

Berrien Co. Record.

JOHN G. HOLMES, Editor. THURSDAY MORNING, AUGUST 9, 1877.

How much did the employes of Vanderbilt gain by striking?

The Virginia Democratic State Convention for the nomination of a State ticket, took place at Richmond yesterday.

A fire is reported as raging in the cedar bush near the Station, Canada, about nine miles from Buffalo, N. Y., on the line of the railroad. About six miles have been burnt over.

Address from the report a threatened famine in that country. The population of 20,000,000, in Southern India, is said to be the numbers depending on the rice is large. In Madras presidency, 1,750,000 persons daily receive assistance.

The trial of W. C. Pike, for the murder of Stephen S. Jones, proprietor of the Religious-Philosophical Journal, came off in Chicago on Tuesday, and resulted in his acquittal, on the grounds that he was insane when the crime was committed. He will now be sent to an insane asylum.

A blow has been struck at the Indians by President Hayes, which will prove to be telling. It is in the shape of a general order prohibiting the sale of arms or ammunition to them, and revoking all licenses to trade with them in such articles, either on or off their reservations, under a heavy penalty.

Returns from all customs districts of exports and imports in the United States during the fiscal year ended June 30, 1877, show the total exports (specie value) to be \$602,474,681; total imports, \$451,307,649; excess of exports over imports, \$151,167,032. In the fiscal year 1876 the excess of exports over imports was but \$79,648,481. In the fiscal year 1877 the exports of coin and bullion amounted to \$56,168,287, and the imports to \$40,774,414, while in the preceding year the exports were \$56,506,802 and the imports only \$15,986,681.

A Washington special of August 8, says: "The total amount of United States bonds held as security for the circulating notes of the National banks is \$387,628,100. The Secretary of the Treasury to-day issued the 54th call for the redemption of \$10,000,000 of the 5-20 bonds of '65, \$7,000,000 in coupons, and \$8,000,000 in registered bonds, as follows: Coupons: \$50, No. 4001 to 4400; \$100, No. 68001 to 78000; \$500, No. 50001 to 57000; \$1000, No. 85001 to 96000. Registered: \$50, No. 1401 to 1600; \$100, No. 11901 to 13100; \$500, No. 7751 to 8800; \$1,000, No. 25101 to 27400; \$5,000, No. 7801 to 7650; \$10,000, No. 11761 to 18550.

HOW IT IS DONE.

There has been considerable said by the press lately of different articles that have been carried on in different parts of the State, and some of which were operated in this immediate vicinity. We have lately come in possession of a copy of the contract used by one of these swindlers in appointing agents throughout the country. It is arranged something like this:

One year after date, I promise to pay A. S. Gray or bearer ten dollars when I shall be notified by the undersigned, at ten per cent. per annum, said ten dollars, when due, is payable at Lansing, Mich. JOHN SMITH, Agent for A. Jones.

The farmer makes a contract to sell machines on the above terms, the machines to be forwarded to once, and signs the form. In due time the farmer learns that some one of his neighbors holds his note for \$275, and of which he has no remembrance of having given. The swindler has torn off the part of contract even with the words "or," "dollars," "annum" and "Smith," and he has left a good note which he sells as soon as possible and gets out of the way. The farmer pays the note and never knows how it happened that he should have given his note and not know it.

The Effect.

The citizens of Pittsburg Penn. are now bringing in their bills for damages done to property by the strikers. They amount in this case to some \$8,000,000, all of which must be paid by the State, and should of right be paid by the city. This, the working-men of the city will be reminded of once a year by the tax collector, for years to come as it is they who will indirectly pay for all damage done if not by a direct tax, it will come in increase in rents or the price of the necessities of life which will be added by the owners of property or dealers to compensate them for their increased taxation, which will be no small matter. The

result will be not to increase wages or make better times but to make the already hard times worse.

The Laboratory Case.

A dispatch in yesterday's Inter-Ocean, from Ann Arbor, has the following: "The laboratory trial, which has occupied the attention of the court here for the past few weeks, is drawing to a close. By an arrangement entered into by the counsel for the respective parties it was agreed that A. J. Sawyer, counsel for Dr. Rose et al., should open the case. On the opening of court this morning the court-room was filled, many ladies being in the audience. At 9 o'clock Mr. Sawyer, who has been engaged in the case for two years, commenced his argument and occupied the day. He will be followed by Ed Kinzie and Ashley Pond, of Detroit, counsel for Dr. Douglas. The Hon. E. A. Storrs, of Chicago, on behalf of Dr. Rose, will make the closing argument. The case is exciting a great deal of interest, and the final decision is awaited with lively interest."

PROF. TENNEY.

