

The Berrien County Record. JOHN G. HOLMES, Editor. THURSDAY MORNING, OCT. 28, 1875.

VICTORY IS OURS!

THAT "TIDAL WAVE" REVERSED!

New York, Pennsylvania, Massachusetts, Wisconsin, Minnesota, New Jersey, all Republican.

REPUBLICAN GAINS EVERYWHERE.

We cannot give full returns of the State elections in this issue. But the returns thus far indicate the return of the great tidal wave that swept across the country a few years since, only this time it is a Republican tidal wave.

From the Inter-Ocean we take the following statement of the public debt for October:

Table with 2 columns: Description of debt items and Amount. Includes Six per cent. bonds, Five per cent. bonds, Total public debt, etc.

The following succinct report is from the Chicago Tribune:

"The Republicans yesterday had a general success throughout the country. They elected their State ticket in New York, where one year ago the Democrats elected their Governor by 50,000 majority.

In Wisconsin, where in 1873 Farmer Taylor was elected by 15,000 majority, the Republicans have elected gallant old Harry Ludington Governor, and also a majority in the State Legislature.

Minnesota also wheeled into line with a handsome majority for the whole Republican State ticket, and Massachusetts, recovering from the general shock of 1874, has elected a Republican Governor and State officers.

Kansas has elected, as usual, a Republican Legislature, and New Jersey did the same thing.

In Pennsylvania there is at this writing a lack of detail, but the gains over last year's vote are so general that there is no doubt that the State has, like the others, resumed her place in the Republican line.

There is something comforting to the country in this revolution. New York, Wisconsin, Minnesota, Pennsylvania, New Jersey and Massachusetts, one year ago all voted with the Democratic party, some of them by great majorities.

Yesterday there was as general a return to the Republican ranks, and under such circumstances can leave no doubt as to how they will vote in 1876.

A significant result of the election in New York City is the disastrous defeat of Tammany Hall on all the local nominations. Mr. Phelps, the Republican District Attorney, and Recorder Hackett, who had been proscribed by Tammany Hall, have both been elected by heavy majorities.

The most influential Republicans of the city, as well as both the leading Republican papers, the Tribune and the Post. Consequently his defeat cannot be called a political victory for his opponent. It is simply a victory for law and order over whisky and lawlessness.

A fire occurred at Sherman, Texas, on the 1st of November, destroying a large portion of the town, involving a loss of property estimated at over \$300,000.

A fire at Fall River, Mass., on Tuesday night destroyed a large cotton factory, involving a loss of \$160,000.

A fire at Ottumwa, Iowa, yesterday morning, burned two buildings, loss \$60,000. One at Dwight, Ill., Tuesday, destroyed a corn drying house. Loss \$1,000.

The eighth Annual Meeting of the Michigan Bee-Keepers' Association will be held in Kalamazoo, Michigan, December 1st and 2d, 1875.

Proceedings of the Common Council of the Village of Buchanan.

A regular meeting of the Common Council of the Village of Buchanan was held at the Common Council in Buchanan, Mich., on Thursday evening, September 30, 1875.

Present—C. S. Black, President; B. D. Harper, Recorder; Messrs. Blinn, Grinn, Wood, and others.

The minutes of the last regular meeting held August 26th, and the special meetings held August 27th and 28th, were read and approved.

The following bills were read and referred to the Finance and Claims Committee: Wm. Patten, 38 nights as night watch, \$45.00.

Alvah Wood, work on Cemetery grounds, 6.00. C. A. Woodworth, draying, 1.25.

E. J. Bailey, painting sign for Cemetery, 75. J. H. Vickers, 3 days work on street, 75.

Doan's Malt, 6-10 " " 4.95. Ralph Russell, 6-10 " " 4.80.

John Wilson, 73 hours repairing sidewalk, 1.19. W. H. Glover, 6-10 days work on street, 1.76.

