

Berrien Co. Record.

JOHN G. HOLMES, Editor. THURSDAY, AUGUST 22, 1878. Republican State Ticket. For Governor: CHARLES M. CROSWELL, of Lenawee. For Lieutenant-Governor: ALONZO SESSIONS, of Ionia. For Secretary of State: WILLIAM JENNY, of Mecoma. For Treasurer: BENJAMIN D. PRITCHARD, of Allegan. For Auditor General: WILLIAM I. LATIMER, of Mecoma. For Commissioner of Land Office: JAMES M. NEASMITH, of Kalamazoo. For Attorney General: OTTO KIRCHNER, of Wayne. For Superintendent of Public Instruction: CORNELIUS A. GOWER, of Saginaw. For Member State Board Education: GEORGE F. EDWARDS, of Berrien. For Congressman—Fourth District: CAPT. JULIUS C. BURROWS, of Kalamazoo.

A FEW QUESTIONS TO CARY.

Below we give a few of the questions propounded by the Lansing Republican, to Sam. Cary, after reading his speech, delivered in Ypsilanti a few weeks since, the same as was made by him in Niles, and the same that he delivers whenever he speaks, for he has but one: In asking me to forget all their old party ties and listen to you as American citizens only, don't you come as the boughten advocate of a party which binds its members with a pledge that "if a National" does not wish to vote his own ticket or any portion thereof, he shall not vote the ticket of either of the old parties?" Do you call such despotism from a dark-lantern caucus, such fetters on freedom of elections, by the name of "reform?" Did you ever hear of anything good so mean, since the old known nothing lodges excluded men whose fathers happened to be born outside of the United States? Why don't you preach to the "National" party to repudiate its bad leaders, its rascals like Brick Pomeroy, Walter H. Shupe, Moses W. Field, Sam. Cary, and others, who have been shown up in the courts as having lied, sworn falsely, and acquired property unlawfully? In saying that "money must have the stamp of the government upon it," do you mean the stamp of the home government? If so, how do you account for Canadian bank notes now passing current among us? How do you account for Scotch bank notes being the chief money of that thrifty people? Don't you know that the Canadian and the Scotch governments put no stamp on that money and take no responsibility for it? Don't you know that such money is based wholly on the ability of the banks to pay these notes when required, and on the public belief in that ability? Don't you know that gold and silver in bars will buy just as much property as in coin? Don't you know that if the government stamp should be all filed off a gold eagle, but the filings all saved, you could buy just as much property with it as when it was perfect? Don't you know that before there was any mint in California, the gold dust was weighed, as your gold eagles were weighed (you say) in London, when you wanted currency for them? In short, don't you know that the government stamp adds no value to money, but simply certifies to the value already in it? If the government stamp alone will make money, are you prepared to pay as much for greenbacks and scrip from which the "stamp" has been worn away or washed out, take them for gold or silver coin which has become smooth by use? Don't you know that the bank of England has never closed its doors and refused to redeem its notes in specie since it resumed in 1827? Don't you know that to stop a panic the bank has been permitted to issue more notes than it had gold to redeem (beyond its investment in British bonds or consols) and that as soon as the public knew this iron rule to be suspended, they ceased to hurry to the bank for gold? Don't you know that a bank of England note has never failed to be worth its face in gold sovereigns for more than half a century, although it is not a legal tender? Why do you draw a picture of the honest Christian bank issuing \$10 of bills for every \$1 in specie he owns, as if that had anything to do with the existing system of coin? Having your own shock of the moulting nations of the past and learned that this state-bank "confidence" system has been set aside by the well-considered, well-examined, well-regulated national-bank system? Did you ever know a man to lose a dollar by his "confidence" in a national-bank bill? Did you ever know a man to refuse national-bank bills for any property he had to sell? Did you ever know interest or exchange to be as cheap under any other system as at the national banks now? When you say that "greenbacks and national-bank notes cannot any more exist together than freedom and slavery," for one of them has got to get out of the way, "don't you know that greenbacks and national-bank notes have existed together for 14 years, and that for six years past the difference between them has not averaged \$30,000,000? When you say there are 130 national banks in the Congress of the United States, don't you know it is false? Can you name ten? Can you name even five whose business is national banking? When you say, "there was never a bank established on God's footstool, based upon coin, that was not a fraud and a cheat and a swindle upon the producing class, and never will be one," do you refer to the bank of England, the bank of France, the bank of Germany, the Scotch banks, and the gold banks of California? Do you, Sam Cary, know so much more about banking and finance and the producing classes as to set up your blackguardism against the steady confidence reposed in these banks by 125,000,000 people—one-eighth of all mankind—and the most intelligent, industrious, and enterprising races, now? If these "specie-bottomed banks," some of them established for ages, had been "frauds, cheats, and swindles on the producing classes" all the time, would not production have been stopped, and these countries all have grown poor instead of rich? When you refer to France as being whipped by Germany, and issuing \$1,000,000,000 of greenbacks to set her people at work to earn money to pay for the whipping, don't you know this to be false? Don't you know that France issued no greenbacks at all—not a dollar of government paper currency? Don't you know that she authorized the bank of France, a private corporation, to issue notes beyond her immediate ability to redeem? Don't you know that these notes were so near par value that Germany

