

Berrien Co. Record.

THURSDAY, FEB. 26, 1880.

Entered at the Post-Office, at Buchanan, Mich., as Second-Class Matter.

SUBSCRIBERS' RECEIPTS.

We wish all our subscribers to be particular to notice the date against their names upon their papers, and see that the accounts right. We always give receipts for payments made on subscription and this slip should correspond with the last date in your receipt, and denote the time to which the subscription has paid. If there is any mistake we wish to be notified at once. Never wait more than two weeks for the date to be changed after payment is made.

NOBLE

Will close out his stock of

CLOTHING, BOOTS & SHOES, HATS & CAPS,

Gents Furnishing Goods

See the Bargains he Offers BEFORE BUYING.

Registration Notice.

Notice is hereby given that the Village Board of Registration for the village of Buchanan will be in session on Saturday, March 6, 1880, from 9 o'clock A. M. to 4 o'clock P. M. at said day, at the Recorder's office, in the Berrien County Record office, for the purpose of reviewing and completing the list of qualified voters entitled to vote at the village election to be held March 9, 1880. During said session of the Board of Registration it shall be the right of any person then actually residing in said village, who may be a qualified voter at the election on March 9, 1880, and whose name is not already registered in the Village Register, to have his name registered in the said Register. The name of any person who is entitled to vote in said village at said election will be registered by the Recorder at any time previous to said Registration day, upon demand of said elector. After the close of the session of said Board of Registration, March 6, 1880, no name can be placed upon the Register until after the close of the polls at the election on March 9, 1880.

R. D. HARPER, Recorder.

SIX months of spring this year.

The price of wheat is steadily on the rise.

SPLENDID weather for maple sugar making.

SOUTH BEND asks for an addition to her police force.

NEXT Monday will be March. The month for ham and eggs.

The Niles cracker man talks of moving his business to South Bend.

ST. JOSEPH fishermen do not stop their business for cold weather.

MR. AND MRS. GEORGE MORGAN are visiting with friends in Bakertown.

A 2 1/2 pound boy was the new-comer at J. J. Wells home Tuesday morning.

The closing exhibitions of country schools will be in order in a few days now.

Those street lamps do not seem to put in their appearance at a very rapid rate.

MONDAY was a legal holiday, Washington's birthday occurring on Sunday.

REV. H. WORTHINGTON, of Dowagiac, was in town a few hours yesterday.

MR. PARKS, a typo in the Niles Republican office, make the RECORD a call Friday.

A Brush electric light is to appear on the dome of Notre Dame University when complete.

It will soon be time for the candidates for the various local offices of township and village to appear.

The grand hotel that was to be built in New Buffalo last year seems to have come to a grand stand still.

MR. CHARLES BERRICK and lady have commenced keeping house in this place. Right so far.

COUNCIL meeting to-morrow evening. The time for settling up the year's business is near at hand.

The residence of C. Dempster, of St. Joseph, was burned last Tuesday night. Loss, about \$3,000. Fully insured.

THOMAS LORD thought night-watching was too soft a job for him and so turned his berth over to Thomas Stevens.

THE report of the business of the Cass county supervisors for 1879 is now being published by the Marcellus News.

GEORGE CLAIR, of Berrien Springs, has a birthday this year. The first time such a thing has happened in four years.

WOOD drawers have tired of waiting for snow and are rushing their crop to market on wagons and receiving good prices for it.

BARNUM is fixing up his route through this State for the coming show season, and will be in this vicinity about the last of May.

CAPT. BARTLETT is to have charge of the steamer Sky Shark, plying between Benton Harbor and Chicago, the coming season.

WALTER RAND, well-known in this place, has taken to himself a wife, and gone into the Spring sewing machine business in Dowagiac.

MRS. CATHART started yesterday morning for a visit of three or four weeks with relatives and friends in the north part of the State.

MISS MATT HAMILTON has returned from Keweenaw, Ill., where she has been spending the winter with her sister, Mrs. L. T. Eastman.

SPRAGUE's Original Georgia Minstrels, the largest troupe of the kind that ever visited Buchanan, containing twenty-five artists, will give an entertainment in Rough's Hall next Monday evening.

By call published in another column of this paper it will be seen that the State Convention, to appoint delegates to the National Convention, will be held in Detroit on Wednesday, May 12.

POSTMASTER Alexander is having the room next west of the Tremont house, formerly occupied by shoemaker Thomas, repaired for renting to whoever may want such a room.

