 Legal advertisements at a rate of \$1.00 per annum.
 Transient advertising payable in advance.
 Each insertion of a notice of death \$2.00.
 Matter in local columns, ten cents per line or each line.
 Notices of marriages, divorces, and deaths, 50 cents.
 Ordinary Notices—more than one announcement—will be charged at the rate of 50 cents per line.
 Advertisements not accompanied with directions as to where to be inserted will be forbidden, and charged to accordingly.
 Double-columned advertisements on charged at twice the rate.
 Short notices allowed, 25 cents.
 Extra advertisements meeting for changes without extra charge.

Berrien Co. Record.

JOHN G. HOLMES, Editor.

THURSDAY MORNING, JULY 19, 1877.

Gold in New York, July 17, 105 1/2.

The remains of Gen. Custer and other officers who were massacred with him are being removed to more suitable burying places in the East.

The dome of the new capitol at Lansing will be completed by the middle of the latter part of September, and the whole building will be ready for occupancy by July 4th, 1878. There are now 150 men employed upon the building and grounds.

The Lansing Republican gives the following report of the business of the State Treasurer:

The balance of cash in the State treasury July 1 was \$682,779.70; receipts during the week ending July 14 were \$12,566.00; payments during same time were \$26,615.97; balance in treasury July 14, 1877, \$700,020.33; increase for the week \$17,240.63.

The new law passed by the Legislature at their recent session, for the protection of the woodcock, was, through some error, either by the one who introduced the bill or some amendment, made so as to prohibit killing this bird between the first of August and January, instead of the first part of the year as was intended. This gives the woodcock pretty good protection, for no one has any desire to kill them during the breeding season.

The Government has made two requisitions of the company having the job of printing the postal cards, for 24,974,500 cards. The cards are printed on large cylinder presses, forty at a time, on a heavier paper than was used under the last contract. About a billion will be required from this company, at an expense of 69 50-100 cents per thousand.

The Reform Journal of Michigan City, of last week, commenced the publication of an interesting article on the virtue and excellent character of the Democratic State Senator in that place, who has charge of the Northern prison, but before the entire issue was printed the worthy gentleman became aware of the proceedings and at once served an injunction to stop publication. About three-fourths of the issue were already out however, and the story gone. It is most interesting for official business.

The debt statement shows a decrease of \$3,219,119. Currency, \$7,980,274; special fund for the redemption of fractional currency, \$7,969,313; special deposit of legal tenders for the redemption of certificates of deposit, \$54,960,000; coin, \$115,122,478; including coin certificates, \$14,572,600; outstanding legal tenders, \$359,829,291.

Total in treasury, \$186,025,060; debt less cash in treasury, \$2,060,158,228; decrease since June 30, 1876, \$99,781,121; total debt, \$2,205,301,892.

The French agents who have been purchasing preserved meats in Chicago claim that the purchases are for the provisioning of the French garrisons; but other agents from the same place are reported as being in the business of purchasing cavalry horses in other parts of this country to send to France. Surely these are not for garrisons. Does France intend to await an opportunity when she shall recover her lost provinces, Alsace and Lorraine, in case Germany shall become involved in the Russo-Turkish controversy?

Mail advices from Japan show that the insurgents are still warring against the imperial forces in the western part of the main island. Early in June there was a three-day battle before Higo, in which 100 imperial soldiers were killed and wounded. The insurgents then fired the city and retreated. In Choshu, 150 miles north of the Simonsen straits, 3,000 insurgents had recently landed, and were proceeding along the coast. Desertions and surrenders of considerable bodies of insurgent troops were of frequent occurrence.

Some of the opposition papers have been publishing the letter of one Wm. A. Wheeler, dated November 18th, 1861, connecting him with the contract for arms furnished the United States, assuming that the person interested in the contract was Vice-President Wheeler, who now writes from Malone, New York, stating that he never had a contract, and that the Wheeler mentioned is entirely distinct from himself.

The Black Hills Times of a recent date says that the Bismark stage came upon the bodies of two men and a woman lying in the road at a point two miles north of Bear Butte, and ten miles from Crook City. The men were shot and scalped and the woman shot and scalped and horribly mutilated. The Indians, twelve in number, after murdering these persons, attacked a party of teamsters a few miles back, but ran away at the first fire.

