## THE ROAD TO SUCCESS.

BY H. R. STANTON.

Fallen.

The iron rods from yonder spire has hushed its hollow tone.

And midnight winds moaning here in silence and gloom.

The still moon through my window sheds its soft light on the floor.

With a melancholy pathos I have never seen before.

And the summer wind comes to me, with its soft, low lay.

As if burdened with the sorrows of a weary, weary day.

But the moonlight cannot soothe me from the sickness here within.

And the wind takes no portion from my heart's weight and pain.

Yet my heart and all its pulses, seem so quietly to rest.

That I scarcely feel them beating in my veins or in my breast.

And these rounded limbs are resting now, so still upon the bed.

What one would think, to see me here, that I was but dead.

What if I were so? What if I died as I am lying now?

With something like to Virgil's calm upon this couch of death.

What if I died to-night? Ah! note this pulse begins to beat.

A fainter pulse like me to pass from earth so silently!

Yet am I not as calm as little clouds that drift across the sky.

And I am not as free as the wind that sweeps across the sky.

As when a great Sahara sea the moon sweeps across the sky.

Or as the white waves all its shores are white with foam.

Still, still I have no tears to shed, these eyes are dry as stone.

The fountain once within me is a fountain now no more.

The moon alone weeps for me now—the pale moon—alone weeps.

She weeps for dying Mary, through all the night's sweet nois.

What if I died to-night? With these ghastly, ghastly walls?

Upon whose crimson tracings no eyes of virtue ever fall.

What if I died to-night? With these ghastly, ghastly walls?

Upon whose crimson tracings no eyes of virtue ever fall.

What if I died to-night? With these ghastly, ghastly walls?

Upon whose crimson tracings no eyes of virtue ever fall.

What if I died to-night? With these ghastly, ghastly walls?

## Gold 100%.

THIRTY States elect new Congressmen next Tuesday.

The Berlin treaty has proven an utter failure, and the only visible means of settlement now is to fight it out.

The snow storm of Sunday extended over a vast stretch of territory, reaching from Bismarck, Dakota, near where it originated.

Sam Cary and William Williams of Indiana, met in joint discussion at Eaton Rapids, Oct. 20.

The continued cold weather throughout the South is putting an effectual end to suffering from yellow fever, and it is high time, lest the whole section be depopulated.

What devilry will they not find Samuel Tilden guilty of? He is now accused of being engaged to be married to a St. Louis belle. Alas, poor Samuel!

An attempt was made to assassinate King Alfonso, of Spain, Oct. 25. A cooper shot at him with a revolver while he was riding along the street. The King was unharmed.

Nearly every steamship from Europe lands a lot of gold coin into this country to settle that little balance of trade. That balance used to be paid in our bonds, but they are about all over here, and now nothing else but the gold fills the bill, and it comes right along.

Notwithstanding the extra inducements offered Prof. Watson to do his stargazing from the Michigan telescope he will take charge of the Wisconsin University next May with a new telescope of his own selection, to be purchased at the State's expense.

If it is your wish to have for your circulating medium, greenbacks, National Bank notes, silver, and gold certificates, and gold and silver coin, all of equal value, vote the Republican ticket, next Tuesday, for this is the currency advocated by the Republicans, and by no other party.

Lyman Potter, the man who undertook to trudge a wheelbarrow from Albany, New York, to San Francisco, California, in 215 days, was twenty-one days ahead of time when in Sacramento, and expected to reach his destination in ten days. He travels for a purse of \$1,000, and has been to an expense of \$800. He will probably find some more easy way to return.

Those European nations will keep sparring until some of them get pretty badly whipped. Thus far the trouble has been to find who are willing to fight, and meanwhile a sharp skirmishing kept up. The appearance is that Afghanistan will be the place of contention.

Those who expect to have an easier time to raise the mortgage from their farm by the issue of cheap money, must not deceive themselves. Do they not know that with the prospect of cheapening the money, the men who hold your mortgages will foreclose at once, and while they can get good money for it?

A vote for the Republican ticket is one vote for the continuance of our present greenbacks in circulation at par with gold. A vote for the opposition is a vote for the withdrawal of the greenbacks and national bank notes, and their substitution by a paper money of no value for the one, and the old wild cat bank money for the other. Which will you take?

