Lines?

Amid the deepening twilight,
Amid the gathering gloom;
Alone amid the shadows dim,
That I loath and room,
As Death with stealthy step draws nigh,
I watch the haggard hours go by—

Gazing down the flowery vale,
Where the stars of Memory cast
Rail, not over, cheerful treasures
That were mine in days long past,
I find me as I find a tomb,
Look I out on present gloom.

Dreaming still? Poor heart, in sadness
I will give thee the response,
All that thy pulses leap in gladness—
"Thou art trembling 'neath the light
Of the eyes whose glory made
All life's sunshine turn to shade."

Re then hushed—the dream is over!
Faded hope and tearful eyes,
See I the shadows dim and grey,
Smouldering embers—darken'd skies;
While the heart it made that fate
Leaves the darkly desolate.

Wearily I am retracing
Steps that, swift impelled by years,
Wandered from the past of rapture
To the present time of gloom,
Was this my undoing Heaven?
But to lead me to Heaven?

Where? To that, whose hand hath fostered
In my heart Louis's dearest name,
He! he! could I wish myself despoiled
Of his love, I would be glad,
As I could, I wish myself despoiled,
—(By Maggie A. Coyne.)

TENDER AND TRUE.

One day, as a merry party at Amherst
were talking nonsense to one another,
Louise wandered off and seated herself
in the woods, quite alone and quite happy;
happy for this one moment; happy that
the woods were bright and peaceful; that
the brook wound such sweet music over
the pebbles; that the trees waved, and
the sun shone. All the past was forgotten.

SPRING GOODS.

Look at the Bargains

—HE IS OFFERING—

FOR SIXTY DAYS.

St. Joseph river is getting very low.

A SHORT session of the Circuit Court convened yesterday.

A heavy rain passed to the north of this place Sunday afternoon.

Good apples will be a legal tender this year, and in good demand.

We hear more than the usual number of rattlesnake stories this year.

BENTON HARBOR expects to have a new grain elevator in a short time.

ASTRACHAN apples are being sold for fifty cents per bushel in this place.

Some rather sickly looking affairs are being offered in this place as peaches.

THERE was a Sabbath school concert at the M. E. Church, in Dayton, last Sunday.

Two of the teachers of the schools of St. Joseph spent last Sabbath in this place.

MR. BYLER captured a catfish in the river yesterday that weighed 25 pounds.

THE corn crop will be greatly benefited by the rain, as it was getting badly dried.

A St. Joseph saloon keeper paid \$25 for keeping his saloon open on Sunday. Too cheap, altogether.

SPENCER & BARNES have been building a lot of fanning mills during the last week.

A refreshing rain fell in this place and vicinity Sunday, but more would have been acceptable.

SOUTH BEND has a mineral spring. There are lots of them in the wild meadows of this county.

YESTERDAY morning was of rather dubious appearance for the Young Folks picnic, owing to the rain.

CAPT. FORD, formerly of Niles, has again gone to occupy a chair as associate editor of the Cleveland Leader.

REV. MR. WORTHINGTON returned last Saturday, and occupied his regular place in the M. E. pulpit Sunday.

FOUR young ladies went from this place to Niles to attend a musical soiree by Miss Ella Wells, Friday evening.

THE last days of last week were what some people call hot, and there was but little difference of opinion in the matter.

A son of Wm. Ryneason, aged four years, died of diphtheria Sunday. Two other of his children were sick with the same disease.

CAMP-MEETING at Crystal Springs next week. The largest crowd that gathers in this section of the county the whole year is there.

THE Daily news is selling reserved seats for their excursion to Grand Rapids, from St. Joseph. A new wrinkle.

Too great care cannot be taken in throwing away stubs of lighted cigars these dry times. Many an expensive fire has had its origin in this source.

ST. JOSEPH is receiving good patronage from excursionists from Chicago. The boats running between those places have all the passenger business they can manage.

THEY are buying up new silver quarters now in Omaha for 12 and 13 cents. *Little Shore News.*

Hold a wet cloth to that editor's head, quick.

WEISBERGER & WRIGHT, the Wakelee mill men, expect to get 100,000 feet of walnut lumber out of the timber tract recently purchased of Jones and Read. *Marcellus News.*

THE firm of McOmber & Hurley, real estate dealers of Berrien Springs, has been changed to Chas. F. Howe & Co., a new partner having been taken in.

