WASHINGTON, D. C., April 30.—The Comptroller of Currency reports the amount of the United States bonds on deposit as security for the circulation of National Banks on the 1st of May, \$340,732,000, an increase of \$5,000,000 since the publication of his report Nov. 1, 1876. These securities consist of \$29,870,000 00 per cents, including \$8,830,000 issued to the Pacific Railroads, \$211,842,000 6 per cent bonds, and \$38,020,000 of 4 1/2 per cent bonds. Since the 1st of November, 1876, there has been a reduction of \$11,000,000 of 6 per cent bonds, \$12,000,000 of 5 per cent bonds and an increase of \$25,000,000 of 4 1/2 per cent bonds. The amount of National Bank circulation outstanding May 1, is \$318,364,667. Deducting from this amount the amount of legal-tender notes on deposit for the purpose of retiring National Bank circulation, we have \$302,929,249, which represents the amount of National Bank notes secured by bonds on deposit as above given. The net increase of National Bank circulation for the month of April was \$124,000. Amount of additional circulation issued, \$1,452,250.

The following is a statement of the operation of the National Bank Redemption Agency for the month of April, and for ten months ending this day, compared with the corresponding period last year: National Bank notes disposed of, notes fit for circulation, asserted and returned (for April) \$11,515,600; for ten months, \$114,450,600; notes unfit for circulation, asserted, and delivered to the Comptroller of the Currency for destruction and displacement with new notes for April, \$5,243,600; for ten months, \$43,835,500; notes of failed, liquidating, and reducing banks deposited in the Treasury for April, \$1,470,400; for ten months, \$20,305,400; for 1877: For April, \$11,515,600; for ten months, \$114,450,600. Totals for 1876: For April, \$12,937,500; for ten months, \$154,477,855; increase for April, \$5,587,100; for ten months, \$29,614,145.

The internal-revenue receipts for the last year to the 30th of April were \$93,327,710. The receipts for this year have been \$95,922,210.18, showing a gain for ten months of \$2,594,500. The receipts for May, 1876, were \$1,717,866—a sum nearly \$2,250,000 greater than for the month of May, 1875. Present indications are that the receipts for the next month will not fall much, if any, short of the receipts for the same month in 1876; and if the receipts for May and June do not fall off, the receipts for the fiscal year will come up to the estimate of \$120,000,000. Commissioner Raun thinks that the estimate will certainly be reached, even if not exceeded.

How sweet is revenge! One day last week one of the school girls at Galien got into mischief, and for a punishment the teacher put her out of doors. But she was not to be beaten in any such way as this. She armed herself with a handful of pepper, and lay in ambush for Mr. Teacher, and now he is doctoring for sore eyes.

The first report of large egg comes from A. F. White. His hen has produced an egg that measures over seven inches in circumference and weighs three ounces, seven drams, two scruples and seventeen grains. It was probably owing to a defect in the conscientious scruples of the hen that the remainder of the fourth ounce was not added.

Those pupils who slyly kept one eye on the Professor and the other on their books, for the answers to the questions written on the black-board, during the examination, may have thus adroitly deceived their teachers, parents, and the public, and dishonestly shared the honor due only to faithful students, will ultimately be the worst deceived of all.

On Saturday evening last, the Michigan Central Railroad Company marshaled their forces together at Michigan City, to keep the L. P. & C. Co. from running across their track into the lumber and dock yards at that place, on Sunday following. That company did not appear in the grounds, however, and the expected skirmish did not occur, and the men were returned to their homes on Sunday. Such a crossing would cut two main and two side tracks of the central and they, of course, very decidedly object.

THE Rev. Mr. White, of Illinois, lectured at Niles Sunday afternoon, on "Romanism." His bitter denunciation of popery called forth as his replies from Catholics present. The speaker was publicly denounced by several during the meeting, as a liar, and threats of personal violence were made. A posse of police escorted him to his lodgings at the close of the meeting. Mr. White evidently delights in being martyred.—Evening News.

