Life.

By LOUISA LORNE. This life is short, but realistic—stern in all its phases; yet we cannot turn from cares and duties to the evanescent of those who now are numbered with the dust.

ESCAPE FROM A FORTUNE.

Mrs. DeBruse Bellingham laid down the telegram a servant had just presented on a silver salver.

THE SWEETNESS OF HOME.

He who has no home has not the sweetest pleasure of life; he feels not the thrills of affection that cluster round the halcyon days of the home.

Over-worked Women.

Nothing is more reprehensible and thoroughly wrong than the idea that a woman fulfills her duty by doing an amount of work beyond her strength.

Hints about Help.

Have a distinct understanding with the hired help both those on the farm and those in the city.

How He'd Do It.

Several men were gathered at the door of a bricksmith's shop on Canal street.

Mothing.

Visitors to this country are greatly surprised at the long period during which people wear mourning and remain in seclusion.

A Compliment to the Weather Bureau.

The German Government recently paid the highest compliment to the weather bureau by addressing through the German minister at Washington, a letter requesting to be exactly informed as to the processes by which the Signal Service Bureau so promptly predicts the weather.

Mines of Soap.

A mine of veritable soft-soap was some time since discovered by a citizen of the State of California.

Notice of Sale of Real Estate.

STATE OF MICHIGAN, County of Berrien, ss: In the matter of the Estate of James B. Taylor, deceased.

Hamburg American Packet Company's WEEKLY LINE OF STEAMSHIPS.

LEAVING NEW YORK every Thursday at 2 P. M., for ENGLAND, FRANCE & GERMANY.

The Soko.

London Telegraph. What was the soko? Was it man or ape? The tribes of Central Africa, all along the Livingstone River, from Nyangwe to the cataraacts, declared that it was to be a monkey, and as such hunted it and ate it.

A Boy of Pluck.

San Antonio Herald. Mr. Adolph Real has a stock ranch on the Martinez, ten miles east of San Antonio.

Three days ago Emil, accompanied by his little dog, went into the timber on the Martinez to hunt for rabbit bits.

Kansas delegation to Chicago will vote for Blaine.

The Rhode Island delegation to the Democratic convention is said to be solid for Sumner.

Next Sunday will be the twenty-fifth anniversary of H. C. Wentworth's connection with the Michigan Central railroad.

Governor Crosswell was married to Miss Lizzie L. Musgrave, of Charlotte, last week Tuesday. Rev. Dr. Eddy, of Niles, officiating.

The London Times announces a rupture between France and Russia among the probabilities for the near future.

Chicago contains a chany named Clarence Davis who has a wife in about every state in the union and more still to be heard from. He is a drummer.

The United States Circuit Court at San Francisco recently decided that the new law in that State, prohibiting the employment of Chinese by corporate companies, is unconstitutional.

Reports to the Comptroller of the Currency concerning the condition of national banks show that on February 21 they held \$85,447,970 in specie, of which amount \$83,115,115 was in gold.

Brick Pomeroy has sold out his newspaper business and the paper will be run as a Republican daily. The best thing for the country if he can be kept out of the business.

A Scotchman named Hammy has succeeded in manufacturing real diamonds. This will be apt to somewhat cheapen these necessary articles of wearing apparel, and rich people will no longer be under the necessity of going so thinly clad.

Just why Michigan juries should fix upon six cents as the proper verdict in \$10,000 libel suits against newspaper publishers, is not explained. Why not make it five or ten or even twenty-five cents for even change?

General Sherman fails to see the profit to the Government in feeding the Apache Indians while they are on the war-path. It does require a precise critic to detect the benefits they must exist, else why should the Indian bureau continue to do so?

The Indiana railway company, the Chicago & Northwestern railway company, and the Northwestern Grand Trunk company of Illinois have consolidated and will be known as the Chicago & Grand Trunk railroad, and will have its chief office in Chicago. The new company will control 350 miles of road.

At Indianapolis, Ind., Harry H. Sheets has entered suit against the city for \$150,000 damages on account of the destruction of his block, which is now the new Denison hotel, by fire in 1874. The complainant claims that the fire originated in a building 150 feet away, and his block caught through the inefficiency of the fire department.

