SATURDAY was another of those busy days for Buchanan, although we have none that are very dull.

The Government has concluded to spend about \$8,000 in improving the harbor at St. Joseph this year.

ELD. GEO. W. COLE will preach in the old Advent Church next Sunday forenoon and evening.

A young fellow from Mutchler's mills fell in a hard fit at the corner of Kinyon's store, Saturday forenoon.

J. F. HAIN has been having his horse newly painted. Genie Murphy brushed it on in pretty good shape.

GEORGE HAYDEN, of Cassopolis, aged 65 years, committed suicide by taking morphine, last week, while on a drunk.

Boys, look out for those extra pennies. Cereuses are about ripe, and one may drop here without a moment's warning.

Miss MARY ARTHUR is considerably repairing and renovating her building, next east of Murphy's barber shop, preparatory to moving.

MR. AND MRS. ROBERT MEAD now come to town in a fine new phaeton manufactured by the Rough Bros' wagon works. It is a beauty.

APRIL ended up last Friday with a snow squall. -It is to be hoped, however, that that kind of squalls are about at an end for this season.

A white robin was shot near Barron Lake one day last week. So says the Republican. It will be placed in Esquire Barron's museum, in Niles.

It is not every town that affords a first-class hostler. Bill-Palmer knows him better than any one else, and can give all needed references.

MR. OTIS REED, of Berrien Springs, was brought before Justice Dick, yesterday, charged with an assault and battery, on one Sutton. He pleaded guilty and was fined \$5 and costs.

DECORATION DAY comes this month, and as this is the day most generally observed in this place of all the year, we trust it will not be neglected this year.

AGAIN we call the attention of those who have the timber to the advertisement of the St. Joseph Valley Railroad Company in this paper. The ties will be needed in a short time.

THOSE who make a practice of selling cigars to little boys about six or seven years of age, ought to have the boys' fathers come along about that time and kick them clear over their counter. Nothing very manly about that kind of trade, whatever the profit may be.

MR. James Case's green-house receives the visit of many of the town's people every day, and especially is this made the objective point for Sunday strolls. He keeps a fine assortment of plants in Mr. Severson's drug store.

THOSE who imagine the books in our township library are not read, need only to examine the record to be convinced of their error. Thirty-six new volumes were added a short time since, and within twenty-four hours not one of them could be found in the library.

FIVE communications have now appeared in the Record concerning the question as to whether we have a Superintendent of Schools or not. The people have evidently decided the question to their satisfaction, and they now propose a cessation of hostilities.

THE Bristol Combination will appear in Kinyon's hall one week from to-morrow (Thursday) with one of the best arranged programmes that has been presented in Buchanan during the entertainment season.

THERE was some talk of a new furniture store to be opened in George H. Rough's building, now occupied by Miss Mary Arthur, to come here from Niles, but the parties from some reason failed to connect, and they will not come.

HENRY ADAMS, of Grand Rapids came to this place Tuesday and procured a warrant for the arrest of Anna Adams, his wife, and Daniel Hines, of this place, on the charge of adultery. Hines was placed under \$800 bonds to appear for examination before Justice Dick next Monday. Sheriff DeMont went to Grand Rapids Tuesday to arrest Mrs. Adams.

New potatoes are among the spring luxuries in Ingham county. The seed was planted January 1, and now the new potatoes are ready for cooking. That is nearly equal to our ripe strawberries on the 4th of April.

A FEW weeks since a telegram was sent from St. Joseph to a Detroit daily stating that the treasurer of Weesaw had been robbed, when it was the treasurer of Lake township. As about all the county papers stole the item, they all made the same mistake. The Record with the rest.

MR. C. S. BLACK has sold his stock of lumber and rented his factory to Messrs. Black & Schray who have just commenced business in earnest. Their line will be general furniture with cabinet organs as specialties. The new firm can have no reason for not prospering in their field.

If you do not wish to miss one of the best, and probably the last, entertainment of the season, attend the Bristol next Thursday evening. They are well spoken of everywhere. The money will be refunded to all who are not well pleased.

DIED.—Mr. Sylvester Dumbleton, of this place, was taken suddenly Saturday evening with a sort of apopleptic paralysis and died Monday afternoon, aged 63 years. Mr. Dumbleton has been a resident of this place for a number of years, and was well known by a large circle of friends.

ANTHUR, son of David A. Best, of Bertrand township, died yesterday afternoon of lung fever. He has been sick a long time but only a short time of the fatal complaint. He is the second to pass away from that family in about six months.