A statement of the present strength of the Austrian navy shows that the iron-clad fleet consists of nine casemate ships with a displacement of 45,710 tons, 7,200 nominal horse-power, 134 guns, and 4,081 men. There are besides two frigates, eight corvettes, three paddle-wheel steamers, three steam transports, one ship with work-shops on board, and two monitors, the whole of these last enumerated have a displacement of 85,000 tons, are 6,670 horse-power, carry 188 guns and have a complement of 4,628 men. There are also a large number of torpedo boats, and of tenders for harbor service and coast-guard work.

The Methodists of this State will hold a camp meeting at Petoskey, commencing July 21st.

NEWS ITEMS.

A late report from New York says: During the present week about 2,000,000 bushels of wheat have been taken in this market for England on the Continent, and applications have been made to two of the largest European steamship lines for a month ahead for all the room they were unengaged for grain. In one instance an offer has been declined at the current rates.

The Secretary of the Treasury is refunding the National debt in a four per cent. loan, and has already received subscription to the loan, by parties within the country, to the amount of \$58,000,000. By this means he is securing a low rate of interest and confining a large part of these bonds in this country having expired, they are now being offered for sale in Europe where they sell for 102 1/2, which is 1/2 per cent. higher than here.

The Treasury Department on the 16th inst. issued the first call for the redemption of 5 20 bonds of '65, consols of '65. The call is for \$10,000,000, of which \$7,000,000 are coupon and \$3,000,000 registered bonds, principal and interest to be paid at the Treasury on and after the 16th of October next, and interest to cease on that day. The following are the descriptions of the bonds:

Coupon bonds dated July 1, 1865—\$50, No. 1,700 to No. 24,000, both inclusive; \$100, No. 27,001 to No. 84,000, both inclusive; \$1,000, No. 85,001 to No. 64,000, both inclusive. Registered bonds redeemable at the pleasure of the United States after the 1st day of July, 1870, as follows: \$50, No. 701 to No. 900, both inclusive; \$100, No. 6,401 to No. 8,550, both inclusive; \$500, No. 5,201 to No. 6,150, both inclusive; \$1,000, No. 16,501 to No. 17,850, both inclusive; \$5,000, No. 5,051 to No. 5,000, both inclusive; \$10,000, No. 4,451 to No. 5,854, both inclusive.

Judge Thomas M. Cooley, Dean of the Faculty of the Law Department of the University of this State, has placed a paper in President Angell's hands announcing very emphatically a determination not to abide by the late action of the Board of Regents increasing the entrance and diploma fees of students. He states that the Law Department has been self-sustaining since its organization, and putting this burden upon it wholly for the benefit of other departments of the University. He says, further, that the Law Department has been discriminated against for years in appropriations and in salaries; but this has been submitted to because its Faculty desired to do all they could to foster and support the Academic Department, and even the Medical Department, when women were first admitted, but they are not willing that this discrimination should be permanent.

The Detroit Post has lately been making extensive inquiries through the State relative to the wheat crop and sums up its information as follows:

"Wheat harvesting has proceeded rapidly the entire length of the Michigan Central Railroad during the last week. On the line of railroads centering in Jackson, the Jackson & Fort Wayne, the Grand River Valley, the Jackson, Lansing and Saginaw, and the Air Line from Jackson to Niles and the Jackson & Adrian, the wheat crop was never better. On the line of the Chicago & Lake Shore Railroad, from New Buffalo to Pontwater, the farmers are all satisfied with the present wheat crop. On the line of the Detroit & Milwaukee Railroad, from Grand Haven to Detroit, the wheat crop is equal to any previous one. On the line of the Detroit & Bay City, the Detroit, Lansing and Saginaw, the branch of the Grand Trunk in this State, and the Detroit & Toledo Railroad, the crop of wheat is good enough. On the Michigan Southern and its branches the crop is as good as any previous one. On the line of the Chicago & Lake Huron, from Port Huron to South Bend the crop is good enough. On the line of the Grand Rapids & Indiana Railroad, from Fort Wayne to Grand Traverse Bay, the wheat crop is invariably good. This crop of wheat, if the harvest weather continues good, will be the best crop of wheat in Michigan."

Brigham and the Gentiles.

