THAN. HAMILTON says he has his hand done up in a rag to keep it warm but he doesn't use it because there are three or four boils on it. WE learn it is the intention of Mr. A. Kern to erect a new building for a book and shoe store on a portion of the railroad lot in Dayton, in a short time.

A correspondent of the Niles Mirror of this week has an encouraging notice of Miss M. A. Hollenbeck, of this place. It is none too good, however. SEED CORN properly selected now and placed in a dry place, under shelter will not give the owner trouble when he comes to plant next spring.

SEVERAL State papers stole our item regarding the fall of 1841 being very similar to this, but place it in Kalamazoo county. Credit sometimes saves such errors. REV. H. WORTHINGTON, of Dowagiac, gave the RECORD office a call on Friday morning last. The marriage notice in another column will explain this presence in this village.

The flow of sawlogs into the mill yard, in this place, has considerably increased in the past few days, and some valuable poplar and walnut logs are being drawn in. THE Niles District Conference of the M. E. Church met in St. Joseph yesterday. Rev. J. White and Mr. Seth Smith were in attendance from this place.

ROUGH BROTHERS have put down a new brick walk on the south front of the Tremont Building, and we learn it is their intention to build some more of the same kind in a short time. FARMERS, now is the time to gather those potato and corn crops, while the weather is good. The first thing you know you will have cold disagreeable weather, that will not only be bad to work in but damage those crops if out.

REV. MR. WEATHERMAN, of Berrien Springs, will preach in the Presbyterian Church in this place, next Sunday morning. Mr. Wells will occupy the pulpit of Mr. Weatherman in Berrien.

A YOUNG man in Niles named Sinclair has invented a folding sleeping chair that is said to be a pretty good invention. He will try to introduce it for use on railway coaches. OUR friend Major Duncan of the Niles Republican has, through some mysterious source, discovered that he is the only angel in this part of the world. We will send you a box of Dodd's pills, Major, if you think they will make you feel better.

A CORPS of four ninnyrods from this place spent the last part of last week shooting ducks. They didn't have to hire extra teams to bring home their game. DONAVIN'S Tennesseans gave a jubilee concert in Grange hall, last evening, to a good sized audience. Their singing was the best of the kind that has been in this place.

THE work of repairing Rough's hall is progressing finely. The lathing is now about half done, and the plasterer will commence his work the fore part of next week.

R. MORGAN and Adam Barman started for Peru, Indiana, Tuesday, and we learn, with the intention of entering into the butchering business. Success to them.

MR. H. N. HATHAWAY has been greatly improving his lot on Portage and Fourth streets, by moving on a barn, and putting new roofs on all of the buildings. We are glad to note such improvements by any of our citizens.

MR. F. T. PLIMPTON returned Saturday evening from an extended trip through the south-west, in the interest of the Buchanan manufacturing company. He reports a large and increasing trade which speaks well for the company.

THE man who borrowed our shovel, without leave, will greatly oblige us by returning it, and the next time he wants to borrow a shovel, to ask permission.

AN agent for the solicitation of subscriptions and collections for the RECORD, will call on the citizens of the western part of the county in a few days, and those who are in arrears are requested to be prepared for his coming, and treat him well.

DR. MYERS now has the finest phaeton in this part of the country. The seat and back are lined with springs, which make a neat one for comfort, but the best of the whole story is, it was gotten up entirely in Buchanan.

THE dedication of the new Baptist Church in Niles will take place on Sunday, Nov. 9. The dedication sermon will be preached by Rev. Galusha Anderson, D. D., the President of Chicago University, in the morning. Other sermons in the afternoon and evening. Everybody is invited.

OWNERS of cattle in this village should remember that but a few days remain in which they may allow them to run at large within the corporation. After the 1st of November they must be either kept shut up or go to the pound, if caught upon the streets.

The second annual convention of the Woman's Christian Temperance Union, of the 4th Congressional District, will be held at Decatur, November 4, 5 and 6, 1879, commencing on the evening of the fourth. A good programme has been prepared for the occasion, in which some of the members of the union in this place are represented.

WE have just received a new stock of fine stationery for wedding invitations, also a lot of card-board, fancy papers for programmes, envelopes, shipping-tags, besides some new and valuable addition to our supply of job type. When you want anything in the line of job printing, give us a call and we will try to give you a good job.

GOOD.—Mr. J. D. Ross has given a life-lease of his vacant lot, west of the corner of Front and Portage streets, to Mrs. H. G. H. She then went around town and raised enough money to build her a comfortable house, which is being built, and the workmen expect to have it completed by Saturday night.