James Anderson, the truthful, of Potter Investigating Committee fame, now comes forth with a statement contradicting his statement made before the Committee, and saying that Secretary Sherman had nothing to do with that famous letter, and that the whole story told the Committee concerning it, was a fabrication paid for by the great reformer Tilden. When did he tell the truth? When he lied first or last? This is the kind of testimony of which the Democrats tried to impeach President Hayes, and to disgrace Secretary Sherman and others. The general impression will be that those who tried to use the testimony to such an end, are little or no better than the testifiers.

## THINK OF THIS.

Republicans who train in National ranks, do not see that all of the prominent officers on the National ticket, and especially all Legislative officers, old Democrats have been nominated, and that when you vote that ticket you vote to place Democrats in office. Are there any candidates for Congressmen, State Senators, Representatives in every district but one, all old-time Democrats, and will you vote to place those men, whom you fought so hard, in power? Think of it until election time.

## AN APPEAL.

The Republican Central Committee of Barry County has issued an address to the voters of that County, and as the facts discussed are of equal importance all over the country, we take the liberty to make the following extract:

"We are threatened with the absolute overthrow of the principles of a pure and honorable Government. The leaders of the National Greenback party are asking you to assist them in destroying our National finances, in repudiating our honest debts, and in placing us before the world as a dishonest and dishonorable nation! They propose to retire our legal tender and national currency, now worth so nearly their face in coin, and to replace them with a paper currency absolutely irredeemable—bearing upon its face no promise to pay, not convertible into anything of value, and never to be retired! They propose to force the creditors of our Government, as well as all individual creditors, to accept this worthless paper in full payment of all debts and obligations. They propose that this paper currency, which possesses no value, and represents no value, shall be the medium of exchange for all time to come. They propose that the pension who bleed and suffered to save our country, shall be paid off in this worthless paper. They propose, in short, a scheme of finance that could be devised—a scheme that has brought ruin upon every nation that has ever tried it. And to carry their purpose they falsely tell you that our public debt is increasing, and that it is not possible to pay it. Look at the facts: In 1865 the debt was over \$2,845,000,000. At the present time it is under \$2,000,000,000. A clear decrease of \$845,000,000. The interest on the public debt in 1865 was \$146,000,000. In 1877 it was only \$84,000,000—a decrease of \$62,000,000. The credit of the Government is standing so high that the only bonds now sold by it are the four per cent. They tell you that our National banks are a great and grievous burden upon the country. The facts are, our banks pay a tax three times greater than any other property represented in this country. Since 1860 they have paid as taxes \$200,000,000, and last year they paid \$200,000,000. Their net profits, computed from their sworn returns, were only 5-10 per cent. per annum. They would have you believe that the finances of our country are in a most deplorable condition, and that business is depressed in consequence of the scarcity of money. Look at the facts: The circulating medium of the country may be summed up as follows: Greenback notes, \$347,000,000; National bank bills, \$221,000,000; fractional currency, \$28,000,000; gold and silver in the treasury, \$295,000,000; gold and silver in circulation, \$150,000,000, giving us a circulating medium, after the first of January next, of over one billion dollars—a sum very much in excess of the circulating medium of England. Behind the banking laws of this country enable us to put into circulation all the currency which business interests demand. Remember, the currency of our country will possess the stability and the purchasing power of gold and silver, being always at par and interchangeable with it. As true American citizens, what more can we desire? Let your country's honor—let true patriotism, as of old, inspire you! Work for your Country's life! Rally to the polls! Let your watchword be: INTEGRITY AND HONEST MONEY!"

## THE FOURTH DISTRICT.

The Detroit Post and Tribune, in speaking of the work done in this district by our next Congressman, Hon. J. C. Burrows, says him the following compliment:

"No Congressional District in the Northwest ever received a more thorough and efficient representation than from a Republican candidate than has been given to the Fourth in this campaign by Mr. Burrows. The amount of individual effort by him is simply remarkable. He has addressed public meetings twice a week over the whole district, speaking uniformly to enthusiastic audiences and with evident effect. He has visited all parts of his district, the remote rural townships as well as the accessible cities and villages, and has everywhere helped the Republican cause, confirming the wavering and rousing the doubtful. And this arduous performance he has undertaken to frequent service rendered by Mr. Burrows in other districts and in other States. As the canvass has progressed, he has been the most systematic, energetic, and well-directed campaigning has been telling on the enemy. Originally the Fourth was one of the doubtful districts of the State, for it is the only one in which a Republican candidate had been given a strong foothold and a large growth. But the situation has changed, and it will stand firmly by the Republican ticket. There is no risk whatever in predicting that Mr. Burrows will handsomely win the election which he has most thoroughly earned."