CORRECTION.—We were in error last week in stating that it was Charles Aiken who met with the accident at the river bridge in St. Joseph. It was an Aiken, but "Cal" instead of Charley.

DIED.—Mr. O. H. Manning, who has been running Rough & Pears' Rural Mill the past year, died at his home yesterday, from the effect of a cold contracted while at his work.

A MAN was robbed on the river bridge in South Bend, a few evenings since, by three men who drew a large sack over his head and held him while they rifled his pockets.

Do not forget the concert by Remenyi and his troupe, in Rough's Hall, to-morrow (Friday) evening. It will be first-class, and the only regret you can have will be if you do not go.

AN advertisement that is of special interest to farmers and builders may be found at the north-east corner of the first page of this paper. Read it and see for yourselves.

WILLARD MARBLE has been getting rich at a rapid rate. A 6 1/2 pound girl was born at his house last Friday, and he estimates girls at \$1,000 per pound.

WE should hear from the County Committee ere long with a call for a convention to appoint delegates to the State Convention at Detroit.

LILAC bushes in this place have fresh shoots growing from the roots to the height of six inches. A thing rather uncommon for winter months.

D. P. SAGENDORF, of Charlotte, gave us a rousing speech at the union temperance meeting last Friday evening. It was an intellectual treat.

Mrs. H. S., wife of J. M. Jeffreys, formerly of this place, died in St. Joseph of pneumonia, February 23, 1880, aged 63 years, 5 months and 7 days.

MRS. M. A. MASON died at her home, on Oak Street, Sunday evening, February 22, at the age of 67 years. Her remains were taken to New Buffalo Tuesday afternoon for interment.

MR. THOMAS LORD has been employed as night-watch, and commenced duty last Friday night. The horse was stolen just before locking the barn.

ST. JOSEPH is now in trouble again. Thus far she has no boat to ply between that place and Chicago, and the Benton Harbor boats are liable to gather in the shekels for both places.

MR. WILLIAM WHITMORE will offer his personal property for sale at his residence, near the Sterns' schoolhouse, next Wednesday, March 3. Levi Logan will be his auctioneer.

MICHIGAN is entitled to twenty-two delegates in the National Republican Convention, and Berrien county to fourteen in the State Convention that appoints them.

A GOOD share of the desirable seats for Remenyi have been sold. If you wait much longer you will not hear that concert, and will always regret it. The members of the troupe are all first-class performers.

A meeting in the interest of the St. Joseph Valley Railroad was held in Kinyon's hall, Saturday afternoon, that was the most enthusiastic meeting held up to that time. The subscription list received a healthy addition in both cash and labor.

It seems to have been already taken for granted that the county seat has been moved, and Buchanan is the place where it belongs if moved. Our postmaster receives letters addressed Register of Deeds, Buchanan, Mich.

The first man, who sued the Evening News for libel is now in State Prison and nearly dead with consumption. This should be a warning to those who contemplate commencing libel suits.

The charter election of the village of Buchanan will be held one week from next Tuesday. Everybody has been so busy of late that little has been heard from candidates and other prerequisites to a charter election.

THE wonderful steamer Hanley, in trying to get up the river for a summer in Niles, run aground between this place and Berrien Springs, and is waiting for the spring freshet.

LATER.—She went up stream yesterday.

WE learn that Dr. Baker intends returning to Buchanan to commence the practice of his profession. The trait commonly called stick-to-itiveness is a very good trait to have.

ATTENTION is called to the registration notice in another column of this paper. If your name is not already on the register attend to having it placed here in time if you want to vote at the village election.

A deaf mute needle peddler was made to speak good english by pointing a loaded revolver at him, in Niles, recently. Some wonderful cures of defects in hearing are sometimes made in a most unaccountable way.

DOWAGIAC is getting the railroad fever, and wants to secure the Elkhart branch of the Grand Trunk instead of having it go to Niles, and the fight commences between Niles and Dowagiac.

THE Michigan Shoe Holder Company is just commencing in this place a business that seems destined to grow to healthy dimensions. They start out with the manufacture of 200 dozens of the holders.

THE prospect for an enormous crop of fruit of all kinds in this vicinity was never better than at the present time. We have had no weather cold enough to freeze any of the buds, and except that late frosts may catch them we shall have an abundance.