The Review gives an account of socialistic demonstrations in Chicago among the so-called workmen, held in regular sand lot fashion and for the ostensible purpose of protection against the "Haytian Chinese" who are flocking to that city by the thousands. These "working men" do not stop to think that these Mongolians are just as much subjects for government protection and have the same rights and privileges in this country as have the "working men."

WASHINGTON, March 24.—Secretary Sherman has directed the assistant treasurer at New York to purchase for the sinking fund \$2,000,000 of bonds at the lowest rate offered.

Jessie Raymond, a young woman in Washington, with a little child in her arms, accused United States Senator Ben Hill, of Georgia, of having seduced her, and demands that he shall take care of her and their joint progeny. She is making it exceedingly uncomfortable for the chivalric Georgian. It has come to such a pass that three policemen are required to watch the poor, wronged woman, in order to keep her from annoying or hurting the great Georgian Senator.

WASHINGTON, March 24.—The offerings of the bonds to the government to-day aggregated \$5,130,650 at 103.74 to 102.98 for 6s of 1881; 105.11 to 103.49 for 6s of 1881; and 103.05 to 103.49 for 6s.

The Springfield, Mo., Patriot-Advertiser helps along the Blaine and Ferry boom in this wise:

Among those whose names have been casually mentioned for the vice presidency, there is no one whose nomination would seem, on the whole, so unexceptional as that of Senator Ferry of Michigan. He has had long experience in public affairs, has for many years honorably and ably discharged his senatorial duties, has presided in that body with distinguished ability, and is a man of unexceptional character as a Republican.

Should Mr. Blaine be the presidential nominee a western man of course would fill the second place on the ticket. In that case we should be glad to see Mr. Ferry the nominee. If Grant should receive the nomination Mr. Ferry could not, of course, be the candidate. But we still look with confidence for the nomination of James G. Blaine to the first place on the ticket. Then let it be Blaine and Ferry.

The following significant special, which sufficiently explains itself, was published in the Chicago Daily News of Friday:

WASHINGTON, March 26.—The undercurrents of public events have wonderfully changed public opinion here within a few weeks of absence, he finds himself bitterly opposed by factions led by prominent Republican politicians. He is startled with the discovery that the antipathy against him is so strong as to produce a party which has his candidacy in the form of an anti-third term party, in which are engaged noted Republican leaders. He is also made aware that a large number of newspapers of his party are not only not in his favor, but are actively engaged in the development of hostility, the General has conveyed to his intimate friends here that he cannot, will not be a candidate for the presidency, that he will not be a candidate for the presidency, that he will not be a candidate for the presidency.

Letter from Massachusetts. SHARON, March 25, 1880. EDITOR RECORD.—Thinking my friends in Berrien county might like to hear from me, and you not object, I will spend a leisure hour in writing. It was called here to see a sick brother, but I am happy to say that he is now more comfortable than when I came. This town of Sharon is situated on the line of the Boston & Providence railroad, is some twenty miles from Boston, and about half way between Boston and Providence, R. I. Here mainly are country residences of persons doing business in Boston, though there are mainly two manufacturing establishments. One making hosiery and the other cutlery. Some of the cutlery made here find its way to European markets—and may be to Sheffield.

Although I have been in Boston and vicinity nearly a month, last Sabbath was the first I have passed in the city. Being otherwise pleasantly engaged, I did not go out last evening, and then I started for Music Hall hoping to hear Wendell Phillips, who was to speak upon "The Wrongs of Ireland." Although this is the largest hall in the city, when I got there I found some four thousand persons ahead of me, and as I did not feel like being crowded in public, I made my way to the "Paine Memorial Building," in the hope of getting refreshed by listening to some sound radical remarks, and I felt I was well repaid for my trouble, for I had the pleasure of listening to Prof. Denton, one of the sound radical thinkers and bold speakers of the day. I wish it were possible for me to give anything like a fair synopsis of what was said, but, having broached the subject, will do the best I can. First, allow me to say the hall was well filled with an attentive and appreciative audience who occasionally manifested their approval in an emphatic manner at the Professor's capital hits. It seems that this lecture was the sixth of a series of twelve, and this evening's subject, "The Fables of the Bible," the Professor took up, and in turn criticised the stories of the miracles which have come down to us in the Old Books, more particularly those given in the Old Testament, for instance, the story of Adam and Eve, that of Aaron, turning water into blood, of the exodus of the Israelites and its attendant circumstances, that of Jonah and the whale, of the Patriarch who lived nine hundred years, and others of similar remarkable character.

