Wade Hampton, at the meeting in the
interest of Democratic harmony in
Virginia, at Staunton, July 26.MAINE.
The report from Maine's Monday
election, as first stated gave the Green-
backers and Democrats great rejoicing,
but as the full returns are being re-
ceived, the members of those parties
are not so jubilant. The full reports
show that the Republicans have elect-
ed their congressmen in the first, sec-
ond and third districts, while the
Fusionist elect in the fourth and fifth
leaving the Congressional delega-
tion the same as before. The Republi-
cans have elected a majority in
both branches of the Legislature,
this ensuring a Republican United
States Senate to succeed Senator
Hamlin. The vote on Governor is
quite close, so that the true result will
not be known until the official count
is announced, although it is now
thought that Davis (Republican) is
elected by a small majority. The In-
ter Ocean this morning contained the
following special telegraph from New
York at 1 o'clock this morning:"Dispatches just received say that
the Republicans in Maine now have
full returns, showing the election of
Davis for Governor by a majority of
50 votes. There is great rejoicing in
Portland.On the whole we fail to see where
the Greenbackers, and more especial-
ly the Democrats, have reason for
such rejoicing. There are a few towns
yet to hear from, and they are the
ones that usually give good Republi-
can majorities. An amendment to the
Constitution, providing that in elec-
tions of State officers a plurality should
elect, instead of requiring a majority
over all opposing candidates as heret-
ofore, has been carried.According to the latest statistics, Iowa
has over 4,000 school teachers, 10,000
schools, 21,000 scholars, 365,000 scholars
in average attendance, and her school
fund is in excess of \$3,500,000.The regulars and readjusters, two
factions of the Democratic party in
Virginia still cling to their divisions
with a tenacity that is commendable,
and the prospect is that the State will
elect Garfield electors in consequence.A mineral spring has been discovered
near Calistoga, California, that is
said to hold large quantities of gold in
the water that flows from it. A man
named Tucker who has bought the
property, discovered the precious min-
eral and succeeded in extracting \$1000
from ten barrels of the water. The
discovery naturally creates considera-
ble excitement. Later reports say that
Tucker and his mineral spring are
both humbugs.In 1876 Tilden pledged himself to
veto all bills allowing the payment of
southern war claims, for property of
rebels, destroyed by the Union army.
Hancock has been asked to do the
same but refuses. Does he mean that
if elected he will continue the pay-
ment by the United States for property
of the southern held in service, and what
was destroyed, belonging to rebels and
traitors to the country? Claims of this
kind to the amount of 2½ billions of
dollars are now in the hands of claim
agents for presentation when there is
a probability of their being allowed
by congress and the president. Does
he mean by his refusal to such an
agreement that he will sustain an act
placing this burden greater than our
present public debt upon the northern
voters and tax payers?Eleven suits have been commenced
in the United States District Court,
at Detroit, against the steamer Garfield,
by the parents of children who lost
their lives in the recent collision be-
tween her and the steamer Mamie.
Nine of these suits are for \$2,000 dam-
ages each, and two for \$4,000 each.Beltzhoover the Democratic con-
gressman from Pennsylvania has ap-
plied to be a soldier to introduce a bill
in relation to soldiers pensions and
made the following very suggestive
reply:
HOUSE OF REPRESENTATIVES,
WASHINGTON, D. C., April 23, 1880.
DEAR SIR—YOUR favor was received.
I would most cheerfully introduce
any bill for the purpose of a bill, such
as you suggest, but WITH THE TRICKS
DEMOCRATIC HOUSE, PENSION BILLS
DO NOT HAVE MUCH FAVOR. It has
become almost impossible to get con-
sideration of such a bill at all, and
when considered its chance of passing
the house is very remote and THE RE-
BEL GENERAL WHO IS THE HEAD OF
THE PENSION COMMITTEE IN THE SEN-
ATE IS STILL MORE ADVERSE TO ALLOW-
ING ANY SUCH BILLS TO PASS. It would
not be at all probable, therefore, that
the bill will be got through.
Very truly,
F. E. BELTZHOVER.The Grand Rapids Democrats hav-
ing reviewed a speech of Senator Ed-
munds, of Vermont, in reference to
the danger of the allowance of rebel
claims for millions of dollars in case
of Hancock's election, and having
used bitter language toward the Sen-
ator, the editor of the Ingham County
News wrote a letter to Senator Ed-
munds on the subject. The 4th sec-
tion of the 14th amendment to the
constitution was set up by the Demo-
crat as interposing an insuperable
barrier to the payment of rebel claims,
but the Senator's letter brushes away
that pretension. It exposes the greed
and audacity of the confederates in
strong colors. We copy the letter in
full:
BURLINGTON, VT., Aug. 30, 1880.
TO V. J. TREF, Esq., Mason, Mich.:
Dear Sir—Yours of the 18th came
just as I was going out of town. I
fear the editor of the Grand Rapids
Democrat is not very hungry to find
out exactly what the 4th section of the
14th amendment covers in point of
law.
The rebel claims referred to are not
claims of rebels for aiding the rebellion
but for property, amounting altogether
to hundreds, and probably thousands
of millions, taken or destroyed by
armies of the United States, and there-
fore the moment the fact of loyalty of
any claimant is revealed, the claim of
any other citizen against the Govern-
ment on account of the rebellion, and