took \$100,000,000 of them without any discount? Don't you know that in the worst times of the war they never sank below 95 cents on the dollar? Don't you know that the French government issued proposals for a loan of 4 per cent. interest? Don't you know that the people rushed in such numbers to secure this loan that thirteen times as much was subscribed as the government needed? Don't you know that the French are a nation of bondholders to-day? Don't you know that the country has been free from the irredeemable paper nuisance since the assignat "flat" foolishness and ruin in 1794? Don't you know that the doctrine you preach would be regarded as the wildest lunacy and the most dangerous communism in France to-day? How do you make it out that the circulating medium of the United States was \$55 per head for all the people in 1865? Don't you know that Johnson's article, vol. 1, page 1232, in its critique on "The currency" written by Alex. Delmar, chief of the bureau of statistics, says the total circulation of the United States per capita in 1865 was \$24.90, or less than half what you state it to be? Don't you know that the currency in circulation in 1877, according to the same cycloedia, the American almanac, and the treasury reports, was about \$19 per head, or \$7 per head more than you stated in your speech at Ypsilanti? Don't you know that the purchasing power of the greenback dollar has increased from about 70 to 99 cents since 1865, thus enabling the \$19 per head to do more business, when required, than \$24.50 would do in 1865? Don't you see that the circulation has not been practically reduced but increased in purchasing power since 1865? Don't you know that from 1869 to 1878, inclusive, there were 22,000 miles of railroad built in the United States, or more than treble the number of miles built in any preceding five years, notwithstanding the currency contraction had done all the harm it could do? Don't you know that the enormous sinking of labor and wealth in railroads which did not pay, together with the incredible waste, debt, and suffering from the rebellion, were the causes of the financial depression? Oregon Correspondence. PORTLAND, Aug. 3, 1878. EDITOR RECORD:—Harvest of all early wheat in this State is pretty well over, and new wheat is coming to market. It is of the finest quality. We have the most lovely weather, while you poor fellows east are sweltering with heat and dying with sun-strokes. The mean temperature here for July was 85 deg. and the very highest 85. That is something that needs a note of observation. Our Indian troubles still exist, but strong hopes are had that the worst is over. A destructive fire in East Portland last week destroyed \$16,000 of property, among which was the post office. Ex-Gov. George L. Curry died in this city last Sunday, aged 55 years. He came to Oregon in 1846. He edited the Oregon Spectator, the first newspaper in Oregon; was appointed Governor of Oregon Territory by President Pierce in 1854, which position he held until the organization of our State Government in 1859, and occupied the gubernatorial chair again in 1865. He passed over to the great unknown with an untarnished name. California this year will have over 750,000 tons of surplus wheat to export. Last week Lieutenant Wallace, with thirteen soldiers and two citizens, in Montana, overtook and defeated the red devils who committed the recent murders on the Clearwater, killing 6, wounding 8 and taking 19 prisoners. The number of arrests in Portland for the last month was 175. Rotgut whisky. George Cogan, proprietor of the St. Charles Hotel, this city, was killed at Umatilla by Indians. Several fine steamers are now being built in this city. A very distressing accident occurred in this city last Sunday. Capt. Cook's young daughter was burned to death while kindling fire in the stove with kerosene oil. Father Wilbur, one of the great Indian agents of this country, is in the city on his way to Washington City on business pertaining to the Indian troubles. He spoke in the temperance meeting last night. The beautiful residence of Mr. Theyer, Governor elect of Oregon, was destroyed by fire last week; no insurance. Never in our history has so much building been done in one season in Portland as this year, and prices of all labor is down to the very bad rock. Miss Florence A. Smith, formerly of Buchanan, is again elected one of the teachers in the city schools of Portland, with salary at \$700 per annum. She is now spending her vacation in San Francisco and Oakland, Cal. What is gradually upon the rise; present price \$1.50 per cental. This is the time of year that the ministers of the city are away upon their annual rations in the seaside or in the mountains. They are tired and worn out fellows, need to be sent away for a few weeks, leaving their flocks to wrestle with the Devil and the flesh alone, for thousands of them have to work hard to supply their daily wants, while the poor ministers live upon their salaries of \$1,800 to \$3,000 per year. The Oregon Legislature meets in six weeks from to-morrow. It is Democratic by twelve majority. M. K. Hathaway, of Lake River, Washington Ty., was in the city last week, a guest at our house. He is engaged in the dairy business, and it is safe to say that his butter and cheese is among the very best of the State. He is a brother of your city marshal, Mr. Hathaway left Buchanan in 1852, crossed the plains, suffered many privations, and settled here in the fall of 1853. He has twice acted as an honor member of the Oregon Legislature. Has a family of two sons and three daughters that are ignorant to any man. The next total eclipse will be that of the Greenbacks. Date of eclipse, January 1, 1879; cause, specie redemption. It will not only be total, but lasting. Chicago Journal.