## BETTING ON THE ELECTION.

If any one has any particular desire to bet on the election it may be interesting to them to read Section two of Act No. 175, of session laws of 1877, on the subject. It reads as follows:

"Any person who shall wager any property, money or thing not exceeding \$100 in value, or shall become the custodian or depository of any money, property, or thing of value, staked, wagered or pledged, upon the result of any political meeting, appointment, or election, shall be deemed guilty of a misdemeanor, and shall, upon conviction thereof, be punished by imprisonment in the county jail not exceeding six months, or by fine not exceeding \$100, or by both fine and imprisonment."

WASHINGTON, Oct. 24.—Last year 138,449 immigrants arrived in the United States. Germany sent the most, 29,317; Canada came next with 19,126; England sent 18,405; Ireland, 15,022; China, 5,992; Sweden, 5,890; Norway, 4,759; Hungary, 4,504; France, 4,491; Italy, 4,181; Scotland, 3,502; far-off Ireland sent 108. Of the total, 1,510 were professional men and women. Of these 51 were actors; 30 were artists; 17 were authors; 310 were clergymen; 18 were doctors; one gave his business as that of an inventor; one said he was a "statesman"; 29 were lawyers; 91 were doctors; 396 were musicians. There were 16,532 skilled mechanics; 26,566 laborers; 14,842 were farmers; 30 mechanics; 100 authors; 25 bar-keepers; 26 said they were capitalists and had no business; one said he was a "gentleman"; 70 were chimney sweeps; one was a magician, and there were 10 Sisters of Charity.

## Letter from Aunt Webster.

ACRA, N. Y., Oct. 12, 1878.

FRIEND HOLMES—Another month has passed away, and each week has brought your dear paper, which we prize so much, and gives me a visit with loved ones in Buchanan. I would not do without it for twice its price; and if those who read my letters prize it half as much as I do the news in the paper, I am doubly paid. Writing is my next happiness to religion. There are but few old ladies that delight in wielding the pen as I do, and seldom a letter leaves my hand without the love of Christ in it. During the war I devoted a good deal of my time for the benefit of the soldiers. Many a response came back saying, "May God bless you; you don't know how much good your cheering letters do us in our lonely hours, and when exposed to temptations." The first month I was in Buchanan I received and answered three hundred and fifty letters. I am still at my rounds of duty, working for my precious Savior, striving to do a two-fold labor in presenting my medicine for healing the body, then telling of the all-healing balm in Christ Jesus for the soul. My health is good in this delightful climate. I walked three miles yesterday, and called on ten families; found three very sick; two young ladies, one mother, three old ladies with feeble steps waiting for the summons to call them to that beautiful land; one eighty-five, with a cancer between her shoulders. She said, "Oh, how I long to be freed from this body of suffering and dwell with my Jesus, but I will wait patiently until my Father's time." A week last Friday we followed a beautiful creek ten years, to the grave. Her last Sabbath School lesson was, "Blessed are the pure in heart, for they shall see God." Last Friday we followed an aged brother of eighty-three to his last resting place. He died in the triumph of faith. God grant that we may all have the armor on, ready for the Master's bidding.

I have heard from a number of my friends in Buchanan, and would be happy to hear from any one either by card, letter, or through the RECORD. All say here that I have renewed my age going West. I tell them if they had basked in the sunshine of God's eternal love as I did, while there, they would look young too. Those happy days have many green spots in my memory which I love to dwell upon. I am very happy with loved ones, four generations being under one roof. All try to make it pleasant for me.

AUNT H. WEBSTER.

## Oregon Correspondence.

PORTLAND, Oct. 15, 1878.

EDITOR RECORD—The Oregon State Fair commenced last Thursday at Salem, and it is a wet, rainy time. The fair will last ten days. But if this sort of weather continues, it will be a failure.

Thieves and burglars of all sorts infest the Capital, and make it lively for the police force.

The last of the three desperadoes that committed the murder here, I spoke of, was captured in Los Angeles, California, last Thursday. An officer has gone after him.

Our Indian troubles still exist to some extent. Some murders and some stealing.

The Legislature is doing some good work in the legislation for the entire State.

The Republican Territorial Convention of Washington Territory met in Van Couver, last Thursday, and nominated Congress, T. H. Brens, of Walla Walla.

The wool clip of Oregon, for this year, amounts to 6,500,000 pounds, that being about 1,500,000 more than last year. The prices range from 15 cents a pound for the poorest Alkali wool, to 25 cents for the best.

