her with anything but pleasure. In fact he was mad with jealousy, and the opportunity only was wanting for his pent-up passion to break forth into a torrent of hatred and vengeance.

However, he had so managed to govern his actions that no one dreamed of the fierce mental conflict which was racking his brain.

Affairs were at this state—Miss Mabel openly received the attention of Heywood, while her father and brother, the supercargo, were silently working to bring about a different result, and Gregg still trying to win her from his rival, his passion growing fiercer and fiercer as the case grew more hopeless, till plans for revengeful triumph went flitting through his brain, ready to be tried in case fair means should fail—when an accident occurred which tended to bring about an estrangement between the captain and his daughter's love.

It had been the aim of the unscrupulous Gregg, from the first, to bring about a quarrel between the captain, or his son Lewis and Heywood. Thus he was continually embittering the minds of both against the young mate, until at last his object was accomplished.

Heywood and young Stanford had an open quarrel brought about by the machinations of the first mate, who had caused the hot-headed supercargo to accuse the other of stealing a ring, he had mysteriously lost, which of course quickly aroused the temper of the latter, when a hot discussion followed, that would have no doubt ended in blows if some of the crew had not interfered.

The sympathies of the captain in this quarrel were with his son, and those of Mabel with her lover, whom she did not consider at all to blame.

It was not far from the middle of the night following the quarrel between Heywood and Stanford, and save the gentle moaning of the wind through the rigging and the rippling of the water as the ship ploughed on her course, all was silent as death, when the helmsman, peering out with straining eyes into the impenetrable gloom of the black expanse beyond, was suddenly aroused from the drowsiness that was stealing over him, by hearing a cry for help, and then a splash in the water from off the lee bow.

He quickly turned to ask the supercargo, who but a moment before had been standing by his side, the cause of the noise, when he saw that the young man was gone.

Then the truth instantly flashed through his mind, and he shouted in a startling excited tone—

"Man overboard!"

It seemed but an instant from the giving of the alarm, before the captain and crew were on deck, and the lights were quickly brought, rushed to the place where the helmsman had heard the cry, when to their surprise they discovered the second mate, a wild and haggard look upon his face, holding in his hand a heavy, murderous-looking club.

"What means this?" thundered the skipper, as thoughts of foul play flashed upon his brain.

But amazed and startled, Heywood was silent.

"Who is he?" cried the captain in the next instant.

But before any one had time to answer him his own eye told him.

"My God! 'tis Lewis! and that red-headed villain has murdered him. Quick, men! hoist all the lights and man the boats! Let everything be done that can be, as quickly as possible. He may be living, and if you save him this shall be a good night's job for you. Work, work for your lives!"

The orders of the grief-stricken captain were readily obeyed. But, though lights were hoisted, and boats sent out in every direction, nothing could be found of the lost one. So at last it was given up as a hopeless case; and the men returned to the ship, when Frank Heywood was seized for the murder of Lewis Stanford.

On the morning, a few days later, Gregg was missing, and as no trace of him could be found, it was supposed that he must have got upon the deck during the night, when, unseen and unheard, he had thrown himself into the sea; that to escape the punishment of the crew, on charge of willful murder.

Nothing seemed lacking to substantiate his guilt. His quarrel with young Stanford, and the circumstances under which he had been found after the alarm, together with his appearance at the time, seemed sufficient to prove his guilt.

Yet, he stoutly protested his innocence, saying, in explanation of his conduct, that he had harbored no ill feelings against Lewis, but had been ready to forgive and be forgiven.

As to his being found with the murderous-looking club in his hands, it was an accident. Feeling a little anxious about the weather, he had left his bunk to go upon deck, and was just in season to hear the cry which had caused the alarm.

Hastening to the spot he stumbled over something in his path. It was the club he had in his hands when they discovered him a few moments later with the wild look on his face, caused by the fear that some horrible crime had been committed.

Heywood's story was received with shouts of derision. The circumstantial evidence was too overwhelming against him; for any one to have the least suspicion that he, seemingly inconsistent story was anything but a fabrication gotten up for the occasion.