That Three Oaks correspondent is one of your best. Respectfully, J. L. SMITH. National Finances. WASHINGTON, Aug. 17.—The Treasury now holds \$348,755,450 in United States bonds to secure national bank circulation, and \$18,880,400 in United States bonds to secure public deposits; United States bonds deposited for circulation for the week ending to-day, \$1,250,500; United States bonds held for circulation withdrawn for the week ending to-day, \$1,202,450; national bank circulation, outstanding currency notes, \$320,791,785; gold notes, \$1,432,120; national revenue, \$338,609; customs, \$239,905. Receipts of national bank notes for redemption for the week ending to-day, compared with the corresponding period last year: 1877, \$4,251,000; 1878, \$2,621,000; receipts to-day, \$588,000. Subscriptions to the 4 per cent loan to-day, \$210,000. The impression still exists that the minor gold coins will soon be paid from the Treasury in the ordinary course of business. Each day's record of the coin balance evidences an increase of coin in the Treasury. The currency including the \$10,000,000 fractional currency redemption fund, shows comparatively a very low figure. The condition of the general finances has been a source of general congratulation at almost every meeting of the Cabinet of recent date. It is thought that the Treasury will proceed very rapidly to call in the 5 20 bonds. Subscriptions to the 4 per cent loan are very gratifying, and the employees of the loan branch of the department have not for a long time been more actively engaged in recording subscriptions and performing clerical work related to government loans than at present. Cary's Commission. Communication to the Editor. In the speech of Gen. Sam. Cary recently delivered in this city, there appears an expression—a sentiment—so atrocious, so infamous and fiendish, as to deserve passing notice, to which his general platitudes and balderdash are not entitled. We allude to the following extract: "The sooner the carcasses of the rich and their children are in the hands of the undertaker, the sooner and the better for the country." There is no arbitrary line between the rich and the poor. The terms are relative. Practically, the man who has something is rich in the eyes of him who has less, or has nothing. In executing the speaker's idea this construction would furnish the rule of action. If the land does not become red with human blood and slaughter, it will be because the mass of the people are wiser and more considerate and forbearing than these self-constituted, windy teachers. Chicago Market. The following were the closing quotations last evening: Gold, 100. Winter wheat quiet; 92 1/2@93c cash, 93 1/2@94c September. Spring wheat steady; 95@96c cash or seller August, 96@97c September, 97@98c. Corn steady; 88 1/2@89c cash or seller August, 89 1/2@90c September, 21 1/2@22c cash for seller August, 22 1/2@23c September, 24 1/2@25c. Rye quiet; 48c cash, 49 seller September. Barley steady; 90c for old, \$1.10 for new, cash, 89 1/2@90c seller August, \$1.11 seller September, \$1.08 seller October. Mess pork steady; \$3.40@3.45 cash, \$3.40@3.45 seller September, \$3.40@3.45 seller October. Lard steady; \$7.10@7.15 cash, \$7.10@7.15 seller September, 7.12@7.15 seller October. Short rib sides steady; \$5.90@5.95 seller September, \$6.00@6.05 seller October. —Inter-Ocean, Aug. 21. After five years, another sop is announced for the benefit of Jay Cooke's creditors. The trustees of this once bloated bondholder propose to declare a cash dividend of 5 per cent on Sept. 1, and to make an extra distribution of St. Paul & Duluth railroad stock worth about 17 per cent. A previous dividend of 5 per cent, in cash, and 25 per cent in Northern Pacific stock has been made, so that the total dividends declared by the estate are thus far 10 per cent in cash and 42 per cent in stock. The liabilities were nearly \$10,000,000. A bill in equity is to be brought against the trustee and the committee of creditors, for wasting the assets: They have expended \$80,000 for counsel fees, \$55,000 for salaries, \$34,500 for pay of committee, and \$16,000 for incidentals; altogether too far a job. —Lansing Republican. "Horny-headed, honest sons of soil must be elected to office," says the gifted Kearney. Then he goes off into a flight about the "gallant, gifted glorious, Butler." How did Ben get "horny-headed"? This "honest son of soil" has not, to the best of our knowledge, dug up Massachusetts extensively. The only burden he has borne conspicuously is a green bag full of briefs tied with red tape, and even that is so, heavy that this "gallant, gifted" son of soil often calls to the office boy to transport it. It is a grand thing to be consistent—yell at bloated bondholders in Michigan and nominate a respectable one for Governor in Massachusetts; yell about "sons of soil" with "horny-headed" and nominate Ben Butler, with hands like a school girl's. —Inter-Ocean. The Greenbackers of Ohio have already nominated two national bank cashiers for Congress. This seems to be a pretty direct blow at the giant monopoly of national banks. —Philadelphia Times. The next total eclipse will be that of the Greenbacks. Date of eclipse, January 1, 1879; cause, specie redemption. It will not only be total, but lasting. Chicago Journal.