SPRINGFIELD, Ill., July 11.—Capt. John Tobin, formerly a resident of California, but lately of St. Louis, and still later of Springfield, was one of District Attorney Howard's principal witnesses to prove Brigham Young's personal connection with the massacre of Gentiles. His name is mentioned in Lee's confession. He tells a long story, which is in substance, that having gained the confidence of Brigham by siding Monroe emigrants, he was appointed instructor of the territorial militia, which position he resigned because the squads of cavalry were used as avengers. Subsequently he undertook to guide a party of three strong, outspoken anti-Mormons to California, but the party was overtaken by a band of mounted Mormons, led by Brigham Young, Jr., and compelled to stop, under pretense that they were going to California to misrepresent Mormonism. They finally succeeded, but were continually dogged by Mormons, who at length fired on them as they were encamped at night. The party were left for dead, and the Mormons taking their horses rode away. Sixty hours afterwards the United States mail wagon and a party en route for San Bernardino took them up, but two died soon after. He claims to have important documentary evidence of plotting against the Government and the Gentiles on the part of Brigham Young.

Mr. H. T. Lee, of the town of Flint, his growing orchard on oak trees, grafted with cherry, that is yielding a fine crop of cherries this year. Mr. Lee brought up a branch from the tree last week, loaded with the fruit, and in taste and flavor the cherries were as good as any we have eaten. It is something of a curiosity to see an oak tree bearing cherries. Flint Globe.

The Indians Overlaken.

A dispatch from Gen. Howard, sent July 12, from Camp William on the Clearwater, 100 miles of the termination of the boundary between Oregon and Washington says: By making a forced march I stuck the enemy at 1 p. m. yesterday, about three hundred strong, in a deep canon near the mouth of the Cottonwood, near the south fork of Clearwater. We opened fire at once with a howitzer and succeeded in starting the Indians from their position. Passing around a transverse canon for a mile and half, began the battle in good earnest, and dismounting formed in the ravines and behind rocks. Barriades of wall were prepared and for seven hours every charge we made gained on them, all at night, when our position was not a very good one, as the enemy lay contiguous to my communication and as I was short of rations. This afternoon I gave our line to the care of Capt. Perry, commanding the cavalry, and Capt. Miles' battalion of infantry. I drew out Capt. Miller's battery of artillery acting as infantry. Just as we were ready to recommence offensive work Capt. Jackson and a pack train appeared in sight, beyond the Indians' position. Miller immediately pushed out in skirmish order, met the train and escorted it in successfully. They had hardly formed a junction with us when the artillery battalion, already beyond the enemy's flank, made a rapid movement, taking Gatling guns and a howitzer along. The Indians made one desperate effort to flank Miles, but failed and gave way. Everything was then pushed in pursuit. We shelled them rapidly from the left bank of the river and followed them, escaping in every direction as far as the river, and now across and going into camp at 7:30 p. m. The losses of Indians appear to be thirteen killed and quite a number wounded. We have Capt. Bancroft and Lieut. Williams, and eleven enlisted men killed and twenty-four wounded. Their camps were abandoned in great haste, leaving much plunder. The Indians fought as well as any troops I ever saw, and so did our not one man failing to do his duty. I now believe I am in fine condition, just as soon as Green appears from Boise, to make thorough work with these Indians. They are making for the Snake Country, and I fear a concentration at Mount Idaho. Troops have never done harder or more rapid campaigning, or better fighting than these.

The schooner Excelsior, Captain Wright, of New Orleans, was wrecked in Quanaqua Bight, Honduras, July 1st. The crew were saved.

A tornado swept over portions of Dutchess and Columbia counties, N. Y., Monday afternoon, accompanied by hail. Trees, fences and barns were destroyed, and acres of corn and oats cut down.

H. Edsall, a merchant of Columbia, Tenn., was found on Tuesday on a railroad track near the Memphis junction, severely injured, and died soon after. He is supposed to have fallen from a train.

At Skowhegan, Me., John Ware's tannery burned on Tuesday. Loss, \$35,000; mostly insured.

About 600 Pomo Indians, from Nevada, passed through Columbus, Kan., Sunday, en route to their new home in Indian Territory.

An order has been issued from the War Department for the establishment at Fort Leavenworth, of an infantry school of training and practice, which will be the first school of the kind ever established at any post in the United States.