MARRIED.—Mr. Thos. Horan and Miss Ida Dunbar, both of Niles, were married at the Catholic church in that city yesterday morning. Last evening a reception was held at the residence of the bride's parents, Mr. and Mrs. Adam Barman, which was largely attended by the friends of the happy couple. The Record wishes Tom and his fair bride a long and happy wedded life.

"O, shame, where is thy blush?"—Niles Democrat. The doctor probably refers to the parties who attended the May Fisk show.—Era. Oh, no, Brother Mr. we had no reference to the narrow gauge. May Fisk is a reality, and the "gauge" is not.—Niles Democrat.

Will you just please keep right on thinking the "gauge" is not. But keep still about it.

In the Schuyler, Neb. Sun, of April 29, we find the following bit of news: "Married, in Schuyler, Wednesday afternoon, at the residence of the bride, by Rev. Wells, Mr. C. M. Steadman, R. R. agent at Richmond, and Miss Kate M. Bliss, of Schuyler."

Many in this place will remember Miss Kate M. Bliss as a former resident of Buchanan.

SOME talk has been had of making an attempt to secure the founding of a telegraph office at some place on Front street. Could such an arrangement be secured, it will be a great convenience and one that those who use the telegraph can well afford to aid. The objection is made by the company that it will not pay the extra expense. The same was said by the railroad company when we wanted a coupon ticket office, but they have changed their minds.

On last Sunday a number of rabbits might have been seen in the neighborhood of the Union school building, gamboling and enjoying the fresh green grass. Before the day closed, however, the editor of the Record captured one of them, but we hope not for the same reason the boy dug for the woodchuck.—Reporter.

The Reporter editor ought to know to what strains editors are put to obtain meat. If he doesn't now, he will before he has been in the business ten years.

We did not think the narrow gauge road would be built from Buchanan to Berrien Springs until Mr. Pears, Rough, and others with plenty of capital declared it should. They advertise for ties, surveying and leveling is going on, and it really seems the day is not far distant when we can go to the county seat on rail, but the changing from broad gauge to narrow gauge at Buchanan will not be pleasant in a thunder storm.—Niles Mirror.

It would be quite as pleasant as a ride from Niles to Berrien in an open buggy, through a thunder storm, "aint it?"

WORMS.—Now is just the time of year that farmers should attend to clearing their apple trees of the worms nests, that make such destruction of the trees during the summer. They are now formed large enough to be plainly seen, but little trouble will entirely free your orchard of the pests, and with much greater certainty of getting all of them than if delayed until the leaves are out in full size.

WHAT NEXT?—Mr. N. Hamilton has in his new building a new machine that is truly a wonder, almost equal to an art printing press that breathes like a man. This is a machine for binding wheat with hemp twine. It makes up its own bundle, presses it together, and when the proper size is reached binds it, placing the twine tightly around and tying in a square knot, and never binding unless the bundle is large enough. It seems to understand the whole business excepting making the bread and eating it. So far as our observation goes, this is ahead of anything yet invented for harvesting purposes.

ANOTHER argument in favor of using the streets for a cow pasture. As Mrs. H. Baker's little girl was walking along the sidewalk on Fourth street, Monday evening, she was attacked by a cow and tossed into the air. As she came down she was caught on the cow's horns, but luckily the horns were turned well forward and the little girl rolled off to the ground, and saved herself from another fall by crawling through the fence. The effect of the fracas is a bad wound in the upper lip, several bruises and her clothes badly torn. Besides a rather narrow escape for the girl. Will the Common Council please make a note of this?

JOSEPH CONOVER was in town Monday hunting evidence for the prosecution of the fellow who gave him the whisky that got him into the cooler a few weeks since, and tried to thrash him because he wouldn't drink more of the stuff. Joe thinks the other fellow is the one who ought to have gone to the cooler and been fined.

[Niles Democrat.]

Albert Smith, employed in the Welching Chilled Plow factory, in this city, was quite a little injured on Thursday last by the bursting of a belt, one portion of which struck him in the face and chest, knocking him down, cutting his face and bruising his chest. Mr. Morris, of Summerville, had a cow which gave birth to two lambs, on the 11th of April, and a week later, on the 18th of April, gave birth to two more, all living and doing well.

A letter from 'Edmore to the Bay City Tribune says: Our village council, at its last meeting, by vote placed the bonds of the saloon-keepers at \$3,000, and also gave to them the privilege of paying \$100 additional tax each into the village treasury. The result is that only one bond has been filed yet. Indications are that the new liquor law in this section of the state will decrease the number of saloons more than one-half.