THE Editor of the Constantine Mercury, in his advertisement, says his office is a "shebang." A confession hardly to be expected from one of his refinement.

MR. E. A. SMITH lost a span of Texas ponies last week either by being stolen or straying away.

LATER—He has heard from them at Warren Center, Indiana.

The wagon factory was started again Monday morning to run a short time in removing stock, when the building is to undergo a course of repairs preparatory to a steady run.

A NUMBER went from Dayton on the second cheap excursion to Lansing from South Bend last Sunday. Sunday is a poor day to visit the capitol to see any of the attractive sights.

MR. JOHN BROW will sell his personal property at public auction, at his late residence, five miles north of this place, on the Berrien road, on Wednesday, August 20.

MR. OLIVER SPATLING brought to our office, on Monday evening, a basket of yellow harvest and red astrachan apples, that are hard to beat for size, and they were enjoyed by all hands. Thanks.

Fabe Martin of Dowagiac is building a comic opera, which will be presented to the public next winter. *Lansing Republic.*

We have an advertising account against him that is for sale cheap.

MRS. A. BUSH, of Humboldt, Kansas, better known in this vicinity as Mrs. Cady, formerly of Dayton, is visiting among her many friends in this vicinity.

Theraput who can be on the grounds when a contest is going on between his merchandise and others when the other man is not, repays the benefit by making the sale. Enterprise is the life of business.

The Hose Companies in all parts of the State are now practicing for the State Tournament, to be held at Battle Creek, Sept. 3 and 4 next. It is probable that a good number from this place will go.

NIX OSBORN had another foot-race Saturday evening. This time with a Niles man named Schmidt, and backed about three feet of getting through in time. This is a good time to quit.

THE two Democratic editors of Niles are doing a good work at calling each other fools. If they keep it up a short time longer, their readers will conclude that both are about right. Better let up while your reputation lasts.

THOMAS R. HARRIS, of St. Joseph was in one of two bloody fights in one of which he was badly injured by the edge of a heavy beam in the hands of another man, set fire to a barn and tried to fire a house, all within three days last week. He is now in jail cooling off. *Post and Tribune.*

MISS JENNIE MEAD, of this place, has accepted the position of teacher in the grammar school of the Charlotte schools, at a salary of \$350. This leaves the second primary department of our school still without a teacher.

MISS LYDA HANLIN did not accept the offer of the position of teacher in the grammar department of our school, and at a meeting of the Board, held last Thursday, Miss Irene Broadhurst was elected to that position.

THE Ladies' Society of the Presbyterian Church of Niles will give a concert at their church, in that place, tomorrow evening. They have a splendid programme, and a good entertainment may be expected. An admission of 25 cents will be charged.

SEVERAL of our Granger friends contemplate going to Crystal Springs camp-ground to hear Hon. Thomas F. Moore, of Adrian, speak. They can go from here at 10:32 and return at 6:45 by way freight.

MR. HENSELMAN threshed from 34 acres of the Miller farm belonging to Solomon and George H. Rough, 2100 bushels of wheat, being an average of 40 bushels to the acre. Some portions of the ground averaged as high as 50 bushels.

SEVERAL went from this place to the emancipation celebration in Cass county, last Friday, and report one of the largest crowds seen together for many a day. One estimate was that there were 10,000 people present.

THE room in this building formerly occupied by Billy Dick, has been rented to Fred Schray as a shop for the manufacture of organs. He is a splendid workman, and will make good instruments or none.

MR. J. P. BURNS, while loading a car with Buchanan wagons Monday, allowed some of the wheels to fall down against him, and bruise him about the shoulder and chest quite badly. No bones were broken.

MR. JONAH THREEDILL, of this place, for several years employed as miller in Rough & Pears' mill, intends moving to Nebraska to where his two sons are now living, in a short time.

THERE is a law in this State requiring people to keep Canada thistles, burdock, and other noxious weeds, cut down from the roadside, and now is a good time to attend to them before the seed ripens and is scattered over the land to grow another year.

ST. JOSEPH is rejoicing in the fact that a famous drinking hell, called the Tivoli, has been closed, and the proprietors fined \$25 each for selling liquor to minors. We learn that one of the proprietors is Charley Hulsart, well known in this place and South Bend.