Political Items. The help which some farm-ers are unwillingly giving to schemes of repudiation and inflation, if successful, will bring greater loss upon them than upon any other class. The National Communists want money and property without earning it, and the Democracy face, power, and plunder without an honest or patriotic title to it. If government bonds were taxed the great body of the lenders, ex-Governor Palmer, of Illinois, is certainly correct, when, in accounting for the green back idea in the Democratic party, he said: "It seems to me that the entire movement against hard money is a relic of the Copperheadism of the war—that it grows out of a desire to ignore the credit of Government and destroy confidence in it." The greatest agitators of the labor question and most blatant labor reformers are the workmen who do not work. Wanted to know, if the purchasing power of the whole volume of currency in 1868 was equal to \$605,000,924.52, and in 1878 is equal to \$54,465,691.02 how much have greenbacks depreciated under Republican rule in the last ten years? Where is contraction? The New Castle (Pa.) National Greenback says "the whole banking system is teaching the masses that there is a better and surer way to get money than by earning it." And of course loaning money by individuals is the same. There must be no more borrowing or lending. It was a Republican member of Congress, not a Democrat, who introduced the joint resolution to prohibit the further retirement of greenbacks, which was adopted by both Houses. It was the Democratic majority in the House of Representatives which refused to pass the Senate bill making greenbacks receivable for customs dues and for 4 per cent bonds. The Greenback-Labor platform adopted at Syracuse the other day demands the immediate calling in and payment of all Government bonds in absolute paper money. Wise, isn't it? Voorhees grows because Secretary Sherman sells Government bonds abroad, and Kearney because he sells them here, instead. These two intellects are the wonder and admiration of the nineteenth Century. STATE ITEMS. The first semester of the University commenced yesterday. The last directory of Grand Rapids contains 12,200 names. Bronson pays 8 per cent. interest on her school district bonds. S. F. Turner, formerly of Paw Paw, but who was in California in 1852, was recently killed by the caving in of a bank in a Nevada mine. Lightning struck 22 barns in this State last week. Several counties still to hear from.—Evening News. A regatta is to be held on Baw Beese Lake, near Hillsdale, Sept. 1, under the auspices of the Baw Beese boat club. A young man of 19, named J. B. Umphrey, disappeared from a farm in Freeoil, Mason county, on the 3d, and has not been heard from since. It is feared he wandered off while temporarily insane. Malignant diphtheria has appeared in Litchfield, Hillsdale county. Several deaths have occurred, many are sick, public funerals have been stopped, and church services are discontinued. Eugene Hutchinson, of Genesee, slipped from a threshing-machine, and had his right foot and leg so badly mangled that amputation was necessary. Last week Nellie Carr, a seven-year-old, traveled alone from St. Johns, N. B., to Lawton, Mich., to her father, a distance of 1,700 miles. She started Tuesday and expected to arrive in Lawton Friday. The steam threshing machine of John C. Raymer caught fire, on the 16th, while threshing on the farm of O. S. Bosworth, of Roxand, Eaton county, consuming the separator, straw stack and 40 bushels of wheat. Mrs. Sidney E. Morse, of Smith's Corners, Oceana county, has wandered away from home insane, and her present whereabouts is a matter of anxious inquiry. She leaves six little children and a sick husband. Jas. Joseph, a man of 60, at Free-land, Midland county, was struck by a falling tree during a storm on the 15th, breaking his leg above the knee, and injuring him internally. His recovery is doubtful. He was rescued after being exposed to an hour's heavy rain, more dead than alive. The transfer of a portion of the inmates of the Insane Asylum at Kalamazoo to the new Asylum at Pontiac, is now in progress. About two hundred have already been taken to their new quarters. The News says that when they passed through Battle Creek, George Willard and his horse thought they were Greenbackers, and went in a body to meet them and escort them down town. Mr. P. Redmond, of Hope, Barry county, has a most remarkable hen turkey. About the middle of March she commenced laying, and laid 17 eggs; stopped three days, and then laid 22 days. She then commenced to set, and has brought out a fine brood of turkeys, but did not stop laying for a single day during the time she was setting. She has laid in all over 80 eggs. John Granger, of Scipio, Hillsdale county, committed suicide on the 16th by shooting himself through the heart with a revolver. He was about 24, and no cause is known for the rash act. There are now a few more than 600 patients in the female insane asylum at Kalamazoo.