April 27 the Kalamazoo Paper Company lost their stock house and its contents by fire. Loss, 17,500. Insured for \$10,500.

"The house on fire, you say? Much obliged, I'm sure. I'll come along and help you put it out in a minute. X marks the key of the fire-box somewhere in its number 15-13-14, you know."

A little fellow 4 years old prayed thus for himself: "O Lord, bless George, and make him a good boy; and don't let him be naughty again, never, no never." Because, you know, when he is naughty he sticks to it so!"

A legislator represented a back district but had "influence" out there. He attended Episcopal service on Sunday. "How did you like it, Colonel?" "Well, was a little put out in a minute, but soon got used to it, and set and riz and set and so good as any of them."

The poetical language of the Orient differs vastly from the plain, common-sense businessness of our own land. For instance, when the Persian meets a friend he says: "Thy visits are as rare as fine days." But when an American woman sees a caller coming to the front door she exclaims: "If there ain't that everlasting Smith woman again." It is a big difference in form at least.

Scientific gem (with his hair on end and the tassels of the cords to his dressing-gown thumping behind him as he descends the stairs): "But I could almost swear I hear footsteps—following me down stairs!" Bolts into his bed-room, locks the door, and writes to the *Athenaeum* next day.

He stood with his back against the front door of the street. "Every one 'sae had seats, and he had anxiously watched each face for symptoms of getting out for over three miles. He grew wearisome, and he finally said: 'I hear footsteps—following me down stairs!' Bolts into his bed-room, locks the door, and writes to the *Athenaeum* next day."

A young American, who has been in Paris for a year studying medicine, was visited by his father. Like a dutiful son, he parades his parental concern, and, through the city, and pointed out its architectural lions. Finally he halted before a many-pillared building. "What is that lovely pile?" asks the old man. "I don't know," replies the youth; "but there is a serenade de ville, and the crowd over and put the question. 'That, gentlemen,' says the officer, 'is the medical school.'"

The Small Boy Not "a Slumux." Detroit Free Press.

It is often gazed at by slumux. That is to say, he goes sloshing around with his thoughts at the North Pole and his eye on the south. It is all the same to him whether he runs over a street-car or knocks down a lamp-post. Street attacks on the small boy arise from pure jealousy. One of them, one who may have been once attacked by jealous historians and small-minded poets, was waiting on a Woodward avenue corner yesterday, when afar up the street he espied a load of hay. The farmer on the load was smoking. That small boy had been sent on an errand and told to hurry up or he'd get his jacket nicely dusted, but he no sooner saw the hay and the smoke than he jumped over the fence, ran to the hay, and, in a twinkling, was munching along came the load. The horses were on the walk and the driver on the puff. He had just got down to where the tobacco tasted good, and was unking the most of it. As the load was passing the boy drew in his breath and shouted, "Fire! fire!" at the top of his voice. The effect on that farmer was wonderful. He threw the pipe clear to the curbstone, rolled off his load, to the pavement, jumped up, and had begun unharassing his horses when a pedestrian demanded the cause of his excitement. "Some one's hollered fire, and I thought it was the hay," he explained.

He walked all around the load, sniffed at it, and when certain that there was no fire he shook his hat over the house in the neighborhood and climbed back to his seat and drove on.

If that boy had been a slumux, he wouldn't have been there. If he had been careless he wouldn't have put the hay and pipe together. If he had been a mope he wouldn't have reasoned: "One load of hay, plus one pipe, equals two yells which lifted that fellow clear out of his boots."

"A Powerful Reader."

"Anything in the literary line to-day, gents?" said the old book-peddler, who rested his bundle on a table in the boat's cabin. "What have you got that?" queried one of the passengers, who was dressed in a butternut suit. "Most anything," here's Dickens, Sir Walter Scott, Emerson, Bunnett, and other distinguished authors. Take a look."

"Got her Life of Davy Crockett?" "Here it is, complete in one volume. It's a real gem. It's a powerful reader. I'll take it for you."

It is said that in the Welsh language an infidel book does not exist.

LEWIS' CONDENSED BAKING POWDER

STRICTLY PURE!
We will give \$100.00 for any false or adulterated powder found in the United States.

Indorsed by the Brooklyn Board of Health, and by the best chemists in the United States.

It is stronger than any other powder in the world.

It NEVER FAILS to make light bread when used as directed.

It is recommended by every housekeeper who has given it a trial.

It is the only NEW INVENTION, which, without the aid of any other ingredients, has a tendency to sustain and nourish the system.

Good food makes good health, and health is improved or impaired in proportion as the food we eat is nutritious or otherwise.

Lewis' Baking Powder always makes good food.