By request we publish the following eulogy and account of the funeral of Professor Tenney, of Williams College, who died in this place a few weeks since, taken from the Springfield, Mass., Republican: "Sanson Tenney had been Professor of natural history at Williams town for nine years, coming from Vassar, where he had occupied the same chair from the opening of the institution. He was an enthusiastic student of his chosen branches, a pupil and warm admirer of Agassiz, a patient, intelligent and successful investigator, as a teacher, of inspiring and thorough qualities. As an author, he achieved a high reputation in his department, having published popular text books of zoology and geology. He was widely appreciated as a lecturer, having for a dozen years taken a prominent part in the Massachusetts teachers' institute at Boston and planned a third for the coming winter, and been popularly known in New England and the west as a charming talker on scientific subjects. Two years ago Prof. Tenney declined a flattering call to the presidency of Indiana university, and at least two calls to other institutions have been refused during his stay at Williams. He believed in the advantage of a special line of work and permanent association with one department and institution. He added largely to the cabinets of the college, and, without reference to their size, had brought them to a point of completeness and perfection of arrangement, probably unequalled in any similar institution of the country. Prof. Tenney was a man of fine winning presence, and his life so sadly ended, probably before he had reached half a century, was in rare measure full of Christian gentleness and grace. No member of the faculty, perhaps, had gained and held more thoroughly the respect of the college and the community. He leaves a wife, his companion in science, and herself the author of elementary text-books, and a young son and daughter. The funeral was largely attended by the college, the village, and other Berkshire people, from the beautiful new residence at Williams-town. The tenderly appreciative exercises were conducted by President Chadbourne, and both he and ex-President Hopkins talked of the consolation of the perfect Christian life of the dead, and of his tragic removal as translation by a loving Providence. Dr. Chadbourne told of the strength which the professor's cordial temperance and faithful service to Williams college had been to him in his official position, alluded to the fact that the natural history had been especially commended at the recent commencement, and rejoiced that he as President had but recently expressed to Prof. Tenney his entire satisfaction in his work. From the house to the foot of Park street, the procession of the college faculty, several students of the abandoned expedition, the family and a long line of sympathizing friends walked through the beautiful mission park to the college cemetery. The open grave had been covered with green, and a wreath of flowers, and an offering at its head spoke "Peace." Prof. and Rev. Dr. Pratt made a prayer full of deep sympathy, yet fuller, as was fitting, of joy and triumph in the life which had been so well lived. The whole service was almost the ideal of Christian burial, and only that so strong, so worthy, and so good a life should be lost to the world, and marked by a deep undecorated of peace and joy in the perfect assurance that with him it was 'far better.' Prof. Tenney was 50 years old last January. His instant, painless death was due to the heart disease. He had laid down complaining of pain in his left breast and shoulder, and a mustard plaster was applied. He suggested that this be changed to his feet, and while it was being removed from the head to the foot of the bed, life left the body. The college authorities will make an immediate attempt to fill Prof. Tenney's place, and President Chadbourne will assume for the present this old department of instruction. A peculiar case of hardship and injustice has just been straightened out by the President. In 1872 Benjamin Bunkie, an officer on the retired list assigned for duty in connection with the Freedmen's Bureau, was convicted by court-martial of improper disposition of funds, dismissed the service, and sentenced to the Penitentiary. In approving this decision Secretary Balknap remitted the imprisonment, leaving Bunkie at liberty to work up his case. His counsel took the ground that, as the President had not approved the finding of the Court, the decision could not operate, and when this point was sustained, and Bunkie afforded an opportunity to adduce evidence, he triumphantly proved his entire innocence, and was reinstated on the list. His back pay amounts to \$11,000, which he well deserves as much for his late suffering as for his former brave conduct during the War.—Chicago Tribune.

The War in Bulgaria.

The results of the continued fighting at Plevena on July 30th and 31st, and August 1st, have been to put the Russians on their defense, and indeed enabled to enable the Turks to take offensive themselves. That part of the Russian army which crossed the Danube at Sistova, now lies in a long line from that point southward to and across the Balkans, where Gen. Gourka still holds the Schipka pass, by which he crossed those mountains. This force is now attacked by three Turkish armies. Its right is menaced by the Turks from Widin and the upper Danube, who won the victory at Plevena, and who have now occupied Lovets and Selui, and menace Tereva. They are under the command of Osman Pasha. The Russian left is liable to an attack from Mehmet Ali, who commands the large Turkish army in Eastern Bulgaria, now lying in a line from Varna, Silistra, Shumla, Karschuk, and other points within the Quadrilateral, meanwhile the Russian advanced under Gen. Gourka is confronted by the third Turkish army under Suleiman Pasha, who, according to the latest advices, had occupied Kozonlik, and driven back the Russians into the mountains. The forces of the Czar have the advantage of being in united body, and if they had a Napoleon for a leader, might beat the armies opposed to them in detail. The Turks have the countervailing advantage of fighting in their own country, behind fortresses, and, if they choose, maintaining a strictly defensive attitude. Moreover, the Russian line of communication is very long and at some points narrow. Should it be broken, and the armies of Osman Pasha and Mehmet Ali effect a junction, the result would be very disastrous to the Russians. Both nations are rallying their utmost forces for a desperate struggle, and another fierce battle will doubtless occur soon. The Russians have recalled their army from the Dobruddacha, where it has been nearly as useless as Gen. Butler's was when he was "bottled up" on the peninsula. They have also called out their reserves. The Turks have none to call out. The unexpected Turkish victory will add to the magnitude of the war, and also very greatly increase its ferocity. The poor peasants of Bulgaria, whether Christian or Moslem, will be ground between the upper and nether millstones of the Russian and Turkish armies.—Detroit Tribune.

Camp meeting, camp chairs, at Spencer & Barnes, cheap.

Do not fail to see the new goods at Spencer & Barnes, cheaper than ever. Get a pair of those preserved collars at L. P. & G. W. Fox's.

The Eleventh Infantry and Fourth Battalion of Michigan Volunteers will hold a reunion at Mendon on the 24th.

The assessed valuation of the city of Goldwater is \$1,035,385; the real valuation would therefore amount to something over \$3,000,000.

Ultram Smith, of Flint, is filling an order for 100,000 feet of oak flooring for Paris, France.

Two carloads of Michigan wool were burned by the Pittsburg mob. The cars were shipped from Grand Rapids.

The remains of a mastodon were found on the farm of J. G. Durkee, near Birmingham, on the 31.

Lepner drunks and disorganizes are heretofore to work out their furies on the streets at the rate of \$1 per day.

Those new divans, lounges and sofas have arrived, and are the nicest and cheapest ever offered in this market, at Spencer & Barnes.

Brick Pomeroy will address the citizens of Oceana county at their agricultural fair at Hart, September 27, next.

Michigan farmers are so jubilant over their big wheat crop this year that this fall they will sow a wider acreage than ever before.

Horace Christian, of Bekford, Calhoun county, was found dead in a field on Sunday. He had been kicked to death by a horse he was trying to catch.

Mr. Draper Smith, a butcher of Coldwater, was seriously, and, it is feared, fatally, injured last Saturday. He fell to the ground from the wagon, the wheels passing over his head and neck.

