by mail to friends who would value them very highly. Call early, before they are all sold.

NOV IS THE TIME. Come and see the piles of new goods at REDDEN & GRAHAM'S.

We are offering our entire stock of clothing at cost. Now is the time for bargains. REDDEN & GRAHAM.

JUST received a nice line of new style carpets at Redden & Graham's as cheap as they can be had west of New York.

SEVENTY cents worth of good Japan Tea is a pound at Kinyon & Vincent's.

EXTRA COPIES of the RECORD can be had at the news depot of J. H. Roe.

TRY Kinyon & Vincent's 70 cent Japan tea.

The best five cent cigars in town at O. E. Woods & Co.

LOOK at the boss boots, at Noble's. Cash.

FOR SALE.—One span of horses. Time given if required. Inquire of B. F. Needham, Dayton, Mich.

Mrs. P. B. DUNNING has just received a new stock of millinery and fancy goods, and is prepared to furnish her customers with anything in that line.

CALL at Hayes' and get a bottle of Wenck's perfume, only 75 cents. A full assortment of other popular odors kept.

ATTEND the Business College and Telegraph Institute at Kalamazoo. Journal free.

FRY hats remodeled to order by Mrs. P. B. Dunning.

TRY Smith Bros & Co's 75 cent Japan Tea.

NEW GOODS lower than ever for cash at Smith Bros. & Co.

PRIOR the sewed calf shoes at Noble's. Cash.

Mr. H. E. BRADLEY, our photographer, is making a picture that is something new under the sun. It is called Parian Marble and undoubtedly is the greatest success ever achieved in the art of Photography. Call and see them. Mr. Bradley has just received from Chicago an assortment of picture cord, tassels, stereoscopes, frames, etc., which will be sold at cash prices.

It is natural for people suffering with Consumption, Coughs, Severe Colds, or any other disease of the Throat and Lungs, to put off from day to day buying an article that they know has cured their neighbor, friend or relative, yet they have no faith in it until it is late. If you will go to your Druggist, O. E. Woods & Co., and get a bottle of Bosche's German Syrup, your immediate cure is as certain as your life; it has lately been introduced in this country from Germany. Sample bottles of this medicine can be obtained for 10 cents to try its superior virtue. Regular size 75 cents. Try it, two doses will cure any case.

If you are suffering with a severe Cough or cold, call on the nearest drug store and try a bottle of Dr. Marshall's Lung Syrup; it will relieve you after taking the first dose.

A. L. HAYES & SON. Facts have shown that Dr. Marshall's Lung Syrup is perhaps the most effective remedy ever sold, for curing Coughs, Colds, Consumption, or any other disease of the lungs and chest. Small bottle only 25 cents.

Don't wait till the cough gets hold of you literally "by the throat," and worries you to tears. One or two doses of Hall's Balsam for the Lungs will stop it, cure it, eradicate it entirely. It ought to be kept in every family as readily as flour or any other necessary of life. Ten thousand physicians prescribe it. Price, \$1.00.

The growth and structure of the human hair, its very origin, set forth in a pamphlet, published by R. P. Hall & Co., Nashua, N. H., proprietors of Hall's Vegetable Siccilian Hair Renewer, for gratuitous distribution. The deservedly high reputation of their preparation has wholly been gained by its merits. Being free from oil and alcohol, it has a healthy effect on the scalp, restoring gray hair to its natural color without dyeing it, curing itching of the scalp, removes and prevents dandruff, and will thicken up the thin locks. Such are the benefits which are conferred upon the consumer. No one should neglect to give it a trial. Journal of Statesman, Wilmington, Del.

FROM DAYTON, Oct. 12, 1876. EDITOR RECORD:—As we are seated to offer our report for the week, after the toils of the day, we would notice first that the grim messenger, death, has again invaded our ranks. This time the call was made within the household of Mr. Nathaniel Wilson, removing from their number the sister of Mrs. Wilson, Miss Christina Deafoff, one who has been sorely afflicted for many months with a fatal malady, died of cancer. And so death leaves another circle of mourning friends. Death has no respect of persons.

Our picnic gathering was celebrated as advertised through your columns. The children were made glad in heart, and all who attended went home well satisfied, and all allowed it to be a complete success.

The singing exhibition is now the rage with us. It will be held in the Hall. All are invited to attend. Come and prove for yourselves that the young people of our town do not wish to be left out in the wet on the literature. We will endeavor to appreciate all in season who may wish to attend. It will require some four or five weeks longer to make the desired preparations. Parties concerned say they are bound to make it one of the best entertainments ever had here.

Business is very brisk with our merchants these days, even so brisk that it would seem to an outsider that there was lots of competition, but as yet we have failed to learn that there is the least clash.

