The Russians have at last commenced to cross the Danube, and in probability the fighting in that vicinity will be rather more lively than heretofore.

British Parliament has given an order for the appropriation of \$25,000,000 for the protection of British interests in the East, should the commanding powers in any way infringe.

James Gordon Bennett got back to New York, from Europe, on Friday last, and we have not learned that he has been arrested for fighting that duel with May. If he was a poor man the law would nab him "at sight," but he isn't poor.

Wm. M. Tweed, who used to be the boss thief of New York City, and who has been in duress since so long, is now reported to have \$2,000,000 to his credit in Europe, and is only waiting to secure his discharge to rejoin his confederates and embark with them in a large street railway speculation in Madrid.

A heavy wind and rain storm from the West swept over Missouri, Wisconsin, Illinois and the Lake Superior region of this State on Monday, doing a vast amount of damage. In Chicago the damage to buildings is said to be very great.

The Detroit Post and Tribune companies are making arrangements for consolidation. The new paper is to be called the Post and Tribune and will be published in the old Tribune building.

A heavy tornado passed over Chicago on Monday last, carrying havoc on its way. Horses and carriages were overturned, signs blown down and large plate glass windows blown in pieces. Great damage was done to shipping in the river. The storm was nearly equal in its fury to the one that carried the steeple from Grace church, in that place, about a year ago, but was not accompanied by rain.

The Lansing Republican gives the following report of the business of the State Treasurer:

The balance of cash in the State Treasury June 16 was \$695,109.20; receipts during the week ending June 23 were \$24,000.05; payments during the same time were \$17,516.82; balance in Treasury June 23, 1877, \$701,592.43; increase for the week, \$6,483.23.

A great hub-bub has been raised about the ears of Judge Hilton, the successor of A. T. Stewart, the late famous dry goods man, growing out of the fact that Judge Hilton directed the managers of his hotel at Saratoga to admit no Jews as boarders. They are now retaliating by withdrawing their patronage from that store. Forty-six firms in no city alone have resolved not to buy another dollar's worth of the firm, and the Jews all over the country are imitating them.

The Inter-Ocean has the following from Hartford via Bureau County Michigan under date, June 21:

Most of the business portion of this place was destroyed by fire last night. The following is the list of the buildings burned: Earl & Northcutt, meat market, \$200; stock, \$180; no insurance. Jacobson & Spauldy, loss on the Hartford, \$1,000; insured for \$1,000 in the Hartford National, \$1,000 in the Northwestern National; building, \$300; no insurance. W. Rowenton, building, \$300; stock, \$800; no insurance. Jones Watt, boots and shoes, loss, \$300; no insurance. H. M. THE GRASSHOPPERS.

A Pontiac correspondent of the Detroit Free Press announces the arrival of the hungry Kansas grasshopper in Oakland county, one of the richest agricultural counties in this State. In the township of Orion untold millions of these pests are destroying the crops, clover being their preference and oats coming next. The fences on each side of the roads are literally covered with them and the air about six feet from the ground is alive with the pests. The correspondent says the ground is impregnated with eggs, and a few hours will seem to be moving and flying from them. The hoppers range in size from the almost imperceptible insect to an inch and a half long. The territory depredated is about two miles square in the south-west part of the township, where nearly 2,000 acres of growing crops were more or less destroyed. The farmers of that section are naturally concerned over the pending loss of their crops, but, of course, are powerless to prevent it. It is sincerely to be hoped that this scourge will soon pass away.

On Wednesday of last week, June 20, the city of St. Johns, the capitol of New Brunswick, was three-fourths destroyed by fire, including the business part of the city. About 400 acres were burned over with a loss of over \$13,000,000 in property and nearly 15,000 people rendered homeless.

THE AMENDED LIQUOR LAW.