The pine woods west of the town have been on fire for several days, and at times the smoke, driven over by the winds, has been a great annoyance. No damage has yet been reported.—Allan Journal.

Twenty-three warrants are in the hands of the United States Marshal at Jackson, Mich., which will be served on Jackson strikers who had something to do with stopping the mails the other day. There is to be a vigorous prosecution.

A man named Dewey, of Flint, drank two goblets of ice water, recently, when in an overheated condition, and almost instantly died from the effects.

During the month of July twenty-three convicts were received at the State Prison at Jackson, 23 were discharged, 6 pardoned, 1 died, leaving still in the prison, August 1st, 880.

F. A. Blackman and Eugene Park, who last spring purchased the Paw Paw Courier, have just purchased the Free Press, of that place, and will consolidate the two. What will become of Hadsell now?

A man at work for L. G. Crittenden, of Osceola, carelessly left a grain cradle in the stable, behind a horse valued at \$200, and the horse stepped on or kicked it, and nearly severed one of his hind feet. Next morning the suffering beast was shot.

Jerome Hendershot was caught in a thrashing machine, in Napoleon, on the 3d, and his clothing entirely stripped from him. He was slightly injured in the side and hip.

Mrs. Oliver Cappaok, of Laporte, Ind., found her husband at Grand Rapids on the 4th, living with another woman. The precious pair are now in jail.

The following new Odd Fellow lodges have recently been organized in Michigan: Joy Lodge, No. 298, at Crystal, Montcalm county; Kilwinning Lodge, No. 299, at Jerome, Hillsdale county; Osceola Lodge, No. 300, at Leroy, Osceola county.

Mrs. Marble was convicted of murder in the second degree, in the Ingham county court at Mason, on Saturday. The case was a trial for murder in which Mrs. Marble was indicted for being a principal in the transaction. She was not accused of firing the fatal shot, but she was charged with aiding, directing and abetting the attack. She was on trial for the murder of Ayers, and, if acquitted of that, would have been tried on a similar charge in the case of Morely.—Evening News.

The Negro Exodus to Liberia. Inquiry was made yesterday at the office of the Liberian Exodus association as to the number of names enrolled for the trip. The answer received was that from 2,500 to 3,000 men, women and children, in and about this city, had put down their names. Outside of the city there are 30,000 and 40,000 have handed in their names. They are of all classes and conditions of colored society, including some persons of means and influence. The large majority, however, are laborers and mechanics. Those having the matter in charge are enthusiastic, and express their confidence of success. They say that they lately learned that a large number of emigrants will be enabled to leave here this fall. They seem to have figured closely on their route, and have it all laid out. The voyage from this city to Monrovia will be a long day one, and from that place they will go by steamer to Liberia, three miles to where the country begins to rise. There they will settle and work up the hills into the country. George Curtis, who seems especially enthusiastic, says that they will go beyond the material belt. He says, also, that men of prominence and wealth in England have become interested, and that the association have received encouraging letters from such sources. His idea is that the proposition exodus will be for the benefit of both races. He says that the present agitation to have the machinery brought to the cotton is bound to secure that result; that when that is done, Charleston's export-trade in raw cotton, and her import-trade in fabrics must suffer; that if the emigrants are treated kindly, and assisted by Charleston,

they will naturally send back their products to be manufactured here, this place being only a day or two further from them than London; and that this would give this city an immense import trade, and furnish food for unnumbered looms and factories. The last words heard by the reporter as he withdrew were: "We can no more be stopped than the children of Israel could be stopped from coming out of Egypt."—Charleston (S. C.) News.

Diseases of the Stomach, or Dyspepsia, what is it!

BY V. CLARENDE PRICE.

The thousands of individuals who labor under the complaint bearing this name, have no other opinion of it than that it is a disease of the stomach. They have been so informed, and because they have been so distressed with flatulence, acidity, a sinking faintness, and a sensation at the pit of the stomach, which they cannot fully describe, they think it certainly a disease of the stomach, and more especially as they are attended with nausea or vomiting. Is it really the stomach which has become diseased, or does it arise from some other source? Where is the stomach situated? Is form somewhat resembling an alembic or retort, the largest part being on the left side, between the left lobe of the liver and the lungs passing under the liver, terminates in the small intestines near the centre of the body. The location of the stomach, therefore, precludes the possibility of the unpleasant sensation, as flatulence, flatulence, acidity, &c., being a disease of the stomach, as some suppose. The parts where these sensations are experienced are the location of the small intestine, and why such affections should be felt in the small intestines, we shall undertake to explain.

Sourness or Acidity.—The principal constituents of the gastric juice is muriatic acid; this muriatic acid dissolves into small particles the food taken into the stomach, and carries it on to the pylorus, through the pylorus into the small intestines, where it mingles with the bile, formed from the liver. When the bile is of a healthy character, it contains a large quantity of alkaline compounds. This alkaline mingles with the muriatic acid of the gastric juice, and neutralizes it, forming water and salts, which are somewhat purgative. When the liver becomes diseased, it cannot produce healthy bile. The bile may be thick or viscid, producing coliciveness, gallstones, &c. At other times it is thin and of an acid character. The acid character of the bile accounts for the fatness and sinking feelings, experienced just below the pit of the stomach. The acidity is occasioned by the bile having lost its alkaline properties, by which the activity of the gastric juice cannot become neutralized. Sometimes this thin acid bile exists in such quantities as to regurgitate from the small intestines into the stomach, vomiting follows; and if at the same time the bile being sufficiently irritable to excite inflammation, the patient will have frequent attacks of violent pain, sense of twisting or griping, or cholera morbus. Flatulence is occasioned by the decomposition of the bile, by which carbonic acid gas is disengaged.

Dyspepsia, so-called, is therefore, a general disease of the stomach, and although relief may in some instances be afforded to the distress which may experience, by the usual practice, yet no permanent benefit can take place until the liver is restored to healthy action.