E. J. Hall, 1 day repairing sidewalk, 1.76. E. H. Hays, 1 day repairing sidewalk, 1.76.

N. H. Merrill, 4-10 days work with team, 13.90. Mr. Howe, that the Committee on streets, sidewalks and bridges, and Mr. Blinn, special committee, have until the next regular meeting of the Common Council in which to examine and report in the matter of vacating the first alley west of Oak Street, Motion carried.

Moved by Mr. Blinn, supported by Mr. Howe, that the time for the collection of the Village taxes for the year 1875 be extended thirty days from the 30th day of September, 1875, and that the Assessor be directed to make the proper entries on an assessment roll accordingly. Motion carried.

Mr. Chase not only secured by the National Currency act for the whole people a sound and uniform circulation, but he thus prevented a catastrophe which might have been fatal to the Union, and which certainly would have been calamitous to the country.

The National-Banking system was one of the compensations for the War, and if its distinguished author had rendered no other service to his country, he would, by having devised it, have been entitled to the lasting gratitude of his countrymen. It is his system, so beneficial to the whole country, and so indispensable to the newer portion of it, that some politicians are endeavoring to overthrow by the intention of supplying the place of the bank notes, which are to be retired, by a further issue of legal tender notes, which further issue would postpone indefinitely a return to specie, centralize the entire money power of the nation in the Federal Government, and inconceivably aggravate the evils which now afflict us.

Our banking system is thoroughly interwoven with all our pecuniary interests. It could not be overthrown without the most disastrous consequences. Its destruction would not only put a stop to bank discounts, but it would necessitate the collection of millions upon millions of debts due to the banks. It would create a financial revolution which the country is in no condition to bear.

The balance of cash in the State Treasury, Oct. 20th, was \$1,187,138.11; receipts during the week ending Oct. 27, were \$20,850.94; payments during same time, were \$118,064.56; balance in Treasury, Oct. 27th, 1875, \$1,089,924.49; decrease for the week, \$97,213.92.

Secretary Chandler. DERRICK, Mich., Oct. 31.—Secretary Chandler is still in the city, but will return to Washington during the coming week. The Post here, in which he has a great interest, to-day says, speaking evidently by authority: "There is not the slightest indication that any member of the Cabinet is dissatisfied with Mr. Chandler's appointment. On the contrary, all the indications are that the appointment was and is approved by the Cabinet. The stories that Secretary Bristow, and Postmaster General Jewell in particular, are dissatisfied, are unfounded and ridiculous."

A Strange Case. DOWAGIAC, Mich., Nov. 1.—About ten days ago a young woman arrived here from the East very sick, and has been so ever since. At times her life has been despaired of. She refuses to give her name and where her parents live, who they are, or anything that will give a clue to her identity, with the exception of telling that she was married and lived in Marshall, Mich., and a telegram to that place proved that she had made a mistake. She tells every one to ask her no questions and she will tell no lies. For several nights her shrieks of agony have kept awake the guests of the hotel where she is stopping. From outside appearances it looks like a case of man's perjury and woman's weakness, but nothing further can be learned, as the doctors are very mum. She has money and plenty enough to meet all her wants.

Miner's Strike Threatened. COLUMBUS, O., Nov. 12.—It is reported here that to-morrow a strike will occur among the miners in the Hooking Valley. Last week the miners at work in the Nelsonville, Strataville, and Shawnee regions, held a meeting, and adopted resolutions that on or after Nov. 1 they would make a demand for 60 cents per ton for mining. Their present pay is 50 cents per ton. Last Saturday they had another meeting, and extended the time until to-morrow, the object being to give the operators three day's notice. The operators declare they cannot afford to pay the proposed increase, and some of them think the strike, after all, will not occur.

LOST.—A gold set containing four pearls was lost between the residence of Wm. Dawing and Dr. E. S. Dodd, either on Cottage street, Chicago street or Day's Avenue, on Wednesday evening, Oct. 27th. Any person finding the above set will be suitably rewarded by leaving the same at this office.

A leather pocket-book containing valuable papers was found on the Niles and Laporte road, about nine miles from Niles, on the second day of the fair at Niles. The owner may recover the same by calling at this office, proving property, and paying for this notice.