A COMMITTEE of five ladies, consisting of Mrs. H. Carlisle, Mrs. F. Whitman, Mrs. Wright Smith, Mrs. Warner Hamilton, and Mrs. J. J. Roe, was appointed at the meeting last evening to solicit subscriptions for the railroad, and they are out this morning and at work with vigor.

NILES DISCOUNT.—One man in Gallen offers to give four acres of land and another offers to give \$50,000 if the county seat can be moved to that place. These offers have the advantage of Niles in being four acres of land more, and in not being dependent on a city charter for legality.

It must be highly interesting to the publisher of a paper to be obliged to warn his readers from depending upon the genuineness of advertisements that appear on one side of his paper for he does not publish that side of his paper. That is an experience common to "patent bowels."

THE South Bend Register presses are run by a water motor. The proprietors manage to get about six horsepower out of a machine about thirteen inches in diameter and four inches thick, at an expense of about sixty-five cents per day.

SOME one dropped poison where Frank Myler's dog got it yesterday afternoon. It would be a little more manly trick to shoot the dog and kill him at once, if you intend to kill him, than to take this method and be all day about it.

AGAIN the warning to citizens of this community to deal only with their local dealers whom they know to be reliable. A set of slick-tongued sharpers are scouring the country, selling "palsy" shawls for \$20 that are worth \$5 or less. Look out for them if they come your way.

A. J. CARTERS has sold out his saloon business to a man from Dowagiac named Harman. Andy will now turn his attention to the poultry business, and declares that this ends up his whisky selling. That is good for him, but the saloon remains with us.

THERE seems to be an organized band of burglars doing their work in this vicinity and Niles, entering private dwellings and robbing them of such valuables as can be found. A good way to manage such chaps is to keep a good revolver in readiness for shooting service at a moment's warning, and when the warning comes use it. About one reception of that kind is all they will court.

ANOTHER railroad meeting is to be held in Rough's hall Saturday afternoon at two o'clock. Let there be a hall full, and of men who are able to give freely. The subscription roll for this place should be raised by that time to \$25,000 at the least calculation.

A FEW loads of wheat are being brought to market in this place. The most of the farmers who keep their wheat until this time of year keep it about two months longer, for the May market, which is usually the highest of the whole year. Such at least has been the experience in this place for the past ten years, with the exception of one year.

THAT Buchanan needs a competing line of railroad is demonstrated in the single fact that stone coal was sold in Niles \$1.50 per ton cheaper than it was possible to have it delivered here, when their coal was carried right past us. A competing line would change this at once. A similar difference exists in freight and other articles of merchandise.

THE Niles papers keep telling us how near they "are practically out of debt." They owe \$15,000 on their bridge and school house, and pay \$2,500 per year, or ten per cent. interest on \$25,000, which is a perpetual debt for their water-works, and now vote \$50,000 for the county buildings. It seems as if they were practically in debt about \$90,000. Perhaps not, but it looks that way.

It was a notable fact that the business men in this place all thought to deposit their cash in the bank Friday afternoon, and those who have been in the habit of using their safes as a place of deposit for farmers, and others who happen to have money they do not care to have about them, have shut down on that business. Once in a while men will profit by the experience of others.

SINCE the rise on the price of print paper it costs us more to publish the RECORD than before, and in consideration of this fact we are constrained to ask the few of our subscribers who are in arrears to pay up promptly. We are obliged to pay for our paper, and unless we get the pay in return must discontinue such subscriptions. They are not profitable to us, and certainly are not satisfactory to the subscriber. Fortunately there are but few such on our list.

REPORT comes to this place that because a man argued on the streets of Niles, in a pretty decided manner, against the removal of the county seat to Niles he was looked in the city calaboose. This looks like a pretty tough story for civilized community, but it comes by a pretty reliable source that it is hard to disbelieve. Free speech does not seem to be the ruling principle in that place.

THE farmers in the north part of this township tell us that unless the railroad is built through this place this year, they will turn their subscriptions toward rebuilding the bridge at Crocker's mill, that they may be better able to reach Niles. The railroad will make this as good a market as Niles and save the trade of that section. Will the business men of Buchanan look to their own interests and give the subscriptions a healthy boost before it is too late.

FIRE.—Mr. L. S. Gillette's dwelling and its contents, including a valuable wardrobe and a large quantity of clothing, were burned last Friday morning. The fire originated in the upper story of the building and was well under headway when discovered. The loss foots up at about \$2,500 with \$1,000 insurance.