More than an ordinary amount of grain is being bought and handled by Frank and Shan. This gives Outhbert a lively shake. But Dave says he is broad shouldered and willing. The flouring mill of James Redding, under the supervision of Mr. Glover, an experienced miller from your place, is and has been doing a fine business this fall. They make the best flour and meal for the least toll.

The saw mill and handle factory, of Wilson & Needham, has been undergoing a general repair preparatory for the winter.

The railroad bridge in our town was found the other day to be built upon a sandy foundation, but Mr. Hagon did not fail to see it in due time to prevent any disaster.

That game of ball, made mention of two weeks ago, made mention of the Carlisle boys and the Wolverine news, will be completed some day this week, unless the Carlisle boys fail to appear. In this case the Wolverine will claim the unfinished game, four innings, yet to be contested.

But now our report is already lengthy, this being our general fall. We close by saying that Mr. Daniel Holmes, our neighbor, has raised and harvested between seven and eight thousand bushels of the finest toes we ever saw, and is busily engaged in shipping them from our station. Dan gives them all the lead on Murphys this year.

Yours truly, TOBE.

THE COUNTY PRESS. [Niles Republican.] A car load of passengers had a narrow escape at Dowagiac, Tuesday last. The springs and fastenings on the rear truck dropped and dragged on the track for half a mile, and when passing a switch the train stopped the truck jumped the track letting the rear end of the car onto the ground.

On Tuesday George H. Jerome took four large brook trout, two large California salmon, ten last winter's salmon and one grayling, all of his catching, to Detroit, and they are now on exhibition in the fountain aquarium of the Michigan Exchange, and we learn that they are attracting great attention.

We are again called upon to record another fish boat disaster, which occurred off our port on Monday forenoon, about eleven o'clock. Henry Grimm's boat, trying to get in while

there was a heavy sea on, capsized, about a thousand yards north of the north pier. Her crew was composed of August Hable captain, Charles Geneitt, Gerhart Walter, and Robert Miller, the latter of whom was drowned. The tug Fanny Shriver attempted to go to the rescue of the unfortunate men, but thinking it was impossible to reach the wreck, returned. Fortunately, the propeller Messenger lay at her dock, and her captain, John Langley, with that true courage that has always distinguished our lake captains, organized a crew, lowered away his boat and taking his place at the helm, with the valuable assistance of his second mate John Taylor, watchman Henry Remington, cook John Gillespie, and hand Real Kelly, and James Connelly, succeeded in reaching the capsized boat and rescuing all but the one, Robert Miller. By every one, Captain Langley and his men are spoken of in terms of the greatest praise. Mrs. Miller, has for the second time within the last six months, been made a widow by the loss of fish boats. The men that were saved were very near exhausted when brought ashore, out through the exertions of kind friends and relatives were made comfortable and are now doing well. The body of Mr. Miller was found on the beach about five miles south. Capt. Harnes went down last evening after the remains but could not get ashore. Mr. Grimm brought the body to town last evening.

[Niles Democrat.] Tom Cottrell, a notorious rascal of South Bend, shot a man in that city on Wednesday. We learn that he has been arrested for the deed. A team ran off on Thursday, and in crossing the iron bridge, threw out of the wagon a little son of John McCarty, who was sitting on the seat with the driver. The little fellow was quite seriously hurt.

[St. Joseph Traveler and Herald.] About 1 o'clock Sunday morning, night-watchman Fasset, discovered a faint light in Stewart's Hardware, and suspecting burglars, went for assistance; but before he returned, the game had flown. The thieves it appears, had effected an entrance through a window in the back end of the store and had just got well to work, probably, when they were discovered. On examination of the stock, it was found that three double barrel shot guns and one pistol were gone; other articles were probably taken, but they could not be replaced. No clue to the burglars up to this writing. Mr. George Tripp, first mate of the Chenango, and well known to many of our citizens, was drowned on last trip back from St. Joseph. Mr. P. D. Nichols writes to a friend in this place giving particulars as follows. "He was sitting on the side of the vessel in a gale. They had all but the fore-sail reefed, and as they were reefing that the boom swung and knocked him off. They threw over one of the scuttle covers; he caught hold of it, but the sea was so heavy it washed it away. They lowered the boat and sent two men in it. They found the scuttle cover but no Mr. Tripp." Mr. Tripp was a genial fellow and well liked by all who knew him.

NEIGHBORHOOD NEWS. [From the Cassopolis Democrat.] Robert Dool, of Penn, had about one hundred bushels of wheat which was a little damp, spread on his barn floor to dry, last Monday. Tuesday morning half of it had disappeared, with no trace left behind except wagon tracks, which went in the direction of Vandala, but could be traced only a short distance, a slight rain during the night having washed out the tracks. No trace of the thieves has been discovered at the time of going to press.

