

JOHN G. HOLMES, Editor.

THURSDAY, JAN. 8, 1880.

The lottery case before the United States Supreme Court is to be reargued.

The Maine fiasco will have its effect on the election next fall, of which the Republicans need not be ashamed.

General Grant has gone on a visit to Cuba, to be in that country a few weeks, after which he will visit Mexico.

James Keene, of New York, has shipped \$4,000,000 in gold to Chicago to care for his January deals in wheat with.

An advance of three and one-half cents per pound was made in the price of bar iron, on Monday, by the Western Iron Association.

The total coinage of the United States mints for the month of December was \$2,776,466, of which about \$1,500,000 was gold.

In the Sandwich Islands they use traction engines for drawing their cane to the mills, making one ten-horse engine do the work of eighty oxen, by increased loads and speed.

Senator Chandler's will, executed in 1863, has been found among the papers of the late Judge Edmunds in Washington. In this will he bequeaths one-half of his estate to his daughter and the remainder to his wife.

One hundred dollar shares in the Edison light stocks sell at \$2.00, and some of the stockholders refuse even as high as \$4.00. It is evident that they think at least they have a good thing, and will hold it.

It was cold enough in Minneapolis Christmas day to cast mercury bullets hard enough to shoot a hole through the side of a barn. Forty degrees below zero is the report, and that is clear to the bottom of the thermometer. We have no such weather as that in this part of the country.

The law questions, relative to the stealing of the State of Maine, have been referred to the supreme court, as proposed by Senator Morrill. Governor Garcelon, however, selects his own questions, and not those propounded by the Senator.

The last number of the Scientific American contains an illustration of Edison's new electric lamp, and a detailed account of its construction, and an expression of the opinion that it is a matter of time only, and that a short time, when it will come into universal use.

Talmage, in his remarks on the Maine question, expresses his belief that Governor Garcelon is as pure a man as can be found in public life, and that any wrong that may have occurred in the settlement of the elections of that State has arisen through error in judgment rather than from dishonest motives.

Congressman Townsend, of Illinois, has made a move in the right direction, by introducing a resolution proposing an amendment to the constitution, placing a limitation of six years on the time allowed for the presentation of claims of any kind against the government. There is now no limit to them, and claims are repeatedly brought forward from one congress to another, until finally they are allowed.

It is a well known custom of English railway companies to lock the doors of their passenger coaches while in motion. What a situation this practice would place any passenger, who might otherwise escape, in such a calamity as that of the famous Tay bridge. Such a practice would not be tolerated in America for an instant.

The Governor of Maine, in accordance with the request of Senator Morrill, submitted the legal points occurring the September election in that State to the Supreme Court of that State, and their decision, instead of favoring an 8 to 7 affair stood 7 to 0, in favor of the Republican representatives counted on, on every point submitted to them, and notwithstanding the previous announcement by Gov. Garcelon, the decision should make no difference with the result, whichever way it might be. Four of those who were defeated at the polls but were offered their certificates of election, refused to serve, under such circumstances. The Republicans are jubilant over this, and are confident that they will yet succeed in getting their full representation in the Legislature.

The public debt statement for December shows a decrease in the debt of \$4,251,217, and a decrease since June 30th, 1879, of \$15,408,751. The total debt at the beginning of the year was \$2,105,000,455, with \$207,082,903 of cash in the treasury. The treasury officials claim that the above rate of decrease can be kept up throughout the year, unless there is some legislation by Congress to retard it by furnishing other means for the use of the money. The report of the internal revenue receipts since Nov. 30, 1879, shows an increase of \$1,815,672,57 over the total receipts for the corresponding time in 1878. Taken altogether the report is not an unfavorable one.

Judge Hoyt, of the Grand Rapids circuit, in charging a jury in a libel case on last Tuesday, said: "It is commendable in a newspaper to be as quick as possible in procuring the news of the day, and if, in the hurry of going to press, an article should appear which the publisher believed to be true, and afterward is proven to be untrue, he had no time to ascertain the truth of the same, although receiving his information from a reliable source, such should be taken into consideration in mitigation of damages in case the defendants did not fully justify the truth of the article reported."