As soon as order could be restored, the captain stepped forward with a pair of manacles, and placing them upon the doomed man's wrists said: "Before God and man, Frank Heywood believes you guilty of murdering my son? Therefore, I accuse you in iron, and order that you be kept in close confinement until we reach port, when you shall be delivered over to the proper authorities to meet the punishment you so richly deserve."

"Here," he added, turning to the crew, "some of you take Mr. Heywood below."

"Oh, father, don't!" cried Mabel, who had been a silent spectator to the terrible scene. "He did not do it! I know he did not!"

"Tut, tut, girl, no more of this!" said her father, sternly. "Men, do your duty!"

A couple of the sailors stepped up to obey their superior's orders, when, with a low cry, Mabel sprang forward between them, and her lover, as to shield him from their grasp, rudely snatched his daughter away.

Heywood, chancing to look up, caught sight of the mate, Warren Gregg, standing but a short distance off, an exultant look of fiendish satisfaction gleaming in his usually expressionless eyes.

It was plainly a look of scornful triumph, and as the sailors placed their hands upon his shoulders, the young man fully realized the peril of his situation, and from what source it was due. But further thought or action was suddenly stayed by a loud cry from the sea, off the lee bow.

The next instant there was plainly heard in a strangely familiar voice, the startling words, thrice repeated: "All a lie! All a lie! All a lie!"

Scarcely had the intonation of the words died away, and before the surprised and startled crew had had time to recover from the shock of the unexpected and mysterious warning, when again the same voice, sounding so much like the dead, was heard, giving this time the surprising expression: "Twas Warren Gregg! 'Twas Warren Gregg!"

To attempt to portray the astonishment and startled amazement of the officers and crew would be a failure. Their actions were beyond description.

One and all stood in blank astonishment, and staring, unconsciously perhaps, upon the first mate, who, like the guilty wretch he was, trembled from head to foot, a deathly pallor overspreading his features, until maddened to desperation by the terrible accusation of the mysterious, unseen accuser, his pent-up guilt, which he could hold no longer, burst forth into a wild, frenzied cry: "Who dares to accuse me?"

"The quick eye of Heywood, if no other, saw the guilt Gregg so plainly showed, and prompted by self-interest, he exclaimed: "I do!"

"Liar!" hissed the trembling wretch, and then, with a terrible oath, he bounded upon him, murrer written in his every look and action. But the sailors quickly interposed, when he turned upon them, and a fierce struggle ensued.

"Secure him!" cried the skipper, as soon as the crew had succeeded in overpowering him. "We will keep both in irons and wait further developments."

Though everything was done that could be to ascertain those strange cries from the sea, the day passed without solving the mystery, and the superstitious sailors all believed that the dead had spoken. And their belief was strengthened when there was heard at different intervals the following night, the same voice, only more sad and mournful, saying this time: "Warren Gregg, a murderer! a murderer! a murderer!"

The next morning Gregg called the captain below, to whom he made a full confession of his crime, saying he had killed Lewis, mistaking him for young Heywood; and then, upon his bended knees, the guilty wretch begged for mercy.

The only reply he received was to wait until he had reached port. Gregg's confession clearing Heywood of all guilt, he was freed at once; and partly to atone for the injustice he had done him, the captain gave him the berth of first officer.

On the morning, a few days later, Gregg was missing, and as no trace of him could be found, it was supposed that he must have got upon the deck during the night, when, unseen and unheard, he had thrown himself into the sea; that to escape the punishment of the crew, on charge of willful murder.

Forty Years Before Drinks.

A Keokuk tourist, who was waiting at St. Joseph for the train for Quincy, the other day, while pacing the platform, was accosted by an old gentleman, and the two entered into conversation.

In the course of the conversation, our Keokuk man ascertained that the stranger was a minister of the gospel, and, like himself, was bound for Quincy. They sat in the same seat in the car, and after they had traveled some distance the Keokuk tourist pulled out a flask from his pocket, and turning to his companion, remarked:

"I never drink when I am at home, but when I am on the road, constantly drinking all kinds of water, I take a little for the stomach's sake," and, taking a moderate drink, offered the flask to the minister.