The number of persons laboring under a disease of the liver is very great; there are but few who are not afflicted, and many little suspect that a disease of that organ is the true character of their indisposition.

Sallowness of the Skin is in consequence of the bile having become decomposed and rancid, by which it becomes capable of being absorbed into the blood, giving it a yellowish or jaundiced appearance, and sometimes by dark yellowish spots upon the face and neck. When the bile is thin and rancid, and the blood loaded with it, an irritation and inflammation often arises, as to produce canker, erysipelas, humors, and not infrequently fever, as bilious fever, ague and fever, &c. The patient is afflicted with biliousness, the inflammation of an organ (if neglected) until the spleen becomes affected and a pain is felt in the side. The heart becomes weak, and pain and palpitations are often felt in that region. The liver itself often becomes so weak, that by its least exertion, as going up stairs, or rising a hill, the patient is obliged to rest, and with such force as to cause it to enlarge, and the patient experiences difficulty in breathing until the blood has had time to pass from the liver. This state of disease frequently progresses to ulceration of the liver itself, and other parts of the system, which from any cause may have become weak, and the circulation of the blood impeded, giving time for the deposition of a morbid matter. Headache, dizziness, momentary loss of sight—pain in the side, sinking all-gone sensations, waterbrash, heartburn, sour stomach, belching up of wind, dullness, no disposition to stir around, food does not digest well, aching between the shoulders or under the shoulder-blades in the arms, legs, knees, &c., sickness at the stomach, vomiting, bad taste in the mouth in the morning, hot flashes succeeded by cold chills or shivering, weakness in the kidneys and spine, great debility on exertion, no inclination to work or go from home, nervousness, wakefulness at night, or unpleasant dreams, palpitation of the heart, numbness, wandering and shooting pains with great liability to take cold, are the prevailing symptoms that are produced by a diseased liver.

Our system is not one calculated to debilitate or exhaust the system. We shall make our visits regularly for pain in the arms, legs, knees, &c., throat, heart, nerves, or any other chronic ailment, pronounced incurable or otherwise, are invited to call and ascertain whether the nature of disease and medicine is understood; it will cost nothing to judge in this particular.

We shall make our visits regularly for years, and will be for consultation upon all diseases of the lungs, throat, heart, nerves, blood, etc., on our next visit, at Niles, Bond House, on Saturday and Sunday, September 1st and 2d.

NOT FAIL TO read for your New Year's resolutions. We use a paper in every town to take subscriptions for the "Liberian Exodus" for the year 1877. The price is only one cent per copy. The paper is published weekly, and contains all the news and information of the day. It is a most valuable paper, and one that every one should have. It is published by the "Liberian Exodus Association," and is sent to all who send for it. The price is only one cent per copy. It is a most valuable paper, and one that every one should have. APRILS retail at 80 cents per bushel of the groceries.

A NEW roof is being put on a part of Mrs. Post's house, on Oak street.

OUR town has been well furnished with street music the last week.

THE new roof on Weisgerber's mill is completed and all is in working order.

St. Joseph corporation pays their night watch \$12 for four weeks' services.

Quite a number of our young people are attending the young folks picnic at Berrien Springs today.

O. H. MANNING, of Elkhart, formerly of this place, was here on Monday, calling upon his old friends.

THE Grangers are inviting this week to find out whether they have made any thing the last six months.

QUITE a number went from this county to Potoski, to M. E. Camp Meeting, last week.

CAMP MEETING commences next Tuesday. Secure your teams early if you are going.

QUITE a number in this vicinity are complaining of a general indisposition or ill health.

THE Buchanan Cornet Band is doing considerable practicing lately, and are now playing some pretty good music, well.

WHERE does the smoky appearance of the atmosphere originate? Are there fires in the near vicinity that cause it?

AT one of the late trials of the Fire engine the boys say they sprayed the water 140 feet high. Pretty good for hand work.

A SILK handkerchief was found on the ground at the lawn social, Tuesday evening. The owner may recover the same by calling at this office.

A FIRE company of fifty-one members has been formed in St. Joseph and the village council voted to donate \$25 for an incidental fund.

THE Evening News says: Henry Smith, of Galien, lost four fingers of his right hand by a bolt machine he was attending.

REMEMBER the lawn social to be given by the fire company, at the old school house grounds, to-morrow (Friday) evening.

A GOOD drenching rain would be very acceptable just now. Some kinds of vegetables are very much in need of it.

A NEW sidewalk on the east side of the Tremont House, is among the much needed improvements that have been made this week.

HERBERT when any one sends a drop letter, let them sign their name, and it will sometimes keep those out of trouble who are innocent.

COL. C. H. BRISTOLLO, who claims to belong to the Egyptian army, delivered a temperance lecture in Collins & Weaver's Hall, on Sunday afternoon last.

WHO CAN BEAT IT.—On Friday last Peter Watkins, Jr. living about four miles north of this place, threshed 363 bushels of wheat from nine acres of land. It was of the Polts variety.

A LETTER to Mr. E. M. Plimpton from his son Harry, in Southern Kansas, says preaches a good article selling for fifteen cents per bushel. A little cheaper than they are here.

DID you make up your mind to go to Berrien with the rest of the young folks and have a good time? We learn that our young friend Herbert Smith has been appointed to speak this afternoon.

ELDER JOSHUA V. HIMES, the veteran Advent preacher, is now at his old home in this village, on a visit to his son Walter, and calling upon his many friends. He has been absent about a year, but time seems to have dealt gently with him, so that he appears as hearty and robust as we have ever seen him; in fact he says his health was never better. Mr. Himes is pastor of a congregation at Bridgport, Conn., where he will soon return.

MANNING ROGERS, of Edwardsburg, Cass county, accidentally shot himself through the leg below the knee, making a flesh wound, while cleaning his revolver last week.