A couple of fellows were canvassing in this place last Friday for the Western Magazine. They sold the magazine to business men and gave them an advertising space worth \$10, all for \$1. They offer entirely too much for a little money to succeed well in this place. It has a bad look to see men offering to give \$10 worth of goods of any kind for a dollar. It looks as if they wouldn't do it.

NILES people are beginning to think there may be something in the project to build a railroad from this place to the mouth of the river, and are doing their might to defeat it. Their first move in this direction was to have an agent of the Michigan Central Company go to Berrien Springs and offer the people of that place to extend the South Bend Division to Benton Harbor if they would turn their subscriptions of \$30,000 over to the company. The Berrien people, however, showed their good sense, and their faith in Buchanan, by refusing. It now stands Buchanan in hand to see to it that that faith is not misplaced. The only way to do that is for every one to come right up and make their subscriptions NOW. This move has gone so far now it must not fail.

OUR remarks for the benefit of the Board of Supervisors, in regard to the publication of their report, applies equally well with the Common Council of this place. If we mistake not the village charter requires a report of their business for the year to be published, but this was not done last year, owing to a peculiar streak of economy that came over the board at that time. Where a body of that kind neglects such a duty, it at once brings forth the inference that there is something in the business they are a shame of and do not want the people to know about. Of course the Supervisors of this county or the Common Council of this place never did anything they were ashamed of, but such would be the first thought of the people.

A specimen of the very good feeling the Mirror keeps telling us exists in Niles toward whatever is of Buchanan was exhibited in a quite prominent manner recently. A Niles lady attended a party where presents were given, and among others she discovered a beautiful bouquet in a fine holder, at which she expressed her unbounded admiration by the exclamation: "Oh, how lovely! That must have come from Chicago!" But when she examined the card, and found the name of a well-known business firm in this place, she dropped it as if she had burned her fingers, with the exclamation: "Oh! Horrors!"

Locals.

BEST assortment of Machine Needles are found at T. M. FULTON & Co. REAL LACE AT HIGHS', ONLY.

Kinyon has just returned from Chicago with a large stock of new goods cheaper than ever. Call and see.

A new line of Walking Shoes, both in tie and button, at G. W. NOBLE'S.

The Cheap Chicago Store. See the goods.

When visiting Niles, if you have any old jewelry, take it to J. Crocker Brown, one door east of the Citizens' National Bank, with W. G. Bish, and have it worked over into new.

The Day's Kidney Pad for the certain, safe and speedy cure of all kidney or bladder troubles, is for sale by Dr. G. Morris. Dealers can be supplied by Larimore & Dean, Niles, agents for the county.

Fees of Doctors. The fees of doctors is an item that very many persons are interested in just at present. We believe the schedule for visits is \$3.00, which would tax a man confined to his bed for a year, and in need of a daily visit, \$1,000 a year for medical attendance alone. And one single bottle of Hop Bitters taken in time would save the \$1,000 and all the year's sickness.—Post.

POPULAR SONGS.—"I am King o'er the Land and the Sea," a beautiful bass solo by Will L. Thompson, price 25 cents. "In Wonderland in Distant Lands," an easy, but very pretty song and chorus, by Calvin Bushey, price 30 cents. All lovers of popular music should order these favorite songs. We will mail the two for 50 cents. Catalogues sent free on application. W. L. THOMPSON & Co., East Liverpool, O.

Farmers! \$3,000,000 can be saved every year by the farmers in this country if they will properly color their butter by using Wells, Richardson & Co's Perfected Butter Color. It is far better than carrots, annatto, or any other color, at one-fourth the cost, and no work to use. It gives a splendid June color and never turns red. Do not fail to try it.

Nature's Sluiceway. The kidneys are nature's sluiceway to wash out the debris of our constantly changing bodies. If they do not work properly the trouble is felt everywhere. Then be wise and as soon as you see signs of disorder get a package of Kidney-Wort and take it faithfully. It will clean the sluiceway of sand, gravel or slime and purify the whole system.

SILVER PLATED TABLE WARE. The knives, forks and spoons (tea or table) sent out by the New England Silver Co. of New Haven, Conn., have always given the best of satisfaction as they are made of metal, steel, plated with pure nickel and silver. Any one needing a supply ought to write for a circular, and send 5c for a sample set of tea spoons. J.M.