One can of this is worth two of any other brand.

It makes bread whiter and stiffer, and it is the only powder that does not arise from the use of common baking powders, which make the best of flour turn out dark bread.

The most delicate persons can eat food prepared with it without being injured.

Nearly every other baking powder is adulterated with salts or other injurious ingredients.

This is made from Refined Grape Cream of Tartar, and is the purest and healthiest of all baking powders.

It is the best, lightest, and most nutritious.

BREAD, BISCUIT, CAKE, CRULLERS, BUCKWHEAT, INDIAN, AND ALL OTHERS.

A single trial will prove the superiority of this Powder.

Cup Cake.—Five eggs, one cup butter, two cups sugar, three cups flour, two teaspoons of pearl ash; beat the eggs separately, cream the sugar and butter together, add to them the yolks, and after they are all well beaten mix in the whites and the flour, dissolve the pearl ash in milk and stir in just before baking.

Roast Rabbit.—Skin and clean out the interior of the rabbit and fill it with a stuffing made of bread crumbs, minced onion, salt, pepper, and parsley, chopped fine; season with pepper, salt, summer-savory and a little sweet marjoram, rubbed fine; put it in a good oven, and while roasting, baste with plenty of butter and dredge it occasionally with flour. Thirty-five minutes' roasting will be sufficient. Boil the liver with a dozen sprigs of parsley; when quite tender cut both up fine, and add to them melted butter, as a sauce; have also another sauce boat with plain gravy, made of the drippings from the rabbits, thickened with flour and water, or much better, a little Madeira wine.

Chocolate Baked Cheesecake.—Dissolve four ounces of cacao-paste; place it on a moderate fire, and stir constantly with a wooden spatula until it is thoroughly smooth and at the boiling point; then add to it a pint of cream, sugar, and one ounce of dissolved gelatin; after which strain and rub the whole through a fine hair sieve into a custard dish, when you have placed in pounded ice; after it has stood fifteen minutes and begins to thicken, stir it continually until the whole becomes very smooth and sleek. Now remove it from the ice, and stir in a pint of stirred cream, which you have placed in a quickly turned out one quart of well-drained whipped cream. Now fill the mould, which you place in pounded ice, let it so remain for half an hour, when it may be turned out in the usual manner.

Scalloped Oysters.—Butter a baking dish and sprinkle a layer of cracker crumbs over the bottom. Warm the oysters very slightly in their own liquor; then arrange a single layer of oysters over the crumbs, placing them close together. The juice which clings to each oyster will be sufficient to moisten the cracker, unless you use the latter too liberally. Season with pepper, salt, and a generous allowance of butter cut into little bits. Put on another layer of cracker crumbs, then more oysters and seasoning, and continue alternate layers until the dish is full. Make the top layer of the cracker crumbs, thicker than the intermediate ones. Cover and bake in a quick oven for fifteen minutes, then remove the cover and brown the top on the upper grating of a large dish. Will require a little longer; a slow oven and too long cooking will completely ruin them.

Canning Sausage Meat.—We have been putting to test, says a correspondent of the *Ohio Farmer*, our original experiment of canning sausage meat, and it may be the experiment will prove a failure; but from present appearance we are confident the result will prove most favorable; and our sausage will be preserved in better shape than ever before. We have put up some twenty-four quarts, using both tin and glass cans, and the meat seems to be keeping very nicely, so far. We intend to keep a few cans until next harvest time, and think by that time the test will be sufficient. Our mode of canning was as follows: After the meat was ground fine, it was put in a granite ware bowl, and twenty-five pounds at a time, seasoned to suit the taste, with pulverized sage, black pepper ground, and salt; mix thoroughly as it is heating, bring the meat to scalding heat, then fill the cans, pack the meat snugly, and when full, put a couple of spoonfuls of heated lard over the top. Seal directly and set the cans in a cool place. Try the recipe, sisters, and report result.

The Saddle Horse on the Farm.—"The memory of man extended to the day," says the *Nashville American*, "when the boys on the farm were not too proud to ride a fine young horse to church or to see the girls. He took pride in the colts, and taught them to move freely under the saddle, and above all, when the colt was broken he was taught to walk. Now the boys have a few buggy and harness, and the colt must show his style and speed all the time. The boy is too great a hurry to allow the colt to walk. The colt, buggy and boy are scarce, and the boy is too busy to ride. The whole business of buggy-riding by farmers' boys is expensive, extravagant and demoralizing. Not one farmer in ten can afford such a turnout. The boys have a few buggy and harness, and the colt must show his style and speed all the time.