The lecturer asked his audience to bring these matters down to actual life—to make, in short, practical applications of them to the present time, thus to be able to see that they are, as he put it, "contemporary fables." "Take," said he, in this connection, "the whole story of the exodus, and you will not find in it a single important statement that will bear the investigation of truth. Where a man does this, brings these things down to actual life, then he begins to realize the absurdity of the thing. He will then find the writers of the fables even fold lies in order to make themselves

EDITOR DAILY NEWS.—In a few days the question of removing the county buildings to Niles will have to be decided. There are people in this town who are talking in favor of the removal. The reason given by them for the change is "bad roads" to Berrien Springs before letting the question decide their vote would be to better to wait a year at least, and see what comes of the "narrow gauge" project? That project, if carried through, would mean a very great advantage to this vicinity. Remove the county seat to Niles and that would end the railroad enterprise. But suppose we have no faith in getting railroad connections with Berrien Springs, an important question would be where on the railroad would we remove the county seat to, providing it was done wholly at the expense of the county? Not to Niles, certainly. The people here would never consent to have the county seat to having the county seat in the southeast part of the county if they had to pay some thousands to get it there. We would probably never consent to have the county seat to having the county seat in the southeast part of the county if they had to pay some thousands to get it there. We would probably never consent to have the county seat to having the county seat in the southeast part of the county if they had to pay some thousands to get it there.

in the accounts of the indiscriminate butcheries and massacres of men, women, and children, as recorded in the Bible. "Jonah, in the belly of the whale," Prof. Denton likened unto an express train with only one passenger very naturally brought down the house, and I think if that big fish had not before vomited, and he had heard from annoying or hurting the great Georgian Senator, he would have laughed him up.

The lecturer continued: "Let Jonah or any other man go through the streets of Boston, or any other place, as it is asserted Jonah did, shouting through Nineveh—that in forty days the city would be overthrown—how long, think you, he would make a disturbance before a policeman would be on his track and lock him up?"

"There is no reason," the speaker said, "no justice, no beauty, neither is there any truth, in such contemptible fables as these." He further said that the implicit credence given to these stories in the Bible is directly traceable to many of the crimes and horrible happenings of our time.

The murder of the Freeman child at Pocomasset by his father, as an instance of the truth of this assertion. Said he: "If that man had never read the fables of Abraham and Issac, then would he never have committed that horrible crime."

In conclusion, he claimed that the alleged miracles, related in the Bible, had always operated as obstacles to development of liberal ideas; that in brief, their acceptance by a large portion of the religious world, has constantly tended to the suppression of progress in all matters concerning the spiritual welfare of mankind.

In order that you may be the better judge of Prof. Denton and his writings, I will send you his published lecture on "The Pocomasset Murder."

WILLIAM SPOONER.