As several persons, and among them some immediately interested, have asked us what changes were made in the law, we give the most important sections of the law as it now stands, and is now in force. It is as follows:

SECTION 1. In all townships, cities and villages of this State there shall be annually levied and collected the following tax upon the business of manufacturing, selling, or keeping for sale by all persons whose business in whole or in part consists in selling or keeping for sale, or manufacturing or distilling or malt liquors or mixed liquors, as follows: Upon the business of selling or offering for sale spirituous or intoxicating liquors or mixed liquors by retail, or any patent medicine mixture, or compound which in whole or in part consists in spirituous or intoxicating liquors, the sum of \$150 per annum; upon the business of selling or offering for sale by retail any malt, brewed, or fermented liquors, \$50 per annum; upon the business of selling brewed or malt liquors at wholesale, or at wholesale and retail, \$100 per annum; upon the business of selling spirituous or intoxicating liquors, at wholesale, or at wholesale and retail, \$200 per annum; upon the business of manufacturing brewed or malt liquors for sale, if the quantity manufactured be over five barrels and does not exceed 1,500 barrels, \$50, if over 1,500 barrels and not exceeding 5,000 barrels, \$100; if 5,000 barrels or over, the sum of \$200 per annum; upon the business of manufacturing for sale spirituous or intoxicating liquors, \$300. No person paying a tax on spirituous or intoxicating liquors under this act shall be liable to pay any tax on the sale of malt, brewed and fermented liquors.

No person paying a manufacturer's tax on brewed or malt liquors under this act shall be liable to pay a wholesale dealer's tax on the same. SECTION 2. Retail dealers of spirituous and intoxicating liquors, and brewed, malt and fermented liquors, shall be held and deemed to include in all persons who sell by the drink, and in quantities of five gallons or less, or one dozen quart bottles or less, at any one time, to any one person. Wholesale dealers shall be held and deemed to mean and include all persons who sell or offer to sell such liquors and beverages in quantities of five gallons, or over one dozen quart bottles, at any one time, to any one person. No tax imposed under this act shall be levied or collected from any person for selling any wine or cider made from fruits grown or gathered in this State. No druggist shall be liable to pay any tax here imposed who sells medicinal and sacramental purposes only.

SECTION 3. The People of the State of Michigan enact, That it shall not be lawful for any person to sell, furnish to, or give any spirituous or intoxicating liquor, or any wine or beer, or any beverage, liquor, or liquors for drink, containing any spirituous or intoxicating liquor, wine, beer, or malt liquor, to any minor or intoxicated person, or to any person in the habit of getting intoxicated. It shall not be lawful for any person (including druggists) to sell malt, spirituous, or intoxicating liquors, without first having executed and delivered to the treasurer of the county in which such business is prosecuted and carried on, the bond required to be given by section 5 of this act. All saloons, restaurants, bars in taverns or elsewhere, and all other places where malt, spirituous or intoxicating liquors are sold, either at wholesale or retail, shall be closed on the first day of the week, commonly called Sunday, and on each week-day night, from and after the hour of ten o'clock until six o'clock of the morning of the succeeding day: Provided, That in all cities and incorporated villages of this State, the saloons, restaurants, and bars in taverns or elsewhere in such cities and villages may remain open until not later than eleven o'clock in the evening of each week-day night, if so ordered and closed by the proper city or village authorities. But the above provisions about closing shall not be construed to prohibit persons whose principal business is to deal in drugs and medicines, from selling alcohol or alcoholic liquors, to be used for medicinal, mechanical and sacramental purposes, or to be used as a chemical agent in scientific and manufacturing purposes only. But all such dealers in drugs and medicines, on such days and nights, or other times, shall keep a book expressly for that purpose, in which shall be recorded the names of all such persons applying for such liquor for any of these purposes, the date of each sale, the amount and kind of liquor sold to each person, and the purpose to which the liquor was to be applied as stated by the purchaser, which shall be open for examination by any person on request during all business hours. And a failure to keep such record on the part of any such dealer, or the delivery of liquor for any purpose other than above named, shall subject him to the same penalties as are provided for other unlawful sales in this act. And a misrepresentation on the part of any purchaser, made to any such dealer, for the purpose of surreptitiously obtaining alcoholic or intoxicating liquors to be used as a beverage, shall subject such purchaser to the penalties provided for in this section. Any person who shall violate any of the provisions of this section shall be deemed guilty of this misdemeanor, and upon conviction thereof shall be punished by a fine of not less than \$25, nor more than \$100, and costs of prosecution, and, on failure to pay such fine and costs, shall be imprisoned in the county jail not less than ten days, nor more than ninety days, or both such fine and imprisonment, in the discretion of the court.