ADDITIONAL LOCALS.

The annual election of the Farmers' Mutual Fire Insurance Association of Berrien and Cass counties, Mich., will be held at the Secretary's office, the first Saturday in February, 1880, between the hours of one and four P. M. for the purpose of electing one President, one Secretary and ten Directors. WILLIAM HASLETT, Secretary. Dated Jan. 5, 1880.

COURT TICKETS.—When the coupon tickets were first placed in the office of the M. C. Company in this city, the general passenger agent said that if one ticket a day were sold from that case it would be as well as any of their coupon cases outside of the large city offices were doing, and would be better than that expected. Mr. Smith informs us that thus far he has made sales to average that number. You can buy tickets in this place now for any point east or west, as well as to send to other places for them.

COURT ADJOURNED.—Yesterday morning word came to this place that court had been adjourned and no cases would be tried until next term. All this arises from a technical point in appointing jurors from Niles City. The law requires the list to be made by the Supervisor, and Niles City has been sending in their list after a year expired to be by the Recorder. George S. Clapp detected this error in proceedings this term, and by a sharp argument succeeded in convincing the court that any further proceedings this term would be of no avail. About \$3,000 will pay the bill for the county.

At a joint meeting of the Highway Commissioners of the townships of Buchanan and Weesaw, held Jan. 3, 1880, the boundary line road between said townships was divided in the manner following, to-wit: Buchanan township has control of and operates that portion of the road opposite sections seven, nineteen and thirty-one, and Weesaw controls and operates the road opposite sections six, eighteen and thirty; all of the above numbered sections being the west tier of sections in Buchanan township.

DAMON AND PYTHIAS.—Rough Bros. have secured the appearance of the D'Vere Damon and Pythias combination, for the inauguration of their new hall, Friday evening, Jan. 6. No pains have been spared to render this one of the most attractive places of amusement in this part of Michigan. The company is one of excellent merit, supporting a tragedian of ability the most promising. Damon and Pythias is one of the standard works in English literature, and has been made famous by the appearance in its parts of the most brilliant histrionic geniuses of the stage—illustrative of the most heroic act of friendship in history—and which forms the ground work upon which is founded the famous order of Knights of Pythias. Seats will be for sale at the music store of J. H. Roe.

PROSECUTING ATTORNEY, J. J. Van Diver has the following list of business on his hands for the present term of court, besides his regular civil business: The people vs. Stephen Crabbe; charge, murder. The people vs. J. R. Oden; charge, assault with intent to murder. The people vs. Thos. Cottrell; charge, assault with intent to murder. The people vs. William Haskins; charge, assault with intent to murder. The people vs. Joseph Spencer; charge, riot. The people vs. Robert Banbury; charge, assault with intent to murder. The people vs. John H. Young; charge, forgery. The people vs. John Goldbeck and Sophia Goldbeck; charge, assault. The people vs. Asahel Kelsey; charge, assault with intent to murder. The people vs. Samuel Kelly; charge, assault with intent to murder. The people vs. Charles Hulsart and Wm. Stevens; charge, violation of liquor law. The people vs. Lewis Cook; charge, horse stealing. The people vs. Michael Curran; charge, assault. The people vs. Geo. Judson; charge, burglary. The people vs. Charles H. Conklin; charge, burglary. The people vs. Charles Erick; charge, robbery. The people vs. Ann Harrison; charge, larceny.

THE SHIPPING BUSINESS OF Buchanan is indicated by the following figures kindly furnished by Mr. Smith, agent for the Michigan Central Company. Of course they would not compare very favorably with Chicago, but for a small hamlet may be considered fair:

Table with columns for various goods and their quantities/weights. Includes Apples, Flour, Feed, Sundries, Furniture, Lumber, Hogs, Sheep, Wagon, Grain, Total.

The total amount of grain remaining in the elevator for January, 1879: Wheat, 12,200 bushels; oats, 692 bushels.