"My friend," said the preacher, "I am a minister of the gospel, and have been for forty years. In all that time a drop of liquor has not touched my lips, but—as you seem to be a gentleman, and considering the surroundings—I will take a drop or two," and placing the flask to his mouth he swallowed about half the contents. They had proceeded but a mile, and the reverend gentleman was warming up.

"My brother, I'm a preacher, and haven't drank a drop of liquor for forty years, but I have a pain, and if you will let me have a drink from your flask I think it will do me good."

The flask was passed and half of the remaining contents was taken. The divine began to feel good. He was talkative and exhilarated. As the train pulled up at the station, he reached over, and taking the flask from the seat, remarked:

"Shee, my fren, forty ministry. Never drunker-drop-hic-drop. Water bad. Makes me hic sick, and take a little for stomach hick sake," and he heeled over and slept till the train reached Quincy.—Keokuk Constitution.

Waiting Girls of Nevada.

While perusing a little volume on waiting, lately published in San Francisco, the different styles of waiting indulged in by our Western girls were called to mind.

There are waiters and waitresses. With some it is about as awkward a performance as can well be imagined; with others it is a natural and graceful movement—in fact, the very poetry of motion. An Austin girl's waiting is easy, graceful and "melodious." If she is from Carlin she throws her hair back, jumps up and cracks her heels together, carries off her astonished partner as though a Washoe zephyr had struck him and knocks over all obstacles in her mad career.

A Tuscarora girl crooks her body in the middle like a door hinge, takes her pard by the shoulder and makes him miserable in trying to hop around her without treading on her No. 9 shoes. A Carson girl will now and then work in a touch of the double shuffle or a bit of pigeon-wing.

A Winnemucca girl—yum, yum!—creeps closely and timidly up to her partner, as if afraid to get into his pocket, and melts away with ecstasy as the strains of the "Blue Danube" sweep through the hall. An Elko girl is a natural waltzer and does it with an abandon that is charming. A Virginia City girl throws both her arms around his neck, rolls up her eyes, and as she floats away she is heard to murmur, "Oh, hug me, John!"—Elko, Nev., Post.

How They Die in Bulgaria.

When the head of a Bulgarian family perceives that he is about to die, he sends for the priest and begins to bargain with him about the cost of his funeral. The moment he dies, all the pots, pans and kettles in the house are turned upside down to prevent his soul taking refuge in any one of them, and great care is taken to prevent either man or animal—especially a cat or dog—from stepping across his body, as he would, in the opinion of his family, be otherwise turned into a vampire, and be a continual nuisance to them and to their neighbors.

The body buried without any coffin, in a shallow grave, and left there for three years, during which time many offerings of food and wine are placed upon it. At the end of the third year the bones of the dead man are dug up, carefully washed, put into a linen bag, laid before the altar in the village church, and, after receiving the blessing of the priest, are finally buried for good.

MISS EM. MEAD has moved her dressmaking shop to rooms over Kinyon's grocery, where she will continue the business.

MR. JORDAN exhibits some very fine specimens of lead ore taken from a mine in Kansas, and brought home by him.

FRANK PHILLIPS, an employe in Spencer & Barnes' shop had two of his fingers cut nearly off on a jointer, while at work, last Monday.

SID. WOLCOT returned from the Black Hills last Friday. He has a good string of frontier stories to tell the boys.

MISS SARAH BLACK has been engaged to teach the Dayton school the coming winter, to commence next Monday.

NEXT Thursday the fate of turkey will be decided. If he doesn't get his head chopped off, then he may continue to gobble until Christmas.

THE sale of horses at Batchelor's livery barn, will commence at 10 o'clock, A. M. Don't fail to be on hand.

MR. AND MRS. JOHN GYER will celebrate the twenty-fifth anniversary of their wedding day to-morrow evening. Are you invited?

THE Bay City Growler once more grows in some places. In others they have enough immorality and will not allow such a teacher to circulate.