STATE ITEMS. Washenaw club has 58 lawyers. The Reform club of Cassopolis has suspended business. The inmates of the deaf and dumb asylum complain of the sound of the bell at that institution. Considerable of a party has left Dowagiac to settle in Dakota, taking with them farm stock and implements. A Three Rivers man named Thunders has received the news that he has fallen heir to \$4,000. At Cheboygan this winter there has been considerable over 400 days of good sleighing, continuously. The Democrats of this State will meet in East Saginaw, June 3, to select delegates to the Cincinnati convention. John N. Ingersoll, editor of the Shiawassee American, has just emerged from another \$10,000 libel suit with another six cents judgment against him, the second one of the kind he has had within the year, with the same termination. In 1840 Michigan had a debt of \$5,340,000, in 1870 \$2,335,028, and in 1879 of \$900,000, and more than funds enough on hands to pay it. We are sorry to receive the Lansing Republican last Friday with the inside blank. The Republican is one of our best exchanges and we miss any part that that may be wanting. W. G. Kerbey, of Galesburg, has sold 325 fat sheep, averaging 120 pounds per head, at \$6.30 per 100 pounds, and W. A. Blake has shipped 155 fat sheep to Buffalo, their average weight being 130 pounds. The township of Sault Ste. Marie has been divided into three election districts for the ensuing spring election. In former elections some of those who wished to indulge in the highest privilege of American citizenship had to travel 60 miles. The Mason News starts a grand boom for Edward Cahill, of Lansing, as candidate for Attorney General on the Republican ticket. It speaks in high terms of its candidate as an able man and one properly situated for that office. An unsuccessful attempt was made by an unknown party to assassinate Prosecuting Attorney Haire, of Jackson county, while sitting in his office in the county building at Jackson, Tuesday night. Two shots were fired without effect. Haire says he cannot account for the attempt on his life. The following is a verbatim copy of the call for a Greenback caucus at Galesburg, Kalamazoo county: NOTICE. There will be a Green Back caucus for the purpose of Nominating candidates for the township of Cheboygan on Saturday the 20th inst. at 8 o'clock P. M., in Galesburg at some conspicuous place. BY ORDER OF COMMITTEE. Col. Wattles, who left Kalamazoo a few days ago for Dakota, has returned disgusted, the ice and snow having scared him back. He says that Mr. Cooley and son, of Vicksburg, who left about the time he did, were lost in some snow-covered train; that Chauncey Joslin, a former Michigan Central conductor, is keeping an eating house on the Northern Pacific railroad; and that Michigan is a good enough State for him (Wattles).—Evening News. Several of the most prominent and wealthy citizens of Grand Rapids have formed a new corporation to be known as the Grand Rapids electric light and power company, with a capital stock of \$100,000. The company propose to furnish light and power to the citizens by means of electricity, and has asked the council to give it permission to erect its wires or conductors in the streets. Last Friday B. W. Jenks turned out a flock of 75 fine weathers and the same night the dogs got at them and made such fearful havoc that at present the account stands as follows: One dog was killed, number missing 8; total, 36. The estimated loss is over \$200. We commend this case to those who believe the present dog law is unjust, and ask if they don't consider it as this a pretty heavy tax on sheep for the benefit of those who keep dogs.—St. Clair Republican. What Congress should stop at once—the further taxation of the people of the United States, to the tune of 25 to 30 millions per annum, merely to coin silver when no one is willing to use it and when it lies a useless dead weight in the treasury.—The People. Sick Pains Can Save Money by buying the medicine known as Kidney-Wort. It is a dry vegetable compound of wonderful efficacy in all diseases of the liver and kidneys. One package makes six quarts of medicine which contains no poisonous liquors, being prepared in pure water. See large advertisement. None receive so much benefit, and none are so profoundly grateful, as those who show such an interest in recommending Hop Bitters as women. It is the only remedy peculiarly adapted to the many ills the sex is almost universally subject to. Chills and fever, indigestion or deranged liver, constant or periodical sick headaches, weakness in the back or kidneys, pain in the shoulders and different parts of the body, a feeling of lassitude and languor, and all are readily removed by these Bitters.—Covant. TAKE NOTICE.—The undersigned has been duly appointed agent for the various insurance companies formerly represented in this place by Mr. A. F. Ross, and shall be pleased to receive the patronage of his old customers, at as many new ones as shall need insurance against loss from fire. Eight of the best companies are represented. Also an insurance against accident that should claim the attention of those employed in factories. JOHN G. HOLMES.

APRIL 1. REGISTER next Saturday.

SPRING fever comes early this year. SLIPS can be had at this office election day.

'Twas a girl. At John Curtis' last night. GARDEN making will soon be the order of the day.

EASTER calling cards were in high demand in South Bend. THE RAILROAD WILL BE BUILT. Tell your neighbors.

THE NILES Democrat has just finished its thirty-eighth year. REPUBLICANS, remember the caucus in Rough's hall Saturday afternoon.

Did you pick up all the packages you saw lying on the sidewalks to-day? SEE proclamation by Supervisor Fisk in another column of this paper.

A BOYING baby boy was the new comer at Louis Danno's home Monday. AN Odd Fellows' Lodge will soon be instituted at Hill's Corners, in this county.

CAPT. Bogardus and his son gave an exhibition of their shooting in Niles Monday. RAIN fell nearly all day Saturday and was accompanied by heavy thunder about noon.

NOTE THE TICKET THAT READS: "AGAINST THE RENOVATION OF THE COUNTY SEAT." MISS MARY GOSLINE started this morning for a visit with her brother in Toledo, Ohio.

A LIVELY round has commenced between the Niles Republican and Thomas Mars, of Berrien Center. THE surveyer is busy at work laying out the route for the railroad from this place to Berrien Springs.