The business of the company, in this place the past three years, as shown by the following figures, shows a healthy increase:

Table showing EARNINGS ON FREIGHT FORWARDED for the years 1877, 1878, and 1879.

EARNINGS FROM TICKET SALES. 1877. 1878. 1879. \$6,285.70. \$5,469.37. \$7,001.87.

TOTAL EARNINGS FOR BUCHANAN. 1877. 1878. 1879. \$4,110.15. \$4,225.01. \$8,771.65.

By reference to the item of total tonnage of shipments for this place, as shown above, will be seen that there was an increase of nearly fifty per cent. in the shipments of 1879 over those of 1878. Withal the showing is what we consider an encouraging one. We should be pleased to see these figures beaten 100 per cent. this year.

Proceedings of the Common Council of the Village of Buchanan.

A special meeting of the Common Council of the village of Buchanan was held at the Council room, in Engine House No. 1, on Friday evening, Jan. 3, 1880. Present—J. D. Ross, President; B. Harper, Recorder; Trustees Black, Johnson, Rea and Roe.

Moved by Mr. Rea, supported by Mr. Johnson, that Trustee Roe be appointed a member of said committee. Adopted.

Moved by Mr. Rea, supported by Mr. Roe, that Mr. Black be appointed a member of said committee. Adopted.

Moved by Mr. Black, supported by Mr. Johnson, that the Common Council adjourn. Adopted.

COUNTY PRESS.

The river has been very high during the past week, the water rising over the road leading to the bridge on the opposite side. The steam mill has also been surrounded by water, necessitating the stopping of work.

There are twelve Masons' widows under the jurisdiction of the lodge at this place. Twenty loads of wheat passed this village to-day for Buchanan. Why is this thus? "O, cause."

ITEMS FROM DAYTON.

Mr. Kern commenced repairing his new abode but stopped short for the present. And as soon as old obligations on building are removed repairing will go on.

Mr. Stowe and wife were happily surprised last evening by a small boy calling on them, about 7:30 o'clock. It was their tenth anniversary, but they knew nothing of the gathering and were going out to spend the evening when the call came. Of course a supply of tinware was brought, and all the dainties—oysters, &c., which loaded three tables. All had a merry time.

After a short speech by the Rev. J. W. J. (giving away the groom somewhat) the bride and groom of ten happy years were made to "jump the broomstick" as evidence of future good intentions on their part, and they extend to their friends their kindest regards for courtesies, &c., &c.

The Grangers and Odd Fellows installed their officers last week. Conductor O'Keefe, of train No. 4, on Monday put off two men at or near overhead bridge, west of Buchanan.

They refused to pay their fare, and the men thought it a fair place to stop. It was afterwards learned that one of them hailed from Three Oaks. O'Keefe did not think it a put up job, but some thing it was. DAYTON.

ITEMS FROM THREE OAKS.

Muddy. Warm weather. The robin and blue bird are singing in this vicinity.

Hon. Wm. Chamberlain is convalescent. Miss Souders is convalescent. George Thardorf has returned. Looks quite rugged. Married since he left this place, three years since. Brought his wife with him. Left Buchanan county, in North-west Iowa, where the thermometer ranged from 25 to 35 degrees below zero about Christmas time.

Another lawyer came to town yesterday. Did not stay long. He stated that he had been on a wedding tour down east; that he married against his wife's parents' will; that he did not have quite money enough to reach Chicago; that he did not want to reach Chicago; that he did not want to reach Chicago; that he did not want to reach Chicago.

August Witte's horses ran away. The double-tree came loose. The wagon tongue tripped one of the horses, and before they could get away August caught them. Not much damage done. There is no danger of the people here injuring any one in person or property, if a flour mill or a foundry should be built here. It is a good place for both kinds of business.

Oh, how cheap the railroad company gets wood. 95 cents per cord for two-foot wood. They dictate the price of purchase and price of sale? Yes, our agent is not to blame for that. If he had the management of the wood trade, with a large heart he would do but pay a high price.