GEORGE DALRYMPLE had the fingers of his right hand badly smashed while trying to remove the cylinder from a shaping machine, in the wagon factory, on Tuesday last.

MR. HENRY JOHNSON has removed his residence, and now holds forth in what is known as the Dumbleton house on Portage street. He still runs the dray.

AL. O. HOWE was in town over Sunday for a short visit. He is in the employ of the Woodruff Sleeping Car Company, on a run from Cleveland to St. Louis.

POTATO RAISERS are now making the best of their time to get their crop off their hands while the good weather holds out.

WESLEY MARTIN, of Dayton, says "This nice to be a father of a bouncing baby boy!" He has been able to speak from experience in this matter since Tuesday.

THERE was a rather lively fight in town, Saturday evening. It started by both parties getting too much poor whisky aboard. They both whipped.

I. N. BATCHELOR will sell off his livery stock next Saturday at public auction. This will be a good time to buy a horse, or a good buggy, or carriage.

A NEW roof and other improvements are being put upon the "Collins" house, on Front street. It is to be occupied by Mrs. Ford, from Berrien Springs, as a boarding house.

JOHN FISNER, a German, died yesterday morning at his home, about two miles north of Dayton, after a sickness of about one week. His sickness was lung fever.

THE KNOXVILLE, Tenn., Chronicle, of Nov. 18, contains an article not very complimentary to Mr. Copeland, of this place. They seem to be acquainted with him.

GOVERNOR CROSSWELL has seconded the President's motion to appoint Thursday, Nov. 29th, as a day of thanksgiving and prayer. His proclamation may be found in another column.

JOHN WILLARD died last Friday evening, after an illness of but a few hours, having been at work during the forenoon of that day. Inflammation of the bowels was the fatal disease.

A six-year-old son of Edward Hans, of New Buffalo, was instantly killed by being shot through the head by a gun with which he was playing. Another case of carelessness.

GEORGE MUNSON says we are mistaken about his being satisfied to stay in Buchanan, but that if he can dispose of his property here he will move to Kansas instanter. Sorry, for we like to have such men as he stay here.

THE furniture manufacturers of this place must be doing a rushing business, judging from the amount of this merchandise that may be found at the depot at any time now.

OUR representative in Congress is endeavoring to get a bill through, making an appropriation for the improvement of the St. Joseph river, and the St. Joseph and Berrien people are jubilant over the prospect.

N. O. FANSLER received a tame black bear by express, yesterday morning, from one of his employes in the north part of the State. He is in about the same predicament as the man who drew an elephant in a lottery.

MR. J. HIRONS sends us by Mr. George Munson, a handful of peanuts, raised by him on his farm in Kansas. They were of good quality and large. Mr. Munson says they do well in that country, and that Mr. H. intends raising them more extensively in the future, he having but a few this year.

It seems the Niles people are going to succeed in getting up a course of lectures by their home talent, to the exclusion of that from abroad, the coming winter. The proposition was made by the Republican, which is another good idea.

THE local editor of the South Bend Herald has turned pedagogue once more, having taken charge of the New Carlisle school for a short time. This is Dally's old profession and he is said to have been pretty good at it, too.

THE Michigan Central Company have agreed to build a sidewalk in Dayton, leading from the bridge to the stores. This is the portion that was intended to raise a fund for. The fund may now be applied in some other part of the city, for there are others in nearly as bad a condition.

TRAVELING SALESMEN do not appear so plenty on our streets as formerly. This we can charge to the absence of a hotel of any kind in the place. How long this state of things is to continue is hard to tell, but we hope not long.

Remaining in the Post Office at Buchanan, Wednesday, Nov. 21st, 1877. Payne, John H., Rolles, Alameda. This list is published here for the information of the readers of the Record, therefore there is no charge for delivery of letters advertised herein. Persons will, however, in claiming any of the above, call for "advertised letters."

MR. N. H. MERRILL has found there is many a slip between a fortune in Kansas and the expectant s-aker. Through some misunderstanding, he failed to get possession of the lot of land he had in view and he is still unsettled. He does not write in such glowing terms of the place as when he first arrived there. Unless his estimation of that country is considerably lowered yet, he will make that his future home.