MR. R. McCOMBE has moved to Berrien Springs where he will engage in the photograph business. REPUBLICANS, remember the caucus Saturday afternoon in Rough's hall. There should be a full attendance.

BRING in your orders for tickets as early as possible and with all proper names correctly and plainly written. THIS is the season for colds and consequent sickness. Take care of yourself and keep out of the doctor's hands.

The convention of path-masters and highway commissioners at Berrien Springs will be on the twenty-fourth of April. A LETTER has been received by those who sent money by Mr. J. N. Stephens to Colorado, that he has arrived at Leadville safely.

THE Rough Brothers have donated the use of their hall to all entertainments and meetings held in any way relating to the new railroad. MR. WILLIAM DRUHLINER, of New Carlisle, fell dead while at work in that place last Thursday. Cause supposed to be heart disease. Age, 55.

ATTENTION is called to the advertisement of the directors of the St. Joseph Valley R. R. that appears in another column, asking for ties. THE rain Saturday was a good thing for the wheat crop, which was suffering from the effects of the dry weather. Grass and clover will also partake of the benefit.

THE prospect is becoming good for the fifty houses we built to have built in this place, to be built the coming summer. George Churchill is making good headway with his portion with a dozen of them.

Written for the Berrien County Record. "THAT PUZZLE." Boston has been called the "hub" of the wheel that turned the nation. So now will she try to outwit, And puzzle the world again.

No more in peace, the poets walk In sylvan paths by crystal fountains, For list! you'll hear the rambling talk, "Thirteen, fifteen, fourteen, counting."

The "Great boom," now, is in the shade, And quietude, you need not mention, Sherman and Blaine's names must fade Since Boston's last great invention.

Ye politicians, nobly stand, Quickly round our standard rally, Lest you may lose the winning hand Of a nation, with this rally.

For, when at that ledge shall mount The stand, at close of the convention, "If fifteen, thirteen," he should count, Who them, can save the nation!" R. C. B.

EXTENSIVE improvements in the buildings and grounds on Diamond lake island will be made the coming season that will make it more than ever attractive as a summer resort.

A LONG time has passed since the citizens of Buchanan have been so in earnest about any one project as they are now in the building of the railroad from this place to the mouth of the river.

In less than one year we shall see the Benton Harbor Times pleading to have the narrow gauge railroad it has been making so much sport of to come to that place instead of St. Joseph.

It is estimated that the present out look is fair for an increase of sixty per cent. in the coming wheat yield over that of last year, in this vicinity. This looks like a pretty high estimate when it is remembered what an enormous crop was raised last year.

The only way Niles people have of redeeming themselves and to get into a real live town is to just move over to Buchanan. Men who make such promises as those made at New Buffalo need not accept this suggestion. We don't want any such chaps here.

The Howard Comic Opera Company gave a free entertainment in Kinyon's Hall Saturday evening, taking a collection at the door, and Monday evening gave a second entertainment, in Rough's Hall, for the benefit of the St. Joseph Valley Railroad, that netted the railroad about \$50.

MR. C. C. BROWN, of the firm of Brown & Sherrill, of Three Oaks, has had a specimen of white bronze monuments on exhibition in front of the post office for the last few days that is something new in this part of the country. We learn that this firm has the right to erect these monuments in this and Cass counties.

OUR PAY.—As one of the rewards we receive for our feeble efforts for the success of our narrow gauge railroad, a portion of our advertising that was being done for Larimore & Dean, of Niles, is withdrawn from the columns of the Record and placed in the issue of the Reporter.

HI HENRY.—This celebrated minstrel troupe gave one of their entertainments in this place last evening to a crowded house. As a musical treat of the highest class, it was equal to, if not better, than has been in this place for many a day. The fellow who beats HI Henry blowing the cornet must get an extra hinge put into his tongue.

LAST week's Benton Harbor Times comes out with an article with a long display head, announcing that the project to build the St. Joseph Valley Railroad had fallen through. Will it be mainly enough to give the facts in the case this week, and announce to its readers that the building of the road is assured?

THE subscribers of D. W. Ensign's new history of Berrien and Van Buren counties must not be disappointed if the books come along about two weeks before they expect them. The card we received was dated March 1, and announces that the book will be ready in thirty days, which makes the time pretty close at hand, although the card was not mailed until March 22.