Ed Ebie has returned happier than ever. In fact everybody here appears to be happy except those who lie in bed. I saw a fellow fall full length on the side-walk while carrying an empty coffin. Fell on account of defective side-walk in front of a business house. Complaint was made to the marshal and he to the business man, and yet all three appeared to be happy. Every time they meet they each look at the other and smile.

Mr. M. H. Baum, railroad agent, informs me that there were received at Three Oaks station, during the year 1879, 80,961 bushels of wheat; 2,900 bushels of oats and 470 bushels of rye.

Miss Ella Fitch, daughter of J. D. Fitch formerly of this place, now of Joliet, Ill., is in our village visiting.

If there are any persons in this place who have not tried the town pump, they should pump one pat of water. They will never want to pump any more forever. Our village and its pump will be a subject for a letter in the future.

The service on the mail route from Three Oaks to Laporte is to be increased from two to three trips per week. Let the village "tone up" accordingly. The express train east yesterday ran into a flock of John Burkar's turkeys. John had two to pick; they did not need much scalding.

JANUARY thaw came early this year.

DAMON AND PYTHIAS Friday evening.

PLEASE give those turkeys a rest now.

JOE THOMPSON has returned to Buchanan.

HOWARD ROE has returned to this place for a home.

GEORGE H. ROUGH commenced the new year in his new house.

WANTED.—About ten inches of good snow, and colder weather.

THE Board of Supervisors in session at Berrien Springs this week.

CIRCUIT COURT for the county will convene next Monday.

THE prospect for a rich ice harvest is not so encouraging as it was.

A. B. MILLER, of the South Bend Tribune, has the typhoid fever.

MR. A. C. ROE retains the position of preceptor in the High school.

How many letters have you dated 1879 this year, through mistake?

COOK, of the Mirror, is sixty-four years old. He was a Christmas present.

SEE what is in Rough Bros' Hall Friday evening, at the inauguration.

THE Reporter of last week returned to the original size of its predecessor, 25x40.

ROUGH BROS' Hall opens with Damon and Pythias, Friday evening, Jan. 9.

MR. AND MRS. J. N. STEPHENS will celebrate their crystal wedding January 9th.

MR. O. S. TOURJE is still confined to his room, with but little signs of improvement.

SCHOOL is in full blast once more, and less frolic on the street is the immediate effect.

CHARLEY SYDNER has purchased James Sherwood's house and lot on Alexander street.

A NEW cross-walk has been built between Kinyon's corner and the Dalrymple building.

BAD time to take colds. A little trouble spent in taking care of health will be well invested.

MR. RICHARD HOAG, of Manchester, Iowa, is visiting with his brother W. B. Hoag in this place.

A NEW advertisement of J. Fairbanks & Co. appears at the head of this column.

W. H. BREECE passed through this place Tuesday, on his way from court at Berrien Springs.

THOMAS MILES has bought a farm in Niles township, and will be a renter no longer. A good idea.

THE coldest week this year thus far is the one just past. Perhaps you may not believe it, but it is so.

JAMES SHERWOOD has one thumb that he thinks more of than all the rest of his body. A felon.

ABOUT four millions of handles was the production of Montross' handle factory, in Galien, for 1879.

THERE was a watch meeting at the M. E. Church, and the church bell rang out the old and rang in the new year.

DOWAGIAC fire wardens are on the warpath, having defective chimneys repaired. The same should be true of this place.

NOTWITHSTANDING the damp, disagreeable condition of the weather, last Saturday, this place was crowded with teams.

OUR old friend, Mr. Quint, Tuesday brought to this office some fine apples for his usual yearly treat to the printers. Thanks.

MRS. VAUGHN, of Iowa, mother of Mrs. Chas. Evans, of this place, is visiting her daughter.

MRS. P. L. GILLESPIE fell on the ice at their back door, one day last week, and quite seriously injured her spine.

MR. CHEESMAN is now selling "Grant's Tour Around the World," by Mr. Remlap, written in the German language.

THERE is considerable being said just now about the scarlet fever being among the inmates of the poor house in this county.

THE Buchanan dancing club have some quite pleasant parties in Kinyon's hall. They prove a perfect success in that line thus far.