LAWN SOCIAL.—There was a lawn social for the benefit of the Buchanan Cornet Band, Tuesday evening. The Band exchequer was enriched to the tune of thirty-six dollars. A very good lift for the boys.

JAMES EARLY, who was arrested in Niles, by the officers of Berrien, for passing counterfeit money, has been held in \$1,000 bail to appear at the next term of U. S. District Court at Grand Rapids.

SOME one who was quite thirsty stole two bottles of Hostetter's Bitters from the shelf in Dodd's drug store, this week. The members of the red ribbon club please arise and explain.

THE State tax apportioned to this county for 1877, is \$27,248.04, in Cass they will pay \$25,500.51 and Van Buren \$18,700.37. The total to be raised by the State is \$1,710,021.30, on an assessed valuation of \$630,000,000.

C. H. BRISTOLLO, who has lectured in this place on Masonry and Temperance, is just now being "gone for" by correspondents in the "Evening News." A communication in yesterday's issue looks rather damaging to that gentleman's claims.

LOST.—A lady's small black leather satchel was lost in the road between this place and the Wagner place, near South Bend, on Sunday, July 29th last. The finder will be paid for his trouble if he will leave the same with the owner, Ira Wagner, or at this office.

A PETITION to the Governor for the pardon of the Miss Madron, who was sent to the House of Correction nearly two years since, has been circulated in this place and sent to the Governor.

THE young ladies of Manistee are said to have resolved to cut the acquaintance of any young man who drinks or swears. If they should do that here each sex would have to "go it alone" to socials, ice cream parties, &c.

THE challenge of the South Bend boys has been accepted by the Laporte boys, and the two companies will run on Dexter Park, Chicago, on the 23rd inst. The stakes are \$800 a side.

WE hear a complaint of a neglect on the part of the Common Council to repair the fence surrounding Oak Ridge Cemetery, the complaining parties saying that hogs and sheep are to the injury of burying on the grounds, and have repeatedly been driven away.

H. N. HATHAWAY, the night hand at the depot in this place, was quite seriously hurt on the head, last evening, by the lever of the semaphore. This morning he was still insensible, and the chances for his recovery could rather poor.

LAST Thursday our "devil" was swayed and set, and in the evening he was surprised to find about all the young folks in town at his home, and the next morning came to work with a fine gold watch in his pocket, a present by his father, as the result. He thinks it not so bad to have a birthday and surprise after all.

THE Pomona Grange will have a picnic in Thomas Merra's grove, near Berrien Centre, to-morrow (Friday). J. J. Woodman, J. Webster Childs, J. T. Cobb and C. L. Whitney have been invited to speak. Go and have a good time.

THERE is a set of youngsters in this town who make a practice of sitting about the side walks and throwing burs into the cloths or hair of passers by. If the Marshal will take pains to look some of these young rascals in the cooler a short time it may do them good.

ANOTHER swindle has come to light in the East called the bed spring swindle, in which the "agent" calls upon the innocent party and bargains for the storage of a given number of spring beds, and induces him to sign a contract to that effect. In a short time another agent comes along and informs him that the beds are at the depot and must be paid for and taken away. The innocent man protests, whereupon he is shown a contract signed by him to take so many beds at a given price, and he takes them according to contract before he gets through with it.

BUCHANAN, Aug. 6, 1877. EDITOR RECORD.—That Insurance Agents should be moderately, is to be expected. Indeed, we should feel very much disappointed if they didn't, even those of them who profess better things. These ordinary lies may pass without comment, but when they lie out of all proportion, it may be well to call them to account. One of this class has been busy telling some egregious lies concerning the conduct of the Berrien County Mutual Fire Insurance Company. It alleges they publish the statement of their own report expenses in the papers here, for home use, while a very different sworn statement is published at Lansing. This is as false as well can be. The Secretary of the Association makes out three statements of their operations precisely alike. One of these he sends to Berrien, one to Lansing (I believe) and the third he keeps in his office. From this last one he copies for the press here, and it agrees exactly with the statement published at headquarters. The current expenses for 1875 were as follows:

Table with 2 columns: Item and Amount. Includes President's salary, Secretary's salary, Directors' salaries, etc.

The same year the Company borrowed some \$600 or \$700 to save the expense of a separate assessment, which, with the expense of printing, stationery, postage, Attorney's fees, Constable's fees, and office rent, amounted to some over \$800 more.

FROM DAYTON. Aug. 7th, 1877. Have another warm biscuit? Now do. Pops & Torney started the great mill yesterday and are going to make nice flour, so we can have warm biscuits for the evening.

Saturday, Aug. 4th, at two o'clock P. M., at the house, Rev. J. E. Barnett delivered the funeral sermon for the youngest child of Wm. Foster, aged three months.

Not long since, Master Will Neal and Barnett Peters, the cobbler, took it into their wise heads that the world at large had more attraction for them than home, but, ere they had journeyed beyond Michigan City, home became a dear word to them. Their folks didn't kill the prodigal when the calves returned but the boys were glad to get home, "just the same."

Mr. and Mrs. S. K. Wilson expect to celebrate the anti-slavery of their wedding day, next Monday, Aug. 13th. Their friends, not a few, have been invited and probably new tin pails, dish pans and a thousand other articles of tin ware will be presented as tokens of love and friendship.

We hope, and believe it is the wish of the people that the Prosecuting Attorney will close Dayton's hell factory before the town is carried back to its old reputation of being the worst burg in the county. If it is not shut up soon we shall not be surprised to hear of a sacrifice being offered to Bacchus in the form of the tremors of a murder. We have heard it stated that these creatures who conduct this enterprise (7) have no license, which will give the Attorney an easy little job.

Is "The Duke" to have a competing quill driver in the person of "X"? If so—so be it. We should like to see half a page of the Record filled up with correspondence. Berrien Springs, Galien, Three Oaks, Hill's Corners, and a score of smaller places, ought to be able to furnish a ink slinger, who might, with a little pains, add to the interest of the now interesting paper.