Robert Cummins and a boy of 15, named Roger Haviland, of Byron, Shiawassee county, got into a quarrel, during which the boy ran the tines of a pitchfork through Cummins' arm into his side, inflicting a painful wound. Had Cummins not protected himself by a bundle of wheat the thrust would undoubtedly have proved fatal. A man named Arthur Williams is industriously earning his living, and that notwithstanding every finger he has on both hands has been cut off at the second joint. One such man is worth more to the world than a whole army of tramps. Mrs. Esther Chapin, of Ludington, heard some one trying to get in the house the morning of Aug. 12, and her husband being sick, she went quietly down stairs, and seeing a man entering a window she fired and shot him in the breast. He ran a few steps and fell dead. He proved to be one Wm. Harnett, a laborer. A coroner's jury justified the act. A man named Roberts, nicknamed "Shorty," was shot and probably fatally injured by a woman named Mrs. Burnett Fulkerson, at or near Casnovia, Kent county, Saturday night. She was a divorced woman, and is said to have been living with a man named Fisher, in such intimacy that the neighbors determined to drive them out of the neighborhood, and went to their house in a body for that purpose. Roberts went into the house and held a conference with her, and during the interview was shot; but there are conflicting stories as to the manner and cause. Chesaning sends out \$210 a month in payment of wholesale liquor dealers' bills, but don't give a minister of the gospel a decent support. This at least is the complaint of one pastor. —Evening News. VANILLA. Steals & Price annually consume, in the manufacture of Dr. Price's Extract of Vanilla, more of the finest quality of Mexican Vanilla than any other maker of extracts, and it is by the use of the finest quality that Dr. Price's Extract of Vanilla obtains its rare excellence. FEELS YOUNG AGAIN. "My mother was afflicted a long time with Neuralgia and a dull, heavy inactive condition of the whole system; headache, nervous prostration, and was almost helpless. No physician or medicines did her any good. Three months ago she began to use Hop Bitters, with such good effect that she seems and feels young again, although over 70 years old. We think there is no other medicine fit to use in the family."—A lady, in Providence, R. I. BUCHANAN PRICES CURRENT. Correspondence Wednesday morning for the Record by S. & W. H. Republican County Convention.

The Republicans of Berrien County will meet in convention at Berrien Springs on Monday, August 26th, at 11 o'clock a. m., for the purpose of nominating a candidate for State Senator and candidates for the transaction of such business as may come before the convention.

Table with 2 columns: Name and Votes. Lists names like Bainbridge, Benton, Berrien, Bertrand, Buchanan, Chickaming, etc., with corresponding vote counts.

HON. JAMES SULLIVAN, of Dowagiac, one of the oldest and ablest members of the bar in this circuit, died at his home on Monday last.

HON. E. M. PRINCE will address the citizens of Hill's Corners and vicinity, on the political issues of the day, to-morrow (Friday) evening.