MR. ASA HAM, To attend to the wants of all customers promptly and satisfactorily. Thanking my many patrons

Domestic.
Oatmeal Gruel.—Boil half an hour. Add some sweet milk, sugar, salt, and the yolk of an egg and boil ten minutes more.
Tremont-House Muffins.—Four qts. of flour, one teacup of sugar, one teacup of butter, cup of yeast, four eggs, a little salt, two quarts of sweet milk; let the mixture rise all night; bake in muffin tins.

Ridging Eggs of Lard.—A mixture of two parts of olive oil and one part, kerosene, is said to be effective if lightly painted on. One, or at most two applications at an interval of a week is said to be sufficient.
Shirred Eggs.—Break six eggs into a basin; add to them one ounce of fresh butter and a little pepper and salt; melt one ounce of butter in a small saucepan, then pour in the eggs; stir stirring until they are set; serve on toast. They are also very nice served with fried bacon.

Baked Indian Pudding.—Put one quart of milk on the stove in a saucepan; as soon as scalding hot, stir in a teacupful of corn meal, remove from the stove and add a cupful of sugar, a little salt, and a little cream, (it is all cream it will not spoil the pudding), one teacupful of molasses, a little salt, half a teacupful of ginger, and one teacupful of allspice. Pour into a pudding dish and bake about three hours. Do not have the oven very hot, as it will scorch easily. Coarse meal is much better than fine for baked pudding.

A New Preservative Compound.—It has been found that the double borate of potash and soda has antiseptic properties. The compound is made by dissolving equal quantities of chloride of potassium, nitrate of soda and boric acid, after the solution, evaporate to dryness, and keep in a tight bottle, as the salt has no effect on the taste or healthfulness of the substances to which it is added. It has been tried for preserving meats, making saucers, butters, and tanning skins. Added to milk it will keep for a week, also added to beer, wine, it retards the deterioration to which the inferiorities of these drinks are subject.

Pineapple Cakes.—A couple of hours before bringing the cake on the table, take a very ripe, finely flavored pineapple, peel it, trim off the top and bottom, and sprinkle sugar over it liberally; then cover it else. For the short-cake take sufficient flour for one pie-dish, butter the size of a small egg, a tablespoonful or two of sugar, the yolk of an egg, two teaspoonfuls of baking powder, a very little salt, and dough. Roll to make a very soft cake, just barely mix the dough with the pie plate. The baking is done in butter, sugar, and salt. Rubbed well throughout the flour, and the other ingredients then quickly added. When time to serve, split the cake, spread the prepared pineapple between the layers, and serve with nothing but sugar and sweet cream.

When to Bring Cows in Fresh.
There is a considerable difference of opinion, says D. Z. Evans, Jr., in Home and Farm, as to the best time to bring cows in fresh, though circumstances have much to do in deciding the question. If butter is the great desideratum, or rather, if you wish plenty of milk and butter, the prices rule highest—which they do in the winter months—it is best to have your cows drop their calves about November, and you have fresh cows when you can realize the most for them. It must, however, be borne in mind that the cows must then have plenty of feed; not merely dry hay or fodder, but cut messes, in which there is a large quantity of corn meal, and occasional feeds of turnips or other roots, to keep up the full flow of milk as soon as possible; for, being no grass, the cows will soon shorten in their supply of lactation if not fed as above directed.

Some of our best farmers, as well as others who make it a point to supply the markets with milk, have adopted this plan of bringing their cows fresh in November or December. There are some, however, who, having a herd of ten or twelve cows, bring them in fresh monthly—that is, they have every month a regular supply. We, however, like the plan of bringing them in fresh early in the winter; and when spring comes with its pastures of new grass, the cows are beginning to decline in their supply of milk, and being turned out to pasture increases it, and continues a satisfactory flow for several weeks. We think this method is more realized from the cows than by any other plan of management.

We think that there are too many heifers brought with calf before they are old enough to bear the consequent drain on their system; the evident result being a dwarfing, in a greater or less degree, of the stature as well as the usefulness at the pail. It is a well-known fact that the cow, called Alderney (Jersey and Guernsey), as well as their grades, show a desire to breed at a very early age; some as early as six months of age, when they are really more calves themselves; this brings them in with calf when they are only between one and two years old, which is entirely too young.

Our experience has shown us that it is best to bring in the young heifers with their first calf until at least two years old, and thirty months is even a better time. Of course you may lose a few months' time by waiting, but you face the fact that the cow by the increased size and usefulness of the heifer; and, instead of a small, puny thing, you have one of good size, and one which will continue to develop until five years old—at which age a cow usually stops growing.