THE house that Simeon Stevens lives in, on Main street, caught fire in the roof, probably from a spark from the chimney, Saturday morning, and burned a hole about four feet across. His boy of about eleven years and Mrs. Stevens put out the fire without further assistance.

THURGLAHS entered the store of Mr. Ebenezer Harris, of Galien, last Sunday, and stole some hats and a few other trinkets, besides about \$15 in money and a lot of cigars. They entered by a window. No clew to the thieves.

A refugee from the South is said to be suffering from yellow fever in Paw Paw. There is not supposed to be much danger from the disease in this climate, but we do not care to be careless with it. If it once gets a good start here, there is no knowing when it will quit.

The "editor" of the Benton Harbor Times is raving around like a mad bull, for something, no one knows what. He will land in the insane asylum in spite of fate if he is not stopped in his mad career. A mustard poultice on the bottom of his feet and a cold bath at the seat of his b—rains may help him.

A NATIONAL Fireman's tournament is advertised for Michigan City, in September, with prizes to the amount of over \$800, entries open to any company in the United States and Canada. Reduced rates will be offered by the railroad. It is expected there will be a good attendance from this place.

The usual number of accidents of threshing machines occur this year. Wilbur Long came near getting into the cylinder of his machine, last week, by the top of the cap giving way while he was walking over it, letting his foot down against the back side of the cylinder. A new board in the cap repaired all the damage.

AFTER having been non-suited in his cause for criminal offense by Mr. Crocker, as reported in these columns, George Dunbar had him arrested again for trespass, and this time gained the suit, making Crocker pay a fine of 25 cents and the costs of suit, besides sustaining his fence across the lane leading to Crocker's mill and the site of Niles bridge.

CHAS. A. BARNARD, of Niles, has entered for the single sculling race at the regatta on the Bay Beach lake, Aug. 13 and 14. The two Niles boat-club have entered for both of the double classes. Ex-Governor Bagley has offered to give four prizes, valued at \$250, for a race between the Hillsdale, Walworth-sums, Shaw-waggonettes, Wyandottes and other Michigan clubs.

WE see in the list of officers of the Sedan (Kan.) Republican Club the names of two of our former townsmen: N. H. Merrill, Co. Secretary and J. M. Matthews, Treas. They always did their share of the work when they were here, and we are glad to know that they will not "take a back seat" in their new home.

LAST week Deputy Inspector Mars found in New Buffalo some kerosene oil that flashed at 94, that was being used for illuminating purposes. A barrel of the stuff rolled into the street where the sun could shine on it, these hot days, would explode in a short time. Not very safe stuff that for use in lamps.

ONE day last week Mr. Wilbur Long, with one of the Runley Separators, threshed for Eli Wade 1,602 bushels of wheat for a day's work. Mr. Wade's entire crop yielded 25 bushels per acre. He also threshed for "Gran." Woolman, 40 bushels per acre. He says that the lowest average per acre he has yet found in his threshing was 23 bushels.

A Grange meeting at Bainbridge, in this county, next Tuesday, Aug. 12, will be addressed by Mr. Mortimer Whitehead, of New Jersey, lecturer of the National Grange. Mr. Whitehead is said to be an easy, fluent speaker, and will give the brethren a good pleasant talk. Several of the officers of the Michigan State Grange are expected to be present and speak.

THE State Teachers Institute for Berrien county will be held in Niles, this year, commencing at 2 p. m., Monday, August 18, and closing the Friday following. Prof. A. J. Daniels, of Grand Rapids, will have charge. Other prominent educators will be present. Every teacher in the county is requested to attend.

THERE are several families to whom the RECORD has been a regular visitor, and we trust a welcome one, for several years, but who will miss its regular appearance this week. We feel sorry for them but we have taken pity on them as long as we can stand it, and now has come the quitting time, and must bid them a solemn and sad adieu. It takes cash to buy paper.

THE race between Frank Barr and Fred Wagner, in South Bend, last Friday, was declared in favor of Wagner. Barr and his friends do not seem satisfied, however, and a new race is to be run August 15, with the stakes doubled. Barr claims to have lost a little time by a slip, when the other man slipped just far enough ahead of him to win the race. The time, as reported to us, was 10 1/2 seconds.