not on account of the action of the
rebel authorities.
The Democrats in congress have
tried time after time to repeal this dis-
tinction in respect of claims of loyal
citizens against the government, and
they have failed. They have bills now
pending in the senate to
effect that object, and they will effect
it by a solid or nearly solid vote
the moment they get possession of all
the departments of the government.
As to rebel pensions, the editor of
the Democrat, if he will reflect a little,
will, I am sure, agree that a pension
is not in any case fall within the
description of any of the words of the
amendment, and if it is not within the
prohibition of the 14th amendment, a
pension is and always has been granted
on the ground of bounty or gratitude,
and not of legal obligation. It is perfectly
true, therefore, that the constitution
does not stand in the way of congress
pensioning every rebel soldier or sol-
dier's widow and children, or indeed
every other rebel if it pleases.
I will not repeat the epithets of this
worthy editor.Very truly,
GEO. F. EDMUNDS.Pollard's Lost Cause is the standard
Southern history of the rebellion, and
as such, of course, contains a reflection
of the views of the South regarding
that conflict. Some of its utterances
bear a special significance, and will
be read with interest. For instance:
"There is a better judgment already
read by the Southern people of what
the war has decided against them-
selves. The last memorable remark
of the old Davis, when he fled from
and before the doors of a prison closed
on him, was: 'The principle for which
we contend is bound to reassert itself,
though it may be at another time and
in another form.' The great prin-
ciple of the South, the principle of
the war has left the South its own
memories, its own heroes, its own tra-
ditions, its own dead. Under these tra-
ditions sons will grow to manhood, and
lessons will be learned from the mis-
deeds of their fathers. It would be
immense to the worst consequence
of defeat in this war that the South
should lose its moral and intellectual
distinctiveness as a people, and treat
as the death of the South the death
of its civilization, in political scholarship,
and in all the standards of individual
character over the people of the North.
That superiority has been recognized
by every foreign observer, and by the
intelligent everywhere."And in another portion of the book
may be found the following:
"The truth is, Jefferson Davis was
never a traitor, and his tormentors
knew it. He could not have been a
'traitor' to the new 'nation' for it has
never existed. The fame of Jefferson
Davis is secured. The overthrow of
the confederacy no more proved that
the principles upon which it was
founded and the objects its founders
had in view were wrong and those
who opposed them were wrong, than
the death of the sovereign of the
offering of Cain ought to have been
acceptable to God as that of his mur-
dered brother. Jefferson Davis in
manacles at Fortress Monroe, a specta-
cle to heaven and earth, did not
more prove that his governmental the-
ories were false and his practices trea-
sonable than did Jesus Christ 'lifted
up' on Calvary, with 'the crown of
thorns' upon his sacred head, the rug-
ged nails in his hands and feet, by
which he was secured to the cross of
crucifixion, between two thieves, and
in the midst of his enemies perished
the 'hegates of hell' had prevailed against
the councils of the Eternal Father, and
the death of the sovereign of the uni-
verse! * * * The South has borne
all. Mr. Davis has borne all. They
survive! The South is raising from
her ashes, and she grasps the sceptre
of power!"The Scottsboro, Alabama, Herald
makes the following editorial compar-
ison of these candidates for president
that was evidently not intended for
northern readers:
Oh, yes, Gen. Hancock was a federal
soldier, and fought in the Union army.
He belonged to the military service of
the country, and it was his professional
duty to follow the states and stripes in
obedience to the command of his su-
periors. He did his duty. Gen. Gar-
field quit the vocations of teacher and
preacher, volunteered his services (as
the Gen. Weaver of the Greenbackers
to fight in the federal army, and aid in
conquering the south and establishing
the perpetuity of the Union. So far
the candidates for the presidency are
on equal footing, except that Hancock
was without choice, and Garfield was
Weaver volunteered their services.
How was it with Gen. Hancock? He
was the very first man in position un-
der the government to claim for the
country, and to support the oppressed
southern people the right of self-gov-
ernment within the legitimate sphere
of states under the constitution. Gen.
Hancock, as military commander in
Louisiana and Texas, demanded for
the state of Louisiana, and for Texas,
claimed, or desired, after the sur-render. There has been no issue be-
tween Gen. Hancock and the southern
people on the results of the war. There
need and should be no hesitation on
the part of Confederates in the
support of Gen. Hancock. He
fought in the Union and for the Union
until the war was over; he then made
a courageous, manly and noble fight
against his present opponents and the
Republican party for our most sacred
rights, more dear to us by far than all
rights that were lost in the war. Let
it be borne in mind, too, that Gen.
Hancock was not the federal general
who was the cause of the war, but
to take from the common treasury of the
country and labor of the whole people
of the Union the immense and un-
heard of sum of \$200,000,000 as a gift
to federal soldiers, as a gratuitous re-
ward for the subjugation of the south-
ern people.