On Saturday, Aug. 11th, the friends of Miss Laura Oady intend having a picnic in her honor. They will endeavor to make it a pleasant farewell party, one which Miss Oady will remember with pleasure in years to come, when she has reached her Humboldt home. In behalf of her many friends, I would say that she will be badly missed when we hear her voice no more, and we hope she may find a model home and many true and pleasant friends in Kansas.

"O, what shall we do, my friend, for the coming year, the days are long, When our paths, which now so sweetly blend, Shall lie so far asunder. And now will be the wish, In the weary world out West: Will you there exchange old friends for new, And think your Kansas home the best?"

THE COUNTY PRESS. [Niles Mirror.] Hogs are dying in various parts of the country, from hog cholera. B. Jarvis lost a few fine ones last week. A daughter of John House, resident two miles west of Bertrand, fell from a scaffold in the barn to the floor, and struck on her head, injuring it severely, besides both of her arms.

Proceedings of the Common Council of the Village of Buchanan. A regular meeting of the Common Council of the Village of Buchanan, held at the Common Council room, in Engine House No. 1, on Friday evening, July 6, 1877.

Table with 2 columns: Name and Amount. Lists names of council members and their respective amounts.

By Mr. Moore, supported by Mr. Hamilton, that the bills reported correct by the Committee on Finance and Claims be adopted, and the Recorder directed to draw the proper orders on the Village Treasurer for the several amounts therein specified.

By Mr. Moore, supported by Mr. Hamilton, that the sum of \$26 be allowed to the Marshal for two scrapers for the Village.

A regular meeting of the Common Council of the Village of Buchanan was held at the Common Council room, in Engine House No. 1, on Friday evening, July 27, 1877.

By Mr. Moore, supported by Mr. Hamilton, that the bills reported correct by the Committee on Finance and Claims be adopted, and the Recorder directed to draw the proper orders on the Village Treasurer for the several amounts therein specified.

By Mr. Moore, supported by Mr. Hamilton, that the bills reported correct by the Committee on Finance and Claims be adopted, and the Recorder directed to draw the proper orders on the Village Treasurer for the several amounts therein specified.

By Mr. Moore, supported by Mr. Hamilton, that the bills reported correct by the Committee on Finance and Claims be adopted, and the Recorder directed to draw the proper orders on the Village Treasurer for the several amounts therein specified.

Judge Drummond, of the U. S. court for the district of Illinois, on Tuesday sentenced a ring-leader in the recent mob to four months' imprisonment and seven others to two months each, besides \$50 fine for each rioter. They had stopped business on a road which is in the hands of a receiver appointed by an officer of the U. S. court, thus butting their heads against Uncle Sam's authority. Judge Drummond declared it unlawful and criminal to trample upon the rights of labor by violently interfering with any persons who wished to work for any employer.

Destroyers fire are reported in the pines near Bradford lake, on the Mackinac division of the Michigan Central railroad, north of Saginaw. Considerable valuable timber has been destroyed. Heavy fires are also burning in Otsego county and also near Muskegon.

The Last Hymn. Messrs. J. S. White & Co., music publishers, Marshall, Mich., have laid on our table a copy of their last publication, entitled The Last Hymn. It is a song descriptive of the wrecking of a ship on the coast of Wales. The first order secured was from an agent of the American Bible Society for 1,000 copies. The publishers will send it to any address, postpaid, on receipt of the price, 35 cents.

A Result of Obstructed Digestion. Among the hurtful consequences of obstructed digestion, is the impoverishment of the blood, and hence a defective condition of the fluid not only produces dangerous organic weakness, but, according to the best medical authorities, sometimes causes asphyxia. It is apparent that to improve the quality of the blood by promoting digestion and assimilation, is a wise precaution. The stomachic Bitters in precisely the remedy for this purpose, since it stimulates the gastric juices, conquers those bilious and evacuating irregularities which interfere with the digestive processes, promotes assimilation of the food by the blood, and purifies as well as enriches it. The sign of improvement in health in consequence of using the Bitters are speedily apparent in an accession of vigor, a gain in bodily substance, and a regular and active performance of every physical function.

WANTED.—200 men to walk into C. H. Rea's shop and pay from 25 cents to \$50 each. It has been due for a long time.

BEE.—I will sell one or twenty swarms of bees, in good movable frame hives, cheap for cash. 26w4 Wm. A. Vincent.

50 dozen of these beautiful five cent coaches, just received at C. H. Rea's. Take your boots, shoes and harness to C. H. Rea if you want a good job of repairing done. This is the place to get your fine boots made, for Mr. Wm. Powers is the man to do it.

Down! Down! Down They Go! Bottom reached at last at High's, in dress goods, shawls, cloths and cottonades, only at High's.

NOTICE.—All persons indebted to Redden & Graham will please call and settle their accounts. This is the last call. REDDEN & GRAHAM.

NOTICE.—Any person wanting CHELSEA BROOK can now be supplied, as we have on hand a supply of good ones. BLODGETT & SONS.

New York City prices on table linen, cravats, towels, ticking and oil cloths, at the One Price Store of H. H. H. H.

Summer Pants, Summer Coats, Straw Hats, and all light weight suits at cost, at L. P. & G. W. Fox's, for the next 80 days.

MISS EM. MERRAD has removed to rooms over S. P. & C. C. High's store, foot of Main street, where she will attend to all kinds of work in the line of dressmaking.

Lowest prices in Buchanan on Crocker, at S. & W. W. SMITH'S.

Mr. O. D. Carlisle painted the double granary for Curtis Lamb on the Terre Coupe Prairie. The work gives good satisfaction. Any one having any such work to do will find it to their advantage to give Mr. Carlisle a call.

During the next thirty days we wish to close out all of our broken lots of boots, shoes, and summer clothing. G. W. NOBLE.