IN 1819 the receipts of the post-office department in this country amounted to \$1,204,727. In 1869 to \$18,344,511, and estimated from the receipts of the quarter just passed, the receipts for the present year is estimated at \$32,000,000, about four times that of 1859. The receipts of the past quarter were larger than any previous period of the same duration. Some people look upon this as a return of good times, but one intelligent Greenbacker of this place explains it by saying that the poor people are writing to their more prosperous friends for assistance.

MR. "BILLY" DICK has moved his butter scotch apparatus to Kalamazoo, where he expects to continue the manufacture of his celebrated scotch, with other fancy candies, besides keeping a full assortment of foreign and domestic fruits. He has a large room on South Burdick Street, second door this side of the post office. If any of his friends happen to be in Kalamazoo, there is where he may be found. We do not like to see him leave Buchanan, but if he can do better elsewhere, we can but bid him a God speed. Mr. Morris Lyon accompanies him as a partner in the business.

DASTARDLY—We learn that some scoundrel has again defaced the monument of Mr. Joseph Coveney in Oak Ridge Cemetery, breaking a piece of it off and throwing tobacco quids against it. Such meanness deserves the severest punishment, and the perpetrator would receive it if he could be found out.

THERE was a great fall of water at Battle Creek, July 25, by the tumble of the water-tank containing 32,000 barrels at the Michigan Central station. John Bracken, of Niles was badly bruised by a falling plank, and Will Freeman, a boy, was nearly drowned. The workmen barely escaped with their lives. The tank had just been erected, and the damage is \$1,000.

MR. O. D. CARLISLE has instituted a new lodge of Imperial Knights of 20 members, at Dowagiac. We learn that he has left this place with the purpose of giving his brain a chance to make him a fortune. Those who know him best think his stock in trade is too small to net him very great profit, and he could better employ himself by caring for his family who are in needy circumstances.

Remaining in the Post Office at Buchanan, Wednesday, August 6, 1879: Clements, Mrs. Car. Shaw, C. W. Wood, Alfred III, Miss Loreney Wilds, Jane Wilson, Ill.

This list is published free for the information of the readers of the Record, therefore there is no charge for delivery of letters advertised herein. Persons will, however, in claiming any of the above, call for "advertisements." L. L. ALEXANDER, P. M.

THE next time that Chicago hardware man with a brush mustache and pink eyes comes here and spends a half week, more or less, flirting with the girls across the street, the boys talk of tying his toes, and ears together and send him adrift down the creek. They will let him live this time. He can hardly be blamed, for the girl is about as big a fool as he is.

MORE IMPROVEMENTS—Mr. N. Hamilton is improving his premises by building a cement walk along the front, and Monday will commence work on his house to make it a half story higher, thus giving better ventilation for the upper rooms. The cement work is being done by Eli Calbetor, of South Bend.

BERRIEN SPRINGS LODGE, I. O. O. F., at their meeting on last Monday evening, decided to invite the Odd Fellows of Berrien County to join them in a picnic at Barnard's grove, near Berrien Springs, on Thursday, Sept. 4, 1879. This will no doubt be one of the finest affairs of the season, and should be attended by every member of the Order in the county. Buchanan will no doubt be well represented.

JOHN R. CLARK, who, a few weeks since, delivered a course of temperance lectures in this place, is talking prohibition in the eastern part of this State. Mr. Clark is a good talker, but the Michigan people have found a way that works better than prohibition, and the sooner he drops that branch of the temperance question, the greater will be his success.

A COMPANY consisting of Mr. and Mrs. F. Franklin, Mr. and Mrs. S. Barnore, Mr. and Mrs. George Richards, Mr. and Mrs. E. Eaton, Mr. and Mrs. George Merrill, Harry and Alfred Richards, and the Misses Katie, Lucy, Mary and Emma Richards, Nellie Post and Nettie Samson, went to Diamond Lake yesterday morning for a rustating expedition, to be away until next Tuesday or longer. We learn that it is the intention of John C. Dick, Chas. E. Terriere and George G. Rogers to join them Saturday. They will no doubt enjoy themselves hugely.

THE young folks of Berrien county gathered at the county seat to the number of several hundred, yesterday, with baskets of provender, for a grand picnic, which was enjoyed to the fullest extent bating the inconvenience occasioned by the light rain in the forenoon. Speeches were made by all of the speakers announced on the bills with the exception of our young friend Bert Worthington, whose courage failed ere the crisis arrived. The gold medal for the best band present was awarded the Pipestone band, who furnished all of the band music of the day.