SATURDAY last was another of those busy days for which Buchanan is noted. There was one kind of business, however, judging from its works, which was overdone. We noticed one man so drunk that he was entirely helpless, and had to be loaded into a wagon and carried off like a dead hog. Several others were in but little better condition.

MR. JOHN KINGERY, while at work about the gearing that runs the corn sheller in the grist mill, yesterday, caught his clothing in the cogs and was rendered disabile instantler. The damage on his part was a few scratches about the back and a raised knee, and on the part of the machinery, five broken cogs, and the whole apparatus out of line.

ONE man living about half way between this place and South Bend, informed us that he recently bought a new wagon box in this place for considerable less than he would have been obliged to pay for the same kind of box in South Bend. People are beginning to learn that it is to their interest to come to Buchanan to do their trading. Our dealers are all doing a better business than ever before, and it is constantly increasing.

THE RAILROAD.—Another meeting for the preliminary canvass of the question of building a narrow gauge railroad from St. Joseph to South Bend, was held in Berrien Springs Tuesday afternoon. A committee was appointed there to attend to the preliminary arrangements, the question pretty thoroughly talked over, and with a brightening prospect that in the near future the road will be built as far north as Berrien Springs, if no farther.

MONDAY evening the following officers of Buchanan Lodge, No. 856, I. O. G. T., were elected: J. H. Roe, W. C. T. Mrs. I. N. Mowery, W. V. T. Miss J. A. E. Pardee, W. See. H. J. Hall, W. Treas. E. Phelps, W. F. S. Mr. John Logan, W. M. Mrs. Tam. Merrill, W. I. G. Miss. Genie Michael, W. O. G.

ON Friday night three young men, Thos. Morley, Michael Donnelly and Marion Hill, went out to hunt opos, some four miles west of this place, and came across what they supposed to be one in a tree. Young Morley fired and brought down a fine specimen of lynx. He was four feet long, two feet high, and weighed forty pounds. They brought their game to town Saturday morning, when it attracted considerable attention. We are informed that two of these animals have been heard in that neighborhood for the past three years, and now undoubtedly efforts will be made to secure the remaining one.

THE most social event of the season was the marriage of Miss Lou Nette Sanson, Buchanan, to Mr. William J. Jennings, of Texas, on Thursday evening last. The ceremony was performed at 7 o'clock, the Rev. H. Worthington, of Dowagiac, officiating. The floral decorations were rare and beautiful. The bride was attired in an elegant moth colored silk and brocade, adorned with natural flowers. The bride conversed in her usual lively and entertaining manner, and all seemed highly pleased with the evening's entertainment. The bridegroom wore a black dress suit, white kids, white vest, white neck-tie, and with all they were the neatest and happiest looking pair we have seen for many a day. After receiving the congratulations of the many friends, the wedding supper was announced, to which about sixty guests did ample justice. The gifts and donors were as follows: \$100, Mr. H. G. Sanson; silver teaspoons, desert spoons, and butter knife, Mrs. H. G. Sanson; gold, cameo and pearl jewelry, and Celluloid toilet set and case, Mr. William J. DR. JOHN BELL has refused an offer of \$25,000 cash for his Leadville mine. The schooner "Cora" went ashore north of the harbor during the storm Wednesday night. She had on a load of lumber, and for some unknown reason was unable to make the harbor. She is high and dry, and it is thought she has sustained little or no damage.

WE received a note yesterday from Mr. E. T. Dickson, of Berrien Centre, containing the sample referred to, Mr. D. says: "I send you a specimen stock of blades of wheat that I pulled out of a field that was sown on or about the 12th of September. The stock measured 20 5/8 inches in length when pulled to-day. I was not looking for the largest stock of wheat when I pulled it, and presume I might have found stocks of greater length, but this will do to start with."

Business good. Pleasant weather. Mr. McDaniels, of New Carlisle, is in town. Miss Lucy Martin is very low with consumption.

THE horse-thief society met here yesterday. Quite a large attendance. There are several hundred members. I should think a thief would need a large organ of secretiveness to keep out of their clutches, if the members of the society carry out their rules and regulations. There is no doubt that there is less thieving on account of said society.

DR. BAKER is stirring around lively this morning moving things. I dare not say much about him, for fear people may think that he is about to marry. Several flour mill men have been here talking loud about building a mill.