ADDITIONAL LOCALS.

There is a fruit drying establish-
ment, near Galien where they buy ap-
ples of all kinds, barreling and ship-
ping the best, drying the second grade
and make the poorer ones into cider.
Those that are dried are pared, cored
and sliced in the form of a spiral spring
at one operation of the machine.
These spirals cut through with a knife
and the rings dried and when dry,
bleached with sulphur fumes, so that
they are as white as before being cut.
The operation disposes of many apples
that have heretofore been considered
good for nothing but cider, in a profit-
able way.

Grand Temperance Mass Meeting.

Capt. J. F. Linscott will speak be-
fore the Red Ribbon Club on Friday
evening at Kinyon's Hall, also Satur-
day evening and Sabbath morning and
evening, at Rough's Hall, at the ring-
ing of the church bell, good music will
be furnished. All are earnestly
invited to come out and hear the live
temperance issues of the times ably
discussed.

UNION OF TEMPERANCE WORKERS.

FATAL ACCIDENT.—A sad accident
occurred in this place last Thursday
afternoon. Liberty Dragoon, Bert
Tourje and Daniel Wagner were com-
ing from the slaughter house with
Dragoon's team hitched to the market-
wagon, and just as they were crossing
the cross-walk at the bow of the
hill they applied the brakes, and the
grating against the wheels fright-
ened the horses when they started
to run away. When they were op-
posite Mr. Alexander's house Mr.
Wagner jumped out, striking on his
feet, and with his back toward the
team, and the momentum throwing
him violently to the ground. He was
taken to his home with the blood run-
ning from his ears and mouth, and in
an unconscious state. He did not re-
turn to consciousness, but died about
9 o'clock, or about four hours after the
accident. Mr. Wagner was about 40 years
of age, in the full vigor of life. He
leaves a wife and one child, besides a
lot of friends, to mourn his loss.LAST Monday was Stephen Scott's
sixty-sixth birthday, and a number of
his friends took occasion to apprise
him of it by visiting his house in the
evening, enjoying a pleasant party chat,
and partaking of refreshments prepared
by Mrs. Scott. They also brought with
them presents, of which the follow-
ing is the list, with the names of the
donors:
Rocking chair and smoking set. Mr.
and Mrs. C. H. High, Barnum Brothers,
Mr. and Mrs. C. F. Howe, Mr. and Mrs. E.
M. Plimpton, Mr. and Mrs. Wm. Hazlett,
Mr. and Mrs. Wm. R. Rough, Mr. and
Mrs. F. Franklin, Mr. and Mrs. J. H.
Roe, Mr. and Mrs. Whitman, Mr. and
Mrs. W. O. Hamilton, Mrs. S. A. Howe,
Mr. and Mrs. J. M. Rough, Mr. and

naple syrup Mrs. Lucina Bradley.KILLED.—The Pacific Express which
passes this place going west at about
6:30 yesterday morning, ran against a
man between the west switch and the
semaphore, killing him instantly. The
body was taken to the baggage-room
and a jury summoned. In the exami-
nation of the body it was found that
his neck, left leg and left arm were
broken. The description of the man
is as follows: Age, about 35; height,
5 feet, 6 in.; weight, from 130 to 140
pounds; hair, light brown, sprinkled
with gray and sandy whiskers; light
complexion; hazel eyes; teeth sound,
and irregular in lower jaw; was dressed
in bombazine coat, vest and pants,
with outside pants of tweed, gaiters,
cotton half hose, white felt hat, cotton
over-shirt and woolen under-shirt. A
note-book containing notes of meas-
urements for tailor's work, and on the
first page the name, "W. Schoop, De-
troit, 1880." Also a recommendation
to some person in St. Louis, that the
bearer be given employment. In a
leather grip-sack he was carrying was
found a large pair of shears, tape-meas-
ure, 18-inch rule, and some tailor work
partly finished besides a few other
traps of minor importance. On the
body was found \$7.50.[Berrien Springs Era.]
One of the most brilliant sorcerers
witnessed for some time passing over
this place Saturday night, and was
seen to be a loud noise. Careful
calculations based on the time
elapsing between the explosion and
when the report was heard indicated
that it was fifty miles away.