Last week a horse belonging to John M. Glavin, shot away from home and when found it was discovered that he had been shot in the neck, making a bad wound. Mr. Glavin was informed that the horse had gone on the premises of Ira Smith, who had caught the horse tied and shot him. This naturally aroused the ire of Mr. Glavin, who on meeting Mr. Smith at the depot, on Saturday, went for him, knocked him down and pummeled him about the head and shoulders, and prevented Glavin from sending him to the happy hunting grounds. *Three Oaks Independent.*

DURING the year 1878, in this county, there were 707 births, an increase over 1877 of 149. In the same year there were 301 deaths, an increase over 1877 of 36. Owing to negligence or wilfulness of certain ministers who perform the marriage ceremony, in not making returns to the county clerk, there is not a reliable record in regard to the number of marriages in 1878. For some reason the Episcopal ministers of Niles City have always declined to comply with the law in making returns to the county clerk's office. There were 301 marriage certificates recorded in 1878, 29 less than in 1877. *Berrien Springs Journal.*

There is a provision in the statutes for the severe punishment of such ministers as either neglect or refuse to perform that part of their work, and why is it not enforced.

SEVERAL of those who are musically inclined have asked us for information regarding the musical excursion to Klinger's lake. For their benefit we publish the following from the Sogith Bend Tribune:

"Mr. Clifford has completed the arrangements for the grand musical picnic at Klinger's lake, at Tuesday, the 14th inst. A glorious time is anticipated. The excursion train from this point will leave South Bend at eight o'clock a. m., returning in the evening. The bands of northern Indiana and southern Michigan will participate, and excursion trains will run over the different roads leading towards the lake. Two concerts will be given at the lake during the day. Fare for the round trip from South Bend and Milwaukee will be 75 cents."

THE house and lot on Oak street, opposite Weisberger's mill, and owned by Henry Waterman, will be sold at public auction, on the premises, one week from next Saturday, August 16. Terms made known at time of sale. A lot of household furniture will be sold at the same time and place.

THE following item clipped from a recent number of the Chautauqua County Journal, Sedan, Kansas, will probably be of interest to the many friends of N. H. Merrill in this place. A specimen of the rock referred to is in our possession. It is coralline marble, and as nearly described below as may be.

"Mr. Merrill, while quarrying rock on the hill north of town, with which to build himself a house, discovered a quantity which is very fine, susceptible to high polish and superior finish. We hope this is the case, for hereafter we should like to see solid structures erected instead of wooden shells, which are but temporary bark for a wind storm."

A NEW BOOK—A new and most valuable book, both for reference and the study of modern history, and especially by the young people, entitled The Great Events of Our Past Century, by R. M. Devins, brother of Attorney General Devins, has appeared among us. Its convenient arrangements of subjects renders it most valuable as a book of reference, the contents being under topical heads, the first containing accounts of the political events, the second, of battles, sieges and naval engagements; the third, of oratorical achievements of great note; the fourth, wonderful phenomena of the natural elements, the eighth, of the remarkable reforms delusion and excitement in the moral and religious world, and so on through the entire work of nearly 700 pages. Under these separate divisions are given all subjects of special interest under each, dating from the first to the one hundredth birthday of our nation, with biographical sketches of the persons in most prominent connection with them. Each topic is appropriately and accurately illustrated by finely executed engravings, over two hundred in all. The full text of the famous debate between Webster and Hayne, an account of the caning of Senator Charles Sumner, by Preston Brooks, are given. The work has received high praise from a large number of leading men of the country, and one of its best recommendations is that its first subscribers were President Grant and his entire cabinet, and over two thirds of the members of the Senate. This valuable work will, during the coming week, be presented to the citizens of Buchanan by Mr. Hoag, the agent. Those who subscribe will not regret the act.

COUNTY PRESS. [St. Joseph Traveler-Herald.] The blackberry crop is being cut short by the continued dry weather. ... The little daughter Sadie swallowed an ordinary pin on last Friday night. Mrs. P. was somewhat frightened when she learned the fact, but the little one appeared to feel no bad effects and on Wednesday got rid of the disagreeable ailment.