Dennis Karney, the California communist, made one of his flowery speeches on the street, in Chicago, Tuesday. He does not meet with the favor in the East that he did on the Pacific coast.

ONE man says that Burrows gained twenty five votes from the Greenback ranks, by his speech in this place. We venture to say there were more than that by far.

OUR friend Ed. Bachelor is now yard master at Niles. Ed. has been a faithful employe of the Michigan Central Co., as conductor, for several years, and we are glad to know of his promotion.

ONE dollar and fifty cents will take you to Chicago and return, Sept. 5d. This looks pretty cheap, but the hard boys expect to hear that just twenty-five cents when they get up their excursion.

OUR thanks are due Hon. B. V. Keightley for valuable public statistics.

REV. W. J. CHAPLIN, from Dowagiac, Universalist, will preach in the Oak Street Chapel on Sunday afternoon at three o'clock. All are invited.

MR. ALMOND PERKINS, of Ypsilanti, has been visiting with Mrs. Mansfield and family of this place, the last three weeks.

QUITE a number went from this place to camp meeting Sunday, that being the day the greatest crowd would be there.

THE prospect is fair for an enormous crop of fall and winter apples, and correspondingly low price in this vicinity.

THE Misses Ella Tieche and Lodema Drago have returned from their school, at Brown's University, Valparaiso, Ind.

RECEIPTS on Sunday at Camp Meeting were about \$800, and up to 3 o'clock Tuesday P. M. about \$1,350. — Cass County Republican.

MR. AND MRS. HIRAM BUNKER of Niles township, were made happy by the appearance at their residence of a fine boy baby, Saturday evening.

THE bank at this place, a few days since, received one of the new dollars that had failed to receive the stamp. Yet it passed for 100 cents.

THE premium lists for the fair at Niles are now in the hands of the binders, and will soon be ready for distribution.

Hubbard's Advertiser, published by H. P. Hubbard, of New Haven, Conn., is a sprightly little sheet, and is well worth the personal and attention of the fraternity.

MR. B. T. MORLEY is making good headway with his cider-mill. He says he expects to be able to treat his friends to a drink of cider about the first of September.

MR. C. E. BEARDSLEY, Aurora, Ill., came to the place Saturday evening for a short visit with his people. He made the Record office a pleasant call.

We learn that is the intention of the band of this place to get up an excursion to Chicago to the ex-position, to be about the 20th or 25th of September.

ASAHEL KELSEY was on a drunk again Saturday night. By the time he loses his other leg and his head he will probably learn to let whisky alone.

Gov. Croswell has ordered an election of Judge of this circuit for the remaining portion of the term for which Judge Coolidge was elected, which will expire December 31, 1881.

For some unaccountable reason there is a rise in all kinds of cotton goods, so if you expect to need anything in that line, you had better get it before they reach the top.

PROF. HOWELL has arrived in town and is making all necessary preparations for the commencement of his labors as Superintendent of our high schools the coming year.

THE board have secured the services of Mr. A. J. Norton as preceptor in the high school this year, thinking that a man would be better suited for the position than a lady. A wise plan.

BROTHER SHEPARD, of the Cassopolis Vigilant, has received the nomination for State Senator, from Cass and Van Buren counties, on the Republican ticket. A good selection.

THE Post and Tribune says the Niles school board have engaged the services of Prof. Gass, of Jackson, the ensuing year, at a salary of \$1,200. That ought to pay for considerable gain in one year.

THE Buchanan Base Ball Association was organized last evening, and elected the following officers: A. F. Ross, Pres. James W. Orr, Sec. D. W. Pierce, Treas.

DIXTON LODGE No. 214, I. O. O. F., will celebrate the fifth anniversary of the institution of that Lodge, on Tuesday, September 17, by a picnic in the grove. A general invitation will be extended to the public.

THE Niles and Buchanan Cornet Bands will give an excursion to Diamond Lake on Thursday, Aug. 29th. This is designed to be the boss picnic of the season. Fare for the round trip only 50 cents, including boating, croqueting, and other sports.

PROCEEDINGS have been commenced for the prosecution of Enoch Ebert, of Bertrand township, on complaint of Adam Greenwalt for the seduction of the latter's wife, who is said to be enceinte by Ebert. Greenwalt estimates his damage at \$10,000.