SHP. CANAL.—The question of building a ship canal across this State is being agitated once more. About a year or more since, there was considerable cheap talk done toward building this canal, and at one time went so far as to survey various routes, and finally deciding upon the valley of the St. Joseph as the most accessible. A meeting has been called at Allegan, of the citizens of that place, Sangautok, Battle Creek, and other places on a line proposed for that section, to-morrow, for the purpose of again bringing to life the ship canal, and by hard work get it in their vicinity.

THE Michigan Central locomotive works at Jackson now claim the laurels on fast work. One day last week two gangs, of fourteen men each, put together and had in motion two locomotives in two hours and fifty-five minutes, a work that usually takes the same amount of force in other places nine days to two weeks. The locomotive was then run to Detroit, a distance of 76 miles, without heating a journal or needing any changing in any way.

Flannels from Goshen and Laporte cheaper than the cheapest, at M. H. Noble's.

THERE will be a Thanksgiving dance in Young's Hall, in Dayton, next Thursday night. The proceeds will be applied to the purpose of building new sidewalks in that place. Seidmors & Powers' Quadrille Band will furnish the music. This, with what aid the railroad company has proposed to give, ought to materially improve the condition of their now dangerous walks. Let everybody go and dance, whether dancers or not.

To those who are having so much sport about the bills, advertising the sale of the Michael Hand property, we would say they were not printed in this office. We advise our townsmen to keep an eye on the butchers, however, to see that they do not get any of those 62-year old steers or 42-year old heifers for beef. There is a 12-hour cultivator advertised that may be of use to some man who owns a large farm.

The natural, and therefore the most holy impulses of our nature, no less than the highest and best interests of society, as well as of the individual, require a union of the sexes. In compliance with these promptings of our nature, and in obedience to the requirements of society, and for the promotion of our own natural happiness, I have chosen you (naming the bride) to be my life companion, in accordance with and in compliance to the laws of the State of (naming the State).

I promise, in the presence of these witnesses, to be to you a kind, faithful, and true husband, to protect and cherish you in sickness, as well as in health; in adversity as well as in prosperity; to bear and forbear with your imperfections; and never to seek my own pleasure at the expense of yours.

I love you now, and trust that the qualities and virtues on which that love is based will always continue, as now, to excite and compel it.

I promise to regard you as my equal in every respect—never to claim anything from you as a legal right, and to seek from you only that which your love and sense of duty induces you to freely give.

With this declaration on my part, will you (naming the bride) accept me as your husband and life-partner? Yes (naming the bridegroom, and taking his right hand in her left) I accept your offer, and will be your wedded mate, and I promise to do and to be to you all that you have promised to do and to be to me.

THE COUNTY PRESS. (St. Joseph Republican.) An unknown man was found lying on the railroad track drunk, a short distance South of here, the other day. He was discovered and removed just in time, for had he laid there much longer the way freight would have put an end to his earthly existence.

[Niles Republican.] Mattie, a little daughter of Col. D. Bacon, while playing last Saturday, fell down and broke one of the bones of her left forearm, causing quite a painful injury. She had a child in her arms at the time, and in her efforts to save the child, met with the misfortune mentioned.

[Berrien Springs Bra.] The Messenger is reported to have made about \$20,000 clear, so far this season. Rev. Mr. Hoyt's little boy, on hearing the chimney-sweep's choral note the other morning, excitedly exclaimed, "Where is he? I want to see him. On being asked who he wanted to see, he replied, "Elder Robinson. That's him—I know his voice." A subscription paper is in circulation in Niles, asking for money to defray expenses of the removal of the county seat.

[Three Oaks Independent.] A most excruciating accident occurred on Monday resulting in the death of a girl. A Mr. Van Horn, living about two miles east of Drew's corners left a child four years of age in the house alone, while he went to work in the field near by. The child attempted to build a fire, when her clothing caught and enveloped her in flames. Her screams were heard by her father, but ere he could reach her she was so badly burned that it was impossible for her to survive.