[St. Joseph Daily News, Saturday.] A man, his name could not be ascertained, who is working for Chas. Vandenberg, Benton Harbor, fell from a hay stack and broke his leg yesterday afternoon. He came to Benton Harbor from Niles. ... Some of the notable arrivals at the American House to-day were: Mr. J. E. Bate, Grand Rapids; W. Rummig, Chicago; W. A. Palmer, Buchanan.

[St. Joseph Republican.] Bridgeman is going to have a flour mill. ... Deputy Sheriff Clark on Monday last shot a small dog, belonging to Mrs. Ormsbee, which exhibited symptoms of rabies. Philip Singer, of Lincoln, while operating a saw in the wooden ware works, on Wednesday, got his right hand in connection with the saw and had two of his fingers so badly mangled that amputation was necessary.

[Berrien Springs Era.] On Saturday morning last, a beautiful snow-white hen, was shot in Pipestone by Mr. Shake Tatman. It was first discovered by Prof. H. G. Hipp, to whom it was given, and was by him presented to Dr. Barnard. The Doctor has sent it to Niles to be stuffed and mounted. It will form an interesting feature of the Doctor's collection. ... Chas. F. Howe, of this place, used to own "John Bull"—the locomotive run in the United States. He used it in the lumber business at Charlotteville—now Bridgman—in this county. It was in the vicinity of Bridgman for years, and may be there yet. He paid \$1,300 for it.

[Niles Republican.] Mr. W. J. Cummings, of this city, a recent graduate of the Law Department of the State University, left yesterday for Colorado, where he expects to make his future home. ... John Johnson, Jr., of Berrien township, last week threshed the wheat from a 12-acre field and had the harvest yield of 444 bushels, or 37 bushels, machine measure, to the acre. ... A tramp named John Hurley, got so drunk at the Central depot, on Tuesday evening, that he tried to hunt a locomotive on the track. His efforts in this direction were not successful, but rendered necessary the services of a surgeon. Dr. Bonine was called, but the fellow was so drunk as to be belligerent, and showed fight when the Doctor attempted to dress his wounds. Hurley was finally placed upon a stretcher and locked up in the baggage room over night, and the next morning was sent off bareheaded, some thief having stolen his hat when he was drunk.

Corner Drug Store.

You Must Cure That Cough.

With Shiloh's Consumption Cure you can cure yourself. It has established the fact that Consumption can be cured, while for Coughs, Bronchitis, Whooping Cough, Asthma, and all diseases of Throat and Lungs, it is absolutely without an equal. Two doses will relieve your child of Croup. It is pleasant to take, and perfectly harmless to the youngest child, and no mother can afford to be without it. You can use two-thirds of a bottle, and if what we say is not true we will refund the price paid. Price 10 cents, 50 cents, and \$1.

All Sante

In cooking a fowl, to ascertain when it is done, put a skewer into the breast, and if the breast is tender the fowl is done.

There are five hundred acres of straw-berries bed in the neighborhood of Paris. The sales average \$125 an acre.

According to an official return seventy-seven years died of starvation in London last year.

One of the most difficult duties of life is to be respectful to persons that we despise.

Yellow dust, deposited after some recent heavy rains in England, and supposed to be flowers of sulphur, has been found to be pine-pollen.

Sir Henry Thompson, an English surgeon divides Europeans into two-meal, three-meal and four-meal races, and describes tobacco as an "ally of temperance."

In virtue of the czar's special ukase, the crown's possessions are proclaimed untaxable, and the taxes due for previous years are to be taken off.

There is a greenness in onions and potatoes that render them hard to digest. For health's sake put them in warm water for an hour before cooking.

Two twin brothers are said to be so much alike that they frequently borrow money of each other without knowing of it.

A lodge of antiraitic coal has been discovered from Wall Creek, Washington territory, and is estimated at twenty-six miles from Wall Wall.

Price is a directness passion—the peacock's pride, the proud of the horse, and the lust insensate one, to *Wash. Lit. Digest*.

The last accusation against the nihilists in Russia, is that they have taken to the issue of counterfeit bills of the bank and to the coinage of false money.

A doctor to his son: "Johnny, wouldn't you like to be a doctor?" "No, father."

"Why not, my son?" "Why, father, I could not even kill a fly."

Paper is made by the Japanese from blue rags. The water in which these rags were soaked was formerly run off into the streets with pumice stones to clear now it is saved and indigo extracted from it.

