IT is pleasing to hear an editor of a patent boot newspaper take his neighbors to task for using articles from other papers. It seems as if they were just the ones to keep still. They not only have the use of some one else's brains, but have to depend upon others to get it for them. They take it already selected and printed. There is one of this kind at Three Oaks now.

THE COUNTY PRESS.

[Niles Republican.] Thomas Moran, a farmer who lives about four miles from the city, had the misfortune to have twenty-five sheep killed and mangled by dogs on Tuesday night. Encouragement for the Feeble.

Debility, whether it be inherent, or caused by overtaxed strength, or protracted illness, has a most depressing influence upon the mind, breeding an abject melancholy nearly akin to despair, and enforcing the abandonment of cherished projects, and high hopes. Happily, the enfeebled system, even in extreme cases, is susceptible of invigoration. It is proved by incontrovertible evidence that Hostetter's Stomach Bitters is an unfailing strengthener of the weak, and that by its use the physical organization, it establishes regularity among those organs upon whose efficient discharge of the duties imposed on them by nature, continued vigor and health depend. Thousands of instances might be cited to show the regenerating influence of this health-giving agent in cases of debility, liver disease, dyspepsia, nervous ailments, constipation, intercurrent fever, urinary and uterine troubles, gout and rheumatism, and other maladies.

The Grand Central Hotel, New York, is a model establishment. It is superb in style and appointment. In size and capacity for accommodations it has no equal. "Dr. V. C. Price makes a 'specialty' of all chronic diseases. As such a specialist he believes Dr. Price is without a rival in the northwest. We judge by what he has done in the past and we know that he has met with almost uniform success, curing cases of long standing, cases that have been aggravated by incorrect treatment at the hands of professedly able practitioners. He has made his visits regularly for years, and no complaint has been made of his treatment, on the contrary those who have been treated by him are his warmest admirers. In fact Doctor Price is an educated, far seeing, shrewd practitioner and withal a gentleman in the best sense of the word."

We can cheerfully commend him to those who have ceased to hope, and to all who fear a possibly incurable case. Dr. Price visits Niles, Bond House, Saturday and Sunday, May 12th and 13th.

LETTER HEADS, NOTE HEADS, ETC.—We make a specialty of this class of work, and claim we cannot be beat, either in quality of work or price. Come and see us when you want work of this description, and we will guarantee to give you complete satisfaction.

White, of our city, who sells their medicine, to tell purchasers to use one-fourth the contents of a 50 cent bottle of the Remedy, and then, if they are not entirely satisfied of its truly wonderful virtue in all cases of coughs, colds, sore throat, bronchitis, asthma, or consumption, to return the balance and get the money for the whole refunded. None but a great and good medicine can be offered on such terms.

Figures are What is Wanted.

Not election majorities, but such as interest the great army of American producers. Twenty-five years ago the eight counties of Missouri now traversed by the Old Reliable, Hannibal & St. Joseph Railroad were nearly a wilderness. To-day, by a late census, it is discovered that these counties produce over one-fourth of the entire wheat crop of the State, and over one-tenth of the corn crop, and over one-third of the oats. The same growth of country is now being repeated in Kansas, Nebraska, Colorado, and New Mexico. The immortal Greeley had this identical route and section of country in mind when he breathed those stirring words of wisdom, "Young man, go West." Therefore, it is but natural that parties taking this advice should desire to pass over a road that has done so much for the West. Money is South America, and the West is the land of opportunity. The Hannibal & St. Joseph R.R. cars are run from Cleveland and Toledo, and through connections made from Cincinnati and Indianapolis, via Quincy, to St. Jo., Atchison and Kansas City, and from Chicago to Kansas City without change. We are about to make a new connection with our own country, map of Colorado and New Mexico, giving valuable information as regards time tables, routes, distances, altitudes, etc., which will be pleased to furnish free, upon application in person or by letter addressed to T. PENFIELD, G. E. & T. A. Hannibal, Mo.

Journals are made to all the famous resorts of Colorado, the remarkable ruins, the springs, the mines, and, in short, to every point of interest to tourists, agriculturists, capitalists, miner, and invalid.