The Government has let the contract, for nearly \$2,000,000, of building a canal around the Portage Falls, at the Cascade mountains, to a gentleman in New York City.

275,000 bushels of wheat are stored in the warehouses at Salem. The wheat crop of Oregon will exceed by 20,000 tons the crop of last year, and it is the very finest quality. Wheat at Walla Walla is worth 40 cents a bushel; at Portland it is worth at least \$1.50 per cent.

Dennis Kearney, of California, has become an elephant upon the hands of Ben. Butler, and I predict that old cock-eyed Ben will be the very worst man in the United States. Fiat money don't go in this country.

The Chinese had one of their periodic fits, one night last week, of exorcism, and before they got through, they disposed of the devil in his own element, and great was the hullabaloo thereof.

I would like to have your spicy Three Oaks correspondent ask Josh. Chatterton if he remembers the ringing of those bells of glory at the Town Hall.

A mechanics' fair will open in this city Oct. 20, lasting six days. The first ever held here.

A massive Sunday School Convention was held in this city last week, for Washington and Oregon Territories. It was largely attended, and much interest manifested in the proceedings.

The new Constitutional Convention of California is in session, and the Communism faction is killed dead, more than seven bar-door naps. Kearney men say in Boston, blood will flow before the Convention closes. Let Mr. Kearney have no fears on that score. Just let him attend close to old Ben, and the people of California will attend to the blood part of it.

Oregon has a very large apple crop this year. Also pears.

The Presbytery of the Presbyterian Church was held in this city two weeks ago.

Large amounts of fall wheat is being sown since the late rains.

Truly yours,

JOHN L. SMITH.

The Bay county Board of Supervisors hesitate about sending their insane paupers to the Pontiac Asylum, as required by law. The ground taken by some is that the law is likely to be repealed this winter; hence there is no use in obeying it.

## A PAIR TAKE—On Sunday morning

last, between the hours of six and nine A. M., robbers entered the Manhattan Savings Bank N. Y., forced the door to give up the keys and combinations, and lifted the vault of \$2,737,000, of which, according to the statement of the officers of the bank, \$2,505,700 were in the name of the institution and are not negotiable, \$168,000 are made payable to it; \$78,000 are in coupon bonds, \$11,000 in cash. For the purpose of preventing loss to depositors it is deemed advisable that no payments be made without 60 days' notice, as provided by the by-laws of the institution. The only loss to the bank will be the cash, \$11,000, and negotiable securities, which amount to \$78,000. This was the most extensive and bold robbery committed in this country for many years.

## Proceedings of the Common Council of the Village of Buchanan.

A regular meeting of the Common Council of the Village of Buchanan was held at the Council room, in Engine House No. 1, on Friday evening, Oct. 25, 1878.

Present: F. H. Bernick, President; B. T. Harper, Recorder; Trustees: Black, Hamilton, Johnson, Kingery, Mowrey and Roe.

The minutes of the regular meeting held Sept. 27, were read, and on motion of Mr. Roe, supported by Mr. Kingery, they were approved.

Mr. Roe's motion was again put, and lost.

Moved by Mr. Roe, supported by Mr. Johnson, that the Common Council adjourn. Motion carried.

It is a fashion of Democratic and National demagogues to declaim against the Republican party, as discriminating against the poor man and the laborer, and in favor of capital and monopolies. This has been so often reiterated and reiterated, that thousands of people who are not in the habit of believing it, are more credulous than ever.

The Republican party has ever been the special friend and champion of the poor man. In the very commencement of its career it struck as hard, and less from four millions of the poor and oppressed. It was the Republican party that opened up the countless millions of acres in the West to the poor man, and made possible for the lowliest in the land to own a farm.

Millions of poor men, yet unborn, will live to bless the Republican party for the benefits it has conferred upon them. It is to that party too that foreigners especially owe a debt of gratitude. Under Democratic rule the foreigner who became a citizen of this country, the doors of the Republic were actually barred and bolted against his return if he ever wished to behold again the scenes of his childhood and to see his friends and relatives be made public. It is stated at the Treasury, however, that the bids were very favorable to the government. There were less than twenty-five received, about half a dozen being from New York City, and the balance from San Francisco.

The government succeeded in securing enough to meet its present demands, although the whole 400,000 ounces advertised for sale, and 100,000 ounces were opened to-day, and are now in the hands of the commission appointed by the Secretary of the Treasury to award the contract. Bidders resented the fact that the government was to be sold to the lowest bidder, and it is stated at the Treasury, however, that the bids were very favorable to the government.