Savannah recently shipped to Liverpool the largest cargo of resin ever exported from this country. It contained \$530,000 barrels, which are valued at nearly \$40,000.

"My son's at the gate" is the title of a new piece of music. It had better be careful, or he may find the old man's sole at the gate, too, some of these fine evenings.

She was an Albany lady who informed a writer she was having gonorrhea and in the wails in which to place statues, and in one of them the burst of her husband."

A mixture composed of one part of powdered borax and two parts powdered sugar sprinkled on the floor where cockroaches frequent, will soon eradicate them.

A certain young lady, who was a little behindhand in her summer outfit, surprised her parents by asking why she was unlike George Washington. When they

A newly married man complains of the high price of ducks. He says his wife remarks that one of them—a duck—has a bonnet, a duck of a dress, and a duck of a parasol. He says such "dealing in poultry" will ruin him.

The cost of the late Durham strike in England is estimated at \$3,200,000; nearly half is borne by the men. Without reckoning interest it is computed that it will take 9½ years to make up the sum lost.

A new porch, in the Ionic style has been discovered at Olympia, and will be at once unearthed. The head of one of the tympanum statues has also been found and a metope representing the struggle of Hercules with the Amazons.

A legal gentleman met one brother lawyer on Court street, Boston, one day, and the following conversation took place: "Well, Judge, how is business?" "Dull, dull; I am living on faith and hope." "Very good, but I have got them, for I'm living on charity."

An article of increasing export from this country is machine-made joinery.—One hundred thousand doors have been sent to England in a year, and windows

The leg of Mrs. H. A. Doty, a well-known lady of Bloomington, Ill., was broken by the contraction of muscles recently, resulting from inflammatory rheumatism. The case is considered very remarkable by the physicians.

Alexander Beaves edits the Grunwaldt (Va.) Vidette. He was subpoenaed as a witness in the Rives case, and the Circuit Judge sent him to prison for contempt.

The next issue of his paper contained this brief but brilliant editorial: "Damn old Rives!"

According to the London Truth Canon Beadon attributed his long life to the facts that he never entered any brain-work, or did the slightest sort of a brain job, and that he never had a single day of his life he had taken any medicine, and that he always rose at a very early hour.

From data collected by the Narex Polar expedition in 1875-6, Prof. Fries, of Upsala, infers that lichens may exist at the very pole if there is land there occasionally free from snow and ice. He infers no belief in the existence of an open polar sea.

A little girl about four years old and

little boy about six, had been cautioned not to take away the nest-egg; but one morning when they went for the eggs, the little girl took it and started for the house. "—her disappointed brother followed, crying, '—Mother, where's my egg?' and she got the old hen measures by it."

"John, did you go round and ask him about old Mrs. Jones is this morning, as I told you to do last night?" "Yes, sir."

"Well, what's the result?" "She said that seeing as how you'd had the impudence to send to ask how old she was, she'd no objection to telling you she's twenty-four."

"But you know, pa," said the farmer's daughter when he spoke to her about the addresses of his neighbor's son, "you know, pa, that 'ma wants me to marry, so you know, pa." "So do I, my dear, so do I; and there's no better culture in the country than agriculture."—*Hartford Courant.*

At the Berlin exhibition there is an electric railway by Siemens and Halske. The power is supplied by a dynamo-electric machine worked by a steam-engine, to another dynamo-electric machine which works the wheels of an electric locomotive. The roadway is two hundred and thirty-six inches wide, and the rails are to be three metres apart, with three

wagons and twenty passengers.

"Why do you look at me so, sir?" he said that he was not aware of having done so, but she insisted. "I beg your pardon, but it's this eye, ~~is it not?~~ it's this finger to his left side. 'Yes, sir, it's that eye.' 'Well, my dear lady, that's all right, do you see? It's a glass eye, madam—undoubtedly a glass eye.' 'I am not surprised that even a glass eye should feel interested in me so pretty a woman.' The compliment delighted her, and she married him soon afterward.

A Russian paper gives an account of a plague of locusts near Elisapetopol which had a fatal effect of troops, on the march to retrace their way. The locusts were so thick on the soldiers' faces, uniforms and muskets, that the Major, driven to desperation, ordered, during that night, the firing of half an hour, but this produced no effect; the locusts were ordered. The swarms were as great as