A fire at Marysville, Cal., Monday, destroyed the depot of the California and Oregon Railroad, seventeen freight cars, and a large quantity of goods. Loss \$50,000. It also destroyed the Denton House, a large hotel.

A series of bold attempts have been made to set fire to several public buildings on the Back Bay, at Boston, for the supposed purpose of robbery. Unsuccessful attempts have been made on the new Trinity Church and Exeter School House. Monday the police arrested John Allen, of Providence, on whose person was found material which fully identified him as the incendiary.

Volcanic Eruptions in South America.

PANAMA, July 13.—According to the news received by the steamship Oroya, Equador has again been the scene of violent eruptions and destructive floods, causing it is feared, much loss of life and destruction to property. Great quantities of volcanic ashes have for days together fallen in showers along the coast. It is estimated that on each square kilometre of space 318 kilograms of ashes have been deposited.

On June 26, from Baboyo to Tumbe, detonations resembling the discharge of cannon were heard at Yagual. It was said the reports came from the north. At 6 p. m. of that day a heavy shower of ashes commenced to fall. The steamer Guayaquil, on her way from Panama to Guayaquil, first noticed the fall of ashes at Mantá, and continued to receive them till arriving at Guayaquil. No doubt, as on other occasions, the ashes have been transported to distance of 200 leagues from the volcano which had thrown them out. On account of the absence of acids in the ashes they are not likely to be injurious to crops or cattle, as on previous occasions.

The following official particulars have been received: A volcanic eruption which is supposed to have originated in the Cotopaxi, opening into the rivers which have their origin there, has spread desolation over the beautiful and fertile valleys of Chilo and Tumbaco. On the morning of the 26th a frightful noise was heard in Lateauca, which was followed immediately by a tremendous flood, which, taking the course of the Rivers Outuchi, San Felipe and Yanayoyo, and passing washed the city to the chapel known as El Salto. The volume of mud and water was so great as to completely cover the Hacienda Valley including the distillery in front of Lateauca. The flood in the course carried with it many cattle, and what is more sad, many bodies. The bridge of Lateauca, the handsome bridge of Boliver in Pansalco, those of wood of Culapaham and Patate, and that of masonry of Agogon were destroyed. All of the Haciendas situated on both sides of the river suffered enormously, and the desolation is terrible and complete.

The State board of health ask all local boards of health to direct their local public physicians to offer free vaccination once a year to all, using pure bovine virus.

The Grand Rapids papers are about to shut down all sorts of free advertising. "The blow" will fall heavily on all politicians and managers of Sunday school ice-cream festivals.

The new Judicial circuit in this State.

The new Judicial circuit in this State, elected Tuttle, Democrat, by 86 majority.

The State Normal School building at Ypsilanti is to receive a new addition in a short time.

The editor of the Albion Mirror has been trying his hand in the harvest field this year, with good success.

Emory A. Storrs, of Chicago, is lecturing in this State on the Temperance question. He spoke in Ann Arbor last Friday.

Adrian is having a slight dispute with some bridge builders about some defective iron bridges built across the river at that place. The city authorities refuse to accept the job. Hence the controversy.

The father of Van Wagener, the young man who so nearly killed Hewitt at Kalamazoo recently, has paid all the latter's expenses during his sickness, amounting to \$133.

The county court-house at Farwell, Clare county, was destroyed by fire on the night of the 11th. Loss \$2,000; no insurance. A portion of the clerk's records were lost.

While working barefoot in a wheat field, on the 12th, John Morse, of Cassopolis, nearly severed both feet by accidentally falling on a cradle. Amputation will probably be necessary.

Lobar Heath & Co's flouring mill, at Cadillac, was destroyed by fire at two o'clock on the morning of the 11th, with 600 bushels of corn, 1,000 bushels of oats, 50 barrels of flour, etc. Loss \$10,000, with no insurance.

A fellow named Spolling has been doing a considerable amount of stealing of cattle, pigs, etc., at and near Plainville. He escaped after being arrested, by going into the woods, but was finally starved out and surrendered.

The supply of logs at this place is beginning to run short, and some of the mills will soon be compelled to cease operations unless logs can be obtained from some source.—Alpena Argus.

It is announced that there will be an excursion of members of the Legislature of this State to the upper peninsula, to start from Chicago August 7th. The party will visit the iron and copper mining regions, and Lake Superior fisheries.