[Niles Mirror.] Geo. W. Rough, one of a party who went to Kankakee for a hunt last week, got 80 ducks and a grey eagle that measured 7 feet and 8 inches from tip to tip of wings. A base attempt was made to blow up the gas works on Saturday night last, by setting fire to the drip pipe, within two or three feet of the gasometer. It would soon have exploded had it not been extinguished.

Locals. Renovation, not Prostration. Did any enfeebled human being ever become strong under the operation of powerful cathartics or salivators? It is sometimes necessary to regulate the bowels, but that cannot be done by active purgation, which exhausts the vital forces and serves no good purpose whatever. The only true way to promote health and vigor, which are essential to regularity of the organic functions, is to invigorate, disperse, tonic and corrective. It has no equals, moreover, as a preventive of chills and fever, and other types of malarial disease. To emigrants and travelers it is particularly serviceable as a medicinal safeguard.

MARRIED.—At the residence of the bride's parents, on Monday, November 12th, Mr. Robert Covey to Miss Anna Beach, all of Berrien county.

This marriage was a little out of the usual custom, in that there was no officiating clergyman or Justice present, but the couple married themselves. The form used was that adopted by "Liberals" in the other parts of the country, and is sometimes used by the Friends or Quakers. It is the following: "That 'it is not good for man to be alone' is a conclusion sanctioned alike by reason, experience and the nature and fitness of things.

Farm and Household.

Useful Recipes. American Cream for Dessert.—Put one box of Cox's gelatine in one quart of cold milk, let it soak for one-half hour, place on stove and let it come to a boil. Take from the stove and add yolks of (4) four eggs, well beaten, with (4) four table spoons of sugar. Replace on stove and heat again (but not boil), taste, add the beaten white and two (2) table spoons of sugar, flavor to taste with vanilla or lemon, and pour in moulds. This quantity fills two common sized moulds.

Wine Jelly.—One box of Cox's gelatine soaked in one quart of cold water one hour. Pour on this one quart of boiling water until dissolved; one and one-half (1 1/2) pounds of white sugar, two (2) lemons, one pint of sherry wine. Pass all over the fire, and boil well, strain through a flannel, and pour in w. u. s.

Sponge Cake.—One cup of powdered sugar, three (3) eggs, one-half (1/2) teaspoonful of cream tartar, one fourth (1/4) teaspoonful of soda, one teacup of flour; flavor with lemon; one half (1/2) of the juice, one-half (1/2) of the rind.

Delicate Cake.—One cup of butter, two (2) cups of sugar, one cup of milk, one cup of corn starch, two cups of flour, one teaspoonful of soda, and the whites of eight eggs; flavor with extract of almond.

A Cheap Tea Cake.—One cup of sugar, a table spoon of butter, three fourths (3/4) cup of milk, one egg, two teaspoons of flour, in which are sifted two tea spoons of baking powder—flavor as you like.

Marble Cake—Light.—One cup of sugar, half a cup of butter, the whites of two eggs, half a cupful of milk, one and three-fourths (1 3/4) of flour.

Dark.—Half a cupful of brown sugar, half a cupful of molasses, half a cupful of butter, half a cupful of milk, the yolk of two eggs, half a nutmeg, a spoonful of other kinds of spices, and two cupfuls of flour. Use for each kind two spoonful of baking powder. Put in layers in your pans, first the light, then the dark, making two loaves of it.

Boston Brown Bread.—One quart of yellow Indian meal, one quart of rye meal, one cup of yeast, one-half a cup of molasses, one heaping teacup of soda; steam three hours; then put in the oven and bake one-half hour. One-half of this quantity will make one good sized loaf.

Poor Man's Pudding.—One cup of molasses, one cup of beef suet, chopped fine; one-half a cup of sweet milk, a scant teaspoonful of soda, a little salt, and one and one-half cups of flour. Steam about two hours.