Great Excitement!!—10,000 men killed in one day! Nevertheless we are sole agents for the sale of the celebrated Laporte and Gosbon flannels in Buchanan. These flannels are shrunken on the grass and will not shrink when washed. They were brought early in the spring and will be sold at the lowest figure possible. In comparison we are agents for the "Beaver Dam" and "Hanover" goods, which are the best in the market, and defy competition. T. M. FULTON & Co.

LITTLE'S LIVING AGE. The numbers ending July 25, and August 4, respectively, have the following noteworthy contents: George Sand; Matthew Arnold; Fortnight Review; The Moon Dead; Cynical; Pascal and Montaigne; by the late Prof. Grote; Contemporary; The Egyptian Campaign in Abyssinia, from the notes of a staff-officer, Blackwood; The Little Old Man of the Baignolles, a chapter from a Detective's Memories, translated for The Living Age, by the French of Emile Gabourin; The Planet of War, Cornhill; Miss Mary Carpenter, Spectator; Notes on the Geographical Distribution of Animals, Popular Science Review; Japanese Children, Spectator; Parliament, Saturday Review, etc., together with instalments of "Carita," by Mrs. Oliphant; "Pauline," by the author of "Mr. Smith's" from advance sheets, "Green Pastures and Piccadilly," by Wm. Black; the conclusion of "The Marquis of Lousie," by Geo. MacDonald, and choice poetry and miscellany.

A new volume of this standard eclectic began July 1st. For fifty-two numbers of sixty-four large pages each (or more than 3,000 pages a year), the subscription price (\$5) is low; while for \$10.50 the publishers offer to send any one of the American \$4 monthlies or weeklies with The Living Age for a year, both postpaid. Little & Gay, Boston, are the publishers.

The Atchison, Topeka & Santa Fe Railroad has arranged with the various railroad lines in the country for special round trip rates to the Rocky Mountains, and has secured the following rates to Denver, Colorado Springs, Canon City, Pueblo and return: from Kansas City and Atchison, \$45; Quincy, \$50; Chicago, \$65; Quincy, \$50; Cincinnati, \$65; Buffalo, \$75, and correspondingly low rates from all points east, north and south. These tickets are good for ninety days and to stop at all stations west of the Missouri river. Tickets are on sale at all principal stations throughout the country. This is the new route to Denver through the heart of Kansas and Colorado. Send for maps, circulars, time tables, etc., to T. J. ANDERSON, Gen. Pass. Agent, TOPEKA, KAN.

Nervous Debility, VITAL WEAKNESS OR DEPRESSION; a weak exhausted feeling, no energy or courage; the result of MENTAL OVER-EXERCISE, INDISCRETIONS OR EXCESSES, or some drain upon the system, is always cured by FARRAR'S HOMEOPATHIC SPECIFIC NO. 25. It tones up and invigorates the system, dispels the gloom and despondency, restores strength and energy, restores the drain and renews the entire man. Been used twenty years with perfect success by thousands. Sold by dealers. Price, \$1.00 per single vial, or \$5.00 per package of five vials, and \$2.00 vial of postage.

LETTER HEADS, NOTY HEADS, ETC.—We make a specialty of this class of work, and claim we cannot be beat, either in quality of work or prices. Come and see us when you want work of this description, and we will guarantee to give you complete satisfaction.

WOODS' GREAT PEPPERMINT CURE, give it a trial; then if you are not perfectly satisfied, return the bottle, and we will refund the price paid. It has established the fact that Consumption can be cured, while for Coughs, Hoarseness, Asthma, Whooping Cough, and all Lung or Throat troubles, there is nothing like it for a quick and positive cure, and at half price. 10 per bottle, 50 cents, and \$1.00 per bottle. If your lungs are sore, or Chest or Back lame, use SMITH'S PLEASANT PLEASANT, Price 50 cents. Sold by J. H. Roe & Co.

THE NEW WHEELER & WILSON Family Sewing Machine, No. 8.

Almost every day the papers chronicle the suicide of some poor unfortunate whose mind has been enfeebled by dyspepsia, over whose earthly horizon a heavy gloom has gathered from the untold and untellable agonies of this cruel complaint. Dyspepsia is one of the most depressing diseases afflicting humanity. It is cosmopolitan in its nature—no country is exempt from its visitations, no family free from its attacks. There is a balm in Gilead; it comes in the shape of PERUVIAN SYRUP. For years it has been scattering its blessings abroad. There is, probably, no disease which experience has so amply proved to be remediable by the PERUVIAN SYRUP as Dyspepsia. The most inveterate forms of this disease have been completely cured by this medicine, as ample testimony of many of our first citizens prove.

Farm and Household.

Economy in the Kitchen. The French butcher separates the bones from the steaks, and places them where they will do the most good. The housewife orders just enough for each person, and no more.

Keeping Roses in Bloom. As soon as they have formed their first flowers in the open ground, pinch off the end of the first shoot, and as soon as the rose is fully opened, pick it off. No rose should be left to exhaust the plant in the formation of seed.

Speaking of starching and ironing, the Michigan Farmer says: First, have the clothes well washed and well wrung out, and laid in your clothes-basket. Then make your starch-cook it until very thick; to every quart of boiled starch put in one teaspoonful of white sugar.

When marble is ironed, it can usually be removed by rubbing it with lemon juice. Almost all the other stains may be taken off by mixing one ounce of finely powdered chalk with one ounce of water and one ounce of common soda.

Give them Ashes.—Where fowls are confined in considerable numbers to a restricted enclosure, they should have a good supply of wood ashes to wallow in.

A piece of flannel is better to wash the face with than a sponge. The slight roughness cleanses the pores of the skin, and prevents those little black specks which so many people complain of, and try every remedy but the right one (soap and water and a rough towel) to cure.

A good soft dressing for the hair is thus made: Take a sufficient quantity of fresh butter and filter it through tissue or fine letter paper, and then cut with alcohol. It can be used with any essence that is liked.

MORTGAGE SALE.