If your object is to breed and raise calves, and to have fine ones with the least outlay of time and trouble, then regulate your raising of calves so as to have them dropped in early spring, so that they can have the benefit of the grass for an entire season, after being weaned, before they are put on dry, winter feed.

While this method saves you considerable trouble, and insures you a fine calf at but little expense, we think that what you lose, in the loss of the early butter and milk when the cow rules the highest—not by not bringing your cow in fresh in early winter—more than counterbalances any saving you may make otherwise.

CATARRH
NEVER-FAILING RELIEF
AFFORDED BY
SANFORD'S RADICAL CURE.

It is a fact that can be substantiated by the most respectable medical authorities, that Catarrh is a disease of the bladder, and is not a disease of the prostate gland, as is commonly supposed. It is a disease of the bladder, and is not a disease of the prostate gland, as is commonly supposed. It is a disease of the bladder, and is not a disease of the prostate gland, as is commonly supposed.

10 YEARS A SUFFERER.
From Hon. Theo. P. Bogert, Bristol, R. I.

Many years ago, I suffered from Catarrh of the bladder, and was afflicted with it for ten years. I tried many remedies, but without success. I was then introduced to Sanford's Radical Cure, and after using it for a few days, I found that it was doing me good. I continued to use it, and in a short time, I was completely cured. I have since used it for several years, and have never been troubled with Catarrh again.

CATARRH AFFECTED.
Sufferers from Catarrh of the bladder, and of the prostate gland, and of the urethra, will find relief in Sanford's Radical Cure.

COLLINS' REMEDY.

Care of Table Cutlery.
The greatest care should be used by the housekeeper as to the preservation of the ivory handles of the table cutlery. The handles should rarely, if ever, be put in water, and then only with a moist towel, and immediately dried. There is a kind of tin vessel made, with wire slots on top, in which the knives can be placed. This will allow the immersion of the blades in the water. There is a kind of tin vessel made, with wire slots on top, in which the knives can be placed. This will allow the immersion of the blades in the water.

"Billy Russell of the Times," as he is known everywhere he goes (although familiar here as "Bull Run" Russell), is not so young as when he accompanied the Prince of Wales on his Indian tour, being now 62 years old. He went to Natal last year. The journey out knocked him up and he has been obliged to remain at Pietermaritzburg. This has soured him, and he has written to the London Telegraph, which he now represents, some very severe strictures on the conduct of the officers under Sir Garnet Wolseley, who had been very kind to him, which the General has written to pronounce "unmitigated falsehoods." Russell complains of being obliged to "vegetate in a semi-idiotic state."

Lyons, France is going to raise a statue to the memory of Jacquard, the inventor of the famous loom bearing his name, who was born there in 1752 and died in 1834. This machine, which is used to weave the cloth, is not the earnings of weavers, yet it was nevertheless, when first brought out, burned on the market place of Lyons. The statue, of marble, with bronze relief, is to be placed in the town hall, with folded arms contemplating the destruction of his machine.

A good colored man once said in a class-meeting: "Brethren, when I was a boy I took a hatchet and went into the woods to cut a tree that was straight, big and solid. I didn't touch that tree, but when I found one that was leaning a little and hollow I took it down. So, when the Lord gets old and decrepit, he don't touch that old straight tree, but he takes a little and he hollows inside."

A bridal party in a St. Louis Justice's office lacked the bridegroom. He had been waiting for the bride, but he had not come. The bridegroom was waiting for the bride, but he had not come. The bridegroom was waiting for the bride, but he had not come.

Schoolmaster: How dare you tell me, my son, that I will give you a sounder thrashing than you have ever had in your life? Boy: I did not tell you, sir, Schoolmaster: What do you call it, then? Boy: Only a thrashing of my own mind, sir. Schoolmaster: Well, my boy, you are a very good boy, and I am proud of you. You are a very good boy, and I am proud of you.

PERMANENTLY CURES KIDNEY DISEASES, LIVER COMPLAINTS, Constipation and Piles.
DR. E. H. CLARK, South River, N. Y., says: "I have cured many cases of KIDNEY DISEASES, LIVER COMPLAINTS, Constipation and Piles, and have never failed to cure a case. I have cured many cases of KIDNEY DISEASES, LIVER COMPLAINTS, Constipation and Piles, and have never failed to cure a case."