Cracked Hands. As cold weather comes on, and the work of the farmer must be largely performed in the open air, oftentimes handling frosty tools and other articles covered with snow or saturated with water, the following recipe by a correspondent of the N. Y. Tribune will doubtless be appreciated. He says: "For years, when young, I suffered at some seasons untold bitterness, caused by dry cracks on my hands and fingers. I tried every so-called remedy I heard of, but in vain; and being obliged then to labor each successive day for an honest livelihood, I was bound as with an iron chain, to such sufferings as almost made life a burden. At last a friend told me to put common cod liver oil into the cracks and it would cure them. Although my faith was very weak, I tried the prescription, and to my great joy, sure enough, in 48 hours my hands were as well as ever. It does not save from fresh cracks, but it never fails to entirely cure the old ones in two days. I keep it—cost 10 cents—always handy, and with its help my hands are nearly always well. For knowledge of this simple remedy I would not take many dollars. I have given it to many others for many years, and have never known of its failure to effectually cure in all such cases. I don't know that the subject can be considered agricultural (perhaps it is only cutlural), but there are probably farm readers of your paper who will be glad to get the information."

To Keep a Room Cool. We read in a scientific journal: "There is a method, which I have adopted in my house, to cool the temperature of any room during hot weather, and that is, to hang a sheet or a blanket down outside windows upon which the sun may be shining. This sheet is wet, and the evaporation of the water produces a deliciously cool apartment. The sheet is kept damp by having a vessel filled with water above it outside, and a piece of flannel arranged to form a siphon, and touching several portions of the sheet. The water gradually empties out of the vessel, and may be replenished if necessary. The window is, of course, open. It is strange that so simple and inexpensive a method has not found favor here, more especially in sick rooms. A cylindrical-shaped tin vessel, with some very fine holes, fixed over the window, would easily supply the water."

How to Brown Butter.—This is a very simple recipe, but a very useful one. Put a lump of butter into a frying pan according to the amount of grease desired. When it is melted dredge browned flour over it and stir it to a smooth batter until it begins to boil. Use it to color gravies, and, in fact, it can be made into a sauce, or almost anything; and if the sauce is required to be strong and good, celery, onion, vinegar, brown sugar, cayenne, or a glass of wine may be added, but that will be according to the purposes it is required for.

Topid water, slightly salted, given twice a day, will increase the flow of milk one-third. If the cow will not drink it at first, scatter a handful of bran or meal, or the top of it. They soon become very fond of it, and will drink all you give them.

ERACHE.—Take a bit of cotton batting, put upon it a pinch of black pepper, gather it up and tie it; dip it in sweet oil and insert into the ear. Put a flannel bandage over the head and keep it warm. It will give immediate relief.

CATARH

THE EYE, EAR, AND THROAT. Suffered by the French Workman Lives: The French laborer probably gets more for his wages than any other. His food is cheaper and more nourishing. This is because he has a sense of beef at a penny per bowl. His bread at the restaurants is thrown in without any charge, and is the best bread in the world. His hot coffee and milk are peddled about the streets in the morning at a souper per cup. It is coffee, not slops. His half bottle of claret is thrown in at a meal costing twelve cents. For a few cents he may enjoy an evening amusement at one of the many minor theatres, with his coffee free. Sixpence pays for a nice cushioned seat at the theatre. No gallery gods, no peanuts, pipe, smoke, drunkenness, yelling or howling. The Jardin des Plantes, the vast galleries and museums of Louvre, Hotel Cluny, palace of the Luxembourg and Versailles are free for him to enter. Art and science hold out to him their choicest treasures at small cost, or no cost at all. French economy and frugality do not meet that constant retrenchment and self-denial which would deprive life of everything which makes it worth living. Economy in France, more than in any other country, means a utilization of what America throws away, but it does not mean a pinching process of reducing life to a bare existence of work and bread and water.

Dr. V. Clarence Price HAS VISITED NILES TWENTY YEARS. HAS met with unprecedented success in the treatment of all Chronic Diseases OF THE THROAT, LUNGS, HEART, STOMACH, LIVER. A Kansas farmer purchased a revolver for his wife, and insisted on target practice, so that she could defend the house in case of his absence. After the bullet had been dug out of his leg, and the cow buried, he guessed she'd better shoot with the axe.