SECTION 5. Every person engaged in the sale of any intoxicating, spirituous, malt, brewed or fermented liquor, for any purpose whatever, shall, before commencing such business, and on or before the 1st day of May in each and every year thereafter, make, execute and deliver to the county treasurer of the county in which he is carrying on such business, a bond,

the sufficiency of which shall be determined by the township Board of the township, or the Board of trustees, or the common council of the village or city in which such business is proposed to be carried on, to the people of the State of Michigan, in the sum of not less than \$1,000 nor more than \$3,000, with two or more sufficient sureties, who shall be freeholders, each of whom shall justify in a sum equal to the amount of the bond, over and above all indebtedness, and all exemptions from sale on execution, which bond shall be substantially in the following form: "Know all men by these presents that we, as principal and as sureties are held and firmly bound unto the people of the State of Michigan in the sum of _____ dollars, to the payment whereof, well and truly be made, we bind ourselves, our heirs, executors and administrators firmly by these presents, sealed with our seals and dated this _____ day of _____, A. D. 18__.

"WHEREAS, The above named principal professes to carry on the business of _____, in the county of _____, and whereas, the said principal hath covenanted and agreed and doth hereby covenant and agree as follows, to-wit: That he will not directly or indirectly, by himself, his clerk, agent or servant, at any time sell, furnish, give or deliver any spirituous or intoxicating liquors, or any wine, beer or malt liquor, or mixed liquors a part of which is spirituous or intoxicating, to a minor, nor to any adult person whatever known to him to be an habitual drunkard; nor to any person in the habit of getting intoxicated, nor to any person of Indian descent, nor to any person whose husband, wife, parent, child, guardian or employer may give him notice in writing that such person has acquired, or is acquiring the habit of drinking to excess, and is being injured thereby, except as a medicine by druggists, as provided in section 1 of this act; and that he will pay all damages, actual and exemplary, that may be adjudged to any person for injuries inflicted upon them, either in person or property or means of support by reason of his selling, furnishing, giving, or delivering any such liquors.

"Now, the condition of this obligation is such that if said principal shall well and truly keep and perform all and singular the foregoing covenants and agreements, and shall pay any judgment for actual or exemplary damages which may be recovered against him in any court of competent jurisdiction, then this obligation shall be void and of no effect, otherwise the same shall be in full force and effect. (Signed and sealed in _____, L. S. presence of _____, L. S. _____, L. S. _____)

THE GRASSHOPPERS.

A Pontiac correspondent of the Detroit Free Press announces the arrival of the hungry Kansas grasshopper in Oakland county, one of the richest agricultural counties in this State. In the township of Orion untold millions of these pests are destroying the crops, clover being their preference and oats coming next. The fences on each side of the roads are literally covered with them and the air about six feet from the ground is alive with the pests. The correspondent says the ground is impregnated with eggs, and a few hours will seem to be moving and flying from them. The hoppers range in size from the almost imperceptible insect to an inch and a half long. The territory depredated is about two miles square in the south-west part of the township, where nearly 2,000 acres of growing crops were more or less destroyed. The farmers of that section are naturally concerned over the pending loss of their crops, but, of course, are powerless to prevent it. It is sincerely to be hoped that this scourge will soon pass away.

As it requires some money to carry on the printing business and building at the same time, it would be a great accommodation if some of our delinquent subscribers would call on us as soon as convenient and settle up. The thread on the hook struck on the left side, leaving its imprint plainly to be seen, as if marked with a pencil, and the upper lid of the right eye was out open probably by the hook, so as to leave the eyeball in plain view through the gash. The office of the St. Joseph Herald, which occupied the second floor of one of the buildings, was totally destroyed. The loss of the buildings and contents will exceed \$20,000, mostly insured. The cause of the fire is unknown, but it is supposed to be the work of an incendiary. The fire companies worked nobly.

The office of the St. Joseph Herald, which occupied the second floor of one of the buildings, was totally destroyed. The loss of the buildings and contents will exceed \$20,000, mostly insured. The cause of the fire is unknown, but it is supposed to be the work of an incendiary. The fire companies worked nobly.

Peruvian Syrup vs. Alcoholic Tonics. It has been a desideratum with the medical profession to procure a preparation of iron less objectionable than any of those now in use, which often produce unfavorable effects, upon the system, especially when prepared with alcoholic fluids.

In many cases of debility and convalescence from disease, where a tonic is indicated, wine, brandy, porter, &c., have been recommended; but these are of very doubtful efficacy, to say the least. Alcohol is never digested, is ranked among the stimulants, and is incapable of affording nutrition. It creates generally an unnatural excitement and derangement of the circulation, irritating the whole system by preventing the blood from losing its carbon. Again, how difficult is to obtain an article approaching to purity, almost all the wines, brandies, porters, &c., being more or less adulterated.