[From the South Bend Tribune.] John J. Smith, of Harris township, lost twelve sheep last week, killed by wolves. Mr. Krupp, a neighbor, also had one killed. A wolf was seen shortly after killing a large lamb, trying to drag it through the fence, but becoming aware that its operations were observed, it took to its heels and was out of sight in a twinkling. The wolves are thought to belong to a raiding band from the forests of Michigan.

[From the Michigan City News.] The schooner "Hattie Earl" while entering the harbor yesterday struck the break water, breaking her bulwark and causing a loss of part of her cargo. The lake was very rough at the time and many expected the vessel would go on the beach.

[From the South Bend Register.] One of those terrible accidents, so frequent mention in the papers of the day, and which send a chill of horror to the stoutest heart, occurred at the residence of Rev. N. D. Williamson, corner of LaFayette and Market streets, at a quarter before ten, last Wednesday eve, the details of which are of a particularly distressing character, and furnish another instance of dreadful suffering and probable death from burning.

Augusta Way, the victim of the present case, is an unmarried woman of perhaps twenty-four years of age, a native of Germany. From Rev. Mr. Williamson, at whose residence the unhappy affair occurred, and Dr. Wrightman, the physician in attendance, we learn the following particulars of the accident. At a quarter before 10 o'clock, last evening, Mr. and Mrs. Williamson returned from the concert at the Reformed Chapel and the girl immediately took up her lamp and went up to her room; for the purpose of retiring, according to the custom of the best of us. A moment later, Mr. Williamson, discovering the hall lamp was still burning, stepped out to extinguish it and saw the girl's lamp lying broken on the landing at the head of the first flight of stairs and the oil burning furiously. He rushed up to put out the flames and then saw the girl standing at the head of the second flight apparently in a fit and clothes wrapped in flames. He ran to her assistance and taking hold of the stupefied girl attempted to get her down stairs; but she clung to the door handle with such a deathlike grip that it seemed impossible to move her. He finally succeeded, however, in getting her to the first landing, from where she partly ran and partly fell to the floor below, where she was caught by Charley Conoley, (who had seen the

light and ran in from the street) wrapped in a shawl and drenched with water until the fire was entirely extinguished. Dr. Wrightman was then called to attend her injuries from which she was suffering unpeakable torture, wringing screams of agony from her and rendering her almost insane. But her intense sufferings were of short duration. Dr. Wrightman applied a remedy, peculiarly his own, from the effects of which she was quiet in less than half an hour and by twelve o'clock was asleep. Mr. Williamson's theory of the accident is reasonable and undoubtedly correct as viewed by a Register reporter during a visit to the scene of the occurrence, this morning. The house is a neat story-and-a-half frame structure, facing Market street to the north and located directly in the rear of the church in which Mr. Williamson officiates as pastor. The stairs lead directly up from the front door, which opens into a hall, and about two-thirds the distance to the floor above turn abruptly to the left for ten or a dozen steps to the top, and directly to the right is the door to the room occupied by the girl. She had reached this with the lamp in her right hand and an empty pitcher and a small bundle of cotton cloth held by her left arm and with her left hand upon the latch of the door. Standing in this position she was seized with a fit, her movements knocked the chimney from the lamp and the open flames communicated to the bundle of scraps. It is then supposed that with a consciousness of danger she threw the lamp from her to the landing below and dropped the burning scraps on the floor at her feet, from which her clothing took fire with the above detailed result.

Her injuries extend from her ankles to her hips where her corset stopped further progress, and the entire surface is more or less burned. Her left hand was burned almost to a crisp, so that if she recovers she will be a cripple for life, and the arm blistered to the shoulder.

Sunday Reading.

LOOSENING THE SILVER CORD. What did the doctor say, papa? Come near me where I lie. Whisper the hope in your darling's ear; Ah, mother, what makes you cry? Tell me the truth; have I guessed aright? He said that I must die!

Let no man say when he thinks of the drunkard, broken in health, and spoiled in intellect—can never so fail. He thought as little of failing in his earliest years. The promise of his youth was as bright as yours, and even after his downward course he was unsuspecting as the firmest around him, and would repel the admonition to beware of intemperance.

How to Make Children Lovable. There is just one way, and that is to surround them by day and by night with an atmosphere of love. Restraint and reproval may be mingled with love, but love must be the constant element.

It is an argument of a candid and ingenious mind to light in the good name and commendations of others; to pass by their defects and take no notice of their virtues; and to speak or hear willingly of the latter; for in this, indeed you may be a little less guilty than the evil speaker in taking pleasure in evil, though you speak it not.

With time and patience the mulberry leaf becomes satin. What difficulty is there at which a man should quail when a worm can accomplish so much from the leaf of the mulberry?