"Too Much Used."

WASHINGTON, Sept. 8.—A copy of
the True Issue, a professional paper pub-
lished at Birmingham, Ala., has been
received to-night by the editor of the
Berrien County Record. It is a paper of
Hancock and English standing, and at
the head of its editorial columns, and under
them it prints the following remark-
able admission that the charge of gross
fraud at the last state election are true:
It is amusing to read the many dif-
ferent reasons given by the papers for
the vote of Alabama in the recent elec-
tion. Securely any two of them agree,
and all seem anxious to persuade the
world that there is a reason. None as
yet have given the true one. This would
be damaging. It is necessary, however,
that the public should know the truth.
The light of the people; they already
knew it and regret that it exists. They
also regret that it is necessary to make
so many and so various excuses for
the result of an election in this state.
They realize the fact, and regret it
also, that great damages have been
done to Gen. Hancock in his race for
the presidency by the put up majority
of 35,000. The cry of fraud has been
raised by a chorus of writers, and is
repeated throughout the land, exag-
gerated doubtless, and it is telling
fearfully against him in the north, and
blighting his fair chances that were
bright up to the time of the manipu-
lators. They realize that it is necessary
to make so many and so various excuses

The Odd Fellows' hall at Hills Corners, is to be dedicated to-morrow. Mr. W. I. Hines will conduct the ceremonies.

THE M. E. church in this place is undergoing quite extensive repairs, by way of new paper and other extensive internal improvements, and in consequence there will be no services there next Sunday.

BUCHANAN school district contains 106 more children of school age than Dowagiac, yet we are informed that Dowagiac employs one more teacher than does Buchanan.

SHARES of stock in the Welling Plow Company are being advertised for sale at a discount. That doesn't look as if that plow was such a rich thing as it was last spring.

THE Mirror accuses Mrs. Alexander, of this place, of being a Democrat, because she distributes the Mirror and other democratic documents as they are directed. Does she appreciate the compliment as such?

THE first number of The Expositor, a new Democratic paper that has been born in Benton Harbor, put in an appearance Monday. Mr. McINDOCH did not succeed in purchasing the locomotive of the Toledo & South Haven R. R. Co., and it is now decided that the company will pursue the more sensible policy and buy a new one. It will cost a little more at first, but it is bad policy in any thing, it is buying second hand machinery of any kind.

FRUIT GROWERS, at the mouth of the river complain that the market in Chicago is glutted, and their fruit brings little or nothing. When the St. Joseph Valley railroad is completed, it will give them an opening for their fruit in another direction, to supply the Southern market.

There will be a regular meeting of the Red Ribbon Society at Kinyon's Hall, on next Friday evening, Sept. 17. Capt. J. F. Linscott will deliver one of his celebrated lectures on Temperance, and narrate in his telling and effective way the great evil of intemperance in its great and destructive ruin of thousands of precious souls every year, and what will be the eventual condition of this great nation if its alcoholic traffic is not checked. Come everybody, bring your children, and tell your neighbors to come, and we will guarantee them a full recompense for their attendance. Admission free.

A. J. ECHYANER, Pres. W. E. PLIMPTON, Sec.

MARSHAL HATHAWAY found David Decker of Niles township, on Second street, near Amos Evans' house, Monday night so drunk, that in order to get him to the cooler had to load him into a hand cart and wheel him over. Decker stayed there until morning, and when Homer went to get him, to take before the Justice, he stepped out while Homer was locking the cell, and took leg bail, for the south, and thus cheated DeMont out of a boarder for ten days.

WITHIN the last two months we have had two fires, and at each the fire company has come on to the fire with too short a hose to be of any use. The first happened to be one in which it was not needed, but the second one, Tuesday, was not that kind, and the situation was rather embarrassing. A good plan would be for those who have the hose in charge to see to it that more hose is made ready for use. It is easier to leave out a section that is not needed than to go for more.

FIRE broke out in B. D. Harper's house Tuesday forenoon, damaging the house to the amount of about \$300. There was no insurance. The fire originated from a stove pipe that was sticking through the roof of a kitchen that was built on the south end of the house, although the pipe was supported by a tin chimney. This is a good place to remark that about every third house in this place has just such an arrangement as this, and are just as much exposed as this was, and this is a splendid warning to those who have such arrangements to change them.