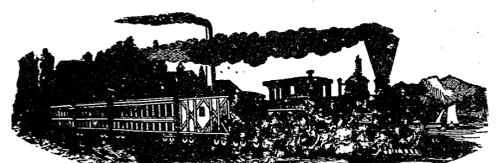

A report has been circulated through the western part of the county that Wm. R. Rough had withdrawn his subscription and stock from the railroad, and that this move was going to stop further work. We have simply to say that Wm. R. Rough has done nothing of the kind, nor has he any intention of doing so, and besides that the railroad is going to be built, and that as soon as the work can be done.

WITHDRAWN.—Clarence A. Brown, of St. Joseph, has written a letter to Congressman Burrows announcing that he withdrew all claims to the appointment as cadet to West Point, he being the choice of the committee, and with whom there was a doubt as to his being legally entitled to the appointment. This causes the appointment to recur to the alternate, Mr. Wendall Simpson, of Hartford, Van Buren county.

THERE will be a Temperance Convention at Three Rivers, Wednesday, April 7, at which time all temperance organizations in this Congressional District are expected to be represented. The object is to organize and secure the united effort of all temperance people in favor of a constitutional amendment prohibiting the manufacture or sale of intoxicating liquors in the State. Each Red Ribbon Club, W. C. T. U., or other temperance organizations are requested to send three delegates.

LIST OF LETTERS. Remaining in the Post Office at Buchanan, Wednesday, March 31, 1880. Adams, James Chambers, Mr. S. HELD FOR POSTAGE. Mr. G. W. Michael, Valparaiso, Ind. This list is published here for the information of the readers of the Record, therefore there is no charge for delivery of letters advertised herein. Persons will, however, in claiming any of the above, call for "advertised letters." L. P. ALLEN, P. M.

THE GRANDEST ENTERTAINMENT OF THE SEASON.—Leap Year Railroad Social will be held at the elegant residence of George H. Rough, four miles south-east of Buchanan, on Wednesday evening, April 7, if the weather is favorable. If stormy it will be postponed until the following evening.

HYMENEAL.—One of the most enjoyable and brilliant affairs of the season was the marriage of Mr. John W. Brocius, of Buchanan township, to Miss Ida E. Taylor, which took place at the residence of the bride's brother-in-law, J. Crocker Brown, in Niles City, last evening, Rev. J. F. Bartmess officiating. There were a goodly number of presents of value, of which the following is the list:

Miss Carrie Ives, photograph and frame; Mrs. J. Crocker Brown, sister of the bride, silver sugar spoon, butter knife and pickle fork; Miss Franc Brocius, glass pickle dish; Miss Jennie and Ella Summers, glass cake stand and letter receiver; Misses Clara and Lura Wilson, brasses ruy; Mr. Henry Wheeler, lamp; Mrs. H. Wheeler, tea-tray and large bride's cake; Mr. Amos Wilson, linen napkins; Mr. J. Crocker Brown, set silver knives; Mrs. Amos Wilson, sister of the bride, magazine and pictures; Miss Della Smith, pillow-shams; Mr. and Mrs. G. W. Rough, silver pickle dish; Mr. and Mrs. J. G. Holmes, one year's subscription to Berrien County Record; Mr. W. G. Bliss, silver dollar; Mr. Fred F. Schmidt, toilet set; Mrs. Sallie Kingery, pin-cushion; Mr. B. D. Harper and Miss Mattie Brown, glass lamp with porcelain shade; Mrs. Mary Straw and Misses Mary and Minnie Grover, large chromo and frame.

After the congratulations and the partaking of a sumptuous feast prepared for the occasion, the happy pair repaired to their new home already prepared for their reception, on the Brocius farm, a short distance from this place. They commenced life under the most flattering circumstances and with the best wishes of a host of friends.

As to our right to give (\$50,000), that makes no matter of difference to you. We are ready to plunk down the money, and there's where the music comes in.—Niles Republican.

Admit that it makes no matter of difference with us. We do not believe you are ready to plunk down the money or any part of it, so long as the case is as it is, and you are not obliged to. Did you ever hear of a municipal bond being paid where there was a possible chance to avoid it? And where there is such a plain illegality in their issue as in this case, the probability of any purchaser ever being found is extremely doubtful.