Such being the case with regard to the spirituous preparation of iron, and the alcoholic drinks, of which any one can satisfy himself by investigating the subject, an opportunity is now presented in the PERUVIAN SYRUP, for the trial of an article in general practice, which has the very strongest recommendations from medical and scientific men of the highest character—a preparation which so happily combines the protoxide of iron with the other constituent parts that the effects incident to the use of iron salts are entirely obviated.

For all cases in which iron or any tonic is needed this preparation is confidently believed to be superior to any other. It is simple to purify the very fountain of health.

Figures are what is wanted. Not election majorities, but such as interest the great army of American producers. Twenty-five years ago the eight counties of Michigan now traversed by the Old Holland and St. Joseph Railroad were nearly a wilderness. Today, by a late census, it is discovered that these counties produce over one-fourteenth of the entire wheat crop of the State, over one-twelfth of the corn crop, and over one-ninth of the oats. The same growth of country is now being repeated in Kansas, Nebraska, Colorado, and New Mexico, and the immortal Greeley had this identical route and section of country in mind when he breathed those stirring words of wisdom, "Young man, go West." Therefore, it is but natural that parties taking this advice should desire to pass over a road that has done so much for a State, (especially as it offers the best facilities and uses for themselves. Try the Hannibal & St. Joseph R. R., through cars are run from Cleveland and Toledo, and through connections made from Cincinnati and Indianapolis via Quincy, to St. Jo., Atchison and Kansas City, and from Chicago to Kansas City without change. We are about to issue, in connection with our own, a county map of Colorado and New Mexico, giving the best information as regards time tables, routes, distances, altitudes, &c., which will be pleased to furnish free, upon application in person or by letter addressed to T. PENFIELD, G. P. & T. A., 48th

In the Sweet By-and-By Cannot be the happy thought as the fortunate recipient of the "ROCKY MOUNTAIN TOURIST" scans its wonderfully attractive pages and peruses its fascinating descriptions. Most beautifully embellished with new and highly "model of typographical richness, and the arrangement throughout simply superb, the ROCKY MOUNTAIN TOURIST is worthy of comparison with Pictorial America or The Adirde. It is written in gossipy, graphic style, covering details of the four through the garden of the South-west (the Arkansas Valley, Southern Kansas), to the very heart of the Alps of America—the Rocky Mountains, Januis are made to all the famous resorts of Colorado, the remarkable ruins, the springs, the mines, and, in short, to every point of interest to tourists, agriculturists, capitalists, miner, and invalid. With the TOURIST, the SAN JUAN GUIDE keeps fitting company, and the two publications are mailed free to all writing for one or both to T. J. ANDERSON, Topoka, Kansas.

Frank Leslie's popular Monthly for July is one of the best numbers of the work yet issued. Its articles, beautifully and lib rally illustrated, are timely, highly interesting and in- tructive, especially "Russia and Turkey, their War Strength, Sovereigns, etc.;" "The West End of Paris;" "Walta;" "Mrs. General Gaines;" "The Great Grain Movement," etc., etc. In addition it contains innumerable paragraphs on various interesting subjects—something for everybody—besides the usual number of short select stories by popular and gifted authors, and which are really captivating. This magazine of 128 pages and 100 illustrations must, in view of its actually being the cheapest publication of the kind in existence and at the same time one of the most select and universally welcome, continue to increase in popularity. Favor, and rank with the publisher's SUNDAY MAGAZINE, the highest among all our American monthlies. The POPULAR MONTHLY may be obtained for \$2.50, and the SUNDAY MAGAZINE for \$3, for one year, postpaid, from FRANK LESLIE'S PUBLISHING HOUSE, 637 Park Street, New York. Subscriptions take at this office.

From the Waukesha (Wis.) Democrat. "Those who are afflicted with throat, lung, liver or heart disease, will remember that Dr. V. Clarence Price has regularly visited our city for years, and has, by energy and skill, built up a large practice. His treatment of chronic diseases has been made a specialty, and in this he has gained a reputation second to no physician in the West. Many who had been given up as beyond the aid of medical skill, have been permanently cured by Dr. Price. Although he does not pretend to cure all diseases, yet he is generally able to help if not entirely restore such to permanent health. Let the afflicted give him a trial and test his ability to treat disease.

Dr. Price may be consulted on his next visit at Niles, Bond House, Saturday and Sunday, the 7th and 8th of July.