A FIRE alarm was given again New Years afternoon, caused by the burning out of Philo Smith's chimney. No serious damage done.

THE old habit of writing 1879 seems to be a hard one to break off, and the date Jan. 1879 creeps into invoices and other correspondence.

SIX dollars is all it requires to pay for the Record and International Review, one of the best monthly publications in the land, for 1880.

MAJOR WELLS, of New Carlisle, who has been employed by the Rough Brothers to handle their wagons, will make Buchanan his home.

MR. BERNARD, proprietor of the Arcade clothing store, has moved his family here, and will occupy the Honker house, on Front street.

DIED.—Timlan, son of David A. Best, of Bertrand township, died Sunday afternoon, after a sickness of over eight years, of consumption of the bowels.

MR. HENRY BLODGETT made one draw of the seine in the river on New Years day, and caught 1,500 fish, black bass and suckers. Not a bad haul.

W. I. HIMES, D. D. G. M. of Buchanan Lodge No. 75, I. O. O. F., starts this evening to Detroit to attend the institution of a new Lodge in that city.

MR. MYRON MEAD has been away since Christmas, and returned Saturday night to resume his old position as superintendent in the wagon factory.

AFTER a train that continued nearly during the whole of Saturday night, Sunday appeared like an April day, that made one loathe the sight of heavy clothing and other winter fixtures.

THE boys don't hug the Buchanan schoolman. She weighs 230 pounds. —Jardine News.

Just as good hugging as if she weighed a ton, "ain't it?"

MR. ALBERT WITTEK, of Warren township, Ind., was married on New Years eve to Miss Ada Zimmerman at the residence of the bride's parents near South Bend.

MRS. J. C. MARBLE has been in Ann Arbor for several weeks, having her eyes treated at the University hospital. She writes home that her sight is slowly improving.

BENTON HARBOR now wants a bridge across their ship canal, or a tunnel, and they ought to have it. The bridge and tunnel question is interesting several of the large cities now.

CONSIDERABLE work is being done on the boiler at the wagon factory, by way of calking up the flues, new heads, &c., that will require a week or more to complete.

DURING the year 1879 the Buchanan Manufacturing Company have manufactured about 30,000 bedsteads, or an average of 100 per day for the entire year.

25,000 bushels instead of 25,000, as was stated last week, is what they claim as the full capacity of that elevator at the depot. We shall be pleased to have that elevator business right if it takes all summer.

THE Deputy Sheriff, Andrew Mars, was in this place last Friday subpoenaing witnesses for cases, to come before the circuit court at the present term.

MR. PATRICK DONNELLY returned from Leadville last week, for a few weeks' stay. He seems to think there's no place like the mountains, and will return.

ACCORDING to an account kept by Mr. Martin Dean, there were eighty-three deaths in Niles and vicinity during the year 1879. Of these, thirty were less than ten years of age.

THE Lansing Republican commences the new year with a brand new dress, and will hereafter appear as a tri-weekly. It still retains its full size and energy in gathering local, state and general news. We find the Republican a first-class exchange to steal from.

ARRANGEMENTS had been made last year for a leap year sleigh-ride, to take place this week. All of the necessary arrangements, such as inviting other women's husbands to go, had been completed; but alas, they forgot to pray for snow, and —

EIGHT hundred and fifty pounds was the weight of a seven months old calf, recently sold by Mr. Charles F. Howe, in Niles. So says the Mirror, Berrien county, and especially the southern part of it, is turning out some as fine stock as any country, and this is the kind that pays best.

A NEW LAWYER.—Mr. Geo. Devin, who has been studying law in Mr. J. Van Ripper's office, was examined in court last Monday, passed a satisfactory examination, and was admitted to the practice of law in the courts of this county. The committee pronounced his a splendid examination, which is not a bad send off for a young lawyer.

THERE was a meeting of farmers in this place last Friday, to make arrangements for the Farmers' Institute, to be held here January 28 and 29. There is no doubt but the Institute will be a good one, and of great value to those who attend.