DEFAULT having been made in the payment of a certain sum of money secured to be paid by an indenture of mortgage, bearing date the 1st day of March, 1876, between the said mortgagee and the said mortgagor, the said mortgagee, in pursuance of the power therein contained, has caused the same to be advertised for sale at public auction, to be held at the office of the Register of Deeds of the County of Berrien, Michigan, on the 15th day of August, 1877, at 10 o'clock A. M.

Notice in Chancery.

STATE OF MICHIGAN, Second Judicial Circuit, in Chancery.—The Clerk of the County of Berrien, Michigan, do hereby certify that the following is a true and correct copy of the petition filed in said court, to wit: The petition of James L. Leedes, Judge of Probate, in and for the County of Berrien, Michigan, against the estate of James L. Watson, deceased.

THE MILD POWER OF CROSS'S SPECIFICS.

Never wash mirrors with a cloth; but after removing all dust from the mirror and frame with an old silk handkerchief or feather duster, dampen an old newspaper and rub the surface of the mirror till perfectly clear and free from spots; then wipe off all the moisture with a dry paper, and the mirror will be as clear as glass can be.

A cooling drink.—To one-half an ounce of cream tartar, add one ounce of loaf sugar, and a bit of orange lemon-juice; put these in a jug, put upon them a quart of boiling water; stir all together, and allow the beverage to become cold.

A good soft dressing for the hair is thus made: Take a sufficient quantity of fresh butter and filter it through tissue or fine letter paper, and then cut with alcohol. It can be used with any essence that is liked.

MANY WHO ARE SUFFERING

from the effects of the warm weather and debilitated, are advised by physicians to take moderate amounts of whisky two or three times during the day. In a little while those who adopt this advice frequently increase the number of "barrels" and in time become corpulent. A beverage which will not create thirst for intoxicating liquors, and which is intended especially for the relief of debilitated persons, who are unable to take whisky, is Dr. V. Clarence Price's VEGETINE. This valuable natural production contains iron and well-known to medical men have a most strengthening influence. A single bottle of the Vegetine will demonstrate its valuable qualities. For details relating to this medicine, see our circular or write to the proprietor, Dr. V. Clarence Price, 1011 West Jefferson Street, St. Louis, Mo.

Phunygrams.

"Oh, dear," said she, sweeping away with her broom, "what shall I do? Here it is eleven o'clock and I haven't this room swept, the beds are yet to be washed. Oh, dear, as ever woman so much pressed for time as I am!" Then she suddenly stopped, looked upon her broom, and listened for a half hour trying to catch the points of a quarrel which was going on between a married couple in the next door house. The study of feminine character is a hard one.—Philadelphia Bulletin.

A gentleman traveling in Ohio some time ago turned in at a country tavern for dinner. The bar-room was garnished with dirty wash-basin, a piece of soap the size of a lozenge, and a square yard of crumpled visible through epidemic despoils. Having slightly washed, the traveler eyed the proprietor doubtfully, and then asked the proprietor, "Haven't you air, about the premises, a this year's towel?"—National Baptist.

A man was arrested in Buffalo last week for stealing a barrel of salt. "You couldn't eat salt," said the judge. "Oh, yes I could, with the most I intend to steal." "This really cost him six months." The judge had no appreciation of delicate humor.

Three-year-old happened to have a want to be attended to just as his mother was busy with the baby. "Go away; I can't be bothered with you now." "What did you have so many children for if you can't bother with 'em?" he unexpectedly inquired.

Stanley Matthews is a man who never despairs. He paid twenty-five cents the other day for an old blind hen, and has set her on the Cardiff girt, and swears that he will keep her there until she hatches out the old wing party, if it takes a thousand years and kills the hen.—Lawrence.

A county editor gives the following case of absence of mind: "A girl who was one of our first loves was one night lighting us out, after having passed a delightful evening. In bashful trepidation she blew us out, and drew the candle behind the door and kissed it."

A teacher, after reading to her scholars the story of a generous child, asked them what generosity was. A little fellow raised his hand and said, "I know it's giving to others what you don't want yourself."

On a grave-stone at South Seabrook, Massachusetts, is the following inscription: "Be she dead—are she gone—is I left here all alone—yes I is, cruel fate, how unkind to take she and leave I behind!"

The Sultan is unaccountably teaching the little Sultans the following nursery rhyme: "Too Dan U, Too Dan U, TOO DAN U, TOO DAN (much) for me."

"Yes," said the old reprobate, "I always recognize water when I see it—it looks just like gin."

A Connecticut man advertises himself as a "temperance bootmaker." Which means, we suppose, that when his boots prove too tight, he will reform them.

British butchers are as mad as hornets over the arrival of American beef, but still their customers continue to remark, "Bill take another steak hoff that American hox."

"No, pa," she said, tearfully, "I renounce Theodore forever, and I will never marry him. I saw him in the regatta when he had no shirt on, and I'll never marry a man with a wart on his back."

A western paper, in describing an accident, says, with much candor: "Dr. Jones was called, and under his his prompt and skillful treatment the young man died on Wednesday night."

"Porter!" asked an old lady of an Irish railroad porter, "when does the nine o'clock train leave?" "Sixty minutes past eight, mum!" was Mike's reply.

Only one person in ten in Rhode Island is engaged in agriculture, and he digs his beets with a corkscrew so as not to disturb the soil of Massachusetts and Connecticut.

A dealer in ready made linen advertises his shirts and chemise under the mellifluous appellation of "male and female envelopes."

A Baltimore belle, just from Vassar College, when told by a waiter in a restaurant that he had no gooseberries, exclaimed: "What has happened to the goose?" The waiter wiled.

A subscriber to a moral reform paper called at the Chicago post office the other day, and inquired if the Friend of Virtue had come. "No," replied the post-master, "there has been no such person here since strike commenced."

These portions of the body which are supposed to be the best travelers are the two wrists.

An Iowa couple boast of their thirty-second baby.