OVERSEERS of highways who have not yet qualified, should attend to that business immediately. The highway laws are now published in pamphlet form for every overseer, and they can be found either with the township clerk, or with the last year's overseer. Get them, gentlemen, read the law, and then follow it strictly. D. FRISK.

BUSINESS took us to Jackson on Friday evening last, at which place we arrived at 12:50, A. M., when we stayed into the Hibbard House and inquired the price of a lodging for the night, and received from the clerk the answer, "50 cents." Upon arising the next morning we handed the landlord \$1 to pay our bill, and instead of the right change we received but half of it; when we at once informed him of the business with the clerk, but to no avail. The reason he offered for not giving the right change was that we did not stay with him longer. On the same principle he would charge the customer for one week double rates because the customer did not stay with him the rest of his natural life. We would be unwilling to trust ourselves in the care of such a landlord, with any money about our person, if he knew it, lest we should be robbed; for he will rob a man in this way, will in another, should the opportunity present itself. Should any of our readers chance to be in Jackson, and wish for hotel accommodations, we advise them to inquire for the Hurd House.

THE LEADER, a monthly musical paper for the musical million, has just been enlarged to double its former size, and the publisher makes the following liberal offer to subscribers for 1877: Each number will contain an illustrated forty cent piece of piano music, folded in with the paper, and in addition to this each subscriber will be presented with one dollar's worth of new music as a premium. When we consider that the subscription price is only one dollar per year, it must be acknowledged that this is the most liberal offer made by any music publisher in the country, and it is not surprising that the Leader is rapidly attaining an immense circulation. Jenn White, publisher, 226 Washington St., Boston.

FUN ALIVE.—There will be a "mum social" at the Collins & Weaver hall on Saturday evening next for the benefit of the "Dare to do Right" club. A fine of five cents will be charged any member of the club who speaks after entering the hall and before nine o'clock. Hot coffee and sandwiches will be furnished for refreshment. A lively time is expected. If your tongue is not hung in the middle, join the club and go to the social. If it is gone any way.

LAST Saturday Mrs. John Whetzel was attending to her usual duties in the kitchen, a large snake of the kind known as the blue racer, glided in through the open doorway and proceeded to make a leisurely examination of the apartment. He carried his head high and displayed his tongue to the affrighted Mrs. W., who seized her babe from the floor and retreated. His snakishness showed no signs of fear or disposition to disturb any one, and, after having made the tour of the room several times, settled behind a trunk for a nap, where he was afterward dispatched by a neighbor. He measured six feet and one inch.—Cassopolis Vigilant.

An oriental traveler describes this busy scene, witnessed on historic shores: "Our steamer landed on a beach which was the port of Antioch, where the disciples were first called Christians. There was no town at the water's edge, no people, no wharf. The passengers and the merchandise were put ashore in lighters, which ran up into the sand. A troop of camels, with their drivers, lay on the beach, ready to transfer the goods into the interior. Among the articles landed were boxes marked 'Dr. J. C. AYER & Co., Lowell, Mass., U. S. A.," showing that they contained medicines and whence they came. These with other goods were hoisted on the backs of camels, for transportation to Antioch. Thus the skill of the West sends back its remedies to heal the maladies of populations that inhabit those eastern shores, whence our spiritual manna came."—Windsor (Vt.) Chronicle.

It is generally supposed by a certain class of citizens, who are practical or experienced, that Dyspepsia can not be cured, but we are pleased to say that GREEN'S AUGUST FLOWER has never, to our knowledge, failed to cure Dyspepsia and Liver Complaint in all its forms, such as Sour Stomach, Costiveness, Sick Headache, palpitation of the Heart, loss of spirits, &c. Twenty-five years ago the eight counties of Missouri now traversed by the Old Reliable Hannibal & St. Joseph Railroad were nearly a wilderness.