MERCHANTS have nearly all been busy the past week invoicing stocks, profits, accounts, &c., and the usual expression is one of satisfaction, and we fail to find one who is not satisfied that he has all of the latter that he has any use for or any desire to have.

BOYS, don't forget that January 15th is the day set for the examination of applicants for the cadetship from this congressional district, at Paw Paw. We trust it may be a Buchanan boy who will be appointed to that position in West Point.

THE citizens of Cass county are beginning to express their feelings regarding the murder of Billy Young, that occurred a few weeks since, by presenting petitions to the Board of Supervisors, asking them to offer a reward for the arrest and conviction of the criminal.

THE following officers of Dayton Lodge No. 214, I. O. O. F. were installed on Saturday evening last: Henry Weidner, N. G. A. Ernsberger, V. G. Jas. H. Haskins, Sec. Cass DeArmond, P. S. Adam Kern, Treas.

THE Rough Brothers are already making their arrangements for the erection of the addition to the wagon factory that is to be built in the spring. This will make a grand improvement to Buchanan, just such as is needed.

THE first church ever erected in Warren township, Ind., was dedicated last Sunday. It is the property of the German Baptist Society, and will be known as the Maple Grove church.

MR. B. SHAFER, of Hills Corners, was recently arrested for an assault and disturbing school and taken before Justice Murdoch, at Berrien Springs and fined \$10 and costs, amounting to about as much more.

THERE was a special meeting of the Common Council last Friday evening for the special benefit of public buildings. See proceedings in another column.

A South Bend man has struck it rich in a small way. He swells up peas by moistening them and then sells them for green peas to the uninitiated. He happened to offer to sell to a city officer and was nabbed. He got away, however, and the councilmen divided the contents of his basket among themselves.

SOME BUSINESS.—During the year 1879 Spencer & Barnes have manufactured 23,000 hat racks, 1,650 center tables, 1,000 bureau looking-glass frames, 150,000 feet of dowlings, 300,000 feet of cabinet molding, besides manufacturing nearly all of the goods sold in the retail store during the year, and doing all of their job work, such as planing, matching, turning, &c., all with the employ of from twelve to eighteen hands. This looks like a pretty good showing, for the number of hands employed.

SMITH, the editor of the Paw Paw Independent, (G. B.) is under indictment for publishing obscene literature, with a pretty good show for conviction. This is the same Smith who at one time canvassed this place for binding and job printing, for the South Bend Tribune, and tried hard to make people believe that he was going to get up a directory of this county. He has the name of being one of the greatest blowers that ever escaped from Hoosier-ton alive.

THE Michigan Farmer is commencing the new year with a reduced subscription price of \$1.25 instead of \$2, as heretofore. The Farmer is now the recognized leader in the agricultural department of Michigan journalism, and is in fact the only paper making a specialty of Michigan agriculture and horticulture, this feature making it a more valuable paper for the Michigan farmer's reading than any other agricultural journal. Subscriptions will be received at this office.

AND now comes the report that the Niles railroad prospect is dead, which makes things look as if Niles never wanted the new road, but just wanted to see how much louder they could blow than could Buchanan, and as soon as our scheme was a failure theirs was no longer needed. But never mind, we will have a railroad to the county seat yet, unless Old Mother Shipton's prophecy about the world coming to an end in 1881 comes true, or have the county seat. Please remember.

A TRAMP ABROAD.—This is the title of Mark Twain's last book, descriptive of his last trip through Europe, on foot. The book is written in the humorous "roughing it" peculiar to this author, and is profusely illustrated to suit his taste, and the subject matter, the first of which is his version of the story of Moses in the Bulrushes, and is enough to make a horse laugh. The principal part of the work is descriptive of the author's trip through Germany, and his endeavor to learn the German language and painting, in the pursuit of which he many times risks his life, that the world may be benefited. Mr. Cheesman is taking subscriptions for the "Tramp Abroad," and it is certain he will find a good number who will be so far interested in the tramp as to invest.

LIST OF LETTERS. Remaining in the Post Office at Buchanan, Wednesday, Jan. 7, 1880.