OUR school will commence one week from next Monday, Sept. 2, with the following corps of teachers: David Howell, Supt., \$800; A. J. Norton, Preceptor, \$500; Miss Lodema Drago, grammar room, wages not yet agreed upon, and in the lower departments, Miss Jennie Pardee, Miss Emma Smith, Miss Ida Beardsley, Miss Nettie Bainton, and Miss Minnie Hamilton, at \$25 dollars per month each.

THANKS.—I desire to tender thanks to my friends for their presence at my house on the evening of the 20th—for their words of cheer, and for their very handsome donation. And also to the Good Templar Society for their beautiful silver cup. In that cup, filled with the pure sparkling water, God's only beverage, I will drink to their health. Thanks to the Band for their excellent music.

A CORRESPONDENT of the Berrien Springs Era, from Pipestone, says Buchanan cannot monopolize all the great scandals of the county, and we must prepare to divide the honors with that township.

ON Tuesday last, as Mr. George H. Rough was returning to Buchanan from the Paxton farm, about four miles west of town, he lost a large diary containing a record of his California trip, and other matters, together with several hundred dollars' worth of notes, but did not discover his loss until he had been in town some little time. He came to our office, intending to have some notices printed, but on being advised to return over the road and make a personal search, he did so and found his book. It had been picked up by Mrs. Harvey Judd.—We are glad George found his book, even if we did lose a job.

THE address of our young friend, Herbert C. Smith, made at the Young Folk's Picnic, is thus spoken of by the Berrien Springs Era: "He is a good, but by no means least, of the speakers, was Herbert C. Smith of Buchanan. His sentences were calm, deep and earnest, and addressed to the nobler sensibilities and patriotism of his hearers, admonishing them to the development in early life of all these qualities that make true men and women, and public spirited citizens. As he retired, he was heartily cheered, and, owing to his patriotic fervor and eloquence, he was pronounced the 'Robert Emmet of America.'"

THIS week we give among others the famous strengthening act of March 13, 1869, about which there has been so much commotion since the panic of 1873. It is in this act that the dissatisfied accuse Congress and the administration of changing the contract of the government with her creditors by making those bonds that were payable in lawful money, payable in coin. Please read this act twice, and be sure that the next time you accuse the "subsidized Congress" of changing the contracts of the government to "rob the people and favor the rich," you will know what you are talking about, and not be merely repeating the words of some office-seeker whose whole business it is to create dissatisfaction among the people and gain a few votes.

DRS. PIERCE & VAN ORDER are treating Mr. Joseph Gould, of West Leroy, Mich., who was about as badly afflicted as any man that lives. His cancer extends from the angle of the left jaw to an inch or more past the middle of the chin, and from the edge of the chin down to within three-fourths of an inch of the collar bone. He has been pronounced incurable by the surgeons and faculty of Ann Arbor hospital, and by several cancer doctors. The doctors now have the cancerous flesh nearly all removed and Mr. Gould feels considerably better, and is now sanguine of being completely cured. Although he is yet quite weak, the thing left after removing the cancer is larger than the inside of a pint basin and extends into the mouth.

THE Nationals carried every county in the State of Tennessee, and in North Carolina they gained several Congressmen.—Buchanan National.

THE return game of base ball between the Niles Reds and the Buchanan boys was played in this place, last Friday afternoon. The Buchanan boys came out at the little end of the board. Boys, you will have to do some hard practicing before you travel to play.

MR. JOHN SIMMONS, of this place, has been arrested on the charge of fraud, in making false representations in trading horses with Jacob Threlmel, of Dayton, by means of which the said Threlmel afterward was cheated out of a mare valued at about \$75, more or less.

JOSEPH VOORHIES, of this place, has had a little experience in tramp work. He hired one of these much-abused gentry to work in his cooper shop, and after working two or three days, went into the shop at night, nearly ruined several of the tools in the shop and left, all because he happened to get mad. The damage he did amounted to several times the value of his work.

THE NATIONALS carried every county in the State of Tennessee, and in North Carolina they gained several Congressmen.—Buchanan National.

THE return game of base ball between the Niles Reds and the Buchanan boys was played in this place, last Friday afternoon. The Buchanan boys came out at the little end of the board. Boys, you will have to do some hard practicing before you travel to play.

LOST.—Mr. A. T. Carpenter lost a wove-skin pocket book containing \$50, two ten dollar and six five dollar bills, somewhere on the road from Niles to Galien through this place, Tuesday afternoon. The finder will be rewarded if he will leave the same with D. Bacon, Niles, or at the Record office in Buchanan.