The Saginaw Republican says that in one block in that city, between German and Leaper streets, are 60 children under 15 years of age, and challenges any other place in the State to make as good a showing.

Saturday Messrs. Burrows & Jones, of Montague, shipped twenty-four bushels of cultivated water-green berries. The greater part of them were average a circumference of two inches, many measuring as much as three inches.

The citizens of Charlotte had the nerve and sense to step out of the beaten path and appoint a lady to the position of superintendent of the city schools when they thought it would serve their interests. Miss E. C. King is the appointee, and her salary fixed at \$900.

On the 15th a temperance meeting was held at Charlotte, and Amos Johnson, of Lansing, was one of the speakers. He was formerly a resident of Charlotte, where he became so dissipated that he was compelled to leave. Since then he has been one of the worst of drunkards. He signed the pledge four months ago, and immediately went to work organizing clubs, and through his labor 8,000 persons in Ohio, Indiana and Michigan have signed the pledge.—Evening News.

Some time ago a kind of worm about three-fourths of an inch in length appeared on the pine trees in front of Dr. Curtis' residence, and in a very short time completely stripped the trees of all their verdure. Last week Dr. Ball, who has lately purchased the place, had the trees cut down, and upon close examination found that even the smallest twigs were completely loaded down with the pest. If any one knows what kind of a "varmint" they are, we would like to have them inform us.—Dowagion Republican.

The exports from Detroit during the month of June were \$175,759; dutiable imports, \$25,226; and duties collected upon the same, \$5,251.03; free goods imported \$141,585; goods withdrawn from bonded warehouse, \$7,515, and duties paid upon them, \$5,376.19.

The Kalamazoo Gazette says that July 1st Mount Shepardon stream across West lake, and returned without touching land. When in the middle he dove to the bottom (30 feet) and then came to shore, apparently but little fatigued. Distance of his swim, two miles.

Act 101 of the Legislature of 1877 made it a penalty of \$5 to \$20, or imprisonment, for selling fruit or vegetables by the quart or bushel in deficient measure. Most of the fruit and vegetables are sold by short measure. The legal bushel has 2,150 42-100 cubic inches, and the quart 67 12-100 cubic inches. Most of the berries sold are in baskets purporting to hold a quart, but are only 4 1/2 x 4 1/2 x 3 inches deep, holding only about 57 8-100 cubic inches. There is hence a deficit of about 10 cubic inches on each quart—about 1-6 loss. Even the wine measure is larger, it being 57 1/2 cubic inches.—Coldwater Republican.

Thursday evening a building known as the Bass store, at Mattawan, was destroyed by fire; insured for \$800.

The new steam saw-mill of Campbell & Co., at Pionning, Bay county, was destroyed by fire on the night of the 15th. It was built on the site of one burned two years ago. Loss, \$50,000; insured for \$25,000.

A disastrous fire visited Clam Lake the night of the 10th. It destroyed LaBar, Heath & Co's fine new flouring mill, with all its contents. The loss is estimated at about \$40,000, on which there was no insurance.

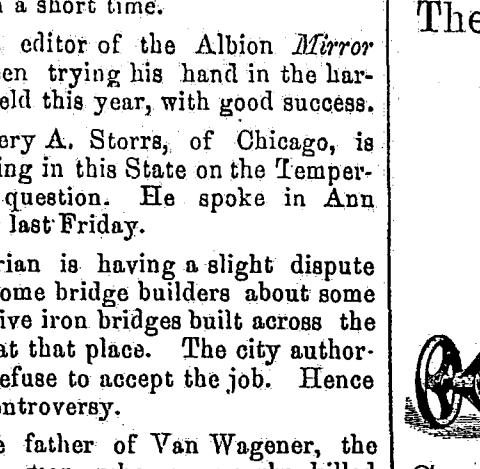

Mr. S. N. Vincent, of Lapeer, has white oolite, the stalks of which are over four feet long.

Harvest apples are in market in some parts of the State, and sell at the very low price of \$3 per bushel. Bay City is getting about rid of the small-pox, most of the patients being nearly well.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual in preserving the hair. Faded or gray hair is soon restored to its original color, with the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling out, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. It contains neither alcohol, dyes, it does not make the hair, giving it a rich glossy lustre and a grateful perfume.