Allison, H. C. Price, Miss Hanny Granger, Emma Ruper, Miss Anna Harris, John Rajwari, Michael (for Harris, Sarah E. sign) Krens, James M. (drop) Wright, David Long, Thos. J.

HELD FOR POSTAGE. Elder D. Matheson, 222 Sangamon, St. Chicago, Ill.

This list is published free for the information of the readers of the Record, therefore there is no charge for delivery of letters advertised herein. Persons will, however, in claiming any of the above, call for "advertised letters." L. P. ALEXANDER, P. M.

Additional local on second page.

MR. GEO. H. ROUGH has placed in his new house a fine range, from the hardware store in this place. He says it does its work so well that he will not be obliged to keep any other cook in the house. Besides this it is a beauty and convenient. George H. is well pleased with it.

ENTERTAINMENT.—Mrs. Mina G. Slayton and Miss H. Marsh, of Chicago, will give an entertainment, consisting of dramatic and humorous select reading and music, of the highest character, in Kinyon's hall, on Wednesday evening, January 21, 1880. It may be depended upon that this entertainment will be first-class in every respect.

IT was currently reported about town Monday that N. O. Fansler had been arrested in Chicago, and was in limbo there for forgery and various other crimes too numerous to mention, but Monday night, contrary to the expectations of many, he put in an appearance here, appearing as happy as ever, and claiming to have known nothing of his having been arrested. The arresting was probably done while he was asleep.

DURING the last season Mr. Riley Wray made, from the milk of six cows, 687 pounds of butter, besides allowing the calves to take a good share of the milk, up to harvest time. At the market price the butter was worth \$89.31. This is one of the places where an account is kept of whether it pays to keep cows or not.

ONE of the farmers in the north part of this township complains to us that a man named Sholtz is going around through the country making money by pretending to mend rubber boots. He puts a bit of rubber over the hole to be mended, with a bit of gum he has, places boot and patch between two flat surfaces, tells the owner of the boot to let it stay there a half day or more, to allow his medicine to harden. He then charges all he thinks his victim will stand, and is off. Well, that would be all right if it worked, but the patch doesn't stick, and now this man has the audacity to call that a swindle.

THE paper company turned over a new leaf with the new year, and charge us nine cents for paper now that we paid seven and one-half cents for that time. Besides this it takes cash with the order to get paper now, when sixty days was considered good enough last year. This means that we must have our pay a little more promptly or not do business in their way, and that means not at all, although we have no reason to complain. There are a very few of our subscribers who have not paid for their paper in advance, and we are after that few with a sharp stick.

WE have authorized Mr. Robert H. Rogers to take our books and settle all accounts thereon. When he calls on you, pay him cash if possible, if not, settle by note, and oblige, respectfully yours, Dr. E. S. DODD & SON.

THE CITY RAILWAY, CHICAGO, works 4,700 horses. Read what Supt. SQUIRES has to say: We use exclusively Whittier's Liniment.

THE EXPRESS COMPANY works 300 horses. Read what Supt. KNIGHT has to say: I have been using Whittier's Liniment on the horses of the American and U. S. Express Co.

FOR THIRTY YEARS we have been using all kinds of Liniment manufactured for horses, and of all the liniment, Whittier's stands at the head of the list.

THE DESCENDANTS of the Wallons, or foreign refugees in the Kentish capital, enjoy the curious and anomalous privilege of celebrating non-conformist services in the crypt of Canterbury Cathedral.

THE SWEETEST thing in life to see the childlike simplicity and deference to maternal authority which a maiden of 80 or 40 will exhibit, before a room full of people as follows: "Why do you floor to ask mamma if she may walk up and down the piazza for a little while?"

ARE YOU GOING TO PAINT? THE BEST IN THE WORLD IS THE Chemical Paint, Geo. W. Pitkin & Co., 65 & 67 Market Street, Chicago, Ill.

Ladies. Do you want a pure, blooming complexion? If so, a few applications of Hagan's MAGNOLIA BALM will gratify you to your heart's content.