WALTER I. HINES, of this place, has been appointed Deputy Inspector of Illuminating Oils for this village and neighboring towns, and will in a few days proceed to perform the duties of this office. We hope he will find no person in our village selling oil contrary to the provisions of the law. We look upon this law as a foolish and silly one, nevertheless "law is law," and must be respected.

THERE is a bad place in the road near what is known as the Holmes school house, about three miles west of town, which should be attended to by the proper authorities. Nearly every day persons experience great difficulty in getting through with teams, and in some instances have "stuck in the mud" so that assistance was required to get out again.

SOME very peculiar potatoes were left with us this morning. They are in all sorts of shape, one measuring 1 1/2 inches in length and 1.3 inches in circumference, at the largest point. They are of the "Long John" variety, and were raised by John A. Best on his place about two miles south of town.

On Saturday evening, about nine o'clock, a little girl came to the house of Mr. Robert Rogers, a citizen of this place, and immediately set up a piteous wail. The family comforted the child as best they could, and fed the little one, who seemed to have fasted for some time, judging from her voracious appetite. The child could give no account of herself, but seems perfectly contented in her new quarters. We understand that Robert will keep her.

PROF. J. A. JONES has returned from a trip to the northern part of the State, and reports snow in considerable quantities, at different points not far distant from this place. Money plenty and times prosperous. He will give an entertainment in this place Thursday evening, Nov. 11th, at Collins & Weaver's Hall, after which he will wind his way southward for the winter.

How strange it is that as soon as a person is taken sick, that a general rush is made to the room of the afflicted one, and a continual scene of excitement is kept up, and the vital forces of the sick one instead of being carefully nursed and strengthened, are sapped and drawn out, and each succeeding day finds the patient more and more exhausted. We can show our sympathy in many ways, and our kindly offices in this direction should be applied with discretion. Each may think that he or she is but one; this is true, but at the same time each successive one makes the whole difficulty. Remember that your intentions are respected, but the act is injudicious.

In another column will be found the prospectus of the Inter-Ocean, Chicago's great newspaper. Though established less than three years, the Inter-Ocean has gained a reputation second to no other paper in the West. We have furnished this paper with our own to many persons in this country for \$2.65, and are prepared to "do so some more." Remember that next year will be an exciting one in the country, as a President is to be elected, as also State officers in every State in the Union, and every person should keep informed. We know of no better way to do so than to subscribe for the Inter-Ocean and Record.

Wf, the members of the society of Good Templars, tender to our brother, B. D. Harper, our heartfelt sympathy in view of that sad bereavement which has fallen upon him and his family. Sister Harper was emphatically "a mother at home." Her life was bound up in that of her husband and children. For them she lived and toiled and suffered, and they will now and ever "rise up to call her blessed." In her death this Lodge has lost a worthy sister and that stricken home has lost a worthy wife and mother. May the Lord be very merciful to that sorrowing household and "preserve their going out and their coming in, from this time forth and ever forevermore."

The Lodge is in a flourishing condition, and is preparing for the offensive during the coming campaign this winter.

A CORRESPONDENT of the Detroit Tribune, writing from Berrien Springs, speaks as follows of the hail storm which visited that place on Friday last: "Our village was visited by one of the most terrible storms, on October 23th, ever known in this part of the State, with heavy peals of thunder, and wind, hail and rain in perfect torrents. There is great destruction of property. Fruit and vegetation not gathered is almost totally destroyed. There is scarcely a light of glass left in the northwest side of the buildings in this town. The windows in our stores and private dwellings are boarded up, for there is not glass enough in town to replace that which was broken by the storm. Pigs chickens, turkeys and ducks were killed by the hail-stones, some of them measuring from one and three-fourths to two inches in diameter. The hail is piled in banks against the buildings one and one half feet deep. The current of the storm was about two miles wide."