COUNTY PRESS. [Niles Republican.] Sheriff DeMont and Deputy Clarke, always on the alert, captured two horse thieves and a horse, stolen from Jackson, in Dainbridge township on Monday last. — Mrs. Phillips, wife of John Phillips, station agent at Pokagon, was thrown from a hand-car on which she and her husband and others were riding on Monday of last week, and quite seriously injured.

[Niles Democrat.] On Saturday last the barn of Mr. Geo. Miles on Purcell Johnson place, a few miles east of this city, was destroyed by fire. Mr. and Mrs. Miles were away from home at the time. A little boy was playing about the barn, and while so doing he struck a match and supposing it was out threw it down, but it proved not to be out and the straw took fire, and soon communicated to the barn and all was soon ablaze and destroyed. The loss is estimated at \$600 and insured in Berrien Mutual for \$800.

[Niles Mirror.] A set of false teeth have been picked up by the side of the barn yard gate on the Henry Morris farm, which it is supposed the murderer lost in his haste to get on a horse and away.

[Berrien Springs Journal.] The smoke-house at the county poor farm was burned on Thursday morning. The contents were partially saved in a damaged condition. Loss not known at this writing. Had not the wind been in a favorable direction the buildings occupied by the crazy poor would also have been destroyed.

EXTRA copies of the RECORD may always be found at the news depot in the post office room.

THE Niles Republican calls our attention to the fine court house of Washington county, as a sample of cheapness, and saying that it cost only \$65,000. That is just the one we had in mind when we made our estimate, for when in Ann Arbor we were told that the cost of the buildings and grounds was \$150,000. We have however written to the Hon. R. A. Beal and get from him the reply that the total cost of the building without the grounds was \$82,153.10, and that the grounds were donated 50 years ago. Now, add to this the rise in price in all kinds of material, and the cost of the grounds and the amount will not be wide of our estimate, by the time the moving is all done.

PROCLAMATION.

By an act of the people of the State of Michigan entitled "An act to maintain political purity," approved May 22, 1877, making it unlawful for any person to sell, barter, or give away any Spirituous, Vinous or Malt Liquors on the day of any election held within the State of Michigan, under the Constitution or laws thereof, and making it the duty of all Mayors of Cities, Presidents of Villages and Supervisors of townships, within five days previous to the day of election as aforesaid, to issue a proclamation warning the inhabitants of said act, and that all violation of the same will subject the offender to prompt and speedy punishment, and requiring Sheriffs, Marshals, Constables and Police Officers to close all houses or places found violating the provisions of this act, and to report forthwith all violations of the same to the Prosecuting Attorney and Mayor, President or Supervisor aforesaid, whose duty it shall be to immediately prosecute such violations of said act.

Therefore, I as Supervisor of the Township of Buchanan, in accordance with said act, do hereby warn the inhabitants of said act, and that all violation of the provisions of this act, and that all violations of the section nine of said act will subject the offender to prompt and speedy punishment. Given under my hand this 1st day of April, A. D. 1880.

BENJAMIN F. FISK, Supervisor of the Township of Buchanan.

From the Decatur (Mich.) Republican. "We have been so often bored by persons traveling over the country, professing to be endowed with abilities to cure every disease that flesh is heir to, that we require considerable satisfaction in regard to a traveling physician's reputation before we are willing to commend them to the public. After a long business acquaintance with Dr. V. Clarence Price, and considerable knowledge in regard to his success during the many years that he has been traveling through this part of the country, we are satisfied that he is an honorable exception to the common rule, and those who trust themselves in his hands may rely on a speedy cure, if their disease is curable. His large success in the past is ample evidence of his skill as a medical practitioner. He charges nothing for consultation and deals frankly and fairly with all who call upon him for advice, and gives no encouragement unless confident of his ability to afford relief."

Dr. V. believes we are doing a service to such as may be troubled with chronic complaints, to call attention to the fact that Dr. Price, now a regular visitor for years, will be again at Niles, Bond House, on Saturday, the 17th of April.

Profit, \$1200. "To sum it up, six long years of bed-ridden sickness, costing \$100 per year; total, \$1,200—all of this expense was stopped by three bottles of Hop Bitters, taken by my wife. She has done her own house-work for a year since, without the loss of a day, and I want everybody to know it, for their benefit."—N. E. Farmer.