A young lady in conversing with a gentleman, spoke of having residing in St. Louis. "Was St. Louis your native place?" asked the gentleman. "Well, yes, part of the time," responded the lady.

A Scotch paper gives an incident of General Grant's war career by remarking that he lost a thumb and finger at the battle of Michigan. He buried him fairly, at dead of night, and without any pomp or pageantry. As they shovelled him in they said, "All right, He was only a lightning-rod agent."

A teacher in a grammar school inquired "What was the cause of the Revolutionary War?" The prompt reply was, "The Yankees wanted Fourth of July and were bound to have it."

"Sir, do you mean to say that I speak falsely?" said a person to a French gentleman. "No, sir, I say not; but, sure, I say you walk around about the earth very much."

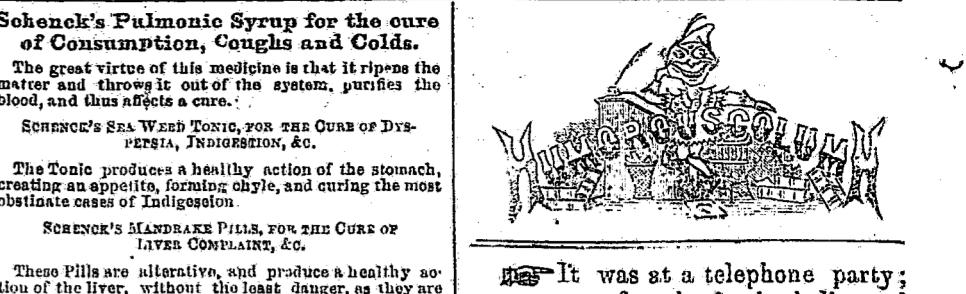

"How beautiful is a woman's smile! And yet, somehow, we don't like to see it when she has her false teeth out." A cookery, speaking of the death of an octogenarian, remarked that he was born at Hayti and died at heighty-two.

Dr. Hall says that raw potatoes are good to cure drunkenness. The Murphy movement is at last accounted for. A chap who opened a sample room over a theatre, appropriately painted over his door the word "Dramatic."

Satan was the original "dead-head." He got into the garden free and then caused trouble by his talking. "Foregoes" was the word put out at a written spelling exercise by one of our city teachers recently. And one little boy handed in "Go, go, go."

The melancholy days have come, the saddest of the year, when whisky, gin and rum take the place of lager beer. We stop here for the want of stimulant. — Washington Union.

The Ariel quietest is what they call a hanging in Kansas. We find self-made men very often, but self-unmade men a great deal oftener. The boy who was spanked remarked that his mother was his warm-est friend. When the bell punctured in Richmond saloons the punster call it the whisky ring. Bay windows are safe harbors at night for little masks.

It was at a telephone party; a company of enthusiastic ladies and gentlemen had gathered at the Niagara end of the line to witness and participate in the first trial of this wonderful instrument. A recent total abstinence convert and prominent member of the Niagara Red Ribbon Club stepped up to the instrument and began a conversation with the Marquette operator, when he was recognized and his name called, much to the surprise of himself and the ladies present, who immediately demanded of the Marquette man how it was possible to tell that his questioner was "Why, I can smell his breath," was the ready answer of the jolly operator. — Marquette Journal.

An officer, upon seeing a beautiful picture sketched upon a wall in America, exclaimed, "It is a fine painting, but it was never done in America." "Oh, sir," says his friend, "Don't you see it is on a solid wall, and therefore must have been done in this country?" "Ah," replies he, "I see that plain enough, but I only meant that the man who did it was never in America."

When a St. Louis belle gets the carache, they take the fair sufferer down to the levee, put a bale on a bale and a half of cotton into the ear affected, and play some pargoric upon it from a chemical engine. — Chicago Tribune. And when a Chicago belle has the carache they treat her in the same way, only they don't go out anywhere for a bale or two of cotton. They usually find it about the sufferer. — St. Louis Republican.