SOME of the would-be leaders of the Greenbackers in this place say they do not believe in Brick Pomroy's doctrine, and pretend to scoff at the idea that he is a representative leader of their party, notwithstanding the fact that he is chairman of the National Greenback club organizing committee. They do this to endeavor to blind the majority of their voters as to the true principles of that party.

WHILE some of the Nationals of this city have little to say about Cary's speech at Niles, others say it was "good," "convincing," &c. The Niles Republican speaks of the speech and the "mar" follows, and we don't think the Major has missed the mark either:

"To those who accept light, flippancy talk, garbled statements, inaccurate statistics, laughable anecdotes, and low buffoonery of manner, as sound logic and convincing argument, his language was doubtless very convincing and satisfactory. But to those thoroughly posted on the subject he treated, his logic was the merest trifler, his assumed facts and figures were known to be inaccurate, if not intentionally false, his anecdotes merely amusing, and his buffoonery as funny as that of the striped clown in the circus ring. This man Cary, though eloquent and pleasing, with a better make up might have been a useful and influential citizen. As it is, he has to go away from home to get an audience. He is, for cause, utterly without influence and following at home."

WARM weather. Plenty of rain. Considerable wheat coming to market.

A young man from Bridgman passed into the calaboose and immediately passed out again. His father was present and prevailed on the Marshal to let his son go. Cause, too much liquor. Sad indeed. Hope he will reform. Let it be a warning to others. Deering has just returned from Iowa.

Quite a good many went to camp meeting, and a few to the Greenback picnic at the lake.

The corner-stone to the Methodist church is to be laid on Friday next, at 10 A. M.

J. R. Hill, editor of the Michigan Independent, is Superintendent of the Methodist Sabbath School. No doubt he will state next week that he is a lie, and that "Izer knows he lies."

"Izer means to say that the Michigan Independent is troubled that way, he lies and he knows he lies." Fin that and the following together: Not long since said J. R. Hill, editor of the Independent, made an affidavit before M. H. Nye, a Notary Public, a part of which was to the following effect: "(Hill) believed the W. K. Sawyer (Postmaster) is a correspondent for a paper, to-wit, the BERRIEN COUNTY RECORD, for the purpose of injuring him (Hill) in his business."

That affidavit went to the P. O. Dept. and the special agent came to Three Oaks with it. It was read and referred. Postmasters have all sorts of people to deal with and have to answer to many complaints, but the above is certainly the thinnest of all complaints.

That little fight was not much of a fight. Our champion Marshal put a quietus on it by taking the unruly one by the nape of the neck.

Fred L. Thaldorf and family have returned from Kansas. Mr. Thaldorf had filed on a soldiers claim through an Attorney, having six months time to make the homestead entry. His time expired on Saturday. On that day he made out his papers and sent them by mail early on Monday morning. At the opening of the land office, another man made claim on the land before the mail arrived. Mr. T. had made considerable improvement. The threshers west of town report wheat yielding from 12 to 18 bushels per acre.

Blackberries are a legal tender in this market. Mrs. Larzelere returned to her home in Argus, Mich., on Monday. She is quite feeble.

Mr. J. M. K. Hilton came home Saturday, returned to Argus, Mich. He reports the wheat crop good in that section.

Mr. Wallace Francis is in town. Our citizens are urging him to build a flour mill at Three Oaks. We need one.

THE editor of the Three Oaks Independent almost wishes his mother had been an old maid, for he has such terrible troubles to get people to pay their subscriptions.

MISS Jennie Mosier of Altona, Pa., the lady who figured so conspicuously in the Campbell-Mosier imbroglio, at Berrien Springs last year, was married the other day to Mr. J. W. Kimmel of Ohio.

REV. BARTMES, who has so faithfully administered to the spiritual wants of his flock in this place, will preach his "good-by" sermon at the United Brethren church to-morrow, Sunday.

WE feel sorry that Dr. Berriek pursued the course he has. Had he kept his inkstand closed and his pen out of his hand, he might have stood as fair before the people of Berrien county as he did two years ago. But, by his inconsiderate scribbling in the Buchanan National and now worst of all in the Mirror, he has destroyed all his once flattering prospects for the future.

IT is not advisable for any of us to over-tax our energies, corporeal or mental, but in the eager pursuit of wealth or fame or knowledge, how many transgress this salutary rule. It may be a matter of great importance to all who do so to know how they can regain the vigor so recklessly expended. The remedy is neither costly or difficult to obtain.