FROM NEW TROY. EDITOR RECORD.—The few lines published in your issue of October 14th, over the initial D., has at least one good result. It has enabled "S." to concentrate his attack. In his former squib he very vigorously assailed the people of our town; in the one before me now poor D. receives a bit of his shot. Well, since he has named me in Goliath's armor, I shall be enabled to withstand a much, unless indeed he, the self-slayed David, should hurl at me one of his pebbles. If he should I should fall and lose my head, of course. David gives a very graphic description of his opponent. He calls him "Ist," "A highly respected citizen," "2d," "A critic," "3d," "A reviewer," and "4th," "A feeble individual." David writes of him further: "Ist. He 'puts on the armor of Goliath.'" "2d. He 'goes forth to fight David.'" "3d. His 'bores' of compassion yearn.'" "4th. He 'stands with club in hand with which to pummel S.' (David) by raising a false issue." "6th. He 'recorts to a cut-throat fish dodge.'" "What a strange mixture of conditions and feelings is this! The feeble, respectable (?) individ-

ual, the critic and reviewer, encoased in Goliath's armor, going forth to fight the modern David; yet standing still with club in hand with which to pummel David by "raising a false issue."

I tried to arrange that "cut-throat fish dodge," in the sentence, but failed. Being a small man—I felt lonely in Goliath's armor, but the loneliness was all forgotten when contemplating the fact that my head was soon to be covered either by "the club" or "the cut-throat fish."

I am unable to see what point "S." tried to make in the song paragraph relative to assuming a *nom de plume*. "D." is not a *nom de plume*. It is very commendable in "S." to wax warm in their failure to obtain a post office at Hill's Corners. They are certainly entitled to one there and it has been a cause of wonderment to me that they have not persisted in their efforts until one was established at that place. "S." would carry the idea that I have resisted their efforts in this direction. He is mistaken. I would resist his attack upon the people and business of New Troy, and upon myself.

Whatever contributes to the development of Wecaw township as my hearty, though feeble, support. S.

NEIGHBORHOOD NEWS. [From the Michigan City News.] A fire in Valparaiso Sunday morning destroyed property amounting to about twelve thousand dollars.

[From the South Bend Tribune.] The wife of John Gruber wandered away from her home in this city, in a state of insanity, on the 28th day of July last, and although heard from in the vicinity of Dayton and Three Oaks, Mich., it does not appear that any steps were taken to look her up, and for some weeks her whereabouts were unknown. Some little time since, E. Fred Grether wrote to the county clerk of Berrien County for Gruber, making inquiries concerning his wife, and answer was returned that a woman answering the description was in the county at this house. She had wandered away two or three times, but had been found and returned. A day or two since, Mr. Grether got a letter regarding the matter, asking if the woman had any relatives or friends in this city, from which it appeared that Gruber had not taken steps to recover his wife, although advised of her abiding place. When spoken to on the subject, Gruber said he was too poor to bear the expense of getting her home, and seemed wholly indifferent about the matter. It is said that the wife has relatives in Bremen who are well able to care for her.

[From the LaPorte Herald.] City and county both overrun with "tramps." Some farm houses, we hear, have four such visitors per day, on an average. Three were in our basement at one time, the other morning; "strapped" printers—each one stout and hearty enough to husk 60 bushels of corn or dig 50 bushels of potatoes in twelve hours.

Last Saturday afternoon, a number of ladies of Noble (and some from Sepio) townships met at one of the churches in Union Mills, organized and resolved to rid the village of the saloon kept by Bloch. The latter "getting wind" of the impending raid, closed the establishment, left the key with a friend and decamped. The women finding the door locked, went and demanded the key, and being refused, returned, forced the door of the shanty, knocked to pieces the only keg of liquor on the premises, broke all the bottles and in short "went through" the "chebang" after a fashion which made the same look "sick." It is stated that under the bar were discovered a lot of boots, shoes, potatoes, &c., which had been pawned or paid for drink. The crusaders were led by Aunt Sally and which she conveyed with a regular "den" selling in violation of the Statute and keeping a haunt which drew young men and old on, to ruin.
