The Song of the Camp.

Mr. Taylor's late poetical work has been in a great and high strain, and readers are familiar with it.

"The Song of the Camp." The outer trenches gleaming, When the tented guns of the camp at last Grew weary of bombarding.

The dark red, in silent gloom, Lay, grim and threatening, under; And the heavy mounds of the slain, No longer belied his thunder.

There was a pause, a guardman said, "We storm the fort to-morrow Sing while you live, another day Will bring enough of sorrow."

They lay along the battery's side, Below the smoking cannon; Brave hearts, from every camp and from the bank of Shannon.

They sang of love and of fame, Forged was Britain's glory; Each heart recalled a different name, But all sang "Annie Laurie."

And one sang a dirge of death, And another a hymn of praise; And another a hymn of praise, And another a hymn of praise.

And another a hymn of praise, And another a hymn of praise; And another a hymn of praise, And another a hymn of praise.

And another a hymn of praise, And another a hymn of praise; And another a hymn of praise, And another a hymn of praise.

And another a hymn of praise, And another a hymn of praise; And another a hymn of praise, And another a hymn of praise.

And another a hymn of praise, And another a hymn of praise; And another a hymn of praise, And another a hymn of praise.

And another a hymn of praise, And another a hymn of praise; And another a hymn of praise, And another a hymn of praise.

And another a hymn of praise, And another a hymn of praise; And another a hymn of praise, And another a hymn of praise.

And another a hymn of praise, And another a hymn of praise; And another a hymn of praise, And another a hymn of praise.

And another a hymn of praise, And another a hymn of praise; And another a hymn of praise, And another a hymn of praise.

How Matches are Made

A match is a small thing. We seldom pause to think, after it has performed its mission, and we have carelessly thrown it away.

The match of to-day has a story far more interesting than the old-fashioned match.

THE Greenbackers of this place seem to have discovered that they have a huge elephant in their delicate hands, and the National is trying to get rid of itself. Sorry they don't find the newspaper business profitable. An item appeared in the first issue of that sheet that may be well to keep sight of. It is also too true, and reads as follows:

"When a paper starts out for the express purpose of filling a long felt want it fills it from one to four months, besides filling the editor with disgust and his pocket-book full of patent medicine orders, and then fills a space in the graveyard of defunct newspapers."

TWO men named Dan Wood and W. P. Mackey, of New York, were arrested by Sheriff DeMont in Niles, last week, for swindling. They represented themselves to be connected with a medical instrument manufactory in Indianapolis, and were selling county rights for the sale of instruments and medicines, and managing to get hold of the purchaser's note, which they would sell to the first bank and start for the next victim, sometimes finding several of them in the same county. Their operations were being conducted in Indiana while they stopped on this side of the line, and by means of a writ of habeas corpus and the assistance of an accomplice, they slipped through the Sheriff's fingers and skipped. The above we learn from the Mirror.

Irving Paddock cooked the oysters. The table was spread the second time. Uncle James stated that he had lived there 49 years. Mrs. Paddock is quite feeble, but enjoyed the evening pleasantly. Quite a number of sons and daughters and grand children were present. I never was present at a more enjoyable meeting. J. B. Pomroy responded to the toast, "mitchfulness." Mrs. Erasmus Shedd made a few remarks on "music." Mrs. Irving Paddock on "oysters," and J. Wood Smith on "bashfulness." After supper they enjoyed about two hours of solid fun. A petition for the lowering of the kerosene oil test in this State to 120—signed by about two hundred of the citizens of St. Joseph and vicinity—was forwarded to the Legislature on Tuesday. The general sentiment in this section seems to be, at present, strongly in favor of reasonably low test. More and better light is what the people want.

Emboden, an old and respected resident of Pipestone township, while drawing two little children on their sleds, suddenly fell down and expired without scarcely a struggle. MR. DRACK, residing on the west side, was driving home just at evening, a few days since, when a boy caught on his sleigh and rode some distance. He scarcely noticed him, when he heard him cry out that he was fast. That moment he was about to round the corner, into his yard, where a post stood, and had he not stopped the moment he did the boy's head would have been dashed against the post. Jumping on to sleighs by boys is always attended with danger.

MR. DRACK, residing on the west side, was driving home just at evening, a few days since, when a boy caught on his sleigh and rode some distance. He scarcely noticed him, when he heard him cry out that he was fast. That moment he was about to round the corner, into his yard, where a post stood, and had he not stopped the moment he did the boy's head would have been dashed against the post. Jumping on to sleighs by boys is always attended with danger.

Wm. D. Jeffries purchased 11 acres from Orron Brown, for which he paid \$1,100. There are 1,500 grape vines, two acres of strawberries and 150 apple trees on the premises, all in good condition. CUCK.

JOHN A. Sarsfield, sentenced from this city to the State prison for six years about three and a half years ago, has been pardoned by Gov. Crosswell. He was sentenced on the charge of burglary. Mrs. Jane Hayward while out on parole last Tuesday afternoon, fell on a door step and broke her left arm near the wrist.

A petition for the lowering of the kerosene oil test in this State to 120—signed by about two hundred of the citizens of St. Joseph and vicinity—was forwarded to the Legislature on Tuesday.
